The small pux patients have all been turned loose, and we are proud to announce that there are no small pux in Mt. Vernon or immediate community.

Neal Parrott and R. L. Layford have just finished the building on a lot near Mr. Parrott's home and are now putting in a good up-to-date line of general merchandise. Mr. Layford will have charge.

Luther Mannus has sold his stock of goods to W. H. Brown and one-and-a-half acres has contracted to sell his store house. Mr. Mannus is now in Pineville searching for a location. Mr. Brown would like to buy his store near No. 1 tunnel.

Miss A. E. Bond, ex-Hershey Reads, will interpret at Ouart church, Wednesday evening March 11th, under auspices of the Bible Class of the Mt. Vernon Christian church. Proceeds go for the benefit of the Sunday School.

Mr. Snodgrass, aged 79 years, died last Saturday morning at the home of her grand son, E. B. Brown, at an illness of only a few days. It was thought she had less than the attending physician was not positive. The burial took place Sunday at the old home place near Providence church.

Fisk Stock - G. S. Griffin and U. G. Baker closed the deal Wednesday for the stock of merchandise belonging to the estate of E. L. Coker. The stock requested about \$1500, which was bought at 80 cents to the dollar. This is one of the closest, best stocks in the county. Mr. Griffin will take charge of the business, which will be conducted under the firm name of George S. Griffin Company.

The young women of the Presbyterian church will hold a "Patter" at the home of Mrs. A. B. Henson, Saturday afternoon March 7th, beginning at 2 o'clock. If you wish any of the following articles, come early as the supply will not be unlimited: Light Biscuits, Boston Biscuits, Creamed Brown Bread, Doughnuts, Potato Chips, Butter, Scotch Pie, Marsh-Mallows, Candy.

County Superintendent W. A. B. Lewis is making considerable complaint about the condition of the school fund, as shown by the record turned over by his predecessor, Mr. J. W. Kimer. Mr. Davis says that the school fund shows a shortage of about \$500. Mr. Davis does not charge that any of the fund has been unaccountably spent, but that Mr. Kimer and his board spent more money than they should have, unless the revenue had been larger. The indebtedness of the school board was made as a result of the efforts of the board to comply with the demands of the county for comfortable school quarters. To the casual observer it looks like that the school fund indebtedness might continue to increase, if the Fiscal court does not make provisions for more money or the Board stops building houses, repairing others and providing the necessary conveniences and equipment. It takes money to provide for all the schools in the county, and the fact that the County Board only had 10 cents on the one hundred dollars, and considering the taxable property and the number of school districts to provide for, and it is justice to say in behalf of the retiring Board that they provided for a large number of districts, some with new houses, that it is no surprise to those who know anything of conditions, to learn of the indebtedness of the county. On the other hand, the present Superintendent has taken the right course in bringing the facts to light that the people may know the exact conditions. If the rural districts expect to have comfortable school houses and the necessary apparatus for the best results, the tax payers may expect to pay sufficient tax to provide for these equipments, for without the money it is very evident they can not and will not be provided.

When you want anything in the hardware line, drop in and see me. C. C. Cox.

Mr. Andy Hiatt, of the Hiatt section, is reported very low.

Later - Mrs. Hiatt died last night.

POESAK - Full black Missouri Eggs, 50 cents per setting. MISS W. R. McLELLER, 3.63 Mt. Vernon, Ky.

The "Winstead Hotel" (County Jail) is getting to be a very popular resort since Mr. Winstead has taken charge. He reports a full house (of drinks) most all this week.

John Hilton, of Pine Hill, bought in Somerset last week a thorough bred registered Herford bull. He is certainly a beauty. If a pedigree will appear in this paper later.

Jim Cummins' store over Mullins Station was broken into Tuesday night and robbed of several suits of overalls, shirts and shoes. The authorities claim they have the right track.

Edgar Mullins is at home from Paris and tells us that he has accepted a position as traveling salesman for the American Tobacco Co., with territory covering several counties in Northern Kentucky.

The County Board of Education met yesterday and in addition transacting many matters, re-elected J. M. Craig Supervisor of schools for next year. Mr. Craig has made a splendid officer and the board is very much pleased with his work.

STRAYED - A vesting horse colt, dark bay, right hind foot white, left eye blind. For information leading to his recovery will be appreciated. S. M. MARVIN, Dudley, Ky.

