Good Egg Prices Suggest Feeding

With the government pledged to support egg prices, in the national defense program, it is suggested from the Kentucky College of Agriculture that a laying mash be fed to hens throughout the summer. Green feed, oystershell or ground limestone and water also are required. Best results will be obtained where roosters are sold and infertile eggs produced, says Stanley Caton, poultry expert. Eggs should be kept in cool, moist places between the time they are laid and sold.

Extra attention to growing pullets also is suggested, so they will begin laying early and produce well during fall and winter when prices are good.

A good many farmers are reported interested in preserving eggs in waterglass for home use next fall and winter, thereby releasing fresh eggs for market when prices are high.

To Give Trips In 4-H Canning Work

Not a 4-H girl's record in one annual contest, but her whole record contest. In other words, the girl who wins the state championship—and a trip to the National 4-H Congress in Chicago the last month of the year—will be the top all-around girl. Judged on the basis of her work since the first started, according to J. W. Whitehouse, state leader.

A broad understanding of family life, striving not just for ordinary health but for optimum health, knowledge of buying, and knowing how to achieve satisfactions that last—all these things will be considered in making the award. The trip will be given by Montgomery Ward & Co.

In the girls' canning contest, two awards of trips to Chicago are open: The best canning record averaged over a period of years—again, the girls' whole record in the work.

The best exhibit of 1941 at the Kentucky State Fair.

In other words, one girl will be champion on the basis of the canning work done, another on the basis of her trip exhibit.

The trips will be given by the Keer Glass Manufacturing Corp., and by the Hazel-Atlas Glass Co.

Game & Fish News

Frankfort, Kentucky
By James J. Giffin

Frankfort, Ky.—Birds dogs must not be permitted to run at large in Kentucky, either on the premises of the owner or keeper of such dog or dogs or elsewhere, during the time from the 15th of May to the 15th of August. S. A. Wakefield, Director of the Division of Game and Fish, announced today.

According to the 1940 amendments and additions to the Kentucky Game and Fish laws it is the duty of the owner or keeper of any or all bird dogs to keep them confined from May 15 to August 15. This period of time is the nesting and hatching season for wild birds and especially for the "Bob White Quail" which is a ground-nesting bird. If bird dogs are permitted to run at large during this period of time, many old bird nests and young quail would be destroyed.

Wakefield stated that, if any person is found violating this section of the Game and Fish laws by allowing bird dogs to run at large during the above mentioned period of time they are liable to arrest and upon conviction may be fined not less than \$15 or not more than \$25 and each day such dogs are permitted to run at large shall constitute a separate offense.

COUNTY AAA CHAIRMAN ATTENDS CONFERENCE

(Continued from Page 1)

AAA, outlined the job of the Triple A under present conditions, and pointed out that the farm program is producing farmers from the worst basic depression of the world.

He emphasized that the program gives farmers an unequalled opportunity to serve the county at this time by adjusting production quickly to the needs of the hour.

Director Finn emphasized that the responsibility for the successful operation of the farm program rests squarely on the shoulders of the community whom the farmers have elected. "Much has been accomplished," said Mr. Finn, "especially in soil building, in adjusting production, in using marketing quotas to control surpluses, and especially in informing farmers about the issues that affect them and the nation."

Dr. Robert Montgomery of the University of Texas explained that radio, airplanes and other modern inventions have done away with old boundary lines and that we cannot be isolationists. "The world of 1938 is as a Do-Do--has been since 1900--and we are just getting around to burying it," he said in lashing out at the theories of controlled money.

Undersecretary of Agriculture, Paul Appleby said "You can't have Democracy in the same world which Hitler's New Order." Director N. E. Diller of the Western AAA Region emphasized the importance of wheat farmers everywhere voting on wheat marketing quotas May 31. Other speakers were J. B. Hutson, Reuben Brigham, Eric Englund and Guy

Bush, all of the Department of Agriculture.

In closing the conference, Assistant East Central Regional Director Charles Lewis said: "It takes men of pioneer courage and vision, men with lines in their backbones to lead just wheat acreage down and hog production up. It takes courage to show the local cannery that this is a national emergency, and no time to quibble about some detail in the program to supply the democracies with tomatoes. It takes the same courage and vision to show the farmers back home that the democracies need pork, and eggs and dairy products; to see that farmers do realize the seriousness of the situation."

