

D. G. CLARK

There has been quite a lot of talk circulated over the County for the past few weeks about "line-ups and combinations" in several different races which are to be decided by our primary election...

Just after the primary four years ago, and up until the time of announcement many individuals from the several different parts of the County, asked me to make the race for Sheriff in this coming primary and pledged me their support.

After due consideration I decided to make the race and am in no combination except with the Republican voters of Rockcastle County and after canvassing most of the county I feel sure I have the strongest line-up with them for my candidate for Sheriff ever had in our County.

I am nominated and elected Sheriff of Rockcastle County no one will have me obligated to anyone except the Citizens, whom it will be my duty to serve faithfully, honestly and soberly.

Very sincerely yours, D. G. Clark.

#### OUR DUTY IN THE PRIMARY, AUGUST 6, 1921

The August Primary is drawing near. You can see the candidates everywhere. They meet you here, they meet you there. They say that the man for the right they are.

They meet you with a long, sly smile. They want to shake hands and talk awhile. They say they will do anything, big and small. But some of them from the right do shirk.

Now they're all good men, as they have said. But we want men with a level head. That will be men both day and night, and handle our laws both just and right.

Now voters of Rockcastle, it's time to awake and vote for the man that the right will take. We want the man that's worth the dollar. And will wipe the moonshine out of the bowl.

It's our duty now to fully decide. And vote for the candidate well stated by our side. When we go to the polls on August the sixth. Let's think of them as "we back in the sticks."

Your children aren't safe, keep that in mind. While that nasty moonshine is so easy to find. They carry it on horses, they carry it on mules. They drink a lot of it and then act like fools.

It's time for us voters, both I and you. To go to the polls and see what we can do. To elect good judges that are true and firm. That will break up stills and destroy the law.

And take them to prison double quick time. And lock them up both hard and stout. And fix that door so they can't get out.

We want good judges above them all. To go in the chair and good citizens call. And get them before them as they go. And let them tell them all they know.

Not a dubious man that is guilty of the crime. If you do, you'll get no indictments, not one out of nine. They make it of your mind, they make it on your left. And you know what they want to tell on their self.

Now fathers and mothers, you may take this as true. But what about your dear little son? Can you stir him up to the way he should go. Won't he drink that moonshine if you don't stop it?

Now for the sake of our children, our boys and girls. And all good people all over the world. Let's get together, and all people alike. We can make our own way to build our turpicks.

Adv. A friend to Rockcastle

## GREAT AMERICAN WOMAN, MARY BAKER EDDY

Birthplace and childhood home of Mary Baker Eddy. Near Concord, New Hampshire.

Gravestone Memorial marking birthplace of Mary Baker Eddy at Bow.

On July 10th the thought of hundreds of thousands of earnest Christian people will turn in loving memory toward the little town of Bow, New Hampshire, where one hundred years ago was born the child who is now known to the world as Mary Baker Eddy, the founder and discoverer of the most remarkable of all modern spiritual movements.

A few years ago a writer in a great London magazine, when recounting to Mrs. Eddy's "strength of character, unflinching, with extraordinary tenderness for humanity," said her "one paramount ambition has ever been the good of mankind."

While only the outer estimate of her work, the human gifts that pass across the world stage, the world is now inclined to accept the view of some of the more thoughtful leaders that among the great and good women of history Mrs. Eddy stands during place than Mary Baker Eddy.

Born in Bow, New Hampshire, in 1821, her father, George, was a farmer. Her mother, Abigail, was a woman of great piety and devotion. Her childhood was spent in the quiet of her father's home, where she was surrounded by the simple life of a New England farm.

Her education was limited, but she was a voracious reader. She was particularly drawn to the Bible and the works of the great divines of the Christian era. Her mind was naturally inclined toward the spiritual, and she was often troubled by doubts and questions that she could not find answers to in the conventional teachings of the day.

At the age of twenty, she was married to a man who was a member of the Baptist Church. They had several children, but her husband's health was poor, and he died when she was only twenty-five. This was a great blow to her, and she was left to bring up her children alone. She was a devoted mother and a woman of great strength of character.

It was in the year 1846 that she was first introduced to the teachings of the Christian Science. She was then in her thirty-third year, and she was suffering from a severe case of neuralgia. She had tried every remedy that was known to her, but she had found no relief. One day she was reading the Bible, and she came to the story of the blind man who was healed by Jesus. She was struck by the power of the word, and she was convinced that she could be healed. She was determined to try, and she was healed.

This was the beginning of her discovery of the truth. She was convinced that there was a power in the word that could heal every disease. She was determined to find out more, and she was successful. She discovered that the human mind is the source of all power, and that the human body is a machine that can be controlled by the mind. She was convinced that the human mind is the source of all life, and that the human body is a machine that can be controlled by the mind.

