GUARDS PAID AND ALSO RELEASED

KENTUCKY'S "SAVAGE SECOND" ARE MUSTERED OUT OF SERVICE AND SENT HOME.

ALL SEEM TO BE PLEASED

But Are Willing to Answer Uncle Sam's Call When Needed—Subject To Recall for Six Years—Col. Gullion Returns To Former Rank.

Western Newspaper Union News Service. Ft. Thomas, Ky.—Approximately 23,000 men were mustered out of the "Savage Second" Regiment, Kentucky National Guard, at Ft. Thomas, before they were formally put in furlough for reserves and mustered out of the Federal service here.

The money was payment for a month and a half's pay, and was paid to them immediately prior to the reading of an order releasing the men from Federal service. According to the order, which was read to the men, they were called to the colors, they revert to their old status as national guardsmen, but they are subject to the call of their government at any time.

Although it will cost the Government approximately \$20,000 to pay the soldiers, the release discontinued automatically the payment of money under the dependency clause. More than 200 of the guardsmen have been entered on this list, providing that their release and their dependents upon the result of their labors when they were called to the colors last summer, might receive from \$20 to \$50 a month, as their income required.

All about the camp before being mustered out was an air of haste and bustle. The men of the regiment, who were to be placed at the disposal of the camp, were to be released to the companies.

While the release of the men of the "Savage Second" ends one of the most unusual records in the history of the regular army. Colonel Allen Gullion, commander of the regiment, who before his appointment was a Captain with Pershing's troops in Mexico, will revert to his former rank and be at the head of the War Department at Washington. Colonel Gullion, who troops three ranks to a Captain—Gullion, telegraphed the department that he is unattached and awaits instructions. He has given his men much valuable rudimentary training, it is said.

BANK DIRECTORS ARE SUEED For Balance of Depositor's Claim Against Alexander Institution of Paris.

Paris, Ky.—Sult has been tied in the office of the Clerk of the Bourbon Circuit Court by E. B. Sparks against the directors of the defunct George Alexander & Co. state bank to recover on a note for \$15,000 and for \$32,283.33, which he had on deposit in the bank at the time it was placed in the hands of the State Banking Commissioner.

Mr. Sparks alleges in his petition that in consideration of his leaving the money in the bank Mr. Alexander agreed to pay him 6 per cent interest. He received a note from Mr. Alexander for \$15,000 bearing 5 per cent interest.

It is claimed that through the gross negligence and omissions of the defendant directors of the bank, became insolvent, and large amounts of its assets were lost and its entire capital dissipated, that because of the payment of numerous dividends and the acceptance by the Directors of their portion of them at the time the bank was insolvent, the defendant Directors are personally liable for the debts of the Alexander Bank. The defendant asks for judgment in the sum of \$15,243.23, less a credit of \$7,374.41 received at various times from the Banking Commissioner.

4 DEAD AND MANY INJURED

Southern Locomotive Crashes Into Crowded Street Car in Louisville—Watchman Not To Be Found.

Louisville, Ky.—Four persons were killed, two of them outright, and 17 others were seriously injured here when a Southern railway switch engine plowed into a street car and trailer at a crossing at Thirtieth street and Broadway. The dead, Paul C. Hickey, 32 years old, foreman of railroad shops; Mrs. Florence Becker, 28; William F. Cleaver, died on way to hospital; Miss Frances Wessels, 28, seamstress.

The gates of the crossing were up at the time of the accident. The motor man, Frank Stearns, says he could not be clear, drove the car directly onto the tracks.

D. Mattingly and James Kilgallon, operators in the watch tower, could not be found after the accident. The police and taken to headquarters.

SOLDIERS TO ACT AS GUARDS

Governor Orders Hopkinsville Companies To Murray To Prevent Violence—Will Accompany Judge.

Hopkinsville, Ky.—Orders were just received for Company D, of this city, together with Company A, of Louisville, to move to the same town, together to prevent any possible attempt at violence when Labe Martin, negro, is placed on trial for the murder of Policeman Duguid.

