

BILIOUS, HEADACHI, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box. Sick headache, biliousness, distress, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and gas gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your liver clear, stomach sweet and your liver and bowels regular for months. ADV.

Easily Quieted. "This socially brother doesn't seem able to get America's blood-rotated traffic with Europe out of his mind."

"I know no easy way to cure him of that."

"How?"

"Give him a few shares of stock in a limited concern."

WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with fingers—no pain.

Just think! You can lift off any corn or callus without pain or soreness. A Cincinnati man discovered this other compound and named it Freezone. Any druggist will sell a tiny bottle of Freezone. Like here shown, for very little cost. You can use few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off. Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shatters it up with soft even lifting the surrounding skin.

Hard, sore or clogged corns or calluses are a painful nuisance. Lift right off. There is no pain before or afterwards. If your druggist hasn't Freezone, tell him to order a small bottle for you from his wholesale drug house—ADV.

Seeking a Publisher. "No. Serthous will engage in the pursuit of literature?"

"No. Serthous thinks he has ground out enough literature to sell a tin of marmalade, and he is now engaged in the pursuit of editors."

Keep Young

Just as well to keep young as to keep old. Many people in the middle age suffer from aches, pains, backaches, rheumatism, dizziness, when a little help for the kidneys would do it all up. Don't wait for drops or brags or dainties. Use Dr. Williams' Pink Pills. They have helped thousands of young and old. They are the most widely used remedy for kidney and weak kidneys in the whole world.

Tuff's Pills

made the specialty to get whatever you want. They clean the bowels and develop the flesh.

WAR PROCLAMATION EXHORTS THE U. S.; ALIENS ARE WARNED

Last Step to Active Hostilities Taken When President Signs.

CALLS FOR VOLUNTEERS

Subjects of Kaiser Expected to Keep the Peace and Will Be Held Liable for Disobedience—Barred From Entering Certain Localities.

Washington, April 7.—President Wilson signed a proclamation formally declaring a state of war between the United States and Germany. In the proclamation he called upon American citizens to give aid to all measures of the government.

The war proclamation follows: "Whereas, the congress of the United States in the exercise of the constitutional authority vested in them have resolved by joint resolution of the senate and house of representatives bearing date this day 'that a state of war between the United States and the imperial German government which has been thrust upon the United States is hereby formally declared:'

Whereas, it is provided by section 4067 of the revised statutes as follows: "Whenever there is declared a war between the United States and any foreign nation or government, or any invasion of predatory character is perpetrated, attempted or threatened against the United States by any foreign nation or government, the president makes public proclamation of the event, all natives, citizens or of information, aid or comfort to its enemies."

Under War Conditions. "Whenever there is declared a war between the United States and any foreign nation or government, or any invasion of predatory character is perpetrated, attempted or threatened against the United States by any foreign nation or government, the president makes public proclamation of the event, all natives, citizens or of information, aid or comfort to its enemies."

To Watch Conduct of Aliens. "The president is authorized in any such event by his proclamation thereof, or other public acts, to direct the conduct to be observed on the part of the United States toward the alien who becomes so liable; the manner and degree of the restraint to which they shall be subjected in all such cases and upon what security their residence shall be permitted, and to provide for their removal from the United States, if necessary, and to make such regulations which are found necessary in the premises and for the public safety."

Whereas, by sections 4065, 4069 and 4070 of the revised statutes, further provision is made relative to alien enemies.

Proclaims State of War. "Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby proclaim, to all whom it may concern, that a state of war exists between the United States and the imperial German government."

"I do specially direct all officers, agents and citizens of the United States that they exercise vigilance and zeal in the discharge of the duties incident to such a state of war; and I do, moreover, urge upon all patriotic American citizens that, in their loyal devotion to their country, dedicated from its foundation to the principles of liberty and justice, uphold the laws of the land and give undivided and willing support to the measures which may be adopted by the constitutional authorities in prosecuting the war to a successful issue and in obtaining a secure and just peace; and acting under and by virtue of the authority vested in me by the Constitution of the United States and the said sections of the revised statutes, I do hereby further proclaim and direct that the conduct to be observed on the part of the United States toward all natives, citizens, denizens or subjects of Germany, being male of the age of fourteen years and upwards, who shall be within the United States and not actually naturalized, shall be as follows: That all such persons shall be at once proclaimed and under such sections of the revised statutes are termed alien enemies."

As to Alien Enemies. "All alien enemies are enjoined to observe the peace towards the United States and to refrain from any act of violence against the public safety and from violating the laws of the United States and of the states or territories thereof, and to refrain from actual hostilities or giving information, aid or comfort to the enemies of the United States and to comply strictly with the regulations which are hereby or may be from time to time promulgated by the president, and so long as they shall conduct themselves in accordance with the principles embodied in the legislation presented by the war department to the military committee of the senate, they shall be held to be peaceable persons, except so far as restrictions may be necessary for their own protection or for the safety of the United States; and towards such alien enemies as conduct themselves in accordance with law, all citizens of the United States are enjoined to preserve the peace and to treat them with all such friendliness as may be consistent with loyalty and obedience to the United States."

"And all alien enemies who fail to conduct themselves as so enjoined, in addition to all other penalties prescribed by law, or shall be held to be in a state of actual hostilities, or to give security, or to remove and depart from the United States in the manner to be prescribed by sections 4069 and 4070 of the revised statutes, and as prescribed in the regulations duly promulgated by the president."

"And pursuant to the authority vested in me, I hereby declare and establish the following regulations, which I find necessary in the premises and for the public safety: "1. All alien enemies shall not have in his possession at any time or place any firearms, weapons or implements of war or component parts thereof, ammunition, maxin or other sinter, arms or explosives or material used in the manufacture of explosives."

Bars Wireless Use. "2. An alien enemy shall not have in his possession at any time or place or use or operate any aircraft or wireless apparatus or any signaling device or any paper, document or book, written or printed in cipher, or any device which may be invisible writing."

"3. All alien enemies in the possession of any alien enemy in violation of the foregoing regulations shall be subject to seizure by the United States."

Making of Threats Barred. "5. An alien enemy shall not write, print or publish any attack or threat against the government of the United States or of any branch thereof, or against the person or property of any officer, agent, sailor, naval or civil service of the United States or of the states or territories or of the District of Columbia or of the municipal government therein."

"6. An alien enemy shall not commit or abet any hostile acts against the United States or of information, aid or comfort to its enemies."

"7. An alien enemy shall not reside in or continue to reside in, visit or enter any locality which the president may from time to time designate by his proclamation as an inhibitive area in which residence by an alien enemy shall be found by him to constitute a danger to the public safety or safety of the United States, unless by permit from the president and except under such limitations or restrictions as the president may prescribe."

Detention Provided. "8. An alien enemy who the president shall have reasonable cause to believe to be aiding, or about to aid, the enemy, or to be a danger to the safety of the United States, or to be about to violate any of these regulations, shall remove to any locality designated by the president by executive order, and shall not remove therefrom without permit or shall depart from the United States as so required by the president."

Must Get Permission to Leave. "9. No alien enemy shall depart from the United States until he shall have received such permit as the president shall prescribe by executive order of a court, judge or justice, under sections 4069 and 4070 of the revised statutes."

"10. No alien enemy shall and in or enter the United States except under such regulations and conditions as the president may prescribe."

"11. If necessary to prevent violation of the regulations all alien enemies shall be obliged to register."

May Be Arrested Upon Suspicion. "12. An alien enemy whom there may be reasonable cause to believe to be aiding or about to aid the enemy, or who is at large to the danger of the public peace or safety or who violates or attempts to violate any of the regulations herein contained, if there is reasonable grounds to believe that he is about to violate any regulation promulgated by the president or any criminal law of the United States, or of the states or territories thereof will be subject to summary arrest by the United States marshal or his deputy or such other officers as the president shall designate, and confinement in such penal institution, jail, military camp or other place of detention as may be directed by the president."

