the L. & N. distributes \$148,300 throughout the South for operation of its trains and up-keep of its property.

This daily distribution is made possible through the successful management of a constructive railroad which is an important factor in Southern progressive development and commercial supremacy.

Because the L. & N. realizes that its interest and the interest of the people are mutual, it co-operates in every possible manner for better farms, (the foundation of all prosperity); for better industrial conditions; for better commercial co-operation; for better educational facilities; for more cordial social relations.

Through their share in the L. & N.'s daily distribution of \$148,300 many individuals and enterprises are able to realize their desire for business prosperity and personal happiness.

A considerable portion of the \$7,200.00 paid daily for taxes is devoted to Southern education.

One out of every ten people derives his or her means of livelihood directly or indirectly from the railroad industry. The L. & N. operates in nine Southern states. Therefore the ability of the L. & N. to operate successfully is a matter of vital concern to Southern prosperity.

W. H. KRUEGER

TO THE DEMOCRATIC VOTERS OF ROCKCASTLE COUNTY:
I hereby announce myself as a candidate for the office of County Attorney. If nominated and elected I promise a clean, sober, fair, business like and impartial enforcement of the law. In announcing my candidacy for election, I further promise to uphold the rights of the poor the same as the rich; the low as the high; of those who have no political influence the same as the influential; the country man as town-man; the Republican as the Democrat; and the black as the white.

All religious faiths will be protected alike. To the financial affairs of the county, I will give my particular attention, in order to enable its citizens to derive the greatest possible benefits from the low tax rate. To those who do not know me personally, I wish to say that I came to this County from Lincoln County twenty five years ago, I then being seven years old. Rockcastle County has been my home since childhood, and this is the first time that I have asked of the voters of Rockcastle County for a public office. No political leaders, or supposed political leaders, in Mt. Vernon have either asked or urged me to make this race, but a good many worthy people inspired me to do so. After giving it considerable thought, I have decided to submit my cause to the Democratic voters of Rockcastle County.

For seven years I have been in the practice of law, and, in addition to that I have had twelve years business experience. I feel that I am amply capable of filling the office of County Attorney. Before August 4th I shall endeavor to see each voter, but should I fail, I will appreciate your support.

Yours truly,
W. H. KRUEGER.

E. B. THOMPSON

I am indeed sorry that My opponent, Mr. Gentry, has seen fit to resort to newspaper gossip during this campaign. I had hoped that each and every candidate for the various offices would prove to the public generally that they are not children, but men, big enough to deserve the confidence and support of every voter in the County.

If you remember my announcement was very brief. I was especially careful to avoid harsh terms. But it seems that the word FAILURE, at need thereof, has lain heavily on my Opponent's stomach, and being unable to digest it, in the last issue of the Signal he tried to play the Buzzard.

I don't believe that any intelligent, impartial man who has read my announcement, has or can place such a construction on its meaning as he has. Neither do I believe that his imagination is so vivid and penetrating that he has gleaned therefrom any such meaning or innuendo. But I do believe that he has been told this by someone, whose (Puppet) he is, or else, he has lately awakened from a four years' slumber of Rip Vanwinkle and has dreamed that it would be nice if I would be foolish enough to try to defend his administration. But Edd I refuse to attempt such a colossal task. Besides, your record for the last four years is your own. The child in your own mind is as good as such a ward, slayed by a Bat. You are the one who is making an attempt to

create and then swallow and destroy their own creation. Be careful what you imitate.

I have so far made no charges, neither have I defended the Fiscal Court. I am not running for the position of "FISCAL COURT". But granting that the charges which you have preferred, are all true. What have you been doing? What has the people been paying you for? I thought it was your duty as the paid Attorney of the people to look after their interests. It seems to me that it is bad grace for you to have thrived during your four years act of idle day to notify the people, and at the same time shouting and trying to maintain your own innocent. If your statements are true; you are either guilty of criminal negligence, putrid laziness or profound ignorance.

As for my record at Bluff, I doubt if it smells as strong of "Booze" as some of the "Blind-tigers and Boozie vendors" in this County, who seems to have thrived during your four years act of vigorous prosecution? And "Strict but fair enforcement of the law".

As to my being eligible I ask the voters not to become confused at the wailing of a cry baby or the noise of a Political Crowd. The party is not in danger. The Ship of State is not sinking nor even leaking. Ed has just fallen over board, that's all, and is floundering in the water, screaming and trying to excite the voters to throw out a life line and save him on August 4th. He says that I am hazarding the party. Gee! Such a manifestation of Party loyalty, interest and devotion. It is almost Spiritual in its delicacy and beauty.

He suggested that the voters compare our "Private Careers". I can save you that trouble, I find possible, myself some embarrassment, in the comparison, by just admitting to play quite an important as he. For if his high station in private life in the least compares with the high manner in which he carries his head, I can assure you that I will not measure up to his knees. I should think it will be a little trying for one living and enjoying such an exalted state of official and private success to climb off his "perch" for two long, hot summer months before the election, to mix and mingle with the common herd and low successions, and, possibly condescend to engage in a few sweet words, low crooked courtesies and base spangled fawning with some voter. I certainly congratulate you, Ed, on such a nerve. But again, such reckless conduct on your part, will be fraught with great danger. Your successful Official and Private careers naturally had a tendency to make you cold mannered—even almost frigid. I fear that when suddenly you warm up to the voters, the sudden change of temperature may give you "Fever". Be careful Eddie Dear.

I could say lots of things concerning his record, or (lack of record), but you know the County does not furnish me with two Offices to write on, besides, I am busy trying to see the voters and to improve my "Private Career".

