Real estate for sale on easy terms: Farm or tract No. 1 of 130 acres, 4 miles south of Mt. Vernon, with 1 storehouse, dwelling house and barn, and three tenant houses, several good mines from which Mt. Vernon and surrounding country get the greater part of its coal supply.

Farm No. 2 of 156 acres, 4 miles south of Mt. Vernon, 2 houses, 1 barn, about 85 acres in growing crop, 60 acres in grass and balance in woodland; adjoining farm No. 1, so as to make one well located farm if purchaser should desire both tracts. Farm No. 3 lies on east side of creek and mostly underlaid with coal. Farm No. 2 on west side of creek, rather a valley farm, with some coal in the hill.

Farm No. 3 of 196 acres, one-half mile west of farm, No. 2: a good strong valley farm in good state of cultivation and not very much improvement. About 100 acres cleared, balance in woodland.

Farm No. 4 of 271 acres, 5 miles south of Mt. Vernon, in good state of cultivation, well improved; 1 good dwelling house, barn and storehouse and all other necessary outbuildings; 6 tenant houses. Also has a acre orchard set out this spring, consisting of about 500 Spring Winesap apples and 500 Alberta peaches, if all are true to name, with a guaranty from the company to prune and spray for 3 years. Holes were dynamited for trees and great care taken in setting the orchard. Also about 6 acres of other orchard on this farm. 3 town lots in Bethurum & Lewis in addition to Mt. Vernon, Ky. and 1 lot in Jersey City, N. J. Also has a few hundred acres of desirable mineral rights to sell. It is well worth while to raise the water on these farms, it is well known that Rockcastle is the

of the best watered counties in this state or any other state. All of these farms are handy to churches and schools and the county has under consideration, 4 trapezoids out of the town of Mt. Vernon, north and south, east and west. Several miles have been let and work already begun. These farms are on the pile road leading south from Mt. NOTICE

It is being circulated throughout the county that my Jack's colts are rickety. I wish to say through the Signal to my friends, as I can't write you all personally, that it is an absolute falsehood, as you will see from what Mr. R. L. Smith, the man that I bought the Jack from, has to say about it. This false report was fixed up to injure my business, but in spite of it I am doing a splendid business with my Jack. I have a fine Jack. I hope to show him at the Mt. Vernon Fair ground next Fair, and let the people see this Jack and judge for themselves. Just here I wish to insert a letter from Mr. P. C. Lear. The letter is as follows:

HATTY, KY.,
 May 29, 1916
 MR. JOHN HILTON,
 Pine Hill, Ky.

Dear Sir:
 I have been told that some parties out there have been telling that the Jack you got from Bogue Smith got rickety mules. It is certainly a mistake for he does no such thing. I stood the Jack last year and his colts are coming this spring all right and good ones. He never has got a mule that was wrong. I have known him ever since he was a sucking colt. I will go before any court and make an affidavit that he doesn't get rickety colts. The way this has got started I stood a Jack belonging to C. C. Gover, Lancaster, Ky., year before last that did get rickety colts. I have heard that it has been told that Bill McQueen had two mules by the Smith Jack that were rickety and he gave them away, that is also a mistake, as these mules were by the Gover Jack. McQueen will swear they were not by the Smith Jack, and so will I. If you want me or McQueen to make an affidavit to this effect we will go before the court and swear that what has been told on your Jack is all false. Generally such tales as this get started from men that have horses or jacks and want to down a man.

Yours very respectfully,
 P. C. Lear.

To whom it may concern:
 It has been reported that the Jack that I sold to J. W. Hilton of Hatt, Ky. is showing rickety colts. I want to say that this is absolutely false. He has never shown a rickety colt. I will give \$100.00 to any man that will bring me a rickety colt, sired by that Jack. The Jack is all right in every respect and is showing good colts.

Now, if any other parties have any question about this Jack, write the Rev. Green, Fish, Mt. Vernon, Ky. He has three old boys, such has known the Jack from his infancy. I will give \$25.00 to any man that will make a sworn affidavit that my Jack has ever to this date shown a rickety colt. Now, you fellows that have been talking, make your word good.

Respectfully,
 J. W. HILTON,

Of course you can pay a lot for clothes if you want to, but why pay for more value than you actually get?

