

Broadhead

MRS. A. J. Sargent, of the Mt. Vernon, is very low with tuberculosis. -Chas. Owens left the first of the week for Cincinnati, where he has position - Phoebe Burton and Luther Rev. were married by the North. A. J. Pike last week. -A number from here were witnesses in the case of Lewis Schneider against the N. & R. I. Co., the first of the week. -Mr. Schneider fell into an excavation made by concrete gang here last August while attending the fair, and brought suit for \$10,000.00 damage for injuries claimed to have been sustained. The concrete gang were enlarging the culvert under the rail road near W. H. Sower's store. Some of the witnesses from here were J. R. Cass, J. W. Tate, W. H. Sower, Dewey Sower, Leroy Albright, A. J. Haggard, Dr. Steinberg, Givens Carson, Dr. W. E. Grave, Dr. W. F. Carter, C. S. Smith, John Robins, Thos. Francisco and Granville Owens - Ed Hurt, of Lebanon Junction, was here the first of the week on account of the serious illness of his father. -James Meredith was in Stanford, Monday, to see his father-in-law. Thos. J. Oak, who was run down by an automobile and seriously injured. He reports his condition very serious. -Fred Sower and J. F. Frith were calling on the merchants of Mt. Vernon, Monday. -Otis Hall was in Mt. Vernon, Monday. -Broadhead should feel proud of its present school system. A few years ago found us lacking the advantages that we were justly entitled to in educational development and while we could all see that many of our boys and girls, especially those in the country round us, were forced to seek elsewhere for school advantages that now can be had in our own Graded and High School. We were handicapped to the extent that we ourselves must first be educated to the great needs of those about us. Now we have a system that is second to none in the county and a corps of teachers that are well qualified to handle the affairs of one of Rockcastle's best and most up-to-date Graded and High Schools. The following are notes from our local High School. An examination for

Common Graduation will be held here next Friday and Saturday. The examination is to determine the right to enter high school. Among the newly enrolled pupils are the names of Willie Samms, Ruby Hoke, Colmar McCall, Charles Smith, Arthur Dodd, Gilbert Albright, Samuel Albright, Joseph Hall and Marion Chandler. The Agricultural Class are now doing practical work in pruning and considerable interest is manifested. The Botany Class are getting busy and a great deal of interest is manifested, although there has not been "Violet," "Rose," or a "Lily" in the Class. A "Teachers' Training Class" will be organized Monday, Feb. 8, and we predict a large and interesting Class. This Class will be under the supervision of the Principal, and will be held in the presence in county examinations and the work will be thorough. -The High School pupils are instituting a campaign for a library in our school, and propose to fill the beautiful book case which has just arrived. -Tetter Johnson, who has been quite ill for the past week. He has recently been called as pastor of the local Baptist church. -J. J. Palmer has charge of affairs at the depot during the absence of Agent J. R. Cass. -O. R. Cass has been holding down second place at the depot for several days for Chas. Hurt, who is off on account of the serious illness of his father. -The opening of a few new L. & N. offices, or rather old ones will give O. R. Cass third place here again, and no one is better pleased than Owen. -Victor Danmore, who has been holding third place at the depot here for several months, will take charge of an office near Lebanon. -Mrs. Larkin Hicks is quite sick with pneumonia. -Mrs. John Robins has been confined to her bed for the past two weeks with a severe attack of grip. -Mrs. R. S. Shaver has pneumonia. -Elizabeth, the little daughter of Mr. and Mrs. Wm. Francisco, is recovering from a very serious attack of pneumonia. It was thought for several days the child could not recover. -Dr. W. E. Gravelly is the attending physician. -Cashier A. M. Hiatt was a victim of grip the first of the week. He was able to report for work Wednesday, however. -W. H. Barnes and Clarence Shafter recently purchased the property

opposite the Citizens Bank, which was being used for drugs and a barber shop from Mrs. J. Thos. Cherry for \$900.00. O. A. Wheelock is an up-stairs room over Dr. W. E. Gravelly's Store and Barnes & Shafer are getting the room vacated by Mr. Wheelock, ready for a stock of general merchandise. This is a splendid location for a store; and a new firm with a new stock of goods will no doubt do a good business.

FOR REMEDIATION AS soon as an attack of rheumatism begins apply Sloan's Liniment. Don't waste time and suffer unnecessary agony. A few drops of Sloan's Liniment on the affected parts is all you need. The pain goes at once. A grateful sufferer writes: "I was suffering for three weeks with chronic rheumatism and stiff neck, although I tried many medicines, they failed, and I was under the care of a doctor. For nearly a year Sloan's Liniment was used after using it three or four days at a time. I am employed at the biggest department store in S. F. where they employ from six to eight hundred hands, and they are all well. Sloan's Liniment. -E. R. Smith San Francisco, Cal. -Jan. 1915 All druggists.

PUBLIC SALE. As administrator of the estate of Ross Payne, deceased, I will, on Monday, January 24th, 1916, at the home place, offer for sale, the following: 1 horse and 1 cow, 8 bushel corn, small amount of feed, a few carpenter tools, some chickens, the household and kitchen furniture and a few other articles not named in this list.

Terms: -All amounts \$5.00 and under, cash in hand, over \$5.00 three months with security and bearing legal interest. -This Jan. 14th, 1916.

BOB LANGFORD, Adm. BAD HABITS. Those who break at eight o'clock or later, lunch at twelve and dine at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

Livingston

Mrs. Daniel Funder, who has been very sick for some time, is greatly improved. -Mrs. D. B. Rambo has been very sick for the past week but at present she is slightly improved. -Mr. and Mrs. I. W. Cullin are visiting relatives at Lebanon this week and Ed Owens, of Mullins Station, is working at the freight house in his place.