THINGS THAT MAKE A TOWN NO. 2.

(By - EV. G. S. WATSON) ITS SCHOOLS

From the beginning of the Christian era, if not from the beginning of time itself, the child has been the world's greatest problem. Modern society has come to recognize that the child, undeveloped and imperfect though he be, has, like the citizen, certain inalienable rights. He has certain physical rights, the right to know both the joys of work and play. He has certain intellectual rights, the right to be tried to study, to think, to reason. He has moral and spiritual rights - the right to a knowledge of God, and of His teachings and requirements of men.

That community in this State which has satisfactorily solved the problem of the adequate education of her children has laid the foundation of future strength and prosperity. Therefore, we consider the best means of solving the life and uplifting of a town to be ITS SCHOOLS.

What is education? We have seen many definitions, some of them so complex and technical as to be bewildering. For our purpose we will be satisfied with calling it the awakening and training of faculty, the complete preparation for life. As the mechanic the purpose of education, and he will tell you it is to give a man that knowledge that will enable him to make an honest living. The ark of old man the same question, he will tell you that the primary object of education is to make citizens. Ask the philosopher and he will tell you that it is to make men think and reason. Ask the true educator and he will tell you that it is to make character.

I shall say that any of these answers are wrong? We think not, we would rather agree with them all, and largely with Herbert Spencer, who referred to the purpose of education as "a means of forming the worker, the parent, the thinker, and the citizen." We believe the immediate end of education to be to fit any man to earn an independent living. A man who does not earn such a living becomes a burden on the State. And the better and firmer a man can do, the more wealth he can produce, and the greater contribution he can make to the State and to society. It hurts no intellect to be able to make a boat or a house or a chain. And the more students the schools of Mt. Vernon turn out, capable of making an independent living, the richer and the better Mt. Vernon will be.

But this principle must be emphasized exclusively, for men have to live as well as to make a living. Success as a mechanic or merchant is one thing, and success as a man is another. Most of the studies in the grammar grades are calculated to increase a man's efficiency; but when he gets into the High School, he finds studies there like Latin and higher literature, that are calculated to broaden his horizon. To have efficiency in our work, which perhaps occupies eight hours a day, is a good thing, but to have this, and this alone, is a very un-fortunate thing. There are eight hours of leisure and recreation as well as eight hours of work, and the best educational systems include education for life as well as education for living. It is a pitiable sight to see a man capable of making a good living, but incapable of enjoying himself outside of his working hours, and who has not been trained for citizenship. There is yet a higher phase of education. Knowledge of the world is usually a man's right to the State as well as to his home. A man who merely has his head stuffed with facts, figures and definitions is not an educated man. As one of our Ky. judges recently said at a banquet: "The end and aim of teaching should not be the acquisition of knowledge, but the moulding of character, and any system that does not recognize this fact is a failure."

Perhaps you are now ready to say that we have laid out a big task for our schools and educators. We admit it - a very large task. But we believe that the effective way to meet this task is to have the cooperation of both the home and the church. We feel that the

school has a right to expect help from both of these sources in carrying out the large program outlined, for the complete education of all the children.

In describing the purposes of education we have already suggested to you chief advantages of education, and shall here only take time to refer to the simple but profound statements of the old Scotchman on the subject. He says to his pastor one day and remarked: "And isn't it a good thing to give one's lassies a good education?" "Yes," his pastor remarked. "It is a good thing, sir, because it will bide with them." "Yes indeed," his pastor answered. "It will abide with them." "And it is so easily learned about." "Very true," said the pastor. "Very true; there are no express charges on an education."

But to recur more directly to the original subject for we might be accused of the error of the old colored person, who after having answered his last turn at the congregation said: "Brethren dis here text is divided into two parts: first de things dat are in de text, and secondly, de things not in de text. And Brethren we will write with de second part first."

In the schools of a town contribute any large element in the building of the town? We answer they do. Not more than two weeks ago we had the pleasure of addressing about 250 mechanics most of them over 12 years of age, who were gathered in a school where 12 years ago, there was no town, no school, no church. The school had made the town, and though situated off the railroad, and in a poor county, agriculturally, it had drawn students from many counties and communities. And today the growth of the town is following the growth of the school and not the opposite. Of course you say that this is the exception, and we will admit it. But it is the exception only because the school is so exceptional - so strong that it leads all other influences in the community.

