WAR TALKS
By UNCLE DAN
Number One

América Must Fight Hard or Germany May Win—Necessity for Military Training.

"Now, Billie," said his mother, "your Uncle Dan is coming tomorrow to spend a week with us on the farm, and if you want to know about the war, here's your opportunity. Uncle Dan is probably one of the best informed men in the country." Billie's father's hands and gave such a whoop that he wakened the baby, but what could you expect of a fifteen-year-old boy who is living interrogation point and wants to know about war?

Uncle Dan arrived in due time and Billie watched for an opportunity. It came the evening after dinner when Uncle Dan had lit a cigar and taken a seat on the porch.

"The mighty girl you came, Uncle Dan. I want to talk to you about the war. We have just put military training in our township high school, but I had a hard time to do it. The Joneses and the Green objected. They said the war wouldn't come any more. Grandma Jones said: 'They ain't no use to worry it. It will soon blow over.' Well, we put the training in just the same. My own father, Judge Brown, the president of the school board, do the stickers up. He said unless we take off our coats and go to it, Germany may make it and if it does, she will take over the great British fleet as a warship and sound out to sea until over she wants to; that she could make us pay all the cost of the war; the Kaiser could let us as he pleased and that we couldn't help ourselves. He could make every one pay over a part of what he wanted; that he could make the farmers pay rent for their own farms, etc." Now, Uncle, what do you think of that?"

"Well, my boy," said Uncle Dan, "all that Judge Brown said may be mostly true and may not be so quickly to the aid of the allies with the numbers of men and supplies we break the German line. Unless we can break the submarines, they may prevent us from getting enough food to the allies to keep them going. In that case Germany would win. As matters stand today, our greatest need is trained fighting men. We had several millions of men with military training in our industries and on our farms when the war came, which would have been called at once for service. I do not believe the Kaiser would have needed the war upon us. At it was, he had no respect for us, and now we are at it and must go through with it. But never again must we be caught so wholly unprepared.

"There is only one safe way," said Uncle Dan, "and that is to adopt permanently universal military training, apply it to every young man who is physically fit, say in this sixteenth or seventeenth year. The training can be carried forward in the United States training camps that are now being established for training men called by the selective draft. As soon as these men receive these stations, they should be filled by younger men, and this should be made the permanent policy of the country."

Billie's mother, Mrs. Graham, had overheard the conversation. She came out and said: "Hearty, Brother Dan, you are just serious as to the dangers of our country? If it is as bad as that, it is high time for us to wake up and do something about it."

"Exactly," replied Uncle Dan, "it is better to wake up now than to be wakened in a night. We may as well understand that, that this is a war and we must win it or God help America. Everything that we have a hope to have—our liberties, our destinies, our opportunities are all involved in the great issue before us—nothing more vital between us—winning this war. It is a question whether the people's right or the Kaiser's might shall dominate the world; if there ever was a holy war, this is it. We are fighting for world liberty and we are fighting for the freedom of humanity. We are fighting for the right of men to govern themselves in stead of being governed against their will by a war-mad emperor. Perilous times are ahead of us. We must be prepared to make any sacrifice, to perform any service that may be required."

"Oh, Uncle Dan," exclaimed Billie, "may I bring my chum, Jimmie Collins, when we have our next talk?"

"Yes, he is big on this war business and justice to see you."

"Certainly," said Uncle Dan, with hearty laugh: "if we are to have Jimmie join us."

Billie clapped his hands and ran to the phone and told Jimmie to be on next week.

GERGY TAKEN—FOUR TIMES
Entire Fourth Division of Prussian Guards Brought to Standstill With Heavy Losses—Violent Battle Rages Over Two-Mile Front.

With the Americans on the Oruro July 31—American troops smashed the center of the German line of resistance on the Oruro and stirred the village of Sergy after the German and taken it many times. Prussian guards counter-attacked ceaselessly but the tenth time the Americans took and held the village also capturing the summit of the slopes four kilometers (two and a half miles) north of the Oruro. To the eastward the town of Humberg (four miles) was taken by Seventh Group. His five kilometers (more than three miles) east of Chumau which the Americans captured on July 18.

It followed a severe bombardment of the Sergy line, but was completely repulsed.

The Americans met Germany's finest regiments in this battle.

The enemy threw it the whole Fourth division of Prussian guards. The American tanks also entered the wall, brought the Germans to a clean stop and inflicted the heaviest losses upon them.