Mrs. Jerry Sims, Hazel Patch is visiting relatives here. -St. Griffin, of Mt. Vernon, was here Saturday between trains. -Atty. and Mrs. Ed Getz and Miss Sallie Reynolds, Judge G. M. Ballard and S. C. Franklin were here between trains Saturday. -Mrs. Marshall W. N. Riggs is visiting court at London this week. -Mr. and Mrs. J. M. Andrews, Argentin is sick with pneumonia. -M. P. Varshanka was in Mt. Vernon Monday on business. -Jack Carpenter, who has been quite sick, has taken a relapse. He had grip for nearly a year. -Ben Griffin is in much worse. -Ben Griffin took the first degree in Masonry Tuesday night. -W. H. Cottingham was called to Pine Hill Tuesday on account of the death of his sister. She was buried at the family burying ground Wednesday to a halt on Judgment. -We have been informed that Thomas Jones will rent the Right Gables Restaurant and will commence in a few days dishing out grub to the public. We wish Tom well in his new undertaking. -We have not learned where Marshall banks intends to locate. -Miss Blanche Blanford is visiting relatives in Parkville and Louisville this week. -Mrs. and Mrs. L. E. Davis are visiting relatives in Berea this week. -Next Sunday will be the first of the year for the Baptist church. -Sheriff Cam Mullins, who has just recovered from a severe case of fever, was here Saturday shaking hands with his many friends. -We learned that George Mullins and Fred Perkins were back on the job Tuesday. While we sympathize with their parent, and realize that they are in a great deal of trouble, yet it seems that the boys intended to go back and, perhaps, they got off light, for the crime could have been worse. We have long since learned that allness is the parent of evil, and bad company will sure get you in bad. While Livingston, like all other towns, has all classes to deal with, yet we believe we are getting better daily; and upon the other hand there is no finer people to be found anywhere than in our good old town. They are kind, generous, and above all, they are a God fearing people. -Mr. and Mrs. Gearing Burton, of Junction City after a few days visit with Mr. and Mrs. W. R. Ward, have returned home. -W. M. Clark is having a severe bout with thrip. -Reece Ward is visiting his sister. Mrs. Will Brady, at Lebanon Junction this week.

\$100 REWARD \$100 The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is cancer. It is being greatly influenced by constitutional conditions. The new constitutional treatment, Halls' Cancer Cure is taken internally and acts through the blood on the poisonous surfaces of the system thereby destroying the cancer cells. It is the most powerful strength by building up the constitution and assisting the system to get rid of the cancerous cells. Any one who is afflicted with cancer should take Halls' Cancer Cure. Send for free literature.

Halls' Cancer Cure is sold by all druggists. Price 50c per bottle. Sent by mail on receipt of 50c. Address: Halls' Cancer Cure Co., 111 N. 3rd St., St. Louis, Mo.

Disputants

It seems like grip is the prevailing disease in this community; some getting better, some just taking it. -Mrs. Mahala West of Home, Ill., has been ordered home after a visit to her mother, Mrs. Eli Gattiff, and other relatives. She had not seen her folks for seven years. Jimmie Gattiff has returned from Hamilton where he has been at work for the past year. -Willis Chasteen is visiting folks for a few days. He is working for a company at Franklin, Ohio.

Rev. Hugh Pond filled his appointment at Clear Creek Baptist Church Saturday and Sunday. -The Theological Seminary at Louisville a few months. He is a great preacher considering his practice. -Squire Chasteen bought a fine omnibus horse from Jesse Simpson of Crooksville, Ky., for \$12. -Lots of hogs have died of cholera in the neighborhood. Every body who loads hogs should burn them and save others from this disease. Cholera can be carried for miles by dogs. -Cude Croucher has moved to J. D. Pennington's property. Mr. Pennington has moved to Berea where he will be in charge of the school. -John Dooley's school gave an entertainment Saturday which was enjoyed by all. John is a fine boy and the patrons are loud in their praise of him. At Bowling Springs, where he was married, he was a very fine man. -Mr. and Mrs. S. C. Davis, Dr. S. J. Albright, C. C. Davis, Dr. S. James Pennington, Atty. Thomas Stewart and other famous men too numerous to mention. -Myrtle Rowland is very sick. -M. V. Swainland has moved his family to Hamilton. -W. S. Payne, James Chasteen and other famous men to Hamilton to work. When the boys go to Berea with their go-away satchels the agent don't ask them where they are going, but just hands them a ticket to Hamilton. -Every body ought to take the SIGNAL.

DIXIE HIGHWAY The Times-Star, of Cincinnati has the following editorial on the "Progress of the Dixie Highway," which will be of interest here: "It was less than a year ago that the Middle West determined on an active effort to make Dixie a reality. Yet the progress actually made in construction and preparation since that time is amazing. It is now expected that the great highway, which is to reach from Miami, Fla., to Chicago and Michigan through Cincinnati and Louisville, will be completed from end to end and much sooner than originally expected. One third of the counties through which the highway will pass, reported expenditures in six months of \$1,765,000 on actual construction. Using these figures as a basis, the American contractor estimates that the amount spent is 195 in all of the 162 counties on the routes followed by the highway was not less than \$5,300,000. This is a very impressive beginning. The same progress may be made in the next forty days. It is in the hands of State, Provincial and Representative Legislatures. The introduced Dixie bills in the Senate and House respectively.

Judge Joe B. Williams, of McCray's County in Franklin claiming that the impoundment charges are "unfairly gross" and says that he is in a quandary as to how to proceed. Congressman A. W. Barkley has introduced a bill in Congress to prevent the manufacture and sale of all alcoholic liquors in the District of Columbia and says that it is his intention to push the bill to turn the national capital dry. He said that it was a mistake to accuse Kentucky of being a "wet" State for it is not. It is a "dry" State.

It is regretted that Kentucky has no members of Congress from the State that produce more whiskey than the District of Columbia. Three-fourths of all the whiskey in the United States is produced here. It is a pity that the State is not a "dry" State according to Washington legislation.