"This proclamation and the regulations herein contained shall extend and apply to all lands and waters, neutral or insular, in any way within the jurisdiction of the United States."

Wilson Asks Volunteers. "The president has issued a call for volunteers to the army and navy up to war strength, and gave his endorsement to the general staff army bill designed to obtain men by selective conscription."

"The necessary men," said the president in a statement, "will be secured for the regular army and the National Guard by volunteering, as at present, until the judgment of the president, a resort to selective draft is advisable."

"The principles embodied in the legislation presented by the war department to the military committee of the senate, they shall be held to be peaceable persons, except so far as restrictions may be necessary for their own protection or for the safety of the United States; and towards such alien enemies as conduct themselves in accordance with law, all citizens of the United States are enjoined to preserve the peace and to treat them with all such friendliness as may be consistent with loyalty and obedience to the United States."

KEY BANK STOCK TO BE ASSESSED

ON BASIS OF FAIR CASH VALUE—BILL EMBODYING PROVISIONS PASSED.

PASS TAX ON BANK DEPOSITS

Victory of Administration Complete—Measure Requiring All Males Between 16 and 45 To Register for Possible Military Duty Killed.

Register. Bank stock, surplus and undivided profits, will be assessed on a basis of 60 per cent of its fair cash value in the future in this state. The Senate passed the State Bankers' Association bank deposit bill taxing bank deposits 10 cents on each \$100. The bill had already passed the House and its passage in the Senate makes the victory of the administration complete, as the measure is the last advocated by the House.

The proposition of taxing the banks on a 60-per-cent basis came up in an amendment proposed by Senator Scott. The amendment provides that, "in addition to the tax on bank deposits at the same rate which may be fixed by law on other property for state purposes, the local rate of taxation of shares of stock in banks and trust companies, representing their capital, surplus and undivided profits, shall not exceed 50 per cent of the rates which are respectively imposed on other property subject to the tax on the same class of property of the authority levying such tax."

The amendment also repeals Section 4092 of the Kentucky statutes. The bill was passed by the vote of 27 to 26. The Senate voting for the bill were: Antle, Arnett, Pooles, Bradley, Hunter, Condit, Bish, Ford, Frost, Hill, Hildreth, Hiles, Knight, Littrell, Montgomery, Moore, Rogers, Overstreet, Raper, Rogers, Scott, Smith, Stettin, Taylor, Thompson, Trigg, Williams; total, 27.

The Senators voting against the bill were: Ray, Rogers, Lewis, Sanders, Zimmerman, Porter; total, 5. Those not voting were Evans, Glenn, Hunter, Johnson, Sisson.

The Senate adopted the report of the Conference Committee, receiving from the House the bill of the United States, Zimmerman, Porter; total, 5. Those not voting were Evans, Glenn, Hunter, Johnson, Sisson.

The report of the committee was adopted by the vote of 53. The bill was passed by the vote of 53 to 22. The bill of Representative Green and to require a license tax of 20 cents on 16 and 45 to register with the Adjutant General by June 3, 1917, and to pay for 50 cents for the creation of an emergency military fund, was killed by the House. Speaker Duffy held the bill in reserve for the extra session. The House of Representatives, by the vote of 53 to 23, refused to consider the bill. Representative Lyon raised the point of order that the bill is not germane to the act of Governor Stanley for the extra session. The point was sustained. Representative Green contended that it was germane because of the emergency revenue and taxation measures. Representative Green contended that it was germane because of the emergency revenue and taxation measures. Representative Green contended that it was germane because of the emergency revenue and taxation measures.

The bill of Representative Hutchcraft, which increases the franchise tax of corporations, excepting banks and trust companies, building and loan association and foreign insurance companies, was adopted by the vote of 53 to 22. The bill of Representative Spurrer introduced a bill fixing a license tax of 20 cents on the barrel of malt liquor.

Calls on All To Aid Navy. Gov. Stanley issued a proclamation calling upon business men, newspapers and others to lend their aid in the extension of the call for enlisted men made by the Navy Department. The need for men to man and equip the vessels of the United States navy up to war strength has caused the Navy Department to send out a large number of posters, and other advertising material, and the governor's proclamation is intended to give them widespread publicity.

Reduces Taxes on Live Stock. "The principles embodied in the legislation presented by the war department to the military committee of the senate, they shall be held to be peaceable persons, except so far as restrictions may be necessary for their own protection or for the safety of the United States; and towards such alien enemies as conduct themselves in accordance with law, all citizens of the United States are enjoined to preserve the peace and to treat them with all such friendliness as may be consistent with loyalty and obedience to the United States."

Assembly To Adjourn April 25.

Take. At from the attorney general, the present extraordinary session of the general assembly will die a natural death with the stroke of 12 on the night of April 25, the sixteenth day of the month after the lawmakers convened here February 14.

"I can't understand how they got that idea in their heads," he said. "In view of the fact that some members of the senate or house have been declaring authoritatively that the lawmakers can continue in session just as long as they want, Attorney General Logan was asked about the matter."

"Section 32 of the Constitution plainly states 'nor shall a session of the general assembly continue beyond sixty legislative days.' An extraordinary session is exactly the same as a regular session, save that only the subject designated by the call can be considered. Of course, the members can continue in session all summer if they desire, but their pay stops at the end of the sixtieth legislative day and I shall so instruct the auditor."

That being the case, further bill will be introduced in the next three days. Major E. D. Pogue, of Ashland, has introduced special license taxes on every thing from baby cars to pool tables. Among the taxable articles which these bills are aimed at are coal, oil, natural gas, liquors, malt beverages, commodities, tobacco, cigars, cigars, patent medicines, corporations of many descriptions, theaters, picture shows, amusements, cigarette dealers, automobile agencies, mortgage loan associations, banks, jacks, stables, race tracks, pillard tables. "It is not a very liberal concessions and still other things."

Voluntary Censorship Requested. Kentucky newspapers are requested to exercise a voluntary censorship over news concerning movements of the Kentucky National Guard, Gov. Stanley, through the Adjutant General's Department, issued the following statement: "As Governor of the State of Kentucky, I request all Kentucky newspapers, because of the present international crisis which is afflicting the National Guard of the State, particularly to refrain from publishing any information, rumors, reports, orders, instructions or movements of any troops which are sent out on their home stations for police or guard duty and subsequent movements and stationing of troops and other activities at such destinations—W. O. Stanley, Governor of Kentucky."

Second Regiment Killed. The Second Regiment, Kentucky National Guard, was called into service to fight the battle of the state. The destination of the various units, of course, is made public. Officials of the regiment met here to prepare plans. It is understood that the First Regiment will also go on duty at once. Major E. D. Pogue, of Ashland, has been transferred from the First to the Third Battalion of the Second Regiment. He succeeds George T. Smith, who has been elected colonel of the regiment. This leaves a vacancy in the First Battalion.

School Issue Settled. A municipality which had a graded school system of its own and includes a part of another graded school district, part of which is without and other to be incorporated, has the right to control school. This opinion was given by D. Gilbert, Superintendent of Public Instruction, by Assistant Attorney General Chas. Morris.

10,400 Men, Kentucky's Right. Under the National Defense act Kentucky is entitled to a military organization of 10,400 enlisted men.

County Officials Pay Up. In a report on the office of Callo, war committee of the State Inspector and Examiner Nat B. Sewell covered on the state treasury \$366,37, collected as follows: Former Circuit Clerk, Joe Lancaster, \$324.07, fines and forfeitures; Circuit Clerk L. C. Trivett, \$128.28; Sheriff W. B. Bates, \$100.00.

