I. A. "Daniel Boone" Bowman was in Stanford Monday with some live stock and while there was stricken with heart trouble. His son Felix went down the afternoon and brought him to his home here. He is reported improving.

The W. J. Sparks Co. will soon put on a night crew at the Mt. Vernon Quarry and run day and night in order to fill the heavy demand for stone. If the night crew is not put on at Mt. Vernon, work at Sparks Quarry will be resumed. There will be something done at one of the other places by Sept. 1st.

The Brodhead fair closes today. On account of the rain the crowd was small the first day but they were there yesterday and the exhibits in every department are fine. The floral we believe surpasses anything else shown at any fair in Rockcastle. It is simply a fine display. In our next issue will appear a full account and a list of the premium awards.

AUTO ACCIDENT:—Mr. Charley Thompson of Lancaster, and Miss Pat Perkins of Stanford, certainly had a thrilling experience last Sunday, when the car they were driving leaped over the culvert, on the East side of town, which is a ton to fifteen feet embankment. Miss Perkins was driving the car and coming down the hill, it seems that she lost control, but yet she does not remember very much about it, except that when the car went over, Mr. Thompson remembers that he grabbed the wheel. The car leaped about ten, lighting up side down with both occupants pinioned under the car. Mr. P. Q. Griffin who witnessed the accident, rushed to them and braced the car over to his great surprise, yet great relief, found Miss Perkins without injury or scratch of any kind and Mr. Thompson's only wound was a severe cut on the leg caused by the glass from the wind shield. Mr. Thompson was rushed to Dr. Owens' office where he was attended by Drs. Owens and Pennington and is now out on crutches with a very sore but not at all dangerous wound. It was certainly a close call and one that very few would want to experience. The car was damaged some but with little work was in condition to be driven through to Lancaster the next day.

ORDER

It is ordered by the Fiscal Court that only 3 days hauling on the roads will be permitted for the year 1916, except where authorized by the County Judge.

Copy Attest: S. F. BOWMAN, C.R.CO. SERVICES AT THE CHRISTIAN LUTHERAN CHURCH FOR SUNDAY

Sunday School 9:45. Preaching service 11:00 a.m. Meeting of Official Board 3 p.m. Christian Endeavor 7:30 p.m. Preaching service 8:00 p.m.—Subject "Lifted Up."—Solo by Miss Scott.

Following these services I shall be away from Mt. Vernon several weeks conducting meetings.

H. T. YOUNG, Pulaski has started its subside pipe work from Somerset to ward the Lacombe line via Embury. Work on the Pulaski county roads is going on at a lively rate now. Contractors with a large number of workmen and machinery arrived Thursday to begin work on the road between Somerset and Laurel county and Somerset and Lincoln county. Work is now going on on four county roads leading out of Somerset. The entire contract for building sixty-six miles of pipe was awarded to the Connolly Construction Company, of Somerset, at \$240,000.

LIVER TROUBLE "I am bothered with liver trouble twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlain's Colic, Cholera and Diarrhoea Remedy. By the time I had used half a bottle of them I was feeling fine and had no sign of pain." Obtainable everywhere.

ALARMING **Agreement Made on Account of Practical Famine in Paper Market.** (Dispatch to Louisville Times.) Philadelphia, August 9.—As a result of a series of meetings of the newspaper publishers of Philadelphia, called to consider the serious situation confronting them caused by what are practically famine conditions in the news print market, the following agreement was unanimously reached: All daily, evening and Sunday newspapers will immediately reduce the size of their issues to the extent of a total in excess of eighty pages weekly. That, beginning September 1 next, the accepting from whole sale purchasers of unsold copies of all morning, evening and Sunday day newspapers will be discontinued. Heretofore this privilege has been granted to news boys, news agents, news stands, and carriers. At this meeting of publishers facts and figures were submitted showing that the news print market has been so badly affected by increased demand for white paper. Not only are the mills unable to lay in a reserve stock during the summer months, as in former years, but they are at the present time below their normal supply. So serious has the situation become that it was pointed out that, unless drastic reduction of consumption was enforced, some news papers throughout the country would be confronted with possible suspension of publication. Many prominent dailies throughout the State of Pennsylvania have notified the Philadelphia publishers that they will follow their lead in reduction in size of output and in cutting off returns of unsold copies. The newspapers party to the agreement constitute the entire local press of recognized circulation.

JUST THE THING FOR DIARRHOEA "About two years ago I had a severe attack of diarrhoea which over a week," writes W. C. Jones, Bedford, N. D. "It became so tight, I could not stand up right. A doctor recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliably obtainable every where.

Some of the "Sale" Suits in Town Have Come Down to Prices as Low as FISH'S

There are two ways of doing business. One is to lay in a stock, mark it as high as you dare for the opening of the season; sell all you can at the highest prices and then, when the demand slackens, cut down the price to a reasonable figure.

The other way is to mark your stock as low as possible in the beginning. You don't get a whaling big profit that way—and you don't get a chance to have a "Sale" with a pretended reduction below a fair price—but you do keep your customers and a certain sort of satisfaction that comes of fair dealing.

We Prefer the Second Plan.

IT HAS BEEN OUR WAY ALL ALONG.

Some "Sales" are said to be going on with suits now about as low as Fish's regular prices. But suits said to be not as good as ours. Another thing: Our assortment hasn't run down; good as ever this minute, a lot of new fall suits already in. Prices from \$5.00 for a two-piece Palm Beach to \$50.00 for the finest made to measure suit in America.