She was determined to share her discovery with the world, and she was successful. She was the founder of the Christian Science movement, and she was the discoverer of the truth. She was a woman of great strength of character, and she was a woman of great faith. She was a woman who was determined to find the truth, and she was successful. She was the founder of the Christian Science movement, and she was the discoverer of the truth.

the members of her church and to provide for its needs and spiritual extension. These "rules of the church," together with certain other important matters, are contained in the book "Manual," the provisions of which are jealously guarded by Christian Scientists because they consider that it embodies the essential requirements for building the church individually and collectively and insuring the ultimate understanding and acceptance of Christian Science by the world at large. In fact, some Christian Scientists believe that this manual is designed to identify and protect the progressive minority in each successive effort of the development of the church body and to stimulate the more rapid fulfillment of each individual's position in the line of spiritual evolution. Some also believe that a system that is in harmony with the scientific principles of the universe, which have been discovered by the human mind, and which are the basis of all scientific and practical progress, is the only one that can be the basis of a permanent and progressive civilization and the fulfillment of the long and noble mission of the human race.

In the 42 years since her first teaching was organized, Mrs. Eddy's church has spread throughout the world, being approximately 100,000 in number. It is a church that is based on the scientific principles of the universe, which have been discovered by the human mind, and which are the basis of all scientific and practical progress. It is a church that is based on the scientific principles of the universe, which have been discovered by the human mind, and which are the basis of all scientific and practical progress.

### Affidavit of R. L. LANGFORD

STATE OF KENTUCKY }  
COUNTY OF ROCKCASTLE } SS  
The affiant, R. L. Langford, states on oath, I am not tied up or slated with any gang, clique or clan, and that furthermore I shall not be, I am making this race on my own merits and not on the demerits of others. Furthermore, certain cliques and clans are heralding the slogan, "It's Daves' Time". Now I have contended at all times, "It's The Peoples' Time", and to the Republican voters of this County, I am looking for my support. No cliques, clans or rings have any strength, me and they will not have.

In the beginning of my campaign, I was told by some leaders of the court house gang that it would not do for me to run, that they had promised Dave, and that my time would come later. I told them I was a free man and that I would take my case to the good Republican men and women of this county and see what they said about it.

Subscribed and sworn to before me by R. L. Langford, July 12, 1921. W. H. Fish, N. P., B. C. My commission expires Jan. 14, 1922.

Men, women, voters of Rockcastle, arise in your might and lets clean house and make our County a good clean place to live in. Yours for a better Rockcastle and clean politics. Your friend, R. L. Langford,

FIVE TO ONE AT BURNSIDE

Special to The Commonwealth

Burnside, Ky., July 12, 1921. Judge B. J. Bethurum spoke in a large and enthusiastic crowd of Republicans at Lloyd's Theater here this evening in the interest of his candidacy for re-election to the office of Circuit Judge. He was introduced by Dr. T. L. Gibson, who presided as chairman of the meeting. Dr. Gibson was at his best, and in his happy style introduced the speaker in the following language: "My neighbors, I was introduced here a few nights ago as the speaker of Judge Bethurum's opponent, and being present, I was requested to introduce the speaker, which I did, and I acted as chairman of that meeting as the friend and supporter of Kennedy and it has left me the impression that I am now a man of peace. I want to distinctly understand that I am a supporter of Judge Bethurum in this race for Circuit Judge. He is a man who is impartial and is an able judge, and always stands by the Republican party. I shall never support a man for office that goes out and makes speeches for the Democratic ticket. I am a Republican that believes in standing by the faith, and in supporting candidates that have been true to the party. I know that Judge Bethurum is that sort of a Republican, and that his opponent has broken away and fought our party, and knowing these things, it becomes my duty to do all I can for Judge Bethurum. I have the honor to introduce the present and next Circuit Judge of this district, who will now address you." Judge Bethurum spoke for over an hour, and with telling effect as to where the silly charges his opponent is making against him, and demonstrated to the satisfaction of the great crowd assembled that his opponent is an expert misleader, and this being his chief stock in trade as a defendant for him is completely unreliable in the coming primary. Judge Bethurum made it clear that his record is free from deserved criticism, and shows how untruthful are the charges, and how unjust the reflections that his opponent is trying to

## VOTE FOR T. J. BALL FOR Circuit Court Clerk

REPUBLICAN PRIMARY, AUGUST 6, 1921

I HAVE been a republican all my life, voting the Republican ticket and giving both my time and money for the advancement of the Republican party. I am a native of Rockcastle County. My parents died when I was quite young, and I just "grewed up" in Bush Creek. I never went to school until after I was fourteen years of age. Then realizing the need of an education I took the Lincoln way going to the free schools and studying my books often until after midnight. Later I partly finished my education at Berea College, working my way through. My efforts to get an education were the efforts of the Honorable Boy who did not see a dollar, using the old slogan, "where there is a will there is a way." I met with some success.

