American women are to play an important part in the present election in 1920. The stage is being set for them now by the steering committees having the Woman Suffrage Bill in charge in both Senate and House. Reports are coming in from the committees from woman suffrage organizations in all states advising that they are successful in lining up the majority of Congress who have been home on vacation between sessions, also telling that the new members who will take their seats for the first time when the session begins, have not been omitted in their campaign. It looks as if the Woman Suffrage Amendment will become a certainty within the next few months.

## IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is not a matter of personal vanity or of the ill-affected people today can be traced back to kidney trouble. The kidneys are the most important organs in the body. They are the filters, the purifiers, of your blood. Kidney disease is usually indicated by weakness, dizziness, nervousness, the pain in joints and lower abdomen, all these are signs of kidney trouble and should be treated at once. All these symptoms are natural signs to warn you that the kidneys are diseased. Do not neglect them. MEDICAL EXPERTS ON CHOLESTEROL

## OLDHAM'S VICTORY SEEMS CERTAIN

PRIZES OF STATE PRAISES YOUNG WINGHEATER CANDIDATE FOR LIEUTENANT GOVERNOR.

That R. C. Oldham's candidacy for the Democratic nomination for Lieutenant Governor has been favorably received there is no doubt. His campaign has been conducted in a progressive spirit and a determination to win. His friends have formed an R. C. Oldham Club to further his interests. The state press comments very favorably upon his candidacy.

"Col. Oldham is one of the most active, young Democrats in the State during many campaigns he has always been in the very heat of the contest in the interest of the Democratic nominees. It is our policy to refrain from committing ourselves in primary elections, but it is our purpose to support Col. Oldham throughout the campaign, believing that in this study young Democrat, if chosen, will fulfill every pledge in his platform and serve the constituency with honor and credit."—Daily Democrat.

"Oldham is a young man of sterling qualities and will do his duty as a public servant. We would like to see him elected to this office for the reason that he will serve the people of the state in a way that will cause no regret for having given him this honor."—Evening Enquirer.

"The Journal of Labor can not fail to support a man who openly declares for such principles. We ask in favor of Mr. Oldham, but wish he were a candidate for Governor. He is a clean, honest and able young man, who is conducting a remarkable campaign. As he says, 'He has his hands in his own pockets—not the taxpayers'. There is no question but that Mr. Oldham will receive the votes of the wage-earners of Kentucky. Here is to you, Oldham; we believe that your principles will not only make you Lieutenant Governor, but carry you to the governor's chair."—Journal of Labor.

"Oldham has shown himself to be conscientious in the discharge of responsibilities that devolved upon him, self-blooded, patriotic and unwavering in integrity. He is above narrow, factional policies and holds a public office far above a salaried consideration. This brilliant young Democrat is offering his services to the people in the prime of vigorous young manhood and if elected to the high office he seeks the people whose appreciation of his ability and worth have placed him there with him a faithful, able and upright official, actuated by a love for their welfare and the good of the State."—The Kentucky Knight.

"Col. Oldham is a progressive Democrat and progressive citizen and a successful lawyer. He nominated and elected we believe he would give a progressive administration and one that would prove creditable alike to himself and to the party."—Interior Journal.

## J. B. PIKE IN FRANCE.

Mont La Tour, France, Oct. 11, 9th Bu. 22, Eng. April 23, 1918.

Dear Dad and Mamma:—How are you all by now? I am well and feeling fine. I am still running an engine and have a boy from old Ky. bring for me, so we pass the time away very well. Our subject most of the time is of home, sweet home, how we would like to be there etc. This is a narrow gauge Rail road we are on. I don't have any idea when we will get home. We are hauling rock for the Yanks to repair the highways of this country. The rumor is that the French are going to take the R. R. over very soon but one knows nothing until it has happened in the army. I was undisciplined for six weeks in October and November. We were at Baymores, France then, and we were ordered to move into the line. I had my rifle and a sub machine gun. I was on an engine train and was the first when we stopped. I got off and watched the Yanks. Some of them come up and beat the machine guns with popping and the machine guns will give. We were

