and, by the skilled hand and prophetic mind of our own original booster, James Maret, whose light when we saw but darkness, Boone Way was put upon the map. But for that promise these fame that burned in your breasts, those good things could not have come to us. Yes, we are grateful to you. All hail to Louisville, and blessed be thy name forever.

"We owe much to Maret, Bosworth and Sparks, but more to Louisville, for it takes money to build roads. Louisville will put into the State Road Fund each year, under this law you helped to make, about \$120,000, while it will draw out only about \$12,000. Or, in other words, Louisville will give to the less favored sections of the state, over \$100,000 to build roads and highways. Is this not something for which we should be thankful?"

"It is true that sometimes in the past—but it will not happen again—your press has seen the mote in the eye of the mountaineer, while perfectly oblivious to the beams that filled the eye of those who dwelled within your castle walls; yet, 'With all your faults we love you still.'"

"And here's hoping, and devoutly wishing, that the Mountains of Kentucky and the City by the Falls, will be forever united, by the golden chain of friendship, forged and fashioned by the silver hammer of association. And when we build the Boone Way, we will all come down to see you."

"Louisville Boosters, we'd you welcome, thrice welcome are you. The gates of our little city are open to you; the latch strings are hanging upon the outside. Go where you will, wonder where you stay, you are our welcome guests today. And now, we wish to present to you, the golden key of our city. This is not a home or a seat in Rockcastle County! It will not unlock."

Dear Sir:

Enclosed find \$4.00 in payment for the Signal one year. If it was not for the other things of interest in the paper I would want the Signal for the inspiration it contains. Hurrah for Mt. Vernon and the good work she is doing. Your success in getting the Boone Way is nothing short of genius. Go to it boys, "I'm for ya." Mt. Vernon has more push to the square inch than any town in the state.

I want the paper for a pointer to a method of getting the thing I go after. It sure contains the good stuff. Luck to you. As ever a friend to Mt. Vernon and her progressive lights.

"WET OR DRY?"

Fellow Citizens of Kentucky.
 To citizens of Rockcastle county especially, do I address myself. The old men of the county and the young ones, too, know of the old game of toss-up—"Wet or Dry?"

The two words thus associated mean now, Temperance or Intemperance, License or no license, Law abiding or disregard for law.

Those are involved in every phase of American politics immediately or remotely.

"The people are lined up," so to speak, conscientiously or without knowing it on one side or the other.

We cannot make it broader—we wish we could leave a place for neutrals, but we can't, so "Wet or Dry" it is. "Wet or Dry" it is on the one side or the other, and the question resolves itself into a battle of ballots as to which is - to

Good citizens, law abiding men church members will be found in both ranks.

Some of those unfortunately have committed themselves to the fortunes of their party, and will stick to it, tho the heavens fall.

There is but little hope of convincing any one whose mind is not open to sound argument and sane reasoning.

A certain slogan "prohibition don't prohibit" has been sounded in the ears of the people till honest souls have accepted it as God's truth. Just as "Now I lay me down to sleep" etc. will pass for the Lord's prayer, with many but back to little else.

The chief and paramount issue is "Wet or Dry?" The people living in dry territory are compelled in self defense to push the fight on broader ground than ever before.

The people who engage in the business of making and selling liquor do not acknowledge the right of the people to pass laws forbidding or prohibiting the manufacture and sale of it, therefore do not feel bound to respect such law, whether it is a voting precinct, a municipality, a county or a state. We have evidence of it every where. Two Grand Jurymen in Louisville swore they would not indict any one for selling liquor or gambling.

We find it is true in Police Court and in day court, where it is unlawful to sell liquor.

We make these statements fearlessly, and defy successful contradiction of any statement made.

Wish to add another "blanketed" statement that covers the whole field. If making and selling liquor is bad in Mt. Vernon it is bad for the Graded School District.

It is bad for graded school district it is bad for magisterial district in the county.

If it is bad for any one of these it is bad for the whole county and the same is true for every other county in the State which leads by an easy climb to state-wide phase. The County Unit is all right as a "starter." It is so much ground partially won, but it is not the end. It is the County Unit which advocates of County Unit will repeat if they can. County unit cannot prohibit the manufacture of liquor and never can. As an act of Legislature it can be and is liable to be repealed at any biennial session of the same. Space and other limitations forbids the further discussion of "Wet and Dry," State-wide or County-wide only.

