## TELLS OF THRILLS WHEN SHELLS FLY

MAN WHO SAW WAR ON FOUR  
FRONTS ESCAPES DEATH  
MANY TIMES WHILE SERV-  
ING SOLDIERS.

Chicago—More than 700 Y. M. C. A. workers saw service with the soldiers of the American expeditionary force in the front lines during the last months of the war.

Frank M. Van Epps, sergeant, would write serving as a Y. M. C. A. packer in the Argonne, told of some of his experiences in a talk at the Y. M. C. A. college here.

On the way to France last April in the Orizaba, Van Epps and 50 other "Y" men narrowly escaped drowning when the ship was torpedoed by a German U-boat.

Van Epps was district secretary of the Y. M. C. A. outfit. He worked with the Fifth division until the armistice was signed. He was dressed up in a doughboy's uniform when he landed here. A lump and a litter stung over his shoulder containing what is left of his equipment complete his souvenirs of more than six months' service overseas.

Van Epps saw the war on four fronts in France and Alsace. He landed in the first line, then in the second, third and fourth lines. When the Orizaba was torpedoed on Oct. 10 on the coast of the west coast of Wales U-boats "got" two out of a convoy of seven steamships. The Orizaba went down in 12 minutes after she was struck, and Van Epps and other "Y" men lost all their baggage. They were picked up by a torpedoed destroyer and landed at Holyhead, Wales.

In Front Line.  
In southern and middle Alsace, Van Epps was in the first line trenches and at St. Mihiel, when the drive opened, he became a stretcher bearer after his supplies ran out. Getting word to go to the Argonne, he traveled eight days by train on trucks and about and spent the next three weeks sleeping in shell holes and trenches when he was not at work.

At Modane, France, on October 18 Van Epps and Thomas E. Hester of Iowa, another Y. M. C. A. man, set up shop in an old barn. All but three of the twenty-five "Y" men went back to get supplies. The barn had been under shell fire for several days, but Van Epps and Hester decided it was good enough to sleep in. They built a bed of boxes of jam, with a tub of chewing tobacco for a pillow and lay down.

Half a mile back, an American battery was hammering the Germans, and two to three airplanes came over backing up for the position. They let go two bombs which landed on each side of the barn. Such came a third, which struck the roof, bringing down a mass of rafters and beams and scattering shrapnel. A splinter was driven through the calf of one of Hester's legs and a piece of shell tore through both of Van Epps' thighs.

After dressing stations and field hospitals had finished with them; they spent half a day in an ambulance and were put aboard a French hospital train, where they remained another two days. One of those days was Sunday, so Van Epps, at the suggestion of some of the doughboys, "put on" a service, conducting it propped up to his stretcher.

Soldiers to Study.  
Paris—With the arrival of General Rees from Washington on detail from the war department to take charge of the army educational work, progress has been made along the lines planned by the general, which is the demand of the men for instructions are coming overseas rapidly, according to Prof. John Kerling, Columbia university, chairman of the "Y" commission; post schools are starting at the rate of 40 to a division and companies of officers and men are being absorbed by French and British universities to the limit of their capacity.

General Praeger Y. M. C. A.  
Paris—There are some folks in the Y. M. C. A. according to Dr. J. P. O'Neill, of the Ninth division. "Our Y. M. C. A. is everything to the soldiers," said the general. "Among the employees are some fools. One of them was such a fool that he would not do a damn thing from the front line and he got so tied up with booze shots and other propitities that we were forced to recommend him for a Distinguished Service Cross. That is a sample of the men you have sent to us. Please keep this work up and whether I am commanding this division or not, the things that you have done will make a lasting impression upon it."

Honor "Y" Worker in Russia.  
News that the general commanding the American and allied expedition in northern Russia had recommended Howard B. Merrill of New York, a Y. M. C. A. worker, for suitable recognition for his behavior during a surprise attack on the forces he was serving, is conveyed in a delayed telegram received at the Y. M. C. A. national war council offices.

Plan Educational Courses.  
English universities are preparing to welcome the American officers and non-commissioned soldiers, special or post-graduate courses there in accordance with the scheme of the army educational commission conducted by the United States army and the American Y. M. C. A.

## PROTEST BACK TAXES

Oil Men Feel that the Suits Brought by Officials Are Unfair

Thomas M. Wesley and F. B. Tomb Express Opinions as Regards Attempt to Collect from Interests in Excess of Production Tax.