Americans were using the French guns to Benny, only one mile behind the front line trenches. We were ahead of the Yanks artillery every night. They would not let us go up there firing the day and lots of nights we would have to fill our little engine full of coal and run to a hole in the ground—dugout—and often we returned to our train to find the track blown up in front of us or maybe one or two cars blown up. They usually shelled about 30 minutes and then changed the range which just suited us for we sure did our work in a hurry and got back from the lines as quickly as possible. I went in the trenches one day in a motorcycle with a boy I knew—a Dutch peech rider and saw some boys of the 60th Division in action. They were sure giving the Dutch all they had. I had the pleasure of shooting nine 75 shells at the Hunns. I hid in the car with a blanket over me and got by the military police. I saw a lot more that day than I had ever imagined. No one has any idea of what these Yanks went through unless he had seen some of it. There were eleven crews of us R. R. men called one afternoon at 3 o'clock to go to Berncourt, get six cars of "Personal" which we took and old Fritz shot them exchanging troops and began to shell that country. There were a number of men lost in the exchange. We were obliged to leave our trains for one hour and forty minutes when the Germans ceased fire. I will say that in all my life I never saw a bunch of men look worse than the ones we brought from the front—Some of them with their leggings torn off and some with their pants all torn; dirty, tired and worn out. They had been in the trenches forty days so you can imagine how they felt. We were in one gas attack. We were at the front with a train of rations and Fritz shot some gas in that section. It was not so strong back where we were but we had to wear our gas masks about thirty minutes as we were passing through a hole where the gas had set

up about one mile behind the lines. It is pretty hard to run an engine with a gas mask over your face but believe me I did not lose any time getting out of that hollow. The Country! It has been raining for a month every day and it is not warm either. I was on a fifteen days vacation just recently. I was in the Old Elks Mountains in Italy and on the Mediterranean sea in Southern France. This is a lovely country. I certainly did enjoy my vacation and saw lots of interesting scenery. I have also been in Germany. The 2nd Division relieved us on the R. R. for a month and we salvaged steel, narrow gauge, R. R. steel. We were on the old 1870 battle field in Alsace, Lorraine. We were the only troops in there and the people were very nice to us. But we are now back here at Mont La Tour and it looks like we are here for some time but I certainly hope we start for the good old U. S. A. very soon. Well, Dad and Mother, don't worry any about me for I am alright and maybe it won't be long until you can call Uncle Ben Vaden down to the house and I can tell you all about France and some about Italy and some about England and a little about Germany. Well, I had better close as it is about time for "chow" and that is a soldiers delight. Tell all the folks hello and to write to me.

**The Flow of Meat**  
 Two-thirds of the live stock in the United States has to be raised in the West.  
 One-half of the consumers of meat live in the East.  
 In other words, most of the live stock is one or two thousand miles distant from most of the people who need it in the form of food.  
 Fifty years ago, when live stock was raised close to every consuming center, the country butcher could handle the job after a fashion.  
 But the job got too big.  
 Now millions of animals have to be moved hundreds of miles to millions of people. Somewhere on the way they have to be turned into meat.  
 The packers solved the problem. They set up plants where the "live haul" and the "meat haul" were in the right balance. They built up distributing systems—refrigerator cars, refrigerating plants, branch houses. They saved time, money and meat everywhere. The stockraiser benefited in better markets and higher prices; the consumer, in better meat and lower prices.  
 As the country grew, the packers had to grow, or break down. Because of its present size and efficiency, Swift & Company is able to perform its part in this service at a fraction of a cent per pound profit.

### TELLS OF WAR EXPERI- ENCES.

Charles W. Payne Is With Veter-  
inary Detachment in France.

Charles W. Payne, son of Mr.  
and Mrs. J. F. Payne, of 519  
Limestone street, is with a veter-  
inary hospital detachment at  
Nazaire, France. His organiza-  
tion at present has about 2,500  
horses under its care and there  
is lots of work, he writes home.

