Diarrhea

By Dr. R. G. Webb

Last week a young mother was in to see me about her boy who had been having some trouble with summer complaint as she called it, and before leaving the office, she said Doctor I have been reading and enjoying your writings in the Signal, why don't you write something about the care and home treatment of our babies, we mothers are not much interested in politics, but we are interested in the best way to take care of our children. I said I will do that for you. I am not a specialist on diseases of children, but for the past 35 years I have treated I guess about as many children as the average specialist in the city, and during that period I have learned a few things which I am going to try and pass on to you mothers.

First I want to say that this is the time of the year when our physicians have our hardest problems and our worst headaches, because this is the diarrhea season. Now what causes June, July, and August to be the sick months for your babies—hot weather, flies, germs, filth, dirt, bad water and milk, and the like of proper attention to the feeding of your child. Mothers who are in the ninety-percent of all cases, but where mothers-milk is not available then I say your best substitute is the gammed milk. I generally prescribe Carnation or Eagle brand milk, however there are a lot of others that are good and all milk is not the same cases, but that is up to your physician to figure out which milk or combination is best suited for your baby. Some ten years ago I had on my hands a baby that developed diarrhea in the summer season and all milk was not the same as well as all physicians failed to give any relief, it lost weight until it was nothing but skin and bones, and I had to finally tell the young mother who by the way was trying to raise this baby on a bottle when she should have had him on nursing on her breast—you know some mothers are too lazy or proud to nurse their baby, "as the Duke of Padouac would say—they just don't want 'em sucking in public," well I told her that I had done all I could and she had better see some other Doctor, so she took the baby away to another physician and he cut out all the cows, cans and powders, and started this youngster on goat milk and I'll be darned if he didn't get well and is still living. So since then I occasionally in extreme cases recommend goat milk, its good and is more like mother's milk than any other, so if you have one that no other kind of milk seems to agree with him, put him on goat milk, it has and will work when all other fail. This may give Bob Spence or some of our farmers an idea to start a goat dairy in the county, so our young mothers can get their goat milk delivered every day for the baby.

Keep bottles, nipples and breast clean, if breast fed, do not let baby nurse when you are real hot, and watch your diet and health, your baby can't be healthy if your milk is not good. I had a great many babies out with colic and diarrhea by giving the mother the treatment instead of the baby. Babies do not need much medicine—in fact the less you give them the better off they are, and of all things that I hate is the habit of giving castor oil, some of our midwife's and older women start as soon as the baby is born, giving castor oil—that is bad, don't do it. I will tell you when to give your baby a dose of oil, only when he gets sick from indigestion, or when you have fed him—then give him a dose of oil and if one dose does not thoroughly clean him out give him another dose, also give him soda water and plenty of plain water, to stress this point I want to tell you this one, back during our coal and railroad days I was called in a very hot day in July to see a four weeks old baby that had been crying for two or three hours, mother could not do anything with him, when I arrived he was still crying and when I had he had cried so long that he was getting weaker, I asked a few questions and looked the baby over, my first thought was that a pin was scratching him, but after taking all clothes off I did not find any, after a thorough examination with the baby finally I asked the young mother have you ever give this baby any water. She said no. I told her to get

me a glass of cold water and a spoon, she did and brought it to me, I put the spoon with the cold water to the baby's lips and let it flow into the mouth, it swallowed it, quit crying and looked at me and said in its mind, Doctor give me more, so I did, I gave it several spoonfuls and no medicine, told the mother to leave all clothes off and to give it water everyday. Yes she paid me two dollars town call just to give her baby a drink of water. Mothers during this hot weather don't burn your babies up with a lot of clothes—take em off they won't take cold and by all means give them plenty of water cold water not hot water and cut out the tea and don't never have little enough sense to pour everything down your baby that somebody that does not know anything about his body or medicine tells you to do.

To Be Continued

Pine Hill Baptist Church News.

Sunday School—10:00 A. M. Attendance 76. Where were you last Sunday? Let everyone come next Sunday and study God's word together. The intermediate class seems to be growing with Mr. W. O. Singleton teacher.

Lesson: When Religion and Business Clash. (Acts 19:1 to 21:7). The apostle Paul. So mightily grew the word of God and prevailed. (Acts 19:20).

ONLY A LITTLE FIRE

Only a little fire
What a flame will start;
Only a little word
How it can wound a heart.

Only a little spark
Left in a careless way,
Will cause a lot of damage—
May take your home away.

Only a little match
That you throw left or right,
May cause a forest fire
That would be hard to fight.

Only a little flame
That burns in a heart of love
Can cheer a weary soul;
This comes from heaven above.

Only a little word
Spoken without thought,
May be the loss of a friend
Which no more can be sought.

Let's watch those little fires
Which come along our way—
We'll find life will be sweet,
A better path will be shown.

Marie Ludwig

The Garden

By John S. Gardner, Kentucky College of Agriculture

LAST CALL

Although July 1 is the real "turn of the year" for gardens, after which longtong crops cannot any longer be produced because of the nearness to frostbite, October 10, there is still a slim possibility that this day may be deferred.

