## Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread for one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

# CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

"If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you."

## NATION IS BEGINNING FINANCIAL RECOVERY

### FEDERAL RESERVE BOARD FINDS READJUSTMENT COMING AFTER ABNORMAL WAR CONDITIONS

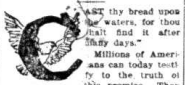

Washington.—Definite evidence of the beginning of financial readjustment following abnormal war conditions are set forth by the Federal Reserve Board in a review of the February reserve bulletin. These evidences are: Increase of bank balances at financial centers, a tendency toward lower rates for money, lessening of the amount of paper held by Federal Reserve and Member Banks, inflow of gold coin and gold certificates at banks, indicating greater confidence in the financial situation, and lessened demand for money, and decline in the volume of Federal Reserve notes outstanding, demonstrating the elasticity of the Federal Reserve system.

The board deplored evidences of the relaxation of wartime economies, saying that the industries of the United States and other countries would soon need quantities of capital, and that it behooved Americans to continue to be thrifty and give no respite to idleness.

"The flow of active production and consumption is being retarded," the board observed, "by high expenses of production."

## MILLWORKER TELLS THE 1919 VERSION OF BREAD UPON WATERS

"THINK OF ME CLIPPING COUPONS," HE SAID, "IT DOESN'T SEEM REAL."

"I first bread upon water when I was a child. I remember Americans can today testify to the truth of this proverb. They have learned that the principle is operative now as well as then. Millions who never had a savings account have been induced by patriotism to save their pennies and their dollars. As a result they now own government securities and belong to the coupon clipping class. A start toward financial independence has almost miraculously come from something that all their lives they have been throwing away. They have learned the possibilities of thrift and are better citizens."

A typical experience was told the other day by a day laborer in a Youngstown manufacturing plant here in his story practically in his own words:

"Up to two years ago I didn't have and I never hoped to have a cent saved. With a wife and two kids and a little home to keep up on \$1 a day it didn't look possible."

"That's what I told myself when they began talking about Liberty Bonds and Thrift Stamps. I am patriotic. I wanted to help with the war, but it seemed impossible to stretch our wages beyond the food and clothes and coal. The money agreed with me but we kept thinking about it and talking about it and finally we began to agree. Well, it's a long story and I can't remember it all. It just seemed to happen. First I cut out the stamps and later the old pipe. Mother gave up a feather she wanted, forgot her morning and cut down on the food trimmings. The kids went barefoot a little longer."

"We started and bought a First Liberty Loan Bond and paid for it, 72 a week. We didn't miss a week. I'll never forget the family jubilee when I brought home that beautiful \$50 bond. The youngsters jumped on and down and I and I were some proud."

"That was the beginning. The four of us had got the bug. We haven't missed an issue. We now own \$150 worth of those bonds and they're on our fourth due."

"Think of the clipping coupons! It don't seem real. Of course, we have been through a terrible war, but it has taught many people how to save as it has us. It has done a wonderful thing. We're going to keep right on and I hope there'll be more bonds and stamps. We cut out saved something to force us to save even now and the thought that we are helping Uncle Sam helps push."

### Liberty Loan Levity

Said the Yank to his brother, the Gek: "We've put Hun where he no more can hob."

And pillage and kill— I wonder now will The folks at home Finish the Job."

The problems of peace require solution and call upon your loyalty as did the problems of winning the war.

## Down and Out—But His Tongue Still Wags

THE HUN is still able to whine.

One of his favorite subjects is Liberty Bonds.

The bonds are absolutely the best secured in the world and he dare not attack them openly.

No whippers to you to sell them, hoping to demoralize the market. And he has about as much chance of doing this as he had of winning the war. It is characteristic Hun stupidity.

Every time you are approached to sell your Liberty Bond as to treat it for stock in some unknown and unsubstantiated project, remember, it is the voice of the Hun speaking.

Then take another grip on your Liberty Bonds and hold tight. Keep those you have and be ready to buy more when the Victory Liberty Loan is offered for sale in April.