The prisoner will be taken to Murray by the soldiers. Judge C. H. Davis will also go on the same train. The two companies will muster about 90 men, and they will go fully accoutered and armed. Captain Henry Stites, of Company D, will be the ranking officer.

KENTUCKY BRIEVITIES

Lexington, Ky.—Gov. A. O. Stanley delivered three addresses here and then left for Harrow, Sate, Tenn., where he spoke at the dedication of the Lincoln Memorial.

Henderson, Ky.—The Princess Theater, destroyed by fire a year ago, is to be rebuilt at an approximate cost of \$25,000. It was announced here. Work on the building has just begun.

Lebanon, Ky.—J. F. Davis, 50 years old, weighing 350 pounds, was found dead in his factory, where he was engaged in the manufacture of churns. Davis came here only a short time ago.

Lexington, Ky.—Mrs. Margaret Ebert, widow of Clarence Ebert, for many years president of the Bluegrass Typographical Union and Secretary to Procter Knott when he was Governor of Kentucky, has been selected from a list of eight candidates for appointment as Police Matron for the city of Lexington.

Owensboro, Ky.—In compliance with specific instructions received from the Commissioner of Internal Revenue, Col. J. T. Griffith, of the Second Internal Revenue District of Kentucky, issued an order effective at once which will ultimately reduce his force by 28 men. Nine regularly employed men and 19 special, or "Rule 8" men, are affected.

Owensboro, Ky.—Ninety applications for loans aggregating \$29,000, have been received by the Daviess County National Farm Loan Association. William Winnett has been elected president of the local organization, and F. K. Mosley secretary and treasurer. Many of the most prominent farmers of the county are connected with the organization.

Lexington, Ky.—The local police department is trying to locate Lloyd Ledbetter, 18 years old, of Dyersburg, in connection with a recent shooting and explosion moving picture operator, who, it is alleged, was kidnaped from his room in the Gem House.

Barboursville, Ky.—The Carry Mining Co., one of the largest concerns in Knott county, has just been thrown into receivership. The assets of the company include judgments aggregating \$1,900 given at the last term of the Knott Circuit Court.

INQUIRY TO BERLIN

WASHINGTON ASKS NEWS OF AMERICAN CONSULS IN MANY.

EIGHTY-SIX ARE MISSING

Demand for Freedom of Yarrowdale Sailors, Withheld Pending Official Address as to Their Release, to Break With Vienna Government.

Washington, Feb. 19.—The situation of American citizens in the countries of the Teutonic allies became the prime consideration of the United States in the German crisis.

The inquiry was dispatched to Germany on Friday asking where and why American consular officers had been detained in their departures.

The demand for the release of the Yarrowdale prisoners was withheld from delivery to Germany pending official address as to the release of these 72 American sailors. The German government announced they had been given their liberty.

The state department showed concern over the delay in the departure of the American consular officers. Eighty-six American consuls, with their families, and many private American citizens desiring to leave Germany were reported ready to start for Switzerland on a special train early this week.

Ambassador Gerard, from Berlin notified the state department that the train should leave "some time this week." Since then nothing has been heard from the trainload of Americans.

On the other hand, a telegram containing assurances by the German government that American consular officials and their families would not be obstructed in leaving Germany, was sent to the department by the Spanish embassy.

While the tension in the international situation was considerably lessened by the unofficial reports of the release of the Yarrowdale prisoners and the reports of concessions granted to Minister Brand Whitlock and American relief workers in Belgium.

The department continues its efforts to assure safety of Americans in Germany, Austria, Bulgaria and Turkey. The state department took occasion to deny formally that all American citizens had been ordered out of Austria. Unofficial dispatches from Paris state that efforts were being made to get out of the country.

It was pointed out in official circles, however, that the time for advising consuls of departures had passed, and American news were seeking not advice, but the means of getting out of the Teutonic countries.