Tomatoes—The varieties usually considered "late" take all of 15 weeks to bear full crops and hence are out of the question to start now, but the short-season sorts, Break O'Day, Chalk's Jewel and Bonny Best started now, "in the hill", have an excellent chance to mature a great part of their fruit. This year, under the Lease-Lend Plan, 15,000,000 cases of canned tomatoes are to be produced for Britain; every jar of home-canned tomatoes releases that amount for trans-shipment. Thus, besides being good sense to have all the tomatoes the family can use, it is also patriotic.

Cabbages—The opportunity for having cabbage to the opportunity for winter has dwindled almost to nothing, but early varieties, Golden Acorn or better, where Yellows is even suspected. Wisconsin All-Seasons may still be started, with fair prospects.

Beans—Bush beans take from 70 to 80 days to mature, leaving practically all of July in which to start more. If there is the slightest likelihood of this valuable adjunct to the winter diet, special plantings should be made, for canning. Also, the planting season for "fall beans" (Horticultural, bush or pole) is here. Shell-out beans, these offer a change from

STAR-OF-THE-WEEK

The Postman rings more than twice when he delivers the fan mail at Ann Sollen's house. Fans the world over think that there's no one quite like Marnie, that stranded showgirl with the proverbial heart of gold and a deep sympathy for the underdog. Marnie series have been among screen's most popular films. Moviegoers will next follow Marnie's adventures in "Kingsize Marnie" an M-G-M comedy in which Miss Sollen's champion George Murphy a young prize fighter, with some mighty hilarious results.

what may have become monotonous, for their flavor is distinctive. A good snap bean for planting is Refugee.

French Endive—A new vegetable to be started before July 15 is Witlof Chicory, "French Endive". The "endive" comes from the forced second-growth of the chicory roots. The process will be described in the column later. Sow as beets, thinning to 1-1/2 inches.

Peach Preserving Recipes Offered

Now is the time to make peach pickles and preserves; says a statement from the home demonstration section of the Kentucky College of Agriculture and Home Economics. The clingstone varieties, both Red Birds and July Heath, are ripe and on the market. Peaches for pickling, preserving or making a spiced product should be firm and free from blemishes. Peach pickles are more interesting if made from whole peaches, spiced peaches from very firm ones and preserves from those cut in halves or large pieces.

Recipe For Sweet Peach Pickles
4 qts. peaches, 4 c. sugar, 4 c. vinegar, 1 T. whole cloves, 4 or 5 one-inch sticks of cinnamon, 1 small piece of ginger.

Make a syrup of the vinegar and sugar, add the spices and let boil for 5 minutes. Remove the peeling from the peaches and drop into the hot syrup a few at a time and let cook until the peaches can be pierced with a straw. Remove from the fire, cover and let stand over night. The next day pack the peaches into sterilized jars. Boil the syrup for about 10 minutes, pour over the peaches and seal immediately.

SPICED PEACHES
6 lbs. peaches, 6 c. sugar, 2 c. water, 2 c. vinegar, 2 oz. mixed pickling spice, (remove peppers).

Select small firm clingstone peaches, peel and drop at once into a syrup made by boiling the sugar and water together, and boil for 15 minutes. Drain syrup from peaches. Add vinegar and spices to syrup and boil 15 minutes. Add peaches to spiced syrup and cook for one-half hour, cover and allow to stand over night. The next morning, drain off the syrup, boil for 20 minutes, then add the peaches and continue cooking for 15 minutes longer. Again, let peaches in the syrup stand several hours or over night. The next morning, drain the peaches in syrup until they are clear and strained. Pack in jars, cover with strained syrup, seal and process 20 minutes at simmering point, 180 degrees F.

PEACH PRESERVES
2 lbs. peaches, 4 c. sugar, 2 c. hot water.

Blanch peaches remove the skins and slice or cut in quarters. Make a

very thick syrup, using 4 cups sugar to 2 cups of water. Cook the peaches in the syrup until they are clear. Remove the peaches from the syrup and boil the syrup 5 to 10 minutes, longer. Place peaches in a shallow pan, pour the syrup over them and allow to stand over night or for several hours. Reheat the syrup to boiling point, and concentrate until it boils at 218 to 224 degrees F., and pour over the peaches. Fill hot sterilized jars, partially seal, process in a water bath (212 degrees F.) 15 to 20 minutes, completely seal and store in a cool dry place.

Farmers To Meet At Princeton July 31

The annual meeting of farmers and farm women at the Western Kentucky Experiment Substation at Princeton, scheduled for July 31, it is announced by S. J. Lowry, superintendent. Crops, fruits, soil experiments, and the dairy herd and the poultry flock will be seen by the visitors. This annual event usually attracts 1,500 to 2,000 persons from the western counties of the State and from other states.