## A Miser, A Woman And Two Stars—

A miser, born a land snail. Who'd gained a fortune over here. Where Liberty is the guiding star. Looking on his gold with a bit of fear.

"I got it by pinching and going with out."

"They call me greedy. I am," said he. "The Nation's call to lend I shout. For bonds they'll get no gold from me."

A woman gazed on a star of gold. She'd given all she had to give. And sacrificed to lend, 'twas told. "That Liberty and Land will live— And I'll lend again and again," she said.

"To help to remedy war's ill. And to keep true faith with our hero dead. By helping pay our war-time bill."

By helping pay our war-time bill.

RUMORS THAT BANKS WERE TO BE CALLED ON TO TAKE FIFTH LOAN CORRECTED BY SECRETARY GLASS

RUMORS AND UNBROUGHT STATEMENTS WHICH HAVE BEEN SPRUNG ABROAD OVER THE COUNTRY TO THE EFFECT THAT THERE WOULD BE NO FIFTH LIBERTY LOAN HAVE BEEN BROUGHT TO THE ATTENTION OF SECRETARY OF THE TREASURY.

The secretary reiterates his statements.

That there will be a Fifth Liberty Loan.

That it will be a popular one— sold to the people.

That there is no idea on the part of the government to sell the bonds to the banks.

That the Fifth Liberty Loan will be floated this Spring, undoubtedly beginning in the latter part of April.

The financial heads of the government are perfecting the plans for an issue that will meet the requirements of the time and the Central Liberty Loan committee of the Fourth Federal Reserve district at Cleveland is well along in the task of laying a foundation for a campaign which will outdo in intensity any of the four preceding campaigns.

Stories emanating from Washington and discussing the preliminary plans of legislators may have a tendency to bring the reader. It must be remembered that these stories are speculation, merely reflecting the mind-workings of the man who will ultimately have to narrow down to some one procedure. Enough has already been definitely settled to permit the secretary of the treasury to make the statements above and to emphasize them.

To further emphasize the fact that there will be a Fifth Liberty Loan and to correct the impression which has erroneously been circulated that the banks would have to take the loan.

Governor E. H. Fletcher of the Federal Reserve Bank of Cleveland recently sent word to all of the Liberty Loan workers in the district calling upon them to correct these false impressions.

## TO THE FARMERS AND HOUSEKEEPERS BUILD MARTIN JUKES.

Doubleless every one knows the value of the purple martin, which usually makes its appearance in Kentucky from April 1st, to the 15th, and which is one of the greatest insect destroyers of the bird specie. And since farmers of Kentucky lose thousands of dollars annually through the medium of the insect and since it is most imperative that the blue martin be encouraged to the fullest extent to come and remain with us, I feel, that injunctive to the hungry, starving millions, that every housekeeper and farmer in Kentucky should as once erect poles and place upon same a simple and substantial martin box as a home for these most valuable birds.

It will only necessitate a little time and the expenditure of a very small amount of funds and will result in a saving of almost an unlimited amount of foods and feeds.

Therefore, please do not put it off, or "let George do it," but be in the erection of homes for these busy, useful and badly needed birds.

## INTERNAL REVENUE DEPARTMENT.

Danville, Ky., Feb. 24, 1919.  
Dealers in Tobacco, Snuff, Cigar and Cigarettes.  
The new Revenue Bill imposes an additional tax on all tobacco, snuff, cigars and cigarettes, in the hands of dealers on February 25th, 1919.  
An inventory as of that date must at once be prepared. If this letter reaches you after that date it will of course be necessary to include any stock on hand then, but disposed of afterward.  
I enclose blank Form of Inventory Part 2 and also blank Form of Return Part 1. Take your inventory on part 2, being very careful to make it exact so that when a Revenue officer visits you to verify same you will not

be embarrassed by the possible charge of having made a false report.  
When you have completed the inventory, carry the quantity of each class as shown therein to the Return Form Part 1 and extend the tax due at the rate imposed. There are two copies of each of the reports, one marked "Original" the other "Duplicate". Send to this office by first mail after completion, the "Original" copy of each form accompanied by a remittance covering the tax. I cannot accept forms marked "Duplicate" so be very careful to send the ones marked "Original".  
The remittance must be in the form of a bank draft, certified check, currency or money order. I am not allowed to accept personal checks unendorsed on account of collection laws.  
The "Duplicate" Inventory and Return will be taken up later by the officer who will be sent to