As an Indiana man carried his mother-in-law. The bridegroom has four children, two boys and two girls, who by this marriage become their own uncle and aunt. They are also brothers-in-law to the bridegroom's mother-in-law.

MAIN ISSUE IS PROHIBITION

Drys Lose In The Senate By a Vote of 20 to 14

ANTI-PASS GOES THRU

Much Interest Over Woman Suffrage - Stanley County Will Likely Be Made - A Business Session.

FROST BILL DEFEATED. The State-wide prohibition amendment measure, known as the Frost-Hamilton bill, was defeated in the Senate Tuesday by a vote of 20 to 14. Party lines were said aside. The "Drys" are preparing to push their measure in effort to rid the State of the liquor traffic.

Franklin, Ky. (Special). -State-wide prohibition is the issue of the anti-pass bill are the paramount issue to be decided at this session of the Kentucky General Assembly. There has hardly been a day since the 1915 session opened but that these three matters have been mentioned or referred to in resolutions, bills and the like.

The "wet" claim that a show-down on the liquor question was forced to the Senate by the passage of the anti-pass bill, the "drys" claim they wanted to know where every member stood at the earliest possible date. It is stated over their victory in having the State-wide bill favorably reported by the Senate committee. The bill gave the administration the biggest surprise of their lives and staged a battle of the legislature. It is said that the usual grand lobby of the distillers have not made their effort to stop it. In the last session of 1912 the state-wide question was deferred until the closing days of the General Assembly.

Drastic enough to remedy the evils so long complained of by the people, the administration's anti-lobby, anti-corrupt practice committee have been introduced in both Houses and will be pushed by Governor Stanley. Who pledges himself to see that they were enacted.

The bill to reimburse Kentuckians for cattle destroyed in stamping out the epidemic of foot and mouth disease is expected to pass both Houses with little opposition. It provides \$500,000 for these losses sustained by farmers. Similar bills have been passed by fourteen States.

Representative Frank C. Greene, of Carrollton, has said that he will open Hon. Arthur Rorer, Burlington, for the renomination to Congress from the Second District. Greene is himself permitted to push his "Jim Crow" bill providing for the separation of street cars with compartments for negroes.

Judge James M. Benton has made it known that he does not intend to oppose Representative J. Campbell Cantrell, of the Seventh District. In great haste he is expected to succeed the late Justice Lamar on the Supreme Court. It is expected that he will be supported for the latter place by all except three of the Kentucky delegation in Congress.

The fight of the dry forces in the Legislature to secure the passage of a State-wide amendment for prohibition is still the initial struggle that will be waged during this session. A bill to be introduced to prohibit the manufacture of intoxicating liquors in Kentucky. The constitution is silent on the question of the manufacture of intoxicating liquors. The sale, barter or importation is permitted by Section 61 of the constitution, but the word "manufacture" was left out, so that the dry forces claim that a bill to prohibit the manufacture of liquor may be passed forty days. It is in the hands of State, Provincial and Representative Legislatures. The introduced Dixie bills in the Senate and House respectively.

Judge Joe B. Williams, of McCray's County in Franklin claiming that the impoundment charges are "unfairly gross" and says that he is in a quandary as to how to proceed. Congressman A. W. Barkley has introduced a bill in Congress to prevent the manufacture and sale of all alcoholic liquors in the District of Columbia and says that it is his intention to push the bill to turn the national capital dry. He said that it was a mistake to accuse Kentucky of being a "wet" State for it is not. It is a "dry" State.

As an Indiana man carried his mother-in-law. The bridegroom has four children, two boys and two girls, who by this marriage become their own uncle and aunt. They are also brothers-in-law to the bridegroom's mother-in-law.

One hundred citizens from Pike County arrived in Frankfort to support their concerted action against the proposed bill to divide the county and make Stanley County. It is the intention of the citizens to petition the Legislature to pass the amendment providing for a statewide vote on the question of prohibition. The citizens of Pike County are expected to send a petition of at least 1,000 names to the General Assembly each day.

Mrs. Beatrice Hale, of New York, one of the leading suffragists of the country, received a warm welcome on her visit to the State Capital and in her address to the Joint session of the General Assembly. She was introduced by Lieutenant Governor James M. Black. Suffrage leaders claim an abundance of confidence in passing their bill providing for a statewide vote next year. -State-wide prohibition was given a hearing in Frankfort Tuesday by the Committee on Constitutional Amendments decided to report favorably on the proposed amendment to the constitution to prohibit the manufacture of intoxicating liquors in the State. The amendment to the constitution will be a constitutional impossibility to divide the country since Pike County is present in the State. This question, however, is in dispute and it will have to be determined by the citizens of the State. The question of a county must contain at least 400 citizens.

LAST BIG REDUCTION On Ladies' Suits, Coats, Misses' and Children's Coats, Millinery, Men's, Boy's and Children's Suits and Overcoats. Positively the largest cut that has ever been offered. Only to last this month. Come and let us show you.

MEMBER OF
 KENTUCKY PRESS ASSOCIATION

Senator Lewis, representing the Seventeenth Senatorial district, went on record with the "west" on the question of submitting a vote on State-wide Prohibition. Since Senator Lewis was a strong advocate of State-wide when making his race for the nomination, it is somewhat of a puzzle to figure out why he cast his vote on the whiskey side. We take it that Senator Lewis had a good reason for so doing and will be able to give a satisfactory explanation.

COMING TO KENTUCKY.
 President Wilson Will Deliver a Preparedness Speech in Louisville.

Announcement was made at Washington Monday that President Wilson will come to Kentucky and deliver an address in behalf of his preparedness program.

It is said that so many reports have reached the President of confusion over the issue before Congress, and of the uncertainty of the outcome, that he has determined to go before the country in public address in support of the program prepared by Secretaries Garrison and Daniels.