Regulation Issued. The Kentucky State Board of Education has issued a regulation for the extradition of Sherman Cottrell, wanted in Bell county on a charge of gambling, was issued.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physio into a sick child.

Look back at your childhood days. Remember the "dew" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With your children it's different. Mothers who cling to the old form of physio simply don't realize what they do. The children's revolt is well-founded. Their tender little "inidies" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only its delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this "nature's best laxative" handy; they know children love to take it; that it never fails to clear the liver and bowels and sweeten the stomach; and that a teaspoonful given twice saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. ADV.

Preferred Form. "What is the favorite form of Wart-removal pills and lozenges?"

CRISIS OF WOMAN'S LIFE

Change Safely Passed by Taking Lydia E. Pinkham's Vegetable Compound.

Wagoner, Okla.—"I never get tired of writing Lydia E. Pinkham's Vegetable Compound. It has done for me more than I can tell. Change of Life is in bed two years and two operations, but all my doctors and operations did me no good, and I would of died. I took Lydia E. Pinkham's Vegetable Compound and in a few days I was up and about. I am now well and do all my housework, besides working in my garden. Several of my neighbors have got well by taking Lydia E. Pinkham's Vegetable Compound. Write for Free Book, Wagoner, Okla."

Such warning symptoms as sense of suffocation, indigestion, backaches, drowsiness, irritability, timidity, squints in the eyes, palpitations of the heart, sparks before the eyes, irritability, constipation, variable appetite, weakness and nervousness should be treated by middle-aged women. Lydia E. Pinkham's Vegetable Compound has cured many women safely through the crisis.

A PLEA TO LIVINGSTON BAPTISTS

Far more loyally, more self-denial, more consecration to the work God has given us to do. In a peculiar way God is blessing us as a church, as never before. First He has given us the best pastor imaginable, and let us make glad his heart, and get blessings for our lives by attending regularly all the services of the church.

In the second place He has bestowed upon us the blessing and responsibility of leadership. In our young people's meetings—socials, etc., do we lead and how we should thank our Heavenly Father for this, and render to Him, to the church, and to those about us the best service possible. Come to our mid-week prayer service. "Where heaven comes down our souls to greet. And glory crosses the mercy seat."

It is here thru prayer and praise and study of God's word we catch our visions and we are made strong in the battle for right against wrong. With every member standing by the work, with his prayers and sympathy and money, what glorious victories we will win for our Master.

Mrs. C. E. Rice.

RESOLUTIONS BY MT. VERNON CHAPTER R. A. C.

We, the members of Mt. Vernon Chapter of Royal Arch Masons, in regular convocation, confronted with the fact that our country, in internecine conflict with the Imperial German Government and in the interest of humanity, faces the greatest crises of its existence, therefore be it

Resolved, That as patriots we now come and reconsecrate ourselves to our country, the Government of the United States, symbolizing all that is great, grand and sublime, and pledge our loyalty to our country and its cause in this hour of our Nation's need, and express our confidence in our President and his Congress

THE CENTRAL COMPANY, NEW YORK CITY.

ROCKCASTLE CIRCUIT COURT.

B. H. POWELL, Plaintiff,
VS. J. B. RIVER CLAIMS,
T. J. NICKERY,) Defendants.
DAVID COLE, & Co.,)

All creditors of the estate of David Cole, deceased, are hereby notified to present their claims against same, properly proven, before me, on or before April 28, 1917. Beginning April 28, 1917, I will sit daily to receive and register such claims and proof until through.

G. S. GRIFFIN,
Master Commissioner.

A FEW WORDS TO THE REPUBLICAN VOTERS OF ROCKCASTLE COUNTY:

Well, Gentlemen, I would have my picture made and at the head of this, but I think the Log Cabin will look much better.

I have been worked for by myself ever since I have been large enough to earn my board and clothes and have worked for a number of people, and one thing I can say and tell the truth; I have never been fired yet and I have never worked for any man or any company but what I can work for them the second time.

Since talking to a number of the people of Rockcastle County I earnestly believe the people have decided to keep me at the old Mt. Vernon jail by a bigger majority than they did before, and I can say this; it is never got too dark nor rained too hard, when the people of this county, or the County Judge or Sheriff of the county have called on me, but what I have answered the call and done the best I could. Now, gentlemen, there has been some talk about me having some trouble since I have been in office, which has been the truth; but, men, I want you to stop and think of the class of people I have to deal with. I have done wrong to no man since I have been the Sheriff of this county, although I have been forced to do some things that I hated to do. Now, I want to speak a few words to the good old citizens that never have any dealings around the court house. Gentlemen, I told you before when you elected me I would make you a sober and upright officer, and that is what I have tried to do and that is what I will do again if I am elected. I believe that you will agree with me that I have made you an honest, conscientious officer and if re-elected will keep right on making you that kind of officer, and I now announce myself as a candidate for re-election, subject to the acts of the Republicans of this county to be decided at the Primary, August 4, 1917, and am appealing to the Republicans of the county to stand by me and will thank each and all of you for your votes and influence.

JAMES WINSTAD.

Mrs. J. F. Davis, of Knoxville, has gone to Louisville after a few days visit with her sister, Mrs. E. L. Cochrill. Mrs. J. H. Browning is visiting her mother, Mrs. Katie Magee, at Crab Orchard. The family of C. L. Black have mosses which are handling them rough. Mrs. J. B. Hayse was called to Paris, Ky., Saturday, on account of the serious illness of her daughter, Mrs. Ed. Quinn. Mrs. George Reynolds, of Corbin, was in our town visiting relatives Monday. Mr. and Mrs. I. W. Catlin and little son, John William, visited relatives in Lebanon, Sunday. R. L. Payne has his mill in operation near Hazel Patch. Mrs. C. A. Blanford has returned from Parksville, where she has been visiting relatives for a few days. A. W. Boone, operator and mayor of Sinks, was in our town Monday. Mrs. A. Davis is visiting relatives at Paint Lick. A little child of Mr. and Mrs. Ben Hellard has pneumonia. Mrs. S. E. Hellard was here Sunday between trains. R. Perkins, who had a very bad sprained foot, is much better and able to be about. Miss Gertrude Evans, who last night bridged at Mt. Vernon, was here between trains Monday. We see that our old friend James Marot has returned from the south. We are glad to welcome him back, for we did feel some uneasiness for fear he would get too near the border and some of those gressers might capture him. He tells of a great fish and said some reach six hundred pounds. Now, we are not doubting this, but this is a mighty big fish. The gresser he caught by the scales on the fish's back. He tells of cabbage patches of 100 acres in them, and this is a heap of cabbage. But what fools us is what he said about the armadillo. He said it had a hull like a turtle. We are tickled that when he went to a strange country and met a terrapin that he did not know it. Times are not what they once were. Soldiers can be seen guarding the stores and the stores are being hoisted, and preparations are rushed for war. But we are proud of one thing, the U. S. has always come out conqueror in all her wars and everyone is ready to do his or her part. J. F. Dees is repairing the telephone line in our town. Mrs. R. G. Webb is visiting her mother at Boston, Ky. Everyone is trying to plant out large gardens in this town and vicinity. The high price of everything has taught them a lesson and every available foot of ground that can be planted will be. Mrs. R. D. Stedham, who has been sick for some time, is greatly improved.

LITTLE TOM TAYLOR.

TO THE REPUBLICAN VOTERS OF THIS COUNTY: My Dear Friends and Fellow Republicans:— My friend and track walker, Tommy Taylor, who has been working for me for about seven years, has announced himself for Jailer of this county. I think the people of this county, or a good part at least know what I stand for above all things. Let us have true, honest, sober officers in our county. Therefore, I appeal to the people. Please vote for sober, honest men. To do this you will cast a vote for Little Tom Taylor. He is a hard working boy and needs your support. While I am not knocking on any of his opponents, I do know Tommy, and what I tell you is true. J. T. MEADOWS, Section Foreman.