verify them.  
Read the instructions on the forms carefully before attempting to fill them out. The reports with the tax due must be in my hands on or before March 25th, 1919; or you are subject to a penalty of \$1000.  
I am trying to reach every dealer but there will necessarily be some who are not on my mailing list, since the penalty will apply to them with the same force as to those who receive reports. I would be glad if you will call the attention of dealers in your section to the provisions of the law.  
Any dealers who have not received forms can have same by writing to this office.  
Respectfully,  
W. HUGHES, Collector.

## ARMENIANS DIE BY THE THOUSANDS FROM STARVATION

### Rockcastle County Asked To Give \$398 For Their Relief

Rockcastle County is asked to give \$398 of the \$50,000,000 to be raised for the relief of the Armenians. Rockcastle citizen does the appeal for suffering humanity touch your tender cord?

Read the brief sketch of the Armenian people which follows and that satisfy your own conscience what you should do.

Many think of the Armenians as a set of people always undergoing massacre. As fresh news about them appears from time to time, we ask ourselves wonderingly—"Can there still be Armenians left?" The tenacity and vigor of this by no means numerous race is shown in nothing better than in this, that even now, after the last unprecedented outbreak of massacre and deportation, there are still nearly four million survivors scattered in Asia Minor, Persia, Syria and the Russian Caucasus. At least 400,000 children who have no fathers and many of them no mothers are among these refugees. In them is the hope of a new Armenia, some day perhaps to surpass in prosperity and world usefulness the Armenia of ages long ago.

The history of Armenia is almost as old as history itself. Armenia claims to possess the site of the Garden of Eden—since even now the country is beautiful enough for Paradise, and its apples would tempt any Eve,

however, fastidious. It also claims that after the flood the Ark came to rest on Mount Ararat most beautiful of snow clad peaks.

About 1000 B. C. history speaks of a district Armenian people dwelling on the table lands near Ararat, conquered in turn by the Babylonians the Medes and Persians, the Seleucidae and the Romans, with brief intervals of independence. Even under conquest, as it was understood by the ancient orientals, the Armenians were little interfered with as long as they paid the required tribute.

In 1310 A. D. the interested figure of Gregory the Illuminator comes brightly into the foreground of Armenia's medieval history, to influence permanently the future character and fate of her people. Gregory was baptized when a child, married early and had two sons. When he was caught by the wave of monasticism that swept through Europe in the Middle Ages, felt that he had a vocation and made farewell to his wife and the world, for sook the common ways of men and entered a monastery. His later persecutions, years of prison visions and miracles obtained for him the reputation of a saint. He converted Tiridates the King of Armenia and baptized 100 Armenians. Eight years later Christianity became the state religion of Armenia, and to this day the mummied hand of old St. Gregory is laid upon the head of every bishop of his consecration—remarkable instance of Armenian reverence for tradition.

The golden age of independent Christian Armenia soon passed. At this day the ruins of the once great city of Ani, excavated in the last century, show to the world a dim reflection of bygone splendor. Conical roofed church and massive walls 40 to 50 feet high, flanked by many round towers and defended by deep

gorges, present remains dignified even in ruin. Decorative stonework, sculptures and frescoes indicate a culture and art development of no mean order. But in the seventh century arose in the east the power which proved fatal to many another nation besides Armenia, and which still lifts its crescent threateningly against the cross—the power of Islam. The followers of the Prophet Mohammed swept across Europe from Mecca to Gibraltar and finally the Ottoman Turk became the dominant race over a vast empire in Europe and Asia.

From that time to this the Armenian has lived under his sway, often peaceably enough, often persecuted, but still separate, distinct, unabsorbed, stubbornly Christian. The Armenian had no national state to rally round but he had a church. In this clinging to the church and thus clinging to his nationality through centuries lies the secret of the Armenian's success. No outbreak of persecution has succeeded in shaking him from his national faith. Through thick and thin, fair weather and foul the Armenian has stuck to his church.