Mt. Vernon Fair 1916 Exhibit

THE BEST ONE YET

Plans On Foot for a Bigger Fair in 1917.

The fifth annual exhibition of the Mt. Vernon Fair Association closed last Friday and the 16th exhibit certainly stands as one of the best fairs in the history of the association. The floral exhibits were superb, including some of the best productions of the farm and garden; the hand work from the ladies, the fine productions from the culinary department attracted much attention and were greatly admired. In the stock department a quite from the fair of the year who said: "Right at the Mt. Vernon fair has been shown some of the best stock I have seen at any of the Kentucky fairs." The cattle, horses and hinds which were exhibited will compare favorably with those shown at any of the Blue Grass fairs. The premium awards are as follows:

MEMBER OF KENTUCKY PRESS ASSOCIATION

When Samuel Gompers recently said there never was a time when more laborers in this country were being rewarded with increase pay he had all the figures behind him necessary to prove his case.

The Secretary of Labor has been making an interesting study of the labor conditions of today with special reference to the increase of pay. In nearly every case where money pay has been advanced it has been graciously warred by the employers who feel the benefits of a national property. Plenty of cases there are in which the Workingman has been taken in as a profit share of the increased net earnings.

It was ascertained by the Secretary of Labor that in 495 cases out of 1,486 of wage increase between July 1st 1915 and May 15th, 1916, there was a total raising of pay to the laborers. The total of 1,486 settlements in which wages were increased on a similar basis, would indicate that more than 5,000,000 men were affected.

If the average individual income were \$500 and the rate of increase were only ten per cent, the total volume of wages in increase represented by these wages would be \$500,000,000. Large as this seems, it represented only a return from a part of the entire array of American labor. In manufactures alone the preliminary estate for the 1915 census indicates approximately 7,000,000 wage earners last year whose wages aggregate \$4,400,000,000.

We know that 1916 will show a marked increase both in number of wage earners and in rate of wages over 1915. If the number employed has increased for 1916 only 10 per cent, and the rate of pay has increased only 10 per cent, we get a wage volume 21 per cent larger for 1916 than for 1915. This produces a wage total of \$5,324,000,000, which is \$900,000,000 larger than the 1915 wage total, and \$1,000,000,000 greater than the total volume of wages paid under Republican laws and administration in 1909 as reported in the census of 1910.

There is nothing in our economic program today which speaks in stronger and more convincing terms of the prosperity which the American people now enjoy under "the New Freedom" Democracy, than the pay envelope of the average workman. The \$1,000,000,000 increase in the pay envelope which American labor realizes in 1916 as compared with 1909, moreover, is the highest lever for the uplift of American civilization, that is listed in our statistical inventory.

CLEAN UP AND PAINT UP.

Let's Make Our Town Attractive, Sanitary and Safe.

An Editorial by BRUCE BARTON in "The Signal".

I have in mind two towns. Exterior view, the railroad runs between two rows of brick veneer stables. The greatest miracle of modern times here has been performed with lamp, dual pipes, soap and paint. The Philippines have been made a healthier place to live in than the average American town. Typhoid is being stamped out of Serbia. The Panama Canal zone has been transformed from a dismal, unhealthy swamp to a wholesome place for habitation.

Last year Cleveland, in its "Clean Up and Paint Up" campaign, disposed of refuse sufficient to fill a coal car and one-half miles long.

Another middle western town gathered its boys together, and by offering a reward for each 100 tons of coal, abolished its unsightly back yards in a single day.

"There is no better test of the civilization of a community than this: How much paint does it use?"

A wise man said that if he were given to you to find a religion or make a great invention or discover a new continent, that you can make your town a cleaner, better place to live in. And so doing you give a little push to the chariot of civilization.

"GREATER THAN FIRE LOSS"

By PROF. H. H. KING, Kansas State Agricultural College. Lack of paint causes a great fire loss through deterioration than the average Kansas fire loss for twelve months. Yes, there is much more reason for a real "Clean Up and Paint Up" campaign than the average layman would at first recognize.

Paint, as has often been said, serves more than the mere purpose of decoration. Its principal use lies in the fact that it protects the surface from oxidation. Wood and iron on exposure to the air undergo a slow process of oxidation, which just as surely destroys them as though they were set on fire, the difference being the speed at which the reaction occurs.

We take out insurance to cover loss by fire and should just as surely put on paint to cover loss by decay. It takes very little calculation to discover the apparently astounding fact that the loss through lack of painting is greater in Kansas than the loss by fire.

Paint, as the property owner comes to a full realization of the true reason for painting there will be no need for public spirited people to back up a National Campaign for such a purpose.

"Coffee Kranks"

The average person is more cranky about his coffee than he is about anything else: he eats or drinks.

Men are just as fussy about their coffee as they are about their cigars, and women are just as finicky about it as they are about the tilt of their hat, or a shiny nose when they are shopping or calling.

Some people like a cup of strong, heavy Rio, others demand the milder, smoother Rio coffees, while others demand the delicate blend of pure flavored coffee without the harshness and without weakness that sometimes makes people say—"That ain't coffee—it's dishwater."

There is as much difference in coffee as there is in tobacco, but it is just as easy to suit the particular coffee taste as it is to suit the particular tobacco taste, whether it is for the straight article or for a blend.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. "She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my household. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 25 pounds, and now I do all my household, as well as run a big water mill. I wish every suffering woman would give a trial. I still use Cardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn out feelings, etc., are sure signs of woman's trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping, aiding women for more than fifty years.