All of these matters were discussed by President Wilson and his cabinet. No announcement was forthcoming from the cabinet declared the situation was "unchanged."

The question of arming American merchant ships for passage of the war zone remained in abeyance. It was understood, however, that the navy department had submitted plans for arming ships with 500 reserve guns already allotted for that purpose.

 says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardul, the woman's tonic. She says further: "Before I began to use Gardul, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardul, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.
 I wish every suffering woman would give
GARDUL

LIVINGSTON

Mrs. Hobert Griffin is visiting relatives in Mt. Vernon this week—Mrs. C. A. Blanford was called to Parksville Saturday on account of the death of her mother, Mrs. Will Brown.—Mr. A. J. Sams who has been quite sick for some time, is in a very feeble condition.—Mrs. R. B. Sams, of Paris, came down Sunday to be with A. J. Sams, who is very low.
 J. H. Owens, who has been very sick for some time is a little better at this time.—Mrs. C. A. Blanford attended the funeral of Mrs. Will Brown, Monday at Parksville.—W. H. Mahaffey has purchased a house and lot in the Ward addition over the river, of Bill Moore, for \$450.00.—Well, it is our honest conviction that there will be another wedding in our town in the near future. We will not at present say who the parties will be, nor will we even hint as much, but we will say this that a certain salesman, not many weeks back, could keep the merchants supplied with groceries with one trip a week, and now he must come two trips a week, and some times arrange to stay the whole day. So boys get up your bells and horns and rattle traps, and when the wedding does take place we will give them the blindest charavari you ever heard of.

Mrs. W. E. Gray and daughter, little Cecily Gray, visited relatives at Farriston from Saturday until Tuesday.—Mrs. Mat Mink, of Corbin, was with relatives here Sunday.—Mrs. B. H. Griffin has returned to Covington, where her husband has a job as fireman.—C. J. Rice has returned from the south and reports having a fine time fishing. He says he saw James Maret, the father of Boone Way, and the one to whom belongs the praise for putting Boone Way on the map. Charley says Maret can hide more fish than any man he ever saw according to the same.—Mr. S. F. McGuire and family, of Irvine, spent the past week with relatives here.—Mrs. Urban Chuning was called to Lebanon Tuesday on account of the illness of some of her relatives.—Bill Owens the sweet singer of the Quail section, was in our town Sunday.—Little Burgess Griffin is quite sick with tonsillitis.—Mrs. T. O. Graves has been very sick.
 J. H. Browning is confined to his room again with grip.—Judge L. W. Bethrum, of Mt. Vernon, was here Sunday between trains W. H. Mahaffey has returned from Florida and Henry said that while there it became very cold. It was so cold that it chilled the water, which so chilled the fish that one could catch them any size and in any quantity with the hand.—This sounds big but we are talking about fish and a man is allowed to deviate in that case.
 The office of S. C. Franklin, L. & N. Water Inspector, will hereafter be at the drug store of W. T. Amyx, where he will issue time cards to all train men requiring such. He will be there every Tuesday and Friday afternoon between trains 23 and 22.—Fred Baker, of Mt. Vernon, was here Sunday.—J. A. Oliver, formerly of our town, but now a traveling salesman, was here Tuesday.—Mrs. Daniel Ponder remains about the same. She is very feeble at this writing.—John Munnice who

IT IS NOT NECESSARY

For us to tell you of the Ford Car and of the wonderful achievements and records that belongs to it—you know these—you have seen the Ford Car operating under all conditions; on good roads, on bad roads, up hill, down hill, through snow, mud and water, even abused. With these things in mind you have compared it with others. So we have no doubt but what your choice will be the Ford.—BUT HERE IS THE POINT:

Everything that is made of steel excepting the Ford Car has advanced in price. The manufacturers of other makes of automobiles have been forced to raise their prices. Machinery of all kinds has gone up. The Ford Motor Co. has already raised the price on parts. Each day we are expecting announcement telling of an increase in the price of the assembled car. It is not a ques-

tion of whether or not there will be a raise, it is a question of when it will be.

