

MT. VERNON SIGNAL

MT. VERNON, KY., Sept. 5, 1913

TIME TABLE table with columns for north and south directions and times.

PERSONAL

Mc Ballard is in McKee's... Mrs. T. C. Duke has been very sick... John Shepherd of Lebanon Junction was here yesterday.

John D. Miller was home during the week... Will H. Fish was in London, taking Sunday.

LOCAL

Swan Hats in the new Fall Styles are ready at Fish's... W. T. Todd will open a barber shop in the place recently vacated by Cox and Mashal.

The Royal Amusement Co. with a merry-go-round, shows, etc., will pitch tents on Willis McKeen's lot on Richmond street.

Two of the large prate glass of Sutton & McBoe's store front broke Tuesday night, seemingly without any provocation.

Cox and Mashal are now located in their handsome new quarters, the customers who were their Postoffice, prepared to serve their customers with the best in their line—a good shave and a hair cut at same old price 25 cts. for hair cut and 10 cts for a shave.

The Mt. Vernon Telephone Co. has contracted for a big new switchboard for Mt. Vernon exchange which will be installed between the 15th and 20th of this month.

Dr. Luck, the bookworm specialist has completed his labors in Rockcastle. In all there were about 3,700 people examined.

Neal Parrott is a Lewisburg, Tenn., sportsperson, the champion of a large rock crushing plant for the W. J. Sparks Co.

They Morey the well known Fertilizer salesman and Progressive nominee for Representative was in town during the week.

Mr. Frank Longmire informs us that he will leave Mt. Vernon in November and locate on a farm which he recently bought in Pennessee.

Master Kenneth Oatts has returned to his home in Monticello after spending the Summer with his grandparents, Dr. and Mrs. W. T. Francis.

Misses Alza Thompson and Julia Fish and Messrs C. D. Sutton and F. L. Thompson were with Miss Rilla Thompson near Danville, from Friday until Monday.

Judge S. D. Lewis returned Wednesday night from Battle Creek, Mich. and reports Mrs. Lewis very much improved. He also says that Judge B. J. Botham is almost himself again.

BROADHEAD.

The High School will conduct an Agricultural Fair at this place probably this fall, probably in November. Prizes given by companies engaged in the manufacture of Agricultural Implements will be awarded to farmers showing the best farm products such as corn, pumpkins, potatoes, wheat, etc.

LEVEL GREEN.

Work's progress nicely on the new church house at Flyeh-ships and it will soon be completed. Miss Mary Mae Latham returned from Louisville, Saturday, where she had been to a specialist and had to undergo a slight operation for some throat trouble.

Mr. and Mrs. Athel Becker and little son Lowell, of Missouri, are visiting relatives and friends here. —Chas. Vanhook has a position as section foreman near Winchester, and will move his family there of Sunday, and as expected, his children of Somerset, spent last week with her parents—Master James Reynolds was very sick a few days last week.

Mr. and Mrs. Shively Tate have returned to their home in Morris-town, Tenn. after spending several weeks with her mother. Miss Linda Beaton—Miss Jizzie Storm has returned home after spending the past month with relatives in London and Keavy.—Mr. and Mrs. B. R. Willard and Mr. and Mrs. J. Allright, spent the day Sunday in Manchester, Ky. —Miss Amy J. McCull—Miss Amy Proctor is down from Mt. Vernon spending a few days with Mr. and Mrs. J. W. Proctor.

Misses Rita Sowler and Dolie Owens are in Danville this week. —Miss S. Snodgrass of De Wever, Colo., is here for a few days visit. —Mrs. A. K. Prothro and niece Miss Havana of Chicago, Ill. are spending a few days with Mr. and Mrs. R. S. Martin this week.

Miss Ina McCoy, of Mt. Vernon, is the guest of Mr. and Mrs. Marshall Smith this week. —Miss Ada Ward has returned home from London, after spending the past two weeks with relatives—Joe Riddle, of Walnut Grove, spent a few days with relatives the latter part of the week.—Mrs. James Owens has been very sick for the past week.—Mrs. J. H. Bohannon spent a few days with Mrs. Daisy Hunt at Crab Orchard last week.—Miss Tempest Ward, one of our popular school teachers delightfully entertained a number of the young men of her most intimate friends at her home Monday evening. The lawn was beautifully decorated, and delightful refreshments were served at a late hour. All who had the honor of being present left praising the gracious hostess, and all felt grateful for being so beautifully entertained.