Special programs have been arranged for persons interested in field crops for those interested in dairy and in poultry raising. There will also be a special session for women during the morning. The principal address will be delivered at 1 o'clock by Prof. George Roberts, head of the experimental work in crops and soils at the main Experiment Station at Lexington and at the experiment substations at Princeton and Quicksand.

Progress has been made at the Princeton Experiment Substation in improving both sandstone will be seen growing on these lands. The Substation has an orchard of peaches, apples, strawberries, raspberries, boysenberries and grapes.

Make Silage Of Clover

Harry and Tate Bird of Shelby county filled a silo with red clover hay. Approximately 20 acres of excellent hay was turned into ensilage, with molasses added to aid fermentation. A tractor mower, hay loader and wagons put the clover hay into the silo in record time, notes County Agent John W. Holland, Bird Bros. have made grass silage before, and Mr. Holland believes the method of preserving hay will increase in popularity.

Hogs Profitable

Woodie Mitchell of Taylor county sold two liters of pigs which weighed 2,085 pounds in 168 days old. Records which he kept showed a net profit of \$180.99. They had the run of red clover pasture.

Baptist Church Livingston

J. A. Bass, Pastor

Sunday School 10 A. M.
Morning Worship 10 A. M.
Evening Worship 7:30 P. M.
Prayer Meeting Wednesday Evening.

W. M. S. meets every Wednesday. Children's Story Hour Sat. 2 P. M. Did you go to church last Sunday? Did you miss being there? If you did not go you were missed. Your church needs you and you need your church. If you failed to go, why did you fail, was it because of pride? That is it—pride! Reason people do not go to church they say it is because they do not have good enough clothes, but that is an admission of pride. The real reason is that they are too proud to bow their knees before God. They are too proud to sing the songs of Zion. Men are too proud to sing, "America, Grace, How Sweet the Sound That Saved A Wretch Like Me." The sin of pride is blasting and running our nation. There is no doubt of the fact that God is going to humble us, and the time may not be far away. Some who read these lines will remember that during World War No. 1, many of our finest young men were sander fighting and dying on foreign soil, and the people back at home would say, "If God will spare my son, and let him return to me, I will never forget Him; I will give my best in service and devotion."

But alas, when the war clouds had cleared away, and the brave sons had returned, these same people who had promised so faithfully not to forget those who died in the service of France and the other nations that have been overrun had humbled themselves before God, they would have freedom today. We have our freedom now. If there is a mighty turning to God, in our country, we will continue to have it. If there is not, we will not be enjoying our freedom for long. You who would fight for your right to worship in your own way, and so do I, but let us use this priceless heritage while we have it.

Go to your accustomed place of worship every Sunday.

Kentucky Has Big Crop Of Peaches

To help dispose of one of the biggest and best crops of peaches ever grown in Kentucky, and also to encourage canning and other preservation of more food in homes, the Department of Markets and Rural Finance of the College of Agriculture and Home Economics is working for the widest possible distribution of peaches throughout the State.

Surveys are being made to determine the amount of peaches storekeepers will need to supply families for canning and preserving. County home demonstration agents, through homemaker's clubs, are giving demonstrations in canning peaches and other fruits, and are furnishing receipts and directions for canning and preserving fruit. Families are urged to consider canning large quantities of peaches—enough for one or two years.

Associations of fruit growers have agreed to provide peaches for any quantity in the State. Prices will be such, it is believed, that many families will put up hundreds of cans. In the face of rising food prices, it is considered good economy to take advantage of the large crops of peaches, apples and other fruits, says the statement from the College of Agriculture and Home Economics.

Experiment Station Holsteins Classified

The Holstein-Friesian Association of America, with headquarters at Brattleboro, Vt., has awarded a herd classification certificate to the Kentucky Agricultural Experiment Station at Lexington, based on the official classification made by Prof. F. W. Aikston of Kansas State College. Thirteen animals in the herd were classified. One rated excellent, two very good, five good plus, three good and two fair.

Freight locomotives in 1940 averaged 107.2 miles daily, the highest on record.

Livingston Locals

Mr. W. M. Owens spent a few days last week in Pineville. Mr. and Mrs. V. C. Owens visited Mr. and Mrs. W. M. Owens last week.

Mr. and Mrs. Calvin Webb visited her parents in Corbin Sunday. J. T. Pike spent the week end with friends in Barbourville.

T. R. Mullins of Withers, Casper Mullins and Mrs. W. H. Ballard of Covington, and Mrs. Clie Pike of this place attended the funeral of their cousin, Mrs. W. B. Sigman at Mt. Vernon Wednesday.

Mrs. H. A. Shrock is visiting her daughter, Mrs. Frank Hacker in Covington this week.

Mr. Conn Wagner spent a few days last week with Mr. and Mrs. Stanley Chapin in Richmond, Ind. Elmer Halcomb left last Saturday for Lynch where he will start working for the coal company.

Mrs. Earl Carter of Cincinnati is visiting her parents, Mr. and Mrs. Richard Mason.

Mrs. B. H. Griffin Jr. Mr. and Mrs. Brown Cockrell and daughter Joan returned home Friday after a visit with Mrs. Beif Griffin.

