Louisville Man, However Gains Weight After Taking Taniaic.

Louisville, Ky., C. D. Divine, one of the best and most favorably known men in Louisville, who is bookkeeper for the Falls City Clothing Company, recently had these words to say about Taniaic, the premier preparation: "It was my misfortune to be afflicted with an aggregated case of stomach trouble and a highly nervous condition for several years. Gas would accumulate in my stomach, causing me a great pain. These attacks followed one another in such rapid succession that my entire system became weakened and made me susceptible to coughs and colds. "At one time I feared I was in danger of a complete nervous breakdown. In fact, I was told that the breakdown was inevitable. I had a tired, worn out feeling, my sleep was fitful, I was lacking in energy, and had no appetite. I was depressed in spirits and devoid of ambition. "I suffered for two years, the stomach trouble refusing to yield to the treatment of the best physicians in Louisville. My nerves were shattered. I felt as though my case was hopeless. "Since using Taniaic, I feel like a different man. I have gained in weight, I sleep better, my appetite has returned, and I am filled with vigor and ambition. The tired feeling has vanished completely. "Taniaic, the premier preparation, sold in Mt. Vernon at Chas. C. Davis's drug store also at the Central Drug Co., Livingston and John Robins Drug Store Brodhead Ky.

## LIVINGSTON.

On account of so much sickness we are unable to get out a long letter and will perhaps miss a great deal of news. We are unable to prevent this. Hope that this community will enjoy better health in the future as there is a great deal of sickness here at present.—Mr. and Mrs. Carpenter have returned from a ten-days visit with relatives in Alabama.—C. J. Rice was in Staunford, Tuesday, on business.—J. W. Sams is repairing his property on Main street.—L. H. Davis will build another business house on Main street.—Mrs. W. M. Brady is visiting relatives in Lebanon Junction.—Miss Marie Rambo is visiting relatives at Staunford, Lebanon Junction and Louisville.—Ed Owens, agent at Mullins Station, was in our town Wednesday.

Well, our old friend W. M. Hicks has felt on a firm plan to get a wife. He says he has hunted the country over, from Big Hill to Level Green, and from Gum Sulphur to Clifty. He now proposes to offer a reward, the amount he will state later. We gained a partial description of what she must be, viz: She must not be over 60 years old and over six feet tall; not to weigh over 150 pounds; must not wear a shoe larger than a No. 7; must possess a good set of false teeth; must be crossed-eyed, dark skinned and red headed; must be a good talker and gifted in music and must have a nice little income.—Miss Lizzie Owens, of the Quail Section, is visiting Mrs. J. H. Walton at this place.

—F. M. Dies and S. E. Hellam were in Mt. Vernon, Monday night, to organize a J. O. U. A. M. council at that place.—Mrs. Martha Wells, of Cavanaugh, have returned home.—Mr. and Mrs. Roy Fenwick are visiting relatives in Lebanon, Ky.—Mrs. John Griffin, of Jellico, has returned home after a few days visit with Mrs. J. Owens, who has been very sick for some time is very low and not expected to live but a short time.—Died: Saturday 25, J. H. Union James Meade. He had been in very poor health for the past year. He leaves a wife and seven children and a host of friends and relatives to mourn his loss. He was buried Sunday at the family burial ground up the river near the Bales place. The bereaved family has the sympathy of this community.

