FOR SERVICE, NOT SALARY.

I hereby announce myself as a candidate for Representative in the Kentucky Legislature...

ments, regardless of their home...

Fourth—Apportionment. Following the 1920 census, it will be necessary to re-apportion the State into Representative, Senatorial and Congressional districts...

Every section of the State is entitled to exact justice and no more and the patriotism of this 20th century will not sanction an apportionment that makes ONE man in one section equal to 19 1/2 in another.

Fourth—Education. Every child in the "Old Kentucky Home" deserves just as good an opportunity as any other child, anywhere in the world.

Every child in the "Old Kentucky Home" deserves just as good an opportunity as any other child, anywhere in the world.

With proper economy and business foresight, we should build and maintain good roads and highways in every section of the State, at the earliest date possible.

The Nineteenth Amendment having clothed the women with the elective franchise, wise and judicious legislation may be necessary to further and more fully define their status as citizens.

Such legislation as may be necessary to make the Eighteenth Amendment effective and control the manufacture, sale and use of intoxicating liquors.

S. F. BOWMAN.

To The REPUBLICANS OF Rockcastle County.

Having been urged by a number of my friends from all parts of the county to make the race for County Judge, I hereby announce myself as a candidate...

As your public servant for the past eleven years, I have done my very best, and I will leave it to your judgement, whether or not I have been faithful to the trust you have imposed in me...

There are evils existing in this county which if not checked will sooner or later destroy the very foundations of our peace and happiness. I shall take a firm stand against these things, not only in word, but by act and deed.

I am for public improvements so far as our means will permit, always remembering that we are a poor people and that taxation, though it be for a good purpose, can become a burden.

Your friend, S. F. BOWMAN.

To The Voters of Rockcastle County Both Men and Women

I hereby announce my candidacy for the Republican nomination for the office of County Clerk, subject to the action of the Republican party, at the next Primary Election, August the 6th, 1921.

Dear People: I have no picture to put in the paper for you to see once a week, but I hope to see each and every one of you before the 6th day of August, then you can be the judge of your own feeling toward me.

I am sure I can do the work in this office, and will do it in a nice clean way, if you will only give me the chance.

Thanking you in advance for all favors shown me, I remain Respectfully, Mrs. LEILA MAY COOPER

Corbis, Ky., Jan. 22. The whole neighborhood at Woodbine three miles from Corbin, on the L. & N. railroad, is excited today over an egg laid by a hen belonging to Mrs. Nettie Faulkner, and on which appeared the words in script in brownish letters on the shell, "Notis, January 25, 1921." The handwriting has not been identified as of any member of the family nor does it appear to come from a lead pencil or ink, but is plainly visible, worked into an apparently part of the hatched shell of the egg. How the letters got there is a mystery. No explanation has yet been found. Neighbors viewed the egg today and exhibited at a local drug store. Part of the egg was soft, but the letters appear, it is said, on the hardest part. It was not broken, is of normal size, and was taken from the nest by Mrs. Faulkner herself, who was first to discover the inscription. Louisville Herald Jan. 21.

The above article is vouchered for by Mrs. Selma Monahan of Woodbine, in a letter written to her mother, Mrs. Mahala Jones.

Brew His Crutches Away

Rheumatism and Other Troubles Overcome by Tanlac—Nothing Else Ever Helped Him.

"I had one of the worst cases of Rheumatism a man ever had, but after six bottles of Tanlac I threw my crutches away," said Thomas Evans, 119 West Street, Akron Ohio.

"My feet were so swollen at times with rheumatism that I could not get my shoes on," he continued "and frequently my knee became so swollen I could not get my clothes on I finally became so helpless I could not work regularly or sleep to do any good. I took all kinds of medicines but my trouble stayed right with me. A stranger saw me on the street in my home and asked me what the trouble was I told him rheumatism and he said was in the same fix himself until he started taking Tanlac.

"He seemed so positive that Tanlac would help me that I began taking the medicine. The first bottles didn't seem to do me any good, but I stuck to it and the second bottle began to straighten me out and by the time I had finished the third bottle I was actually back at work again and haven't lost a day since."

"I've taken six bottles now and I feel as well as I ever did in my life. I haven't a speck of rheumatism about me and feel so strong and well that I am able to do as much work as I ever did in my life. My stomach is also in perfect condition and I can eat anything I want without bad after-effects."

"I really feel like a brand new man, and I hope some day to meet that stranger who advised me to take Tanlac so I can thank him for the advice he gave me."

Tanlac is sold in Mt. Vernon by W. M. Owen, D. G. Baker, in Hazard by W. M. Owen, in

Grandmother Used Mustard

Disasters to Relieve

Congested Conditions

Grandmother also walked to town if she wished to do any shopping. Do you wish to return to grandmother's times or take an elevated car? This comparison is brought before you for the simple purpose of illustrating why people of today that are up-to-date use MINTOL in preference to using mustard plasters smelly, griping and irritating.

For colds in the head, catarrh, grip, bronchitis or pneumonia simply apply a hot, wet towel to the throat and lungs for five minutes then apply MINTOL rubbing thoroughly in for five minutes and cover the parts with a hot, dry flannel, so arranged as to allow the vapors arising from the MINTOL to be inhaled. This treatment will be found as much an improvement over the old-fashioned mustard plasters and creams as the elevated is over walking.

NOTICE: MINTOL, the latest scientific discovery for the treatment of all congested conditions such as acute or chronic Bronchitis, Spanish Influenza, Grip, pneumonia and Bronchial affections. It kills the influenza germs and acts as an antiseptic in breaking inflamed throats or nostrils. For hoarseness, a little of the MINTOL applied to the back of the tongue will give instant relief. For colds and croup, it is as effective as any other remedy. It is dispensed by Pioneer Drug Store Mt. Vernon Kentucky.

To the Republicans of the 28th Judicial District of Kentucky:

I have been chosen as campaign manager for Judge B. J. Bethurum in his race for Republican nomination for Circuit Judge of this judicial district.

It is not only a honor because I believe in Judge Bethurum, but it is an opportunity to be of real service to the people of the district. There is no office in this district that is of greater importance than the high office of Circuit Judge, and the people should be most diligent in selecting the officer who is to fill this important post.

In Judge B. J. Bethurum we have a man who has been tried and found entirely satisfactory from every standpoint. First of all he is a Christian gentleman and a man of the highest character and integrity. He is an able lawyer and a just and impartial judge.

Judge Bethurum is a true and loyal Republican and never strays from the fold. He believes in party loyalty and party regularity and in the faces between the parties he is always found in the thickest of the fight, yet as an officer in the discharge of his duty he knows no man's politics or his religion.

These sterling qualities of Judge Bethurum have endeared him to the hearts of the people of his district and assure him of re-endorsement by the Republicans.

I enter upon the discharge of my duties, confidently feeling that Judge Bethurum will be nominated by an overwhelming majority at the coming August Primary. And I earnestly appeal to all who believe in strict enforcement of law from a just and impartial standpoint to support him.

We live in McLean Co. said to be the best county in the state. It is almost a level prairie divided into well kept farms, with modern homes, good schools and churches. The soil is black and fertile. Grains of all kinds grow well, also fruits but very little attention is given to the latter except berries of various kinds.

We all like this country very well. We have good roads and traveling is done with much more ease and comfort than it is here but we haven't reached the "honeymoon" yet. It's farther on.

It is not the amount of money you save, but the fact that you have begun to save, that invests the act with a certain moral influence which, properly encouraged, becomes stronger and stronger all the time.