NOW IS THE TIME FOR YOU TO ACT.

Even at this time of the year the demand for Ford Cars is greater than the supply. Since this is true now, it will be next to impossible to get a car when the spring rush

comes. We are not trying to scare you into buying a car NOW and under normal conditions we would not have inserted this ad, but we believe you understand the situation and we believe you will take advantage of it.

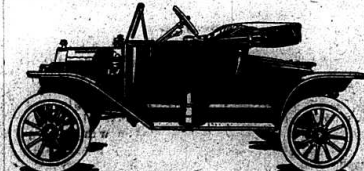

NOW IS THE TIME TO DO IT.

There is everything to gain, nothing to lose.

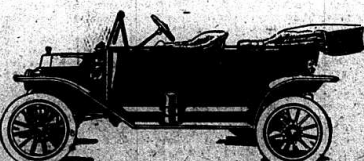

ACT NOW.

BORDER TOWNS FEAR RAID

Salazar Threatens to Attack Village or City and Surpass Massacre at Columbus — Rancher Pays \$5,000 Ransom to Bandits.

Hacienda, N. M., Feb. 17.—Three bodies, later identified as those of Andrew P. Peterson, Hugh Acord and Burton Jensen, American cowboys, were found on the Mexican side of the border.

The bodies of the three Americans were about 30 feet apart, according to Spillbury. Each victim had been shot many times in the head with rifles and shot Spillbury's side.

A government agent arrived here and made an investigation of the report of which was sent to Washington. According to this report, the Mexicans under Prudencio Miranda were cutting down at a ranchhouse the American side of the border.

SEVEN YEARS AGO

Then He Had 6 Mules, \$660 Cash and Some Equity—Today He Has \$20,000 and Owns 2 Sections of Land.

The story of the wealth of Western Canada cannot be told too often. The truth will bear repeating. And in telling of it it is hoped that advantage will be taken of the great opportunities that Western Canada offers to those who are today struggling for a mere existence, by those who are occupying lands, high in price and high in rentals.

From grain, live stock and dairying in 1910, there was returned from the three Prairie Provinces of \$23,000,000, or an increase of four million dollars over 1915, and 118 million dollars over 1914.

A prominent Trust Company says: Some of our contract holders have paid off their purchase money for land they bought a year ago out of this year's crop, and what one man can do another can do.

"In my seven years' residence in Saskatchewan, I have raised seven good crops of the value of this year's crop alone being Twenty thousand dollars. I now own Two Sections of improved and 700 acres of native cattle, a large team thrasher and a full line of farm machinery."

The Warren ranch interests are understood to have agreed to pay \$5,000 ransom for "Buck" Spencer and his wife.

parents on the offspring is theoretically equal. However, the boar has the greater influence on the herd. Each pig in the herd is sired by the one boar, but there are several dams.

A well-selected male used on a herd of inferior sows will make a great improvement in the offspring. However, the use of an inferior boar on wellbred sows will have a correspondingly bad result.

The system of feeding and management is very important in getting the male into the best condition before mating.

Re. Walter L. Brock, secretary of the Kentucky Sunday schools spent from Saturday until Wednesday in Mt. Vernon in the interest of the Sunday school of the Mt. Vernon Baptist church. Since Rev. Brock has been secretary of the Sunday school board has made a strong fight to improve Sunday school conditions in the state. One of his chief aims is to try to get Sunday school rooms provided in towns which do not have them and his visit to Mt. Vernon was for this purpose, and we are glad to announce that his effort proved to be successful. In a two days canvass the committee raised nearly \$500 which insures the Sunday School rooms, which will be added on to the north side of the present church building. In order to have an ample room, it will be necessary to move the building about eight feet toward the south line. Work will start in a few days and by the time summer comes it is expected to have the rooms ready for occupancy. Rev. Brock spent last week in Livingston and the church at that place is also getting ready to provide S. S. rooms and make some other very much needed changes to their building. Rev. Brock is very much interested in the Sunday school work, and the reports received indicate that his efforts are being crowned with success, where he has gone about the state in his work.

