Williams about bringing suit against the Coal Company, as they have refused to give him anything like reasonable settlement, and the injury was absolutely due to oppression of other employees and the company in preventing the same which he was entitled to.

W. M. Bullock, the Hansford merchant on Monday last shipped F. Jelke & Co., Cincinnati commission merchants, 550 rabbits, for which he paid 15cts, making a total value of \$82.50. This was by far the largest shipment of rabbits ever made from the country. Marebrough the rabbit town, not excepted.

Rant Ballard, who has an ailed in Mt. Vernon jail for some time, charged with obtaining a number of horses, mules, etc., under false pretense, began bleeding profusely at the nose yesterday morning and it was several hours before it could be stopped. Let life cease and to getting the better of him, and that he might have more desirable quarters, he has requested that he be sent to London or Stanford, to await the action of the Grand Jury which meets the first Monday in January.

The week before the election just about the time we had three fourths of our issue for that week printed, our press broke and it was impossible to finish, and as the result the papers going to a few post offices were left off, and some of those offices happened to be Laurel county. A letter received Wednesday broke the news to us that in our effort to do what B. Sewell represents over C. R. Inaker that we intended to print, we had left out certain lists. Such a statement is too silly to be even recognized, regardless of the fact that the straggled article in Mr. Sewell's behalf, which appeared in this issue during the campaign happened in this town and in the case of the gentlemen mentioned in our list, they were a few people in Laurel county who had been in the list of B. Sewell and not Mr. Inaker. Such statements are not worthy consideration and we make no apology for our list.

Good Roads Would Draw Crowds from Europe, Says Samuel Hill.

(New York Sun.) Samuel Hill, who is known as the "father of good roads in America," has returned to New York from his annual inspection trip of European roads.

Mr. Hill said that as many tourists as go to Europe each summer would come to this country from Europe if we had roads here fit for their motor cars.

He is convinced that there is no reason why this country should not surpass England in road building. As our roads are now, said Mr. Hill, they are the worst of any civilized country in the world.

This summer's trip abroad was Mr. Hill's thirty-eighth survey of the roads of Europe. He went as President of the American Road Builders Association.

formation on Boone Way (the proposed national highway) and postage thereon, in getting our people along the proposed route of Boone Way interested and calling to the notice and securing the cooperation of Senators, Representatives, Governors and prominent people who can render help to needed legislation when the matter reaches its final stages in Congress. A reconnaissance survey of the route, was made in June by a highway engineer from Agricultural Department, Washington, D. C. His report of estimated cost of construction for 98 miles from Crab Orchard to Cumberland Gap was placed at \$1,025,000. Senator Bradley has introduced a bill for an appropriation to place a corps of engineers on the line to get a more practical estimate. It is expected that the bill will be reported back from committee at an early date.

Those interested in this great undertaking we request to contribute something to the postage and printing fund of the cause.

A neat certificate, signed by president and secretary of Boone Way Booster Band and a red, white and blue "Boone Way Booster" button badge will be given to each contributor and their names published in our local paper, showing who are boosters in the great undertaking. Any amount from 25 cents up will be gladly received and used to push the movement. Be a Booster. Address James Maret, Secretary Commercial Club, Mt. Vernon, Ky.

MINE EXPLOSION

MATCH THROWN INTO POWDER. IT IS SAID, WAS THE CAUSE—THIRTY MINERS PERISH.

Received Men Describe a Wild, but Valuable Fight to Reach Safety. Clear Way to Liberty.

Western Newspaper Union News Service. Action, Ala.—Thirty men were killed by an explosion in Mine No. 2 of the Alabama Fuel and Iron Co. at that place on Sunday. Three men have been rescued. They fell of a desperate struggle waged far underground immediately after the explosion. A fire that a clear way to liberty was located at an end of a long passage, many men rushed toward it, but it was blocked. "Men fought like wild men," said one of the survivors. "I saw several men trampled to death. The explosion was due to carelessness on the part of a miner, who accidentally threw a lighted match into a can of powder. The explosion of the powder started a series of explosions."

The normal quota of employees is 70 men, but the day before was paid day for work. The first rescue parties who entered the mine, searching for any who might be alive, reported that they had found many bodies. These had not been brought out.

"JIM CROW" LAW UPHOLD.

Louisville, Ky.—The "separate coach" law, better known as the "Jim Crow" law, was upheld by a jury in the Circuit Court here today when it awarded damages of \$2,850 against the Chesapeake and Ohio Railroad Co. James P. Adams and John McCarty made allegations that the railroad violated the law. They said that on November 23, 1914, they boarded a C. & O. train at Huntington, W. Va., en route to Louisville, and were locked in a coach with a white man and an occupant of a drunken and hysterical negro. Each claimed damages. Similar cases are pending.