Mrs. W. D. Lasswell died at her home on Richmond street, at 3:30 p. m. Wednesday morning, after an illness of one week of erysipelas, and other complications. It came as a great shock to her best of friends and relatives, when the word was given out on Tuesday afternoon, that there was no possible chance for her recovery and that the final summons was only a matter of a few hours. Mrs. Lasswell was a daughter of Mr. and Mrs. George R. Reams, of this county, and was one of those kindly characters, that to know her was an inspiration and blessing. Besides her parents, she leaves a heart broken husband and five small children, one only two and a half months old. To them the entire community extends sympathy, and asks God's blessings in this sad hour of affliction.

The body was removed to the home of Wallace Lasswell near Orlando, a brother of the Doctor, to lie in wait for the arrival of her brother L. J. Reams, from Trenton, Mo., and this afternoon the burial will take place at the family burying ground near their old home at the late services to be conducted by the Rev. T. C. Dale.

FOR SALE.—One good horse, some corn and some farming tools, etc. See Raper's Manifest, on Renfro Creek. Aug. 28/13.

The Mt. Vernon Christian Endeavor Society will meet at the Presbyterian Church, Sunday evening at 6:45 p. m. The leader will be Miss Ruth Morrison. You are most cordially invited to attend and take a part in these meetings.

On Saturday September 20, 1913, I will offer for sale, to the highest bidder at my home on W. Main St., Mt. Vernon, a lot of home held and kitchen furniture, some doors, and heating stove. Sales privately if desired. My home and two lots are also for sale privately on any day.

Dr. Pierce's Golden Medical Discovery.
Several months ago I suffered from a severe pain-
under the breast-bone," writes Mrs. O. M. Atkinson,
of Corcoran, Calif. "I had suffered from it off and on for
over a year. I also suffered from heart-burn, did not know
what the matter with me. I had several medical treat-
ments but they did me no good. Finally, I was told to
buy Dr. Pierce's Golden Medical Discovery. I took
one bottle of it, and I can feel myself getting better
every day. I could eat a little without pain and dis-
agreeable taste. Today I can eat and work and do a
day's work with ease. Can eat anything and have it
do me no harm. I will say to all sufferers write to
Dr. Pierce. He has my undying gratitude.

Mrs. Atkinson.

DRUG STORE

Here are several reasons why I trade at C. C. Davis' Drug Store:

- BECAUSE—Quality considered, his price can't be beaten.
- BECAUSE—There are no delays; customers receive prompt attention.
- BECAUSE—Things we get at Chas. C. Davis' Store are all right.
- BECAUSE—Things that go wrong bought at "Chink's" place will be made right.
- BECAUSE—The poor man's dollar is worth just as much at Charley's place as the rich man's.
- BECAUSE—There are no leaks from his store; every deal is strictly confidential.
- BECAUSE—Chas. C. Davis is never grouchy if you don't buy.

DISEASE IS PREVENTABLE

OUT OF EVERY HUNDRED DEATHS IN KENTUCKY, FIFTY-NINE ARE PREVENTABLE.

Most Diseases in Kentucky Caused by Consumption, Pneumonia, Typhoid Fever, Diphtheria, Measles, Small-pox or Gonorrhoea.

Lexington, Ky.—[Special]—Out of every hundred deaths in the state of Kentucky thirty-nine are preventable. says the Kentucky Tuberculosis Commission. And what is a preventable disease? It is one which is directly or indirectly spread from one person suffering with it to others. We know what most of these diseases in Kentucky are, viz., consumption, pneumonia, typhoid fever, scarlet fever, diphtheria, malaria, whooping-cough, measles, small-pox, cerebrospinal meningitis, syphilis, and gonorrhoea. Each of these diseases is caused by the growth in the body of a tiny organism commonly called a germ. These germs can not be seen by the naked eye, but under the microscope the shape, characteristics and habits of most of them have been studied, so that they are now as well known to physicians as are those of human beings or domestic animals. The eggs, bacteria, worms, etc. are also transmitted from person to person, but in this case the full-grown organism can almost always be seen by the naked eye. Since we know how these diseases are transmitted, it is perfectly possible to show them to the doctors, to prevent their spread.

