Spence Speaks to the Farmer

MORE PORK.

Sows must be bred at this time in large numbers in order to insure adequate meat supply. To win the war we need meat. To get an increased meat supply quickly hog breeding must be increased materially over all the country, and in certain States an increase of from 25 to 50 per cent in the number of hogs is recommended by the United States Department of Agriculture. The situation is of great importance that we must have plenty of meat for our army and the army of the Allies, and sufficient meat for our civilian population and the civilian population of the allies at home. To have this meat breeding animals must reproduce themselves so the offspring will be available for slaughter in the near future. Hogs can be increased quicker than any other kind of livestock, therefore a larger number of sows must be produced in recent years.

HOG CHOLERA

Hog cholera is a dreaded disease and is now raging in Rockcastle County. There are efforts being made by the County Agent and the Extension forces to eradicate this disease and there must be a concerted effort made by the farmers in the hog cholera section, or else hogs will continue to die. All dead hogs should be buried or burned. When buried the body should be covered with lime and covered four feet with dirt. Neighbors should be notified of sick hogs in the community. Well hogs should be vaccinated and separated from the sick ones. Sows to be kept for breeding purposes should be given a double treatment making them immune from cholera.

There has been enough hogs lost in Wildlife and vicinity to pay for the vaccination of every hog in Rockcastle County, and then have some money left for the war. Y. M. C. A. work. Dr. Crider of the State Extension Department and County Agent Spence spent Monday and Tuesday of last week at Wildlife, vaccinating and laying plans for

Last Notice TO TAXPAYERS Of Rockcastle County

Your taxes are long past due and I must wind up the Sheriff's business by the first of the year, As I am compelled to collect all taxes by the first of the year, as you know that I am a poor man and not able to pay them for you. It is much easier for you to raise \$4.00 or \$5.00 than it is for me to raise seven or eight thousand dollars, as you know that I am under bond for all taxes and must collect same as you know that I have been very lenient with you and haven't pushed you. But the time is at hand when I have to collect these taxes so please be governed accordingly and if your neglect causes me to have to levy on your property then don't blame me, as it is as much your business to call and settle your tax as it is mine to collect, so please arrange and settle with me.

If you haven't paid your tax you know it and if you have you know it.

LIVINGSTON

Dr. M. Pennington, Judge L. W. Bethuram and Edgar S. Allbright, were here between trains Wednesday. — We are having one of the coldest spells that we have had for years, and when one meets the cold wind that has been blowing for a few days, it makes him think of the song that starts off like this: "From Greenland's icy mountains," and then the next verse we want to sing starts like this: "In the Good Old Summer Time." Bill Nicely says we democrats arrange the prices on coal, regulate the prices on food, and he wants us to get hold of the weather man and have a change made in the weather. — J. A. Oliver, the Winchester salesman was with our merchants Tuesday. — C. C. Davis, of Mt. Vernon, was here between trains Monday. — Mrs. Ab Wolf, who has been quite sick is slowly improving. — Mrs. Cleo Griffin is visiting relatives in Cincinnati this week. — W. A. Owens, the sweet singer of the Quail section, was here to see his brother-in-law, J. H. Walton, who is very low. — J. P. E. Drummond, who stepped off No. 32, the fast Cincinnati train last Thursday and had the misfortune to break his leg, was taken to London to the hospital and is getting along nicely. — A Mr. Poff has moved into the house on Maple street, vacated by D. B. Rambo. — A. W. Bourne, who has been first trick operator at Sinks for quite a while, has taken a position at Paris, Ky., and moved his family there. — Mrs. W. T. Amyx is visit-

ing her daughter, Mrs. Earl Rice in Louisville this week. — Mrs. John O. Hanson, who has been living on Gauley branch until the death of her husband, John O. Hanson, has moved to her son's, G. W. Murphy, and will make her home with him. — Earl Rice, of Louisville, was in to see his parents Mr. and Mrs. C. E. Rice. — C. E. Rice will, in the near future, move into the River Mansion Hotel and will try his luck at the hotel business. — Jerry Jewell, who was killed by the slate falling on him in a mine out in Bell county, was brought here for burial. — Levi Oliver has moved his family to Gauley branch, and John Ball has moved into the house vacated by Oliver. — D. B. Rambo, who has been quite sick for some time, is able to be at his post again repairing cars. — Thomas Farley informed us that he had a 25-lb. turkey for Christmas dinner and everybody was cordially invited that had fifty cents and wanted to invest for a Christmas dinner. — Miss Ella Bell Newland, of Brodhead, was here between trains Monday, en route home from Richmond. — Our friend at Brodhead says we will try to claim poverty as our defense for the good little town of Livingston not donating more freely to the Y.M.C.A. My friend, we will say there you are wrong again. While Livingston is considered a railroad town and while wages run from \$1.33 to \$1.00 per day, about one-half the citizens work for the company and since the cost of living "has went" upward in leaps and bounds, it takes all some can

