

Children Cry for Fletcher's  
**CASTORIA**

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA**  
Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—the Mother's Friend.

**COUNCIL OF NATIONAL DEFENSE**

THE greatest effort ever made in this country to increase crops will be made to double the acreage of second crop buckwheat; double the crop of rye wheat and treble the crop of rye. The Council of Defense will help remove the obstacle of lack of money to buy seed, fertilizer and pay for labor. We can find the money for you on easy terms. It is the best time to clear up money on these crops, and there are other reasons for bending every energy in the direction of production. The labor question in this county must be solved by more days of longer hours. The community is guaranteed to every farmer who works on Sunday if there exists an emergency on his farm.

It is the duty of every citizen who is a man in the draft age and long his time, to report same to the Local Board, and the Board's duty is to try the case inside of seven days from the time report is made. This is carrying out Provost General Crowder's order "work or fight." Look out, Idler! There is no room for you during war times.

The War Saving Stamp campaign will be the busiest campaign ever put on in this county. A school election can't be compared with it, and the promoters will need telephone lines. We wish to ask those who are accustomed to hold party lines a long time with frivolous talk to desist; use phones only for business and make conversations short as possible to transact your business.

The Council of Defense has been pleading and sounding alarmingly about slackers in the various war activities. We are now telling you a fact, from Government information: If you have not helped in some way and are financially able to help, you will have to explain why, if you fall by War Saving Stamps. Get families with the proposition and avail yourself of the opportunity this month.

Every foot the Boche gets nearer to Paris increases the responsibility of the Nation. It means more men; more men means more food; more food means more money; so we should be wide awake and realize the gravity of the present situation.

**For Weak Women**

In use for over 40 years! Thousands of voluntary letters from women telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

**TAKE THE WOMAN'S TONIC**

You can rely on Cardui. Sure it has done for so many thousands of other women! It should help "I was lame sick, writes Mrs. Mary E. Hayes, Madison Heights, "I got down so fast, could hardly walk, just staggered around."

Get a box of Cardui and other helpful size bottles, or before taking quite all, I had much better. I took 3 or 4 bottles at that time, and was able to do my work. I like it in the spring when I come down. I had no appetite, and I commenced eating. It is the best tonic I ever saw. Try Cardui.

SERG. DODD Writes From Camp Taylor

Dear parents: I received your letter yesterday, was glad to hear from you. I am well and getting along fine. I will try to answer your questions to the very best of my ability. A Sergeant's duties are as follows: He is given four or six squads of men, eight to the squad, and he has one corporal in each squad.

Sam says go somewhere else and do as he says not as you would like to do. Every young man that has become eighteen years of age will wear the uniform and fight for his country if we gain the liberty that we are fighting for.

and get the 'shot'. (The 'shot' is an inoculation to prevent typhoid fever) After mess (breakfast) they get all I have stated in the foregoing.

What one Rookie thought about it: I thought that Mutt was going to tear my arm off when he vaccinated me. It felt like a cross-cut saw biting the bone every lick, and when he gave me the 'shot' it felt like he shoved a bicycle pump into my arm a foot and tried to squirt a quart of that darned stuff into my system.

CHRONIC CONSTIPATION. Perhaps you have never thought of it, but this disagreeable lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely.

BRODHEAD

The statement in these columns last week in the form of a reference to Mr. J. W. Tate with respect to a letter written him from Red Cross headquarters asking him why he had not contributed to the fund after he had done more than his share to do to that, then placing the blame on the local Treasurer for not having reported the contributions from here 'on time' seems mighty plausible on the face of it.

CLEAN PAINT UP AND KEEP IT UP

A "Clean-up" without a "Paint-up" is useless and absurd, not only because houses that are unpainted eyesores appear uglier and more conspicuous after a "clean-up," but because the painted surface inside and outside can be kept clean, sanitary and germ proof.

**THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED**

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. Any physician can prescribe a better medicine for these diseases. By having it in the home you escape much pain and suffering and all risk. Buy it now, it may save life.