FRESH AIR! SUNSHINE!

It's a lucky thing that God made so much fresh air; it does more for us than we ever imagine. Few things have so constructive effect on most disease germs, after they leave the body, as a slow, steady draft of fresh air. For instance, the germs of consumption will be killed by it. In less than twenty-four hours, considering the number people who roam about and spreading the germs of consumption, it is lucky for us all that the great air does so effectively and actively at work. Fresh air is also, on one side, the most important factor in the cure of consumption. The steady breathing of fresh air twenty-four hours a day, regardless of the weather, will do more to produce cure than any other single thing. The constant supply of fresh air purging the body of impurities, keeps the machinery of the body literally in "good fighting trim," and, at the same time, slowly and surely kills the germs as they pass.

INHERITED!

"The inherited consumption"! This is the way a great many people account for every case of the disease. If the parents did not have it, some times it is maintained that the disease was transmitted by inheritance from some more distant ancestor. This is the nonsense. The germs of the consumptive parents are not affected with the disease. However, when a case of consumption in the family is being ignorantly or carelessly handled at home, it is perfectly possible for a little child to be infected at an early birth. That, however, is not inheritance; a healthy adopted baby would suffer the same fate. It does not matter even if all of your relatives died of consumption, you need not necessarily travel the same dangerous road. If you will live as much as possible in the open air, eat plenty of simple, well-cooked food, and so other, exercise, bathe and sleep regularly, and consult your physician as soon as you seem to be breaking down, there is no reason why you should die of consumption.

FOOD!

The three things necessary to cure consumption, beyond the advice and supervision of the physician or nurse are fresh air, rest and food. A patient must have fresh air twenty-four hours a day, and rest or exercise according to the orders of the doctor. The most important items in the diet are eggs and milk, because they contain the proportion of easily digested nutriment. A few years ago, the doctors reasoned that if a little of this highly nutritious diet in small bulk was good, it would be better; so in many cases, the patients were stuffed until their stomachs did not work properly. The question of diet is better understood; only so much of milk and eggs are given as the patient can easily digest. Of course, other foods are necessary, and are to be used in strict accordance with the doctor's orders. It is his business to know what things the patient can digest. A French physician, who lived in this country, gave largely on a diet of boiled ham and cabbage, experienced the natural result of steady eating. Remember, then, if you are a consumptive, to follow the doctor's orders strictly regarding the diet; and he does not prescribe a considerable use of milk and eggs, go to another doctor. Kentucky Tuberculosis Commission.

COUGH A BAD COLD

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Selz, E. Durand, Dixon, Iowa. "We thought since he was going into consumption, he ought to get a bottle of Selz's Cough Remedy and the one bottle proved his cough all cured. He's well completely."

THE LAST OF THE FAMILY.
ut of thirty-two members of three generations of this rural Kentucky family, this one survives. At least sixteen died of consumption, all in the same house. There was no money to give them adequate care. A sanatorium tuberculosis hospital, which could have cared for the first case and prevented the infection of the others, might have saved several lives in this one family.

The Italians have a saying, "When the sunlight is shut out the doctor is in." Fire, steam and a few powerful chemical agents, such as formalin, will kill disease germs as quickly as sunlight. The germ in the spit of a consumptive, exposed to the glare of the July sun for an hour or two, and, safe and harmless. Nor is the sunlight any more friendly to the other enemies of mankind. Consequently, leave your windows and shutters open for fresh air every day, several hours every day. If you are afraid it is going to fade the carpet, take up the carpet. Have your rugs cleaner and consequently more healthful any way. Instead of carrying your rugs and frequently open the windows to the fresh air and sunshine. Give the fresh air and sunshine as much access to your whole body as possible. Exercise out of doors daily, with garments no heavier than necessary. The fresh air and sunshine, as well as the exercise, will substitute the action of the sun's rays on the waste products of the body. Kentucky Tuberculosis Commission.

EXERCISE!