manage to keep even and there are others that have money in the banks, and there are some that live on Gauley branch until the we do not wish to be placed on the delinquent list. We made a mistake in our last letter concerning the Liberty bonds purchased. We should have said that they had purchased \$25,000 worth of bonds instead of \$2,500, which we said. Now we don't think that our algebraic education caused us to make this mistake, perhaps it was your first part, Ray's arithmetic that we were using that caused this. Yes, we mentioned what you said about the nose, but the reason we did this is, you being so patriotic, we thought you would be sympathetic. Livingston has always done her part in helping the needy, giving to the unfortunate. As far as anyone being disloyal to the U. S. we do not believe we have one in our town. So, my friend, just because we did not come up to what you think we should, do not class us as German, or a German sympathizer, for when Uncle Sam wants us or can use us to an advantage, we are ready to answer the summons, as we believe this is just patriotic as all the gold of Ophus or the silver of Peru. Our friend seems to dwell on our clerical lights, but Livingston is not one jot or tittle ahead of Brodhead for they could have gas lights, if so much was not used through the Signal.

Children C. FOR FLETCHER CASTOE

"Judge J. M. Robison Opens Campaign for Congress In Clinton County to a Crowd-ed House.

ALBANY, KY., Dec. 6, 1917. Last Monday was the first day of the December term of the Clinton Circuit Court. At 9 o'clock Judge Bethuram called Court to order, then instructed the grand jury, but adjourned court at 10 o'clock in order to give Judge Robison an opportunity to address the citizens of Clinton County. Judge Smith, our County Attorney, presided, and after urging upon the audience the importance of selecting a strong, vigorous man to represent us in Congress at this time, introduced Judge J. M. Robison, of Barbourville. Mr. Robison made one of the most brilliant as well as one of the ablest speeches ever heard in the Clinton Courthouse. The large audience gave him rapt attention for nearly two hours. He is able, logical and brilliant, and Mr. Powers certainly has a strong fellow after him this time. His speech was well received and roundly applauded. He made scores of friends in Clinton County by his speech. If he keeps this up, this end of the district will get up and shake itself, and Robison will be in the fight down here. —New Era, Albany, Clinton county, Ky.

BRODHEAD

Willie Vance, of the 10th Field Artillery, Douglas, Ariz., was with his sister, Miss Dorra Vance last week. He is expecting to be called to France any hour. He spent several hours at the Graded school telling of his experience as a soldier. — Carr Singleton, a good farmer living near town, found a ear of corn a few days ago with all the colors of the American flag, red, white and blue. This ear of corn is on exhibition at John Robins store. — D. B. and Chas. Choaden bought a farm from Morgan Helton last week for \$2000.00. This farm brought \$900.00 about two years ago. — Frith Bros sold fifty acres of land adjoining W. J. McQueen's farm to John Shilvert Thursday for \$2,000.00. — John Boardman bought a tract of land to Babe Signer last week for \$600.00. — W. J. Sower was in London last week a member of the Federal Grand jury, and from there he visited his daughter, Mrs. W. A. Robins, at Corbin. — Mrs. Byron Owens, of Louisville, is with homefolks this week and will remain here until after the holidays. — Mr. and Mrs. A. M. Hiatt were in Louisville the first of the week. Mr. Hiatt returned Wednesday, but Mrs. Hiatt will visit relatives there two weeks before returning. — Well honestly that Livingston friend of ours had us scared, and had scared too. He boasted about the vivid lightning about his fire darts toward the earth and would strike near Brodhead and etc, but we found there was more feathers than owl that time, and are reminded of the burly policeman arresting our friend some time ago, when Owens said "go away, you can't arrest my attention," and his long prepared reply actually didn't arrest our attention, the way we mention a few things, or rather reply to some of his queries. In the first place he says Livingston has given some of her boys to Uncle Sam, and asks if Brodhead can say more. No we can't say more but we can sure say as much. A number of boys are in training and among them two Captains and other officers too. He admits that seventy-three dollars was all the Y. M. C. A. got there, and really I thought they had given more. Then he says "we gave \$2,500.00 in the purchasing Liberty bonds, and I want to know if Brodhead did so well. Possibly not, but we had one man here purchased \$10,000.00 worth of the same bonds, and besides a number of others bought bonds too. He said we paid \$3000.00 toward the Dixie fund, and you didn't. Well we had no occasion too, being seven miles from the nearest post, and besides they had to give in order to provide a way to get out. It was either provide a road or an elevator and we feel that those the better way, that is the lending might be better. Then he finished up by either calling an