Machine Guns Effective.

The Prussians suffered heavy losses in this battle. The American machine guns were the chief battalions in the German army indicated that they have learned to respect the fire of the United States in the fighting of the last fortnight.

The heaviest fighting of the last 24 hours occurred in this sector against the French and the Americans. Sergy, after having been captured and lost four times, it is allied hands.

Enemy artillery is heavily bombarding Sergy, a mile and a half east of Feren-Tardous; Nole, two miles east of Sergy; and Sergy. There has been a heavy machine gun battle in the forest north and northeast of Feren-Tardous.

The cross piece is rapidly retreating.

Some reports exist that the French-American line would be close to the German line which is now only a few kilometers away.

From Rems the line now extends almost straight southward to Oruro-Violante. The forest of this is now behind the allies, and they are holding Chumau-Violante to the northeast of the forest. In this region the Germans have the higher ground and have some advantage in the artillery duel.

Two main points of resistance were announced in the advance to the Oruro—the first at Croix-Truc farm, the second at the Oruro. Both were thick with machine gun defenses.

The Germans maintained their fire on the allies and returned fire until they were wiped out.

The Americans soon returned two or three kilometers (a mile and a quarter) to a mile and three-quarters after disposing of one line of machine gun defenses before encountering the next line the field goal to be repeated.

French and American troops have given the Germans a steady on the line of machine gun defenses at Feren-Tardous and have pushed a short distance of the northeast, crossing the forest.

The Franco-American line has been broken (five and a half miles) east of Croix-Truc farm and at Villers-Avron (two miles) east and south of Feren-Tardous.

Both armies are engaging in a terrific artillery duel along the southern end of the salient. In addition the Germans are firing large quantities of gas shells into the Marne and valleys.

Feren-Tardous was captured only after a desperate struggle for many hours. The French and the Americans cooperating with each other found many machine guns cleverly concealed in houses and cellars.

LIEUT. NUNGESSER HONORED
Famous French Air Fighter is Created an Officer of the Legion of Honor.

Paris, July 31—Lieutenant Nungesser, the second French ace, was cited for the Legion of Honor, having crashed down, according to the official announcement, at German planes and destroyed three observation balloons. He has received many medals and has been cited in dispatches as being an officer of the Legion of Honor for "his superb example of courage."

Lieutenant Nungesser, speaking of the honor conferred upon him, said: "I have no ambition to become an ace. I simply bring down as many Germans as possible."

In the casualty list reported yesterday from the Western front appears the name of Ves Brown, son of Mr. and Mrs. D. H. Brown, of Quail section in the list of killed. He left here last September, with a contingent of drafted men for Camp Taylor. He had been in France less than three months.

Mrs. Jeannia Liveway, age 84 years, mother of W. D. J. B. G. S. and Ben Liveway and the widow of the late George Liveway died here Tuesday night at the home of her son J. B. Liveway, with whom she had made her home since the death of her husband. The burial took place Wednesday afternoon in the family burying ground near the old home.

The following is a list of boys who left Wednesday for Fort Thomas:

Boys: David Reams, Wm. Charley Logsdon, Charley Pennington, Richard VanWinkle, Jack Vaughn, Leonard Beecher Smith, Geo. W. Parks, Cleveland Simpson, Andy Mason, Milo Butch McClure, Leonard B. Hines, Felix Creech, Edward Harlan Payne, Major Allen, Olney G. Proctor, Hobart Board, Wade Hunt, Charles Sord, John Melvin Coffey, Albert Adams

The War Conference was a great success. People from all sections of the county came and took much interest in the Sheep Growers Organization, which was completed. County Agent Spence says they procured pledges from the farmers to sow two thousand acres of wheat in the county this fall. This acreage will be increased considerably. The speaking was the best attended of any we have had, both Mr. Franks and Capt. Allan made splendid speeches. The announcement states that the school that won the flag will be named next week's paper.

Some of our boys who have already landed safely overseas are Ben C. Purcell, William Robinson Jones Hiatt Fish, Johnny Rowe, Ves Brown, Lee Chandler, Silas French, Fred McFerron, Otis Hines, Floyd Henry, Richard Bennett Mullins, Vice Pres., G. C. Jarber, Willie Mullins, John Dooley, Edward Purcell, Clarence Rickles, Richard Wallon, George Payne, Teed Payne, Casper LeL say, John Menefee, Emanuel Reynolds, Bradley Brown, Elijah Cummins, Capt. Allen Barnett, Rossie Norton, Joe Roe and a host of others whose names we do not recall just now. Reports came from some of these that they are right up front and pouring hot lead into the Germans.

