POLICY OF MT. VERNON SIGNAL

UNDER NEW MANAGEMENT.

The very fact that the Signal is under a new management necessitates a new policy. However, it does not necessarily follow that there shall be a radical departure from the policy of my predecessor. The new policy will be very broad in its nature and very liberal in its spirit. I am more interested in the whole of Rockcastle than I am in any part of it. I want every part of the county to feel that those things that are of most interest to it and most vital to its best interest can get space, courtesy and support in the columns of the Signal. Mt. Vernon will not be given preference over the most remote part of the county. The Signal will be unselfish in spirit and as liberal in policy as is consistent with honesty. However, no sect, faction, party or individual will be permitted to take advantage of this liberality and use it as a means toward selfish ends. The editor bases his politics and he thinks that every other man should have, but he thinks that every man should hold that political faith that, as an honest man, he is compelled to hold. The Signal will not be run as a political paper, in the sense of partisan politics—it will have no politics. If any are hoping that it will have, we must

disappoint them. If any are fearful that it will have, there are no grounds for their fears.

We shall be very liberal with churches, schools and kindred organizations. Our space is free when we can help you in filling the minds and hearts of Rockcastle's sons and daughters up toward nobler ambitions and nobler ideals.

We shall appreciate suggestion and constructive criticism. There are many people in the county who can be very helpful in making the paper better from week to week. But if you want to "kick", we are deaf. If you want to fight, pass on, we haven't time. If we make mistakes, remember that we saw the mistake and resolved to do better before you ever saw it.

This is to be a Rockcastle paper. Remember that we have not taken the whole of North America for our field. We expect our motto "For a Greater Rockcastle" to be our ideal and challenge. There are richer and better developed counties in Kentucky, but we doubt whether this old Common wealth has a child that is developing faster at this time than Rockcastle. She is a Mountain county because she has the spirit of the mountains. There is a mysterious, indelible something here that holds one, as the "hang" of the sea holds the heart of the sailor. This intangible Spirit of the Mountains seems to hold me fast, and if I may have but a small part in bringing about a Greater Rockcastle, I shall count the years given to this as invested in a worthy cause.

Bring whatever you have to sell or exchange to Mt. Vernon on Auction and Exchange Day, Monday Oct. 20th, and you can sell it for the cash or exchange it for something you need worse. The Mt. Vernon Business Mens Club will see that the auctioneering is done without cost to any one having anything to sell. This means everything except stocks and bonds and is for the benefit of the people of Rockcastle and adjoining counties who want to buy, sell or exchange.

AUTO SPEED KINGS WILL MEET AT CINCINNATI, SUNDAY, OCT. 5

300 Mile Race for Purse of \$20,000 Will Be Staged for Visitors to World Series Games.

Gaston Chevrolet and Joe Boyer, pictured above, are two of the youngest of America's speedway drivers. Both will be seen at the wheels of Frontenac cars in the race of October 5, and both are confident that they will be able to duplicate the feat of Gaston Chevrolet at Simpson's Bend last Saturday, when he drove his car the entire distance without visiting the pit. It is expected that there will be four Frontenac cars in the race, all being of American manufacture.

With the fixing of the schedule for this year's series, the season of the Frontenac Speedway Company now is able to announce definitely the date for the mountain race. The date for the mountain race has now been in course of preparation for some time. In order that visitors to the city remaining over between series may have the opportunity of seeing this thrilling event, and also to accommodate the thousands of speed fans who can not wait the time to see a meet of this kind on week days, the management has selected Sunday, October 5, as the date for the contest. This date will eliminate conflicts with any other big sporting events, will give those who remain in the city while the races are in Chicago an opportunity to see an extraordinary attraction, and will draw more fan enthusiasts from hundreds of miles around to the city for the day.

Practically all the star drivers now in America will participate in the contest for the \$20,000 purse offered for the mountain race. Among them will be Gaston Chevrolet, who established a pace record for 120 miles at Simpson's Bend last Saturday. His brother Louis, who drove his burning car half way around the track with flames bursting from the hood, also will be satisfactorily recovered by the time the race is staged to participate. Other starters already entered are Howard Wilcox, winner of the Derivation Day race at Indianapolis; Ralph De Palma; Walter Stolt; Eddie O'Donnell; Joe Boyer, Jr.; Art Klein; Dave Leggs; Tom Milton; Ralph Stafford; Tom Hickey; Joe Thomas; Nicholson and others.