"high colored class or the kid glove Johnnie". If we belong to the colored race we didn't know it and know nothing of the kid glove Johnnie race.

The Council of National Defense

The Federal Government has called on Kentucky, in no uncertain terms, for 25 per cent. increase in the pork production. Rockcastle County can easily add her 25 per cent. and by so doing have thousands of dollars more next fall than we have this. But more pork will mean we must have more corn. These cold days are a good time to plan how to increase our corn acreage, engage fertilizer and resolve to make next years crop 25 per cent larger than this year. It can't possibly do any harm. All the extra you can cultivate well will be a cash asset next year. It is desirable to impress everybody with the importance of making the production of this county supply our needs and have a sufficient surplus to pay our war tax. It is well to have in mind that the people of this county are paying more, than \$100.00 per month war tax, and this will be doubled by the income tax. With increased production we can hold our own. If we do not increase our production we will be bankrupt before the war is over. None of us are losing any time in finding a market for our corn this year, so when the snow gets off get busy—not only planning, but go to work every day getting your land ready. You know a crop is half made when planted if the soil is prepared right. Talk farming with your neighbors; get better acquainted with him; like him and he will like you; help him and he will help you. To win the war we must be an united people. Let us unite on this corn and pork raising next year.

CAUTARRHAL DEANNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure cautarrrhal deafness and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by cautarrrh, which is an inflamed condition of the mucous surfaces. — Hall's Catarrh Medicine cuts thru the blood on mucous surfaces of the system.

This Difference

"Well, George," said the president of the company to old George, "how goes it?"

"Fair to middlin', sir," George answered as he continued to curry the old horse. "Be an' this here hoss," George said, "has worked for your firm sixteen years."

"Well, well," said the president, "I suppose you are both pretty well thought of."

"H'm," said George, "the both of us was took sick last week, and they got a doctor for the hoss, but they just jockeyed my pay!"

George oughtn't to complain. The company paid him each day for his work. They fed the horse every day for his work. The horse knew nothing and could do nothing but eat his oats as they were given him. He had no way to prepare for the future.

But it was different with George. He had the advantage of mind—the advantage of laying away each day for sixteen years a little bit to take care of him when he was sick or laid off.

Comments On Rev. F. M. Jones' Attitude Toward the Work of the Y. M. C. A. As Indicated By His Answer To Ed Gregory

We read with deep concern the statement of Ed Gregory with reference to the unparliamentary declarations of Rev. F. M. Jones, of Livingston. We had no desire to comment on it and would not now, except for the fact that Jones answered the charge in the last issue of the Signal.

We do not know this ministerial agent, but his own article thoroughly convinces us that Gregory was right in the main. Jones admits that while the raising of money was going on, he did condemn certain things in the Y. M. C. A. work, but says he, "God's record will show that I did not call them gambling halls or dens." He can prove nothing by that, as no one here has access to that record. He further says, "But I did say that certain games that they run will learn the boys how to gamble." In the first place this statement is untrue. By this false accusation he again shows his opposition to and criticism of the Y. M. C. A. and that at time when nothing but praise should be spoken.

