Regains Former Life and Energy

Miss F. B. Robinson Tells How She Benefitted From Tanlac.

Louisville, Ky.,.....Mrs. F. B. Robinson, of the millinery firm of Robinson & Blomer, at 1628 West Market street, this city, a successful and widely known business woman, says she found relief from Tanlac after trying other remedies with no permanent benefit.

"I was in a run-down condition," she explained recently, and I seemed to have very poor circulation. I suffered from severe headaches, and my sleep was very certain. I was nervous and lacked energy.

"I tried different physicians and different remedies, without getting any real relief. One day a friend said to me, 'Why not get a bottle of Tanlac? It is very good.' I felt that I owed a great deal to the person who suggested that to me. My trouble has disappeared since I began taking this medicine. I am full of energy and vigor, eat heartily, and sleep like a child.

"My nerves are in the shape, and my friends have noticed what a change has come over me. Tanlac did it all, and I am glad to say so publicly."

Tanlac, the peerless preparation is of especial value for its tonic qualities. In case of languor, poor appetite, nervousness, faulty circulation, catarrhal troubles and rheumatism it has proved of remarkable benefit, as scores have testified.

This remedy is now on sale in Mt. Vernon at Chas. C. Davis' drug store and can be obtained at The Central Drug Co's., store, Livingston, and John Robins' drug store in Brodhead.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, produced that incurable condition has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful, and acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Bosworth or Stanley

One Of These Two Democrats Will Be Nominated—Which One Do You Want?

(From The Somerset Journal)

The Republican party has met in convention and adopted their platform. It is also a foregone conclusion that Mr. Edwin P. Morrow will be nominated, practically without opposition, as their standard bearer, so it is no longer a matter of speculation as to what the Democratic party will have to face in the final battle in November. The nominee and the platform of the nominee of the enemy is now known. The primary election is only a few weeks off and it is now time that the Democratic voters make up their mind as to whom they will cast their vote for to be the standard bearer of the Democratic party in November. There are five avowed candidates seeking the nomination for Governor on the Democratic ticket. They have been before the people for many weeks—yet, many months now, and the voters have had ample time and opportunity to study the record and individuality of each of them and to determine as to the one which is best fitted in every way to carry the flag to victory, and give to the State the best administration. And the sentiment over the State shows that they have done so.

The editor of the Journal has been in various sections of the State within the past few weeks and has had an opportunity to feel the pulse of the Democrats regarding the race for the nomination for governor, both from personal observation and from close inquiry from various sources, and there can now no longer be any doubt as to the fact that the race has practically narrowed down to two candidates, namely: Hon. Henry M. Bosworth and Hon. A. O. Stanley. One or the other of these two gentlemen will be the Democratic nominee to lead the ticket in November. There is no longer room for doubt as to whose the race lies. It is between Bosworth and Stanley, with the advantage in favor of Bosworth. But the Stanley workers are leaving no stone unturned which can be turned. They are making a hard fight. Stanley's only chance of being nominated is a division of the opposition vote between the other candidates. This is the true situation in the State, taken as a whole today. We do not mean to say that in each and every neighborhood, this is true, but in the State as a whole. In some localities, or even in some counties this may not be true—for instance, here in Pulaski county where Stanley will get a very light vote and where Bosworth will carry the county almost solid. But in the State in the aggregate the fight is between Bosworth and Stanley, and we repeat that one or the other of these two men will be the Democratic standard bearer in November. We can no longer close our eyes to this fact.

The Journal appeals to the Democrats of Old Pulaski and other counties in the Eleventh Congressional district to get behind Henry Bosworth and give him the largest majority ever accorded

any candidate by the district. The people of this section are familiar with the records of both Mr. Stanley and Mr. Bosworth. They know their views on the liquor question. They know of the interest in Kentucky today which were behind Stanley in every race he has ever made. They know where he has always stood on the liquor question. They also know the record of Henry Bosworth. His record is spotless. Not a single charge has ever been brought against him. He has made one of the very best public speeches the State has ever had. They know where he stands on all questions. He stands for the farmer and laboring man and has saved them hundreds of dollars in taxes by making the big corporations pay their just share of taxation. There have been charges and counter charges hurled back and forth between the other candidates, but no one has ever made any charges against Bosworth. His record both public and private is beyond reproach.

Dr. J. W. Porter, noted temperance lecturer of Kentucky and Vice President of the Anti-Saloon League, strongly endorses Mr. Bosworth. Bosworth has never been aligned with any factional fights in the State. No one has sought against him. If nominated—as he will be by a big majority—he can unite the party in November as no other candidate can hope to do. There is no gaining this. He is admirably fitted to give the State a splendid business administration, something which is sorely needed in Kentucky. Why weaken his chances and advance the chances of Stanley by casting your vote for other candidates when the race is between these two. Mark this prediction, based on the careful study of the situation all over the State, **BOSWORTH OR STANLEY ONE WILL BE NOMINATED. WHICH ONE DO YOU PREFER?**

This is usually done by taking out clearing-house, building and manufacturing statistics, by publishing views of the sky, scraps of district and the plans for the new hotel, and by calling the United States census a liar in emphatic tones.

As far as known there is no city in the country two small to have a Commercial Club. A Commercial Club is of great benefit to any town. It gets the people together for betterment, no matter if all the work is done by less than half a dozen boosters and all expenses paid by a dozen and a half of the more or less unfortunates it is making to be better than any other. who fail to chip in any expense doing for the general uplift, "blowing" about what "we done" in putting down concrete pavements, erecting electric light plant, ice plant and putting good roads move over and "going to have some factories after awhile". A good Commercial Club can take a city of 25,000 people and talk about it so enormously that the man who has read its literature is stricken with awe, and asks the proprietor of the hotel bus where the elevated railroad is as soon as he hits the town. Sometimes a Commercial Club talks so much about its city that it begins to think about it also. Shortly afterward, the city begins to acquire cleanliness, beauty, order, and many other strange and unheard of improvements. Commercial Clubs of this sort should be preserved very carefully in the interests of civilization.—Exchange.