Read Fred McFerron's letter in this issue.

Quite a number of farmers met in the court house Tuesday and organized a Sheep Growers Association. The following officers have been elected: R. A. Sparks, pres.; J. W. Hilton, Vice Pres.; G. C. Fish, Sec'y-Treas.; Dr. R. H. Lewis, M. G. Fish and County Agent Robt. Spence, were named a committee on by laws, to report at the next meeting of the association. Such an organization means much for Rockcastle and we are certainly to hope that the farmers will take an interest and attend the meetings of the association. Rockcastle needs more sheep and the fact that many of our farmers do not know anything about the sheep industry is the reason we are so short on sheep and the reason why such an organization should have the support of those who want to be in the sheep raising class. Raise sheep and make more money than from any other one source. County Agent Robt. Spence is to be congratulated for his efforts in this line and the farmers should take advantage of what he is trying to do for them.

A. G. Bacheider, Executive Chairman American Automobile Association, Washington, D. C., writes W. H. Fish, Secretary Boone Way Association, Mt. Vernon, Ky.

"Subsequently there will reach Col. Jim Maret, the old highway scout, an A. A. emblem to be used on that machine lately presented him by his good roads friends through the country. This emblem is similar to the ones which occupy places on the White House automobiles. The Head of the Nation has complimented the A. A. A. by displaying its emblem on the presidential automobiles, thus giving evidence of his belief in the Association's work for highways' improvement of a National character.

The emblem which will come to Col. Jim is special made and the only one in use at those on the White House and the automobiles of the present and former chief officers of the A. A. A. The National Highways and the Dixie Highways Association's emblems are also displayed on the radiator of the Boone Way Man's car.

COMPULSORY SCHOOL LAW. It is one of the duties of County Agent who is working in interest of "Moonlight Schools" in this county to assist the County Superintendent and trustees in increasing the attendance of pupils in the schools.

An County Attorney it is my duty to give the law and prosecute the cases that are reported to the courts by trustees or chairman of boards. The law is as follows: "That the teacher at end of each week shall report the names and age of each and every child between the ages of seven and fourteen inclusive, who fails to attend his or her school for a period of three days during the week to the sub-district trustee or chairman of board of trustees."

It shall be duty of sub-district trustee or chairman of the board of trustees to immediately investigate said case or cases and if he neglect or refusal on the part of parent, guardian or other person having custody of said child, the trustee or chairman shall immediately report said case to nearest court holding jurisdiction of same and it shall be the duty of said court to immediately issue his warrant against the parent, guardian or other person failing and refusing to send said child to school and said court shall proceed to try said case as other criminal cases are tried. Any person or persons refusing to comply with this shall be fined not less than five or more than twenty dollars for each offense.

COVINGTON, KY., August 6, 1918.

MR. EDGAR: There has been and is a crying demand for women to fill the places made vacant by men going to war. Believing that it is the duty of all to assist, and feeling that I could be of use in the business world, I have accepted a position in the office of the Kenton County Council of Defense, in Covington, where I have charge of the entire files keeping a card system, and do general stenographic work. I have pleasant quarters, elegant people to work with and have been fortunate in securing board in a nice home. I am glad I came and my work is most enjoyable.

Since coming an opportunity has presented itself to me to see the beautiful residences of Covington and Cincinnati. My visit wonderful homes and lovely lawns. I only wish every girl in dear old Rockcastle could see the things I have in the last two weeks. It makes life worth living and fills me with lofty aspirations and a strong desire to be of service. Every one talks, works and even dreams about helping to win the war. The people here have the rest war spirit.

Every kind of work is being pushed to the very limit. The business people here are hustlers and have a pep that spells success. One thing has impressed me very much and that is the smooth, well oiled, dustless roads. The folks here know the value of good highways. In the life of the business world there are no success. The farms show that real activity, up-to-the-minute men and run them. Much live stock is now brought into the city by automobile trucks. I learned, however, that Kenton, like Rockcastle, is short on sheep but they are waking up here and are beginning to raise more and of the very best grade.