Lexington, Ky., May 25.—Oil men of Kentucky are up in arms over the suits filed in Louisville and Lexington for taxes on oil wells beyond the existing back taxes on land which for years was worth practically nothing and on which the oil men have voluntarily increased their assessments when the land proved to be productive.

During the session of the 1918 legislature a law was passed which provided that all oil wells should be taxed one per cent of the value of the crude oil for state purposes and not to exceed one-half of one per cent for county purposes. Now the auditor's agent, E. Egill, which has been developed from one of the poorest of the poorest counties in the state through the operations of oil producers, is endeavoring to back-track from that law, taxing leases, wells, rigs, every sort of improvement, notwithstanding the fact that the legislature said in a half per cent stated in the statute to be in lieu of all other taxes.

Thomas M. Wesley, head of the Kentucky Oil Exchange, declared today that the attempt to "back-track" the law is "unfair and an outrage."

"The oil men practically had the word of the state expressed through the legislature," said Mr. Wesley, "that the taxes they had should be in lieu of 1 1/2 per cent of their production. Now along come these tax sharks at the rate of 1 1/2 per cent of the value of the oil which did not exist in former years. It might not be so desirable to put the oil producers in a position of such a suit, should I do not think the tax sharks are oversteering, under the law."

The bill which for Kentucky is that it shows a disposition to harass these developments of the resources of the state and a tendency to violate the spirit and purpose of the law, which was passed by the legislature to make it their residence as well as their business home," said Mr. Wesley, "that a lot of fair Kentucky men can be found to give judgment in such suits, but the law is not to be violated by the courts, such as to prevent men from being taken from their homes to invest in."

E. B. Tomb, of the Kentucky Oil Men's Association, declared today that the Executive Committee of the association at which these matters were considered. He said:

"It was the unanimous opinion of the oil men present that those suits were unjust and should not be brought. The oil men feel that the production tax they are paying and paying the county and state taxes are intended to be, and is in lieu of all other taxes. This production tax is the basis of the present suit on oil by Kentucky amounts to more than \$2,000,000 a year, a revenue the state is taking from a source that yielded a revenue previous to the enactment of the law, which the oil men not only did not receive before the legislature enacted it.

"Not only has the oil industry been threatened with this kind of a tax, but the state is also being put in a position of being in demand at high prices for oil for other uses. The oil men have been in some cases more than doubled. The native population of the oil fields are more prosperous and contented than they ever were in their lives, and too poor to raise even a face on having derived wealth for their owners beyond the fondest dreams of their poverty."

"The commission rightly decided to fight these suits to the court of litigation, and because of the vast amount of money involved in the suits, in the counties affected, this may be the Supreme Court of the United States. The oil men think the tax now being levied by the auditor's agent or back tax collector is a fair tax, but when they are asked to pay the production tax when they are on their leases, extremely high wages, high cost of transportation of supplies to and in the field, as well as paying rentals on leases of doubtful value or that may prove to be of no value whatever, the proposed additional burden is extremely heavy and most unjust, and will tend to bring capital in other states rushing about looking for the Kentucky oil field.

DEPUTY COLLECTOR KILLED  
According to information received this afternoon in the office of Collector John W. Harts, of Daviess county, United States Deputy Collector A. P. Hertz, who works under this office, was shot to death and two of his assistants were probably fatally injured in a close-range pistol duel with draft evaders and moonshiners near Road Gap, in the Cumberland Mountains, not far from the Kentucky-Virginia border, early yesterday according to seemingly authentic reports. One or more of the outlaws is believed to have been wounded, and Federal agents and a volunteer posse are searching the mountainside for Collector Hertz's slayer. —Advocate.

**"Green-Seal" your house and save repair bills**

House-owners know the annoyance and expense of continually paying out money for repair bills, but by using Hanna's Green Seal Paint on their property occasionally, these bills can be done away with to a large extent. Any surface, if left to itself and not properly painted, is bound to decay sooner or later, whereas a coat or two of paint at reasonable intervals will prepare it to withstand all the ravages of time and wet weather.

**HAWKERS' FUNERAL HELD UP**

If Harry Hawker should attend the morning pictures in London this week he might feel as if he had been resurrected from the dead. Like Huckleberry Finn, he will witness the imposing and cheering spectacle of his own tragic end and funeral. An ambitious and imaginative cartoonist on the staff of one of the film companies drew a picture of the last stages of Harry Hawker, the picture being shown in all the large picture houses. The cartoon showed Hawker's machine plunging at a desperate rush into the turbulent sea and then pictured Uncle Sam tossing a wreath on the hungry waves that had swallowed the English daredevil. The picture was running at the very moment that the newsboys were shouting the cheerful news that Hawker had been saved.