Way Side Notes

By "J.M."

Bowling Green ships a greater number of car loads of strawberries, each season, than any other railroad station in the state. Bowling Green is the point of shipment of nine tenths of Kentucky rock asphalt that is quarried in the Commonwealth. That city is located on west Dixie Highway. It also has the most progressive chamber of commerce. Birmingham, Alabama is the iron and steel center of the South. Great turpentine forests (pines) line the railroad tracks. Tapped trees with their galvanized troughs or vessels, can be seen by passengers from coach windows of passing trains. Alabama has many pecan orchards. One owner, not far from Montgomery, harvested 80 bushels from his trees last year and sold them at 13 cents per pound, wholesale. This state is pushing the good roads movement along. Leaving Kentucky on January 20th when an 18 inch snow covered the ground, it was found to gradually get thinner as we went south and it finally disappeared at a hundred miles south of Nashville; the weather moderating and was found to be warm when Mobile was reached. Mobile shipping docks was skirted for some distance by our train. Ships and vessels of every description from nearly every nation in the world were seen. Sailing vessels seemed to predominate. New Orleans and Galveston are also great ports. Houston is looking up in her sea going trade. Aransas Pass will soon be in the swim again after making repairs. From Mobile to New Orleans the train is scarcely out of sight of a bay, river, bayou or bodies of water. The beautiful shell roads along and leading out to the railroad, thru Alabama, Mississippi and Louisiana are numerous. Swamps show up in a number of places overgrown with palmetto, where one can cut his own palm leaf fans, provided he was immune to mosquitoes, which animal is said to be large and fierce and no respecter of a persons society standing or otherwise. The railroad trestle, located 13 miles up the river from New Orleans, carries locomotives and coaches of a whole train with passengers across Mississippi river in one trip over that stream. On reaching the west shore one found great numbers of huge oil storage tanks, where millions of gallons are housed. The greatest oil fields of Texas are in the Beaumont and Goose Creek fields. The latter place is a short way out of Houston. Most of the Gulf Coast counties have been tested and found to be in the oil belt and considerable development has been in progress. Drilling is being done in many of the counties with success. The greatest gasser ever struck in Texas, was brought in in San Patricio county 23 miles from Aransas Pass a few months since. The owners found it impossible to cap it or confine it. After working a month, using reinforced concrete around the hole to a considerable depth, and using escape valves, a six thousand pound metal cap was placed securely. When the escape valves were closed the cap was blown 50 feet into the air. Dynamite was used to close up the well and drilling is now going on near the original well where proper preparations

have been made to harness the big spouter. While at Galveston our party received passes to visit a big Malory steamer at the docks. We only gained admittance to wharf boat at which the steamship was docked. Owing to war rumors, orders had been issued, that morning, to officers of vessels, to admit no visitors. Large numbers of fine fox hounds from the Walker kennels, of Garrard county Kentucky are found in Fort Bend and other Texas counties. These dogs have the reputation, down there, as being the best breed obtainable. They are noted for their staying qualities and their trailing sense is unexcelled. The "Walker boys" have made several trips to these southern hunting grounds and have enjoyed many great and noted chases with these Texans who are enthusiastic in their praise of big hearted Kentuckians and followers of the hounds. Many shipments of dogs were made by these men to Texas, some of which brought as much as \$150 each. Others were sent as presents to Texan friends. Columbus has a dealer in wildcats, foxes and gophers wolves and armadillos. A havelina, (Mexican wild hog) is quite a curiosity to us people from the snow regions. People from the north are called snow diggers. We met young people from 10 to 20 who never have seen snow, or ice on a stream. They could not conceive the idea of a loaded wagon being driven across a stream over ice. In a trip by automobile, from Aransas Pass and Corpus Christi, to San Antonio, we saw some half dozen "mud-traces" during the day. They would appear something like a half mile head of us, receding as we approached, sometimes lasting several minutes. They usually showed up in bays, rivers and bodies of water with houses or cities along their border and sometimes appearing as though the houses and towns were afloat, then the whole thing would melt into this air to reappear again and other scenes depicted. It is said these results are caused by a peculiar condition of the atmosphere factored upon by the refraction or reflection of light from the sun. It puts a peculiar feeling upon one when he first sees a phenomena of this kind. Our companion, Conn Brown, says they are of common occurrence in that portion of Texas and he had not paid any attention to the matter until the writer asked him where "that bay and city had gone to, that was in sight a few minutes before. After a short laugh he said, "oh that was a mirage you saw." Then explanation followed, tho there remained a creepy feeling in the spine of yours truly. Some odd names of citizens of Colorado county: Mrazek, Franks, Youens, Weis, Pincback, Lans, Tooke, Newhaus, Obsochalin, Roos, Russa, Rau, Hastedt, Hogg, Gilthroe. The first good rain of 1917, in southern Texas, fell on April 4th. Nearly all farms in South Texas have wind mills which are used for pumping water and other purposes. San Antonio, and other winter resorts have been crowded with Northern tourists many of whom came on account of being unable to visit Europe, owing to the war. All southern Pacific trains, regular and extra, display their [Continued on 5th page]

FOR MAGISTRATE,

FIRST DISTRICT,
W. M. Sower, of Mt. Vernon, Ky.

FOR JUDGE,

G. W. Murphy, of Livingston, Ky.

FOR CONSTABLE,

FIRST DISTRICT,
J. A. Jones, of Mt. Vernon, Ky.

WE ARE at the threshold of the greatest war in all history. There is a patriotic spirit sweeping over our land. The American people are a great and wise race. They heed not today alone, but look to the future. The right spirit is moving all. The nation's slogan today is: "Cultivate every square foot of soil you possibly can, and waste no food." This means more than the ordinary person thinks. Many a war has been lost in the history of the world because of the lack of food. The success or failure of this world's war may depend on the proper appreciation of this question. Men can not fight with proper food. You may wear the old suit another season; you may wear the old hat another year; our wives and daughters may, with little discomfort, make over or mend and again wear the articles they thought of discarding, but the beef steak you enjoyed so much last week stays not today "the hungry edge of appetite. Every man, old and young, every woman at her needle, or in the kitchen, every boy and girl, owes a duty to the country above all things else. Farmers should put out all the corn, wheat, oats and potatoes they possibly can. These can be shipped to the old world. Those who live in towns and cities should plant every foot of their land in garden. Children should be required to help. People should work more hours per day than ever before. The housewife should cook only what is necessary and waste nothing. The man who falls to raise all he can, and fails to conserve the food supply, or wastes that made by frugal hands, is as bad as the Alien enemy, who sets the flaming torch to our homes and fires. We have before us across the sea an enemy of gigantic power, bent upon the destruction of the opposing world. It behoves every citizen of this great land of ours to lend a helping hand in this our hour of need. If we do not shoulder the maul; if we do not bear our

breasts to the leaden missiles of death on gory fields of battle; if, unlike the great Lafayette we do not cross the deep in freedoms cause, we can be a humble tiller of the soil and feed those who fight that vandals may not despoil a land of freedom, and that democracy may triumph the world over.

Young man, old man, husband, wife, children—all—let's work harder and more hours per day than ever before—Let's help feed the mouths of those who fight, and let us not quit "until the last fang is pulled from the bloody, foaming jaws of the world's mad dog."

Owing to the war the prices of foodstuffs will continue to advance and by 1918 all agricultural products will command such high prices that it will be a very serious question with many to procure the necessary supplies for sustaining life.