Mr. and Mrs. Guy Francisco and Miss Jennie Ball attended the show at Renfro Valley Saturday night. George Ball left Sunday for Winchester to start working for the L. & N. Railroad Co.

Mr. and Mrs. Mark Stodum of Cincinnati are visiting her parents, Mr. and Mrs. W. M. Moore this week. Mrs. Jeff McClure is visiting her mother in Knoxville, Tenn. this week.

Miss Joyce Bass is visiting friends in Frankfort this week. Mr. and Mrs. J. B. Jones is visiting her daughter in Corbin, this week.

Mrs. R. G. Webb was in London Monday on business.

Mrs. Herbert Moore has returned home after a visit with her parents in Covington.

Mr. and Mrs. Calvin Webb attended the carnival at London Monday night.

Mrs. Maggie Jones, Mrs. G. T. Jones and Mrs. Pearl Mullins were in Corbin Monday shopping.

Mr. and Mrs. Ed Jones were called to Burr last Thursday due to the illness of her mother.

Junior Owens who has been sick for some time is much better and able to be out again.

Western Kentucky Wheat Yields Good

Wheat yields in Ballard county, Kentucky, were the best in years, reports County Agent S. C. Buchanan. Bob Folsom harvested 45 bushels from one acre of Trumbull wheat, and most yields ranged from 27 to 30 bushels to the acre.

The best strawberry record in several years in Ballard county was made by E. B. Wolfe of Kevil. From one and eight-eighths acre he shipped 442 crates, and then sold 53 crates to hucksters.

Two Ballard county farmers are experimenting with castor bean growing. T. S. Waller has a third of an acre on the Over button, and D. F. Maxberry has a quarter of an acre on his farm near Wickliffe.

A LETTER FROM BRUSH CREEK CHURCH PEOPLE TO THE REPUBLICAN VOTERS

We noticed in the June 19th issue of the Signal where Wallie Phillips, candidate for Jailer, states that he will not drum business if elected Jailer. We feel that he is throwing this at the present Jailer, and it is our desire, since Mr. Clark has been so good to us, to say something that will tend to clarify the situation. A number of times "Uncle" Dave has come to our assistance when there would be a lot of disturbance at our church, but he has only come when we have called upon or sent for him, and we want to say right here that no matter how late the hour, or how cold or hot the weather might be he never refused to lend a helping hand.

AN EXPLANATION OF CHILDERS SHOOTING

STATE OF KENTUCKY
ROCKCASTLE COUNTY
The undersigned, being duly sworn, depose and say: that we were in Mt. Vernon, Kentucky on Saturday night, July 12th, 1941, when an unfortunate shooting took place in said Mt. Vernon, and at said time Walter Sowder a candidate for sheriff was at his home, and was immediately called to the scene of the shooting, and reported in a very few minutes and made the arrest of the soldier who was one of the accused; After Jess Childers was shot, we also made the arrest of the woman who done the actual shooting, and took her to the county jail. Mr. C. E. Sigmon, Marshal of Mt. Vernon, was also present and assisted in the arrest of the woman.

This statement of fact is made for the purpose of refuting some untrue statements about my official conduct in said affair.
WALTER SOWDER

Present when arrest was made.
(Signed)
Eddie Childers, Brother of boy shot
Mammie Childers, Sister of the boy shot.
Ceel Shepherd.
Jesse H. Childers, First cousin of boy shot.
Geter Childers, First cousin of boy shot.
Subscribed and sworn to by affiants this July 16th, 1941.
J. J. FELTON
Notary Public for Rockcastle County, Ky.

ANGLIN FOR JAILER

The election is drawing near, and I have good encouragement from the good women and men all over the County. I stand for church protection and I stand for the right, and I think a man should be a sober man, and let his record be behind him, before asking the people for support. If elected I will do my best to make you a jailer that you will be proud of. I ask you one and all for your support.

IVORY L. ANGLIN

Earl Phillips For Judge

Dear Charlie:
I was quite pleasantly surprised when I read your communication of the 10th Inst. in the Mt. Vernon Signal.

Yes, Charlie you bet I could boast of being a republican, and also other virtues, if I were the boasting type; as strong a one as this or any other county affords.

For more than seventy-five years my forbears have lived in Rockcastle County and they were republicans on both sides of the house. I have every right to be proud of my republicanism but I'm not boasting. My republicanism, nor their was ever questioned, except when a certain fellow, recently tried to criticize mine because I let my brother-in-law, Ben Bray, who was a democrat, work with me a very short while, in accomplishment of some very good results in law enforcement. This CRITIC however is about politically dead anyway; didn't amount to anything, except perhaps, to help me a little.

You know Charlie, I never let little things like that, change my voting or affiliation with the republican party, any more than you do when you hire a democrat lawyer to represent you in court, or let a democrat handle your money on election day. I'm too broadminded to criticize a fellow for things like that.