**HOLD THE BATTLE LINE IN FRANCE**

**Feed the American Army—Save the Wheat Flour THE PATRIOTIC PLEDGE**

"I have a family of — persons living at my home. I have on hand — pounds of wheat flour. I agree that in my home we will not use more than six pounds of wheat products in thirty days for each person, including four crackers, Victory bread, macaroni, etc., until the next harvest comes in August. I agree to hold at my home all wheat flour which I have on hand over a thirty days' supply for my family on the ration of six pounds per person, and to dispose of such surplus as the United States Food Administration may direct in the interest of National Safety. If my surplus flour granted to the Government, I am to be paid what it cost me.

I make and sign this pledge as an American citizen to aid in the winn of the war.

Name P. O. Address

Cut out the above pledge. Fill in the blanks. Sign your name and address and mail to your County Food Administrator at once.

What! What! What!! This is the great national necessity at this present time. It is needed for the immense armies who are sending abroad to fight the great battle of the world. The need for our wheat flour is so great that the Battle Line in Western France until the Americans can get "on the job" and drive the German Hordes back across the Rhine.

It is wheat flour that is so badly needed for bread stuffs over there. It is wheat flour that the American Government must buy and our American Food Administration is to make that purchase for us by saving the homes. There is no other source of supply until the next harvest. Thus this calls us to our part in this war.

Knowing that all loyal citizens are glad and willing to conform their households to the six pound ration until the new harvest, but knowing also that a reasonable number of those who are disloyal and pro-German and perhaps not aware of being sacrificed the splendid brave youth of the nation who are going for our homes to fight for our freedom, the Government is protecting our loyal citizens against those disloyal men by calling for the saving of our wheat flour. There is on the Statute Book a law against hoarding under which those who hold an excessive amount of flour are being prosecuted by the Department of Justice in the Federal courts. The penalty for committing this crime is a fine not to exceed \$5,000, and imprisonment not to exceed two years or both.

The Food Administration has determined the amount of wheat that is available from now until harvest for the American people. It has determined that a reasonable amount must not exceed six pounds per family per person and has stated that it is unreasonable in this emergency to have on hand more than a thirty days' supply on this ration for our householders.

Any person who has on hand more than this amount is liable to prosecution as a hoarder of flour under the law on orders from the Food Administration. The procedure to be followed in the Federal courts.

Recognizing, however, that many patriotic citizens, following practice formerly considered legitimate and usual, have laid in larger quantities of flour than in this time of National Emergency is considered reasonable and right and that many of these persons acted in so doing for proper motives, the Food Administration has determined that a reasonable number of these patriotic citizens who have thus acted in good faith and in good confidence may be permitted to insure themselves against the possibility and penalties the would result from prosecution.

No person in Kentucky, therefore, who makes and signs with their County Food Administrator a pledge to hold at their home until the next harvest of wheat flour, and holds in excess of four for the Government, will be prosecuted if it is needed, will be prosecuted by the Government for hoarding flour.

The Food Administration will not call for your surplus unless it is necessary, and when it does call, will leave you your thirty days' supply, but it must insure you against the loss of it and it must have your promise to turn it over as a measure of National Safety.

In some Kentucky counties, owing to shortage of supply, it has already been found necessary to direct that excess holdings be marketed, but it is in the interests of the Nation that such action be discontinued.

When this call comes to you to conform to the needs of our soldiers, the bravest boys that our battle for freedom, for the freedom of our country, have undertaken. Do not let anyone say you are a slacker because you have not entered your surplus to the Government in time of need. Every pound of flour now saved in this time of the crisis. Remember also that the influence of the Government is on your side. Make your sacrifice for them, and inscribe your name in this pledge on your County's Roll of Honor!

FRED M. SACKETT, Federal Food Administrator for Kentucky.

**Canada Reduces Wheat Consumption.**

Home consumption of wheat in Canada is now being reduced about 15 per cent as a result of a possible increase in wheat exports.