He challenged the farmers to take as their watchword: "Wake Up America, Our Liberty is At Stake!"

County AAA Chairman Attends Conference

The growing menace to America from war developments and the urgency for farmers to increase production of essential foods necessary to Britain while restricting production of others, was the highlight of the East-Central Regional Conference at Charlotte, North Carolina, according to J. L. Jones, county AAA chairman of Mt. Vernon, who represented Rockcastle County.

The purpose of the conference was to give farmers throughout the region a chance to offer their suggestions for improving next year's AAA program. Mr. Jones said, Every farmer was assigned to one of seven working committees which mapped plans for the 1942 farm program to be discussed at the National AAA meeting in Washington in June he explained, and added that war considerations dominated all the discussions.

Mr. Jones was most impressed by the fighting speech of Secretary of Agriculture Claude R. Wickard, who declared that this is no time for half-way measures, and that the food and munitions America is producing must reach Britain safely and quickly if the United States is to be defended.

Elsewhere during the conference Mr. Jones picked up authoritative figures which show that Britain imports of all products has dropped from the rate of 65 million tons per year prior to 1937 million tons, due to shipping losses. Thirty-five million tons of imports have been regarded as the danger line, he said. Normal food imports have been at 22 and one-half million tons per year, but this has been cut to 12 million tons. Recently, however, this amount was increased to 14 million tons at the expense of munitions imports, badly as they are needed, because of the growing food shortage, he explained.

He further reported the conference as follows:

County Directory To Interest Farmers

The county directory that will be published by this office some time this summer is of vital importance to all farmers. Names of many prominent farmers, pictures of farm scenes, and many other features will be contained. It will be a book that farmers can use with profit for many years to come.

It is very important that all farmers who have purebred livestock or other farm products to sell to have their name in this directory. For example—J. H. Wolfe, Hereford cattle. Disputants. The charge is only 25c and people all over the county and State will know where to look if they want to buy. This feature alone will bring many dollars to our farmers.

As has been stated before the directory will be 80 pages in length and will be a book that all Rockcastle citizens will be proud of. It costs lots of money. By giving the book free to all farmers, the only way to defray cost was by selling space to advertisers. At the present time, many have taken ads, but several more pages must be sold to make the book possible.

The cost of the book to townspeople will be 25c. If you desire a copy leave your name at the Signal office. No charge until delivery. It will be impracticable for us to print a large number of books unless we know they will be sold. The sure way to insure a copy is to leave your order. Former residents can send in their name and address and a book will be saved for them.

Again we warn merchants, who have failed to be represented, that there is still time to get your firm name in this book. Several merchants over the county have sent in ads, for they realize that with total county coverage they are getting a bargain in advertising. There is absolutely no excuse for any business man not to at least have his name and address in this directory. The cost is so small, that money cannot be the reason. Fifty cents will get your business name in the County Directory.

The more names of farmers and business men we have, the more service the directory will be to the county. This will be the only directory for at least five years, so its now.

We will sincerely appreciate all the co-operation and help that will be necessary to make this County Directory an outstanding success.

Miss Wathalyne Fairchild Honored At College

Miss Wathalyne Fairchild, daughter of Mrs. Delores Fairchild was signally honored last week when she was selected by her sorority, Phi Mu to represent "Rose Red" on a float that was part of the parade celebrating Transylvania Day. Miss Fairchild and another young lady were the only two characters on the Phi Mu float, which was awarded second prize.

Wathalyne is well known here, graduating from high school last year, and being valedictorian of her class.

BRIDGE PARTY

Mr. T. Griffith entertained her bridge club and guests Friday evening, May 9th, at her home. Dessert of strawberry shortcake and coffee was served to three tables. Guests included, Mrs. R. A. Sparks, Mrs. Shirley Riddle, Mrs. Nathan Fred and Mrs. Alex. Milan. High club prize went to Mrs. D. C. Craig, second to Mrs. W. G. McBee. High guest prize was won by Mrs. Nathan Fred. At the close of the playing shower gifts were presented to Mrs. A. B. Sparks who leaves this week to make her home in Mt. Washington, Ohio.

Mr. and Mrs. Nat F. Brown, of Jasper, Tenn. spent the week and with Mrs. Brown's brother, Mr. and Mrs. W. L. Simpson and family. Mr. Brown is a prominent lawyer at Jasper, and Mrs. Brown assists in the management of the Jasper Journal.