"I don't know when we will  
get to come home," he says,  
"for we are going to get 1,100  
more horses here this week and  
we have about 1,000 more, so  
you see it will be some time be-  
fore we get to leave. I have  
wished many a time that I could  
have stayed at home or been in  
some other branch of service, for  
this is the worst there is. You  
never get any rest."

Writing of his experiences and  
of his trip to France, Payne says:

"We started on our trip to  
cross the pond the 23rd day of  
July. We had a small lunch at 4  
o'clock in the afternoon and at 5  
o'clock we were lined up for our  
hike. We hiked nine miles and  
got there at 8 o'clock that night  
and got on a small boat and  
sailed down James river to New-  
port, News, arriving there at day  
light the next morning. It was  
City Point where we hiked to.  
We didn't have anything to eat  
on the road. The good Red  
Cross girls gave us coffee, that  
was all we had for 24 hours. We  
were so crowded we couldn't sit  
down, so we stood up most all  
night. When one would lay  
down on the deck, with his pack  
for a pillow, someone would fall  
over his bob nails and he would  
come out of it.

"We loaded onto the big boat  
at 11 o'clock the morning of the  
26th. We were 11 days crossing.  
When we got to where we could  
see land we were a happy lot of  
boys. We couldn't have any  
lights after 4 o'clock in the  
afternoon—gee, how I wanted to  
smoke! I was on guard one night  
and saw a light like someone  
smoking on the top deck. I went  
up and arrested him and took  
him to the captain. When he was  
turned loose he had forgot he  
ever had the habit of smoking.

"We had our raft drill every  
day. One day they sighted a  
submarine and we got on our  
life savers on in two counts and  
lined up for a little bath in the  
salt water.

"We anchored in the harbor  
the sixth day of August and on  
the morning of the seventh we  
unloaded and hiked three miles  
without any breakfast. It was  
3 o'clock in the afternoon when  
we finally got our stove and grub  
packed there and got something  
to eat. We had two pieces of  
dried peaches, a piece of bacon,

one piece of bread and a cup of  
coffee. It was beans three times  
a day after that until we moved.  
It has been getting better ever  
since, though and we get pretty  
good grub now."

May 20, 1919.

Dear Mother and all—  
Will write you a few lines to  
let you know that I am well. I  
hope this letter finds you all the  
same. The weather here is very  
pretty now but I don't know  
how long it will last. I suppose  
they are beginning their spring  
work. How are Edna and Ed?  
I haven't heard from any one  
over there for months, so I hope  
to hear from you all soon and I  
hope to get home sometime this  
summer, but I don't know whether  
I will make it or not. It seems  
as though they are going to  
keep us over here. There has  
been quite a little sickness over  
here but I have been lucky so  
far to keep well. I suppose J. J.

Myself is back on the job now.  
The last time I saw him he was  
on his way home. It has been  
some time ago I certainly  
would like to get on that water  
again, headed towards New  
York. I suppose Troy Rich has  
his Discharge by this time. Be-  
lieve me I sure wish I ban mine.  
It has been nearly a year since  
I came in the army, but it does  
not seem that long, and some-  
times though it seems like it has  
been four years. I guess it  
won't be a great while longer. I  
hope not any way. Well, it hurt  
me awful bad to hear of little  
Russell's death. I had dreamed  
of him so much and had planned  
so much of seeing him again, but  
as God has seen best to take him  
away, I hope to meet him in the  
end. That is a debt we all have  
to pay sooner or later and there  
is a chance for us all to meet him  
again, but it is up to us to do  
that. So let us all meet his dear  
little face in the end. Hoping to  
hear from you all soon and that  
all are well.

I am, Your loving son,

ELMO.

### SUGGESTION FOR A CAMPING TRIP.

Buy a bottle of Chamberlain's  
Colic and Diarrhoea Remedy be-  
fore leaving home. As a rule it  
cannot be obtained when on a  
hunting, fishing or prospecting  
trip. Neither can it be obtained  
while on board the cars or steam-  
ships and at such times and  
places it is most likely to be  
needed. The safe way is to have  
it with you.