**Be More Efficient Than The Enemy.**

"The only way to win the war," Progressive Farmer believes, "is for us to be more efficient than the enemy. If you can't make more than the enemy, you can't win. It is the duty of every American farmer to be more efficient than the enemy."

**U. S. Cornmeal Output Doubled.**

A canvass of the whole country by the Food Administration shows that output of millers of corn meal has increased from 2,900,000 barrels in October to nearly 6,000,000 barrels for March. During the past 18 months, the output of corn flour has increased 500 per cent.

**No Sacrifice, Just a Change.**

The program of food conservation in the United States leads Missouri Farmers to say: "We Americans have not yet been asked for any real sacrifice. Our means are plenty and wholesome meats are merely a matter of changing the milk-carter, substituting one food for another. That is a sacrifice. The sacrifice is not in changing the food, but in changing the habits of the nation."

**Military Training Necessary for Safety and Defense.**

"Ray, Uncle Dan," said Billie, "I'm sure that there will be some day in the encyclopedia of world history found that in the war between Germany and France in 1870-71, Germany lost that war with two million men as men, and besides that, she lost every battle. We asked Professor Slocum why this was. He said that the German army was highly trained and ably commanded, while the French soldiers were poorly trained and that their war department was honey-combed with jealousy and politics; that the officers were not much good, and that's why France lost the war and so many men. What do you think about it, Uncle Dan?"

"Well," said Uncle Dan, "Professor Slocum is right. If efficiency France lost that war together with two of her best provinces—Alsace and Lorraine—and had to pay a billion dollars indemnity money. France today learned her lesson by that sad experience, so she put in universal military training and a result, her soldiers now know how to fight and how to protect themselves. They are losing less men to the war than the Germans. France sold her politics out of her war departments, so that expert authority instead of bureaucratic stupidity, directed the army. The result is, France has one of the best and most efficient armies ever assembled, and this shows what thorough training and good leadership means to warfare."

"But Uncle Dan, isn't it true that the body of 10,000 well trained soldiers properly handled could defeat five times as many recruits and do it every time with comparatively small loss to themselves. Proper training will reduce the death and casualty rate one-third of what it otherwise would be, and right here is an unanswerable argument for universal military training."

"Our government has no moral right to force her men into war, nor can she without properly training them. It is to do so to simply murder, because the man who is not properly trained is sent to the front. It will take trained men to do it, and it will take trained men to win any other war that may come upon us in the future. It is our duty as citizens to see that our soldiers fight with us to win and not to lose."

"That's the stuff," said Billie. "Containing, Uncle Dan said: 'Our government has expended about \$500,000,000 on equipment for training stations in order to train the men called by the selective draft. These training stations should be immediately filled with younger men, say those in the future of the war. It is six months of intensive military training along the lines of the Chamberlain Training System. It will make them strong, manly, self-reliant, quick to see and quick to act; it will equip them with a sense of duty. It will rebuild American manhood and will also give the government a body

of trained men to draw from. It is necessary to defend our flag and country. We must settle this question of universal military training immediately, otherwise these training camps may be demolished. The adoption of universal military training will be notice to the world that from then on we will be prepared to defend ourselves promptly and efficiently, and this will do more to keep us out of the war in the future than anything else we could do."

"Do you think, brother," said Mrs. Emerson, "that there will ever be another war?"

"I have no doubt about it," said Uncle Dan. "So long as men are sick, and so long as nations are ambitious to acquire territory, so long as population presses and demands more space, so long as there remains a scramble for world trade—so long wars will be. When the time comes that we reach the high plane for which we hope and dream, when all will recognize the fatherhood of God and the brotherhood of man, then, and then only, will wars cease. When that day comes there will be no wars. Dr. Emerson does well to seek no locks, because he has no treasure to protect, and that day is a long way off."

"The only safe and sane plan is to be able to defend ourselves at all times. Therefore, every citizen should be trained in some form of military training, so that never again shall the country be caught so completely unready as this war found us. Fortunately, in this case, our enemy has been held back, so we have had a few months in which to prepare. This advantage probably will never come again. It is however our salvation today."