A person leading a quiet, sedentary life is healthy only by accident, unless he makes up for it by a little vigorous, open air, exercise. Cram a locomotive fire-box with coal, but do not touch the cylinder, and the engine will become so clogged as not to work properly. If it is not exercised, the waste products accumulate and the result is disease. Moreover, judicious exercise shakes up the organs of the body, and increases the blood circulation. It is in condition to meet the extraordinary emergencies which may come in the way of the patient. It diverts the mind from its ordinary cares and lets a man return with his thoughts and refreshed spirits to his tasks.

Ninety per cent of the women who bother the doctor with all sorts of more or less vague complaints, need nothing but a looser dress, a little garden, and a few Kentucky Tuberculosis Commission.

PLACARDED!

When the physician says "Scarlet fever" or "Diphtheria" and a patient gets it put on your front door, and you are not allowed to go out, and only the doctor goes back and forth, don't think that all this disturbance is useless, and intended simply to fill the pocketbooks of the doctor. These germ diseases are spread in ways so infinitely delicate that it is hard for the doctor to detect them. They often do not too little rather than too much care is exercised. If the bowel discharges of a typhoid patient are thoroughly disinfected by formaldehyde, quinquina, or other powerful chemicals before being thrown out, it is perfectly possible for the germs to be carried in water under ground, or by flies, through the air, for a long distance, to infect other people. The general rule, therefore, is to disinfect the clothes of the victims and months later, infect the person who chances to handle them. When the doctor's precautions advise you, remember that the "ignorance, carelessness or obstinacy of one of the members of the family for the disease in your family, and co-operate with your doctor! Kentucky Tuberculosis Commission.

DIARRHOEA QUICKLY CURED

"I was taken with diarrhoea and Mr. Yon's Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me. I was cured in ten minutes. I was cured in ten minutes. I was cured in ten minutes."

BANQUET TO THE NEW MINISTER TO PANAMA
Danville Citizens Give Testimony To Their Esteem For Hon. W. J. Price Before He Leaves

A most appropriate and delightful testimony to the love and esteem in which he is held at home, was given at Danville last Friday night when the Commercial Club of that city gave a banquet in honor of Hon. William Jennings Price, who left on Monday to take up his duties as Minister from the United States to the republic of Panama. More than 200 of the leading citizens of the town and county gathered to the banquet. The Minister Goddard on his journey and in his new home. President C. N. Smith, of the Commercial Club, acted as toastmaster. Toasts were responded to by several of Danville's business and professional men.

Resolutions were adopted highly commending Senator James for the appointment. The new minister was born in Lancaster, Garrard county, on December 15, 1873, but removed with his parents to Danville many years ago, where he has since made his home. He was graduated from Centre College in 1892 with high honors receiving the A. B. degree. He was given the A. M. degree by the same institution in 1895, and was graduated from the College of Law the same year.

Mr. Price was one of the founders and editors of the Centre College Cento, was a member of the Scribblers' Club and the Sigma Chi Fraternity. He was Democratic elector from Kentucky in 1900, and was twice elected Prosecuting Attorney of Boyle county without opposition, the district is one of the most politically active in Kentucky. He was a candidate for Congress against the late G. G. Gilbert in 1906 when illness forced him to retire from the race.

Saved Girl's Life
"I want to tell you what wonderful benefit I have received from the use of Theford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.
"It certainly has no equal for its grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Theford's Black-Draught made them break out, and she has had no more trouble. I shall never be without it."

THEDFORD'S BLACK-DRAUGHT
"In my home," For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Theford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.
If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

Don't Let the Weatherman Worry You

THE easily forgotten, usually borrowed, and frequently lost umbrella is a poor weapon against the whims and wails of the weatherman.

You are sorry if you don't carry it and bothered if you do.

For shine or shower one of our Clothcraft raincoats is just the thing. It's easy to slip on—no burden to carry—no easy to mislay or forget—perfect protection and comfort in rainy or rough weather—stylish and dressy on any kind of a day.

Clothcraft raincoats are guaranteed pure wool and rainproof. They will keep shape in spite of bad weather and hard wear.

We have them in your size in a variety of weaves and colors. Priced the same as other Clothcraft Clothes, \$7 to \$15—the saving will help to swell your rainy day fund. Don't wait for the next shower. Get one now.