**Children's Eye and Ear Clinic**  
CANTONIA

**Carley LASTILE**

A roofing that adds the virtues of asphalt to the virtues of slate

SLATE is not affected by exposure. Asphalt is long wearing and waterproof. In Carley Lastile Roofing we combine these two materials and thus produce a sheet having the utmost durability and water-proof qualities.

The upper side of Lastile Roofing is composed of a layer of natural red or green crushed slate. This not only makes a very beautiful roof but it takes the wear, and beneath this layer of crushed slate is a layer of asphalt gum. The slate is embedded in this asphalt permanently. Underneath this layer of asphalt is a heavy sheet of the best grade of woolfelt, thoroughly saturated and waterproofed with asphalt. This sheet alone provides far more resistance than most roofs even without the extra layer of asphalt and the crushed slate.

Carley Lastile Roofing wears year after year, presents a most attractive appearance, requires no paint at any time and is so spark-proof that it is endorsed by the Underwriters. The first cost is but little more than that of ordinary roofings and it costs no more to apply.

It is adapted for use on residences, factories, barns, garages and is frequently used as a siding in addition to being used as a roofing. Come and see it or write us for a sample.

I Owe My Life to PERUNA

Mr. McKinley's letter brings cheer to all who may be sufferers as he was. Read it:

"I can honestly say I owe my life to Peruna. After some of the best doctors in the country gave me up and told me I could not live another month, Peruna gave me strength and energy to travel from town to town, throughout the country and having to go into all kinds of badly heated stores and buildings, sometimes staying up for hours at a time while giving my friends an account of the only medicine that has given me the necessary strength to do so."

It Cured Me

Mr. Samuel McKinley, 3507 E. 12th St., Kansas City, Mo., Member of the Society of U.S. Journalists.

F. F. Robbins, who lives in the Copper Creek section, lost his residence and most of its contents by fire about two weeks ago, the loss above the insurance was about \$1000.00.

Government experts say a drop in the temperature will have little effect upon the insects at their present stage of development. According to Agent Stone, of the Government Bureau, as soon as the insects get out of their shells and grow strength enough to fly and mate they begin by depositing their eggs on trees and shrubbery, especially on young fruit trees where there is new growth.

The Bureau of Entomology, of the Department of Agriculture, explain the cicada emerges over large areas, filling the ground from which it emerges with innumerable holes, as it swarms over the country. During the short life of the insect it leaves very decided marks of its presence in egg silks which thicken till small twigs and branches The killing of these branches causes temporary harm and a setback to the growth of the trees. The insects make and produce eggs within four or five weeks which furnish the next generation 17 years hence.

The damage to be expected this season from the locusts could not be estimated by Government experts, although they hold firm in their belief that the visitations and damage would be exceedingly heavy. Entomologists predict that this will be the worst season on record for the ravages by the insect, as their development has been aided by the hot weather. Treatment prescribed for their destruction include: Pyrethrum or insect powder, used in dry or wet form; kerosene emulsion and solutions of various acids.

THE STATE DEVELOPMENT MEETING

The business people of the State of Kentucky thoroughly realize the importance of all the citizens being prosperous, it is realized today more than ever before that every family in a rural district who fails to use enough energy to support themselves by means of products from the farm is a drain on the resources of the state, and every farmer who produces enough to support his family and one more family of like size is helping materially to keep the money expended by people in this state at home and stop the importing of things that can be produced within the state.

It has been thoroughly demonstrated that the poorest people we have, work as much and are as energetic as the people who are well to do, but they use bad judgment and fail to calculate in a way to make their labor produce the desired results. It is the intention of the State Development Committee to carry on an educational campaign that will help these fellows to use better judgment and make the products of their labor do more for them than to produce a mere living. When this point is attained, Kentucky will take her place with the states north of her.

Cut THIS OUT AND TAKE IT WITH YOU. A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something and makes that. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to make sure of getting Chaz. Berlin's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.

Grant Mullins has returned from overseas.

Mrs. Anna Miller spent Sunday with relatives at Corbin.

Emmett Bryant continues very sick. He has pneumonia.

W. T. Crawford and family are visiting relatives near Berea.

Miss Tevis Behrman has returned from K. C. W. at Danville.

Dwight Bowman has gone to Kansas to work during the summer.