If you haven't forgotten, Charlie, some years ago, I remember, you helped you hold the place you now hold when our friend, J. H. Lambert, was helping pretty strong opposition to defeat you in the final election. I didn't have any opposition you know, Charlie. Aren't you grateful? Or have you forgotten? Reminding you again that I, as well as all of my people, have always been republicans and shall continue to be.

I am respectfully yours,
EARL PHILLIPS

Mr. and Mrs. Leslie Anglin and daughter Ruth from Madisonville, Ohio spent the 4th. with his mother, Mrs. M. T. Hill and sister, Mrs. Burgess Hysinger they also visited the Smoky Mountains.

Mr. and Mrs. Roscoe Hysinger and little daughter of Brothead spent Sunday with Mr. and Mrs. Burgess Hysinger.

Mr. and Mrs. Ray Hysinger and daughter, Frances Jane spent the week end with his parents, Mr. and Mrs. Burgess Hysinger. They were accompanied by Mr. and Mrs. Scott D. Slickler and son Tom of Pittsburg, Ohio.

Mrs. B. H. Hall returned home Monday after spending a week with her sister, Mrs. C. C. Smith in Dayton, Ohio.

She stopped off enroute at Cincinnati and was accompanied from there by Mrs. A. B. Sparks and daughter, Ann Logan.

Clark Brown returned home Sunday evening from Good Samaritan Hospital Lexington. He is able to be about some and hopes to soon be completely recovered.

Charlie Owens arrived home from Dayton, Ohio Sunday night. He will return to his work there Wednesday. He is employed by a grocery company.

For Magistrate

Since election day is almost here. I want to remind you that I am still a candidate for Magistrate of the first district to be voted for, in the Republican Primary, Aug. 2nd. I pledge if elected to keep taxes as low as possible and will try to work every road in my district with the money that is for road purposes.
Yours Truly,
J. C. (Buster) GENTRY

J. H. LAMBERT ANSWERS HIS CRITIC

TO THE REPUBLICANS OF ROCKCASTLE COUNTY:

In last weeks issue of this paper, Judge Carlin stated that up to the time of the last election four years ago he had paid \$40,000.00 on the county's indebtedness and now his \$22,900.00 more to pay on it. Please ask the Judge why he did not pay the interest and small annual payment on it. If this had been done there would not now be a judgment in Federal Court against us for, as the Judge says only \$123,000.00, which is as a mortgage on our homes.

I did not say nor never have said that a 1928 warrant on Rockcastle County was good at face value. These warrants could not be sold for more than half of their face value.

The Judge says that I received \$350.00 for reporting some moonshine stills. I never received one dollar for such service. Some years ago the then sheriff and his deputy put in, in my name a claim and paid to some other parties who had reported some stills and were afraid to have their names disclosed.

The Judge says I allowed Ott Finnell \$227.50 for wire to fence his farm. The former court had made this order and the court I was connected with paid the bill as we were required by law to do.

The Judge says I stated there was \$8,000.00 or \$10,000.00 paid into this county from the truck license fund to be used only for rural county roads. The Judge says that it was only \$5,200.00. If it was this amount (\$5,200.00), was it spent on your road. I took my figures from a Louisville paper. If the Judge had complied with Section 3747-1 of Kentucky Statutes, and had printed as directed the financial conditions of the county and the collections and expenses this mistake would not have occurred. But you may know he would not expose these expenses until after the election. Here it is now, almost August and this statement should have been made at the close of last year, and when it is published it will look like a Chinese puzzle.

The Judge says I voted while I was a magistrate to pay \$3,000.00 on the county indebtedness. That is true. There was not a dollar of the county indebtedness made while I was a member of the court. I was not on the indebtedness, I never received a single cent. I served as a member of the Fiscal Court from 1930 to 1934 and received less than \$300.00 for these four years.

The Judge has had his salary raised until he would receive more than \$12,000.00 for the coming four year term if he is elected. I feel that that is too much money in view of the fact that our taxes are already too much.

He has left his wife and family and furnished himself a room in our court house. I think that in addition to his salary and room and lodging, he will want the tax payers to furnish board and washing.

The Judge is getting very devious. He knows that his misdeeds have been discovered by the voters and that they will force him to move out about the first of the year.

The Judge says he is not boasting of anything except being a Republican. A man who has been County Judge for eight years should be able to do better than that.

All names on the primary ballots in this Republican primary are Republicans and my name will be first on the ballot in the Judge's race.

Your friend,
J. H. LAMBERT

To The Voters Of Rockcastle County:

As election day draws near, certain false rumors and propaganda against me are being set afoot for the purpose of deceiving the voters. To every voter in this County, I can say truthfully that I do not use intoxicants in any form, and when elected, I will continue to be sober. I shall not operate road houses or tourist camps where intoxicants are sold, nor shall I go home to bed on Saturday afternoon or night to keep from arresting drunkards and bootleggers. I and my deputies, guarantee protection to the churches, regardless of denomination and without partiality. I request the voters to ask my neighbors and those who know me best about my moral life and whether I use intoxicants, and when this is done, the false rumors and propaganda will not be believed. My deputies are Ted Hink and Givins Lear, two men of good character, sober and law abiding. On election day, cast your vote for me and we will all work hard together for a better Rockcastle.

