The fact that we do not stop you and ask you every time we need you for that subscription is no sign that we have forgotten it or do not expect you to pay. Please pay up. We need it and we want to add that we have some subscribers in all other counties and newspapers who seem to go upon the theory that the local paper should be given to them. If the editor should strike their names from the list for nonpayment of dues he would never hear the last of it. There is just as much obligation to pay the subscription account as there is the store account, yet there are some who don't seem to think so.

County Road Engineer J. W. Manlin, accompanied by A. H. Hamlin, Holbert McClure and W. M. Swader started last week for Terre Haute, Ind., to visit the works of the A. L. Greenberg Iron Works, at Terre Haute, but on account of the violent illness which overtook Engineer Manlin the party never got any further than Indianapolis. It was a most unfortunate affair in that the party was never able to reach Terre Haute and visit the works of this great corporation which company was very anxious that Engineer Manlin with his Rockcastle delusion should visit the great plant as evidenced by the fact that the A. L. Greenberg Iron Works Co. sent Mr. Marler a check for \$100 before he left Mt. Vernon and in response to a telegram sent them from Indianapolis by Mr. Marler that he was out of money very promptly forwarded check to him for a like sum that he might continue the journey.

A word about bread teaches a lesson in the buying of clothes

If we were to buy flour a few pounds at a time and hire a man to bake one loaf at a time, would you buy this bread and pay a profit on it even if it were the best bread you ever ate? It would be mighty good bread at a rich man's price.

This is a rather extreme example, but it illustrates one point—some men can afford to pay long prices for exclusive tailored suits, but it is a question as to whether they get any better satisfaction than the man who buys on a more practical and economical basis.

The makers of Clothcraft Clothes buy pure wools in immense quantities, they tailor them by the most scientific methods. They are the only line of Guaranteed all-wool clothes selling at \$10 to \$20.

BETTER get rid of that hammer and stop knocking. Its going to be mighty lonesome hereafter for chronic. Everybody else will be too busy to listen to your tale of woe...

A WINCHESTER man was here last week looking up coal lands in the Skeggs Creek territory. In opening of Commercial Club says their organization has done more for Winchester than all other branches of effort combined.

THREE Senatorial candidates are now in the field speaking at various points in old Kentucky. There is Beckham, McCreary and Stanley; each would like to be honored by being elected to a six year term at our National capital.

OKN. Haerta may not apologize, but from the start made it begin to look like Uncle Sam means business and intends to show those "Greasers" where to head in. Haerta may decide before it is too late that it is much easier to apologize a little than to take a genuine good thrashing.

"I HOPE I shall never see the day when I rejoice in the defeat of a Democrat for any office," says Senator O'Gorman. That's our idea of a Democratic statesman.—Ditto Republicans and Mooers.

SENATOR James says: "The boys are mighty hungry at home" but it does seem like they have had some rather full meals of Federal patronage in Kentucky recently.

Steep at Battle of Torreon

An article in Louisville Times, with picture, mentions Mr. Steep who was here, and at Crab Orchard Springs, last Summer. He has written some fine articles on Boone Way and the old Wilderness Road. This excursion into the Mexican fighting zone is not his first experience in that line as he has been thru a number of South American revolutions and carries marks of conflicts in which he participated to the South of the Equator.

Joseph Rogers Taylor, Associated Press correspondent, a few days ago furnished papers all over the country with an eye-witness account of the battle of Torreon. Mr. Taylor is the man on the left in the picture.—As his right is T. W. Steep, another Associated Press correspondent, and at Mr. Steep's right two "right" correspondents, who are "on the job." Back of them in the car door, stand the Chinese cooks.

This is the first fully equipped press outfit ever went into the field in Mexico. This outfit was prepared at Chihuahua, the rebel capital, and was taken with Gen. Villa's train to Torreon. It is provided with kitchen, clean bunks, tables, typewriters and the cooks.

BREAKING DOWN THE BARRIER

MT. VERNON COMMERCIAL CLUB SPREADS OUT

"CO-OPERATION"

"Get Acquainted With Your Neighbor, You May Like Him."

In addition to much good already accomplished by it, for both town and county in a number of ways, the Mt. Vernon Commercial Club has determined to extend its membership to all sides to the county line on all roads and will invite every law-abiding citizen in the county to become a member of the organization, the name of which will probably be changed to that of "Citizens Association", "Citizens Union", "Peoples Union" or some other name that is appropriate for such an organization. The object being to continue the work being done by the Commercial Club but on a broader scope by including citizens from all parts of our county, or even beyond the lines, on the list of membership. The motto or slogan of the club has been the single word of "Co-operation"; to which has been added this great sentence: "Get acquainted with your neighbor, you may like him". By carrying these slogans into effect it will do away with every remaining barrier prejudice and mis-constructive that unfortunately often exists between citizens of the county and their respective towns. By getting acquainted it will be quickly demonstrated that such a feeling is unjustified and should never have existed. The present members of the Mt. Vernon Commercial Club will put forth every effort to show to all the people the vast benefits of "Co-operation" and advance convincing arguments showing the injustice of fostering any feeling but kindness and neighborliness. Dropping all petty jealousies, imaginations, slights and over-sights. We are neighbors and friends and as friends should cultivate closer relations. Thrown about every small city and town is that mysterious barrier between it and the country—the town limits. This barrier has served to separate the farmer and merchant, to a great extent, for years. It is the purpose of the organization to "break down the barrier" by enlisting the farmers under its banner. There is much work to do and the first phase to which attention is to "Get acquainted with your neighbor you may like him". One of the aims of the organization is to employ a farm expert whose services will be available in all sections of the county to give instructions for increasing the production of plants. Raising live stock, care of soils, etc. in fact everything tending pertaining to progressive farming. This expert will prove of great benefit to the farmers and anything that assists the farmer to produce more helps everyone else for concerned depends upon the farmer.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper. Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder. There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.
