A Parents and Teachers Meeting will be held at the Graded School March 17, at 8:30 p. m. Subject: "The present need at home and school, for our boys and girls." Parents come with your very best experiences and plans and let us reason together. Come if you have no children and lend a helping hand to your neighbors.

Work on the pike towards Roundstone was stopped yesterday by order of County Judge Ballard for the reason that the right of way has not been secured from two of the parties, through whose land the road runs. The grading is practically completed to Reinfroe creek, and the next land to enter belongs to Mrs. Ella Hiett, who refuses to give a right of way. The board issue money cannot be spent for right of ways until the Fiscal Court has taken a positive stand not to buy any. It looks like the parties along the pike need to get busy and have those matters adjusted. We do not believe there is a jury in the land that would give damages for a right of way for a good pike, but that is not the question. Spring will soon be here and there should stop any stumbling block in the way to retard the progress of the pike. The same thing is going on between Mt. Vernon and Livingston; "Betwee'n Mt. Vernon and Brodhead the right of way is clear—County Judge Ballard, when asked about the situation, said: "In order to get started and get the work started, he is now required by law, we have been forced to cater to a few people between Mt. Vernon and Reinfroe creek, by agreeing to fence their land, but from now on, we will do no more a job or paying for right of ways. If the right of way is not given between Reinfroe and Roundstone, the road will stop there it is."

Contractor Neal Parrot brokered yesterday morning at the brick building which is to be erected on corner near depot. Christian Church Widows and Orphans Home of Kentucky. Louisville, Ky. March 8, 1916.

Your good letter of March 6th is received enclosing a check for \$5.88 and telling us that "Brown's Men" of the Mt. Vernon Bible School desire to furnish the Orphan's home on March 28th.

I do not know how to thank this class for its interest and help. Please say to them that a permanent display card will be hung in the dining room bearing the name of your school, the name of the class and the date of their dinner.

The attention of the children will be called to your class on this date. You will be thinking of you and we want the men of your class to be thinking of the children in the Home.

With every good wish, I am Yours very truly, J. S. HILTON, Secy and Treas. Mr. FRED L. DUBHAM, Mt. Vernon, Ky.

TOWN LOTS

At Auction On The Premises,
MT. VERNON, KY.

FRIDAY, MARCH 17

2 P.M. Sale Rain or Shine. Terms Easy.

We have purchased that coveted piece of land fronting on Richmond St, from Bethurum & Lewis and have a crew of men beautifying and plotting this land into building lots with streets and alleys, and on Friday, March 17th we will sell these nice lots to the highest bidder regardless of price. Remember you make the price, we deliver the deeds. Now listen, you take a town that has grown to the importance Mt. Vernon has, with her fine churches, good schools, her cultured people, strong banks and business houses to back her up, there is only one way for these choice lots to go and that is higher and higher. So attend this sale and buy a few of these lots and watch your money grow. You know good lots are scarce and high in Mt. Vernon. You know these are the cream of the town. You know if you want a lot or two and don't get them at this sale, you will have to pay some one a handsome profit, so get busy at this sale and make the other fellow pay you the profit. Remember the man who does things is the man who comes to the front. Earth is the best investment on earth and good town lots the cream. Ask the man who has made money how he made it and see if he don't tell you.

"REAL ESTATE DID IT."

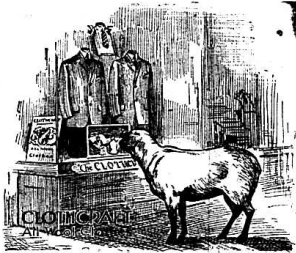

Don't forget that these lots will sell cheaper Friday, March 17th, than they will ever sell again, so be on the ground and pick up the bargains. Just a minute. Did you know the population of the U.S. is doubling every 27 years? Well, it is, and there is only one way for real estate to go and that is UP, UP, UP.