J. H. Lambert Announces For County Judge

TO THE REPUBLICAN PARTY OF ROCKCASTLE COUNTY:

I take this means of announcing my candidacy for the republican nomination for Judge to be voted on August 2, 1941.

I asked for the same nomination four years ago. I made a speech honest and fair race and lost by a small majority. I intend to make just such race this time. I am a resident and elected the tax payers and residents of Rockcastle county will find me at all times available and working for their interests.

I will be the judge and not be ruled or influenced by any party or parties.

I will try to pay off all judgments and just debts owing by the county. There is now a debt of more than \$125,000.00. The interest hasn't been paid for several years on much of this indebtedness.

I served Rockcastle County almost 10 years as Justice of the Peace, and I am proud of the records made while I was in office.

I promise if elected to ask for a reduction in salaries of the County Judge.

If there is any mud slinging in this election my opponents will begin it.

I have been a citizen of this county for many years and I have paid taxes for forty years. I have worked and worked for the Republican party ever since I became of legal voting age.

I feel that I am qualified to serve you in this capacity and I will appreciate your support.

J. H. (Jim) LAMBERT

Seniors To Present Glass Play

On Friday evening, May 16, at 7:30, the Senior Class of the Mt. Vernon High School will present their play, "Faith, Hope, and Charity." This is one of the funniest plays ever put on any place. Faith and Hope, the daughters of Quadrader Crabbe, are twins, one of whom must accept the proposal of marriage of Terence Flarity, or he disinherits by their father. The fun starts when the girls decide to make themselves ugly to discourage young Flarity. But that was a game that young Terence knew how to play also. After many mix-ups the play ends happily for nearly everyone.

This play was selected by the vote of the Senior Class from several others.

Glontz Brothers Buy Brown Cafe

Fred and Lovell Glontz have purchased the Brown Cafe from Mr. Sim Brown, and are now actively engaged in the business. The firm name has been changed to The Ideal Cafe.

Fred and Lovell are well known in this county, having been born and reared here. Lovell has a position in Hamilton, Ohio but his wife, will help in the business. Their many friends here wish them success in their new business enterprise.

DORCAS CLASS MET

The Dorcas class of the Baptist Church held their regular meeting Tuesday night, May 13th at the church with eight members and five visitors present. The program was in charge of the missionary circle. At the business meeting a plan was made for dividing the class into two groups for a contest to stimulate attendance. Mrs. Arthur Franklin and Mrs. W. C. Younce were hostesses and served sandwiches and soft drinks.

Bob Bird Announces For County Attorney

TO THE REPUBLICAN VOTERS OF ROCKCASTLE COUNTY:

Before asking the people for anything else I want to express my gratitude for honor already extended to me. The people of Rockcastle County have been wonderfully good to me and I want it known that I fully and most sincerely appreciate your kindness. I am a candidate for re-election to the office of County Attorney.

Nobody's urging me to run, nobody's urging me not to run, and nobody's running me. I am a candidate simply because I want the job I always want the good-will of all people in all matters, and I will appreciate a good word from anybody. However, this being a republican primary, and being a republican, I address my remarks particularly to republicans. Nobody has to guess at my politics because I am a republican who is running for office, not running for office, and in defeat as well as victory. In defeat I work for the man that best fits the job for all other republican nominees who have opposition in their races. I make no apology for vigorously supporting my party nominees. Like most people I have made mistakes, but I have not lost the mistake of "laying down" on the choice of the republican voters.

I hope to see you all before the primary and talk to you about the election. In the meantime be thinking about it. Every consideration given me will be gratefully appreciated.

Always a Republican,
BOB BIRD.

Carl Brown Announces For Magistrate 3rd Dist.

TO THE VOTERS OF THE 3rd DISTRICT, DISTRICT OF ROCKCASTLE COUNTY:

Composed of the 3 Broodhead voting precincts, Gum Sulphur, Saylor, Brown and Freedom.

I take this method of announcing myself for the Republican Nomination to the office of Justice of the Peace of the 3rd Magisterial District. If nominated and elected to this important position, I will render the very best service I am able to give, always mindful of the best interest of the County.

I have always stood for improvement and one of the important things is the improvement of public roads.