The Rockcastle county stockholders in the defunct Rural Credits Association, are much interested by a decision handed down by William Worthington, referee in bankruptcy and special master of the United States District Court in which he adjudged the association insolvent. The ruling, if upheld, will throw the association into bankruptcy under the Federal law and take it out of the hands of the receiver, R. J. Colbert.

Four arguments were submitted in the case. The fourth was that the company did not comply the Kentucky Statutes, Section 543, requiring that at least 50 per cent of the capital stock be subscribed before a company undertake to do business. This was sustained by Mr. Worthington, who further held that the time they were taken, but that they became void because the association placed itself in the hands of a receiver before the 50 per cent was subscribed, and that the association, therefore was insolvent. Mr. Worthington's decision is to the effect that the unpaid stock subscriptions are noncollectable, holding that the corporation never legally completed incorporation. The other three arguments, one that the company was conceived in fraud, another that it was impossible from the beginning to carry on its undertakings, and its subscription contracts void, were not made a part of the insolvent decision, which upholds only the argument cited.

MARET BURG Answer to Magistrate W. M. Sowder. TO THE TAXPAYERS OF ROCKCASTLE COUNTY: We, the undersigned members of the Fiscal Court in defense against an attack made in the Signal by Squire Wm. Sowder, wish to state that Squire Sowder has never failed to vote for any claim or appropriation as the records will show. We were very much surprised at the stand Mr. Sowder has taken. He says that he has stood alone and is not responsible for the present indebtedness of the county. About the only time that we can recall that he stood alone, was that he was the only member of the Fiscal Court who accompanied our County Road engineer, John Marler, to Terra Haute, Ind., to buy road machinery, as most all readers of the Signal will remember reading an account of that trip. At one other time, we remember Mr. Sowder did some road work with Mr. Marler and asked the court to allow him \$2.00 per day, and one of the members suggested that we should get \$3.00 and Squire Sowder made the remark, "that if he did not get \$3.00 he would not take any; but he was not here for his health, but for the money that was in it." All we ask is, that anyone who doubts will look up the record and see who is right and be convinced. We are all willing to bear all the blame that belongs to us. We, all being new members, and having more to do than any Fiscal Court proceeding us, may have made some mistakes, as all men do, but we have tried to do our best. Q. M. BALLARD, CO. FREDERIC C. PENFIELD

Frederic C. Penfield is the American Ambassador to Austria, who at Vienna is doing everything to avoid a break in relations with Austria and its people.

Washington.—The situation of American citizens in the countries of the Teutonic Allies became the prime consideration of the United States in the German crisis. An inquiry was dispatched to Germany asking where and why American Consul officers had been delayed in their departure. The peremptory demand for the release of the Yprövadale prisoners was pending official advice as to the release of the American sailors when the German Government announced had been released. The State Department showed grave concern over the delay in the departure of the American Consul officers. Eighty-six American Consuls, with their families and an unknown number of private American citizens desired to leave Germany, were reported to the State Department. A special train early in the present week. Ambassador Gerard from Bern notified the State Department that the train should leave "some time this week." Since then nothing has been heard from the train load of Americans. The State Department directed a former inquiry as to where and why their departure has been delayed, through the Spanish Ambassador at Bern, now handling American affairs there.

LANSING'S TWO STEPS ARE FAVORABLY TAKEN

WASHINGTON OFFICIALS STILL HOW TO AVERT DIPLOMATIC BREAK WITH AUSTRIA.

