The residence of B. C. Mullins near Pine Hill, was destroyed by fire last Sunday morning. The fire is supposed to have caught from a defective flue. The barn also burned. There was some insurance, but we have not learned how much.

Thru Fred Owens austling an electric piano and electric fans have been added to the moving picture show at Mutt & Jeff opera house. This installation is quite an improvement. There is a nice breeze blowing from the fans throughout the time of showing, making it comfortable and pleasant to the patrons.

THERE are plenty of fellows who could teach a better school than those who teach, preach a better sermon than those who preach, run a better business and publish a better paper than those who do their best. Yet the woods are full of them, but they neither teach, preach, run a business nor publish a better paper.

THE ROCKCASTLE: Work has been resumed on the foundation of the proposed new hotel, on the site of the old Miller house, formerly Newcomb Hotel at corner of Main and third streets.

The name selected for the new hotel will be "The Rockcastle." Contractor J. W. Rider says his choice is appropriate at all the many suggested names from the fact that most all the material to be used in its construction will be procured in the county, as far as possible; such as lumber, building stone, sand stone etc; all the work to be done by native masons, bricklayers, carpenters, roofers, painters, paper hangers and laborers.

The building will be 46 by 99 feet, three, three stories, including basement. The plans show that it will be quite commodious and will be the most conveniently arranged hotel property in this end of the State or anywhere in the whole state for that matter. A description in detail will be given in next issue.

The license fee had been placed at \$1. per day for all vehicles except automobiles which was to be taxed \$2. per day. The Board says the ordinance was passed, in the interest of horse-drawn vehicles and the owners thereof had seventeen varieties of jimminy fits and raised four kinds of a hullabaloo about it so they say the board will just lay down the bars and make it an open free field to all and may old nick tickle the heels of the hindmost.

FOR WOMEN ONLY.

This is the nature of Dr. Pierce's Favorite Prescription—the one remedy for women which contains no alcohol and is habit-forming. Made from native medicinal forest roots. Dr. Pierce tells us every ingredient on the bottle-wrap is present. Prominent physicians and some of the best medical authorities endorse these ingredients as being the very best known remedies for ailments and weakness peculiar to women.

It was Miss Mrs. GEORGE E. COOPER, of Longstreet, Ky., says: "I feel it my duty to write and tell you what your medicine has done for me. I was a great sufferer for six years from a terrible pain in the back, but I am thankful to say, after taking four bottles of your Favorite Prescription I am now healed with that dreadful disease. I feel like a new woman. When I first wrote to you, I said I only weighed 115 pounds—now I weigh 135. I thank you very much for your kindness. You have done for me a better thing in advising me what to do, so my dear friends, try it in every effort you put forth for good."

"I hope this is not too late for the means of some poor sufferer who is still in need of help."

Dr. Pierce's Medical Adviser newly revised up-to-date edition, answers hundreds of delicate questions. Send words, your name, single or married, ought to know.

DRUG STORE

Here are several reasons why I trade at C. C. Davis' Drug Store:

- BECAUSE—Quality considered, his price can't be beaten.
- BECAUSE—There are no delays; customers receive prompt attention.
- BECAUSE—Things we get at Chas. C. Davis' Store are all right.
- BECAUSE—Things that go wrong bought at "Chink's" place will be made right.
- BECAUSE—The poor man's dollar is worth just as much at Charley's place as the rich man's.
- BECAUSE—There are no leaks from his store; every deal is strictly confidential.
- BECAUSE—Chas. C. Davis is never grouchy if you don't buy.

It might prove of interest to many to know what first gave rise to the thought of having a Fair in Rockcastle County 15 years ago when Fairs in the neighboring counties were almost unheard of, and father to know the names of some of those who were the promoters, to whom much should be attributed for the success of the institution in its early days.