I hope to be able to see each voter in my District and talk with you personally in behalf of my candidacy. Until such time as I will be able to see you, I solicit your support through this announcement.

Very respectfully,
CARL BROWN

Farmers Urged To Use Free Fertilizer

We have now in Mt. Vernon 90 tons of phosphate fertilizer for the farmers of Rockcastle County. We are ordering 240 tons more. We need every pound of it on our meadows and pastures. If you ask a farmer why don't you take to the office at Mt. Vernon and get your part and use it on your hay and pasture land at once. The land on which you put this phosphate this year can be put in good condition in behalf of you in meadow pasture next year.

We have 400 farmers in the county who have phosphate coming to them if they would only come to Mt. Vernon and get it—no money required. You need it on your hay and pasture land.

The farmers have until June 30 to get this phosphate—why not call for it at once. Some counties have used as much as 3000 tons while Rockcastle has used only 1050 tons so far. Let's use at least 1000 tons more.

Robt. Spence, County Agent

Mrs. Peyton Home

Mrs. J. Peyton returned to her home here Sunday after spending two weeks in Good Samaritan hospital where she underwent a very serious operation. Mrs. Peyton is improving satisfactorily and is able to sit up and have a few visitors for a short time each day.

Mass Meeting At Fire House, May 20

All telephone users in Rockcastle county monthly meetings at this will be an opportunity for all those interested to get together and talk the situation over.

Missionary Society Elects Officers

The Woman's Missionary Society of the "Christian Church" held its regular monthly meeting at the church on Wednesday, May 15th. It was held for the purpose of electing for the ensuing year as follows: president, Mrs. J. D. Henderson; vice president, Mrs. R. W. Griffin; secretary and treasurer, Mrs. Mattie Cox.

Mrs. Fannie Thompson led the devotional and had charge of the program on China. Mrs. R. W. Griffin and Miss Grace Cox each gave interesting discussions. Ten members were present.

COUNTY AGENTS NOTES

If you are club member in Southern Madison, be sure and come. J. B. Bera, Saturday, May 17th.

Rockcastle Rally Day will be held at Mt. Vernon, Saturday, May 24th, at the school building beginning at 9:30 a.m. and closing at noon. If you are a club member of the 4-H club in Rockcastle county, come to Mt. Vernon, Saturday, May 24th.

There will be seven teams competing for first place in Southern Madison and 15 teams competing in this year's race.

A big surprise is waiting for you both at Berea and Mt. Vernon in the form of a "swain" and "queen" show. This is your chance to get a queen and think about it.

Parents of club members are invited to these Big 4-H Rally Days.

CARPENTERS' AND CONTRACTORS' SCHOOL

Realizing the need of more and better carpenters and contractors in Rockcastle County, the County Agent has made arrangements with the Agricultural Engineers and Specialists from the College of Agriculture to conduct two Carpenters' and Contractors' meetings.

Mt. Vernon, Tuesday, May 20, at 10 a. m. in the County Agent's Office.

Berea, Tuesday, May 20, at 7:30 p. m. in the County Agent's Office.

All carpenters and contractors are invited to attend one of these meetings which is to inform the carpenters and contractors of the type and the construction of buildings the farmers need. Blueprints, models and other equipment will be on exhibit. Since there is a growing need for farm building improvement as well as residence it is thought wise to inform carpenters and contractors of the various items so the farmers may have the proper construction and design of buildings to serve their purpose.

4-H RALLY DAYS

Our 4-H Rally Days are two of the best, most exciting and most interesting days we have in Southern Madison and Rockcastle counties for the year. It's a time that our demonstration teams compete against each other and we make the selection of the winning teams to represent our county in the District and State Contests. We want every club member to attend his or her Rally Day.

Southern Madison Rally Day will be held at Berea, Saturday, May 17, at 9:30 a.m. in Room 500, Agricultural Building and close at noon.