I am sorry that Ed has seen fit to start this newspaper "Stuff". I had rather not indulge. I am not willing to play tricks on the childish. I want to make a clean fight, such as all Republicans should make against each other, notwithstanding the fact that I am in possession of a super-abundant supply of ammunition, accumulated during the last four years and touching certain events in a not very remote nor forgotten past. They will make, not nice, but very interesting reading. So Ed, suit your self "Old Top" I would not restrain your sanguine ardor nor disarrange a hair on the well kept oracle which covers your classic brow.

So "Lay on McDan" (Bray) on Ed.
Yours very kindly,
E. B. THOMPSON.

WINCHESTER

By "J. M."

The oil fields of Estill county have certainly lived up things in Winchester. In 1916 there were probably 150 vacant houses bearing the signs "for rent". There are none today and numerous new buildings are being erected. Men interested in oil have located their families here on account of good schools and many other conveniences and use the railroads between here and Estill in looking after their business in the oil fields.

Upon inquiring it is found that among various patented power hemp breaks, only a partial success has been reached. They do the "breaking" all right but tangle up and cut the fiber in many instances. Inventors are still at work upon the problem. A big crop has been sown this year. The good prices secured for last years crop induced many to plant this season and it is believed a big crop will not lessen the price. A big raiser told the writer that there is good money in hemp at ten dollars, whereas prices have been rising as high as \$12.50 per hundred pounds. Some relief for the raiser.

Many inquiries are made about C. C. Davis and family by folks here, who regret their having removed from Winchester back to Mt. Vernon and yet hope for their return to the capital of Clark.

More acreage is now held in Kentucky petroleum operations than in any other State in the United States. Most of the leasing has been done by the largest companies in the industry, which means that the state will be given a thorough testing. Many of the large developing concerns are now beginning to go into the oil business. The Empire Oil and Gas Co., at this time having a staff of 15 geologists at work in Kentucky. Geologists command a salary of \$25 per day.

While Clark county hasn't so many candidates as Rockcastle, it is just as busy and a little "on rise". The bathing season will open at Boone Beach, Booneboro, as soon as winter breaks. This resort is going to prove one of the most popular places to be found anywhere in our commonwealth. "Uncle Billy" of Winchester is making big efforts to secure the appointment as bathing costume censor.

The eleven store rooms on Main street that were vacant last year are all occupied now, a number of them by oil supply companies. The county force is at work completing that portion of Park pike that was unfinished last fall. Boone Way is routed over this road.

The men's class of the various Sunday schools are arranging for a union picnic and outing down on the river. It is an annual affair.

They are all "boys" on that day, and any member failing to kick up his heels and make a noise is looked upon with suspicion. The writer had the pleasure of meeting Miss Bessie Taul Cerkright, a writer of some note, and who is state agent for Catrell's history, which came from the press March 1916. Many of the "boys" are going over to the river to be the first professor to teach Kenyon, Ohio course. The Empire

ed in lack of respect for parents, for the aged, for the officers of the law and for the law itself. It has also been a uniform observation that these conditions become aggravated whenever and wherever intoxicating liquor is habitually used. It is with these facts we are about to undertake the creation of a large army of the young people, and to prepare its for participation in the most gigantic struggle in the history of wars.

When the army was reorganized in 1901 following the war with Spain, there was introduced in the Act, prohibitory legislation regarding the sale of wine and beer upon military reservations. There was much recent legislation on the part of the army, for while it introduced prohibition on reservations it encouraged disorderly line saloons in surround territory. The aggravation was grave in states like Kansas where prohibition was a stain and a public danger, the laws being ignored in the most open and flagrant manner.

In the course of time the abolition of the sale of beer and wines-alcoholic liquors were previously barred-on military reservations, and many regulations banished intoxicating drinks from war vessels. Modern battleships, destroyers and submarines had become too complicated to be entrusted in any part to minds bedazzled with drink. Efficiency and safety of operation demanded the exclusion of liquor from war vessels and it is certain that if the restoration of the wine mess for the period of the war were put to a vote of naval officers it would be overwhelmily defeated.

Observing the operations of the so-called anti-traffic law which stopped the sale of wine and beer at post exchanges or can tents, it was found that for a time the offenses involving drunkenness increased at army posts located in territory where saloons were permitted to exist. This was credited to the fact that men went to considerable distance from barracks for liquor, and not expecting to repeat the trip soon indulged in too much for their own good. The saloons, in the former years, established through a number of years seemed to establish that more times fifty per cent of the cases of desertion and absence without leave were due to drunkenness.

While the current returns of the internal revenue bureau of the treasury make it appear that the income from the manufacture of beer and liquors has steadily increased, there can be no question that the temperance and total abstinence campaigns of the past few years have effected a marked change in American life. It is no longer fashionable to serve wines and liquors in the lavish way which obtained in former years. That temperance has won a lasting victory is attested by the large territory in territory covered by prohibition laws and in the drastic regulations governing the employment of men in dangerous occupations, where individuals may be and often are responsible for the lives of others. If this applies in the operations of railroads and great industrial establishments, how much more should it apply in the cases of the officers and men called to the colors to uphold the honor of the nation and to defend its material interests.

Of course it is absurd to inaugurate complete prohibition until, as a nation, we are prepared to abandon taxation of manufactured intoxicants. After many years' observation of the efforts of drink upon our soldiers, the unhesitating opinion of the writer that the proceeds of governmental taxation of stills and breweries is to say the least, no compensation for the mispent lives and untold horrors of those who are addicted to drink. If it requires war time prohibitions to insure an absolute ly sober and dependable army, we should have it, and the sooner the better.
