

The Test that Makes You Sure of Wool in Clothcraft

THE certainty of wool in Clothcraft depends upon something more than the claim of the mill or the judgment of the buyer.

Not even an expert can tell by look or feel the presence of cotton in a cleverly woven mixture. The only sure way is a chemical test.

In this test a piece of cloth is boiled in a solution of caustic potash. If all-wool, it dissolves completely. If it's a mixture the cotton remains.

itself all-wool by this severe test.

All wool is guaranteed in every Clothcraft suit or overcoat. Look for this guarantee in the inside coat pocket—look for the Clothcraft label. Then you are absolutely sure of all-wool clothes that will wear well and hold their shape and good looks.

Every yard of cloth used in Clothcraft must be able to prove

Why take a chance when Clothcraft inured clothes cost you only \$10 to \$25?

Man! You can't go wrong on the Clothcraft. The other brands do at 1872. We guarantee it.

FAMINE IS FEARED

BY THOUSANDS IN FOREST CITY—CLEVELAND THE CENTER OF STORM'S VORTEX.

All Railways and Trolley Lines Are Paralyzed—Poles, Wires and Houses in Tangle of Debris.

Western Newspaper Union News Service, Cleveland, O.—Communication has been cut off from the outside world for the past 48 hours. But one telegraph wire was working. The storm gale which swept the city has subsided somewhat, but a blanket of snow, varying in depth from four to ten feet, covers the city and suburbs. Numerous lives are believed to have been lost, and thousands are threatened with famine unless the streets are cleared within record time. The suffering in many quarters has been intense.

The interurban trolley lines, over which much of the city is transported, have been paralyzed for two days, and there is little hope of traffic being resumed for some time. Many power plants have been shut down to prevent conflagrations and electrocutions from live wires which are dangling everywhere. Conditions have grown worse since the lighting plant blew down in a gale, leaving the city in darkness. One of the greatest fears is from fire. Every possible precaution is being taken by the extensive firemen and policemen, as well as by individual property owners.

STAND BY PRESIDENT.

Washington—President Wilson's cabinet stands firmly behind him in his effort to force the retirement of Provisional President Huerta as a necessary step to the pacification of Mexico. For more than two hours the cabinet discussed every phase of the Mexican situation, and the consensus of opinion is that the United States government should not take a single backward step in its announced program looking to the restoration of constitutional government in the neighboring republic.

FLYING SQUADRON ON WAY.

Chicago, Ill.—Three hundred cavalrymen and officers, comprising the "flying squadron" of the 24th United States Cavalry, left Ft. Sheridan for the Mexican border. The unit will be stationed at Ft. Huachuca, Ariz. They left on a special train composed of two sections over the Rock Island Railroad. With their departure only 200 men were left at the local garrison.

TOWN PRACTICALLY DESTROYED

Lima, Peru.—Official reports received here state that the town of Alibonay, in the province of Alibonay, was practically destroyed by an earth quake and more than 200 persons killed. Nearly all of the 3,000 inhabitants are homeless. The town is situated about 20 miles southeast of Casco. It is an important sugar center.

Woolmen PUT TO ROUT. Philadelphia, Penn.—Taking sudden exception to the abridgment of a large wooden pole in front of her home, Mrs. Emma C. Bergdoll, widow of a well-known business man, sent a writ of workmen from her premises by putting it at them a resistor that seemed to have no more chance of success than the workers who are described in the report.

FAIR ASSOCIATION ELECTS OFFICERS FOR NEXT YEAR

There was a meeting of the stockholders of the Mt. Vernon Fair Association Saturday, which was attended by some forty or fifty enthusiastic fair people. The secretary's report for 1913 was read and received. While the fairly come out given yet every one feels that it was a most successful showing, considering the heavy expense of putting the fair on. The following is a condensed statement of the secretary's report as read before the stockholders meeting.

Receipts table with columns for item and amount. Items include From adv. in catalogue, Gate receipts 1st day, 2nd, 3rd, Special premiums, Concessions etc.

DISBURSMENTS

Disbursements table with columns for item and amount. Items include Paid in Premiums, Special Attractions, For Sec'y Service, For music, Printing catalogue, Stable rent, White washing, Cleaning grounds, Printing and adv., Appual tax paid State, For stamps and express, For water 3 days of fair, Gate keepers, Ticket seller, Paid on last year's acct., Repairing buildings, water connections and building secretary office, Paid interest on indebtedness, Rent on ground fair, Rent on place at fair, For hauling, For fire, General expense, Balance.

In addition to this there was sold \$450.00 of stock but every cent of that amount was paid on the original indebtedness and is not included in the general receipts or expense of the 1913 account. Owing to the fact that there is still an indebtedness hanging over the association, it has been agreed by all stock holders to work next year without any charge, which will be a saving of between \$350. and \$500. and this together with the \$450. worth of stock yet to be sold will place the fair out of debt and on the road to a great success. Even the secretary does his work gratis, but of course he is promised and assured of plenty of help. The Mt. Vernon Fair is composed of a live bunch and there is no standing back when it comes to making a fair. A good fair regardless of the dividends is the biggest lot that bunch of brooders.

The following are the officers elected: C. C. Davis, Pres.; H. H. Coffey V. Pres.; W. H. Irish, Secy and Treas.; R. R. Gentry, Asst. Sec'y.