In business life the Armenians were successful. They were also industrious farmers and made Asia Minor a well farmed district. Although their ability in money making did not help them to popularity with the more indolent and less successful Turk, the Armenian on the whole had no particular trouble save, political and social injustices, before 1876. Then Abdul Hamid I came to the throne, engaged in the Russo-Turkish war, and signed the Treaty of San Stefano, in which Russia engaged to carry out reforms for and to protect the Armenians. England through this treaty gave Russia, too large a finger in Turkey's pie, and too much Eastern influence to be

comfortable, so Gladstone forced the substitution of the Treaty of Berlin in 1878 for that of San Stefano, by which the responsibility for the Armenians was divided. This was bad luck for the Armenians, since their sponsors, the concert of Europe, found it impossible to act together. By various efforts at interference they roused Abdul Hamid's temper and defiance, and that irritated monarch, like a bad tempered child with too much power, decided to kill off the harmless subjects in whom other European powers had so inconvenient an interest. An outbreak of ghastly massacre was the result, the first of a series which we saw culminated in 1915.

Now that the theory of the Balance of Power is bankrupt, we hope for better protection of the Armenian and other small races under the organization of League of Nations.

Geographically, Armenia has many advantages for future development. In ancient days it consisted of 500,000 square miles of fertile land, stretching from the Black Sea and the Caucasus Mountains to Persia and Syria. This land rises from the sea until it reaches a level of about 8,000 feet, shooting up in Mount Ararat to a snow-capped peak about 1,000 feet higher than Mont Blanc. The land is fertile, rugged, picturesque, and rich in rivers, of which the Euphrates, Tigris, Phoenix and Araxes are the chief. These empty their waters into the Caspian and Black Sea and the Gulf of Persia.

It is good grazing land and fine for agriculture, producing melons, grapes, wheat, maize, barley, oats, coffee, rice, tobacco and sugar, while rich deposits of coal, silver, iron and other minerals lie undeveloped beneath the surface when the season is at its height, such is the productive power of the soil that two melons are said to be a camel's load.

This is the home from which the Armenians have been driven, and to which they must be restored.

To keep them alive is the main time, and to transport them home and help them start life afresh will cost a large amount of money. America does not expect to pay it all, but the debtors expect to raise, by voluntary subscription, the sum of \$50,000,000 towards that great end—allowing on even distribution, the sum of \$7.50 per person—not a great deal for us to give or them to receive, but it will make all the difference between life and death to these sort of men, people in the immediate future.

### Council of Defense.

It is now time to commence gardening in earnest, and we fear that past experience will cause the people to neglect their potato crop. The importance of this early producing sufficient potatoes for home consumption cannot be too forcibly impressed on the farmer. The high prices now prevailing are sufficient evidence that any potatoes that might be raised over and above home consumption would find a market, so we hope that everybody will consider the importance of this crop and procure the very best seed and plant with a view of having good potatoes to spare. The poor crop last year was mainly due to the potato that seed be bought on the market and some producers not raised for seed. Some of our merchants have been buying large quantities of seed potatoes that have been tested, and an investment of this kind will pay anyone wishing to raise a good crop of potatoes.

We will try to procure some figures for next year's paper showing the large amount of farm produce that are being shipped this year. The observations made are including the heavy loads of great quantities of farm produce, as they buy in large quantities and sell on small margins, but if we had like produce to sell, dealers would buy from the farmer and ship it in their own

**IT'S NOT YOUR HEART IT'S YOUR KIDNEYS**

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filters of the poisons of your blood.

Kidney disease is usually indicated by painful urination, drowsiness, depression, backache, stomach complaint, and they may also show themselves in gravel, rheumatism, eczema, and indigestion.

All these derangements are cured if you will use **GOLD MEDICAL** kidney pills. You should use **GOLD MEDICAL** kidney pills. Three times a day, after meals, with water.

