### KENTUCKY CROP REPORT

September 10, 1914.

A month of seasonable weather has made a vast change in the crop outlook for the State of Kentucky. Just as we issued reports of August 1st general rains began falling through the State. These rains have been seasonable for the last month and not excessive. It is difficult to believe that such a change in conditions could be made within thirty days. The farmers and live stock men of the State are rejoicing over the improved conditions, and a comparison of this month's report with that of last month is made to show that a great change has taken place throughout the State within the last month. The report of September 1st shows the condition of corn 83 per cent as compared with 65 per cent August 1st. Burley tobacco 80 per cent as compared with 56 per cent. Dark tobacco 72 per cent as compared with 62 per cent. Cow peas and soy beans show a condition of 81 per cent and 82 per cent, respectively. Blue grass shows a condition of 82 per cent as compared with 64 per cent. Alfalfa 87 per cent as compared with 65 per cent. Clover 71 per cent as compared with 55 per cent. Even fruit has been greatly improved by the rains. Low stocks are given as being in better condition than a month ago. Garden conditions have increased from a condition of 41 per cent to 64 per cent.

No one is surprised at outcome of tobacco as a result of the rains. Tobacco is a weed and can give indications of almost a complete failure. It is a weed and the weather make a fine crop. It must not be forgotten, however, that the acreage of tobacco is greatly reduced and the stand imperfect. The greatest surprise is the improvement made in corn. Kentucky will have an average crop of corn, although a month ago it looked like it would be a very short crop. As one expert says: "The rains have made good ears of corn out of rubbins."

In this connection it seems advisable to call the attention of the farmers of the State to the fact that every indication points to a price for food stuffs for next year. The United States Government authorities, the railroads and commercial bodies of the country are encouraging the sowing of a large acreage for winter wheat. The European war will undoubtedly cause the grains and live stock produced in America to bring good prices during the next few months. It is not for several years. We, therefore, urge all farmers to improve their corn and to use bone meal or acid phosphate on their wheat lands. There are but few acres in Kentucky that are not short in their supply of phosphoric acid; 200-300 lbs. of bone meal or acid phosphate per acre for wheat will usually prove a profitable investment. Rye, barley and winter oats will save corn, and should be sown as quickly as possible. All roughness possible should be saved and well cared for in order to save the feed bill for corn.

The State has not been so free of cholera for several years. Farmers will do well to keep their broad sows and to improve their number of sheep. Park and mutton prices will unquestionably be high. If the war continues any length of time, wool will be much higher next year than this. The agents for European governments are busy buying horses and mules at the present time. Prices have advanced materially, but with the war lasting for a few months, it is reasonable to expect cavalry and artillery horses, as well as mules, to very materially advance in price.

The tobacco grower will rejoice over the determination of the Federal Reserve Board to accept notes secured by warehouse receipts on tobacco to the extent of 75 per cent of the value of the crop from banks, members of the Federal Reserve Association. Taken as a whole, the Kentucky farmer has every reason for looking to the future with a hopeful feeling. Every indication is that peace and prosperity are in prospect for him. Very truly yours,

J. W. NEWMAN, Commissioner of Agriculture.

### HOPEWELL

Rev. Charles Carnahan of this place is holding series of meetings at Flat Lick. Miss Isabelle Ping spent Saturday and Sunday with her mother, Mrs. Mary Ping at Walnut Grove. Charles Adams of Cove spent Saturday night with James Arnold. Mr. Keller of Paducah spent several days with his daughter Mrs. John Payne last week. Road working and saving fodder is the order of the day in this section. Rev. Clouse will preach at Hopewell Saturday and Sunday. The Holiness people had service at their church near Hopewell. Satan has had Sunday. Miss Bertha Carnahan spent Saturday and Sunday with her sister Mrs. Steve Carpenter at Mt. Vernon. Mrs. James Nicely and children of Mt. Vernon, spent Sunday with Mrs. Wm Nicely at this place. George Sower and family of Jellico, Tenn. have returned home after spending a week with Mr. and Mrs. John Payne at this place.