ARTHUR PAYNE

To the Republican Women of the County:

I have stated that the real issues in this election are the financial and moral issues. I have given you a few items on the money condition. I think the morals of our country are much more important. Since we have been under the rule of Judge Carter, we have seen open saloons spring up in our county. These liquor and beer joints were recommended, and approved by our county judge. There is beer and liquor sold and handled in less than 150 yards of our court house.

Why do you ladies think a County Judge would furnish himself a room in the court house to sleep in? (There is a reason.)

What is Judge Carter trying to make of our court house?

J. H. LAMBERT

RE-ELECT

Chas. C. Carter COUNTY JUDGE

SPEAKING AT

Brothead, Ky., Bank Park, Saturday, July 19th at 1:30 P. M.

Mt. Vernon, Ky., Court House, Saturday, July 26th at 1:30 P. M.

 Mr. and Mrs. Grant Baker left Wednesday to make their home in Louisville.

Compares Value Of Ewes

Raising both "native" and northwestern ewes Clarence McAttee of Tipton county found that imported ewes sheared an average of four pounds more wool per head and that their lambs were ready for market 10 days ahead of lambs of the "native" ewes. He paid \$10.25 each for the northwestern ewes and sold 014.45 worth of wool and lambs from each county. County Agent Thomas W. Morgan reports increased interest in northwestern ewes.

 School opened here Monday with Mr. Lonzo Bullock teacher.
 Mr. Arthur Hurst was in Standfield this week this week.
 Mr. and Mrs. Cecil Brown and family of Mt. Vernon visited his parents, Mr. and Mrs. Joe Brown Sunday evening.

Money Talks

By Frederick W. Stamm, Economist and Director of Adult Education University of Louisville
 Talk of inflation is again heard in many financial quarters. "You can't keep prices down" seems to be the sentiment everywhere. This inflation sentiment is based on many factors. First, we are in a war economy and we are using more of everything than we normally do. The demand for commodities is greater than the supply and this always boosts prices.
 Second, governmental control of prices had not worked as smoothly as had been hoped for. The governmental price control agency has attempted to curb the price of finished goods but has paid little attention to wage levels and raw material

price levels. In fact, the government has encouraged wage increases in many industries and has also permitted higher raw material prices. As we all know, these are the important manufacturing costs, and whenever manufacturing costs go up considerably, the prices of finished goods must go up. If we really want to keep the price of finished goods down, we must control the costs, that is, raw material prices and wages.
 The government has also encouraged higher prices for agricultural commodities, and, as a result, we are having higher food prices. For example, flour prices are advancing because of the advancing wheat prices.
 In the third place, inflation thinking is based on reports that price fixing legislation will meet considerable opposition in Congress. This opposition will come from Congressmen whose districts are booming because prices are going up. And we must remember that Congressmen are always hesitant to vote against high wages and high agricultural and raw material prices. But unless they do control these costs, they cannot hope to control the price of finished goods.
 Price controls are now a political problem as well as an economic one. For this reason, I would not be surprised to see, at least, mild inflation.

Among Co. Agents

Lincoln county farmers have ordered 40,000 pounds of vetch seed, to use in the conservation program.
 Bees destroyed a large amount of peach and cherry trees in Morgan county.
 Several Bath county farmers harvested 50 bushels of barley to the acre.
 Twenty Boone county farmers received 9,000 pounds of Tennessee Valley Authority triple superphosphate to use on gardens.
 Sam Keith of Lurie county threshed 354 bushels of orchard grass seed from 100 acres of land.
 Farmers in Johnson and Clay counties are planning increases in alfalfa acreages.
 Calloway county homemakers are learning to make cottage cheese from sweet milk.
 A revival of interest in home-canning is reported in Fulton county.
 Gardens in Grayson county were damaged by dry weather, despite extra cultivation.

SLANTS

By W. L. S.

As in the last World War large industrial centers are now being the major portion of defense orders. The large plants already erected are in a position to turn out orders much quicker and should have the first work, but when new factories are built, the smaller factories should be favored over the larger cities.

This section of the country has been eliminated in defense work, and no place needs a shot in the arm worse. A small factory would work miracles in a town like Mt. Vernon, London and Corbin, while a ten million dollar factory in New York City is only a commonplace occurrence.

The big objection to erecting factories in the smaller towns is lack of electricity and raw supplies. However, with the Wolf Creek dam a certainty this area will soon have an abundance of power, and the raw materials could easily be shipped.

A chain of small factories, manufacturing armaments would take care of all local labor, and would practically eliminate WPA. This section will always be poor unless the financial situation is improved.

Politics should be left out of defense and new defense projects should be established in sections of the country which by no means have an abundance of people, are now in bad shape financially.

