Mrs. J. E. Pennington, wife of the map-sawing master, died at her home Wednesday. She was a daughter of the late John French and a sister of Tom French of the Wildie section.

The newest scheme for pushing the Boone Way is the printing of the map-sawing master with an appeal to the reader, on the bottom of letter heads. This is being used extensively here and is hoped it will be used by every business house on the Boone Way route.

Robert Nixon of the Wildie section broke the record a few days since when he sold to Wills Rogers of Paint Lick, one 3 months old heifer calf and a 4 months old bull calf for \$50. That is a record making price for calves raised in this section, but it is just as easy to raise the good ones as the sorry ones, say Mr. Nixon.

The Langdon Memorial School opened Monday with a full attendance. Most of the faculty for this year is new to us, but we feel sure that our progress etc. of the school.

One of the interesting features in the new Kindergarten, which has an enrollment of thirty or more.

The Graded School opened Monday under the most promising conditions for a most successful year work. The faculty is the same as last year, with one exception, that of Mr. John D. Henderson, who has the grade teacher's Miss Clark last year. The enrollment for the first day was little short of 250 and by next week, the enrollment is expected to reach the 300 mark.

The columns of this paper are open for a letter from the Graded School each week, telling of the work, progress etc., and we trust that some suitable person will be designated to look after this part of the work each week.

Crop Report Of Kentucky

ISSUED SEPTEMBER 10, 1913.

The general condition of crops in Kentucky as of September 1st is anything but encouraging. On August 1st an estimate was made by the various crop reporters in the State with the hope that rain would fall. Scattered rains did fall during the latter part of August, but they either were not sufficient or not soon enough to make the first of September estimate of the crops any as high as the estimate of Aug. 1st.

Corn has dropped to a condition of 58.4 per cent, which means but little more than a half crop, but dark tobacco has dropped to a condition of 54 per cent. A fall is 70 per cent cow peas 84 per cent soy beans 72 per cent of an average crop. The spring sown clover shows an average condition of 63 per cent. The leguminous crops have held their own better than any other crop during this drought. Blue grass is given at 60 per cent, orchard grass at 62 per cent and pastures as a whole are very fine.

Livestock has suffered very materially on account of short pastures and scarcity of water. The condition of horses is given at 99 per cent, cattle 83 per cent, hogs 85 per cent and sheep 92 per cent. The condition of poultry has likewise declined. Chickens are given as 92 per cent, turkeys 80 per cent and ducks 85 per cent.

All kinds of fruits have deteriorated. Apples are small, many dropping from the trees, and their condition is shown as 67 per cent, peaches 74 per cent, plums 58 per cent and pears 58 per cent. Garden conditions are deplorable, dropping to 44 per cent.

Abundant rain falls would not help anything as far as this year's crop is concerned. The present crop would grow worse instead of better should abundant rains fall now; the same is true of tobacco. The danger in the curing period for corn and for tobacco is in having an excessive amount of moisture. Rains now would only have a tendency to spoil what is left of these two crops.

Moisture is needed very badly for fall seeding, and will benefit next year's crop in this respect. Good rains would improve fall pastures. Water for stock is a serious problem in many localities and many fires are reported as a result of the dry weather. A match dropped in pastures in the condition in which they are at present is almost like dropping a spark in a powder magazine. The water supply in many towns in the State has given out, and fire losses as a result of the drought are bound to be great.

One hundred and fifteen estimates of the cost of growing an acre of corn show an average estimate of \$13.95. Last month's estimate of the cost of growing an acre of wheat was \$10.77. It is interesting to note that the general opinion is that it costs 23.79 more to grow an acre of corn than an acre of wheat. Last year's crop production in Kentucky was 30.4 bushels per acre. The present report would indicate a yield of about 18 bushels per acre for this year. Corn would have to bring about 77 cents per bushel on the average, based on this estimate of \$13.95, to pay the actual cost of production.

I. W. NEWMAN, Commissioner of Agriculture.

The Carnival has been to town. That's enough.

FOR SALE—Duroc boars, at \$15, each. The very best to be found. W. J. SPARKS, Mt. Vernon.

DIARRHOEA QUICKLY CURED

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose it was cured. I also cured others." W. E. Gebhart, Oriskany, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now I do all my housework, as well as run a big water mill. I wish every suffering woman would give

LETTERS FROM THE PEOPLE TO OUR SENATORS

A constant stream of letters is flowing into Washington to our Senators from Commercial Clubs, business and professional men and individuals from Louisville, Cincinnati, Indianapolis, Lexington, Danville, Knoxville, Asheville, Richmond and towns and counties along the proposed route as well as from various states thanking these workers to the good cause of Boone Way and requesting their continued efforts for the success of our great undertaking.

See Senator Bradley's in the list below.

UNITED STATES SENATE
COMMITTEE ON REVOLUTIONARY CLAIMS
SEPTEMBER 5, 1913.