We've always made it a point to put in the things that are highest in quality and most reasonable in price.

MEMBER OF KENTUCKY PRESS ASSOCIATION

OUR BOONE WAY MAN In Winchester

Winchester has four news papers. The daily Sun, in its XV volume; C. C. Robbins, owner and publisher; George M. Kiser is the bustling city editor and is ably assisted by Frank Thompson. There are fourteen employees on the Sun force with eight carriers. A \$4,000 press, a linotype and other modern fixtures are found in the establishment. The paper was formerly the Winchester News and was a bright star, as was ably assisted by Frank Thompson. There are fourteen employees on the Sun force with eight carriers. A \$4,000 press, a linotype and other modern fixtures are found in the establishment. The paper was formerly the Winchester News and was a bright star, as was ably assisted by Frank Thompson.

The Winchester Democrat, nearly fifty-eight years old, is a semi-weekly under the management of Charles B. Nelson, owner and publisher. Miss Gladys Perry is one of its forces. She is a ready and efficient writer on this journal and is the valued reporter for the Lexington Herald. The Herald arrives in Winchester every morning at 5 o'clock by automobile. The staff of the Democrat press room is complete. The Clark county Republic is only fourteen weeks old but is making a noise, that is attracting attention over the city and county. Jacob Beckner is its editor. The Republican's outfit is very good, but not so extensive as the Sun or Democrat.

The Winchester Courier is another youngster in this journalistic field and is under the charge of T. Sanders Orr, formerly of Harrodsburg Leader, which paper he sold some months since to Ed Walton. The Courier's outfit while not as large as some of the others, puts out a neatly printed sheet. Thirteen weeks is the age of Mr. Orr's new paper. Our Rockcastle friends will remember Mr. Orr as being one of Harrodsburg's warm delegates to the convention held at Mt. Vernon on April 26, 1915, when that, to the historic highway was related to his city, the oldest town in Kentucky, in which Daniel Boone built in 1774.

The two first named newspapers are Democratic and the latter two are of the Republican faith. The force connected with the four publications have treated the writer very courteously and invited him to call "soon and often." Winchester papers say the people of Clark county don't want inter-urban or traction lines for the reason that they act as feeders to the larger cities and towns, and attribute this as a reason for the fiscal court not granting a franchise for a line from this point to Lexington.

Asa Barrow a citizen of Clark county has invented an attachment to be applied to automobiles which it is claimed, will enable the owner or chauffeur to use coal oil instead of gasoline. It is said tests of the apparatus has proved satisfactory. Joe Oliver doubts the benefits of the invention. He says so many would change to coal oil that the price would go up just as gasoline has done. The half mile of asphalt road on Lexington Avenue cost \$33,000 or at the rate of \$66,000 per mile. Some cost, that.

Woodpeckers and field larks are numerous in this country. There has been a drop, or buzz, and since driving here nearly three weeks since. Blue grass seed harvest will fall short of last year, on account of shortage in rainfall and many fields are full of white clover. Winchester has an up-to-date opera house. Fairfax street crosses Main at

Brown-Proctoria hotel from the east, runs on west to Maple where it merges into Lexington Avenue. It was puzzling to the writer until he got on to the other side of the station. It is really one street with two names. This city has more shade trees to the square inch, than any city the writer has visited. The writer heard a colored preacher remark to a colored brother that "the reason his neighbor didn't have a large garden was that he was too dignified to grab a bow handle with a firm hold of sufficient tenacity to obtain desired results." The owner, Mr. R. A. Schobe, well as today, in a grand manner to baccovate house Friday. It is an extensive affair and completely fitted up for the purpose which it is designed. The cost of the structure was \$34,000. The other tobacco warehouse was built last fall.

Boone Avenue, Winchester's best residential street is being standard-ized at the expense of abutting property owners. The question of municipal ownership of the water plant and the extension of pipe line to Kentucky river is being applied. She writer has managed to steer clear of "Fincham" precinct, one of Clark's voting precincts. Decoration day was duly and fittingly observed here in honor of the Confederate dead, who sleep in the Winchester cemetery and other burial places in the county. The Bible class (more than a hundred strong) of the Christian Church will have an outing on Kentucky river on June 2nd, under the leadership of the teacher, D. L. Pendleton, one of Winchester's fine wits and one of her most honored citizens. It promises to be "some outing." No member of the crowd will be allowed to wear collar or cravat, and any one appearing "dressed up" will be ducked.

