The first lot of tickets will be given away in Mt. Vernon on Saturday, January 8th, 1930. Before here if you want some of these season tickets.

THE BEST COUGH REMEDY

When a druggist finds that his customer is sick with a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy.

J. B. Jones, a well known druggist of Coburn, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and found it to be the best cough medicine I have ever known."

PALE CHILDREN NEED GUD'S PEPTO-MANGAN

Unnatural for Children to be Pale and Thin—Paleness is Sign of Thin, Watery Blood.

Pepto-Mangan Makes Red Blood Prepared in Liquid and Tablet Form—Both Possibilities Identical Medicinal Qualities.

It is necessary for boys and girls to laugh, romp, play, and enjoy themselves, for it is at that stage of life that the foundation is laid for future health.

Prompt attention should be given to the child who seldom laughs, whose physical condition prevents playing like the other children, whose appetite is poor, and who tires easily.

If the lassitude is due to poor blood, which is often the case, a simple, safe, and pleasant remedy is within easy reach. Gud's Pepto-Mangan is just the tonic for pale, thin children. Gud's Pepto-Mangan contains the very ingredients that increase and enrich the blood, enabling it to supply the entire body with the sorely needed vigor, strength and vitality that make happy, romping children.

For the convenience of the public Pepto-Mangan is prepared in tablet as well as liquid form. Both forms possess exactly the same medicinal properties.

When you ask the druggist for Pepto-Mangan, look for the name "Gud's" on the package. If it is not there it is not Pepto-Mangan.

For sale in Mt. Vernon at C. C. Davis Drug Store.

Ford THE UNIVERSAL CAR

The Ford Sedan with electric starting and lighting system and demountable rims with 3 1/2-inch tires all around, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is ideal for social functions, the theatre, or parties; carrying the children to school, or for touring. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability. We solicit your order for one. Chandler Strides into Full Leadership

If there has ever been any question as to Chandler leadership of the medium-priced fine car field, it is answered now. The great Chandler Six is sweeping its market. It displaces less efficient cars. It steps in to serve those who previously have chosen only high-priced cars. And it pleases everywhere.

From two thousand to three thousand discriminating Americans bought Chandler cars—open and closed—every month this fall. And at no time has the demand been fully met. Thousands have waited months for their new Chandlers, and have felt repaid for waiting.

Nothing could more clearly show the regard in which America holds the Chandler Six, than the patience with which these thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for—because they knew it was worth waiting for.

SOME HISTORICAL FACTS ABOUT DETROIT.

Detroit, Michigan.
Jan. 2-1920.
Dear Signal:

On Monday the 22nd day of December, I left my home in Brodhead, Ky., to visit my children in Detroit, Michigan. When I alighted from my train I found all my children and grandchildren who live in Detroit at the depot in waiting for my coming. After a happy greeting they loaded me in a car in the midst of a snow-storm and rushed me to the home of Mr. and Mrs. John Evans there in conversation we spent the most of the remaining part of that night. On Wednesday I went to the home of Ben J. Pike, whose wife was Miss Lizzie Cable, a niece of R. H. Mummy of Brodhead, Ky. And after enjoying a pleasant day and partaking of a delicious supper, I had the pleasure of saying the words that made Miss Sue Frank Cable and Mr. David William Hall, husband and wife. The young couple left on the night train for the home of Mr. Hall in Canada, where they spent the holidays. Mr. Hall is a fine young gentleman and Miss Cable is known in Rockcastle to be one of her belles before coming to Detroit and she has not lost anything in looks since coming. Since I have been in Detroit I have met quite a number of Rockcastle people, some of whom I will name: William Cummins, who married C. C. Metcalf's daughter, Charlie Metcalf who married John Dillingham's daughter, C. C. Howell, who married Uncle Ben Xudon's daughter, James Hagg,

who married Miss Martha Bator of Brodhead, Joseph Hiddle, whose wife was Miss Mary Furnish, M. L. Hamlin, Charlie Moore, who married Miss Etta Cable, of Brodhead, Little John Heron, Misses Bess Sproule and Susie Hicks, all of Brodhead. The writer has a son and daughter and six grand children in this city, so you can see that I am at home with my people. It seems like all these Rockcastle people are satisfied and are all doing well financially, but I cannot tell about their religion. I will now give some historical facts about Detroit.