QUAIL AND RABBITS IN SUITCASE

Seymour, Ind.—Albert E. Casey, of Covington, Ky., was arrested here today by deputy game warden when he purchased a ticket for Cincinnati. It was arranged before Justice charged with hunting without a license. He pleaded guilty and paid a fine and costs amounting to \$18. Casey had a suspicious-looking suitcase that the game warden found was filled with quail and rabbits.

If a Congressman chose to put his frank on a white elephant and send it through the mails he could get the animal through if the mails cars would hold him.

Not long ago an Eastern magazine investigated the record of a certain Congressman and found that for many years he had been sending annually through the mails the weight equivalent of many elephants. In fact he was making Uncle Sam carry a whole menagerie of animals.

The franking privilege is one that Congressmen should retain, providing they do not abuse it. It is abused when partisan speeches, frankly intended as campaign material, are dispatched far and wide under the frank, as was done previous to the last Presidential election.

The free use of the mails was given to enable members of House or Senate to keep their constituents informed as to what they were doing in Washington, to provide for the circulation of public documents likely to prove of educational value and to distribute the things which the Department of Agriculture offers to the public.

Each year is poked at the seed distribution, but the fact is that, so long as seeds are given away by the government for the purpose of encouraging the growing of certain plants, vegetables and grain, distribution through the Congressmen is the one logical way of seeing that each district gets its share.

It is apparent, though, that with the abuses of the frank which have been noted, the people have the right to put a reasonable limit on the use of the mails. It must not be forgotten that in the end the public pays the bill. Just how much of a factor the frank has been in the deficits of previous years is a question which must remain unanswered for lack of statistics on the subject.

It is now proposed to give each Congressman a specific quantity of special stamps, on the exhaustion of which we will have to pay postage. This should constitute reasonable use of the mails and at the same time prevent abuse of the privilege.

OVER THE STATE

Somerset.—The election held in McCreary county November 4 to decide the location of the county seat, and which was won by Whitley City by 200 votes, has been contested by the adherents of Pine Knot. It is charged that in ten precincts votes cast for Pine Knot were counted for Whitley City; several voting places were kept open until after 4 o'clock, and that whisky and money were used to influence votes, and that the order calling for the election was illegal.

Richmond.—Deputy Marshal J. A. Coleman, brought twenty alleged bootleggers from Danville and Polk county to stand trial in the Federal Court, which convened here Monday. There are about thirty others, from various places, charged with illicit whiskey peddling and making. The most important case to come up is that of Frank Berry, charged with the sale of whisky. There are about thirty more names in this case. His home is near Danville.

Franklin.—The largest County Commission ever assembled in this year was here Monday. One hundred and forty-nine whites were said to be present from the State for the purpose of electing a new Commission. The Commission is now in session in the State Assembly building.

BEREA AND GOOD ROADS

In response to the call of Governor McCreary, the students of Berea College, Berea, Kentucky, turned out in full force on October 28 to work the roads.

The normal, the college and the vocational departments, with their deans and other faculty members worked with a will. Many of these students are not Kentuckians, but they went anyway. Owing to the impossibility of providing tools enough for all the students, the academy and foundation schools did not work, but are planning to do so at an early date.

The young women of the normal department walked out to the scene of activities and served dinner for the young men of their department. They afterward joined in the roadmaking and added cheer to the way of spades and spade cheer to the shoveling and spading.

A King splitting drug was made with the help of the students, and its efficiency as a dirt tending was demonstrated in the presence of the students and citizens who joined in the labor of the day.

William Sulzer yesterday filed a petition for a writ of habeas corpus, amounting to \$500 as a candidate for the assembly in the Sixth Assembly district.

- "Don't sleep in hot rooms."
- "Don't avoid the fresh air."
- "Don't stuff yourself at meal time. Overeating reduces your resistance."

PILL OF STYLE CLOTHES

THEY PREFER OURS

No Wonder, Simple as A B C. Ours Cost Less Ours Wear Better They Have More Style

It's about as difficult to describe these new clothes as to write about the prettiest girl at a Leap Year Party. You've got to see her with your own eyes. Maybe you'll like her—if you don't there are others. So, if one suit doesn't please you, we've another. It's a question of taste. Prices? That lies with you. The better the clothes you buy, the longer they last and the better they look while you're wearing them. But everyone prefers ours. They are best.
