J. A. Landrum, Agent. If you are interested in improvements, and want to see old streets and roads, read the article of County Atty. E. K. Grimes on the first page and then go to work for it. The columns of this paper are open for any article on the question, worthy of publication.

The eighteen months' old child of Mr. and Mrs. Grover Johnson, of the Burr vicinity died Wednesday last week and was buried next day at the Maret burying ground near Wildie. Mr. and Mrs. Johnson have the sympathy of the entire community in their great loss.

John H. Fish, who has been Chief Train Dispatcher of the Henderson Division of the L. & N. for two years, has been promoted to Assistant Master of trains of that road. John is located at Earlington, Ky. His many friends at home are glad to hear that he is making good.

OWENS:—Melvin Owens, aged 26, a son of William Owens, of the Quail creek, died last Friday morning after an illness of three months. The deceased first took to his bed, which developed into consumption, causing death. Young Mr. Owens was a model young man, with many splendid traits of character and we join with the host of friends in deeply mourning the untimely death of this noble young man. He leaves a wife who was Miss Stringer, a daughter of Mr. John Stringer. The funeral took place at Providence burying ground Saturday.

Ed Langford, son of Mr. and Mrs. T. P. Langford died Wednesday after an illness of many months and much suffering. The deceased had been a sufferer for years of tuberculosis and nothing that medical skill could do brought any relief. Short services were conducted at the grave yesterday afternoon by Rev. Allen, of the Baptist church, who in his remarks very correctly referred to the deceased as "an able and brave man." The bereaved parents are extended our sincere sympathy in this hour of deep bereavement.

New arrivals in fall clothes at Fish's.

Call at the Signal office for electric light lamps and fuses.

Sutton & McBee have all kinds of Furniture, come and take a look.

Hon. Nat Sewell, Democratic Nominee for Congress was here Monday, on his return from Somerset. Mr. Sewell expects to wear a strong campaign in the Eleventh.

Nothing further had been heard from the big land deal at the time of going to press, but those in position to know seem confident over the situation and feel sure that in less than a week favorable word will be received.

Mr. and Mrs. Fred Piper, who have been visiting the family of Mr. and Mrs. James Rickels have returned to their home in Cincinnati.

Bishop Suggs for ladies, at Sutton & McBee's.

IMPORTANT:—Every member of Mt. Vernon Commercial Club is urged to be present at the meeting of Tuesday night, Oct. 6th, when arrangements are to be made for sending delegates to convention of Southern Appalachian Good Roads Association which holds at Bristol Va. Tenn. Oct. 6, 7, 8 and 9th.

Grow More Wheat, Farmers Are Told.

As a result of the demands that will be made upon the agricultural resources of the United States on account of the war, B. & O. railroad has started a movement to influence American farmers to increase their acreage of crops and adopt extensive methods to enlarge the yield. A. B. O. agricultural expert, J. H. Stewart, says it is practicable for farmers to increase food production by at least 15 per cent, thus adding to the nation's wealth by about \$1,000,000,000.

An appeal is being made to the farmers to sow a large acreage of winter wheat and oats while there is yet time. It will be pointed out that additional corn land can be sown in wheat in the corn belt to bring about a 15 per cent increase without materially interfering with other crops.

The B. & O. is equipped to assist all who want advice and to give demonstrations.

Mr. E. Bullock of Hansford the saddle and harness salesman, is also something of a farmer and can boast of having a crop of corn unexcelled in but few counties of the State. He brought to town Tuesday, an ear of corn which measured 22 inches long, 1 1/2 inches at butt, 7 1/2 inches tip, 18 rows of cobs, with 56 grains to the row, making a total of 1000 grains, weight 2 lbs and 2 oz. Mr. Bullock has sixty acres of this corn and the entire crop compares favorably to this ear. He attributes his splendid success to the right kind of seed corn and of course the ground was prepared right, the corn planted and fertilized in a manner to get the best results. There are any number of farmers in Rockcastle who can make something of a similar report while there are some who hold to the idea that the way father or grandfather raised corn, is still good enough for us and the result, it is nothing, they get and not corn.

Ticking the thorn, harness, loss of voice, indicate the need of a good cough medicine. Sydnor's Cough Cure, restores the throat, cures the lungs, restores the voice, restores the appetite. Price 50c and \$1.00 per bottle. Sold by John Robins.

## Why Definiteness Pays In Advertising Newspaper Responsibility.

Here and there one finds a merchant who says he has tried advertising but never made it pay. The chances are ten to one that the simply needs to study definiteness.

The principle of the specific fact and the specific instance; effect all writing and speaking. They make one man's advertising a partial failure, while another's is a money getter.

If one man visits a strange city, he comes back talking something like this: "It was fine, grand, splendid." His talk evaporates into vague, general phrases. The people that hear him know no more about that city than before. He has few listeners, whatever his subject of conversation may be.