Citizens of Mt. Vernon, you have schools of which you community might well be proud. Many communities are not so fortunately situated as we are, for it is not every school that has teachers, who in addition to being well trained, have culture and Christian character, all of which are essential to the complete and highest training of children. Do we look upon our schools as a big asset in the community? Would we be willing to lose them for any price? We think not. Then let us not flinch or cringe their usefulness by any indifference or half-hearted support.

Everybody, old and best, first, last and always, for the schools of Mt. Vernon.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" This is one way: take the can of a low-priced powder in your hand and read the ingredients clause upon the back label. The list of ingredients of the powder contains alum that fact must be there said. If you find one of the ingredients named alum, or aluminum, you have found an alum baking powder. There is another and a better way. You do not have to know the name of the alum powder. Use Royal Baking Powder only; the name you are a great orator, powder, you are a great orator, powder, you are a great orator, powder.

Uncollected Taxes for 1913 \$74.75 stands today as follows: \$1376.96 Notes in Banks 503.00 \$800.75 of this amount is held in vouchers and claims, so the actual amount of delinquent taxes is \$114.00. Note to individuals 860.00 \$1900.00 Of this amount \$650.00 was used in constructing the Pike at top of school house hill (to make connection with county pike) and other expenses. Other legitimate expenses of 1912 added \$300 more and covered with the indebtedness existing at the beginning of 1912 makes the total as above. It will be remembered that owing to the unfortunate mismanagement and squabbling existing therefrom, no taxes were collected for the years 1911 and 1912 which accounts for the town having any indebtedness at all. the lines of the Louisville & Nashville Railroad Company will be to substantially establish a maximum fare of 2 1/2 cents per mile from the Ohio River to the Gulf of Mexico.

Reduction in Revenues. Some idea of the reductions to be made by the Company in its passenger fares may be had when it is understood that the reduction in Kentucky, Tennessee, and Alabama will represent an annual reduction in passenger revenues of about \$500,000. In Kentucky alone the annual reduction in revenues will amount to about \$130,000 on interstate traffic, and about \$250,000 on interstate traffic or to a total amount of about \$380,000.

Illustrative Changes in Fares. The following list of existing fares and the proposed new fares is illustrative of the reductions which will be made:

From	To	Present Fare	New Fare
Louisville	Bowling Green	\$41 7/8	\$34 3/8
Lanham	Louisville	\$10 1/8	\$8 3/8
Corbin	Williamsburg	55 44	47 44
Middlesboro	Covington	67 4/8	57 4/8
Louisville	Claiborne	12 10	10 10
Louisville	Frankfort	2 15 1/2	2 15 1/2
Louisville	Popkinsville	2 22 1/2	2 18 1/2
Louisville	Wendell	1 33 1/4	1 33 1/4
Frankfort	Lynchburg	80 7/8	70 7/8
Anchorage	Shelbyville	57 48	49 48
Paris	Richmond	1 18 1/8	1 18 1/8
Louisville	Nashville, Tenn.	3 32 4/8	2 47 4/8
Louisville	Memphis	11 40 9/8	10 40 9/8

Date Effective of Changes

The proposed reductions will be made effective as soon as the tariffs can be compiled and issued giving the notices required by law. It is now estimated that the new interstate tariffs will be made effective about April 1st or shortly thereafter (certainly not later than May 1, 1914), and that the interstate tariffs will be published immediately thereafter to be effective on or before July 1, 1914. The great majority of the interstate fares now in effect on railroads and such cannot be compiled until the various State tariffs in the several States are compiled; the interstate tariffs require the cooperation of all connections, and as the fares in these are far more numerous, involving many thousands of figures which have to be calculated, there is naturally delay. The legal notice required in connection with interstate fares is 90 days.

ANNOUNCEMENT BY THE LOUISVILLE & NASHVILLE R. CO. OF A VOLUNTARY REDUCTION IN THE RATE OF PASSENGER FARES IN KY. TO TWO AND ONE HALF CENTS PER MILE. This action on the part of Kentucky's principal rail carrier is voluntary, and is taken in order to equalize the rates in its home State with the rates effective on or before the date mentioned in the States of Tennessee and Alabama. This Company desires to benefit that 48 cent fare is not wholly remunerative and is not unfair to the public. Nevertheless, the Louisville & Nashville Railroad Company desires to equalize the rates in its home State with the rates effective on or before the date mentioned in the States of Tennessee and Alabama.