# Repeating A Pronounced Success

The unqualified success and splendid prospects of the Kentucky Mansfield Lead & Zinc Syndicate, composed almost entirely of Louisville men, has led to the formation of another company, headed largely by the same gentlemen, for the purpose of further development of additional holdings.

The first company was composed of T. M. Crutcher, President; N. C. Cureton, Secretary, and W. E. Newbold, Treasurer, with the following directors: T. M. Crutcher, Newbold, Fink, William Phillips, N. C. Cureton, M. N. Crail, Charles A. Funk, T. T. Beeler, C. W. Scott, with Hon. E. J. McDonnott as attorney.

The Capital Stock was placed at \$100,000 and is owned almost entirely by Louisville men and those of nearby towns.

This stock paid 2% in January and 2% in February. A list of these stockholders has been printed and can be obtained on application to the company so that this statement may readily be verified either by mail or telephone.

The Louisville Mansfield Lead and Zinc Company has just been organized with T. M. Crutcher, President; T. T. Beeler, Vice President; N. C. Cureton, Secretary; W. E. Newbold, Treasurer, and with the following Directors: J. C. Mahon, T. M. Crutcher, N. C. Cureton, T. T. Beeler and W. E. Newbold.

The Capital Stock is \$200,000 with shares at \$100 each, fully paid and non-assessable. \$200,000 of this stock has already been taken up, but the rest will be offered immediately to those desiring a very profitable and safe investment.

## The Mansfield District

The mineral wealth of the Missouri district is abundantly shown in the birdseye view at the top of this page. Mines and smelters paying prodigious profits are to be seen on every hand.

The reason lies in the fact that there is to be found the richest and purest ore deposit in the entire region.

In fact, the State of Missouri is the largest lead and zinc producing State, producing 32% of the output in the entire United States.

It is the theory of geologists that this point, Mansfield, on the highest ridge of the Ozarks, marks the spot of a prehistoric volcano, which deposited this vast store of mineral wealth by an eruption.

At any rate, it is there and is being mined and smelted at tremendous profits.

It is an absolute fact that T. T. Beeler refused last Friday an offer of \$50,000 cash for forty acres of his holdings immediately adjoining the first mill. This is the forty acre north of the spot where the new company is to

Interior of mill showing how the ore is separated from the rock.

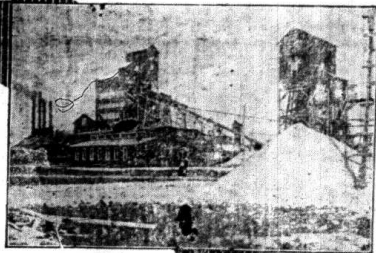

be located. Immediately adjoining is the Red Bird lead and zinc mine of W. E. Caldwell (of Louisville). Very rich ore was found in this mine at a depth of only thirty-five feet.

## Profits in Lead and Zinc

When you buy stock in a lead and zinc mine you are not taking chances or buying a "pig in a poke," but you see what you are getting. The property is proven by drills, and you absolutely know that the mineral is there in vast quantities before mining is commenced.

A striking example of the success of the mills is the Eagle Pitcher Co. This company made forty millions of dollars in the past five years.

Five years ago this district was an empty prairie—today there are several hundred mills in successful operation and one acre of this land has produced a million dollars in ore.

## WHY COLDS ARE DANGEROUS

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for a more serious disease. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the grip, influenza, as a cold prepares the system for the germs and development of the pneumonia and consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of the diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

## HOPEWELL

Mrs. Mckajah Sowder and daughters, Mary and Esther, of Mt. Vernon, are visiting relatives at this place.—Mrs. Mink is with her daughter, Mrs. Pete Cummins.—Wm. Vernon.—Married, March 8, Miss Bertha Carmical and Mr. Walter Chaney, of Danville. They will make their future home in Danville.—Homer and Shirley Carmical spent Sunday with Ernest and Russell Barnes.—Charles Kirby, of near Pine Hill, who returned from France some two or three weeks ago, spent Monday with Wm. Sowder here.