It is of tremendous importance that everyone in Rockcastle market himself in intensive cultivation of the soil to the fullest possible extent. It may be possible that our people will be able to secure some of their supplies next year from other territory, but it is more than probable prices will be virtually prohibitive. It, therefore behoves our people to plant extensively and cultivate every vacant space possible. Let every family raise cow gardens and all farmers do likewise in addition to putting in the largest possible acreage of field crops. If each farmer will raise sufficient supplies for his family and enough for an additional family the problem will be satisfactorily solved, thereby preventing actual hunger to many whom, unfortunately may be grasped by that dreaded terror, in case greater cultivation of crops is not pushed in 1917. The Agricultural Department suggests that no calves be butchered or shipped, but kept for growing beef. Hay and all feedstuffs should be looked after, and hogs and cattle, as far as possible, be held by their owners. The Agricultural Department, Washington, D. C. will readily give any desired information on farm and other vital matters to any and all inquiries.

EVERY American should observe the spirit of the President's war proclamation defining the status of Germans in the United States who are not guilty of action against this country, or of harboring or helping Germans who among many agents of the German Government, have been intriguing against the United States. Every citizen should be alert to detect and report to a peace officer possible deprecators or spies, but nobody should make the mistake of tormenting troublemakers. It is avoidable German in America are advised that the best course is to obey the law and avoid talking. The same advice should be accepted and acted upon by Americans who are in touch with Germans in our country who may be sympathetic with their country. The German who does not want to discuss the present situation should be encouraged to remain silent on that subject. No good can come of street corner or barroom arguments as to the course of the American Government and people. Keep the peace, obey the law, treat politely and considerately your acquaintances who, for real reasons may not agree heartily with you, and who would prefer discussing another subject.

AFTER having gone through college it is up to you to come home and show how much of the college went thru him.

TAKE a little pride in your home town and help to make it a better place to live in, and trade at home.

CLEAN UP YOUR back yard.
PLANT a spring garden.

The farmer's boys deserves more praise than they get, usually, from their father and mostly less censure.

Swat the fly!

Valuable Gifts

CITIZENS BANK OF BROOKHEAD GIVES AWAY THOROUGHBREED PIGS.

On Saturday afternoon April 21, at the Citizens Bank Hall Brookhead, Ky., Mr. Spence Government Agricultural Demonstrator will organize an Agricultural Club for the boys of the west end of the county. Every boy that becomes a member of this club will have something to raise or stock to grow under the supervision of Mr. Spence who will make monthly visits to see the members and instruct them in this work.

To help the work along the Board of Directors of the Citizens Bank have kindly consented to use some of their advertising money to help the boys to have good hogs, and will buy five thorough bred registered pigs and distribute them in five different divisions of the Bank territory leading out from Brookhead.

Every club member will have an equal show to obtain a registered pig absolutely free. The boys receiving the pigs will be a member of the boys state club and will be required to feed and care for his pig under rules given him by this pig club furnished by the government. The fathers and guardians of the boys should be present and hear the rules governing the different clubs. You do not have to be a customer of the Citizens Bank in order to have the boys get a pig just so you are not in the territory where other clubs will be organized.

Don't forget the date and be present. 12 to 18 is the age of the boy entitled to a pig. Come and hear the rules governing the same. If the boys take interest the bank will give away ten pigs each spring and possibly every member who joins the club will sooner or later receive a registered pig free. Come and be a member of the Agricultural club.

STOP LEFT OVER COUGHS

Dr. Bell's Pine Tar Honey will stop that hacking cough that lingers from January. The soothing pine balsam loosen the phlegm, heats the irritated membrane, the electrolyte soothes the tender tissues, your breath easier and coughing ceases. Don't neglect a lingering cough, it is dangerous. Dr. Bell's Pine-Tar Honey is anti-septic and pleasant to take, benefits young and old, get it at your druggist today. Formula the on bottle. 25c

Our good friend Isaac Bowman usually known as "Daniel Boone," has improved sufficiently to be able to move back to his old Jack-on-county home, to which place he will go the latter part of next week, where his host of stock-astle friends hope this splendid citizen and neighbor will fully regain his health as he his jolly self as of yore. It can be truly said that the world is better for his having lived in it. He has sojourned sunshine, and chased the shadow away, making things more pleasant and most all of our ease and circumstances.

SOME GOOD ADVICE.
"Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when billions are consipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.

BAD COUGHS? FEVERISH? GRIPPE?

You need Dr. King's New Discovery to stop that cold, the soothing balsam ingredients heal the irritated membranes, soothe the sore throat, the antiseptic qualities kill the germ and your cough is quickly relieved. Dr. King's New Discovery has for years been the standard remedy for coughs and colds in thousands of homes. Get a bottle today and have it handy in your medicine chest for coughs, colds, croup, grippe and all bronchial affections. At your druggist, 50c.

NATURE TAKES THE FEE
There is an old saying that "Nature cures, the doctor takes the fee." It is everyone knows you can help Nature very much and the way to do it is to effect a cure in much less time than is usually required. This is a price very true of Dr. Chamberlain's Cough Remedy relieves the lungs, liquefies the phlegm, mucous and aids in its expectoration, relieves the cough and aids Nature in restoring the system to a healthy condition.
WANTED—Fifty good coal miners to work in the mines at Straight Creek, Bell County, Kentucky; men with families preferred. This company pays the highest wages in the district, and the coal is easily worked and a good workman can make from \$4 to \$6 a day. We have pick work, also punchers and electric cutting machines in our mines. We work both colored and white men.
FEDERAL COAL COMPANY,
Straight Creek, Ky.
This blunders we make today will give us something to think about tomorrow—and in most cases something to laugh about as well.
WANTED—50 men to peel tan bark in Jackson County. Good wages and board handy and reasonable. Apply to:

Mrs. Madeline Scott of the Crook ed Creek section was with Mr. and Mrs. Dee Cummins of near town during the week.

A. W. Stewart, formerly of Rockcastle, now a prominent farmer of Silver Creek, Madison county was here on business Tuesday.

Mrs. Teague, who has been with her daughter, Mrs. J. L. Cooper for several weeks, will leave soon for her home in North Carolina.

Col. J. B. Willis, manager of Crab Orchard Springs for fourteen years, died at that place last Monday after a short illness. His remains were taken to Richmond, Ky., for burial.

Mrs. Sadie Richards Jett, having completed a course in Bowling Green business college, has been given a lucrative position, with an uncle, T. F. Donaldson, nurseryman, at Wausau.

Mrs. Sarah Maret of the Wilder section was here this week en route to Crab Orchard where she is spending a few days with her daughter, Mrs. Henry Catron near Crab Orchard.

Mr. and Mrs. A. B. Purzich were guests of Mr. and Mrs. Reinken and at Langdon school from Saturday until Wednesday. Mr. Purzich returned to Barbourville last night. Mrs. Purzich is still with friends.

Col. B. A. Riddle of the Blindle Ridge section was in town Monday and told the Signal man he had a Studebaker Auto and if the Sun and wind would keep up the good work a few more days he would drive it in.

LOCAL

Renfros creek bridge is ready for the flooring.

You can depend on the quality if you get it at Fish's.

Construction on Dixie-Boone will be resumed May 1st.

A few more flags displayed would not be inappropriate.

Some Nashville parties are drilling a well near Boones Gap.

All Mt. Vernon automobiles are carrying the American flag.

Mt. Vernon's barber shop is in tip top order since moving to its new location.

There has been an expert oil geologist here, from Alabama, for some weeks.

Mr. Robert Moore, a brother of H. G. Moore died at his home on Rockcastle river Wednesday.

The canning clubs and individuals will go after it with a vim in old Rockcastle the coming season.

Mr. John Jarrett died at his home in Brodhead yesterday. The burial will take place this afternoon.

Joseph Coffey, who was for some time a merchant at Livingston died at his Stanford home last week.

FOR SALE: - 20 to 25 bushels Buckwheat. Call, phone or write. Terms cash. A B LEWIS, Mareburg, Ky.