Home-Makers Hold May Meeting

The May meeting of Homemakers was held in the home of Mrs. Clyde Anglin with Mrs. Cecil Ferguson and Mrs. Tgm Hansell co-hostesses. Meeting called to order, President presiding. Sec. report read and approved, Roll Call, 25 members present. Announcement of annual picnic for Homemakers Clubs and invitations from Broodhead extended to said club to be held in June, reported by President. The answer for roll call for one month for next year to be a favorite tree or flower was endorsed by club. Project lesson given by Mrs. Thompson on darning and patching entered into very enthusiastically by group. A delightful lunch enjoyed; hostesses serving 35 plates. Mrs. Kerr of Berea directed music period. Review of study of Better Speech by Mrs. Chas. Gibson, widow of Mrs. Frankie Cummins, Springfield, Ohio. Mrs. Sheridan Bowman and Mrs. K. G. Gibson, Berea, were guests. Meeting to be held with Mrs. Chas. Gibson.

Mrs. Fannie Thompson, Publicity Chairman.

Mrs. Charles Riddle Dies At Frankfort

Mrs. Charles Riddle of Frankfort, sister of Mr. Sam Cox and Mrs. R. E. Machal of Mt. Vernon, died at her home in Frankfort, May 7. Her illness was of only a few days duration. She leaves to mourn her husband, children, brothers and sisters and many other relatives and friends.

Interment was in Landrum cemetery in Laurel county, near her old home place.

Telephone Hearing Granted Towns

The Public Service Commission at Frankfort in response to petitions of the towns of Mt. Vernon and Livingston to grant a hearing to a meeting to be held Thursday, May 29 at 9:00 a. m. our time. The petitions allege inadequate telephone service.

At this meeting an opportunity will be given to state complaints against the present service being rendered.

Would Raise Health Standards Of People

Reporting on Kentucky's readiness for the defense program, Dr. State Erikson, chairman of the Kentucky Nutrition Committee and head of the University of Kentucky home economics department, gives the following requirements:

The health of the people must be raised by 1/4—that is, a general improvement approximating that, for everyone.

The 996,000 individuals reportedly below the borderline of health must have far better food, better balanced, as well as medical care.

Larger gardens with more varieties of vegetables are urgently needed.

Use of fish liver oil for children; a quart of milk daily for children and a pint for adults; everyone use several vegetables daily and an egg a day.

"In addition to giving aid to Britain in the fight against the Axis powers, America has determined to raise the health of her own people."

"This often can be turned into a period of great gain, if long-term planning is done. The health and nutrition program in defense is long-term; no item is too small for attention, nor any purpose too large to be achieved by united effort," concluded the state chairman.

Dates Of Meetings For Sheep Men Set

A state meeting on June 2 and a series of sectional meetings for Kentucky sheep raisers are announced by Richard C. Miller of the College of Agriculture at Lexington. Special attention will be given to the control of parasites. This will include a demonstration in the use of a portable dipping vat. Types of ewes suited to Kentucky will be discussed as well as grass, hay and other feeds.

The annual tour for sheep men, which is usually held the day after the Lexington meeting, this year will be on May 17, in order to accommodate out-of-state visitors attending the native lamb conference. All sheep men are invited to make this tour, which will include large and small flocks and will provide an opportunity to see ewes of all the different types popular Livestock Pavilion on the Experiment Station farm at 8 o'clock.

The sectional meetings will be at Henderson, May 27; Clinton, May 28; Hopkinsville, May 29; Harrodsburg, May 31; Springfield, June 3; Monticello, June, and Bowling Green, June 5.

The Amateur contest sponsored by the Methodist Church has been postponed until May 29th.

Mrs. Tom O'Mara is the guest of Mrs. Creed Russell.

Food For Defense Plan Means Money For Farmer

The government's plan to have more food produced for defense should mean higher prices for some Kentucky products, in the opinion of members of the Department of Markets and Rural Finance at the University of Kentucky College of Agriculture.

For instance, the price of eggs is to be based on 22 cents a dozen for fresh eggs in Chicago. This should mean about 19 1/2 cents a dozen in Chicago for 92 score butter. This should result in a price of about 27 cents for butterfat in Kentucky, and compares to 25 cents last year, 20 cents in 1939 and 22 cents in 1938.

The government is to support a butter price based on 31 cents a lb. in Chicago for 92 score butter. This should result in a price of about 27 cents for butterfat in Kentucky, and compares to 25 cents last year, 20 cents in 1939 and 22 cents in 1938.

The Chicago basic hog price is to be 9 cents a pound. On account of variations in weight, grades and season, it is not possible to give figures for Kentucky, but prices should be materially higher than prevailed last year, it is declared.

