## RED CROSS NOTES.

On October 7th, this Chapter received a money order from Clay Dooley (Goodland, Ky., for \$21. This money was made by the Hickory Valley School at a Pie Supper. We are very thankful to Mr. Dooley and the people who patronized the Supper, and assure them that it will be applied under the rules governing Red Cross charities. We also received \$14 from Miss Sinnie Cummins, teacher of Davis Branch School. Miss Cummins and the Davis Branch District have proven themselves very loyal in any movement to help soldiers. Miss Viola DeBord, of Poplar Grove School gave \$5 out of the proceeds of a supper for the benefit of the Red Cross, the remainder which was \$11 was credited to the account of the Council of Defense. Miss Candice Morris, teacher of Horse Lick school sent \$13.50 for the Red Cross. This money was raised at her school house by a Supper. These with many other things show the noble and patriotic spirit of our rural teachers.

**NATIONAL AGRICULTURAL  
ADVISORY BOARD SPEAKS**  
Governor H. C. Stuart, chair-  
man of the National Agricultural  
Advisory Board, recently gave  
out the following important in-  
formation:

"The present and continuing demand for live stock on the United States for medical and other purposes is an impressive lesson in the value of live stock improvement. Had we not in reduced throughout the country pure bred sires, the product of pure bred sires and locks thereby multiplying many times the weight and quality of our most producing animals, we would have been unable to supply a recognized essential in winning the war. The International Live Stock Exposition, held each year during the first week in December, has for a number of years played an important and leading part in the campaign for a universal spread of live stock improvement. It is at once an educational institution and an inspiration in a field of ever-increasing importance. The best of all domestic animals must therefore find appropriate in a fair and generous contest for supremacy, but as between different breeds and as between different specimens of the same breed. There the standards of excellence are fixed by actual demonstration, and thus the essential lessons in breeding are made annually available to the thousands of flockmasters thru out the country. On behalf of the National Agricultural Advisory Committee, and on my own behalf as a breeder and producer of live stock, I wish to endorse the "International" unreservedly, to commend it for the great work which it has done and is now doing, and to express the hope that the attendance at the forthcoming exhibition may be such as to give fresh assurance that the breeders and producers of the country are alive to the weighty responsibilities which rest upon them, not only as factors in supplying the sinews of war, but as holders of the blood reserve from which the wasted herds of other lands may be built up in the approaching days of peace."

**ABOUT CROUP.**

If your children are subject to croup, or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions carefully so that in case of attack you will know exactly what course to pursue. This is a valuable and very successful remedy for croup, and it is important that you observe the directions carefully.

**INFLUENZA HAS KILLED MORE THAN THE WAR!**  
The influenza epidemic in the United States reaped a bigger death harvest than the great war did in the American armies, according to the latest figures issued by the government. The war casualty list, including the list released November 17, places the total war deaths at 27,789, which compilation includes those lost at sea, those who died natural deaths, who were killed in battle or died of the wounds received in action outside of the United States, while the deaths due from influenza and pneumonia following influenza from September 14th to November 30th in the United States total 82,306, or three times the number of war casualties.

"It was discovered that I was suffering from a severe case of Peruna. After some of the best doctors in the country gave me up and told me I could not live another month, Peruna saved me. Travelling from town to town, I discovered the quality of badly heated stores and buildings, some times while giving my trade as a result of it. It is only natural that I had made for myself a good deal of trouble, until I had December when I consulted through my agent on my part, through the kindness of my agent, my letter, I began doubting, but, without any delay, I had my Peruna, and I am well, and my price is too slight."

STEADIER HOG MARKETS PLANNED

Hog Producers and Packers Confer With Representatives of the Food Administration and Agricultural Department and Adopt New Plan of Regulation.

In accordance with the policy of the Food Administration since its foundation to confer representative men in the agricultural industry on occasions of importance to several branches of the industry, on October 24 there was convened in Washington a meeting of the Live Stock Subcommittee of the Agricultural Advisory Board and the special members representing the swine industry to consider the situation in the hog market.

The conference lasted for three days, and during this time met with the executive committee of the fifty packing firms participating in foreign orders for pork products and with the members of the Food Administration directing foreign pork purchases.

The conclusions of the conference were as follows: The entire marketing situation has so changed since the September joint conference as to necessitate an entire alteration in the plans of price stabilization. The current price talks has alarmed the holders of corn, and there has been a price advance of from 10 cents to 40 cents per bushel. The fact that the accumulations of low priced corn in the Argentine and South Africa would, upon the advent of peace and liberated shipping, become available to the European market has created a great deal of apprehension on the part of corn holders.

The information of the Department of Agriculture indicates that the supply of hogs has increased about 10 per cent, while the highest price estimate does not exceed 15 per cent. Increased production over last year. On the other hand, the arrival of hogs from the Argentine and South Africa seven great markets has been 27 per cent. more than last year.

The increase in production appears to be based upon the proportionate increase over the receipts of last year. The ability of the packers to carry out this arrangement will depend upon there being a normal marketing of hogs based upon the proportionate increase over the receipts of last year.

The plan embodied above was adopted with the approval of the Agricultural Advisory Board. The Food Administration has appointed a committee, comprising Mr. Thomas G. Brown, Chairman, and Messrs. J. E. Mercer, President of the Chicago Live Stock Exchange, Mr. E. W. Gentry, Secretary, and Mr. Louis D. Hall of the Bureau of Markets, to undertake the plan in the various markets.

BRODHEAD

Mr. and Mrs. J. E. Wallin, who recently moved to Danville, are back home. And while Mr. Wallin says it is only a temporary move but he was inclined to think that old home will be found to be better than a little town like Danville.

The plan embodied above was adopted with the approval of the Agricultural Advisory Board. The Food Administration has appointed a committee, comprising Mr. Thomas G. Brown, Chairman, and Messrs. J. E. Mercer, President of the Chicago Live Stock Exchange, Mr. E. W. Gentry, Secretary, and Mr. Louis D. Hall of the Bureau of Markets, to undertake the plan in the various markets.

It Pays to be Particular. You probably know some one man whose appearance is admired by everybody.

And the reason is—his selection of clothes. It doesn't cost any more to be particular than to be careless—if you do your buying here.

We specialize on three things:—variety of stock, value for your money and courtesy of service.

The United States is the richest nation in the world. It is the richest when the war began. The war has drained it less than most other great nations have been drained.

Table with 2 columns: National Wealth, National Debt. Rows include Great Britain, France, Russia, Japan, USA, etc.

Our country has won all this through original possession of great natural resources not only, but also through the special opportunities provided by liberty.

All our powers are great as before. Some are augmented. Opportunities are increased. The whole world has become our market.

America now is the great producer of food products. Its power for production are to be increased. Use of farm tractors will aid in this.

Liberty will give oppressed nations new opportunities. Nations will become better acquainted. A freer exchange of ideas will elevate the standard of living.

Our way to greater prosperity is to produce a increased variety of products useful to mankind, and to produce a greater quantity.

The United States has not suffered seriously by submarine warfare. We have a greater merchant fleet than ever before in the nation's history.

of pitash fertilizer. Since the war began this important industry has been developed greatly in America.

Not all economists view us so optimistic as the foregoing. They are worried by immediate problems of readjustment.
