25,000 young men wanted immediately to get best aviation training in the world

Right now the world's fastest planes are rolling out of America's factories by the thousands. That's why the United States Navy needs 25,000 young men to fly and service these planes. That's why your Navy is offering qualified young men the finest training course offered anywhere. Now you can get paid to lead the greatest life in the world. Aviation Cadets in the United States Navy get \$75.00 a month during seven months of flight training. Then they become Naval Aviators receiving as much as \$245.00 a month.

Earn while you learn

Uncle Sam's Navy offers you tremendous opportunities for advancement in a wide variety of fascinating jobs. There are 45 skilled trades and vocations which the Navy may teach you if you are qualified. If you're interested in radio work, engineering, aerial photography, carpentry, pharmacy, welding, the Navy may spend \$1,500 in one year training you to become an expert in your chosen field.

Opportunities for advancement

If you apply yourself, advancement and increases in pay will follow regularly. Before the end of your first enlistment you may be earning up to \$126 a month—with your board, keep,

and a complete outfit of clothing free! If, at the end of your term of service, you wish to get a job in civil life, your Navy training will be a tremendous asset to you. Employers the country over are eager to employ Navy-trained men!

Good fun, good food, good friends

The Navy is noted for its popular sports program. Every kind of sport from baseball to

boxing and swimming is offered the man who enlists. On board ship, the latest moving pictures are shown free. Organized recreation, such as dramatics, singing and musical entertainment, goes to make the life of a Navy man the best fun in the world.

The food served in the Navy would do justice to your own mother's cooking. It's well prepared—and there's plenty of it.

Any man who wears the trim uniform of Uncle Sam's Navy is bound to be looked up to—for you've got to be good to get in the Navy!

Get this FREE Booklet

Beauty Winner Once Lived In Brodhead

Folks in Brodhead who read the magazine article in Sunday's Courier-Journal two weeks ago immediately kept on reading and looking for featured on an entire page was Miss Mattiegene Palmer, daughter of Mr. and Mrs. R. E. Palmer. The Palmer's lived in Brodhead several years ago, her father being a high-way engineer. While here they occupied the Dr. McWilliams home.

Miss Palmer received wide publicity by winning a beauty contest sponsored by Look magazine, twenty-four other beauties participated in this contest, and readers of the magazine voted for their choice. Mattiegene also named Miss Lexington, in 1939 and went to the Atlantic City contest as Miss Western Kentucky. In 1936 this talented young lady was also named the healthiest girl in the State at the Kentucky Fair. She also won many other contests.

People at Brodhead remember the Palmer's well for they lived here several months.

Mr. and Mrs. W. M. Bullock were in Richmond and Berea Sunday.

Mr. and Mrs. Robert Hendrickson were in Somerset Sunday.

Mrs. Ben Bradley returned Monday from Leckland, Ohio where she went to see her new grandson, James Franklin Hunt, who was born on Friday.

Misses Virginia and Luelle Owens were in Lexington shopping Monday.

Mr. Albert Albright of Louisville arrived Tuesday for a visit with friends and relatives.

Mr. Melvin Cox was in Meshville Tuesday last Wednesday and Thursday visiting Mr. and Mrs. John Hubert Cox.

REMEMBER that our services begin new on slow time.

POOR PREACHER

I feel sorry for the preacher—In a little country town.

If he's not shining angel.
All the gossips rattle him down.

If he stays at home to study,
He should go to see a sick.

If he goes to a convention,
Why, he doesn't work the field.

If he's boosting for the young folks
He's too modern—he's a clown.

He won't preach old-fashioned sermons
Fit for such as Grandpa Brown.

If he caters to the old folks,
All the young ones stay away;

And they never ask God's blessing
On him when they kneel to pray.

And the unbelieving farmers
Ridicule his soft, white hands;

Hands that welcome weary sinners,
And then teach them God's commands.

Yes, I sympathize with the Preachers
For they're human as I'm he.

And I know they can't be perfect
For they're mortal like the rest of me.