Then after referring to the failure of the good people of Livingston to raise the expected amount, he says, "I did not hinder them. They are doing like me, just as they please." Out of his own mouth he again convinces himself. This language clearly shows that he did not assist in this great and noble work but was, by word and action, then willfully bandicapping and discouraging it. The Y. M. C. A. is the hand maid of the pulpit and had Jones been performing his duty to the government as well as to the church, he would have been earnestly and enthusiastically soliciting and urging contributions to this most worthy cause. Had he done so, Livingston would doubtless have been proud instead of ashamed of the amount given to protect the morals and provide christian homes for our boys in the army. No man or community has a right to do as he or they please just now. Every loyal citizen will give his last penny if he can, his best service, yea, even his life for his country. Rockcastle boys are gladly doing this in going to the front. Any man who is willing to do less is not a loyal Ameri-

can. To day, we have only two classes of citizens in this country, Americans and traitors. A man who had such a conversation at this time as Gregory details and which, in part, Jones confesses, is at the least in sympathy with the plans of our government in waging this war. Shame on him for such disloyalty!

With reference to the slur on the people of Livingston, which is so far as their failure reflected on them, and the ruin of all churches, as well as to what Gregory should have said in a public address, is mere twaddle, intended solely to divert the minds of the people from him and as a most feeble effort on his part to dodge the real and his only question—the loyalty to his own country.

Three cheers for Ed Gregory! He is justly entitled to the praise of every patriotic citizen throughout the world for pointing out the enemy within. If there should be another like Jones in our midst, he should be exposed.

There is no time for traitors, slackers and idlers. Every man must stand by his gun, with his finger on the trigger. The price of peace, which we intend to have, is war. Our slogan is, "Over the top to Berlin!" Blood is in our eyes and determination in our hearts. The war must be won.

In spite of such men as Jones who have boys are on the way to capture the enemies of right, the murderers of innocent women and the assassins of little children. We congratulate the people of dear old Rockcastle for their hearty response every time they have been called on to defend the flag and to protect our country. May her people intensify their farming, increase the production of bread, bacon and encourage the boys in the trenches, pray for a speedy victory and safe return to home for every blessed one of our soldier boys.

RICHARD G. WILLIAMS.

Food Conservation Meeting in Louisville

In spite of the blizzard and the consequent poor transportation facilities, the special meeting of County Chairmen of the Food Conservation Campaign was attended by about thirty chairmen from various counties of the State. The meeting held in the Auditorium of the Seelbach, was addressed by Mr. Sackett, Federal Food Administrator for Kentucky, by Miss Sweeney, State Chairman of Home Economics, and by Dr. Wilbur, President of Leland, Stanford University. Mr. Hoover's first assistant and direct representative. Dr. Wilbur has not only worked with Mr. Hoover, in Washington, but has been abroad to study conditions in the warring countries. His appeal to the people, through the County Chairmen, to conserve food, is by the only means of saving our boys and of winning this terrible war, was most impressive and eloquent.

The follows extracts from his talk may help us all to realize the gravity of the situation:

"If the war should stop now, Germany would realize her dream of Middle Europe, and would have 200,000,000 men from whom to draw soldiers. Russia has failed and Italy weakened because of lack of proper food. No government can stand against empty stomachs. We must either feed our old armies or prepare to send our own boys to replace those who fell. We have already shipped our surplus wheat to them. It is not enough to go around. It is absolutely necessary for the American people to save 130,000,000 bushels of wheat to use as wheat substitutes, or our soldiers will starve and we will lose the war. Hence the request for wasteless days. We have a surplus of corn and other grains that cannot be shipped. We must send bread made of blood later. Which is it to be? It is also necessary to save meat—beef, pork and mutton, sugar and fats, for without fats the soldiers' wounds will not heal.

Our killing machine is only twenty per cent efficient, while that of the enemy is ninety per cent efficient. While our army and navy are being prepared for the struggle, our only way of holding off Germany is by sending food to the allies. If we fail to do this we lose the war—a prospect too terrible to contemplate. We must see that this war goes through for the sake of future generations and to "make the world safe for democracy."

The Food Conservation Campaign recently conducted in the United States and resulting in the signing of the pledge card by 12,000,000 families, is a direct attack upon the submarine. Rockcastle's record in this campaign shows that only twenty-five per cent of the families of the county signed the card.

When the next call is made by the Food Administration, will not every family show its patriotism and loyalty by falling into line and complying willingly with any plan presented by the government for saving the necessary food for our army and for the allied forces.