In Missouri, a large training camp has been erected near Waynesville and this entire area is now booming. This camp is located in the foothills of the Ozark mountains in the poorest part of Missouri. New schools are being built, and when the war is over many worthwhile improvements will remain that will prove beneficial for many years.

It is doubtful with all the many billions being spent if this section will ever receive a dime, except by indirect means. The wealth, as usual, will be concentrated in the heavily populated districts, which is something the economic experts have been trying to eradicate for years.

It is a well-known fact, that when times are good, people in the cities, when times are bad, the city dwellers flock back to the small towns, where a bare existence can usually be eked out.

Baptist Church

By Rev. W. C. Younce

Since we know that all that makes manhood strong, womanhood beautiful, homes happy, hearts aching, life worth living and death only the beginning of a higher life, come to us through Christ, we should seek to honor Him by attending the services of the church.

Sunday Services (C. S. T.)
Sunday School—Rev. A. M. LeCroy
Text: "The Church's duty in regard to Liquor"—1 Cor. 5:9-13; Titus 2:1-8. Text: "Ye are the salt of the earth"—Matt. 5:13. Facing the facts; maintaining the Christian standard; reclaiming the wayward; creating the public conviction—these are the highpoints in the lesson. This lesson merits the prayerful consideration on the part of every member of the church, especially at a time when the liquor traffic is playing havoc in our community. The church people have a duty to perform in this connection. To shun it is to betray our Christ who said "Ye are the salt of the earth". We, therefore, appeal to all who would like to honor Christ in every way of life to be present Sunday and hear this lesson discussed by men who know the Bible and love the souls of men.

It is not out of order to say right here that the good people of Rockcastle County should consider favorably the type of character that should be elected to public office in

A list of supplies and cost of camp will be sent to any 4-H boy or girl on request. Write or call the County or Home Agent for this information.

NATIONAL DEFENSE

There are many things to day being done under the pressure of National Defense. Some of us may forget that we do too, as individuals, on our small farms, have an important part to play. I wish to mention a few of these things we can and should do—They are:

- Be true and faithful to the Christian principals as God reveals them to us.
- Be loyal Christian Americans.
- Remember that charity begins at home.

Go to Sunday School and Church. Raise, can and store enough food and feed to take care of family and livestock this coming year. This is a good time to check up on the amount needed for both Food and Feed.

Take care of the surplus—others may need it and we may need the money that will be paid for our surplus.

Things may look well now and we may not be disturbed by the news of war, scarcity and winter but remember such things are being experienced by others and it could be our experience.

Lets think of others as we work and plan.

Others should think also and not depend altogether on those who think about them and wish them well.

We must earn our living by the sweat of our brow.

SERVICES AT NEW HOLINESS CHURCH

To Republican Voters Of Rockcastle County

WE, the Undersigned Republican voters of Broodhead and Community are glad to endorse the candidacy of Mr. C. H. Phillips and Mr. Ollie Collett for jailer of Rockcastle County.

We are especially glad to endorse Mr. Collett, so that Republicans in Rockcastle County that do not know him may know what his friends in this community think of him. Mr. Collett is a real Republican and has always been ready to work for the interest of his party. He has been Chief-of-Police of our town for the past eight years and has done his best to make a good officer. The fact that Broodhead is one of the best governed small towns in Kentucky, is, we believe, greatly due to Mr. Collett's work and fine co-operation with the governing body of the town. He believes in enforcing the laws so that we may have a better County to live in, and if Mr. Phillips is elected and Ollie works with him, which he will do, he will make Rockcastle County an excellent office.

Walhalyne Fairchild Given Scholarship

Miss Walhalyne Fairchild, daughter of Mrs. Delora Fairchild and the late M. J. Fairchild received this communication. The letter which follows in part, speaks for itself: July 7, 1941

Miss Walhalyne Tipton Fairchild, Mt. Vernon, Ky.
Dear Miss Fairchild,

It is a pleasure for me to report on behalf of the Committee on Student Aid that you are to receive for academic year 1941-42, a \$50.00 scholarship from Transylvania College. The Committee has given careful study to the academic rating of each of the applicants and on the basis of such standing plus other qualifications as to character and interest in the program of the college the grant is made.

Most cordially yours,
Raymond F. McLain
Chairman Committee on Student Aid.

School Teachers: You will find a complete list of all school necessities at Bills 5 & 10c Store.

Mrs. Walter Henderson and son Lucas spent the week end with Mr. and Mrs. Will Cottengam in Corbin. Martha Van, and Pearl Van from Clear Creek were in Mt. Vernon Saturday on business and while there visited The Signal Office. Mr. and Mrs. Claude Lemon and little daughter Clarice spent the week end with Mrs. Lemons mother, Mrs. W. H. Owens. Mr. and Mrs. H. B. Morgan of Anderson, Ind. stopped here on their

way home from Virginia where they had been visiting friends, to visit Jack Hysinger and Mr. and Mrs. Tilton Owens. Mrs. Morgan is a cousin of the Hysinger's and was the daughter of Isaac Hysinger, this is her first visit to Ky. since she left here over forty years ago.