The date has not yet been selected for the President's visit to Louisville, but the plans for the speaking trip are now being prepared.

SIGNING STATE-WIDE PROHIBITION

All Over County Asking Representative Gooch to Vote For It.

Representative W. G. Gooch was home from Frankfort and on the streets here circulated a number of those interested, sought his views on the question of submitting the state-wide prohibition question to a vote of the people, but it is understood that they got little satisfaction or assurance that he will vote for such a measure. Petitions are being circulated all over the county, it is understood, asking Mr. Gooch to vote for the bill, and it is pointed out that in the Democratic primary last August, the man who was running as the State-wide candidate for Governor, carried the county over the man who was said to be opposed to it, and for this reason, those who want to see the question submitted to a vote in Kentucky say that Mr. Gooch's constituency are clearly in favor of his voting to submit the question to a vote of the people. Mr. Gooch says that so far as he can at present see things, he will not introduce a single bill at the present session. The state-wide bill will come up in the Senate Tuesday or Wednesday, and, of course, Senator Montgomery, of this district, will vote for it.—Interior-Journal.

THE BEST TOWN AFTER ALL
 There are fancier towns than our little town, there are towns that are bigger than this, and the people who live in the fancier towns all the city excitement will miss. There are things you can see in the wealthier towns that you can't in a town that is small, and up and down there is no other town like our little town after all. It may be that the street through the heart of our town isn't wide, but long isn't straight, but that neighbors you know in our little town with a welcome will wait. In the glittering streets of the glittering town with its palace and pavements and thrall, in the midst of the throng you will frequently jog for your own little town, after all. If you live and work in our town, in spite of the fact that it is small, you'll find that the town—our own little town—is the best of a town after all.—Ex.

 NORTH HIGHLAND AVENUE, BRUSH CO. Prospect, Ill.

OUR PUBLIC FORUM
G. E. Cassel
On Railroads Co-operating With the Farmer
 Cooperation is a theme that lends itself most readily to theory but yields stubbornly to practice. It is easy to speak the word, to declaim its meaning, and more difficult still to practice it. All can be said but it takes vision to be progressive. The organized farmer has been preaching cooperation for a few years, but now come the railroads talking cooperation in the language of the soil.
 A recent paper read by G. E. Cassel, publicity agent of the Norfolk & Western Railway, is so full of horse sense that we reproduce it in part and urge the farmers along that roadway to continued cooperation with the management of the road in all problems of mutual interest.
 "We are now dealing with two of the most gigantic occupations of men—farming and land transportation. They are the basis of our wealth. When they fall the whole country falls. Therefore, how important it is that these two should fully understand each other, and work together not only for their own commercial advancement but for the prosperity of the nation.
 "The farmers and the railroads are natural allies in all their interests. It is difficult to conceive of greater service to the commonwealth than that of firmly joining in the minds of both the railroads and the farmers that they are mutually dependent and that the prosperity of one depends on the prosperity of the other, but that suspicion and misunderstanding destroy the various interests of both. Many of the most progressive and far-seeing railroads have fully recognized this relation and dependence.
 "In the annals of economic conditions in all branches of human endeavor there is no record down to within quite recent years, where action has been taken at the utter lack of the cooperative principle—the work together idea—and not only that, but extreme selfishness and purblind prejudice has more apparently dominated in the different branches of trade and other avenues of enterprise. This was a condition that government could not remedy. No statute law, or even written constitution, can do more than safeguard those inalienable rights of the individual.
 "The mutual advantages of cooperation and sympathetic understanding are many and varied for both the railway and the farmer. The farmer is peculiarly dependent upon rapid and cheap transportation. His products are always comparatively bulky and frequently perishable. His products give farmers a worldwide market for their products. An intelligent understanding of the fundamental improvement of railway transportation is essential to the prosperity of any agricultural community. Worldwide and nationwide markets are made possible only by regular and cheap transportation such as is offered by the railroads.
 "So the farmer may conclude that when he cooperates with the railroads, his most potent allies, he is doing good for himself and much good for his country.
 "While there is leaves in the forest and foam on the river,
 "The farmers and railroads shall flourish forever."

ROOSEVELT RULED OUT.
 Preliminary plans for the Republican National convention to be held in Chicago at the Coliseum June 7, were approved last Monday by members of the sub-committee on arrangements, of the National Committee, after a series of conferences with Fred W. Upham, chairman of the local committee.

The sub-committee adjourned without discussing the selection of a temporary chairman for the convention although four names were mentioned as possible candidates. They were Elihu Root, of New York; Senator Borah, of Idaho; Governor McCall, of Massachusetts, and Charles Osborne, former Governor of Michigan. It is believed that the selection of a temporary chairman may be deferred as a matter of political expediency until April or May, although the sub-committee adjourned to meet again in Chicago, March 15, when the subject may be taken up.

Republican national leaders who attended the meeting expressed the opinion that the convention would be open-minded and deliberate in the matter of naming a chairman.

They indicated that they would favor any available compromise candidate except Col. Roosevelt and said they believe the delegates would be able to select a leader who would be satisfactory in every element of the party.

Insuring a Family
 THE SMITHSONIAN TRUSS HOLDS IN ANY POSITION.

THIS is a young girl in a little house with her parents and four brothers and a sister. When the falling cause of the girl called upon her she found the whole family in danger of contracting tuberculosis from the young woman through ignorance of the proper methods of caring for the patient. The nurse instructed the members of the family about the preparation of the diet food and the care of her room, so as to give her every chance for life. Most important of all, the nurse showed how the disease-tuberculosis is spread from one person to another through the spit and spray from the mouth of a consumptive. They were taught that all of the expectorations should be caught in paper boxes or napkins and burned. These instructions practically insure the lives of the other members of the family.