Detroit was founded in the year 1701 by a French nobleman, Cadillac. Surviving many Indian attacks the little French settlement became a small village with outlying farms stretching back in narrow strips of land fronting on the Detroit river. In 1860 Detroit became a British possession but the French population remained. In 1796 the Americans under Gen. Wayne took the city from the British. In 1812 Detroit was surrendered to the British by Gen. Hull but it was recovered by the Americans in 1813 following their naval victory on Lake Erie under Commodore Perry. When Michigan became a state in 1820 Detroit had 5,000 population; during the Civil War 46,000; in 1863, 100,000; in 1888, 200,000. Since 1900 Detroit has gone forward so rapidly that her own inhabitants find difficulty in realizing her greatness. The following table shows her almost unbelievable growth:

Population	Bank Clearings	Building Contracts
1900..... 286,000	\$ 427,800,882.00	\$ 4,142,400.00
1910..... 488,000	918,850,807.00	17,225,945.00
1918..... 1,044,000	3,381,130,372.00	18,248,832.00

In 1917 the United States Census Department in enumerating the population of cities for the conscription measure placed Detroit the fourth American city in population. Thus in a generation Detroit's population of the city has more than trebled and has jumped from being nineteenth American city in 1900 to the fourth in 1919. While this wonderful development is inseparably connected with the motor car industry, Detroit also leads

Miss Halla Barnes is able to be back in W. O. Yaden's store after a short illness. The rail road surveyors who have been here for past three weeks left Tuesday for Mt. Vernon. F. F. Robbins sold to Miss Hamm 15 fat pigs at 12 1/2 cts. per pound, 85 lbs. Mrs. James T. Frith, of near Bee Lick, is very sick. Old Aunt Sallie Adams is in town this week with friends. Miss Jewel McWilliams has returned to Berea where she is attending college. Tony Reuter and Mr. Moses were in Stanton Saturday night. Dr. W. E. McWilliams received a message from Louisville Monday afternoon that the small child of Mr. and Mrs. Dallas Dillingham was dangerously ill. Dr. and Mrs. McWilliams left on next train. Mr. Dillingham is a brother of Mr. McWilliams.

SNOW BOUND

Shut in from all the world without, We sat the clean-winged hearth about, Content to let the north-wind roar In baffled rage at pane and door, While the red logs before us beat The frost-line back with tragic heat; And ever, when a louder blast Shook beam and rafter as it passed; The merrier up its roaring draught The great throat of the chimney laughed, The horse-dog on his paws outspread Laid to the fire his drowsy head, The cat's dark silhouette on the wall A couchant tiger seemed to stalk; And, for the winter fireside meet, Between the andirons straddling fast, The mat of elder simoness slept, The apples spluttered in a row, And, close at hand, the basket stoo'd With nuts from October's wood. What matter how the night behaved? What matter how the north-wind raved? Blow high, Blow low, not all its sobs Could quench our hearth-fire's ruddy glow.

Handsome Community Home at Speed Was Dedicated Last Night

Structure Was Built By Louisville Cement Company At Cost of \$25,000.

Built at an approximate cost of \$25,000 by the Louisville Cement Company, the handsome and well equipped community house at Speed was dedicated last night, several hundred persons being present. The guests were employees of the mill, their families and persons from Seelysburg and the surrounding country. It will be conducted to an extent on plans of the Y. M. C. A., but will not be organized in any way with that organization. E. K. Geney, of Mt. Vernon, Ky., who has been a Y. M. C. A. worker since returning from service in the army, has been selected as director. The main building is 68x78 in size, with a basement and two large wings. The material used in construction was stucco and cement, with tile floors for the interior. The house was built at the expense of the company, which will pay the cost of maintenance. All revenue that may be derived from a picture show, pool room, cigar stand and other amusements will go into a fund, which will be in charge of an Executive Committee, for betterments, providing additional paraphernalia and adding amusement devices. One large room has been set apart for the women and girls as a rest apartment. There is a large lounge and reading room, with a good library for general use of both men and women. A feature is a well equipped pool room, which is large enough for other social games, connected with which is a cigar stand. In the basement are a bowling alley, barber shop, hot and cold water shower baths. The building has electric lights and steam heat, and a fine lavatory is being installed. Back of the house is planned to establish a park on the seven or eight acres of ground. This will be for an athletic field, where sports of all kinds can be enjoyed.