M. I. BRADLEY,
Chairman Food Conservation.

PASS CHRISTIAN

Pass Christian is the Newport of the Gulf Coast, and one of the most fashionable and popular resorts in the South. The town of about 2,000 permanent population, is very generally engaged in entertaining and serving the large numbers, who come here, summer and winter, for recreation. Society congregates at "The Pass" at all seasons—the summer guests coming from neighboring southern cities—the winter throng from all parts of the North.

Pass Christian was named for a Spanish explorer who discovered the deep-water paps that line along to the main shore. It is an old and most honored settlement, having been a popular resort from far back in antiquity days. Tradition associates it with the greatest of southern society and with men and women famous in high social circles of this and foreign lands; President Wilson is one of Pass Christian's recent notable guests. Its location is one of the choicest on the coast. The low-lying shore slopes upward to wooded hills, where pines and splendid

old oaks, magnolias, palmettos and a variety of tropic vegetation grow and flower and flourish luxuriantly, while fine old homes elegant modern villas and charming bungalows line the avenues and drive along the shore. Life is ever active at The Pass, there is boating, motoring, golf, tennis and fishing by day and dancing and all other indoor festivities for the evening. Christian boasts one of the finest golf courses anywhere in the South.

In its proximity to New Orleans and excellent transportation service over the Louisville & Nashville Railroad places all the diversions of the metropolis within reach of visitors at Pass Christian, who make a day for shopping in New Orleans and returning in time for dinner, which is one of the social functions at the Pass; or, remaining in the city for dinner, you can return at your pleasure later in the evening.

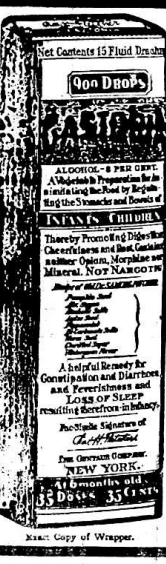

The hotels rank with the finest in the country, and there are many delightful old country homes, where good board and real Southern hospitality are found. The inland country back of Pass Christian is beautiful, and many charming drives may be taken over the excellent roads, among fine, productive fruit and truck farms, which ship much of the early garden stuff that is eagerly sought in northern markets. The fishing in St. Louis Bay and the tributary streams is excellent, many anglers finding their best sport in the little rivers and streams of the immediate interior.

Across the bay from Pass Christian is the somewhat exclusive cottage resort of Bay St. Louis, a place much frequented by residents of New Orleans, who own cottages and bungalows

and come here for the water sports and the fishing. It is also popular in winter with many northern people who prefer the quiet of cottage life, with the accompanying freedom for outdoor sports, to the gayer and more fashionable routine of the larger neighboring resorts.

Pass Christian and Bay St. Louis are reached only by the modern steel passenger trains of the LOUISVILLE & NASHVILLE RAILROAD.

My dear Mr. Baker:— Personally and on behalf of the Kentucky War Work Council, as well as our boys in "khaki," we wish to thank you for your share in the successful campaign to provide funds for the Army Y. M. C. A. Work, which has just closed. Kentucky has won a great victory, and you are due a large share of the glory.

Please also thank for us through the press or otherwise all the persons in your community who have cooperated to bring this glorious victory to our state.

We also suggest that you ask all the interested workers in this campaign to remain as a permanent organization, known as the War Work Council, in your county to help in any future similar campaign. Such calls will need to be made every six or eight months during the war.

Many chairmen have reported "more coming". Please keep after additional gifts until all in your county who should help have had an opportunity to do so. A complete report by counties will be made early in December.

Thanking you again for your co-operation and congratulating you upon the results, we are,

W. B. Sigmon, teacher of the Oak Hill school turned in \$10.45 for the Y. M. C. A. fund. Mr. Sigmon simply called on his district for help and the response came. Every teacher in the county should have tried to do the same thing. Mr. Sigmon is to be commended for his good work.

Edward Clontz, a son of the late Brother Clontz, and a nephew of Johnny Clontz of this place, was killed in a coal mine at Williams Creek, Harlan county last week by coming in contact with a live electric wire. Johnny Clontz and Ben Hasty went Saturday night to attend the funeral at Wallus Creek.

COAL PRICES—The price of coal as fixed by the Fuel Commission is \$3.95 for the people of Mt. Vernon, \$5.00 per ton at Woodhead and \$5.00 at Livingston. Dr. Pennington went to Mrs. Lou Van Winkle and perfected an agreement with her to sell coal to the dealers of that town where they are to furnish mine run coal at \$2.00.