### One Thousand Moonlight Schools

One thousand moonlight schools will open their doors to men and women, educated, half educated and illiterate on September 7th, 1914. It is estimated by the Kentucky Literacy Commission from the reports received, at its office, from County Superintendents and teachers, Montgomery, Lincoln, Hardin, Clay, McCree, Mercer, Grayson, Clinton, Pike, Leslie, Campbell, Kenton and other counties are preparing to initiate war on illiteracy. September 7th is to be the evening for Moonlight Schools in the State. It is on that day a canvass of the districts will be made by the teachers on that day to urge men and women to attend. 1,000 Moonlight Schools to open September 7th—50,000 adults enrolled, 10,000 illiterates taught! is the slogan of the Kentucky Literacy Commission for September.

### Local Travel Benefitted

Trains 21 and 22 Extended  
Announcement is made by the Queen & Crescent Route that Train 21 and 22, now operated between Oneida, Tenn., and Somerset, Ky., will be extended, effective Sunday, September 6th, 1914, and operated daily between Oneida, Tenn., and Lexington, Ky. The performance of this new service adds seventy-nine train miles each way, or one hundred and fifty-eight additional miles for the round trip. At the present time, the expense of commodities required in the operation and maintenance of railroads is at its highest and most carriers are curtailing, rather than extending, their facilities, this new service afforded by the Queen & Crescent Route is worthy of the greatest attention and patronage on the part of the traveling public. By using Train 22 passengers can arrive Danville before 9 a. m. and Lexington before 10:30 a. m.; transact their business and return on No. 21 in the afternoon, arriving home before bed time.

Local travel between Somerset and Danville and to and from intermediate points will be particularly benefited by this new arrangement, as there will now be two local trains each way daily between those points, making all stops, instead of the train as heretofore.

When you have an ache, stretchy feeling and you are dull tired and discouraged, it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. Fashion Hints from the Bischof Style Show

The new tailored suits are studies in simplicity

To be really smart, your tailored suit this year must be exquisitely simple.

Few trimmings are used because the materials themselves are trimming enough.

Bischof tailored suits are marvels of style, and are ever so pretty because they are ever so simple.

He has made the choosing of materials an art. He picks them as you would a piece of goods for a "particular" gown—for fashion and service.

Every yard of the cloth is thoroughly shrunk. Every operation in the making is performed by experts who have been at that particular work for years.

Every garment is fitted in live models—this is why you can be so easily fitted in a Bischof coat or suit.

Don't put off seeing them a day longer. There is sure to be one garment among them that was made just for you.

J. N. Vanhook of Garrard has bought the Taylor farm at Moreburg.

The tent recently closed Sunday night with seventy six additions to the church. Hazing took place Sunday afternoon when thirty odd were baptized.

Mrs. Lucinda Bussel, widow of the late Jack Bussel, died at the ripe old age of nearly 104 at her home in the Rockcastle River Section of this county. No doubt she was the oldest person in the county.

Word was received here yesterday morning announcing the death of Mr. Port French, a brother of Messrs John and Buck French. No particulars as to Mr. French had been reported, sick it is the general opinion that his death was sudden.

Canned whale meat is the latest thing to lower the high cost of beef. A company has been formed on the Pacific coast to get the meat and sailors who have lived on it say it is fine. It requires 10,000 cans for one whale and they will not be packed like sardines.

Notice—All persons owing or having claims against the Mt. Vernon Fair Association, will please call and settle same with the Secretary before October 1st. By so doing you will enable the Secretary to make a report to the stockholders at an early date.

W. H. Fish, Secretary.

We wish to call the attention of the teachers and patrons thru out the county to one important feature of the new school book law. The books adapted any for use for five years, if bought this year, old books can be put in at 50 per cent, but if not bought before June 15th 1915, then the old book can not be exchanged at any price. These new books have to be used, it is a violation of the law not to use them and for the benefit of our people we would suggest that the old books be exchanged for the new ones just as soon as possible.

