About 11 o'clock yesterday morning Henry Bullock the Sand Spring merchant, was aroused by Millard Arnold and John Smith and requested to open his store and get them something to eat. Bullock gave them something to eat from his house, they ate it and still insisted on him going to the store to get some tobacco. He refused to open the store at that hour and the next thing he knew they were carrying canned fruit from his cellar. He asked them to let it alone and was answered by a horse from John Marler, who apparently felt the punch. Next thing Bullock knew some one was trying to force the store door open and just as he rang the phone for assistance the noise stopped. Several neighbors and Jailer Winsted went in pursuit of the boys and found they had taken a horse from John Marler and made the way to Pongo calling Walzer Owens about 8 o'clock. After some searching they were located and arrested. While Jailer Winsted and party were preparing to start to town Arnold made a dash for liberty and got away with several men shooting at him with pistols and Winchester. In all 25 or more shots were fired some as close as 15 feet, but all went wild and Arnold got away. Smith is in jail here. Arnold is the man who was accused, tried and cleared on a charge of killing a woman in Pulaski county two years ago and is considered a bad man. Smith is a son of Ueda Smith of the Pango section. These fellows were in town Wednesday and we understand they made a raid on Bob Lee's whiskey joint near town and cleared the place of all drinks that day. Jailer Winsted rode his jail station "Walking Charley" and Ben Him in Walter Owens' stable at Pongo while searching for the boys and someone, supposed to be Arnold and Smith, sneaked in and cut the horses' tail off and cut up the saddle in great style but didn't hurt the horse.

Nearly every American citizen has known much of the history of the late Frank James, the noted bandit and outlaw, who terrorized more than one State for many months following the civil war. Few people, however, know that he was probably the foremost Shakespearean student of this country. In speaking of his demise a few days ago, Senator William J. Stone, of Missouri, stated that it was a fact that Frank James was the most familiar man in this country with writings of Shakespeare. "Of James," said Senator Stone, "Frank James would quote some familiar passage of Shakespeare while the mask was over his eyes and he was making demand of a cashier for the funds of the bank that he was robbing." The Senator had a very high opinion of the late bandit's intellect, and said that he was exceptionally bright and entertaining in conversation.

WHO HANDLES BOND MONEY? The County Treasurer, who will be under bond, from a bidding company, to the sum double the amount of the bond issue, will have charge of the road funds, which cannot be paid out except on completion and acceptance of the roads, section by section, by State Commissioner and sanctioned by Fiscal Court. Only a fraction of the amount will be in the hands of the Treasurer at one time, as Bonds will be delivered to purchasers in batches only as needed to pay off contractors on finishing up sections of the roads.

March 4th, 1915. Mr. D. L. Carter, Wildie, Ky. Dear Sir:

On February 4th I wrote you in response to some questions in your letter of February 3rd, in which the second paragraph of the letter reads as follows:

"In regard to your second question: If your county builds roads on the most direct and practical route between the county seats, and if you build from the county seat to the State (county) line, you will be entitled to your money, provided the roads are built as aforesaid. We will see to it that the other counties connect up with your roads when they are built."

You will note from the last statement in the paragraph just quoted that the statement referred to the county, and not to the State line. It appears that by a stenographic error the word "State" in the fifth line of the paragraph, was inserted instead of the word "county."

It is evident from the law that your county would only be required to build to the county line of the roads leading to the county seats of the adjoining counties. As your county does not touch a county in any other State, your boundary of course does not touch any State line. However, if your county were a border county, then you, would have a right to build from the county seat to the State line, on the most direct and practical route to the county seats of the adjoining counties in the adjacent State. It is very likely that I did not read the letter of February 4th, as I had a large number of letters on that day and trusted to some one else to read over the letters; but I do not see how any one could misunderstand the meaning of the paragraph, although the word "State" was missed by the stenographer instead of the word "county" in the fifth line as aforesaid.

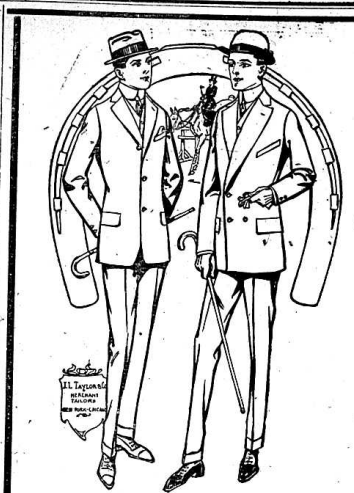

Trusting that this will clear the matter up and that you understand it thoroughly, I beg to remain Yours truly, ROBERT C. TERRILL, Commissioner of Public Roads.

Great Crowds Hear Cooper. Our Faulty Method of Living Produces Ill Health. He Says.