## PLANS BIGGER WORK

Having distinguished itself by its work behind the front to war the Salvation Army is now preparing to take a still more active part in the affairs of service men during the period of reconstruction; and the public may well impose confidence in the labors of the organization for good based upon a common sense form of Christianity that fits the needs of the situation like a glove. Doubtless there will be calls for funds on the part of the Salvation Army but they will be readily forthcoming from a grateful and observant public.

Before the United States entered the war the people of America were well acquainted with the manifold activities of the Salvation Army; and the peculiar efficiency and sincerity of purpose with which these activities were put through. When we entered the war the Salvation Army quickly found that it services were needed at the front; and with little ado and virtually no money at all the Army undertook the new responsibility, achieving much endearing its name to our soldiers and sailors through its intelligent services.

In the day of reconstruction the Salvation Army aims to provide just the sort of anchorage many service men will need. There is no doubt, in the light of past credits that its work will be done well. And the public should prepare to support that work with all generosity. Self interest indicates this generous attitude as well as does the spirit of altruism.

THE suffering Armenians are looking to America for help. Rockcastle's share is only \$398. Are you going to help? SEE THE COMMITTEE, either Dr. M. Pennington, C. C. Davis, or E. S. Albright to-day, not to-morrow and make make your donation.

ANNOUNCEMENTS

We are authorized to announce  
**RON W. BULLOCK**  
as a candidate for Representative from the Seventh Legislative District, composed of Rockcastle and Laurel counties, subject to the action of the Republican party at its primary election on August 2, 1919.

The Interior Journal is coming out three times this week, eight pages at a time. That is going some, but the I. J. is capable of pulling off such stunts, even going to a daily if necessary.

Senator Bally, of Texas, is the latest one of the would-be's to explode. According to the "Lone Star" Senator the whole Democratic party has gone to h—l. Wonder how often for what the Senator "got sat upon."

March, 18, 1919.

Dear Superintendent:

As you understand, according to sections 214, 219 and 220 of the School Law, every teacher who teaches in any public school, except in cities of the first four classes, after July 1, 1919, must pass an examination in Agriculture. We have ruled that this examination for teachers who already hold a certificate must be held as the last or last subject, which will be on Saturday evening, and that the grade they make shall be entered upon the face of the certificate they hold and made a part of the record in your office. Thus, if the applicant holds a first class certificate obtained last year, he will be qualified to teach agriculture during the life of his certificate. These applicants will pay ten to five cents to take the examination. Applicants for new certificates will only be charged the usual fee dollar.

The examinations in Agriculture prior to July 1, 1919 will be very elementary. I made arrangements with Dear Cooper of the Agricultural Department of the University of Kentucky to furnish Bulletins 54 and 56 and a list of sixty or more questions prepared by the Department of Education and the Department of Agriculture. These questions are all answered in Bulletins 54 and 56 and from these questions will be taken the ten questions on this subject to be asked in May and the ten to be asked in June. Dean Cooper assures me he has sent to you enough of these bulletins and questions to supply your teachers, and yet I am constantly receiving letters from the teachers asking for them. Will you please distribute these bulletins and questions to your teachers and prospective teachers so that everybody may have an equal chance.

Yours very truly,  
V. O. GILBERT,  
State Superintendent.

Mrs. Davis requests us to add that bulletins may be had by calling at her office, she also requests us to say that she has the money to pay the teachers all balances due them.

The wholesale discharge of officers at Camp Zachary Taylor to comply with the order received Saturday from the Adjutant General of the Army will be started without delay. Within sixty days the commissioned personnel will be down to a Regular Army status, the only officers remaining being those who hold commissions in the regular establishment or who have been so commissioned for such commissions.

The sudden change in affairs came as a bolt out of a clear sky and comparatively upon the plans of many who had expected to remain in the service until a number or fall. It is the fulfillment of a prediction recently made in these columns that the contingent would rapidly get down to a regular army status.

The order went out from headquarters to call to suits to discharge officers desiring to quit and those who have not applied for Regular Army commissions. Organization commanders are to put into effect as quickly as possible the new regulations. Not later than Wednesday a report will be submitted by each unit showing how many, if any, officers having a Regular Army connection are needed in their respective organizations to replace those lost in this category.