The price which farmers are to be paid for chickens is to be based on 15 cents a pound in Chicago. This should mean 12 1/2 to 13 cents here, which is a little higher than prevailed in the past three years.

The Garden

Before long, mustard, seven top and kale will go to seed, and suggestions should be made to start greens for the summer months. The summer greens are swiss chard and new zeland spinach. The soil should be made rich with manure, particularly poultry manure, to induce heavy leafage. The seedbeds should be well prepared and deep, to take care of the dry weather that will come later.

Swiss chard is sown in drills, thinning the seed 3 inches apart. That much will easily supply a family of 5, because of the method by which chard is harvested. The plants should be thinned to a stand of about 12 inches, and as soon as they are large enough to be taken, harvest is begun. This is to snap off the larger outside leaves, leaving the growing heart intact.

When this, an summer long, leaves are produced to make a stand of 30 feet, the variety is Lucullus, of 5 bushes. The variety is Lucullus, or the new one, "Rhubarb."

New Zealand spinach is also a continuous cropper but the harvesting method differs. Here the seed is sown in pairs where it is wished a plant should stand. The spacing should be a trifle closer than for early tomatoes, say, 2 feet, in rows 3 feet apart. After 3 weeks following the appearance of the seedlings, branches will have begun forming, each tipped with tender leaflets, 4 to 6 of which are taken. Branching and rebranching goes on all summer long to make the harvest area continuously larger, until killing frosts come. In the course of the season, one plant's harvest may easily be two crops.

The variety is "New Zealand."

Both these summer greens bear splendidly. Swiss chard may be canned, the leaf parts and the stems separately, the latter is quite good as a substitute for canned asparagus. When New Zealand is canned it is best to use only the extreme tip leaves, as the older ones tend to fade, a "defect" only in appearance, however.

Mrs. Elwood Conway of Frankfort was the guest of Mrs. W. C. Wood of Harrodsburg, Ohio were the week end guests of their sister, Mrs. Jack Garrett and Mr. Garrett.

Mr. Brent Hall of Charlestown, Indiana and cousin, Mrs. Joe Will of Hustonville were the guests of Mr. and Mrs. M. C. Albright Monday. They motored to Renfro Valley in the afternoon.

Mrs. Grace Coffey and Miss Janie Ramsey of Berea and Mrs. Edna Coffey spent last Sunday visiting Medical Spring school house where we had all gone to school to Uncle Anderson Burdett, Charlie Davis, Logan Lynn, Lee Procter and others. Everything is changed nothing looks natural but the old spring. The old Barnett place has grown up in bushes and briars. The old big horse-chestnut trees where we gathered chestnuts are all gone. The old log schoolhouse has been torn down and a frame one built near by. Although it has all changed so much we can look where the little old log house once stood and remember many funny things that happened then when 35 or 46 were packed into one room sitting anywhere from one to a dozen in a seat in summer and in winter gathered around the big old open fireplace. At play time our favorite games were Townball, Sheepcatt and Marbles.

I think the biggest thrill Grace got was when she found a bunch of ginseng then a little later lost it and went back about half a mile after it. I do hope she got home with that ginseng. We left Janie sitting on a rock in the middle of the branch while I went back with her. We found it at a cool shady cave where we had eaten our lunch. Then after we got back to Janie we passed a big spring where the whole side of the hill was covered with moss and short green grass.

The spring was upon the hill where the water run through a pipe into a big mossy place then on down a pipe through another pipe and into a tub. There to complete the picture stood two tired lazy looking horses getting a drink.
We went from there to Aunt Louisa Hayes' Grace's grandmother's old home place where her mother was born and raised and to the Parsons Cemetery where her grandmother was buried. From there we went to her old home (the Proctor place) where most everything was changed except the big flat rocks where we used to play house keeping and the spring with the four big Maple trees that shade it.
We got home late, tired but sorry the day was gone.

29 MILLION!
A record never before approached!
Ford Motor Company
The 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world!
It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge-Plant and every ounce of our experience.
As you read this, a new \$21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the country, is already in production on lightweight airplane engine castings. Work is right now under way on a new \$18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.
In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work. The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937. It is good to be producing the things America needs, and to be setting records on the way!

SLANTS

By W. L. S.

If you have the money, now is the time to buy. It's a safe bet that the things you buy will be higher six months from this date. Prices have gone up gradual and are still showing an upward trend.