I have been one of Rockcastle's school teachers for twenty years. I solicit your support on my qualifications, I passed the examinations required by law for Circuit Court Clerk. I have had a college course in book keeping; if you had a business of your own that required a book keeper you would advertise to come and from the applicants for the job I would select the man best qualified to look after your interest. There is no reason why you should not do the same in voting for a man to be your Circuit Court Clerk. Won't you recognize my qualifications and cast your vote for me?

Neither of my opponents had to strive for an education like I did. While (Livia) Ball was getting an education Mr. Papp was Superintendent of Schools for Rockcastle County, and there has been a Papp in almost all the time since then. There is one now. Won't you let Billie wait a little longer?

While Jesse D. Hobd was being raised and getting what he calls an education his father was drawing public money from your county seat for being a policeman, and he is still Mt. Vernon's Policeman.

I have given you the facts - draw your own conclusions. My case is in your hands.

Will thank you for your support in this Campaign. Yours for a better Rockcastle.

T. J. BALL

BLACK LEG Black leg is a fatal disease to young chicks. It is common to reflect quickly under two years of age. It was once on a farm of anthrax, but investigations have shown that it is a specific disease, characterized by a very specific distress from that of anthrax. The disease is spread by the large part of the nose, and some part of the feet and comb.

PREVENTION As a prevention, all susceptible animals should be vaccinated with black leg vaccine with three and four day intervals. In sections where the trouble prevails, the young chicks should be vaccinated a month or so before it is time for the trouble to occur and it should be vaccinated at widely different times in different localities, the time for vaccinating will vary some some time during early spring or summer.

AN OUTBREAK OF BLACKLEG There has been two cases of blackleg on Mr. G. S. Liversay's farm near Level Green, Rockcastle County. The county agent, text immediately vaccinated cattle for G. S. Liversay, J. H. Bullock and R. D. Bray.

Everything is ready for one of the biggest Club Camps in the State at present. All club members from Madison and Rockcastle Counties will attend. The BEST water, the BEST speakers, the BEST cooking, the BEST footing, the BEST games and plays (in fact the BEST of everything) will be the Berea Junior Agricultural Club Camp for our club members and club leaders.

LEADERS — ADULTS Parents should not hesitate to let their boys and girls attend this camp. It is strictly Christian. No smoking, no drinking, no swearing, no "guts" stories will be allowed on the ground. There will be an adult person for every ten or 12 club members. The camp will be well guarded at night.

VISITING DAY Wednesday, July 28 will be VISITING DAY in the Camp. A large number of club members and friends are asked to visit camp on this date and spend the entire day observing what has been done and being done by our clubs.

Several hundred dollars worth of fund notes to trail for a good out. Make offer. Then Pigg, 33-41 Livingston, Ky.

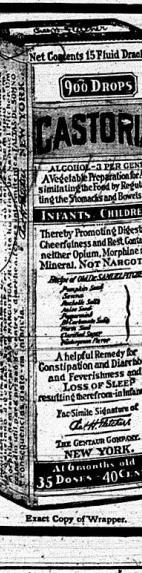

Noting is hereby given that the body of his son, Dr. Russell Price, deceased, was buried on the 24th day of August, 1921, in the final application to Governor Edwar P. Morehead on here for burial in the Elmwood Cemetery. Young Price was one of the first of our Marriages to fall by the hands of the German and was the first body to be brought from France to be buried in this city. It is hoped that all survivors here will be present at this funeral date of which will be announced as soon as is known.

Success is as natural to him as failure is to many. It is the difference between the man who is successful and the man who is not. The New Success.

Buy a pipe—and some P.A. Get the joy that's due you!

We print it right here that if you don't know the "feel" and the friendship of a Jimmy pipe—GO GET ONE! And—get some Prince Albert and bang a home-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—fragrance—in a class of its own! You never tasted such tobacco! Why—figure out what it alone means to your tongue and temper when we tell you that Prince Albert can't bite, can't parch! Our exclusive patented process fixes that!

Prince Albert is a revelation in a makin's cigarette! My, but how that delightful flavor makes a dent! And, how it does answer for hankerling! Prince Albert rolls easy and stays put because it is crimped cut. And, say—oh, go on and get the papers or a pipe! Do it right now!