Homemakers Club Elected Officers

The July meeting of the Homemakers Club was held Friday the 11th, at the home of Mrs. R. B. McKenzie. The president, Mrs. C. C. Cox opened the meeting. The nominating committee reported the selection of the following officers for the ensuing year: president, Mrs. G. M. Ballard; vice president, Mrs. M. Gentry; secretary and treasurer, Mrs. C. C. Cox. Motion was made and carried to accept same.

A committee was appointed to go before Judge Charles Carter in the interest of an office in Mt. Vernon for the Home Demonstration Agent. Selection of the cast of the play, "Make Up and Live", for the annual meeting of clubs held in Berea, Sept. 15th, closed the business session.

Little Billie McKenzie, daughter of the hostess said the blessing at the picnic dinner served on the lawn and enjoyed by all.

The meeting adjourned to meet again in September with Mrs. George Dowell.

Mrs. Fannie Thompson
Publicity Chairman

James Winstead

FOR

SHERIFF

A few words to the voters of Rockcastle County. James Winstead's name will be last on the ballot in the Sheriff's column. Now gentlemen and ladies! I have served you people as officer of this county when we had to ride horseback and the roads were bad. I have been called on at midnight to go to the Jackson County line and the same way by counties that adjoins this county. I have gone when it was raining, snowing, sleeting; in all kinds of weather. I have had my feet frozen in my stirrups. I swam my horse one night to go and do my duty near Brush Creek station. Now folks we have better roads now, than we had in those days. Now, as you know, we have much better ways for transportation. Folks I did your work then and gave you satisfaction. I honestly feel that you are going to elect me for your next sheriff. As I told you before I have got one deputy, MR. JOHNNIE LAKES, who has been the town Marshall of Livingston for over eleven years. He must have made a good officer or they wouldn't have kept him that long. If I am elected for your sheriff I will hire some of my friends that have spent their money for an education to stay in the office and to take care of your business and my business.

A few words to the church people. I feel that this is very important to the church people throughout the county. In different parts of the county good people tell me they can't have churches if I am elected for your sheriff. Any church in the county that wants a deputy sheriff to take care of your church, you pick him and I will have him appointed. If any arrests should be made bring them in or notify the sheriff's office.

When you go to the poll's on the 2nd day of August and cast your vote for James Winstead you will be voting for one you will never regret voting for.
Mark your ballot this way ---

Howard Saylor Tells About Life in Army

A Few Facts About This Camp

Camp Wolters lies in north-central Texas. It is three miles to the resort of Menard Wells, a town of approximately 14,000. This town seems as if it had a population of 25,000. Dallas and Ft. Worth are 45 and 70 miles respectively from Camp Wolters. This camp is composed of some 700 buildings. There are 20,000 soldiers here. This number seems rather insignificant when compared with the personnel of other camps. Nevertheless Hemo Sapiens aren't rare here.

Farm News

Seed is being saved from grass which has been growing on the farm of John Stewart in Pulaski county for 50 years or more. A sample sent to the Agricultural Experiment Station at Lexington was pronounced Tall Meadowspout grass.

Wheat Yield Up

Wheat on the farm of R. N. Rathfin in Bath county produced 22 bushels to the acre. Eight years ago the yield on the same land was six bushels. The increased yield, according to County Agent Joe Thompson, came from the use of limestone and superphosphate, the field having received 2 1/2 tons of limestone to the acre and quantities of 47 percent Tennessee Valley Agronomy phosphate.

Money From Milk Cows

Randall Rice of Adair county received \$90 for cows produced by eight cows in a month. In addition, he had 25 gallons of skim milk a day for his 50 hogs. The cows have good pasture in summer and soybean hay and ground corn in winter, according to County Agent R. B. Rankin.

Survey of Groups For Civilian Defense

A new undertaking in the interests of Civilian Defense, consisting of a nationwide inventory of civilian organizations available for defense activities, was engaged in community services, for use in planning a program of volunteer participation in National Defense, is being put into operation through the chain of...

Rhubarb in Cold Storage
With rhubarb abundant, members of homemakers' clubs in Kenton county, Kentucky, are putting it in cold storage. The stalks are cut into inch pieces and packed in five-gallon cans, and then put into storage and frozen. The raspberry crop also was good in Kenton county. The berries being large and of excellent flavor. Large quantities were preserved.

NATIONAL DEFENSE and the FARMER
Headlines in every paper is news about the defense of America. Just as important as airplanes, tanks and armaments is food—food that keeps industry humming, our country on the alert, our army and navy strong.

COOKING'S A SNAP ... the carefree Electric way
SO CLEAN—No soot, no smoke, no smudge to soil walls, curtains or utensils. SO COOL—No flames, no wasted heat to send kitchen temperatures soaring. SO SAFE—No matches, no fire, no fumes, no danger of asphyxiation or explosion. SO SIMPLE—No guesswork, no uncertainty—the correct measured heat for every cooking operation assures perfect results every time.

Lamero

By Bessie Smith