In conclusion we invite a denial of any and all such statements, will meet in a spirit of brotherly love, toward any one, black or white, rich or poor and will thank any one in advance that will show me wherein my judgment is at fault. Very truly yours,
 J. W. VAN WINKLE.

B. G. Isaacs, president of the Taylor Isaacs Drug Co. Louisville, says:

"The demand for Tanlac has agreeably surprised us. While we knew Mr. Cooper and were aware of the success his preparation had achieved in other cities of the country, yet we entertained no idea that this medicine would become so popular in such a short space of time in Louisville.

"Judging from the repeat sales and the expression of satisfaction from those who have actually tested Tanlac and who state that they have benefited by the preparation Tanlac must therefore be some thing of unusual merit.

"The class of people who are buying Tanlac are among the best in the city, people who are able to judge impartially and who carry weight with their statements."

"Within a comparatively short space of time we have sold several thousand dollars worth of Tanlac. When it is considered that the demand is confined to one preparation, the sale is to be considered an extraordinary one. In fact, it is the biggest thing of the kind ever seen at our stores."

Tanlac, the premier preparation, is now on sale in Mt. Vernon at the Drug Store of Chas. C. Davis, and can also be obtained in Livingston at the Central Drug Co.'s store or in Brodhead at John Robbin's drug store.

Indiana has a total property value of \$5,184,682,500 or \$1,894 for each man, woman and child and Tennessee shows a wealth of \$1,920,240,261 or \$364 for every person. These and other statistics of wealth, debt and taxation were made public by the United States Census Bureau, based on the 1913 return.

Flippin And The "Graters"

[Paid Advertisement]

Mr. W. M. Flippin at the 1914 session of the Kentucky Legislature voted to double the salary of the Seagent-at-Arms and the two Clerks of the House.

For many years these three officers received \$5.00 per day each, which was ample compensation for the services rendered, but they desired more gratification from the already overburdened taxpayers of the State, and asked for \$10 per day each, and Mr. Flippin who was elected to protect the people from such gratifiers joins hands with them and helps them by his vote to plunder and rob the taxpayers of the snug little sum of \$500 each for one session of the Kentucky Legislature, making a grand total of \$1,500, which was taken from the pockets of the people with the aid of Mr. Flippin's vote, and wrongfully turned to the pockets of three Democratic officers; and this same Mr. Flippin is now asking the Republicans of this Judicial District to nominate him for the office of Commonwealth's Attorney, but he failed to protect the people by his votes in the Kentucky Legislature when it was his duty to do so and they are now unwilling to trust him further. (See House Journal, No. 2, P. 1784-5.)

P. S. At the end of the same session he helped to vote an additional grant of \$50 to the Chief Clerk of the House, making the

total grant for the three officers \$1,300. (See House Journal No. 2, P. 2422)—Somerset Herald.

For many years these three officers received \$5.00 per day each, which was ample compensation for the services rendered, but they desired more gratification from the already overburdened taxpayers of the State, and asked for \$10 per day each, and Mr. Flippin who was elected to protect the people from such gratifiers joins hands with them and helps them by his vote to plunder and rob the taxpayers of the snug little sum of \$500 each for one session of the Kentucky Legislature, making a grand total of \$1,500, which was taken from the pockets of the people with the aid of Mr. Flippin's vote, and wrongfully turned to the pockets of three Democratic officers; and this same Mr. Flippin is now asking the Republicans of this Judicial District to nominate him for the office of Commonwealth's Attorney, but he failed to protect the people by his votes in the Kentucky Legislature when it was his duty to do so and they are now unwilling to trust him further. (See House Journal, No. 2, P. 1784-5.)

P. S. At the end of the same session he helped to vote an additional grant of \$50 to the Chief Clerk of the House, making the

total grant for the three officers \$1,300. (See House Journal No. 2, P. 2422)—Somerset Herald.

All live stock of all kinds in Kentucky—horses, mules, cattle, hogs, sheep, etc., are assessed at...

This sum is more than the combined taxes paid on all the merchandise, coal mines, oil wells, live stock, agricultural products, and manufactured products in the State.

If Farm Lands are compelled to pay it, the tax on farms must be 50 per cent more than at present.

If Live Stock is made to pay it, that class of property must be taxed three times what it is at present.

If Railroads are to pay it, their assessment must be doubled.

If Mining Property is required to pay it, their assessment must be increased to more than 100 times what it is now.