RECONNOISSANCE SURVEY REPORT ON BOONE WAY (By JAS. T. VOSHELL)

A report has just been received on the reconnaissance survey made of Boone Way, at the request of Senator W. O. Bradley by an engineer from U. S. Agricultural Department. We give the report in full. The estimate runs up \$400,000 more than the original estimate made by the Mt. Vernon Commercial Club. This seems like a large pile of money but that is no reason why the appropriation should not be made when it is shown that causes of much less merit have received millions from the government for putting thru works that will accommodate a far less number of people generally than would Boone Way. It is claimed that if a corps of engineers were put in the field that by shunning the barter hills and following valleys as far as practicable that the cost could be materially reduced. It is proposed to introduce a bill at next session of Congress for the purpose of having such a survey made. The legislature of Kentucky will also be asked to appropriate \$200,000 toward the expense of the construction of the proposed highway.

Mr. Vernon M. H. Peto, Chief Engineer.

Pursuant to instructions a reconnaissance survey of the proposed "Boone Way" from Crab Orchard to Middlesboro, Kentucky, was made June 29 to July 8, inclusive, and the report is as follows:

The "Boone Way" is the name suggested for a proposed national highway to be built along the trail made by Daniel Boone in penetrating the wilderness of Kentucky. It begins at Cumberland Gap and extends in a north-westerly direction thru Middlesboro, Pineville, Barbourville, London, Livingston, Pine Hill, Mt. Vernon to Crab Orchard, a distance of 95 1/2 miles. Prior to building of the Knoxville Branch of the Louisville and Nashville Railroad this trail was improved and maintained under the direction of the state authorities, and was known as "The Wilderness Turnpike." The improvement consisted of building a fair earth road and corduroying sections where the mud would get so deep, during the winter and spring as to be practically impassable. Some short sections of this corduroy construction, is now in a state of preservation, although it was laid more than fifty years ago. This was the only road over which wagons could travel between the Cumberland and Ohio Rivers and was extensively used by the early immigrants to Kentucky and stage and freight routes were established over it.

After the above mentioned railroad was built the stage and freight routes were discontinued, immigration in wagons practically ceased, and the road was abandoned by the state and turnpike companies. On account of the population being very sparse along the road it was used very little, no work was done upon it, and today it is practically impassable in the mountainous section thru Rockcastle and Laurel Counties.

The road does not pass thru any extensive tracks of agricultural land. Much of the land is very hilly. The valleys, as a rule, are narrow and the plateau lands are small in area and not very fertile. Not more than ten per cent of the best type of soil, 20 miles of the road is now in cultivation.

The only post road on the route is a section about five miles in length which is a part of the Star route from Lilly east to Tazewell.

The area, population and assessed valuation of the counties thru which the road passes are as follows:

County	New Area	Population	Assessed Valuation	Value of Road in each Co.
Lincoln	218,320	17,897	\$5,000,000	3
Rockcastle	198,400	17,897	\$5,000,000	20
Laurel	286,000	19,872	\$5,225,000	31
Knox	227,840	22,154	\$4,000,000	23 1/2
Bell	245,750	28,447	\$7,500,000	21

When one takes into consideration the number of people living along the road and the comparatively small per cent of land, that could properly be classed as agricultural land, adjacent to the road, the conclusion will be that a road improved by macadamizing, etc., is not justified by local needs. It is claimed, however, that there is great need of a road for travel between the Ohio Valley states and the Southeastern States. Probably the Louisville and Nashville Pike is the best available route for such thru traffic at the present time.

Assuming that the need of a road for thru travel between the above mentioned sections is great enough to justify one being built it should be, at least, 15 feet in width. Following is an estimate of the cost of building a water bound macadam road along this route 15 feet in width, having a compact depth of 8 inches in the center and 6 inches at the edges. The only satisfactory surfacing material along the route is limestone, very extensive deposits of which occur in Rockcastle County.

ESTIMATE OF COST OF ROAD

LINCOLN COUNTY.