Hon. J. C. Williams, of Carhage, Illinois, died on the 3rd day of this month. He was reached a ripe old age. He was ninety eight years old on the 22nd of August. He was a brother of Mrs. Lou Van Winkle, of Mt. Vernon, and the late J. M. and D. N. Williams, of this place. He was a merchant from his teen twentieth year until a few years ago when old age required him to retire from business. He made a success of this life. He was a man of extraordinary habits—regular in drinking he did. He drank everything in liquor. To this he had regular habits he credited his longevity. He certainly wished to reach the hundredth milestone. He was once elected to the State Senate of Illinois. He had five children, two girls and three boys. They were all college graduates and his son is a successful lawyer. The world is better by reason of his having lived in it. He was a subscriber to this paper since its foundation.

Livingston School Notes.

In this age of bug and unexpected happenings it seems very hard for people to realize that it is the little things that count, that really, back of everything is the home, the church and the school. In the excitement of the times, if we neglect these essentials, we lose even though we are victorious in this great war. Oh, we are not kicking mind you! We are too sleepy to kick, possibly too lazy. Wonder if some people could be aroused on the Firing-Line. Oh, yes, of course, the school is progressing as well as and perhaps better than we expected, but still we are sleepy; too many of us are of the "snoozy" kind with about as much life as a sick kitten and about as much chance for success.

The work of the third month of this term is much better than the first or second which is very encouraging. A small number made splendid grades. Miss Bertina Summers leads those in High School, being the only member on the Honor Roll this month.

Dear Editors:—Owing the awful weather conditions, I did not receive the Signal until this afternoon and then had to go to the post office after it. We have been completely isolated since Friday as far as any travel except walking was concerned until this afternoon, the trucks and cars began to run. There must be at least 150 men in the small Barrack which we are using for a Y. M. C. A. here. It is not a regular building, but the need was so great that the Government is allowing us to use one of the barracks until a building can be erected. A crowd of boys are around the piano playing and singing "Good by Mother" and will be gone for a long, long time; another crowd has the Victrola going; still others are reading, writing, playing checkers and dominoes, so if there are any mistakes in this letter, I will appreciate you correcting them.

Red Cross Notes

If our Red Cross Chapter has not been the success it should have been, it is our fault—no individual but the membership as a whole. Some have done more than others but none of us have given it the earnest attention that is required to make this great organization reflect credit on our county, as well as be of service to our deserving poor.

Mrs. E. S. Albright has been made Corresponding Secretary for this Chapter and will help Mr. Durban in this, the most arduous job in the chapter.

This Chapter has ordered supplies for a First Aid to the Injured class in Mt. Vernon. Dr. Walker Owens will instruct the first class.

We are now organizing a Home Relief Club and will soon be ready to help deserving destitutes in this county.

The Knitting Committee requests all who have finished goods to bring them in, also all scraps of yarn, as several garments are not finished on account of small amounts of yarn. We have \$25.00 worth of yarn somewhere in the hands of the express company. But on account of the rush of express it may not reach us for some time.

This Chapter is planning to give a mealless and wheelless banquet. Help think out how it can be done.

Red Cross Notes

I wrote that article in defense of the Army Y. M. C. A. and one of the biggest Baptists in America. He is the head of the Y. M. C. A. religious work in Camp Taylor. I had a talk with him at the Administration Building this morning and he is one of the most enthusiastic Y. M. C. A. men I have met since I came here. No friends, I am not here for any harm to any one but to serve if possible these boys who are giving all they have to protect the people of this county, Brother Jones as well. In regard to his reference to what I said at Livingston when I went there at the request of some of the people to speak at Baptist. If I am lying about the work of the Army Y. M. C. A. Victor Price, Fred McPerron, Arthur Dodd and John Lair are all lying.

I also want to say to the good people of Livingston and Rockcastle county and especially my Baptist friends that I made no attack on Livingston or the Baptist Church. The Livingston people are my friends and I have tried to be theirs. I am not trying to destroy the Baptist Church. On the other hand, I am working here under Dr. E. Y. Mullins, Pres. of the Southern Baptist Theological Seminary, Louisville, Ky., recognized
