We call attention not so much to the size of this average daily production as to the extent of the effort we put into the making of these 30x3-, 30x3<sup>1/2-</sup>, and 31x4-inch sizes.

The parate factory we have devoted to their manufacture is not only the largest of its kind in the world, but it makes fully effective that experience and resourcefulness which have produced the tires most popular on the higher-priced cars.

No tires bearing the Goodyear name contain a higher relative value than these tires for Ford, Chevrolet, Dort, Maxwell and other cars requiring the sizes mentioned.

If you own one of these cars, go to the nearest Goodyear Service Station Dealer for these tires and for Goodyear Heavy Tourist Tubes. He has theta.

### Athletic Notes

The Athletic Association is progressing nicely, having contracted for the fair grounds, and have the diamond practically completed. The grounds were in pretty bad condition but with the aid of a stump puller, several teams and a gang of men they bave made a remarkable change in the appearance of the grounds.