Length of road in County	3 miles
Grading, 3 miles \$1,000
Surfacing, 9702 tons of stone at \$1.50 per ton in place \$14,558
Cross Drainage 1,165
Total, Lincoln County	\$18,718

ROCKCASTLE COUNTY

Length of road in County	20 miles
Mt. Vernon to Lincoln County Line, 10 miles \$1200
Grading, 10 miles at \$1200 per mile \$12,000
Surfacing, 32340 tons of stone at \$1.50 per ton in place 48,510
Cross drainage 8,715
Mt. Vernon to Laurel County, 10 miles 8,000
Grading, 10 miles at \$8,000 per mile 80,000
Surfacing, 32340 tons of stone at \$1.50 per ton in place 48,510
Cross drainage 8,000
Total Rockcastle Co.	\$155,825

LAUREL COUNTY

Length of road in County	31 miles
Grading, 31 miles at \$5,000 per mile 1,550,000
Surfacing, 3240 tons of stone at \$2.10 per ton in place 71,140
Surfacing, 67,914 tons of stone at \$2.05 per ton in place 1,392,270
Cross drainage 96,265
Total Laurel Co.	\$363,685.70

KNOX COUNTY

Length of road in County	22 1/2 miles
Grading, 22 1/2 miles at \$5,000 per mile 70,500
Surfacing, 76,000 tons of stone at \$2.55 per ton in place 193,800
Cross drainage 16,000
Total, Knox County	\$280,300

BELL COUNTY

Length of road in County	27 miles
Grading, 27 miles at \$3,000 per mile 81,000
Surfacing, 67,914 tons of stone at \$2.10 per ton in place 142,619.40
Cross drainage 10,800
Total, Bell Co.	\$234,419.40
Grand total for entire road	\$2,024,419.10

MT. VERNON FAIR

[By Walter Q. Parks in the Saddle and Horse Show Chronicle of Lexington, Ky.]

The Mt. Vernon Fair Association has just concluded their second annual exhibition, which has been pronounced by all present as a great success. This association, which is deserving of so much success, is headed by a man of proper caliber for such a place. He is honest, upright and clever, makes friends with all he meets and as the head official deals fair and just with each and every one in any way connected and let it be known right here and now, he is justly being rewarded for such principles and works by the success of the Mt. Vernon Fair.

His ready attained Mt. Vernon is a place where a fair is needed, both for the education and amusement of the many folks round about in all directions looking to Mt. Vernon as the center and place for such things. They give their cooperation from beginning to end by always having a great attendance at the fair, and naturally it can be seen what responsibility rests upon such association that would have for its end the betterment of such a people and lastly upon the man that would head such an association. This need is also given for the benefit of all children who will think of

showing at Mt. Vernon. It is a good going bay gelding, nice clean place, very good premiums, indeed are offered, owned by Mr. Davis, the president of the fair. This horse won practically all his classes, most generally with some extra good ones as his opposition. The writer was honored by being appointed one of the judges for all the Rockcastle county classes. Three or four good riders were in attendance, but the mare Mary Booth, of Richmond, was easily the winner of these classes. She also won the 230 trot and came second in the free-trot and fifth or six horses contesting two or three of which had been miles all the way from 10 to 30, dry during the fair, truck meat and dusty and is only a quarter sound. During the free-for-all Mary was timed and went one best in 2:29, one in 2:32 and another in 2:32. She seemed to enjoy the admiration of the Mt. Vernon folks.

Next year be sure to send to Mt. Vernon for a catalogue and make them just one visit.

U. T. Sandvine was there with Bright Chief, County Gentleman, Nancy Pangle and one or two others. Nancy was winner straight thru of all her classes and some extra good shows. Silas Sandvine had three or four extra good horses, headed by a horse that would make some of the Lexington and Blue Grass folks wake up—a beautiful brown bay mare and tall, high styled, high going Rex McDonald stallion owned by Joe Gibson, of Somerset, Ky. He was winner of most of his classes and then not due to his being so easily excited and somewhat nervous, and excited.

Mr. Rev. Bandy and Walter Miller and quite a string of Mt. Vernon and surrounding horses, which cleaned up all the Mt. Vernon or Rockcastle county classes, were present and were greatly enjoyed by the people. Recommended by

SAFEST LAXATIVE FOR WOMEN

Nearly every woman needs a good laxative. Dr. King's New Life Pills are good because they are purely safe, and do not cause pain. Mrs. M. C. Duffin of NewLife Pills helped her troubles greatly. Get a box, to day, and be Recommended by