The Rockcastle County Teachers Institute convened Monday with an enrollment of one hundred teachers. Prof. Caltee of Berea is the instructor and an ideal man for the office. His instruction we believe is much above the average and the work, both of the instructor and the teachers have made the present institute one of the best ever held in the county.

Supt. W. A. B. Davis, has made a special effort to make this week one worth something to the teachers. A number of good speakers have been on the program for a time to time, but those whom we desire to mention in particular are Prof. James Faulkner, of Berea, on Health, was, as expressed by many of the teachers, worth the price of the registration fee. Prof. Faulkner is a very able man and one of the noted instructors of Eastern Kentucky. Another is Miss Gardner, Supt. of schools of Nicholas County, who is known all over the state for her splendid work and advanced ideas which has done so much for the rural schools of that county, was present and gave a number of interesting talks. Among one of the important suggestions made by Miss Gardner, was the uniform program, which was adopted by the teachers and will certainly be a blessing to every school where followed.

Prof. Caltee, who is also in charge of the State Health Exhibit Car, had the exhibit sent to Mt. Vernon, and on several occasions the institute as a whole visited the car, where they were taught many valuable lessons on health, and we trust more forcibly blessing to the importance of sanitation.

The corn test and the milk test by Mr. Robert Spence, created much interest, not only among the teachers but the outsiders as well.

This week has certainly provided much good food for the teachers to build upon, and those who do not profit by it, should experience that the teacher of Nicholas county would experience, as told by Miss Gardner—the inability to get a school next year. The search light is turned upon the rural school, as never before, and let us hope that Rockcastle teachers, when the honor roll is called, will stand among the best.

The Boone Way Opera is putting on some fine pictures. The town electric circuit has been "cut in" and better lights are given.

Commonwealth's Attorney for Richard G. Williams of Corbin has announced that he will not be a candidate for Attorney General at the next August primary, and that he had decided to stand for renomination and reelection as Commonwealth's Attorney for Kenton County. He is now serving his second term in that office, and has made a number of strong friends throughout the state, many of whom were hoping that he would decide to make the race for the place now held by General James Garment—Interior Jurist.

ENLISTMENT INSISTIVE AT THE MT. VERNON BAPTIST CHURCH. Oct. 1-4.

Dr. Arch C. Cree the enlistment secretary of the Home Road, Southern Baptist Convention, Atlanta, Ga., will be here also P. R. Walters of Corbin, the strongest man for this section of Ky., and famous Dr. W. D. Powell of Louisville, and O. J. Cole of Bowling Green, another of Ky.'s enlistment men.

This will be by far the greatest institute of the kind ever held in this section of the country and will not be the loser if you fail to come. Every Baptist who can should come by all means.

Every body is invited to come early and stay late. Drop me a card or letter stating when you will get here so that our entertainment committee can provide for you. D. DEACON ALLEN, Pastor. McFERRIS MEMORIAL.

RAY, JOHN M. MACMILLAN.

The mountain branch of the Lexington and Eastern had just been completed. It was the first railroad up in those parts and when the first train was operated over the newly-laid rails many natives of the hills came for miles to see it. Thousands of the simple aborigines had never beheld a steam locomotive before.

Among those who came to watch the advent of civilization into those regions were young mountain lads who had never beheld such a sight. They stood by the side of the track. The train came by. One was so shocked with surprise that he fell back in the ditch by the trackside. The other was so frightened that he set out as fast as he could tear down the middle of the ties.

The engineer blew the whistle and rang the bell, but no avail. With long strides the mountain lad kept up his journey. Soon the locomotive came up with the leading mountaineer and slowed down of necessity.

"Hey, you!" shouted the engineer. "Git off the track!"

The frightened lad looked back over his shoulder, but kept on running.

"You go to it!" he shouted, between gasps. "I know—you want to git me over there in that plowed ground, whar you kin ketch me!"