Tobacco

By Dr. R. G. Webb

Due to the stress of business and social affairs for the past three weeks I have had nothing to say in the Signal, but now that things are better I want to make up for lost time by telling you something about a most important subject, Tobacco. Everybody knows what tobacco looks like, yes even four year old kids see it, see it shown, we see the plants, we see it set out in the fields, we see it growing, we see it cut, cuder and hauled to the great warehouses in December to be sold to the manufacturers. Then we see it brought back to us for sale and consumption. Yes we see all of this and still we think nothing about it, for we have reached the point to day where we think that it is just as important for us to have our tobacco as it is to have our meat and bread. I know several families that come to town and we will say they only have fifty cents to spend and need to spend all of that for something to eat, but do they? No they will spend say thirty cents for something to eat and twenty cents for tobacco. That condition is not only in my town but it is in your town or community. Now what causes us to do that? Habit! A craving for a poison that we have learned to use, some do but the majority never.

Tobacco is the commercial dried leaf of Nicotiana glauca it is a native of tropical America, but cultivated in different parts of the world, the leaves contain a very poisonous, oily fluid known in medicine as Nicotine. Nicotine is the active principle; it is a colorless fluid, having the odor of tobacco and an acid taste, but nicotine is not all that is found in the leaves of tobacco, we have several other active principles contained in it that are not good for us but I shall not mention them, as I want to confine this to the most deadly poison that is gotten from the use of tobacco. The dose of the active principle of tobacco Nicotine is one twentieth to one tenth minimums, in very minute doses it is the most powerful and

rapidly acting poison known, death having occurred with in three minutes after its ingestion, one fifteenth grain has caused death in human beings, and one thirty-second grain is fatal to dogs and cats. All of us remember our first experience when as kids we decided that we would do like dad and the other men, smoke or chew, I shall never forget my first after smoking a pipe of home made green, myself and brother were in the back of our home and we laid there until found by our father. Sick yes we were sick enough to die and on top of that got a good whipping, that broke us for a while, but we like others had to be men and Now let me tell you just how tobacco works on you, first it like whiskey stimulates and after-wards paralyzes the motor nerves of the involuntary muscles and the secreting nerves of the glands, also the spinal cord. It contracts the pupils of the eyes, slows and depresses the heart, reduces body temperature causes profuse sweating, cold and clammy skin, collapse and death usually by paralysis of respiration, sometimes by paralysis of the heart. The continued use of tobacco, by smoking or chewing produces nervous depression, cardiac irritability of the heart. In the young it hinders the development of the higher nerve centers and impairs nutrition, digestion and assimilation, about the most pitiful thing that we physicians have to deal with is those young boys and girls that are brought into our offices for treatment by their parents and after giving them the once over, we are told that they began to use tobacco when they quit nursing and now the little fellow just can't do without it, and we have to give it to him. We have offered him money to quit, we have whipped him and that has done no good so guess we will just have to let him go on and use it. Yes and look like a tobacco worm the rest of his life. Stunted, stupid, nervous, indigestion, underweight, headaches, irritability of the heart and dozens of other things. Folks there is no other animal in this world of ours that will eat, drink or chew anything after it has made him sick once, but

man, then we say we are educated, civilized and yes smarter than any other creature on this earth. I do not believe it and in fact I have books on science that tells me different, but I shall not go into that now, but maybe later, if someone questions my statement, I must now close this article, but will later on tell you something about Cigarette problem that we have on our hands with the young boys and girls. Next week I have the time I will discuss Influenza—Bad Colds their prevention and treatment.

Christian Church

By-Aubrey Russell

Our revival is now history. A great effort on the part of many combined with a fine spirit, through-out was responsible for whatever success we may have had. Additions were not numerous and there were no big crowds. But the results of a two-week meeting cannot be measured by these standards. The real result will be seen in the next few weeks. Members of the church are asked to support our EIGHT WEEKS WITH GOD campaign and their reaction to this very important program will indicate their regard for the church.

In a time like this when the best things in life are being questioned and the most sacred elements are regarded with indifference, it is time we asked ourselves "What remains of worth." In this EIGHT WEEKS WITH GOD the pastor will try to answer this vital question.

Printed in this issue are the sermon topics that will be dispensed during the eight-week period. Study them and answer the question for yourself and then come out to see what might be said about them in the light of GREAT CHRISTIAN CONVICTIONS.

Parents need to answer these questions for their children: "What are you going to grasp a wholesome conception of life. Parents can bring children to church but it is hard to send them. As there are some basic needs relative to the food that the child eats, there are some fundamental conceptions that the child needs in order to face life fully prepared. The church with the parents help can give these needs.

Sunday September 28 is Promotion Day. All the leaders in the church are obligated to be at the church for this service.