Chester Welch left Wednesday for Wichita Falls, Texas to be gone several months. Mr. and Mrs. Stanton Eldor will return to Bradford to live. Uncle Fellen Francisco left Sunday to visit relatives in Lafollet, Tennessee, Williamsburg, and Livingston. Walter Robbins is in Nicholasville for a few weeks. Mr. and Mrs. F. B. Moore and children, of Arizona are the guests of his parents, Mr. and Mrs. J. W. Moore. Mrs. W. A. Robbins is numbering with the sick. School reopened Monday with all the pupils and faculty back in the place and several new pupils enrolled. Wedding bells will ring again next week. F. F. Robbins was at Ottawa last week overseeing some road work. The roads were in such a condition that it was almost impossible to travel over them, and in one place a horse team, and in one place a horse team, that it was necessary to kill it before they could get it out. Squire Robbins says he will do his utmost to get the Fiscal Court to have the county roads worked in the Spring instead of the Fall. D. B. Chandler and James Pike, of this place were on train No. 22 which turned over near Shepherdsville Tuesday evening. Mary and Margie Carter, little daughters of Dr. and Mrs. Carter, were very sick last week. Little Hazel Todd is doing as well as could be expected. She was in a very bad condition Monday but some better last report.

AMERICAN HORSES MAKE BAD SHOWING

GREAT WAR FOUND US POORLY PREPARED IN ARTILLERY ANIMALS.

French Army Furnished the Thorough-breds that Enabled Our Guns to Stop Ludendorff's Drive Toward Paris and Victory.

It, after seventy-five years of exhaustive and continuing experimentation, a work that had cost the great military powers of Continental Europe—Russia, Austria, Hungary, the German Empire, France and Italy—no less than the aggregate of \$400,000,000 or \$500,000,000, additional proof of the superior nature of our stock in the artillery horse. The comparative wastefulness of cold-blooded that proved itself in the experience of the Second Division of the American Expeditionary Force in the summer of 1918. The Second Division was the division which the famous Marine Corps was brigaded. The Second Division was the best equipped of the American grand units to receive the test. The cream of the transport service was in its artillery and transport departments.

On June 1918, the Second Division was ordered from a quiet sector of the Western front to the front of the western line of the great Marne salient. The German offensive of March 1918 had created in the French line. Foch had sensed the impending Ludendorff thrust that was to win Paris and the French Republic. He was assembling all his available soldiers, and the best of his artillery, in order by the Second Division involved a march of less than 100 miles, 90 to be exact. The Second Division, composed of the best of the American blooded horses of the artillery brigades, met the test. The Second Division, without having come under strain. Upward of half the horses that were sent out of the line were completely done up. They were unable to be sent to the front for reconditioning with the ultimate object of returning to service.

Because of the collapse of his horse reserve, the Second Division did not have the strength that was to terminate in the winning appeal of the German army for an armistice. The Second Division fought the first battle of the war in which it suffered outrageously in consequence. The artillery brigade reached the zone of operations late in the afternoon. It was enabled to take part in the series of operations that completely demoralized Ludendorff's drive. The German army and the great German army on the Western front were able to re-equip it from the surplus horse supply of the American Expeditionary Force. The French were able to re-equip their animals because up to the beginning of March the war had been a war of attrition. The German army had no hard demand for horse reserves of the French army. When the great war came to its end, the United States had a large stock of horses at home and abroad. The United States had a large stock of horses at home and abroad. The United States had a large stock of horses at home and abroad.

Our Cavalry Now There. For such misdeeds of infantry and artillery in the last year, according to the most advanced military opinion in the world, the cavalry is being treated as a sufficient fraction of the army. The cavalry is being treated as a sufficient fraction of the army. The cavalry is being treated as a sufficient fraction of the army.