The success which prior to Fairs, always made the Fourth of July Celebrations noted at Brodhead, the immense crowds that always attended, and the great desire of the people to come to Brodhead, led the people to believe that a Fair could be made a success. This idea was most forcibly impressed on the minds of R. H. Hamm, A. E. Albright and A. J. Haggard, com. in charge of the picnic July 4th, 1896, when after making preparations for a great Picnic the rain decimated in torrents most the entire day. This a matter of fact destroyed the days prospects, and the committee was feeling very blue from the fact they had a nice little sum of money tied up in refreshments to be sold on that day not with standing the 4th was on Saturday it was announced by the management to those who had come to attend notwithstanding the rain that the Picnic would be held on Monday and the report spread, to the surprise of the management even, at an early hour they found the small grounds which was located in the part now used as a grave yard and no room at all to spare, as stated before it was thought if the people were that anxious to come to a Picnic Fair surely could be made a success, consequently a meeting was called for the 13th, of July to discuss the prospects for having a Fair the same year.

F. Francisco was called to preside at the meeting as temp. Chairman and the following officers and directors was then and there elected E. E. Protheroe, Pres., J. W. Tate V. Pres., R. H. Hamm Sec'y. and A. E. Albright, Treasurer, A. J. Haggard, J. M. Roberts and F. Francisco directors. The date of the first fair was set for the last two days in September and first-day of October and work in earnest began.

The land which is the Fair grounds proper today was contracted from J. H. Albright the amount paid was to be \$100, same to be paid out of the earnings of the first fair. Also all the contracts for work building were to be made after the fair, this was necessary for the amount of capital stock at this time was \$41, paid in by R. H. Hamm, E. E. Protheroe, A. E. Albright and J. J. Brown \$10. each and Thos. Baker \$100. It might be noted here that success was the least bit doubtful in as much as the capital stock was subscribed for very slow until after the first fair, except those who worked out their shares which however were many, as some furnished lumber post, some anything that could be used and accepted stock in return. The work advanced nicely contract for building the fence was awarded F. Francisco for which he was to receive \$185 which would not make a beginning today, he furnished 1732 ft. of one inch boards 4500 ft. runners 260, post in his contract and the fence is standing and being used today and is in fair condition.

A. J. Haggard was selected as foreman of the trackwork, and he was allowed to pay 75 cents for labor \$1 for man and tool, for his needlessness to say he proved himself as an efficient civil engineer as he does a Judge today for the track is as near perfect as found at any small fair. J. M. Roberts, W. A. Tyree and B. A. Yaden were the Com. to have the buildings erected and they were allowed to pay \$1 per day for carpenters. The buildings are yet in fair condition with some improvements from time to time. J. W. Tate furnished the most of the lumber for the buildings. R. H. Hamm was the Secretary and he tells us he spent most the entire summer on his job, and received for his services \$25, which was the salary of the Sec'y for several years.

It would be needless to say the enterprise proved a big success all expenses were paid the first year, and a small dividend declared, since that time the Brodhead fair has been considered the biggest event of the county and it is often said every thing dates

now from the Brodhead Fair. Amount of capital stock has increased itself to about \$1000, and little effort has been made to sell when Fairs in the neighboring counties were almost unheard of, and father to know the names of some of those who were the promoters, to whom much should be attributed for the success of the institution in its early days.

Through the entire energy of those who have always been ready to put the fair, the host of people from Brodhead has shown those who attended, the desire for a home coming for those who happened to be away, and those who like to meet their friends all have gone to make up the unbounded success the fair has been. The following men has served as Sec'y and they all know what it means to put on a fair. Mr. Hamm served the fair two years, J. W. Tate two years, I. Thos. Cherry three years, A. E. Albright two, John Robins two, A. M. Hiatt one.

It is generally decided however that the best fair map in Brodhead is that of A. Yaden, who has always had charge of the grounds and watched the interest of the fair in general. There has never been an accident on the ground that resulted in death, only two or three small injuries, has never been any fights or disorderly conduct worthy of mention attending and interest continue to grow from the first fair until now. It was estimated that last year there were at least 3000 people in attendance. This year bids fair to be still better than ever before, the premium list is to be doubled and in many instances tripled, it has been decided that for the sake of a change some good races will be had this season.