Sunday October 5 will be Roll Call Day. If you are a member of the church, you are obligated to be at the church for this service. The church needs a full roll call. Members of the church has a right to know just where you stand. Vote for an active church, by being at the church for ROLL CALL OCTOBER, 5. This day

has been Rally day in the church and we are combining the two. If you are a member of another church and want to retain your membership in that church but would like to have fellowship with us, let us know about it.

Those concerned about the Clear Creek Mountain Preachers' School will be glad to know that Rockcastle Association has contributed thus far \$116.30. Our plan is to raise \$40.00, which will take care of one room. When we consider the fact that we have twenty churches in the association this should not be hard to raise. We suggest that those who want to have part in this most worthy cause send their gift to Dr. L. C. Kelley, Pineville, Ky. or to Brother Wesley Sears, Conway, Ky. who is chairman of this work in our association.

Our revival services will begin October 20th. Brother V. B. Castleberry during the preaching. In preparation for this meeting we are planning to take a community census this month.

Hound Dog Owners

Will be in Mt. Vernon Saturday morning, September 20 to buy Hound Dog Males and Females. Needing dogs very bad. Will have plenty of cash to buy them all. Buying for largest shipper in the world. Bring your dogs to town with you Saturday morning, September 20th and will do my best to buy them all. Also buy good Trained Bird Dogs.

Missions will be observed next week, Monday through Friday, at the church at 2:00 o'clock each day. Surely every woman interested in the Lord's work will want to attend these services.

Sunday Services
Sunday School—9:45 a. m.—Charles Brown, Supt. Lesson: "The Basis of Ultimate Victory". Rev. 12:7-12; 15:2-4. Present last Sunday, 158.

Morning Worship—11:00 a. m.—Subject: "The New Testament Church and the Holy Spirit." Text: Acts 16:8—"And they passing by Mysia came down to Troas."

Training Union—6:30 p. m.—Mrs. Fred Baker, Director. Theme for the month: "Resisting the Devil." Present last Sunday, 88.

Evening Worship—7:30 p. m.—Subject: "Attention, Daughters of Jerusalem." Text: Luke 23:28—"But Jesus turning unto them said, Daughters of Jerusalem; weep not for me but weep for yourselves, and for your children."

Prayer Service
We believe that the time is ripe for fathers and mothers to show concern for their children by attending the Wednesday night prayer service. If Bridge Parties were converted into Prayer Meetings more of our boys and girls could be reached by the gospel. Jesus said, "My house shall be called a house of Prayer."

Card of Thanks

We wish to thank our neighbors and friends for the kindness shown us during the illness and death of our dear wife and mother, Addie Chastain. We especially wish to thank the Rose Hill choir and Rev. Race for his consoling words.

LOOK AHEAD to 1942

One thing is certain. There are going to be more taxes and higher taxes for everyone.

Wouldn't it be smart to prepare for them now in order to ease this burden when March 15, 1942 rolls around?

Here's our suggestion. Save something every month in a special fund for next year's income tax. You still have plenty of time and we'll help you get started.

Widen your roads with **CONCRETE**

Relieve Congestion Speed Traffic Increase Safety

Today's swollen traffic clamors for "wider roads." The practical answer is to widen crowded roadways with concrete. This restores normal speeds. Eliminates congestion. Saves countless hours. Increases safety.

Wider Roads Boost Business

Whether you build new roads or widen old, be sure to demand concrete—the safest and most economical pavement for modern traffic.

PORTLAND CEMENT ASSOCIATION

CONCRETE IS THE REAL LOW-COST ROAD

YOU CAN'T BUY HIM NEW EYES...

but good light is cheap!

MOST CHILDREN are born with perfect eyes. Yet, by the time they reach school age one out of five, on the average, has poor eyesight, according to actual scientific figures. Why risk your child's eyes when good light costs just a few cents an evening?

The new equipment for good light is low cost and good looking. For instance, the new I. E. S. Lamps—designed by scientists to protect eyes. And you'll be delighted when you see the new "adapters" that change old fixtures into modern light-protecting light sources.

SLANTS

By W. L. S.

Last week's President made a grim, forceful chat to the nation. Considerable fanfare had been given this talk and most of the civilized world were connected by radio. To the isolationists and appeasers this address sounded the death knell of diplomatic procedure, which after all is a pussy-footing.

This stand of the President's shows the dictators that this country will not back-track, and also that we will not be intimidated with the words our attitude will now be based on an event of fact and we are ready to do a little shooting on our own accord.

In times like these it is much better to look the situation squarely in the face, instead of trying to be prepared for rear-guard action.