Another man's remarks about the same town, that is full of well-to-do streets, that the streets were so crowded he had to wait ten minutes at one cross walk to get over, and that people were always in a hurry and the street railway conductors always said "Step lively."

After such a man has talked a few moments, you get some idea about the place he describes. You see it with your own eyes.

Every man who ever made a success as a newspaper writer has learned that you must give personal incidents and actual happenings to make any kind of news article interesting. If the reader can't see the thing with his own eyes, the copy won't sell.

That is the same in advertising. If you merely say "Best stock in town" the reader may or may not believe you. Try picking out the best values in your store, give a few details about them so the purchaser can get some idea what they are, then name the price. The reader then sees the bargain with his own eyes, is interested, and feels a desire to buy.

That is all there is to good advertising. It does not require wit, nor literary nor technical skill. Just "come down to brass tacks." Give the plain facts about an article as you would talk to a buyer over the counter. Try it and see!

### YOUR FALL COLD NEEDS ATTENTION

No use to fuss and try to wear it out. It will wear you out instead. Take Dr. King's New Discovery, relief follows quickly. It checks your cold and soothes your cough away. Pleasant, Antiseptic and Healing. Children like it. Manches it quickly. Money back if not satisfied, but it nearly always helps.

### The Only Home Product

Old man (Groch) says: "The average Kentucky farmer buys canned and dried fruits and canned and dried other goods. He gets up at the alarm of a Connecticut clock, fastens Chicago suspenders to his Detroit overalls, washes his face with Cincinnati soap in a Pennsylvania washpan, sits down to a Grand Rapids table and eats Indiana hominy fried in St. Joseph lard on a St. Louis stove. Then he puts a St. Louis bride on a Missouri mule and plows a farm covered by an Ohio mortgage. When bedtime comes he reads a chapter from a Bible printed in Chicago, says a prayer written in Jerusalem and crawls under a blanket made in New Jersey only to be kept awake by a Kentucky clock which is about the only home-raised product on the place."

### WHAT WOULD YOU DO?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and knows its value. Mrs. S. S. Barrett, Peru, Ind., says: "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.

### TORPEDO WHOLE SYSTEM.

"Chamberlain's Tablets have done more for me than I have done for any other medicine. I have used several bottles of these tablets for my wife's use. They have done a great deal for her. I can't say enough about them. Your money back if not satisfied."

Josephus Daniels, secretary of the navy, in an address delivered Labor day to a press association, urged all editors to subordinate their news to the good of the country. He particularly felt, in this time of international strain, that newspapers should be very cautious what they print. This is good advice. But most people do not realize how largely editors are constantly following these counsels.

Controversies as to whether certain news should be published or not, almost always arise out of some individual's wrong doing. A man gets too free with the convivial hibball and festive companions, he punctures some one in the face, and next morning has a headline as a complaint for assault and battery. After paying his fine, he calls around at the newspaper office. His fraternal feeling to the editor is marvellous and unaccustomed. Incidentally he wants to have his little case "kept out."

"It won't do any good to print it is the familiar plea. "No one is interested in it."

But no good purpose is served by the suppression of such incidents. Most men care little about fines, but they care a great deal about the public disgrace. If the newspaper screens them, they are twice as likely to make asses of themselves again.

It is a different story when the newspaper man comes in contact with police and other responsible public officials. If the newspapers printed all they know, many criminals would have the tip to buy tickets for Canada.

Most of the newspapers are handling tactfully the news of the war. They freely print both sides. They have a right to express an opinion as to the causes of the war. But newspapers of the safe type should reflect that if printed not to dignify mere rumormongers, but just as it were, an accident report. There are too many people who remember what you said the day before.

### DEAFNESS CANNOT BE CURED

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by restoring natural resonance. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh Cure, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### COUNTY COURT ORDER

Whereas on the 24th day of Aug. 1914 a petition was filed in the office of the County Clerk of Rockcastle County signed by 20 legal qualified voters of voting precinct No. 2, known as West Mt. Vernon, asking a submission of the question, whether cattle or any species thereof shall be permitted to run at large in said voting precinct in said county. It is now ordered of the Court that a poll be opened in said voting precinct at the general election to be held in said precinct on the 3rd day of Nov. 1914 for the purpose of ascertaining the will of the voters of said Precinct, upon the question whether or not cattle or any specie thereof shall be permitted to run at large in said voting precinct.

### HOPELESS LUNG TROUBLE CURED

Many recoveries from Lung Troubles are due to Dr. Bell's Pine-Tar-Honey. It strengthens the Lungs, checks the Cough and gives relief to the throat. Mrs. W. J. Wilkins, Gates, N. C. writes: "I used Dr. Bell's Pine-Tar-Honey in a case given up as hopeless and it effected a complete cure. I have a bottle of Dr. Bell's Pine-Tar-Honey. If your cough is dry and hacking, let it trickle down the throat, and will surely get relief."

## It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. "She says further: 'Before I began to use Cardui, my back and head would hurt so badly I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.'