W. J. Sparks has been numbered among the sick during the week.

Mrs. Ina Miller, who is here on a visit to relatives has been very sick.

The little daughter of Mr. and Mrs. Emmett Sowder is very sick today.

Mr. and Mrs. A. H. McFerron are expected to return from Florida tomorrow.

John D. Miller is flagman for Cape, Agby on the run from Louisville to Cadiz.

Wesley Meadows was with the family of his brother, J. T. Mead, over here this week.

Mrs. J. C. Taylor and little daughter, are visiting her sister, Mrs. M. F. Craig this week.

Mastor Hamlin, who lives in Detroit, has been very sick for several weeks, but he is better now.

Miss Esther Stivers spent a portion of the week with Mr. and Mrs. John W. Mullins at Berea.

Miss Bess Hamlin has gone to Detroit to spend the summer with the family of her brother, Marion Hamlin.

Mrs. Betty Hansel has returned to her home here after an eight month stay with her daughter in Wilton.

Mrs. Jack Lawrence and daughter, Mary Elizabeth, are with Dr. and Mrs. G. B. Lawrence at Level Green.

Judge Cam Mullins was in Frankfort Monday and received one of the army trucks for use on our roads.

Mr. and Mrs. S. F. Bowman and Miss Lorena Mullins attended Berea College commencement Wednesday.

Mr. and Mrs. W. G. McBees spent from Sunday until Wednesday in Louisville. Mr. McBees was buying goods.

Misses Emma and Grace Taylor, Bessie Ramsey and Mrs. August Krueger and children were in Crab Orchard Friday.

E. G. Cooper, of Jefferson, Tenn., is visiting his brother, J. L. Cooper. He says he doesn't know when he's going to return.

Mr. and Mrs. Grove Sowder have returned to Mt. Vernon and are occupying Mrs. Oscar Wallen's property on Main street.

Mrs. Mattie Mullins has been visiting friends in Berea and Lexington and also her uncle, Judge W. R. Cress, at Monticello.

M. O. Miller who is telegraphing at Emory Gap, Tenn., is with Mt. Vernon relatives. Mac looks just the same as he did several years ago.

Mrs. W. T. Francis, and daughter, Mrs. Oats, left this week for Monticello where they will spend the summer. Mr. Bradbury is occupying Mrs. Francis' residence.

### LOCAL

See Fish's about your summer underwear today.

Closing out sale of women's gingham dresses, 98 cents, so long as they last, at Drummond's Store, Livingston.

Some new things for men and young men arrive daily at Fish's. Just received a lot of matting rugs, all sizes - at Drummond's Store, Livingston.

Work on the Dixie Highway near town is progressing fine. The boys from Frankfort are doing good work and seem to be well satisfied here.

More than fifty have gone from this county as witnesses in the trial of W. M. Mullins at London for the killing of Luther Manus. They will be used as character witnesses.

Remember there will be another sale at the Rockcastle Stock pens on the third Monday. Get ready, if you want to buy here and if you have something to sell bring it in.

The convicts are getting lined out and are doing splendid work and the County Engineer, O. T. Bradbury knows how roads should be built and he is seeing to it that what is done, is done right.

Mr. Dan Sowder, age about 78 years, died at his home in Indianapolis last week. The deceased was a former citizen of this county but has lived in the Hoosier capital for many years. He has a number of relatives in this county.

Dr. M. K. Pennington, dentist, visited with Mrs. Kate Price for the property on old Main better known as the D. C. Poynter residence. The property will be repaired and used for a parsonage for the minister of the Baptist church.

Reports from London are that up to 3 p. m. yesterday eleven jurors had been secured in the Mullins case and the full jury was expected by the close of the day and that the trial would begin this morning. Some eighty or ninety witnesses have been summoned from this county.

Jas. Wesver, who left this county several years ago and located at Hamilton, Ohio, brought the remains of his son, W. H. Weaver, age 26 years, back and laid him to rest on last Monday in the Mareburg cemetery. Young Weaver was a victim of tuberculosis and had been sick for several months.

Through an oversight last week we failed to mention the marriage of Miss Miranda Baker, daughter of Mr. and Mrs. Andy Baker, of the Plato section of Pulaski county and Victor Price, of Level Green. They were married more than a week ago in Jeffersonville and we understand will make their home at Livingston where Mr. Price expects to be in business.

Miss Kate DeBord, daughter of Mr. and Mrs. Wm. F. DeBord, of the Level Green section, and William Snyder, prominent farmer of Cherokee, Oklahoma, were married this week at the home of Mr. and Mrs. T. J. Nicoley. After visiting his people near Corbin they will leave for Utah where they will make their future home.