JAS. MARSH, Esq.
Mt. Vernon, Ky.

DEAR MARKET:
You may rest assured that I am not going to leave any stone unturned to assist you concerning Boone Way.

Sincerely your friend,
W. O. BRADLEY.

Covington, Ky.,
Sept. 4, 1913.

Senator William O. Bradley,
Member of the Senate,
Washington, D. C.

My Dear Senator:—

As a Rockcastle boy, I desire to thank you most heartily for your efforts in pushing and directing the movement for the construction of "Boone Way" from Cumberland Gap to Crab Orchard. In my opinion, the cause is very meritorious and I hope you will continue your labors in its behalf.

I see you have made a speech, and as usual, you made a good one.

I am,
Very truly yours,
R. G. WILLIAMS

Covington, Ky.,
Sept. 4, 1913.

Senator Ollis M. James,
Member of United States Senate,
Washington, D. C.

Dear Senator:—

The greatest movement inaugurated within my knowledge, for the people of Eastern Kentucky, is that of the construction of "Boone Way" leading from Cumberland Gap to Crab Orchard. The highway is justly due these people and the construction of this road will be the greatest and most beneficial they have ever had.

With such a highway, built thru Bell, Knox, Laurel and Rockcastle, the local people will follow with many other prizes throughout each county, and roads are what these good people are sadly needing.

Senator, won't you put your massive shoulders to their wheels and help them haul the wagon out of the muddled mire of the road to a model pipe? It would be the very best investment the Federal Government ever made. It would greatly encourage the farmers of these and other counties, giving impetus to the business man, and let God send to the children, by providing them with means by which they could attend the high school at the County Seat and yet remain at the parent's fire side at night.

I learn that you have endorsed this movement and I most respectfully urge upon you to render all possible assistance to this very worthy cause in your power.

With highest personal regards,
I am,
Your friend,
R. G. WILLIAMS

Cincinnati, Ohio,
Sept. 5, 1913.

Senator W. O. Bradley,
Washington, D. C.

Dear Sir:—

We note with pleasure the interest you are taking in the matter of the "Boone Way," the project which is being supported by the Mt. Vernon Commercial Club, of Mt. Vernon, Ky.

tucky and Tennessee, and from the opportunities offered to study the conditions, our Committee commended the improvement of the "Boone Way" project. This endorsement was conferred by the Board of Directors of the Cincinnati Chamber of Commerce.

We hope that you will be successful in your efforts to secure the support of the United States Government, as we feel certain this improvement will not only benefit that part of the State of Kentucky, but the interests of Cincinnati and surrounding territory will also receive benefits, for the reason that Eastern Kentucky is one of the best markets for our merchants. We are therefore interested in all improvements and advantages gained by our "sister" state of Kentucky.

The writer is a resident of Newport, Ky., and that is another reason why I am particularly interested in our Grand Old Commonwealth getting her share of Uncle Sam's support and favorable consideration.

Yours truly,
Wm. T. JOHNSTON,
Chairman Trade Expansion Committee, Cincinnati Chamber of Commerce.

DEMONSTRATION IN THE USE OF HOG CHOLERA SERUM AT THE STATE FAIR

Arrangements have been made with the State Commissioner of Agriculture whereby the Kentucky Agricultural Experiment Station will give practical demonstration in the method of administering hog cholera serum at the State Fair. This demonstration will be given on Thursday, September 18, at 10 a. m. at the State Fair grounds, and should prove of interest to all farmers and hog raisers in the State. In addition to the demonstration practical talks will be given on hog cholera, its diagnosis and most modern lesions, the care of sick and well hogs, the work of the hog cholera serum laboratory and State and Federal laws governing the quarantine and control of hog cholera, by Dr. Robert Graham, Dr. J. H. Kastle, and the cooperation of the parents, patrons and people in general, is absolutely necessary. A child is a child, and no two are constituted alike, and when the parents simply turn their children over, without rendering them any certain teacher in the school, it is no surprise that many children pass thru the school year and come out at the close but little better off than when the school opened a year before. If there is any criticism to be made, go to the proper one to make it. If your child is not advancing as you think he should, see where the trouble lies, before making your criticism, it may be the child instead of the teacher and lastly if your child's work is slow, to take hold and does not make any attempt to learn don't blame the teacher. Help the child, encourage him in his work, and above all see that he stays at home in the evenings, preparing his lessons for the following day instead of running around on the streets, listening to a lot of filthy men tell dirty yarns, and if this does not help there will be less room for complaint and more general satisfaction with the school work.

MOTHER OF EIGHTEEN CHILDREN

I am the mother of eighteen children and have the praise of doing more work than any young woman in my town. My name is C. G. Martin, Boone Mill, Va. I suffered for five years with stomach trouble and could not eat a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can now eat anything I want to, and as much as I want and feel better than I have at any time in my life. I refer to my one in Boone Mill or vicinity and they will vouch for what I say. Chamberlain's Tablets are for sale by all dealers.