The FIVE TEN Will Owens, your Livingston reporter, mentions L. & N. road car no. 77-77, as passing thru there a short time since headed for Cincinnati. This is a brand new car and was loaded at Blanche, Bell county with its first load about one month since and made the trip to Jacksonville, Fla. It has been dubbed the Hoosier Wagon, mascot of the Will Owens is hereby appointed special agent to keep trace of the "five seven" and not lose it and to report thereon "every once-and-a-while." Robert Whitcomb, coal agent at Lexington was in Winchester by auto Monday, selling block diamonds.

A. C. Duin, formerly of Lincoln county now of Wilmore, Jessamine county was in Winchester by auto, Monday, to close a deal in the sale of a farm for which he was agent. Winchester is the "whistling" place to have yet run across. Most of the men are either whistling or humming some tune. Some of the ladies do whistling also, not on the street however as do the men folks.

Children Cry FOR FLETCHER'S CASTORIA

NOBODY LOVES FAT MAN; WHAT ABOUT THE THIN? The Too Slender Fellow is Rarely Happy in That Condition.

Perhaps nobody loves a fat man, but it is a settled bit of the philosophy of life that the too slender man or woman is rarely happy in that condition. A gain in flesh is the hallmark of improving health and the high sign of a better disposition, and to bring about the gain naturally and wholesomely the stomach must function at its best. No benefit is derived from food which is not thoroughly digested. In the present day hurry and scurry we often eat our meals on too great a haste and fail to properly masticate our food. The rush of modern life doesn't agree with many, and it often results in decomposition, probably the most common of maladies. A dyspeptic can easily be distinguished. He becomes listless, then morbid, melancholy and "grouchy" over little things. He loses his appetite, suffers untold agonies, from pains in the side or stomach, headaches, after eating, a bloated feeling, nausea, restlessness, nervous and all run down feeling. After years of study and experiments in an effort to find a remedy to cope with this almost universal malady, Joseph Von Limbach, the noted chemist and giver of health aids, discovered Castoria. Castoria is designed to combat just such conditions. It is proving invaluable against ailments of the stomach, liver, kidneys, and catarrhal affections of the mucous membranes, which, when neglected, so often affect the vital organs themselves. As a room-structure tonic for frail, run-down men and women it builds up the tissues, creates a keen appetite, promotes digestion, vitalizes the blood and brings back color to the cheeks and sparkle to the eyes. Castoria, the ideal reconstructor, is being especially introduced in Mt. Vernon, at Mt. Vernon at the drug store of R. H. ROAD EXAMINER.

James Maret, of Mt. Vernon, State Road Examiner, President of the Route Way Association, Secretary for East Kentucky and Tennessee Dixie Highway Association and the concentrated road man we have met, unless it is Bro. J. N. Burchard, of Powell county, called on us Monday after his inspection of 3 rural roads in this county and was kind enough to say that he was pleased with the character of roads we are maintaining.

He says the outlook for roads in Southeastern Kentucky is fine: the people are awake and willing to put up the money needed. Bell county, which voted \$250,000 two years ago, this year voted another \$150,000 by an 8 to 1 majority. Laurel has built or is building about twenty miles of good roads at a cost of about \$4,000 a mile and will in a few days let the contracts for building as much again, completing Boone Way through that county to the Madison line.
Mr. Maret thinks the Mountain needed only roads to make them the best part of the state.

The Mt. Vernon Fair this year will be held August 9, 10 and 11th. The catalog is being printed at this office and when done promises to be the most complete ever issued by the Association. Several changes are expected to be made in the premium list when the directors meet again. Other changes are likely to be made on the grounds and buildings to accommodate the large crowds that are expected this year.

Mr. Terrell, Road Commissioner, has notified the county officials, that the contract for the road from Livingston to Brodhead cannot be let until advertised again. After J. C. Griffin et al. gave up the contract it was thought that the contract could be given to the Darrett Construction Co., with out re-advertising and it was sincerely hoped that it could be, it seems that Rockcastle is having about as hard a time getting started as some other counties.