The American people as a whole fail to realize the seriousness of the war. The fact that times are better and that the war is being waged on foreign shores probably has a lot to do with this attitude.

America is in the war up to her neck. We have pledged all-out aid to Britain, and have already lent her seven billion dollars. This shows our sympathy is with our erstwhile ally that her enemies are also ours.

Nobody is dumb enough to believe that Germany, Italy and Japan have any idea that we will side in with them. They already see the handwriting on the wall, and know that we are the ones that they will have to conquer, before they can rule the world.

It is probably true that it would be several years before we were actually invaded, if ever, even if England were conquered, but grave economic problems would have to be met, and in case of a bad depression or panic, the isms, would have a much better chance to get a foothold in this country.

Hitler has always played a waiting game, and in the case of the United States he would be mighty dumb if he played any other. By keeping us out of the war until he crushes Britain he has everything to gain. With his arch foe whipped, he can get his house in order, and in a few years will be dictating terms to us. It is very unlikely that we would ever have to fight, as long as we play our cards right. Some so-called Americans think that as the course we should take. Our attitude toward that question takes us back to the days of Patrick Henry when that staunch patriot uttered those immortal words, "As for me, Give Me Liberty, or Give me Death."

The time has come when all citizens should stand united. True, sacrifices will have to be made, loved ones might have to go to war,

man in this life, however humble his station or feeble his power, which does not influence those who are about either for good or for evil. There are no neutral characters. Co-operation is nothing more or less than concentrated action.

There is scarcely a position in life where we cannot be or help to our fellowmen, if we will only exert ourselves. There is none so fallen in wickedness, but who is deserving of help, notwithstanding the fact that there may be much to condemn. None is so free from wrongdoing that he is not bound to bestow on others what help he can. There are many animals that will not willingly leave their own to suffer, but will risk even life itself to render them assistance.

The person whose life and actions are governed by a sense of duty toward God and his fellow-men is sure to occupy a commanding place in the esteem of others.

Sunday Schools

Sunday School—9:45 A. M. Supt. Chase. Present last Sunday, 257. We wish to thank all who had a part in making the Mother's Day Program a success, especially Mrs. Carrie Baker who planned the program and the Y. W. A. who decorated the church, also those who donated the flowers. The oldest mother present was Mrs. Mary Deag; the youngest mother, Mrs. Reva Hiatt; and the mother with the largest number of children present, Mrs. Lige Woodall. Lesson for Sunday: "A Converted Man's New Horizon" Acts 9:1-14.

Baptist Church
By Rev. W. C. Young
During the last few months we have had much to say about the unusual opportunity we have of getting a worker from the Sunday School Board to help carry on Vacation Bible School work in our association. Most of the church people with whom I have talked heartily approve of the work. The principal hindrance is that rural schools commence early in the summer, thus confining the services of the worker to only a few churches, since Vacation Bible School is to be held two weeks in each church. Our plan is to have a school in the following churches on the given dates: **Ottawa**—May 12-23; **Freedom**—May 26-June 6; **Poplar Grove**—June 9-20; **Conway**—June 23-July 4; **Flat Rock**—July 7-18. Time: 8:00 A. M. to 11:00 A. M. Ages 4 and above.

We are glad to report that the worker came to us Monday of this week and is with the Ottawa Church. We appreciate the fine way in which this church has co-operated with us.

The date for our Vacation School is June 2-13. Bro. Charles Brown has promised to serve as principal. We hope to be able by our next writing to mention the names of the faculty. We are expecting the school this year to be the best yet. It can be if everyone will co-operate with us.

Speaking of co-operation, let it be understood that our greatest need to-day in every relationship of life is in home, church, community and the nation—is co-operation. Few people seem to know and appreciate the fact that there is no action of

regarded as a sacred hour in the life of every Christian. Everyone who is interested in making our church more efficient is expected to be at this service. We need not expect our problems to diminish so long as prayer is not given its proper place. Praying will keep one from sinning or sinning will keep one from praying.

Let us learn how to talk with God through the Holy Ghost. Let us say with the disciples, "Lord teach us to pray". Let us pray with the poet: "O thou by whom we come to God, The Life, the Truth, the Way, The path of prayer thyself hath trod: Lord, teach us how to pray."