FARMERS COMMUNITY MEETING. B. J. Sandman, the advance agent of the Farmers Community Meetings to be held throughout the state this summer, was here on Wednesday evening and met a few citizens and went over the matter with them. It was decided to have a meeting in this county commencing July 14th and lasting three days. There will be a new instructor for each meeting and the various questions bearing on bettering conditions throughout the county will be discussed. A few years ago we would have had some apprehension about getting people from the country to attend a meeting of this kind, but we now have no fears about a good attendance, for no one now doubts the advisability of leaving his work long enough to hear discussions of such general importance. The people of this county have been awakened to a realization of the fact that to cooperate and use up to date methods, each and every one will be benefited, either directly or indirectly. To have this meeting accomplish the greatest good, every one should be interested and talk the meeting amongst their neighbors, as well as make up their minds to attend every session themselves.

The Dr. M. K. Pennington, dentist, is in Brodhead this week. Read ad of Clark & Co., the new Livingston grocery firm. They are successors to J. P. E. Drummond.

See Dr. M. K. Pennington, the Dentist, who is in Brodhead for a week or ten days if you need dental work. Add elsewhere in another column.

The Boy and Girl Scouts in charge of Arthur Cooper and Miss Helen Autman hiked to the caves at the big fall last Friday. After going through the caves and eating lunch they spent the evening hiking through the woods. It was reported that the day was very joyfully spent.

The Legal Sons were given a social at the home of Rev. H. T. Young Thursday night, May 29. It was one of the most enjoyable of the season. Delightful refreshments were served. Those present were: Misses Christine Davis, Ruth Mullins, Bonnie Nicoley, Dessie Nicoley, Margaret Sparks, Dorothy Albright, Edna Davis, Eliza Langford, Mesdames H. T. Young, Cleo Brown, C. C. Davis, Messrs. H. T. Young, C. C. Davis, Richard Cox, Logan Bryant, Arthur Cooper, Earl Cox, Roscoe Adams, Ralph Griffin, William Sparks, Bill Johnson, Russell Vernon Cox, Everett Bryant, and John Albright.

New Clerk. Woodard Rev. Joseph W. Hagin was here to deliver that masterly address at the High School Commencement, in the subject of the new Christian Church Building for Mount Vernon. He said the Christian people everywhere are waking up to the great importance of having an attractive church building well located. "I am quite sure," said he, "that the people of this good town fully appreciate the necessity of constructing such a building and that they can and will do so. It takes work, but you people have the push and ability to do anything you once make up your minds to do. It will be joyful news to me to hear that Mount Vernon has started a building that will be a credit to the great and sacred cause for which it will be erected."

A large crowd was present from all sections to attend the Memorial services at Scaffold Cane church last Sunday. Sparks Quarry will soon start work again. The demand is as great and when the Sparks Quarry plant is ready, the output from the W. J. Sparks Co. will be as great as the 1913 and 1914 run, which was the banner year for the company. Elder James Riddle tells a very interesting bee story. For nearly three years he had not had any bees, but in his yard were three empty stands. One day last week a swarm or possibly a part of the swarm came, lighted on one of these stands and went to work. Later in the day another swarm or the rest of this same swarm came to the same stand and they likewise went to work. How these busy little creatures happened to come to this empty stand and whether those that came first were all of one swarm, and those that came later, were another swarm or whether those which came first were preparing the way, as some says, for the others which followed later in the day. Elder Riddle regarded it as a very peculiar incident and a fact that would be of interest to raisers- and lovers of bees.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surface of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, Ohio. Sold by all Druggists 75c.

## OVERALLS

Overalls are advancing every day. We have a large stock and still selling at old price

**CROWN OVERALL \$2.50**

THE CASH STORE

WE LEAD — OTHERS FOLLOW

## "My dealer was right — they do satisfy!"

There's more to a cigarette than "pleasing the taste." Other cigarettes, besides Chesterfields, can do that.

But Chesterfields do more — they begin where the rest of 'em stop! Because Chesterfields "touch the smoke-spot," they let you know you are smoking — they do SATISFY!

There you have it — SATISFY. It's all in the blend — a blend of fine selected TURKISH and DOMESTIC tobaccos. And the blend can't be copied.

That's why it's Chesterfields or nothing if you want this new thing in cigarette enjoyment.

Signature: Lippincott's Tobacco Co.