The School of Methods and Principles which has been here since Monday, has been a great school and those who have been fortunate enough to attend each and every session, have been greatly benefited by this week of instruction in how to better work in the Sunday Schools. In the past, with many, the Sunday School has been looked upon merely as a place to go on Sunday, but that time has passed and today, the Sunday School is regarded as one of the most important factors in the church. Not only is the best mental training in the bible coming from the Sunday School, but likewise some of the best spiritual training is found in our Sunday Schools. In years gone by the Sunday School was composed principally of children, but now it is a school for the young and old alike. The Men's Bible Class movement has spread to every quarter of the globe and in most of the churches of Sunday school hour can be found men of every walk of life in the men's class. The high and low, the rich and poor alike, are members. The Eleventh District School of Methods has held four schools in this county and we are sure that at none of the other points has it been better received or has it been of greater benefit, than it will prove to be right here in old Mt. Vernon and Rockcastle.

Many of the schools of the county, as well as other counties, have been represented and in the graduating class for tonight there will be about fifty who have attended each and every session. The faculty composed of Mr. Roadruick, Mr. Cook, Mrs. Ashbury, and Rev. Minyard, are especially fitted for the work, and the lectures by each of them for their various departments have been both instructive and inspiring. The last session will be held tonight.

Died at the home of her parents, Rev. and Mrs. L. T. Young, on last Sunday evening at 6:45 p. m. their daughter, Marion Rebecca, aged two years. Brief but beautiful and appropriate services were held at the Christian church, Tuesday afternoon. Mr. Roy Roadruick read the scripture lesson Mr. Ashbury prayed and a most beautiful prayer it was, and Rev. Minyard, with a few well poised and touching sentences spoke the words of comfort to the bereaved family and pointed the way of life to those yet living. Many of the relatives and friends of the sorrowing family were present, and as they looked upon the sweet, placid little body in its white casket and surrounded by beautiful and fragrant flowers — yet not more beautiful or pure than the little face within — their hearts swelled in sympathy for the bereaved family. But let us not think of Marion Rebecca as dead, but as living; not as a flower that has withered, but as one that transplanted, and touched by a Divine hand, is blooming in rich color and sweeter fragrance than those of earth.

"There is no death! The stars go down
To rise upon some fairer shore;
And bright in Heaven's jeweled crown
They shine forever more."
Virgil Mullins is proving him self a very satisfactory type in this office.

F. F. Robins was in town yesterday on business and said when the next building come on the pike that he would be represented. He said that Lincoln had their road about graded to the Rockcastle line and is very anxious to see Rockcastle go right on, without leaving out the two and one half miles between Brodhead and the Lincoln line.

CLEAR SKIN COMES FROM WITHIN.

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the system with a treatment of Dr. King's new life Pills. Mr. and Mrs. Robert White have been in Mt. Vernon for the past week with the former's relatives. Mr. White, who is the youngest son of our former townman, James I. White, is better known to the people of Mt. Vernon as "Little Bob" White. Since years ago he has been employed in the oil fields, part of the time in the celebrated oil belt of Oklahoma but recently in Estill county. His business for Rockcastle county is to lease land for one of the Companies now operating in Estill. He says his company will want some acres more in Rockcastle, and says positively that there will be a machine in the county at work in less than thirty days. From every indication the oil people evidently have their eyes on Rockcastle as being an oil field. There is no question about the county being a direct line between the oil fields of Wayne and Estill counties, and past experiments have long since convinced the older citizens that there is oil in the county. Judge L. W. Betharam and others leased several thousand acres in the East side of the county, and from what Mr. White says, it is likely that one or more wells will be put down on this land in the near future. A Mr. Marcum, of Estill county representing another Company now operating in Estill, was in Mt. Vernon yesterday but so far as we have been able to learn he made no statement as to what the nature of his visit was, but it is supposed that he is also figuring on the oil situation. With the taking of leases of the large number of acres of land and the number of acres still wanted, it is safe to predict that there will be some thing of an oil boom in Rockcastle, although it may only be a recurrence of what has been two or three times before within the last twenty years.