THIS GRAND OFFER is open to all, old and new subscribers. If you are at present a subscriber to any of the above send us your order and your time will be extended.
 Why not make home life really attractive by providing good literature that can be enjoyed by all the family. We have especially prepared this combination to meet these requirements, and all at a price within reach of everyone desiring the very best.
 Please remember our agreement with these publishers is limited and we reserve the right to withdraw this offer without further notice. Therefore, OUR MOTTO IS: "Take advantage now while the opportunity is offered you."
 We can conscientiously recommend this offer to all our readers, and feel satisfied you will be most delighted with the investment. It is impossible to send sample copies, but they can be seen on display at our office. Call or mail orders to

MT. VERNON SIGNAL
Deepening the Farm For Bigger Crops
 The Third Dimension of the Farm an Important Factor to Greater Crops and Bigger Dividends.

When farmers are beginning to realize that a farm goes farther than length and breadth, and that the best factor, and incidentally this third dimension is a clearly identified influence upon the "productivity" value of the earth's surface.
 Thus "vertical farming," a new method of agriculture is rapidly being evolved to enrich the farm. It is a method from a hog's head is not enough. Deeper cutting is essential in order to reach the layers and experience has shown that a steady flow of air through the soil is essential to the growth of crops. When the productivity of a farm is reached by the third dimension, the soil is aerated, the soil is filled with the best natural fertilizing elements taking care of increased horizontal or surface acreage are all right in their way, but to go deeper into the farm to increase its fertility and productivity by increasing its depth, is a most important factor in vertical farming. This method of farming vertically is accomplished quickly and economically, and very often, a single cartridge of explosive will convert several yards of otherwise useless subsoil into half an acre of new root feeding surface. Thus, instead of spreading out and embracing more territory, vertical farming enables the farmer to really concentrate and by intensive methods conserve in both labor and expense. At the same time the resulting increase in crop combines the profitable features of the process.
 And there is a practical reason for this. Soil scientists have shown that the soil is aerated only when the soil is dry. Few tools are required for the work.

PERSONAL

Mrs. H. C. Gentry is very sick with bronchial pneumonia.

Mrs. Della Gentry has been very sick but is a little better.

Atty. C. C. Williams and J. W. Brown were in Corbin on Sunday.

Mrs. Reynolds, an aged woman, living at Pine Hill, is very seriously ill.

Mrs. Dolan, mother of Mrs. R. A. Welch, is very sick at her home at Pine Hill.

Mrs. W. H. Fish and young son spent a portion of the week with Mr. and Mrs. Geo. G. Brock at London.

Mr. and Mrs. Ben Gabbard and little son, of Richmond, are with Mr. and Mrs. R. A. Welch during the week.

Otto Reynolds is able to be out again after being confined for about a month with the grip and pneumonia.

Mr. and Mrs. W. B. Reinke have as their visitors, Mrs. Reinke's parents, Mr. and Mrs. W. A. Aiken, of New York.

R. S. Jett, the Main street grocer, tells us that he will close out his interest in the store and will take a position on the road.

Miss Desse Thompson has been very sick at the home of Mr. and Mrs. Geo. Burton, but is some better. Her mother was with her a few days this week.

Mrs. Sam Cox went to East Bernstadt yesterday to attend the burial of her brother, Lee Johnson, but it was learned later that the burial took place at Heidle burg.

Dr. D. B. Southard was here yesterday on his way to his home at Stanford. He had been with his mother who has been very sick at her home a few miles south of town.

H. H. Beatty, a former citizen of Mt. Vernon, has now living at Science Hill, Ky., where he is doing a splendid business with his roller mills, was a visitor to our town Tuesday.

Robert Nixon, a substantial citizen of the Wildie section, was in town Tuesday and paid this office a call. Mr. Nixon is a staunch friend of the Signal and never fails to have a dollar for his paper.

Ben Farrell, who has been working with A. B. Furnish on the new railroad grade between Barbourville and Manchester, is at home for a week. He says Mr. Furnish is getting along very nicely with his grading, considering the extra amount of rain.

Cecil Williams, for the past four years a clerk in the State Auditors office at Frankfort, has been appointed District Agt. for the New York Life Insurance Co., with fifteen counties under his supervision. He will make his headquarters at Somerset.—Somerset Journal.

LOCAL

The Silver Tea party, given by the Girls Society, an auxiliary of the C. W. B. M., at the home of Rev. and Mrs. H. T. Young on last evening, was a most enjoyable occasion for the young people.

A number of young people, chaperoned by Mrs. Mullins, gave Aubrey Martin a surprise birthday party on Wednesday evening of last week. But few of the boys are striving harder or making much better record in school than Aubrey.

SALESMAN WANTED to look after our interest in Rockcastle and adjacent counties. Salary or commission. Address THE HAVY OT CO., Cleveland, Ohio.

Go to Fish's for the best fish goods

Let Fish's finish your Kodak pictures.

It's nice to wear get it at Fish's. There's a reason.

Court will adjourn tomorrow. This has been a very busy term and lots of business has been transacted.

It is cheaper to pay for your own paper than to wear out about leather trotting over to borrow your neighbor's.

The eighteen months old baby of Mr. and Mrs. Wheeler Clark, of the Orlando section, died last week of pneumonia.

John French, of the Wildie section, captured a real wild cat in the dark hollow on the Gus Stewart place, a week ago. The cat is a good sized one and weighs fifteen pounds.

Ex-County Judge Roscoe Taylor, of Pulaski County, according to a Frankfort dispatch, will soon toss his hat into the ring for Congress in the 11th District against Caleb Powers.—Somerset Journal.

If you are going away on a visit give us the item. Don't wait to be called on. If you have friends from outside the county visiting you, send us their names and residence. We need your help to get all the news.

Broadhead furnished her full quota of witnesses in court this week, in the \$10,000.00 damage suit of Schneider vs. the L. & N. R. Co. There must have been some thirty or forty witnesses from that town testified. The jury returned a verdict of \$300 for plaintiff.