BIG BAND CONCERT ON THE GROUND

Don't fail to hear the whirl-wind auctioneer. He is an entertainer. Special invitation to the ladies. Every body come and let's have one big afternoon. Your neighbor will be there.

BUY EARLY

THE effect of the great war on Men's Clothing will be felt this spring—still more next fall.

We have had to buy with greater care and discrimination than ever, to protect our customer against poor fabrics.

That's why we appreciate having a line of medium-priced clothes for men and young men, that is absolutely dependable—Clothcraft.

Every piece of cloth that enters the factory is tested mechanically to determine its strength and chemically to prove its ingredients. This is but the first of a long series of safeguards that protect Clothcraft values.

But don't wait too long, there'll be greater demand this spring for nationally known value like Clothcraft. Buy early

Died, March 6th, Uncle Pete Bryant, 83 years old and a member of the Christian church. He leaves a wife, two sons and two daughters and a host of friends to mourn his death. He was laid to rest in the Ward Cemetery just awaiting the resurrection. Peace to his ashes, glory to his immortal soul.—We see that your Brodhead correspondent failed to have a story in the Signal last week and was misled that letters were much as it is always full of good news. Mr. Cor., please come across with the news from your cook of the woods and we will try our best to do likewise.

COLD'S QUICKLY RELIEVED.
Many people cough and cough—from the beginning of Fall right on to spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, soothes the inflamed lining, loosens the raw tubes, breaks up mucus, and keeps the throat cool. Get a bottle of Dr. King's New Discovery and keep it in the house. It is certain, the great medicine for keeping a bottle of it continually on hand. Writes W. C. Jessamine, Erie, Pa.: "I have a money bank of it and get but nearly always help."

The first Bell telephone placed on exhibition was at the Philadelphia Centennial in 1876. This instrument answered for both "transmitter" and "receiver." It was regarded as a novel plaything. Many didn't believe it worked even after listening to it, but regarded it as a catch or trick to amuse the visitors. The writer attended this exhibition during August of that year and saw the working of the instrument demonstrated. On returning to Kentucky and reporting that he had heard the human voice over a telegraph wire, all doubted and, not a few laughed. He didn't tell it any more for some time. The laugh was turned.

"The Birth of a Nation," a movie film has received considerable free advertising at various points. Louisville took a whack at it in one of her concerts a short time since under the title that "race prejudice" was illustrated to be created on exhibition of the films. The court refused to grant an injunction to forbid the show. Now Lexington steps in to the ring and is making a noise like there was objection to be found in that city also. Appears to be a paying thing to the owners to "see us out" keep on objecting. It's a rattling good "ad."

In 1850 when the Louisville & Nashville railroad was organized, the Mills City suburbs were worth a few dollars. Eight years later when the road reached Nashville and found itself somewhat pinched for ready money, was relieved by Louisville furnishing another million. From that day to this the road has generally seen prosperity come its way, through wise and conservative management and Louisville received its money back, with interest many years ago.

Both houses of congress have tabled resolutions offered by members to notify Americans not to travel on ships of the belligerent powers on account of Germany's threat to destroy such ships without warning. President Wilson contends that the passage of such a resolution would be an abridgement of the rights of our citizens acquired by international law. Congress sustains this contention.

R. L. McClure, the noted Lexington photographer, has received instructions from Mr. W. E. D. Stokes, of New York, to make a photograph and a cinematograph of Peter Volo, to be used in Maréchal's history of Daniel Boone, Trail of Highways, etc. Peter Volo is the celebrated \$200,000 horse, the property of Mr. Stokes, owner of Patchen Wilkes Farm, near Lexington.

Tax heretofore of filial love, devotion and other attributes, was discovered in the probate court of Allegan, Mich. last week. In reviewing an estate Judge Thompson found the claim of a son against his father for time and expense attending the latter's funeral. He itemized his claim, railroad fare, hack fare, etc., and \$3 per day for his time.