The officers believe in changing the programme every few years therefore every thing will be different this season new attractions something the people will want to see. The best party days will be this year and the dates are Aug. 13, 14 and 15, every body remember the dates, and come. Adv.

A Square Deal in Clothes

ONE hundred and thirty-seven years ago every man in America was granted a square deal and an equal opportunity.

Just seventy years afterwards—in 1846—the makers of Clothcraft began to offer the men of this country a square deal in clothes. They were the first in the field, for no other American manufacturers of men's clothing were in existence at that time.

The idea of the Clothcraft makers was and still is to produce men's clothing at medium prices with a guarantee of all-wool and absolute satisfaction in every detail.

Sixty-seven years of honest, painstaking effort went into the working out of this

idea. During this time the Clothcraft makers developed unique scientific tailoring methods which greatly improve the quality of the clothes without increasing the cost. The neat, dressy, durable Clothcraft suit of today, literally grew out of this idea and this effort.

Wear a Clothcraft all-wool suit this summer at \$10 to \$25 and treat yourself to a square deal in clothes. If you are not fully satisfied with its style, fit and wearing quality, we stand ready to make it right with you.

DURVEY OF BOONE WAY.

RECOGNITION MADE BY GOVERNMENT ENGINEER

Highway Engineer James T. Vashell of the Office of Public Roads, U. S. Department of Agriculture, Washington, L. C. made a reconnaissance survey of Boone Way, the proposed national highway from Crab Orchard to Cumberland Gap, this week by driving over the route. Leaving Mt. Vernon Monday morning he returned to Crab Orchard returning here on noon train, thence to South by baggy. Our Commercial Club thru its secretary and other members of the club look after the comfort of the government representative while here and gave him all information at hand on the subject in which we are so deeply interested in and wish him a pleasant voyage over that highway made famous by our old frontiersman Daniel Boone the old Wilderness Road and Boone's Trail, the path over which the great Indian fighter traveled 138 years ago.

The first stop made by Mr. Vashell was for the right, and at East Bernstadt where he was welcomed by J. W. Creech, Saml. Bastin, Dave Nelson and others and sent on his way next morning to London where the Commercial Club, including H. C. Hazelwood, E. H. Johnson, Judge Angel, Joe Young and others did the honors for the capital of Laurel and sent the traveler on to Barrowsville where he remained overnight under the charge of Judge James D. Brock, Ben Dishman and H. C. Faulkner; doctors G. H. Albright and William Burnside and the business men of that thriving mountain city. The afternoon of Wednesday found the engineer at Pineville being looked after by Pineville's leaders C. W. Metcalf, John Pearl, D. B. Logan, Wm. Ayers, Wm. Lave, Jackson, Morris and others. Thursday Middleboro was the next. Among its citizens who looked after the comfort of the Boone Way traveler was R. C. Ford, Judge J. R. Sampson, H. C. Chappell and Commercial Club. Mr. Vashell left Wednesday for Washington where he will make a report of his observations and investigations into the feasibility of constructing the proposed National highway.

In talks with this engineer it was shown that the construction through Rockcastle would not be very difficult or heavy and that all the material to be used for the line is virtually lying by the roadside. In Laurel and Knox there is plenty of sandstone for making the bed of road but the top finish, limestone, which would have to be shipped from Rockcastle, whose supply of that excellent material is sufficient to build roads cross-country every state through the United States and then plenty to spare for Canada and Mexico. Big stone crushers in the county are today crushing and turning out 50 car loads or nearly 200 yards daily, which is used by the railroads and others for ballast and concrete purposes.

This is one step further in the progress of the work being done by the Mt. Vernon Commercial Club in its efforts to secure government aid in the great work of putting a first class road over the old Wilderness route. Much credit is due Senator W. O. Bradley, the fighter and defender of Kentucky's interests and especially of this the South Eastern portion of the state whose people were so long misunderstood by those few to the north of us. Senator James is collaborating with Senator Bradley in this work backed by the Kentucky delegation and congress men from other states, as well as assistance of speaker Clark and other notable men of influence and Commercial bodies of the principal cities of six states.

Doonee Way is a proposition.