Secretary of Embassy in Berlin is Transferred to Vienna—Sending of \$250,000 To Aid Hebrews. Vienna.—Despite the fact that some of the newspapers are taking a gloomy view of Austro-American relations and the situation brought about by the severing of relations between the United States and Germany of various cities in Vienna are inclined to believe that the situation is not entirely hopeless. This also is the view of Frederic C. Penfield, American Ambassador, who is doing everything possible to assist in reaching a friendly solution of the situation. At this moment there are two indications, though possibly they are of little weight, which permit of the conclusion that Washington is not contemplating an immediate break with Austria-Hungary.

One is the transfer to the Embassy here of Joseph C. Greer, former Secretary of the Embassy in Berlin, who arrived here from Switzerland to assume the duties of Counselor of the Embassy, a post which is vacant at present on the illness of Ulysses Grant Smith, who is in the United States. The second indication arises from the fact that Secretary of State Lansing wired here on behalf of various Hebrew charity organizations, the sum of \$250,000, the amount having been donated by American Hebrew societies. At the Embassy here the opinion was expressed that the United States Government might not have transferred this sum had a break been contemplated between Washington and Vienna been even tentatively decided on.

At the Foreign Office no conjectures are indulged in regarding the near future may bring. The fact that the two governments are unable to communicate their views more freely than the present conditions permit has made the exchange of opinions slow and unsatisfactory. The Austro-Hungarian Government as a result remains in almost total ignorance of what measures are needed in order to meet the views of President Wilson and his cabinet. The impression here is that in Washington it is believed the dual monarchy will receive from the position taken jointly with Germany regarding submarine warfare.

Ship Captain Confesses. Seattle, Wash.—Captain Eyzahel, the Austrian commander of the Hamburg-American freighter Saxonia, interned at Esala Harbor, confessed to the Federal authorities that he destroyed certain parts and otherwise tampered with the machinery of the vessel out of commission. He said he acted in compliance with specific orders given him by Dr. Emil Ort, former German Consul-General in Seattle. The latter is now with Ambassador von Harnstorf on his way to Germany.

DEMANDS TO KNOW WHERE AND WHY AMERICA'S CONSULAR OFFICIALS HAVE BEEN DELAYED.

DENIAL BY STATE DEPARTMENT

That All American Citizens Have Been Released. Out of Austria-Lansing Continues Efforts to Assure Safety of Nation's Sons Abroad. Washington.—The situation of American citizens in the countries of the Teutonic Allies became the prime consideration of the United States in the German crisis. An inquiry was dispatched to Germany asking where and why American Consul officers had been delayed in their departure. The peremptory demand for the release of the Yprövadale prisoners was pending official advice as to the release of the American sailors when the German Government announced had been released. The State Department showed grave concern over the delay in the departure of the American Consul officers. Eighty-six American Consuls, with their families and an unknown number of private American citizens desired to leave Germany, were reported to the State Department. A special train early in the present week. Ambassador Gerard from Bern notified the State Department that the train should leave "some time this week." Since then nothing has been heard from the train load of Americans. The State Department directed a former inquiry as to where and why their departure has been delayed, through the Spanish Ambassador at Bern, now handling American affairs there.

REPORT DEUTSCHLAND AND CREW CAPTURED

American Transport Engineer Says British Have Taken Four Hundred Enemy Submarines.

Baltimore, Md.—That the merchant submarine Deutschland had been captured and that he saw her in Plymouth harbor with 188 other German submarines was the statement here by William Palmer, second engineer of the American transport liner Mongolia. Palmer said that the British had captured 400 enemy submarines and that 250,000 tons of food and supplies had been gathered together and in the center of a huge network of chains attached to buoys and warves. Captain Koenig, command of the freighter, and his crew, are in English jails, said Palmer. The Mongolia left Plymouth harbor 27 August, 1915. On 1 February 7. Palmeg was formerly an engineer here with the Chesapeake Steamship Company. Photographs of the Deutschland wrapped with the chains which held her in the harbor were on exhibition, Palmer declared, and it was generally known in shipping circles that the freighter had been captured. Where Captain Koenig and his crew were detained he did not know, but said all were put into jail as soon as the vessel was taken to port. He did not learn how the Deutschland had been captured.

