Mr. James Thompson and Mrs. Emma Roberts were united in the bonds of matrimony April 16. Mr. Thompson is a prominent young farmer and a nice young man. The bride is the daughter of Mr. and Mrs. John Roberts. Heartly congratulations to this couple of splendid young people.

Lost: A "black" hand bag, had been Mt. Vernon and Grand Camp, containing a pair of pocket knives for little boy and a black salt waist and other articles. Finder please deliver to Jonas M. Kozak, Mt. Vernon and receive reward.

ANDY BAKER, Vanhook, Ky. The respectable person with a fever in his hip pocket and no record for crime is a criminal in mental make up to the degree that he regards his private arsenal as a means of defense against others than thugs. He is potentially a criminal in experience in the degree that he possesses the courage to shoot, and that is about the cheapest kind of courage.

STRANGE: It seems like quite a stretch of the imagination to assume when told that the names "cat" and "stone" and "brock" have a similar sound, but on the telephone they are difficult to distinguish if not plainly enunciated. The same can be said of "fifty" and "sixty" and the letters "r" and "s" only a little more so.

NEW POLE LINE: Our telephone company has just finished a fine pole line as far as Sand Springs on Pongo line and strong new wires thereon and made repairs on other portions of said line, thereby greatly improving the service from that portion of the country. The brothead system will next be overhauled and improved. Nearly every part of the country can now be reached by phone.

MISS BEAN, READER: On account of the inclement weather the crowd which greeted Miss Mary Bean on her last evening was small, but not lacking in appreciation. Miss Bean, by her winning personality, simple naturalness, pleasing address and fortunate selection of numbers for her program, afforded much pleasure and entertainment for her audience. The people of Mt. Vernon are to be commended for having secured such a charming reader as Miss Bean for an evening entertainment. A pleasing reply was afforded by Miss Mary Bean on the 15th of May. Miss take care of all travelers included. Miss Mary Bean of Sand Springs, Ky. is going over Boone Way.

OPENING OF THE ROCKCASTLE

Mt. Vernon's new hotel, the Rockcastle, was formally opened at noon last Sunday, April 30th, when an elaborate and sumptuous spread, prepared under the supervision of Mrs. Mollie Rider, was enjoyed by the guests. The following was the menu: Baked Chicken, Boiled Ham, White Cake, Macaroni, Corn Mullins, Green Peas, Biscuits, Ice Cream, Yellow Cake, Tea, Coffee.

Below is a list of guests who saw that "ample justice was done" (the most excellent fare and its unexcelled preparation) at the Rockcastle: Mr. and Mrs. Benjamin Mullins, Mt. Vernon; G. W. Thomas, Somerset; Jerome Adams, Mt. Carmel, Ill.; C. C. Williams and wife, Mt. Vernon; J. C. West and wife, Louisville; Mrs. Cleo Brown, Mrs. Mary E. Williams, Mrs. Fannie Adams, Miss M. B. Williams, J. W. Brown and wife, Mrs. W. J. Sparks, Victor C. Tate, Dr. P. H. Conover and wife, R. R. Gentry and wife, James Maret, Mt. Vernon; Mrs. William M. Weber, Chattanooga, Tenn.; Mrs. Sam D. Lewis, Mrs. Georgia B. Rice, J. A. Landrum, W. A. McKenney and wife, L. M. Miller, Mt. Vernon; J. M. O'Mara, Nash, Va.; J. E. Tate, Knoxville, Tenn.; John M. Fish, Renton.

After dinner the visitors were shown thru the building from basement to top story. Every one expressed themselves as being much pleased with the excellent arrangements and furnishings in the structure. The opening occurred earlier than expected on account of so many insisting upon the proprietor getting ready to accommodate visitors and attendants at Circuit Court, which began last Monday, as well as to take care of the traveling men and others who have been requesting an earlier opening than was contemplated by the proprietor. The plumbing and other necessary work to be done before the hotel is entirely complete will be done within next two months when it will be ready for occupancy.

There was a time when the proprietor thought seriously of naming the new building the "Boone Way" hotel, but concluded that taking in consideration of the fact that most of the material used in the construction of the house was procured while the country and the builders, laborers etc. were natives of Rockcastle county, quite suggested the use of the home name and the proprietor was afforded by two or three who had just looked after the take care of all travelers included. Miss Mary Bean of Sand Springs, Ky. is going over Boone Way.

just as quickly as if his house was given that name, besides he will still be a booster for Boone Way and use the slogan "On to Cumberland Gap" J. M.

MRS. K. J. SMITH, Hatt, Ky. Apr. 17-41.

Just before going to press we learned of the death of Mr. H. H. Baker, which occurred at a o'clock this morning. Burial tomorrow at the Baker burying ground. Full account next week.

