

New Fall Styles IN SUITS COATS MILLINERY

THE MODELS here will give you some idea of the charm of the new Fall and Winter Bischof garments.

See the beautiful materials—novelty plushes, corduroys, fascinating plaids, checks and mixtures, poplins, broadcloth, gaberdine. And the new colors—Prune, Eggplant, Battleship Grey, Seal Brown, Negro Brown, Olive, Bottle Green, Regimental Blue, Midnight Blue, and Puffy.

You'll be sure to notice how far above the ordinary the garments themselves are—how every line suggests the skill of the master mind executed by the master hand.

Bischof garments are made to suit women of every age and every figure. It is the same way with Bischof prices. The range is so wide that there are attractive models for the woman who dresses economically as well as for the woman who is not limited as to price.

Make up your mind now that you are going to have a Bischof coat or suit this winter. They come in soon and select it.

L. H. Davis has his mill completed and is now ready for business. Well, the third of November will soon be here and this will decide which will be governor of Kentucky for the next four years—Morrow or Stanley. Of course Stanley will be victorious. The republicans had to furnish a lamb for slaughter and it may just as well be Morrow as any one else. We believe Stanley will carry the state by a majority of 50,000. Brother republicans, Salt River is a dreary place, but we think this will be your home for the next four years. Our sympathy goes out after you, but when you hear the reign of government for over twenty-five years, you had hope for us, so you will have to take the medicine.—Mrs. W. M. Owen and Mrs. G. S. TWO PIKES UNDER STATE AID Fiscal Court Plans For Reconstruction of Danville and C. O. Roads.

In accordance with the provisions of state road law, the Fiscal Court of Lincoln county is advertising for bids for reconstruction of the Stanford and Danville and Sta. Ford and Crab Orchard pikes.

These two roads constituting a stretch of about 20 miles, are to be rebuilt and reconstructed under the state supervision and in the main with funds received by Lincoln county from state road fund. Sealed bids are asked for which will be opened on October 9th. In letting the work by contract, in the way prescribed by the State Road Department it is believed that the best quality of road work can be obtained at a minimum of expense. A splendid example of pike reconstruction under the supervision of the Department of Public Roads is seen in the reconstruction work which Garrard county is now doing on the Stanford and Lancaster pike from Lancaster to the Lincoln county line. No finer road way is to be found anywhere and travelers over it pronouncing it the equal of a boulevard. The Lancaster Record explains the construction of that roadway as follows: "Over two miles of state aid road has been built in the county, one mile on the Stanford pike and about one mile on the Lexington road, and all who have seen these roads pronounce them the best they have ever seen. Three miles of this road is being constructed by the county under the supervision of the state agent, while fourteen miles have been let by contract to Hughes Brothers & Ward

for \$1.45 a cubic yard. The estimated cost of these two roads is about \$1000 a mile, and all the county receives from the state paying for half of it, reduces the cost very materially. It is thought by many if these roads are given a good coat of oil they will last for fifteen years without any further work than to keep the ditches open. The metal for the Stanford road is being shipped from Mt. Vernon and about 25 carloads a week are being delivered.—Literary Journal.

These pikes are on Boone Way, except the Lexington road.