Want to promise before for the people of Kentucky it promises to place Kentucky on the same basis as other States. Should the reduction prove disastrous, the Company will appeal to the Railroad Commission for such readjustments as will be fair under all conditions. EXTENT OF TRAFFIC APPROXIMATELY. The reduction to be made will apply to all of the lines operated by the Louisville & Nashville Railroad Company for its own account in the State of Kentucky, with exception of a few branches and new lines on which the passenger business is not now remunerative or is conducted at a loss. The reduction will be made effective on lines which now are producing over nine tenths of the Company's total passenger earnings in the State of Kentucky. This will affect nine-tenths of the Company's passenger business. Reduction Applies to Both Interstate and Intra-State Traffic. The reduction proposed in Kentucky will not only apply on interstate travel between points within the State, but will also apply on interstate traffic between points in one State and another State.

MEMBER OF KENTUCKY PRESS ASSOCIATION

The banquet given last Friday night at Frankfort, by the Young Men's Democratic Club, of Kentucky, was a success in every particular. Over 300 Democrats from all sections of the State were present. The speakers included all four candidates for United States Senate. There was only one thing that marred the occasion and that was the advantage taken by Congressman Stanley to espouse his cause for the Senatorial nomination. In doing this Mr. Stanley broke the law of the Club. All the candidates were invited to be present and make a talk but were asked not to mention the Senatorial race. They all complied with the request except Mr. Stanley, who spoke last. Several Democrats who were present and heard Mr. Stanley say it was the same speech he has been delivering on the stump. After the banquet several Democrats who have been supporting Mr. Stanley were heard to say that they would not support him any longer, but would vote for Governor Beckham, whom they declare to be the best speaker of the evening. There is no doubt but what Mr. Stanley lost himself many votes by his action on that evening. His closest friend are openly censuring him and he has made the mistake of his life. The demonstrations given the various candidates as they arose to speak clearly showed that a majority of those present favored Mr. Beckham for the Senatorial nomination. The avowed last fully five minutes. There is no doubt in our mind but that the Senatorial race is already decided. The other candidates had as well save themselves time and money. The people of Kentucky are going to send Beckham to the United States Senate. The whisky trust defeated him in 1908. The Democratic voters in a popular primary had selected him for the honor and the responsibility and their choice was betrayed by the treachery of four of their own representatives in the General Assembly at the behest of the whisky trust; because Beckham's administration had been made notable by the enactment of a local option law, under which an hundred of the 119 counties had gone dry, and because he had dared recall the Legislature in special session in 1909 to meet the creditors' license, which the trust had suffered in the regular session, and because he had closed the Louisville Saloons on Sunday. Mr. Beckham is still the nominee of the Democratic party and the voters next fall intend to right the wrong done them in 1908, and with the ballot in their own hands elect him to the Senate. Rockefeller will do her part.

WHEN the Louisville Times goes after a thing it goes the whole hog. On the Beckham question, State and National aid, therefore, its proving itself a wheel horse. Every Saturday for the last month it has published a half page map of Kentucky showing the proposed 6200 miles of turnpike to connect every county seat in Kentucky with neighboring county seats, giving roads in four to six directions for many of them. Congress and our Legislature are on a clear track under full head of steam, a good engineer at throttle and a safe pilot at the helm. Old fashioned reconstructionists had best "stop, look, listen," and keep off the track or get everlastingly run over and flattened out.

The man who spends all his time reading the Bible, will be surprised when they get to heaven, and find that the men who always paid in grocery bills are occupying reserved seats in front.

"THE WILL WAS PROBATED." On last Monday at 10 o'clock p.m., the will of the late John Smith was probated and read as follows: "I, John Smith, being of sound mind and member, realizing the uncertainty of life; do hereby and hereon deem it a duty I owe to my beloved wife, Mary, to will and bequeath to her all that I have, both real and personal. Therefore, it is my pleasure that she have all that I have to my death, as she deems best, and I hereby appoint her as my administratrix without bond.