Will Owens our valued Livingston reporter was railed from the river side town Monday. It was noticed that he stuck pretty closely to watch in pector Franklin, while here. We couldn't learn the reason. Probably for protection from the wrath of Maret or maybe was trying to recover his Ben watch which the watchmaker has had for some time in his repair department, claiming delay is caused by inability to straighten a bent side bar, properly adjusted dislocated stuffing boxes.

The blow off or pop valves were badly worn, possibly, as claimed by Owens caused by overuse by some of his good friends up stairs, George Palin, explained. Franklin thinks Oeter is the chief offender; and you takes your choice. The inspector claims to have sent requisitions for repairs to wagon works, plow factories, engine, boiler machine shops and foundries and thinks will be able to fix up this huge time-saver by July 1st. The watch-repairer has a faint suspicion that this time piece was injured to some extent by being water soaked when the owner got excited and threw it into the river some time back and was recovered by George Cook the pumpner at the water station.

When the help makes too much food the stovetop turns the result is indigestion, nervousness and vomiting. Frequent use of the powerful, inviolable remedy is called pains and distress. MOTHER'S BABY RELIEVER a grand corrective remedy for the stomach and bowel disorders of babies. It is pure, wholesome and pleasant to take. Price 50c and 10c per bottle. Sold by John Johnson, Brodhead, Ky.

McCormick county planted 5000 apple trees this spring. Apples would sell at 10c a bushel more than they are now. They are well cultivated and good. There are big delays in fruit when trees are prospectively ready.

## Why not get your hat made to order?

You know that you can be fitted properly in a ready-made hat and you would not have it made to order just for the mere sake of spending a few extra dollars. You know that it would show poor judgment when there's no particular advantage to be gained.

Why not apply the same principle to the buying of clothes?

Clothcraft Clothes at \$10 to \$20 are ready for service and you can quickly find the one that fits your form and fancy. No waiting—no delay—no guessing how your suit will look when you put it on—you can see and try before you buy.

Almost any man can be fitted in Clothcraft Clothes with little or no alteration. We want to prove this to some of you men, who only think, you cannot be fitted in Clothcraft Ready-for-Service Clothes. Yes, today, we're ready.

soil building "the initial application of four tons per acre of ground limestone, with subsequent applications of two tons per acre every four years will make and maintain a limestone soil on every Southern farm; and this is the first great economic step to be taken in that positive soil enrichment which is needed to treble the average acre yield of the land now under cultivation, and to restore to profitable agricultural use the vast areas of tillable land now lying neglected or agriculturally abandoned in most Southern States."

Limestone and legumes, in the opinion of Dr. Hopkins, must constitute the foundation for corn and cattle in South. Most Southern soils, he points out, can be made to produce abundant crops of clover, alsike clover, sweet clover and alfalfa. These deep rooting legumes are the best soil improving crops; they are the best crops to precede corn, and they are among the most valuable crops in profitable livestock raising. Nothing is needed more in the South for the development of the livestock industry.

Dr. Hopkins quotes Prof. Geo. Roberts, of the Kentucky Agricultural Experiment Station, as saying that nearly all the cultivated soils of Kentucky are deficient in carbonate of lime. This, despite the fact that "there is an impression among many farmers that a soil derived from a limestone formation does not need the application of limestone." Various authorities are cited in showing the deficiency of lime in the soils of Southern States.

Dr. Hopkins is credited with having done much to increase the acre yield in Illinois. His pamphlet dealing with soil conditions in the South is well worth the study of Southern farmers.—*Courier Journal.*

Rockcastle country has sufficient limestone to furnish many states with all kinds of lime "raw" "cooked" or "ground" from the finest stone in our country. A recent analysis made by Chief chemist Alfred M. Peter of the Kentucky Agricultural Experiment Station, shows this stone to consist of 96 per cent calcium carbonate which is equivalent to 55 per cent calcium oxide or pure lime. Our county already has one outfit (a "pulverizer") for grinding this stone at the Mt. Vernon Quarry, W. J. Spaulding Co. Others will be put in commission. The Mt. Vernon Lime Co. will probably install a grinding machine as well as make agricultural lime. The mammoth lime plant of the Kentucky Portland Cement and Coal Co. located at Pine Hill makes plain, agricultural and hydrated lime for which they have a very large and increasing sale throughout this and other States. It is predicted that this ground stone and lime business will prove the source of our county's principal income.

### Limestone For Southern Soils

"A limestone country is a rich country." This quotation is the opening sentence in a pamphlet written by Dr. Cyril G. Hopkins, until recently head of the Agricultural College of the University of Illinois. The title of the booklet is "Ground Limestone for Southern Soils." Dr. Hopkins' pamphlet is being circulated by the Southern Settlement and Development Organization, which has its headquarters in Baltimore, and which, according to its perflatory announcement in this issue of the Signal, "is a study this organization proclaims its belief that soon both are moved and ought to be moved to the South." Dr. Hopkins says that every soil