—Mr. and Mrs. Earl Rice, of Lebanon Junction, have returned home after a few days visit with their parents, Mr. and Mrs. C. E. Rice and Dr. and Mrs. W. T. Amyx.—There will be another wedding in Livingston in a few days, but we promised Sam we would not tell who.—Mrs. Andy Kincaid, who has been visiting relatives here, returned to her home at London.—Mrs. M. ANDER the water works question. We expect Brother Jonah (and Biddie) to step forward as he did some years ago, when the subject of sidewalks was broached. By the way, Jonah is not one (but several) who is not ignorant of what is for progress. He is simply again a thing because that blamed town board didn't consult him before passing that ordinance ordering sidewalk to be put down. No sidewalk for nine. But he put them down just the same and laugh about it. Said he didn't mean "nighin' nohow" in his contrary talk. Then he bled up the "For proposition. " "We don't want it, don't need it, and won't have it. One day in the county is enough anyhow." But when the fair was put on, Jonah said that it is all right and thereupon discontinued his "hammer" work. The Commercial Club was organized. He didn't think a town of Mt. Vernon's size could make any "noise" in that line, and when the Boone Way House was launched, in the opinion of Jonah, it was the last straw, the camel's back was broken. Time showed good results in the undertaking for the progress of establishing Boone Way and good roads. Bond issue carried. Good Roads to follow. Can't say what stand Jonah will take on this water works proposition.

The town needed electric lights. Jonah "licked" again. "We can't maintain them if we get 'em," said Jonah with his friends Biddie, Melchisedec and others, who should have been "pushed" into the tall and uncut while the progressives were developing the locality, were allowed to roam the streets pronouncing pessimism instead of progress. Yet the same Jonah, with the above mentioned parties with misconceived ideas (or rather holdbackativeness on progress) as one of our most respected and lovable citizens of splendid character and qualifications. Everybody respects him (except for his pullbackativeness in proposed enterprises) and respect him for his many good qualities in assevering distress calls in distress and in smoothing out the troubles and vexations of his hosts of friends. There is more than one Jonah in town, so don't take his to yourself. The coat will fit several. Our town, thank goodness, have less of the above mentioned class than any town in the mountains.

STATE health authorities say, that with a waterworks system our town would be less liable to contract typhoid fever. It is said there are some two or three large flowing springs over the hill within one and a half miles to the South of town, which it is claimed occupy elevations higher than that of Mt. Vernon. - If this be true, our place can secure a fine waterworks plant of great value at a remarkably small figure by "chipping" the water over the intervening knob into a reservoir located on the school house hill at an elevation of 200 feet above the court house steeple which would furnish a pressure sufficient to knock out most any old fire at any stage of the game. It is suggested that the Commercial Club, and other interested citizens buy and have the levee, elevation etc., taken of these springs and do a little figuring as to cost of a plant. The saving in health, physician bills, reduction in insurance, would pay interest several times upon the initial cost of water works at even the highest cost of a plant. But if it is true that any one of these springs has a higher elevation than the town, and the water can be siphoned, the cost will be small as compared with the resulting

benefits to come therefrom. We would suggest that our good friend R. A. Sparks do this part of the preliminary engineering. We believe he will gladly undertake the work. Being a man always to the front in any enterprise looking to the benefit of his community.

With the present rate of increase of population of our town we are compelled to take up the question of water works in self defense and protection. It is dangerous to delay it longer, in that we are now right in the midst of typhoid. It is important that this question be investigated by our people and at once.

THAT is the rule or ruin with Senator J. C. W. Beckham was more fully demonstrated by his acts at the Louisville convention. Six years for Beckham and then watch him go on the retired list.

It has been wisely suggested that the fall campaign in the Eleventh be organized and conducted strictly on a "dry" basis. If you favor the idea now is the time to express yourself.

The Democratic convention held last Saturday heartily endorsed administrations of President Wilson, Governor McCreary and the candidates nominated August 7th.

### A GOOD, PLAIN TALK.

The Home Merchant is Due Your Patronage in the Mail Order Houses.

It is a genuine pleasure to contribute anything that will influence the public to patronize the home merchant. He is the man that buys from you. He is the man that is responsible for what he does. He is the man that corrects any defect and makes it good. He is the man that helps you to build good roads and do everything else that is looking to make life worth while.

The home merchant is always ready and willing to sell goods as cheap, and I might say, oftener much cheaper (quality considered) than any other mail order house in this country. He is entitled to your most worthy consideration, and a little careful study will convince any man or woman that it is to their best interest always to buy at home.