Major improvements have been made in the Speedway, which now is the fastest track in America and undoubtedly will produce new records at this race.

DELCO

Electric Light & Power for Farms, Country Homes and Small Towns

It Pays For Itself

Today there are over 70000 satisfied Delco Light users. Delco-Light has been developed and perfected by electrical experts through a period of over six years. Delco-Light has been made so simple mechanically that a child can take care of it; no carburetor; no belts; no cranking; no water to carry; only one place to oil. Delco-Light is designed to use coal oil as fuel—making the cost of electric light and power actually less than the cost of the old-fashioned oil lamps. Delco-Light increases the comfort and convenience of farm life.

It is only a question of time until practically every farm, country home and small town will be electrically lighted—Economy, comfort, convenience, demand it. There are other systems, but for service, economy, and simplicity, the Delco system has no equal.

We are prepared to sell and install these plants complete (including house wiring). And remember people, we stand back of what we sell and do—we guarantee satisfaction.

Let us figure with you.

BEGLEY-JOHNSON

The Begley-Johnson wedding on Wednesday evening September 24th was one of the very prettiest social events that Mt. Vernon has witnessed. The attractive new home of Mr. and Mrs. O. T. Johnson, on Richmond Street, was beautifully decorated in yellow and white, by Miss McFerron. Just at seven o'clock Miss Ruth Mullins began to sing "Because". As the last notes of this song died out, Miss Altman, Musical Director of Langdon Memorial School, began the strains of Lohengrin's Wedding March. Master Thomas O'Hara and Little Miss Martha Landrum were the sweet and interesting ribbon bearers. Messrs. Ramsey, Richards and Karl Cox were the Groom's attendants. Misses Elsie Jacoby and Bonnie Nicely were the Bride's Maids. Miss Lucille Albright came next as flower girl, scattering rose petals along the white pathway that led to the altar. The Bride and Groom followed over the rose strewn pathway to the altar where Rev. H. T. Young spoke the words that bound Byron Bernard Begley and Mary-Hazel Johnson as one.

An informal reception was held following the ceremony. Delightful refreshments were served and the many friends and relatives in attendance enjoyed a brief social hour.

The out-of-town guests were as follows:

Mr. and Mrs. W. M. Egley, of London, Ky.; parents of the groom, and Mrs. R. W. Dyche, of London, Ky., Mr. and Mrs. Koscoe Robinson, of London, Ky., Mr. and Mrs. H. H. Wood, of Wildie, Ky., Miss Elsie Jacoby, of Lexington, Ky., Mr. and Mrs. J. M. Laswell, of Orlando, Ky., Mr. and Mrs. R. L. Langford, of Pine Hill, Ky., Miss Janet Lusk, of Paris, Ky.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals; a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headaches. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

THE FORD'S

Judging from the number of cars of all makes that are being taken thru here by Southern dealers, the folks in the South-land must be automobile crazy. There has been something like 50 "in transit" cars going thru here this week. Some may wonder how they get over the roads south of here but they do it just the same.

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Taste quality or refreshing flavor and fragrance; or, that wonderful mellow-mild-smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full-of-satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarette aftertaste or unpleasant cigarette odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in practically every pack size of 20 cigarettes, or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply as when you travel.

Rockcastle has the best tobacco she has ever grown. In fact, our tobacco crop is better in quality than the crop in the blue grass counties. One of the biggest loose-leaf ware houses in the state is being built in Lancaster. The tobacco raiser-to make success must have a good and available market.

No place is far today that can be reached over good roads. Any place is a long way if you must travel over rough roads.

DESPONDENCY
Sufferers from indigestion are apt to become discouraged and feel that complete recovery is not to be hoped for. No one could make a greater mistake: Hundreds have been permanently cured by taking Chamberlain's Tablets and can now eat anything that they crave. These tablets strengthen the stomach and enable it to perform its functions naturally. If you have not tried do at once.