J. B. Livesey, one of our best and most progressive farmers, living about two miles out of town, is adding to the value and beauty of his already attractive home, by having placed along the whole of the front of his house, a heavy stone wall, built out of the splenid old rockcastle limestone. Deramsey, our first-class stone mason, is doing the work.

Word reached here yesterday, that Lee Johnson, a brother of Mrs. Sam Cox, was dead at his home in Madison. The deceased formerly lived at Livingston where he was in business, being associated with J. B. Columbia in the restaurant business. The deceased was a Mason, and a splendid man. We join with his many friends in mourning his untimely death.

Hon. J. Bullock was here yesterday on his way to his home near Hansford, on account of the illness of his wife. Mr. Bullock says he is putting in full time, and that the duties of a solon is something of work when one tries to do his duty, and keeps abreast of what is doing. He says the defeat of the Prohibition bill is directly charged to Gov. Stanley who had been very active in Senate caucuses up to the time the vote was taken. According to Mr. Bullock the dry Democratic members are sore on the administration as a result of the defeat of the measure and that many of them are no longer in harmony with the administration on administration measures. Mr. Bullock will return to Frankfort as soon as his wife is so he can take her.

At motion hour on yesterday Atty. C. C. Williams and E. R. Gentry, representing the good roads people in the bond issue fight, moved for a submission of the case. Judge Brainer, who is the attorney for the opposition, objected to the submission, upon the grounds that he was not ready for trial, in that there were many others whose depositions he desired to take. When the Judge was forced to say as to the character of evidence he yet wished to offer, he admitted that the evidence would not be competent but that, under the circumstances, he felt that he should be allowed to take the proof and present it to the Court. We do not know what kind of a plaything Judge Brainer wanted to make out of the court, for the large crowd which had assembled in the court room to see what disposition would be made in this case, was not ready to say nothing of the effort to make the other attorneys and the Court upon the bench. It goes without saying that the Court very promptly ordered a submission of the case.

Make it a rule to break your

mailed in the grip lighting pipe, cigar or hot smoking pipe, then there will be accidental conflagration from your carelessness in throwing the lighted match aside, then you may get a scorch finger in the breaking, that is better than losing the house or setting the woods on fire. Better still, blow your match out, then break it. By following this rule hundreds of thousands of dollars would be saved yearly in this country. This is one of the rules governing employees in the national forest reservations.

Paris, Ky., Jan. 24.—The task of raising \$30,000 to provide a home for aged Old Fellows and their widows, has been completed and to-morrow Judge E. B. January, of this city, will go to Eminence to pay for the old Gilmer College and 30 acres of ground which was purchased for that purpose. The work of securing the funds was done by Judge January, who also originated the plan. The price to be paid for the Eminence property is \$10,000, which will leave the sum of \$20,000 with which to equip the building for the other purposes.

George Mullins and Fred Elkins, who were held in jail on the charge of robbing J. H. Browning and a brakeman by the name of Newland, at Livingston a week ago, were taken to the pen-Tues day to serve their terms on former sentences. They were out on paroles and were ordered back by the Board of Prison Commissioners. Mullins has about three years yet to serve, out of a ten years conviction for murder and Elkins has about nine months term on a conviction for grand larceny. Both men will be indicted at the April term of the Rockcastle Circuit Court for the Livingston hold up and robbery of last week and when they have completed their present terms will be brought back and tried for this last offense. It looks like the boys are up against it for several years yet.

HOUSE BILL NO. 132

Introduced by Hon. E. Bullock, Providing For Pure Seed

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

1. That any individual, partnership, firm or corporation, selling, offering for sale, or having for sale in the Commonwealth of Kentucky, any field or garden seeds, shall be required to place a label on the container of same, stating what per centum of the seeds in said container is pure and what per centum is not pure, stating the kind and amount of said impurities.

2. If seeds are sold in bulk so that it is not convenient to attach said label to the container, then the individual, partnership, firm, or corporation so selling shall be required to give a statement with same as required on the label in Section one of this act.

3. Any individual, firm, partnership or corporation violating the provisions of this act shall be guilty of a misdemeanor, and upon conviction shall be fined not less than \$50.00 for each and every offense.

Any individual, firm, partnership, or corporation making a false statement on said label, or in said statement in regard to the per centum of purity of field or garden seeds, shall be guilty of a misdemeanor, and shall, upon conviction, be fined not less than \$50.00 for each and every offense.

4. All laws and parts of laws in conflict with the provisions of this act are hereby repealed.

THEY NEVER COME BACK.

The umbrella you lent, The woman who asked you to hold her baby while she went to buy a ticket.

The strange boy you sent to the store to get a \$2 bill changed.

The friend you brought home to dinner on the cook's afternoon off.

The cat—after drowning it the fifth time.

The friend who says he'll be around Saturday and repay the \$2 he borrowed.

An ardent balloonist.

A C. F. Dutton that got out with the washing.

The damage suit on Frank Bell against the L. & N. R. Co. is now before the Court, all claims to have been in, and while waiting to be heard by the L. & N. R. Co.

Langdon News

The grip has made its appearance in the school, but without any serious results.

Miss Stewart has been suffering from the effects of an attack of the grip, but is much better now.

Preparations for a Scotch Literary Program have been in progress for some time. This work is in charge of Miss Coulson.

Mrs. Howard and Mrs. Saylor, both of Gum Sulphur, were visiting at Langdon on Monday.

Miss Pearl Clark, of Orlando, entered as a student of Langdon School on Wednesday.

Several new students have entered for the second term and the work is progressing favorably.

The honor roll for January is small, including only three names: Flora Ruman and Louise Langdon who are star pupils, and Linnie Sparlock.

OPPORTUNITY

Master of human destinies am I? Fame, lore and fortune on my footsteps wait.