The home merchant has the goods and will sell them always to meet any legitimate competition. Seeing your goods and knowing you are getting just what you pay for is another thing to be considered. What does the man in St. Louis, Chicago, or New York care about you except to get your money and possibly give you an inferior article and charge you more very often than you could have bought it at home.

People all over the country are awakening to the fact that they have been gulled and oftimes robbed, and are realizing that their home town is the place to spend their money. Staid by your home town, your home merchant and every article that is made in Pinoyville. Patronize home industry and home industry will patronize you. Buy at home.—Three States

I never wrote a testimonial before, but I know positively that my own family Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all."

### IS HAPPIER ON THE FARM. CONDITION OF COUNTRY BOY COMPARED MOST FAVORABLY WITH THAT OF HIS CITY COUNTRY.

Do not ever believe, you boys on the farm, that the city boy has all of the good times going. In many ways he has a rocky road to hoe.

One of the big men of the Chicago university, who makes a study of the condition of boys in the cities, says the country boy, if he has the chance of an education and lives in a good home, has a deal better time than the flabby, steam-heated city boy.

The city boy has no opportunity to bring in the wood, milk the cows, gather nuts or go out in the woods.

The city is mean to him. He seldom puts his foot to the ground because it is all covered up with stores and cement.

He has no neighbors, for people move every year, and sometimes oftener, so what's the use of getting acquainted? There are no real homes in flats—not like the homes of the country, where people live in one place for years and grow up with their relatives and neighbors around them, and where the ties of friendship are strong and lasting.

If the city boy tells a yell or plays ball in the streets or swipes an apple, the police are down on him in a moment.

The country boy can whop, whoop and sing as much as he pleases, and occasionally he strays into a neighbor's orchard and comes out in a fit of absent-mindedness with a dozen apples inside his shirt, or a melon under his arm, and he is not arrested! Generally he is invited to help himself and come again, if the neighbor sees him.

In the city everybody is against the boy. The people upstairs complain to the janitor that he makes too much noise; he is not allowed to sit on the doorstep, and so he drifts into crowds of bad boys around the corner who are not allowed to do the things that every healthy well-ordered boy wants to do.

On the street cars, he is herded like sheep, and if he does not keep in line on the streets he is poked in the ribs by a club and shoved about.

The average, healthy, vigorous country boy with ambition to do something that will count in the world can find plenty of room on the farm and have all the fun he wants doing it. Stick!—Exchange

The sober, quiet, innocent-looking camels are always objects of no little interest. With the herd in the Robinson Famous Shows, which are billed to appear at LONDON, KY., Sept. 8, are to be found some of the finest specimens ever exhibited in this or any other country, including the only living baby wild black camel known to man. Its mother having died upon its birth. While a party of hunters were in the high and old regions near the lake of Lobnar last December, in search of rare animals for the Robinson Famous Shows the men sighted a small number of wild camels, and singling one from the number, succeeded in capturing it. Never having seen the like before, the collectors became fired with the desire to show them to the Robinson Famous Show patrons, but were not successful in showing the original of the capture, but a baby camel, that bids fair to be as vicious as its mother. The beast is now giving his keepers no end of trouble, and all kinds of difficulties are daily encountered. Scientists and all students of natural history will find this untamable quadruped an interesting study.

While the thrilling aerial and acrobatic acts, as well as sensational equestrianism and hippodrome races, are absolutely essential to all big tented shows, their performances would fall fat were it not for the clowns. Primarily the majority of show-going enthusiasts, not to mention the boys and girls, visit the canvas cities to be amused, and the starling jesters must see to it that none are disappointed. Realizing that a goodly share of the success of the entertainment depends upon the funsters, the Robinson Famous shows, which give afternoon and evening performances, September 8th, in LONDON, KY., engaged for this season an unparalleled quota of world-famous clowns as money can hire.