Covington is constructing the best and most modern high school in the State and the men here take great interest in the schools. In each public school district there is an active Mothers and Teachers Club. They are beginning already to discuss the program for "Temperance Day", designated by the law to be held on the fourth Friday in October. On that day they will discuss in each public school the evil effects of intoxicants and cigarettes. I am quite sure a people of Rockcastle will take notice of this new law and enthusiastically carry out its very wise provisions.

I very much miss my friends back home but I am making new acquaintances here and by reason of that and my work I have not had time to get homesick as I expected when I came.

With love to all and a hearty good wish to each one in Rockcastle will try their utmost to help win the war, I am, Sincerely, JULIA T. FISH.

Kodak the children and send the rolls to Fish's for finishing.

Drop in at Fish's and look at their bargain table of mens, ladies and childrens pumps and oxfords.

FOR SALE—Pair of mules, harness and wagon, one 7, other 8 years old, medium size; good condition. FRETZ KREUER, (if)

THE BEST PLASTER. A piece of flannel damped with Chamberlain's Lintiment and bound over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like it.

RED CROSS. As Rockcastle boys are continually going to cantonments, they should be more active in Red Cross work. The time is now here when every person in this county has but the country's interest at heart in this war, but we all have personal interests as well. There is not a man, woman or child who has not blood relations at the front, or on the way over. To back up these great interests, we should all give our moral support, and financial help to our boys, if need be, and we will work.

The privilege of working to help win a world's war is something to feel comfortable any soldier fighting in our cause is worth while. To serve our own flesh and blood is a pleasure.

Some of our knitting yarn is here, the remanence is being traced by the Express Company, and we hope to have it in a few days, then our knitting people will be able to show their loyalty and love for our soldier boys, and our country.

The Junior Red Cross should be organized in every town. There is no part of an education that needs more stress laid on it than that part that teaches all to unite and help in any great and righteous cause. Our children need to be helped and there is no better way than by joining the Junior Red Cross, and thus assist in doing such work as children can do. All schools should be organized.

"NUMBER PLEASE" When you go out (with the boys) at night

And the next morning your head's all a-wim!

Who gets the brunt of crazy stunts? Not a soul, but the telephone girl.

If business is rotten and things all go wrong, And besides you've scamp with your pig!

You are ready to fuss, and sometimes you cuss. At the poor little Telephone Girl.

If you'd just stop and think for a moment or two, Before at these harsh words you hurl,

I know from experience better service you will get, From the hard-working Telephone Girl.

Here's hoping that henceforth you'll endeavor

To soften your voice o'er the phone, And treat some other one's daughter,

Just the same as you'd ask for your own.

Be a man—not a monkey—I implore you; Show respect where respect is due!

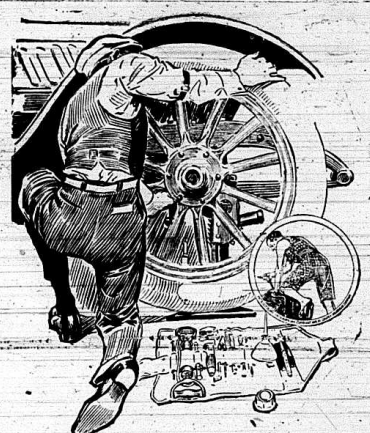

Treat the girls at the central office Just the same as you'd have them treat you.

ADVERTISE. The mail order house gets the business by advertising and keeping at it. The same rule will apply to the home merchant. The constant advertiser is the man who gets the trade.

If you are wearing out the seat of your pants waiting for trade and cursing because you are not getting any just stop and figure the cause.

"It pays to advertise," says Ma. Wanmaker.

Summer Deliveries of Next Winter's Supplies.

Take Advantage Of Summer Weather Conditions

STOCK UP NOW

When transportation is easiest and the demands on the railroads are relatively the lightest, and store for winter use such supplies as

Fuel, Raw Materials and Reserve Stocks.

The demands upon the railroads for transportation during the coming winter months are going to be heavy, and all shipping that can be done now to relieve the lines of just that much hauling later when there will be congestion and the cars will be so badly needed to transport war materials, farm products and other freight which cannot be shipped at this time.

It is not only the part of wisdom to lay in your winter supplies and to ship them now, thereby assuring prompt delivery, but it is your patriotic duty to do so. Do not hold back your freight; arrange for all possible shipments now.