Cities and fields I walk. I penetrate Deserts and seas remote, and passing by

Hovel and mart and palace, every gate I knock, unbidden once at every gate

If sleeping, wake; if feasting, rise before I turn away. It is the hour of fate

And those who follow me reach every state.

Mortal desire, and conquer every foe

Save death; but those who doubt or hesitate

Condemned to failure, penury and woe,

Seek me in vain and uselessly implore

I answer not, and I return no more.

FOR SALE

THE SAMBROOK ESTATE

IN LIVINGSTON, KY.

Consists of Two 4 room Houses in good repair; well, large barn, 119 Town Lots in the Rockcastle Heights Addition, and 80 acres of Good Farm Land, cleared and ready for cultivation, all for \$1500.

The two houses are renting for \$12.00 per month, which is 10 per cent. on your money invested. If interested, write

J. W. SAMS, 2600 Frankfort Ave., LOUISVILLE, KY.

Jack Hysinger, of the Rose Hill community, claims to have the longest black-berry briar in captivity, 16 feet to inches long. He has this on display in Fish's store and if you doubt the statement go in and measure it yourself. Jack challenges the state on long black-berry briars.

BILL TO INCREASE PENSIONS PASSES SENATE

Washington, Jan. 24.—An Omnibus Pension Bill providing for the increase in pensions of 191 veterans of the Civil War passed the Senate to day. It provides for the increase of \$4 to \$36 a month in the pension of Henry J. Mullins, of Mt. Vernon, Ky.

Our townsman, T. C. O'Mara, has just been granted a patent on an invention which promises to be a very popular device when placed on the market. The invention is a combined paper holder and cutter. The holder is so constructed that it not only supports a roll of paper but also, holds the sheet fast while cutting and then feeds for the next operation. It can be operated either by hand or foot. It is by far the most complete device ever offered to the busy merchant, grocer, salesman, butcher, etc., for holding wrapping paper. The holder is so constructed that it can be manufactured at a reasonable price, not much above the old ordinary paper rack, and every one who has inspected the holder and operated, are very enthusiastic in their praise of the invention. Mr. O'Mara expects to have the same on the market in a few days.

FOUND A SURE THING

L. E. H. Wain, of Harrods, Mills, N. Y., has used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and says "Chamberlain's Colic, Cholera and Diarrhoea Remedy has ever used. Obtainable everywhere."

We Are Going After The Shoe Business

this year with a greater determination than at any time in the history of our business.

We have done a good shoe business in the past but we are going to do a better one in the future.

We have the shoes to back our efforts and every one must know about them.

They are made for men, women, boys and girls—a shoe for every member of the family.

If you want a dress shoe, we have it, a medium weight shoe, we have it, a work shoe, we have it, in fact we have a shoe for every need and they are made of good, honest, solid materials.

FISH'S \$3.50, \$4. & \$5. SPECIALS ARE ALL LEATHER

We know they are right is the reason we are going after the business as never before.

Don't forget now, when you want a pair come to us. It will be a pleasure to show our line.

Bring your family in and see what a little cash will do.

RECIPE FOR GRAY HAIR. To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of Glycerine. Add to the half pint a week until it becomes the desired color. Use it on the hair and you will find that it is as good as new. It will not wash out. It will grow in each box of Barbo Compound. It will produce a new growth of hair and give it a soft, wavy, and wavy character. It is good for the scalp and keeps it cool and moist. It will not color the hair and does not dry it out. It is a sure remedy for gray hair.

Mr. Steve Peters, of Mullins Station, died Monday of pneumonia. The deceased was 61 years of age. Mrs. Gladys Ferguson.

Anne Hardcastle, a farmer of Ainsworth, here, was injured, when he fell in his barn loft and stepped, went some loose plank and fell a distance of one or two feet, and some of his right shoulder was dislocated and a deep gash cut over his right eye.

A telegram received from Lieutenant Lindsay Jones, of Winchester, here, on his route to the Philippine Islands, announces his departure. It was feared he had taken passage on the Austrian steamer, which was sunk by an Austrian submarine.

A movement is on foot for the building of a new roadway from Beaham, here, to the other side of the mountain at Lick Creek and through the Loomis Creek section of Wise County, Va. Wise County, Va., will build the road, while the Kentucky end will be built with the aid of road bonds.

On complaint of persons who were compelled to keep their places closed on Sunday, the proprietors of several saloons at Lexington have been arrested. It is alleged that they violated city ordinances by selling canned goods, such as pickles, and the like on Sunday.

A bill intended to reduce the price of gasoline was introduced today by Representative Johnson, of Louisville. It proposes that whenever the first price sells a gallon of gasoline at a price as high as 15 cents, shall be a tax of \$1.00 for each gallon and an additional tax of a dollar a gallon for each cent above that figure.

The State Agricultural Department received a report from the Bourbon County Board of Health, that a quarantine had been laid there against the State of Illinois on account of a suspected case of "hog cholera" disease. The stock yards today received a shipment of hogs from Illinois, two of which had had the disease.

Arthur Mills, who was sentenced to one year in the Paducah prison for manufacturing dynamite, has been held responsible for the crime committed here, and is now being paroled by the State Board of Prison Commissioners as soon as he shall have been cured of the drug habit.

Frederick Berry, 38, a painter, and his wife, of Lexington, from whom he had been separated for about three years, were found dead in bed in a room of Mrs. J. T. Robinson's boarding house. It is believed that death was due to poisoning, and that the poison was taken to Kentucky State University chemists for analysis.

The Ohio River steamer, the Bowling Green, sunk at the docks at Evansville, Ind. There were a number of passengers on board at the time she was saved. The boat had been in service between Evansville and Bowling Green, Ky., and was used as a excursion steamer to Mammoth Cave.

Woman's Dream is True at Last
She Knows Why Multi-Millionaires Fight to Divide Fortunes.