There is a veritable army of those jolly fellows, whose sole work is to provide wholesome laughs and amusement for all classes and all ages. From the time the main tent doors are open, which is an hour before the first act enters the rings, until the end of the program, the great hippodrome track swarms with "hurtle-guns, and mirth reigns fast and furious.

The Katzenjammer Kids, Buster Brown, Simple Simon, and the Billiken, those together with all the other comic supplement characters, are there as well as more than a score of others. Also a whole army of suffragettes (if you do not wish to enjoy bawdy and hearty jollity, it will be advisable to remain away from the Robinson Famous Shows. On the other hand, if you are suffering from "so attack of the blues, a certain and permanent cure is secured if you attend the performance.

Be vaccinated against typhoid Those who have been vaccinated will tell you that the remedy's a very mild one, and certainly no one should take chances on a case of typhoid rather than take the serum which is proving wonders wherever used.

On Saturday, September 11th there will be a decoration of the graves and preaching all day at the Laurel Cemetery near Wildie for two or three years the people who have loved ones buried there have been active in keeping the cemetery cleaned off and have erected a good fence around it and now it is no doubt the prettiest and best kept burying ground in Rockcastle county. All who are interested in this good work are requested to be there and bring a fall basket of dinner.

The Rockcastle County Christian Bible School Convention held at Brodhead last Sunday was well attended and those who went say they were royally entertained. The largest attendance from any school in the county, except Brodhead, was 30 from Wildie Bible School. The Convention will be held next year at Wildie. Rev. G. M. Fish, who has no doubt done more for the upbuilding of the Sunday schools and Churches in Rockcastle than any other man, was elected President of the Association for the ensuing year.

The Crew School, Miss Ella Dookey teacher, won the \$25 in Gold given for the largest per cent of pupils enrolled present at the Farmers Chautauqua and educational Meeting at the Court House Wednesday. This school had 38 pupils and parents present and the Madras Springs School ran a close second with 27. The Marchburg, Red Den, Beckers, Chesnut Ridge and several other schools had a lot of their pupils and parents. We believe that they are safe in saying, there were at least 20 school children present that lived outside of Mt. Vernon School district. That day will be long remembered by the boys and girls of Rockcastle County.

The printer in last week's issue made a mistake: "The corn crop is large this year." When it should have read the "acorn" crop. The fire in Signal office a week before is taken as a palliating circumstance otherwise the undertaker would have had a job here and a printer would have been the victim.

A short time after Fritz came to the country he went into a liveryman to buy a horse. A liveryman told him he had just the animal he needed. A good one that would go ten miles with our stopping. Fritz threw up his hands and exclaimed: "Nin! Not for me, I've eight miles to go to my country, and I must do it myself."

Shivel received a car of pine flooring from Florida during the week that he is offering for sale at \$1.50 and \$1.00 per hundred feet the best grade being clear boards. Lumber is undoubtedly cheap in Florida when a man can pay \$85.00 freight on one car of lumber and then sell it at these prices. It seems that Mr. Shivel knows where to go to get quality and price.

Fish elected as secretary, succeeding himself. The next convention will be held at Wildie.

Monday till Wednesday we held the Farmers' Chautauqua, and we regret to have to say that from a point of attendance that it was a failure. Why our farmers do not take advantage of such opportunities to improve in every line connected with the farm. This meeting cost the State over \$200, and yet those for whose benefit it was intended did not appreciate or take advantage of the opportunity offered. The man who does not want to get better is certain not to make many upward strides. Several of the teachers came in on Wednesday. One of the men connected was heard to say that this would be the last Chautauqua for Rockcastle farmers and we believe he is about right.

Dr. Curry of State Board of Health, was here from Bowling Green, last week looking into conditions existing here in reference to the prevalence of typhoid fever. He will report it is conclusions of the inspection later.