BLOCKADE CAUSES FAMINE

In Greece, Where Poorer Classes Are Living On Herbs and Grass— British Are Blamed.

Washington.—The Greek Legation, in a statement issued here, says famine is resulting from the Entente blockade of the coast of Greece and the poor classes are living on herbs and grass. It is also declared that, despite the protests of the Entente, the policy of the allies, there has been no relaxation of blockade measures. The statement follows: "The Greek Legation has received information to the effect that the results of the blockade of the Greek coast, enforced by the Entente allies since December 8, are of the most gruesome character."

PRICE COURT CONFISCATES CARGO

London.—The Dutch court at Rotterdam from Amsterdam states that the Hamburg prize court has confiscated as contraband one-half of the cargo of the Dutch steamer Batavia. The court confirmed the forfeitures of 5,500,000 francs in securities which were taken from Dutch owners. The court also ordered the Dutch steamer Prins Hendrik, 7,000 tons, to be confiscated to New York.

PASS BONE DRY AMENDMENT BILL

ALSO REPEAL OF STATE LAWS

Author Thinks There is No Doubt About Its Legality—Liberals Say It Will Mean Honest Voting—Draconic Act May Spell Prohibition Doom. Western Newspaper Union News Service. Washington.—The passage of the Reed amendment to the postoffice appropriation bill prohibiting the interstate shipment of liquor into dry states for beverage purposes is regarded by some quarters as one of the most liberal measures that liberals have made recently in stemming the tide of prohibitory legislation. Dry leaders here assert the amendment is to draft it in the position that the amendment will force more honest voting on this question because those persons who vote for prohibition because they believe they themselves can still get all the liquor they want will not dare take this risk in the future. Means Real Prohibition. If my amendment is approved by Congress the limited shipment of liquor into dry states will be stopped, said Senator Reed, the author of the amendment. "It can be shipped in interstate commerce into dry states only for medicinal, scientific and mechanical purposes. It will mean real prohibition. There are a lot of people who are willing to vote to prohibit other people from getting a drink because they think they can still find a way to get a drink themselves. Under this amendment the people who are not prohibitionists will have to say so when an election takes place." The recent decision of the Supreme Court in the case of Virginia prohibition cases was regarded by dry leaders as a stepping victory for their cause.

Big Water Main Burst

Cleveland, O.—A 6-inch water main burst at Fairfax avenue and East Fort street, tearing a huge hole in the pavement, shooting a geyser of millions of gallons of water into the air, jolting a street car from its tracks and flooding close to a square mile of territory. The explosion of the three-foot-diameter pressure main, 20,000 gallons of water—a third of a day's supply—had gushed out of the hole. More than 100 persons were without hot water, while several thousand homes had no gas.

Feel Achy All Over?

To ache all over in damp weather, or after taking a cold, isn't natural, and often indicates kidney weakness. Life active, nervous, queer aches, pains and disorders of the organs. Well kidneys keep uric acid down. Tired, dizzy, nervous people would do well to try Doan's Kidney Pills. They stimulate the kidneys' activity and so help clear the blood of irritating poisons.

France and Colonel Cody

Parisian notes the death of Col. William F. Cody, ex-deputy sympathetic and recognize in him the picturesque American product that he was. This famous frontiersman, who was known in France as being a Buffalo Bill, on his arrival on the continent at the end of his last century was the sensation not of the hour but of the year, and his wide gray felt hat, with its narrow band of leather, was the fashion not alone in military headgear, but in feminine adornment. "Thanks to him," says a French journal, "Paris was made acquainted with the many diverse races of the new world—redskins, negroes of Virginia, cowboys and others of multiple origin, without counting East Indians, Chinese, Arabs and Crossacks of the Don. The youth of that day revered Colonel William Cody. Some time later they preferred Sherlock Holmes or Arsene Lupin."