Money Talks

By Frederick W. Stamm, Economist and Director of Adult Education University of Louisville

For the past seven or eight months I have repeatedly advised consumers to buy now and avoid paying more later. To the business man I have advised laying in a large inventory of goods at low prices. Today I want to repeat this advice for I believe now more than ever, prices are going up materially.

Defense money is finding its way into laborer's pockets and it is being spent and spent freely. Very little is going into savings banks and insurance policies. As a result,

the demand for all types of consumer goods is rising more rapidly than the supply. Sales of most products were much higher the first three months of 1941 than the same period of 1940. To illustrate: electric refrigerators sales were up over 40%; washing machines, over 15%; passenger automobiles, over 25%; department store sales, over 10%. The only important sales figure which was down to my knowledge, was life insurance.

With the demand for consumer goods so much greater, and with the production of many of these products being curtailed because of defense contracts, I can see nothing but higher prices.

Another factor to be considered seriously is the rise in taxes which will increase prices. The proposed new laws include stiff increases in taxes which will increase, refrigerators, radios, and many other household necessities.

The stage is all set for a period of at least, mild inflation and higher prices. The only way to avoid it would be an early peace and a discontinuance of the defense program. And the prospect of either of these two things is not very good.

Milk Production At All-Time Top

The appeal for more milk products for defense food the sows on American farms already in high gear. Never in all history was there such a flow of milk as was produced in the United States last year, and production is continuing at a high level this spring, says a report of the Department of Markets and Rural Finance of the Kentucky College of Agriculture.

Plans call for furnishing large quantities of dried milk and cheese and other dairy products in condensed form to save shipping space. The government will support prices, so farmers may find production profitable.

Farm News

Thirty-five bushels of sweet potatoes were procured for 24 Luraco county farmers who are trying to establish new sources of income. The project is being sponsored by the Luraco County Farm Bureau, a bank and the county agent.

Webster county farmers interested in home-produced food planted seed potatoes treated and untreated, and certified, select, and common. In this way, they hope to find "the best buy" in the potato seed market.

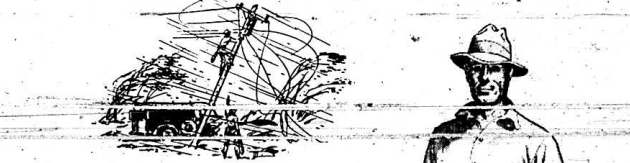

In Webster county were distributed to farmers cooperating in the TVA program for soil improvement. Grasses included broom fescue, Italian ryegrass, meadow fescue, Canada bluegrass and tall cut grass. A purchase drive campaign has been started among beef and dairy cattle owners in Madison county, following a newspaper campaign to interest producers in the idea. A committee has been selected to survey how many nurseries there are, how many grades and scrubs, and to make recommendations.

In Bell county mattresses made in the Kentucky rural mattress program were displayed for a week at the Red Bird Settlement school. The report of last month, which has been increased by now, showed 437 mattresses made.

A cooperative freezer-block plant may be established in Clark county provided interest develops as expected. At a recent meeting, leaders from homemakers' clubs and the Farm Bureau made preliminary plans.

Six Barron county farmers are building a total of 11,250 feet of terrace.

ON GUARD

Against Interruptions to Your Electric Service

YOU probably know him as Tom or Dick or Joe, a friend and neighbor. There's nothing spectacular about him and he doesn't claim to be a hero, but his role is an important one in seeing that you get dependable electric service.

When Nature goes on a rampage and causes breaks in power lines, he's the fellow who braves driving rain, howling wind and stinging sleet to locate the source of the trouble and restore service with a minimum of delay. Unmindful of personal discomfort and the risk of injury, he is ready day or night to go wherever duty calls. At his disposal, if needed, are motorized line crews, skilled engineers and nearby reserve stocks of materials and supplies. All are part of an organization geared for quick action in emergency.

Every effort is made to prevent interruptions to service, but when occasionally they do occur, in spite of all precautions, it is comforting to know that your electric serviceman is on the job with but one thought in mind—to restore the flow of current as quickly as is humanly possible.

Good Electric Service Doesn't Just Happen

It takes a huge investment in costly generating, transmission and distribution equipment; the expenditure of large sums annually for maintenance and taxes; the ceaseless efforts and constant watchfulness of a trained personnel. It takes all this and more to render good electric service, yet electricity is one of the smallest items in the average household budget.
