LOCAL

The sick of the community are reported better.
Miss Marguerite Lovell is reported better this week.

The Rockcastle County Medical Society met here yesterday.

One of the Lovell boys of near Pine Hill, is reported to have a very severe case of small pox, which he contracted at Richmond.

After December first parcel post weight limit will be raised to 50 lbs. Packages of this weight will be carried for 5¢ cents. After March 15th books will also be included in parcel post classification.

In 1750, Dr. Walker, a prominent Virginian, in company with several others made a visit to Kentucky, entering by way of Powell's river in Tennessee, and a gap in Laurel Mountains. They found a river flowing south-west on the other side. The doctor gave the name, Cumberland, to the mountain river, which they yet bear, in honor of the English "Bloody Duke of Cumberland."

The cities, or at least their most enterprising commercial centers have "caught on," as others will in due time, but the rural districts are still studying the proposition. A few of the farmers have worked it out satisfactorily to themselves and others will do so later. For the present the chief duty of the newspapers is to impress upon their rural readers that the parcel post was established for every-day business and that the rural districts are still studying the proposition. The cities, or at least their most enterprising commercial centers have "caught on," as others will in due time, but the rural districts are still studying the proposition.

New line of Neckwear for Xmas at Fish's.

Don't presume upon the other fellow's ignorance too much.

Telephone rates will be slightly advanced in Rockcastle within next two months.

VICTOR SAFES. None better made. See James Maret, representing Victor Safe & Lock Co.
Mr. Carlo Helton, of the Wilde section, died Tuesday. Mr. Helton came to this county from Harlan, a d located some four or five years ago.

We have heard nothing said about a Xmas tree, any where in town. Christmas means too much to the little folks, not to have them.

The assurance of an electric light plant has already opened the way for negotiations for an up-to-date planing mill and a flour mill, both of which we will have before many months besides other things that are sure to come.

The residence of Jack Adams one mile south of town, was destroyed by fire at an early hour Wednesday morning. The building was occupied by A. W. Adams who lost all of his household goods and had no insurance. The building was insured.

Just look over the advertising columns of the Signal, and you will find part of the story why Mt. Vernon increased 21 per cent from 1900 to 1910 and in the last three years there have been over 200 people added to our number. No matter where you go you will find some one who has been in Mt. Vernon and is saying good to say about the town. Fishing and boating is what did it.

"NINE millions will be needed or Ohio River according to report of Chief Engineer of Army to secretary Garrison."

One million dollars spent on Boone Way from Cumberland Gap to Crab Orchard would benefit more people than would the nine million for the Ohio river. Rivers and harbor piers already swallowed millions upon millions. It is high time that something be done for roads.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low priced powder in your hand, find the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

SCHOOL NOTES

Next week the mid-year examinations will be held at the Graded School.
The first and second boys' teams and the first girls team, went to play basketball Saturday 10 played in Fisherville. The house had been ransacked and it is believed others committed the crime when he returned home and surprised them. He had the reputation of collecting gold coins, which many believed were hidden in the house. A negro has been arrested in connection with the case.
President Wilson's views on antitrust legislation are to be sought this week, it is stated, by Congressional leaders upon whom will fall the task of mapping out the anti-trust programme. The feeling is growing, according to news that the acts of the present Congress regarding trusts should effect only the more obviously needed reforms.
Representative A. B. Rouse, of Kentucky, says the House Post-office Committee is not considering the increase of interest on individual postal savings deposits as reported. He has complained of receiving a larger rate of interest from the banks for the use of such deposits.

POPULATION AS AFFECTED BY ROADS

As a general rule a country that has good roads is a prosperous country, increasing in wealth and population. The United States Office of Public Roads recently presented a series of comparative figures illustrating the influence of improved roads on county progress.
In twenty-five counties, taken at random in twelve States, the number of inhabitants from 1890 decreased 77,823, and averaged a decrease of more than 3,000 for each county. The road improvement in these counties was only 15 per cent.
In the same States twenty-five other counties where the road improvement was 40 per cent, during the same period were chosen for comparison. It was found that these had increased in population nearly 250,000 in each county.
The figures show that the counties which have built good roads have gained heavily in population while those which have neglected their highways have lost. Possibly there were other influences which contributed to the gain or loss of population, but it seems entirely reasonable to believe that the roads were the chief factor, especially as the Office of Public Roads makes the claim that in other respects the two groups of counties were about equally matched.
It is not surprising that a country which has no good roads should lose population. Progressive farmers are more than likely to move away from such counties, and progressive farmers from elsewhere are not likely to take their places. Housekeepers want the advantages of good roads and in a recent contest were interested in land that is miles away from an improved thoroughfare.
Land values increase where there is a proper highway maintenance. The value declines or stand still in localities where road improvement is neglected. No county can prosper unless its property, if it is to prosper its roads - Courier Journal.

PIT HIS CASE EXACTLY
"When father was sick about six years ago he read advertisement of Chamberlain's Tablets in the paper that his case was just like mine. My wife, Miss Margaret Campbell of E. Smith, Ar. had purchased a box and he used it and was cured. But I had not a chance to get it until I had a bad stomach trouble and was cured. I am glad to see that my father is well as usual by the advertisement."

"When a man's single his money he'll jingle. He carelessly squanders his 'rocks.' He buys lovely collars and spends many dollars. On red vests and "loud" colored socks.
"When a man's married" he's worried and harried. He "wants" things that "will not show dirt." So wife takes his money and buy for her honey. A louty cent mud-colored shirt!
CROUP AND COUGH REMEDY
Croup is a terrible disease. It attacks children so suddenly they are very apt to choke until as given the proper remedy at once. There is nothing better in the world than Dr. King's New Discovery. Lewis Chamberlain, of Mauncies, Ohio, writes about his children: "Sometimes in severe attacks we were afraid they would die, but I procured a what certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup, coughs, and colds." So get your bottle for \$1.00. A bottle should be in every home. At all Druggists. R. Bucklen & Co., Phil. Pa. 1913.

John L. Gaunt, a re-lease Baptist minister, 63 years old, was found murdered Sunday in a branch fifty feet from the door of his home in Fisherville. The house had been ransacked and it is believed others committed the crime when he returned home and surprised them. He had the reputation of collecting gold coins, which many believed were hidden in the house. A negro has been arrested in connection with the case.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. Weakly and unable to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.