Boone Way starts at Boone Path, Va., passes thru Mt. Vernon, Ky., Boonesboro and Boone Avenue, Winchester, Ky.

County Engineer and Inspector, P. H. Mattingly is shaping up matters for pushing road construction in Rockcastle.

An important Dixie Boone article was crowded out this week, but will appear in next issue.

Robert Thomas and Miss Sarah Whitaker were married yesterday at home of bride on Rockcastle river.

The announcement of J. L. Arnold for Jailor appears in this issue. Mr. Arnold will make a statement to the voters in a later issue of the paper.

W. A. Batten, superintendent leasing department of the Kentucky Producer Oil Co., was here this week looking after some matters for his company.

Am Payne, the telephone line-man is removing the abandoned poles from the streets where the wires have been transferred to the electric light poles.

"J. M." takes this means of thanking W. O. Jones, of the New York police force, for papers and copies of city traffic rules, sent to the writer while in the South.

Lyndon-Gordon Co. the last number of the Lyeum Course will be here Friday April 20. These ladies promises to be the best entertainers of the season.

Royal Arch Chapter No 140 of this place has passed resolutions pledging its hearty support of President Wilson in his war move, and wired the executive to that effect.

Abe Chastean, who narrowly escaped death in the penitentiary cell house fire at Frankfort is here during the week. He had samples of his handiwork executed during his Frankfort sojourn.

Cas Cox the barber is not a fighting man but it is not safe to ask him how long he served at the butcher's trade before coming to Mt. Vernon to set up a shaving shop.

All important bridges and tunnels throughout the country are being guarded by U. S. troops. Citizens and others should expect to be halted when approaching them.

At Cox's store can be seen one of the shrapnel shell made in Dayton, Ohio, for the allies. It consists of several parts and has a "timer". The shell is the property of Herbert Cox.

Old glory is flying in the breezes at the Court House. J. Fish & Son's store, the barber shop, Franklin's shop, the post office, 23 South Williams street, W. T. Crawford's and H. C. Gentry's.

There are fifty seven candidates already announced for the different offices in Knox county. Their line up shows thirteen for jailer, ten for county clerk, six for sheriff, four for circuit judge, three for county judge, and three for representative, with a lot of others not listed here.

The loyalty of the Negro to our government is being demonstrated all over the country, notwithstanding the intrigues of German spies sent among them to enlist them against the whites. Thousands of negroes are offering to enlist with Uncle Sam.

A traveler lately returned from a southern trip advises us that he inspected a number of electric light plants and that none of them were better than the Mt. Vernon plant and but few as good. We are proud of our system. Everything that was used in its construction was new and first class, accounts for good service secured.

The old saying that "the woods are full of candidates," holds good in Rockcastle and thence some. Up to this time the list of Republicans announced and "on the fence," lines up about as follows: For county Judge 4, Attorney 2, Clerk 3, Sheriff 2, Assessor 7, Jailer 16, Surveyor 2, with many quite a number of "bushels yet to be shaken."

Hice Davis, while on his Texas fishing trip, at Aransas Pass, was painfully bitten by a "sheephead." He killed it. He wouldn't stand to be bitten by a sheep. Sheep-head fish, have teeth resembling those of a human; those of the drum fish are similar except they have a mass of teeth completely covering a flat roof of mouth and jaw, with which they crush shell fish.

There will be conference of the Bible school workers of the Christian Church of Rockcastle County at the Christian church in Mt. Vernon at 2 o'clock P. M. on Sunday, April 22nd. Mr. Fish, the county president has called this meeting for the purpose of securing a closer organization of the Bible school forces. At night there will be a special service at the Christian church, conducted by Brown's Men's Class. This program will be interesting and helpful and it is hoped will be well attended.

Bring your sewing to Mrs. S. B. Ramsey. Satisfaction guaranteed and will sew as cheap as anyone. I live in the telephone exchange building, next to James Maret's.

FOR SALE - Two sets of good buggy harness. Will sell cheap. Also two good watches, one an Elgin watch. Mrs. S. B. RAMSEY.

COUNTRY PRODUCE - I want every thing you have to sell in the way of country produce, and will pay you the highest market price in cash.

W. R. McCLURE.

The nine-year-old son of Jack Barnett, of Wildie, dropped dead in the corn field yesterday. Two years ago, on April 10th, the little fellow had a stroke which came near proving fatal. One year ago on April 11th, he had the second attack, and on yesterday, the 12th, the third attack which ended the young life.

TO THE REPUBLICANS OF ROCKCASTLE COUNTY: After carefully considering the matter and by the solicitation of my friends I have decided to make the race for Sheriff of this county with D. G. Clark. I want to thank each of you for the interest already shown me and I trust you will continue to give us your support in this race.

Your friend, MOSES MCNEW.

No Eggs, Milk or Butter

The following recipe shows how an appetizing, wholesome cake can be made without expensive ingredients.

In many other recipes the number of eggs may be reduced one-half or more by using an additional quantity of ROYAL Baking Powder, about a teaspoon, in place of each egg omitted.

EGGLESS, MILKLESS, BUTTERLESS CAKE

1 cup brown sugar, 1 cup water, 1 cup seeded raisins, 1/2 pound citron, 1/2 cup shortening, 1 teaspoon nutting, 1 teaspoon cinnamon, 1/2 teaspoon salt, 2 cups flour, 2 teaspoons Royal Baking Powder.

The old method (fruit cake) called for 2 eggs

DIRECTIONS - Put the first eight ingredients into saucepan and boil three minutes. Add water, salt and nutting. Bake in moderate oven 1 hour on round tin with hole in center. Bake in shallow tin with holes in bottom.

Do not use butter, milk, eggs and other expensive ingredients, unless free. Address Royal Baking Powder Co., 137 William Street, New York.

ROYAL BAKING POWDER

Made from Cream of Tartar, derived from grapes. Adds more but beautiful qualities to the food.

No Alum No Phosphate

LATIN AMERICANS MAY ENTER WAR

GUATEMALA CONSIDERING BREAK—ACTION WOULD ERASE LONG-STANDING DIFFERENCES.

Mexico's Moves Are Being Watched By Officials at Washington, Who Believe Worst That Can Be Expected is Declaration of Neutrality.

Western Newspaper Union News Service. Washington.—Early entrance of several of the South and Central American nations into the war against Germany is regarded here as practically certain. Brazil, aroused by the sinking of her steamship Parana, is expected to become a belligerent, and it is assumed that her lead will be followed promptly by other countries. Reports of divided opinion in Argentina have given officials here little encouragement to look for aggressive action by that country. Active support of the United States by at least two of the five Central American republics, and possibly by four, would not be surprising.

Official and unofficial reports that Estrada Cabrera, President of Guatemala, is contemplating seriously a break with Germany have been received. So long as the United States' undoubted unusual interest is attached to the position the Central American governments, particularly that of Guatemala, controlling the southern frontier of Mexico. In the event of the development of a similar situation in Mexico, it is realized that Guatemala's role would be far from important. In Guatemala Estrada Cabrera has built up a strong position, generally as the most efficient army in Central America, and with it he would be in a position to render his assistance to the United States. Antipathy between the Guatemalans and the Mexicans there has existed for years.

President Sends Reply. Washington.—In response to President Polk's congratulations upon the entrance of the United States into the war, President Wilson sent this message: "In this trying hour, when the destinies of civilized mankind are in the balance, it has been a source of gratification and joy to me to receive your congratulations upon the step which my country has just taken."

Washington.—Measures to make ready for actual hostilities with Germany went forward swiftly at the War Navy Department, and President Wilson issued a statement urging the prompt enactment of the General Staff's army plans to be taken up by the House Military Committee. Complete mobilization of the navy was ordered by Secretary Daniels immediately after the cabinet meeting. The naval militia and naval reserves, totaling nearly 15,000 men, will join the regular navy as they are called. Every preliminary arrangement had been made. Mobilization means the immediate organization of the coast patrol service and the taking over of the swift, privately owned motor craft already enrolled. Volunteer crews for these boats will be called out also.