In the event there are not enough Regular Army officers and candidates available to replace scheduled for discharge the Adjutant General will be so advised and will transfer them here from other stations. If there is a surplus of such officers on hand their names, rank and branch of the service will be forwarded to Washington.

### PRUSSIAN DEPUTIES CHEER FOR RECALL OF FORMER KAISER.

Berlin, Saturday, March 15. A cordon of steel helmeted troops was thrown around the Diet buildings to protect the opening of the session of the Prussian Diet. Only bearers of credentials which had been minutely examined were permitted to pass after having been carefully searched for weapons. This applied event to the women delegates.

What was once the defiant citadel of Prussian reactionaries has been converted into a small democratic Parliament. There was a keen discussion in house over civil war in Germany. The Socialists proposed a parliament investigation, but that was rejected by the Minister of Justice, who later announced that the damage done to the Berlin police headquarters amounted to 20,000,000 marks.

One of the delegates made a speech in the Hohenzollerns, and proposed that Prussia should restore the monarchy. The Socialists protested, but the greater part of the civil parties applauded the speech.

The Independent Socialists demanded the confiscation of the private fortunes of the former Emperor and his family.

### The Rockcastle County Demobilization and Reconstruction Conference.

BY D. H. LYON.

The Rockcastle County Demobilization and Reconstruction Conference under the auspices of the Young Men's Christian Association was held at Mt. Vernon on March 18th and 19th. Very interesting and important topics were discussed, making the social, recreational, industrial, economic, civic, educational, health and religious problems of the future. Addresses were given by Secretary H. J. Darter, who has just returned from overseas, where he was engaged in Y. M. C. A. work. Chaplain S. P. Stapp, who saw one year of active service in France. Rev. H. T. Young, Dr. M. Pennington, Prof. Lucy and D. H. Lyon, District Secretary of Y. M. C. A. In every particular, this conference was the best attended of any already held in the State. The people of Rockcastle County and Mt. Vernon are to be congratulated in the way they receive and support those who are trying to bring about better conditions in the State of Kentucky.

The banquet given for soldiers and sailors was one of the best features of the whole Conference. It was attended by twenty-five soldiers and sailors, many of whom are just from overseas, and in addition there were present many veterans of the Civil War and two of the Spanish-American War. There was also present 175 citizens. Every one present thoroughly enjoyed the occasion, and the whole evening, in fact we believe it was one of, if not the most enjoyable ever held at Mt. Vernon. The boys in khaki certainly did show us how they could sing, and it is hoped that they will teach us all how to enter into community singing.

We wish to express our appreciation to the committee composed of Rev. H. T. Young, Chairman, Dr. M. C. G. Davis, Mr. J. T. Meador, Dr. M. Pennington, E. B. Cox and Chas. C. Davis, in charge of the soldiers' banquet given last Tuesday night, and submit a report of the financial end and asks that same be published. Amount received from tables at food left over \$24.98; Paid out: J. W. Rider for meals, \$11.95; A. E. Proctor, 90 cents; W. A. McKenzie, bread, etc. \$14.25; M. S. Burton, \$1.50; W. I. Miller, 30 cents; cleaning hall, \$1.00; dry bill, 30 cents; total \$59.10. This leaves a balance of \$32.85, which will be turned over to the American Relief Committee. It is possible that there may be a few little bills to pay not included in this, for dishes lost or broken, but it will not be more than \$1. or \$1.50.

Dr. M. Pennington, Mr. E. B. Cox and J. A. Landrum and to the ladies of the committee, the Boy and Girl Scouts who made this banquet and conference a success in every particular. In fact we know that no other country will give us more loyal support and hearty cooperation.

### STATEMENT

## WHY NOT NOW?

WHAT a pity to go on indefinitely wishing for a more comfortable home, yet not actually making an effort to get one--what a waste of years! Life is so short, and to miss its supreme blessing—What a shame! Resolve now that you will have one of the loveliest homes. It is easy, come and see me. I have anything you need to build with and the price is right.

Yours for building,

**S. T. PROCTOR**