KENTUCKY'S two Republican members in Congress could not drop their political partisanship and show some American Patriotism by voting to sustain our president, but voted on the Kaiser's side.

Bell county has \$38,000 invested in road machinery and equipment. Up to March 1, 1915, \$40,000 had been used in road construction.

More than 100,000 soldiers have been slain in the battles in and around Verdun, France, within the last twenty days.

TOP PUT POWERS OUT OF POLITICS

Bills Introduced in House and Senate To Change The 11th Congressional District, Eliminating Knox.

Frankfort, Ky., March 6.—A move to eliminate Cade Powers from Kentucky Republican politics, was made this morning when bills were introduced by Senator Brock, in the Senate and by Mr. Tarter in the House, to change the Eleventh Congressional district by adding the counties of Owsley and Jackson and changing the Tenth district by adding the counties of Knox, Bell and Harlan. Knox county is Congressman Powers' home county, and the passage of the bill will make him ineligible to serve as congressman from the Eleventh district.

It is expected that the bill will bring a very willing support from the Democrats in both the House and Senate, who are quite ready to encourage any agitation in Republican affairs.

Representative Tarter, who introduced the bill in the House, is a candidate for Congress, and the passage of the bill would probably bring out many other candidates.

Why Prince Albert Was Patented Process is Responsible For Its International Popularity. "Smokers so much appreciate the flavor and coolness and aroma of Prince Albert pipe and cigarette tobacco that they often marvel that this one brand could be so different from all others. The answer to this question is to be found on the reverse side of every Prince Albert package where you will read, "Process patented July 30, 1907." This tells the whole story. Prince Albert is made by a patented process that cuts out the bite and stings which are usually found in slightly aged and ordinary tobacco of every kind.

Smokers should realize that the patented process cuts three years' ordinary work and study, and

fortune in money to perfect. But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy the use of a man's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to inhale his own cigarettes. And no matter how tender the tongue, Prince Albert cannot bite or parch. That is cut out by the patented process, leaving for the smoker only the joys of the fragrant tobacco.

A TITANIC HOAX

Extracts from Maréchal's History of Daniel Boone, Trails and Highways, Etc.

(To be published soon.) THE CARDIFF GIANT. A side show at Richmond, Madison county, Ky., in 1870, had on exhibition the Cardiff Giant. "It is not often that a hoax becomes nationwide and stir a country to a frenzy of excitement as did the supposed Cardiff Giant" find, which was reported to the public in 1869 by W. C. Newell, a citizen of Cardiff, N. Y., while digging a well. The figure of a stone man was found at the depth of five feet, and upon investigation was pronounced to be a petrified man.

WAS TEN FEET HIGH. The length of the find was more than ten feet. NEWS SPREAD QUICKLY. The news was quickly flashed over the country. Then began a regular stream of visitors to the little village.

SMALL FEE. Although only a small admission fee was charged to view the wonder, the idea of the vast number that journeyed to the place can be estimated when it is calculated that the sum of \$150,000 was paid to see the giant.

SCIENTISTS VISIT THE SCENE.—From all parts of the country came scientists to Cardiff, to verify their opinions. Many of them pronounced it a genuine petrified figure of a prehistoric man, a giant.

TO ADD TO THE MYSTERY. An old Indian squaw in the neighborhood, told of a tradition among her people that a gigantic Indian prophet buried in that place, had declared his body would one day be found in fact.

SPLIT AMONG THE SCIENTISTS. While the scientists disputed and argued, the fame of the Cardiff Giant grew day by day. A syndicate was formed to take the monster through the country and exhibit it. P. T. Barnum, the famous showman, offered a large price for the giant, but the syndicate would not sell.

the lungs. In addition, Vick's is absorbed through the skin, relieving the tightness and soreness. Vick's can be applied over the throat and chest and covered with a warm flannel. It can be put up with a tampon and melt a little in a spoon and tiffle the vapors arising. Also for Asthma and Hay Fever, rub Vick's well over the nose of a person to relax the nervous tension.