Lexington, March 3, 1915. L. T. Cooper, the man who created such a favorable impression in the Berkeley city with his health theories and medicine, has attracted immense gatherings in Lexington, where the famous philanthropist has delivered a series of lectures in connection with his introduction of Tanwick medicine that is producing such remarkable results in Central Kentucky.

Probably ten or fifteen thousand have heard Cooper talk during the past few weeks. Possessed of an unusual amount of personal magnetism, Cooper seems to draw his crowds from all walks of life, and none ever weary of his health theories. During the course of his recent lecture he said: "Possibly the most prevalent and dangerous disease of our age is catarrh of the stomach. It is the most frequent cause of dyspepsia, and central on this in the nose and throat lead to invincible deafness. Show me a man whose hearing is affected and I will show you a man who is suffering from catarrh."

THE LONG PAST RECALLED

A Letter From A Native Who Left Rockcastle 60 Years Ago

The following letter recalls old times to a few of our citizens who were here back in the 1850's. Mr. Carson, the writer, is a grandson of Joseph Carson, who was buried in Elmwood Cemetery, at this place, in the year 1815 (the oldest gravestone in the cemetery which is standing at the grave today in a good state of preservation).

Mr. Carson's mother was buried in this cemetery in the year 1853.

The sister, mentioned in his letter, is Mrs. Mary A. Miller, the widow of the late G. W. Miller, who established the noted "Ranch 191" near Bliss, Oklahoma.

When advised of the movement to improve this cemetery, these good people immediately got busy and sent \$50. to add to the Improvement Fund.

Mr. Carson was for many years a successful traveling salesman for the hardware firm of Louisville, up until in the late 70's. Later went to Oklahoma where he continued in deserved prosperity.

BLACKWELL, OKLA., 2-25-15.
Mr. Jns. Maret,
Secty. Elmwood Cemetery,
Mt. Vernon, Ky.

Dear Sir and Friend:

Yours of Feb. 8th received. I took the matter up with Bros. George and John and sister Mollie Miller and are all contributing \$12.50 each and feel very thankful that the citizens of Mt. Vernon have interested themselves in this long neglected burying ground and that we are willing to contribute our mite to this improvement. I remember the old town as where I spent some of the most pleasant days of my life, and some day, I hope not far distant, to pay Mt. Vernon a visit. I know I will find many of my old friends gone but it will be a pleasure to meet with those who are left, and the sons and daughters of those who are gone. I hope your association will be able to make and keep your good work a success. Please remember me kindly to all the old families of Mt. Vernon and Rockcastle county. I always claim it as the county my nativity and I know I have many friends there yet as well as relatives. I enjoyed your letter. If I am not mistaken, your grandmother and my Dear mother were very closely related. I am still active and in good health; am now 72 years old. My children are all married and my wife and I are alone where we started. My oldest son is living here; the youngest son and daughter are living in Oklahoma City and have good homes and doing well. I still mix a little in politics but not for myself I ask for nothing only what I conceive to be for the best interest of my country. I am one of the State Democrats Central Committee men.

Yours most sincerely,
JOE J. CARSON.

To the People of Rockcastle:
We have a great opportunity to do something for our country and ourselves. The roads must be improved and we have the best way to do that in the election for a bond issue to improve them. I am most heartily in favor of taking advantage of this great opportunity and I wish every one of the people and citizens of this county

From the 5c Extra State Tax now levied for the building of Good Roads in Kentucky, Rockcastle County will pay approximately \$1,500.00 and will receive in return \$12,000.00 annually, provided the Bond Issue for Good Roads carries on Saturday, March 27th. If the Bond Issue fails, we will still have to pay the 5c Pike Tax for the benefit of other counties and will lose our part of the State Aid. Will you vote to throw this enormous amount away every year, or will you vote to keep it for the building of good roads in Rockcastle County?

I am not in favor of being taxed to help other counties which already have good roads and deny ourselves of those things which other counties now have. There cannot be a poll of more than one dollar and fifty cents. There will be no poll tax for the purpose of paying off the bonded indebtedness. The corporations, the railroads and the towns of the county will pay the great majority of the indebtedness, and yet the farmers and the laboring people will get the real substantial benefit. The man in Mt. Vernon does not have to have pikas, but if I have to go to Mt. Vernon, I very gladly will go.

We can and will get State aid, because the State's plan and we are very anxious if we do not take advantage of this opportunity. Pikas will make things along them much more desirable. They will increase the value of your lands, make transportation much easier and avoid health for both the producer and the consumer. Please read this carefully and vote for the good roads.

\$80,000 LOST OR THROWN AWAY

IF BOND ISSUE SHOULD FAIL

At the rate of \$1,500 a year, the amount which the 5 cent State road tax comes to, which this county will have to pay will be \$30,000 in 20 years. Then there is the \$50,000 the State of Kentucky wants to make us present of, in case our county votes for the bond issue. Put these together and it shows up \$80,000, the amount we stand to lose or just simply thrown away if bond issue fails to carry, and still be without tarapikas.