Cuban Gunboats to Fire on Ships. New York.—Cuban gunboats, which have established a patrol of the Cuban coast and contiguous waters, have been given orders to fire on sight at any craft suspected of aiding German raiders or seeking to find bases for German submarines in the Caribbean, according to a message received here by the representative of the Cuban News Bureau. The powerful radio station at Havana and the Cuban telephone and telegraph lines in Cuba have been mobilized to protect the interests of the island against any hostilities by German undersea craft or raiders. It was said.

Colliers Courses to Raise Foodstuffs. New York.—Colliers throughout the country will be mobilized to supply foodstuffs on all unused portions of their links and devote the proceeds to the purchase of ambulance trucks and other articles of national defenses. It was announced here by officers of the Dunwoody Country Club. Two hundred members of that organization volunteered to work 40 hours each this season, and it was said H. W. Perrin, President of the United States Golf Association, had pledged the cooperation of the national body in the movement.

Officers Army of Negroes. Charleston, S. C.—Thomas E. Miller, former President of the State Negro College, has addressed a letter to President Wilson and Governor Manning, offering to organize a unit of colored infantry negroes for active service in the army and navy.

Secure 30,000 Coptles. Pekin.—The British and French Governments have just contracted for 30,000 coptles to be supplied on beltless trousers carrying troops and supplies through the barred zone of France.

To Double Postage Rate. Washington.—A bill which will be introduced by influences that are said to be strong enough to secure the passage of the bill, is proposed to double the existing rate, so as to enable an ordinary letter a four-cent stamp would be required and a postal card would cost two cents. The present postage rates are about \$50,000,000 a year. To double this rate would hardly double the credits, it is believed.

WASHINGTON POLICE DISPERSE PACIFISTS

The pacifist demonstration, planned for the capitol steps at the assembling of congress, was a fiasco. As soon as a considerable crowd gathered the police scattered them. This picture was taken from the east front of the capitol.

SUBMARINES OFF MEXICO

Friendly Neutral Nation Gave the Information—Mexican Share the Basis.

Washington.—Persistent but hitherto unconfirmed reports of German submarines waiting in the Gulf of Mexico for the opening of hostilities of the United States were further supported by advices to the Government from Europe. The full nature of the Government's information is not disclosed, but it was received from one of the neutrals contiguous to Germany which has served as a clearing house for German information since the severance of diplomatic relations. It was reported at the source of origin of the Government's information that more than a score of German submarines were already in Mexican waters, and that some of them have been there since early in February.

MOBILIZATION OF NAVY

Reservists and Naval Militia Are To Join Coasters at Coast Patrol Service Operation.

Washington.—Measures to make ready for actual hostilities with Germany went forward swiftly at the War Navy Department, and President Wilson issued a statement urging the prompt enactment of the General Staff's army plans to be taken up by the House Military Committee. Complete mobilization of the navy was ordered by Secretary Daniels immediately after the cabinet meeting. The naval militia and naval reserves, totaling nearly 15,000 men, will join the regular navy as they are called. Every preliminary arrangement had been made. Mobilization means the immediate organization of the coast patrol service and the taking over of the swift, privately owned motor craft already enrolled. Volunteer crews for these boats will be called out also.

PLANTS TO BE TAKEN OVER

By U. S. Government If Exorbitant Prices Are Charged By Operators.

Washington.—The Government is, for the first time, its trustees to strike a deal with an exorbitant war profit. Under authority of the last naval appropriation bill, the Government is authorized to apply a large order of war supplies at a price fixed by the Government rather than the price which the manufacturer, nor the agency through which the order was given.

MEXICANS NEARING BORDER

Washington Keeping Eye on Movements of De Facto Troops—Cuba on Defense, He Says.

El Paso, Texas.—De facto troops in the state of Nueño Leon, Coahuila and Chihuahua have been a general movement toward the American border, according to highly reliable information received. The movement in these three border states has been officially reported to Washington, and is being watched closely. In Chihuahua a movement is being made in a northerly direction by the American army's troops, the reason given by Carranza officials being that it is an offensive campaign against Villa.

Russian Embassy Attache Shot

Baltimore, Md.—Michael Borzakovskiy, commercial attache of the Russian Embassy in Washington, was shot yesterday by Petrosog with a document from the Embassy from the Russian Minister of Finance, was shot when he was in the Baltimore Country Club. He is now in a hospital here. E. Griswold, a prominent physician, attended to the wound. He was found unconscious on the floor of the club and he died before he was taken to a hospital.

TO LEARN ALLIES' SECRETS

Secrets of Submarine Catching Expected to Come Into Possession of American Navy.

Washington.—All the closely guarded secrets of submarine catching developed by the Entente allies are expected to come into possession of the American navy since the United States is ready to enter the war. In a general way it is known that by means of nets, airplanes, trawlers and swift submarine chasers the British navy has succeeded in many German submarines. The estimates in some cases have been placed as high as 300. During the first month of the campaign of submarines, it was reported reliably here that the Entente chasers took 200 submarines in their bag. As the capacity of German navy yards since a standard of construction has been developed is said to be two submarines a week, the suppression of the campaign would seem to depend only on development of efficiency in submarine catching.

SPIES IN FEDERAL OFFICES

Will Cause Department of Justice To Make Sweeping Search for German Activities at Capital.

Washington.—The significance of President Wilson's warning of German spies "even in our offices of government" has become apparent when it was learned that the United States still of the German Secret Service have been discovered within some of the most closely guarded precincts of the executive departments. Although officials do not believe that secret has been gained by foreign agents to any information of great importance, they are said to be convinced that the German Secret Service, with its highly confidential diplomatic facilities, has been free from investigation. No evidence on which prosecutions can be based has been revealed. It is said, but enough has been revealed to prompt a sweeping official investigation.

AUSTRIA IS READY TO BREAK

Passports Handed U. S. Embassy Official, While It Is Expected Bulgaria and Turkey Will Break.

London.—Passports have been placed at the disposal of the American Embassy in Vienna, according to a dispatch from the Austrian Company from the Hague, quoting telegrams received there from the Austrian capital. The dispatch says that Bulgaria and Turkey also have decided to break off relations with the United States, and that Holland probably will look after Austrian interests in Washington and American interests in Vienna.

Airmen Strike Storm

Tuscon, Ariz.—Lieut. E. W. Coll and Ensign R. G. Pomeroy, students at the naval aeronautic training station at Pensacola, Fla., who left Pensacola in a dirigible balloon, were forced to descend in a severe wind and rainstorm near North Port, Ala., across the Warrior river, from Tuscon. The balloon attained an altitude of 4,000 feet.

Old Glory at French Front

Paris.—The placing of the Lafayette Flying Corps under the American flag, in Washington—Senator Smith, Republican of Michigan, in declaring the support of Michigan's citizens of the President in the conduct of the war, reminded the Senate that it should not be a partisan war, and that the President would find many able men for his cabinet or for other purposes in the Republican ranks. The President, Senator Smith said, could call upon Senator Lodge, who is the President in any cabinet in the world, or Senator Knox. He suggested, also, former President William H. Taft.

Mine Sweeper Is Blown Up

London.—The British Admiralty announces that a mine-sweeping vessel of an old type struck a mine and sank. The announcement adds that 24 men of the crew of the vessel are missing.