EXPOSED. Finally the truth of the mystery was revealed. Newell was sending thousands of dollars to his brother-in-law in Iowa, named Hull. An investigator disclosed the fact that Hull had had a quarrel with a clergyman and only a bibelot. "There were great gains in the earth in those days," and had set to work making a giant on his own account.

USED GYPSIUM. Hull had chosen a block of soft gypsum and had a German stone cutter in Chicago to carve a statue out of it. He had picked it all over to imitate pores, but trusted to the bluish streaks in the gypsum to masquerade as veins. This Hull shipped his statue east, billed "Newell to bury it by night without to his family's knowledge and when he thought time had elapsed for the action of the earth to give the gypsum a look of antiquity he arranged for the giant to be "found." All the arrangements worked to perfection, and the Iowa charlatan and the New York farmer fooled the entire country, including the best minds.

THE 1778 EXPEDITION. On June 26, 1778, there was a total eclipse of the sun. It was on this date that George Rogers Clark with his force of volunteers, embarked on their expedition against Kaskaskia in an English strongbox. The start was made from Lorrain Island, in the Ohio river, at Louisville. The expedition landed ten miles below the mouth of the Tennessee river and went overland to the fort where they arrived on the night of July 4th, surprised and captured the garrison without bloodshed or resistance.

Mornings Are Happiest Hours

Get the Spirit of the Early Days Into Your Being

Are you bright and happy in the mornings? Catch the great American ailment. Its effects are more general than usually understood. Catarrh of the stomach and kidneys is a most frequent cause of chronic dyspepsia and Bright's disease. Catarrhal conditions in the nose and throat in many cases leads to deafness.

Even the lungs are affected because catarrhal inflammation finds open way to the lung substances through the bronchial tubes.

If you are not bright, cheerful and refreshed in the mornings, catarrh probably is the cause. Size mental and physical condition of catarrh sufferers is pitiable but it is surprising how many people suffer from catarrh when they fully believe something else is the cause.

WORLD'S LEADING TOBACCO TOWN

Winston-Salem, N. C. Now Manufactures More Tobacco Products Than Any Other City in the World.

Following are extracts from an address delivered by Col. A. D. Watts, Collector of Internal Revenue for the Fifth District of North Carolina at a smoker given by the Twin City Club, Winston-Salem, February 4th, 1916: "SOME COMPARISSON. "Winston-Salem is supplying one fourth of all the chewing and smoking tobacco consumed in the United States, besides exporting vast quantities to foreign lands. Two statesmen is taken from his report of the Commissioner of Internal Revenue for the first quarter of the present fiscal year and from private advices from Washington as to the second quarter, which ended December 31st last. "Your city is making one-eighth of all the tobacco production—chewing and smoking tobacco—cigars, cigarettes and snuff—manufactured in the United States. Your manufacturers are paying on an average about \$37.09 a day revenue taxes to the government and the amount is increasing from month to month. We are your government building, much the handsomest in the State, was completed last July at a cost of \$250,000 your newspapers made the statement that the taxes paid in your city to Uncle Sam for the first eight days of its occupancy may pay for it. Since September it has taken only a fraction over seven average days collections here to equal its cost. So in this week, Mr. Crawford has taken in \$206,428.50. I predict that before 1916 shall have ended your average monthly payments to the government on tobacco will more than pay for this magnificent building, leaving the collections for the other fifty-two weeks as clear profit to the government.

TOBACCO SHIPPERS. "Winston-Salem is shipping on an average each week day to all parts of this country and to foreign lands at least \$100,000 of tobacco products. "In conclusion, Winston-Salem manufactures more tobacco, all tobacco products are taken into this statement, than any other city on earth, little or big. In justly she is easily first in North Carolina, population considered, first in America and I believe, in the world; socially, a never failing delight to her friends."