To be a sufferer from nervous dyspepsia for ten years, and to bear all the tortures, mental and physical, that this all too common ailment brings, and to find relief almost over night, is like having a badly dream come true. But this was the delightful experience of Mrs. Margaret Hunter of 40 Eighteenth street, Newport, Ky. Mrs. Hunter, the wife of a well known and highly successful real estate dealer in the Kentucky city, recently told of the long hoped for change in her life.

"For ten years," explained Mrs. Hunter, "I have suffered from nervous dyspepsia. When I read of the efforts of multi-millionaires to divide their fortunes if they might be cured of this terrible distressing malady, I felt that in this way they most eloquently told of their sufferings, and I felt too, that I would never be cured, because I had no millions to cure."

"I used all manner of remedies without avail. Even the strictest dieting did not help me materially. Food of any kind was absolutely repellant at most times. But worst of all, of course, was the constant nerve strain. I had all of the symptoms that dyspepsia causes—headaches, backaches, and pains in the kidney regions, nausea, dizziness, sleeplessness, bad taste in my mouth, a coated tongue, forming of gas in my stomach, and bloating, and I was in a general run down and thoroughly nervous condition."

"And then came the joyful surprise. After the first few doses of Tanlac I was benefited. Now I am back to a normal condition, nerves quieted, restful sleep, and good food digesting as it should, and of course, I am gaining strength daily."

"My husband, who has seen the splendid effect of Tanlac on me, has also taken it."

Tanlac, that inspired this intensely interesting story, big in importance to most people, is everywhere now in being introduced in Mount Vernon at the drugstore of Chas. C. Davis can also be obtained at Livingston at the Central Drug Co., and at John Robin's Drugstore, Brookhead, Ky.

SHERIFF COMES TO OUST IN INTERSTATE LIQUOR HOUSES
FEDERAL DECISION REPORTED TO STOP CUMBERLAND GAP TRAFFIC

Middlesboro, Jan. 24.—It seems in a matter of a few days and the seven small order whiskey houses doing an interstate mail order business from Cumberland Gap, Tenn., will have to close. Action was immediately taken upon the decision of Judge John E. McCall, which was rendered in Memphis, Tenn., last week that liquor could not be shipped into the State of Tennessee for the express purpose of being shipped out again, and that liquor could be shipped only one way and one time into "dry" territory.

Sheriff Payne, of Claybourne county, was in Cumberland Gap to-day with outer papers, and while the facts as to what was done could not be ascertained, it is thought a truce was agreed upon that will give the liquor people time to get their "wet" goods out of the State.

THE HABIT OF TAKING COLD
With many people taking cold is a habit, but fortunately one that is easy broken. Take a cold spray bath every morning when you first get out of bed. If you are cold, but a temperature of about 90 degrees F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

FEEDING EUROPE
Exports of breadstuffs and meats from the United States, as well as machinery and munitions of war, are limited only by lack of vessels. Between 5,000,000 and 11,000,000 bushels a week are leaving American ports for Great Britain and the European countries which can be reached a day in addition large amounts of corn and oats and meats are being sent to those countries. However, the lack of vessels in itself is a stimulus to the out-go from this country. Argentina, Australia and India have large exportable surpluses of wheat and corn, but the lack of vessels and exorbitant rates divert the demand to this country. Because of the shorter distances vessels can make more trips between American ports and Europe, and therefore, charge more reasonable rates.

A world's wheat crop in 1915 is estimated at more than 4,000,000,000 bushels, an increase of 12 per cent over 1914 and an increase of 13 per cent over the five-year average. A wheat crop in the United States of 1,011,505,000 bushels, an increase of 127,000,000 bushels over 1914 and the largest on record, and farmers in January 1916, realizing \$1.25 a bushel for all they have to sell, present a paradoxical situation, one which only a great war carrying with it the dislocation of overseas commerce, could bring about.

One of the principal reasons for the Allies' great expenditure of men and munitions and ships in an effort to force the Dardanelles was to subvert the great stores of wheat stored by Russia along the Black Sea. Indications are that Great Britain and Europe for a long time limited their purchases in this country in expectation of obtaining supplies from Russia. And later on, when it was seen that the opening of the Dardanelles was a hopeless task, they pinned their faith on replenishing their bins from the bumper crops of Argentine and Australia. These factors, however, undoubtedly have enabled them to buy more advantageously in this country. But, now, the cards are on the table, and they are paying the price. They are dependent upon us.

In the first eleven months of 1915 exports of wheat from this country had a value of \$477,423,790, an increase of \$5 per cent over the corresponding period of 1914, and there has been no let-up in the output during the next six weeks. Ocean tonnage is on the decline, despite the great efforts of the ship builders of the world, and it is not likely to show any increase as long as the war lasts.

With the acreage sown to winter wheat in this country 15 per cent smaller than a year ago and with the hazards of winter and spring and other uncertainties until harvest to be taken into consideration, and with the foreign demand, it would appear that better than dollar wheat had come to stay, for a season, more at least.

CASTOR
For Infants and Children
Mothers Know
Genuine Castor
Always Bears the Signature of
In Use For Over Thirty Years
CASTORIA

ALCOHOL—2 PER CENT
Vegetable Glycerine for Softening

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bellock Gave Up Her Husband
Came to Rescue.

I had gotten so weak I could not stand, and I gave up in despair.
At last, my husband got me a bottle of Chamberlain's Cough Remedy, and I commenced taking it. From the very first trial, I could tell it was helping me. I can now walk two miles without its being me, and am doing all my work.

If you are all run down from wearying troubles, don't give up in despair. Try Chamberlain's Cough Remedy. It has helped more than a million women in the 50 years of continuous success, and should surely help you, too. Your doctor has not done for you. You know what we can do for you. We know what we can do for you. We know what we can do for you. We know what we can do for you.