MEN of the type of General May, who was electrocuted a few days ago at the Eddyville penitentiary, are disappearing from the mountains.

Varying influences are responsible for their disappearance. In the first place the mountain country is developing, in more ways than one, and "the old home ain't what it used to be." Railroads have come into isolated localities and schools and churches have increased in number and usefulness. Industries follow the railroads and the people of the mountains are busy. The children are going to

school with their parents and leaving themselves to gainful occupations. Time does not hang so heavily on the mountaineers' hands as it once did. He has leisure to devote to the pursuit of his personal emetics.—Courier Journal.

THE WAY OUT

To-morrow will be the first of July. It is a date of rather wide-spread interest this year by reason of the fact that it will mark the beginning of the three days' celebration of the fiftyth anniversary of the Battle of Gettysburg and would have marked a reversion for the Union and Southern Pacific railroads had not the President, at the eleventh hour, taken over the problem of the dissolution of the merger of the two roads in compliance with the Supreme Court's decision and found a way out. That the plan will be accepted by the United States Circuit Court, to which it is to be submitted, today, has already been accepted by Wall street as a fact accomplished, and in this instance, Wall street's assumption is right.

Under the plan as approved \$28,000,000 of the Baltimore and Ohio railroad now held by the Pennsylvania will be exchanged for an equal amount of Southern Pacific, held by Union Pacific. The remaining \$88,000,000 of the Union's holdings of Southern Pacific will be placed in the hands of a trustee, to be sold to the public and will carry no voting privilege.

Not the least notable result may be expected to follow will be a transcontinental line made up of Pennsylvania and Southern Pacific and, not improbable, a second transcontinental line made up of Union Pacific and Baltimore and Ohio. That such a result would mean a new and greater chapter in the history of railroad development in this country goes without saying.

The immediate result will be the demonstration of the fact that the Sherman law can put an effective end to unlawful combinations, a result which the Standard Oil and Tobacco cases left in doubt and which will greatly lessen, if it does not relieve, the difficulties ahead of the Democratic party in dealing with the trust question.—Times.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only Constitutional cure on the market. It takes internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

SURPRISING CURE OF STOMACH TROUBLE

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stearns, Plain field, N. J. writes: "For over a month just before I was troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising books came to me. After reading a few of the letters from people who have been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of Chamberlain's Tablets, and can now eat almost everything that I want." For sale by all dealers.

THE BEST MEDICINE IN THE WORLD.

"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhea Remedy cured her, and I truly say that I think it is the best medicine in the world." writes Mrs. William Orvis, Clare Mich. For sale by Chas. C. Davis.

"They say" "Have you heard? The west is going to give short notice! But they have done more damage than all the rest of the dictionary rolled together! They have wrecked homes and broken hearts. They have ruined promising careers and thrown business firms into bankruptcy. They have disrupted churches and planned old froods and bitter feuds. They have driven men to drink and women to insanity. They have robbed innocent little children of their parents and sent young girls, broken-hearted and unwedded, to their graves. They have turned merely foolish girls into wicked ones and they have sent innocent men to prison. And they belong particularly to the vocabulary of women. They are peculiarly the weapons of the so called gender sex.—E. The stronger sex is in the mud also."

A young lady who taught a class of small boys in Sunday School desired to impress on them the meaning of returning thanks before a meal. Turning to one of the lads, whose father was a deacon in the church asked: "Earl, what is the first thing your father says when he sits down to the table?" "He says, 'Go slow with the butter kids, it's forty cents a pound repaid the youngsters."

A GOOD INVESTMENT.

W. D. Magli, a well known merchant of Wheelmond, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. Vernon, Ky. E. S. ALBRIGHT. Subscribed and sworn to before me this 3rd day of July, 1913. A. B. FURNISH, Notary Public. My commission expires Feb. 2 1914. THE city editorial writers make too broad an application of the word mountain. All communities throughout the mountains are no more the same than are those of the Blue-grass or Penny-rile nor any more if as much lawlessness to the square inch. THE U. S. government has taken notice of the Boone Way idea and is looking into it.