Taft and Knox Mentioned

Washington.—Senator Smith, Republican of Michigan, in declaring the support of Michigan's citizens of the President in the conduct of the war, reminded the Senate that it should not be a partisan war, and that the President would find many able men for his cabinet or for other purposes in the Republican ranks. The President, Senator Smith said, could call upon Senator Lodge, who is the President in any cabinet in the world, or Senator Knox. He suggested, also, former President William H. Taft.

RESOURCES GREATEST EVER

Never Have Been Equaled in History of World—Powerful Navy Ready To Go Against Foo.

Washington.—Actual and potential resources, which, all told, probably never have been equaled by any other nation in the history of the world, are brought into the great war under the American flag. Into the balance against Germany are thrown a navy in strength and efficiency among the foremost of all, an army comparatively small, but highly efficient, backed by citizens of upward of 100,000,000 capable of military duty, industrial resources incomparably the greatest in the world, already mobilized for public service, and the moral force of more than 100,000,000 Americans awakened to their country's peril and united behind the President and his patriotic fervor reincarnating the spirit of '76. Although much remains to be done, officials believe the nation's resources are secure now, no matter how stubborn or prolonged may be the pressure of German militarism or how wide the scope of German intervention. The slowly maturing preparedness sentiment has borne fruit in military, naval and industrial preparations which the United States have put the United States on a defense basis not even hoped for two years ago. The military and naval preparedness can be measured only by what the Administration finds will be necessary.

ATTACKED WITHOUT WARNING

Unarmed American Vessel, Missourian, Sent to Bottom, But the Crew Is Saved.

Washington.—Sinking without warning of the unarmed American steamer Missourian, which left Genoa April 4 with 32 Americans among her crew of 35, was reported to the state department by Consul General Wilbur at Genoa. The crew was saved.

Wireless Stations Seized

Authority Is Given Navy Department By President—Government May Operate Plants.

Washington.—Seizure of all radio stations in the United States and its possessions, operation of those needed for naval communication and closing of others, was authorized by President Wilson. Enforcement of the order was delegated to Secretary Daniels, and preliminary steps toward carrying it out already are in progress. It is understood that all plants for which no place can be found in the navy's wireless system, including amateur apparatus, which close search has been made, are to be put out of commission.

New York Bank Guarded

New York.—As a precautionary measure in view of the general preparedness plans of the police department, policemen have been detailed to guard the important banks of New York City.

Six Month's Sentence

New York.—Henry Tager, a Maywood, N. J. real estate dealer, was sentenced to six months in the workhouse here for having attacked President Wilson in a public speech.

Germany Aids Oregon in Revolt

Portland, Ore.—The Oregonian reports that Oregon in revolt has received President Carranza's imprimatur in the palace at Mexico City, and that fighting now is in progress between the Government forces and the revolutionists. General Obregon is said to have been backed by German financiers, who also sent \$500,000 to the border recently to pay troops in the state of Chihuahua. Obregon is expected to join forces with the German 'H' Mexico in attacking the United States.

FARM LABOR IN DEMAND IN WESTERN CANADA

Extraordinary Inducements Being Offered.

Previous articles have dealt with the necessity of producing extra quantities of food for the world during this stress of high consumption and paucity of production. Instead of the country producing it is growing worse, and unless drastic and immediate action is taken, prices will continue to climb high. It is hoped by the Canadian government that by offering extraordinary inducements to secure a home-stead of 100 acres of excellent land in the home-stead area of Western Canada, with the combined effort of the farmer in extraordinary preparation of his land and the best of the best of Western Canada, with the assistance of a Divine Providence, may produce a greater volume of million acres of wheat than in the past. The farm laborer can now secure a home-stead on easier conditions than ever before. All the time that he works for a Western Canadian farmer during 1917, after he makes his entry into the home-stead, he can secure a home-stead for that year, leaving him but two additional years' residence before getting title to a piece of ground that will be worth \$1,000. The response to this offer has been wonderful, and hundreds have already taken advantage of it.

The climate of Western Canada is one that breeds energy, lends life and buoyancy, and with the soil that the country offers, no greater success could be desired. The country is past the pioneering stage, its ability to grow the great crops of the country and other portion of the continent has been proven so often that it seems a waste of time to speak of it. The high life eventually offered the country in the splendid class of live stock that it raises, has placed it in the high rank of the best states of the Union. And then social conditions, something that every housewife asks about, are so secure that no one could be wished for. Thousands of miles of telephone lines connect the remotest hamlet with the great cities of the country and the continent, miles of excellent graded roads, as well as the perfect natural roads of the prairie, make driving and traveling as easy as walking. The country is well supplied with railroads, and the farmer near to Atlantic or Pacific coast can have his produce, and mail delivery brings the settler still closer to the homes abroad. Rural schools and public schools everywhere are as easy adjuncts to the colleges and universities, which are said to be as good as free to the settler.

Taxation is light and the opportunity on the farm land, cattle, implements, etc., on the farm being exempt. Many other inducements are offered, sufficient from one crop of wheat to pay for their entire farm holdings, have in the hands of the farmer electric light and heating plants, have their automobiles and many luxuries they would not have had had they remained in the old world. Life is comfortable and is enjoyable in Western Canada. In no country is there a greater peace of mind for the farmer, and in no part of the continent is farming easier or more profitable.

The farmer will produce 30 bushels of wheat to the acre, while there are many cases where the yield was higher, as high as 50 bushels. With this means to the farm laborer does not fully appear on the surface. It is a fact that the farmer's income is a home-stead worth at the end of three years about \$1,000, while working for wages he can put in rounded duties, and can still stand around, and find a good location.

Besides the home-stead attraction of Western Canada, there remains the other fact that other lands can be purchased at from \$10 to \$30, while improved lands may be had at higher prices.

The desire to have a piece of land of one's own is a natural instinct in the heart of every properly developed man and woman. In earlier years, on account of the great areas of land available in the United States, it was a great difficulty to be experienced by any settler of that day to secure a piece of land, and the farmer's son, moderate circumstances, or the city man with little capital, to attempt to buy a farm, had to pay for it by becoming a life-long task, and the probability is that he will never do more than meet the interest on the mortgage, and in his desire to secure a farm home, he must look to countries where there still abound fertile lands available at moderate cost, and where those lands are to be purchased on terms that are so desirable for the settler with small capital to become a farm owner as the result of a few years' labor. He will also want land in a country where the restrictions on the people are similar to those to which he has been accustomed; a country with the modern amenities of life, with law, general habits of living, with law, currency, weights and measures, etc., all such things that are so familiar to him, and a country where he can buy land from \$10.00 to \$50.00 an acre, which will

produce as big or bigger crops as those he has been accustomed to from lands at \$100.00 an acre. He wants this land where social conditions will be attractive to himself and his family, and where he can look forward with confidence to a few years' independent, and well started on the road to financial success.

All these conditions can be found in Western Canada, and nowhere else. The provinces of Alberta, Saskatchewan and Manitoba, commonly called "Western Canada," provide the one and only answer to the land-hunger. The land is here. It is the kind of land for which the conditions are as nearly ideal as is possible, and the prices and terms are such that the man of moderate capital has an opportunity not available to him elsewhere.—Advertisement.

With Civilization's Advance. "Strogatz was he did all his court-ing in his automobile."

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now—Also Stops Itching Scalp.

Thick, brittle, colorless and scraggy hair is mute evidence of a neglected scalp. It is the result of dandruff. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life. Eventually it causes the hair to fall out. It causes the scalp to become itchy and the hair roots to shrivel, loosen and die—then the hair falls out fast. A little Danderine tonight—now any time—will surely save your hair.

Get a 25 cent bottle of Kooftown's Danderine right now. It is the best of its kind. The first application your hair will take on that is soft, lustrous and luxuriant which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks you will find your hair actually see a lot of fine, downy hair—new hair—growing all over the scalp. Adv.

A girl imagines she's in love with a man when she doesn't enjoy flirting with other men as much as she thought she would.