HUNGER Knows No Armistice

We as a people of Rockcastle county have played such splendid parts in connection with all calls for help that have come from all sources in the last year, that we feel sometimes as if we are going to quit giving, but then there comes the better and higher self to the front and says, "No, we must carry on," just as our Father in heaven gives out his daily blessings to us. We must keep helping others. We must try to stop the cry of hunger in the nearest. We are called upon as a Christian people of Rockcastle county for \$600. The Campaign will start in a few weeks. Our headquarters will be in the Peoples bank and the Secretary and Treasurer will be Miss Bess Sparks. Write for help to C. C. Davis, Chairman.

The Fourteenth Decennial Census of the United States is on! Under the immediate direction of Nat M. Elliott, Supervisor of the Eleventh census district of Ky., census enumerators will call at every dwelling house in this community to secure the information necessary to fill out the printed census schedules. Questions covering the following points will be asked of every person in the United States:

- Sex.
- Color or race.
- Age at last birthday.
- Whether single, married, widowed or divorced.
- Birthplace of person enumerated and birthplaces of father and mother, giving names of both country and province if foreign born, occupation, specifying trade or profession, also industry in which employed.
- Whether able to read.
- Whether able to write.
- Whether able to speak English.
- Whether home is owned or rented, and if owned whether home is free of encumbrance or is mortgaged.
- Persons of foreign birth will be asked questions concerning these additional points:

Each farmer will be asked questions concerning the acreage and value of his farm, whether he owns, rents or partly-owns and partly rents the land he farms; the value of the buildings, machinery and implements belonging to his farm; the amount of all crops raised on his farm during the year 1919; and many other questions which cover all possible farm operations.

An absolutely accurate and complete census vitally concerns the welfare of this community and of every person living in it. The official population for the next ten years will be determined by the census of 1920.

Be ready with your answers when the census can call at your house.

Former Speaker of the National House of Representatives, Champ Clark, of Missouri, is one of the alumni of Transylvania College at Lexington. Speaker Clark wrote in interesting vein of his experience as a college student at Lexington in an American Magazine of several years ago.

Henry Clay a Professor in Transylvania College. It may be news to many Kentuckians that Henry Clay, one of our greatest statesmen, was at one time a Professor in Transylvania College and that he was a curator, after leaving the college for the field of politics, until his death in 1852. Mr. Clay's professional career covered the three years from 1844 to 1847.

Excluded Tary Estates Formed First Financial Support of Transylvania. Three exchequered estates of Tories, two from Fayette and one from Jefferson county, formed the first financial support of Transylvania College. George W. Blandford, of C. A. Blandford seminary, Washington, Aaron Burr, General LaFayette and John Jacob Astor, list were among the first who gave to its endowment.

Train No. 22 was wrecked at New Hope on Tuesday evening. Conductor Rose was in charge. The engine passed over the coaches rolled down an embankment. The steel cars probably saved many fatalities. Among those who are injured is Miss Ella Mae Blandford, twenty year old daughter of C. A. Blandford, & N. Agent at Livingston. Miss Blandford is in Elizabeth's Hospital, Lebanon.

HOPEWELL

George Deatherage is seriously ill—Mr. and Mrs. George Perciful, and children, of Mt. Vernon, spent several days with friends and relatives at this place last week. Homer Carnical was with his cousins, Ewell, Robert and Roy Cummins, at Mt. Vernon Saturday and Sunday. Alfred Barnes has moved to Berea. Married, January 4th, Miss Bessie Marler and James Stephens, both of this place. Clara Carnical spent Tuesday with Mrs. Alfred Barnes. Mrs. Wm. Sowder spent last week with her daughter, Mrs. Charles Shepherd, near Mt. Vernon. Mr. Amanda Hasty has moved to Mt. Vernon. Mrs. Robert Logsdon closed her school here last Tuesday. Mesdames Nath and McKinley Arnold spent Tuesday evening with Mrs. Alfred Barnes. Mr. Ed Fletcher Sr., and Charley Marler have to Harlan to work. The wedding bells will ring in this part before winter is gone, but will give us names until a later date. There has been another new dwelling put up at this place and to be two more in a few weeks. So by spring we will have quite a little town in the dry Valley. Listen! boys had you stoppe to think about this being low year? It is the old rule for girls to go courting instead of the boys. So look out. There has been another new dwelling put up at this place and to be two more in a few weeks. So by spring we will have quite a little town in the dry Valley.