"Because she was ready, Switzerland is an island of peace in a sea of war. Safety first is good, but safety always is better. In strength there is safety. You never saw a fire caused by the fall of a building. There is a reason."

**CATARRHAL DEAFNESS CANNOT BE CURED**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. The inflammation is caused by a cold that has become a chronic one, and it can be reduced and thus the tube restored to its normal condition. Chamberlain's Eustachian Tube Medicine is a perfect remedy for this condition. It is a mild, pleasant, and effective treatment that does not hurt the ear.

 May 31-31 JACK HYSINGER

Word reached here Monday that Robert Long, a farmer Rockcastle boy, whose wife was a Miss McKenzie of the Freedom section, died suddenly at his home in Indiana.

Make your plans now to visit your school house promptly on June 23rd and bring along yourself to buy as many War Savings Stamps as you possibly can between that date and Jan. 1st next year. Every stamp you buy kills a German.

This is the third and will be the last week that we will carry the Patriotic pledge found on second page. It may not mean anything to some people, but the fellow who fails to hit out one is going to come pretty near wishing he had before it is all over.

Our Government needs two billion dollars from the sale of War Saving Stamps and has asked Kentucky for two million of these dollars. You can depend on Rockcastle and every other Kentucky county pledging all they can on War Savings Stamps.

For a lame back apply Chamberlain's Liniment twice a day and massage the muscles of the back over the seat of pain thoroughly at each application.

At the Banks in Rockcastle County are selling War Savings Stamps, and by this time next week it is expected that every citizen in this county will be selling them. Up to the first day of April there had been sold in Kentucky the sum of \$1,553,202 in Thrift and War Saving Stamps. Probably a million more of sales were made during April and May. Kentucky is pushing forward and will go over the top June 25th.

The following special from Frankfort says:—"The degree of Master of Arts was conferred on the husband and wife at the same time today. Nat B. Sewell, State Inspector and Examiner, and Mrs. Sewell, his wife, have this distinction, as Berea College today conferred this degree on them. Mrs. Sewell before marriage was head of the Department of English at the Western Normal School at Bowling Green."

The War Department desires photographs, drawings, and descriptions of bridges, buildings, towns and localities now occupied by the German forces in France, Belgium and Luxembourg, and likewise in that part of Germany lying west of the line running north and south thru Hamburg.

At the request of the War Department, Kentucky Council of Defense asks you to secure all possible material of this character. A large quantity of such material is desired, and may be sent without sorting, or without any attempt to add duplication. It will not be practicable to return material to contributors.

It is requested that all such material (magazines, periodicals, etc., containing such matters be left at the shop of S. C. Franklin, Rockcastle County Council of Defense.

Herbert Cross, of the Webb section, was arrested Monday for shooting Green Cross, prominent farmer of that section on the road near Tom Levisay's last Sunday. Green Cross was riding a horse and leading another along a road thru the woods when some opened fire with a shotgun several of the small shots taking effect in his side and back, but not seriously injuring him. Young Cross had his examining trial Tuesday and was held over under a bond of \$50.

A special from Salem, Indiana, says: "Jesse Malone, in the list of missing from the torpedoed British steamer Moldavia, was well known in Washington county. His father, mother, wife and three small children live near Borden."

"Immediately following the declaration of war with Germany, Malone enlisted from Olney, Ill., as an electrician, and was sent to Jefferson Barracks, Mo. He had been in active service for almost a year."

Malone was the man who did the wiring for the Mt. Vernon Power Co., when installed in 1914.

**WANTED.**—Agood gentle and docile horse to feed and pasture for its use. Will be given best of care. Write or see, ROSE McPHERSON CARNE, Pine Hill, Ky.

**STRAVED.**—One bar shoot, weight about 35 lbs, about half the right ear frozen off, and to split in the left. Color black with reddish brown spots. Left my place on the 14th of May. Liberal reward offered for its return or whereabouts.

JOHN J. HYSINGER, Mt. Vernon, Ky.

**FOR SALE OR TRADE.**—A Ford car in good condition for sale or trade for a team.