I wish every suffering woman would give

### Latest Fashion tendencies as expressed in the Fall Styles

In general, the styles this season are more becoming than they have been for many a day, and are distinguished by graceful lines.

The new silhouette shows a tendency toward the normal waistline, and is given variety in the suits by the use of the cape coat and the moderately fitted coat, and by the many styles of skirts.

The suit coats this season are particularly interesting. They are longer than last season's models. The long tunic accentuates the length of the coat in many cases and gives the length of line so sought for this season.

Many skirts are made with tunics, either straight or plaited. The under or lower skirt is just wide enough to permit comfortable walking. The skirts are somewhat shorter, too.

A definite feature of the separate coat will be the cape, developed in a variety of forms. All have the popular flare effect at the bottom.

Sleeves show greater eccentricity than ever—the set-in sleeve is back again, together with variations of the kimono and cape effect.

In collars—the Gladstone and new Military collars are the most popular, and it's remarkable how well they have been developed in the heavier materials.

The Bischof models on display at your store embody these new style features in a way wonderfully becoming, and not in the least extreme. Come in and stay as long as you like looking over these charming styles. We'll be glad to help you select the one that suits you best.

## Sutton & McBee

property. Five cent on each \$100.00 would raise \$500,000.00, which will go into that road fund at Frankfort each year at the present property value. Two per cent of \$500,000.00 is \$10,000.00. That means that if Rockcastle County will put up next year Twelve Thousand Dollars, or any smaller amount, that the state will put up an equal amount; thus giving us Twenty Four Thousand Dollars to spend on our roads next year and every other year that we will do the same thing. There is another wise provision of this law.

One great trouble with road building in Kentucky, has been the lack of system. This law provides that in order to secure this state aid, the money must first be used in building roads connecting county seats. This would mean to Rockcastle County to have a splendid road leading into our county from every county seat around us. And then after they are built, we can use the same means to build other roads in the county. If we will take advantage of this opportunity, in less than ten years, we can have a splendid system of roads connecting every part of the county. But, you say that the county cannot raise this Twelve Thousand Dollars. No, it cannot do it by taxation, because the Fiscal Court can only levy 25cts on the Hundred Dollars for road purposes, but are there not enough wide awake men and women along these various routes who own property in this county to subscribe what the county cannot raise? At one time there were offers from people along certain roads in the county to subscribe half the amount, if the county would put up the other half, but then we could not do that, but now I the people will subscribe one fourth, we can build them and I believe they will do it. One man has told me that he will give a Thousand Dollars on the road to the Lincoln county line. I am sure that the Fiscal Court, if they will, can keep the roads of the county in as good shape as they now are and have at least \$5000.00 surplus to put into this work each year. The question now before us is: What are we going to do about it? We are going to have to begin next year to pay that \$1,500 into the state treasury, whether we get any back or not. Are we going to sit down and see that money go to build roads in other and more wide awake counties? Or are we going to work and get \$12,000 for every time we put \$3,000.00. If we do not take advantage of the opportunity, our part will go back into the general fund the following year and be distributed among the counties that do apply for it. It is a golden opportunity for the poor counties of the state. Jefferson county which will pay into this fund \$150,000.00 every year cannot get one cent back. If we do our part, the question is up to you. Are you going to get behind your Fiscal Court and ask them to apply for this money from the state? They will do it, if you ask them. They are men of intelligence; men who know a good thing when they see it; business men, but they are not representatives and they will not go to do a thing that the people oppose. I cannot build roads. I do not even have a vote in the session of the Fiscal Court, I am so more in this movement than any other citizen of the county and that is why I am writing you this article, but let's ask our Fiscal Court to begin right now to get ready for this good work next year. If we have roads in Rockcastle, we must begin sometime, somewhere and why not now?

that the moonlight school as well as the school fair will prove a very successful project. We hope that no patron will forget that he (Pilkenton) has right to expect your loyal support, and that there are many ways that this support can be administered. Ask your him how you can aid him.

### State Aid For Roads In Rockcastle County

The Kentucky Legislature of 1914, passed a law creating a State fund for the purpose of assisting the various counties of the state in building better roads. For the support of this fund they provided a tax levy of five cents on One Hundred Dollars of taxable property in the state, beginning with the assessment for 1915. That means that next year and each year thereafter the property owners in Rockcastle County will pay into this state fund five cents on each One Hundred Dollars of the \$3,000,000.00 of taxable property in the county, amounting to \$150,000. The law further provides that any county that will undertake the construction of better roads and will put up one half the state will pay the other half, and that the state will make a survey of the road, furnish plans and specifications and submit an estimate of cost at the expense of the state, unless there should be more work of this kind than the regularly employed engineers can do, in which case the state will pay half and the county half of this expense. The law also provides that no county can use more than 2 per cent of this state money in any one year, which is a safeguard against the wealthy counties appropriating too much of this fund and time crowd out the poorer counties like Rockcastle. There is, in Kentucky, \$1,200,000,000.00 worth of taxable
