FEATHERS WANTED
FEATHERS WANTED, NEW OR OLD. Best quality feathers for pen nibs. Address: 808 N. Broadway, St. Louis, Missouri.

Get Into Action For Full Victory

BEAT THE HEAT
Sprinkle your heat-ridden skin with MESSINA, formerly MESSINA-Powder. Cools burn as it soothes itching.

From an old French word "més" derived from the Latin word "missus" meaning a course of a meal, comes the Army's name "mess" for its breakfast, dinner and supper. A favorite meal with the soldier is chicken dinner—his favorite cigarette, Camel. (Based on actual sales records for "service, gents," own stores.) A carton of Camels; by the way, is a gift that's always welcome. And though there are Post Office restrictions on packages to overseas "my men, you can still send Camels to soldiers in the U.S., and to men in the Navy, Marines, and Coast Guard wherever they are—A-1.

DIARRHEA
DUE to dietary indiscretion, change of drinking water, sudden change in weather can be quickly relieved by Wakefield's Blackberry Balsam. For 50 years a household remedy for all diarrhoea. Be sure to ask for genuine Wakefield's BLACKBERRY BALSAM.

Fifty Time Zones
Before the four time zones were adopted in the United States in 1883, more than 50 different zones were used.

YOU WOMEN WHO SUFFER FROM HOT FLASHES
If you suffer from hot flashes, dizziness, "irregularities" are weak, nervous, irritable, blue at times—due to the functional "middle-age" period in a woman's life—try Wakefield's Vegetable Compound—the best-known medicine you buy today that's made especially for women. Wakefield's Compound has helped thousands upon thousands of women to relieve such annoying "hot flashes." Follow label directions. Wakefield's Compound is worth trying!

HOW NOT TO CATCH A FLY

The BOOK METHOD of fly killing might be termed the "ideal" square. While reading, wait until buzzing. Fly settles on book page. Close book instantaneously to crush the fly. Very simple. Chief objection: spotted page ruins first edition and the friendship with periodicals. Borrowed the book from. A better way to get flies is to

Catch 'em with TANGLEFOOT FLYPAPER

It is the old reliable that never fails. Always economical to use, and not refused. For sale at drug and grocery stores.

CATCHES THE GERMS AS WELL AS THE FLY

Mr. and Mrs. Burl Wolfe from Berea, Mr. and Mrs. Howard Laville and children visited Mr. and Mrs. J. H. Wolfe Sunday.

Miss Toy Himes spent the week-end with her parents, Mr. and Mrs. Dave Himes.

Letter From Byron B. Begley

London, Kentucky, July 28, 1943.

My Dear Friends of Rockcastle County.

I am writing you in regard to my candidacy for the office of State Senator of this, the 19th Senatorial District of Kentucky, composed of Clay, Jackson, Owsley, Rockcastle and Laurel Counties, to be voted for at the Republican Primary on August 7th 1943.

I have only one opponent for this nomination, and both of us live in London, Kentucky, and my name will appear first under the head of "Senators" on the Republican Primary Ballot. If you have not already done so, and do not know me, I most cordially invite you to make inquiry and investigation, and if you find me worthy, I will appreciate your going to the polls on August 7th and vote for me, and I will very much appreciate your doing so.

I am now, and have always been a Republican in politics, and a friend to the home, school, church and teachers of the county, and have always tried to be a friend to those who need assistance in any way.

If I am nominated and elected, I promise you that I will do all in my power to better the condition of the school teachers of this District and the State, and will at all times, use my influence and vote to secure better pay for the teachers, and to correct the shameful and deplorable state of affairs that do not exist with respect to them. Also, I will use my influence and vote in behalf of the aged, infirm and helpless of our State, and to secure for them assistance that will be of real help to them. The amounts now being received by them is wholly inadequate and insufficient.

Further, I will use my influence and efforts for more and better roads for our District; for the connection of rural highways that have not been completed, and for state maintenance of those already constructed; and for putting on our roads "Black Top", or Permanent improvement of those now only being used as gravel roads which should have been taken out of the dust long ago, and will at all times be found using my efforts and influence for any and all undertakings for the industrial utilization of our resources, and the betterment of the people generally.

I want to now promise, and assure you, and all, that I will not sponsor, or vote for any bill or measure while I represent you in the Senate, that will in any way or manner injure any person, or the business of any person, but, upon the contrary, I will use my influence and vote against any such bill or measure, and this I will do, regardless of anything you may have heard said, or any intimation made, or anything that may hereafter be said or intimated, or that may be circulated to injure me, or prejudice me in my race for Senator.

If nominated and elected, I will represent all the people of all the counties of this District. I will not use the office for any personal benefit, or special privilege for myself or any other person or group of persons, but for all the people generally. I will not be seeking any job for myself.

I thank you, one and all, for the interest you have manifested in my behalf, and for anything you may hereafter do or say for me, and I here and now promise you that you shall never have just cause to regret being for me.

Sincerely your friend,
BYRON B. BEGLEY

YOUR VOTE FOR BEN KILGORE

Open Letter from Ben Kilgore to the Voters of Kentucky

Dear Folks: I am making the race for Governor in order that we may have a greater Kentucky. There can be no doubt but what the great majority of Kentuckians are patriotic and want to overthrow the corrupt political regime at Frankfort. Good government and good morals go hand in hand. No one dares to defend the present regime at Frankfort, because it has continuously violated every moral and constitutional concept of democratic government. The concentration of power in the hands of non-elected political bosses, the arrogant manner in which the Governor and the dictators back of him have delayed and controlled the Legislature, the unwholesome and unlawful use of slush funds to influence elections and the degrading influence of the political hierarchy over the Courts through political patronage, the assessment of state employees, the corruption and waste of the taxpayers' money in the Purchasing Department, the collection of bridge tolls contrary to the plain provisions of the law, all are evidences of an immoral leadership, which an outraged and decent citizenry can no longer tolerate or endure.

Will Build Kentucky and NOT A POLITICAL MACHINE!

VOTE FOR KILGORE AUG. 7th

SOLDIER and SAILOR

The following newly inducted personnel of the United States Army have been sent forward from the Reception Center at Fort Thomas, to the stations and addresses indicated...

P.F.C. Fred Holcomb, of Broadhead, has been awarded the Army's Good Conduct Medal for exemplary service as an enlisted soldier.

WEEKLY NEWS ANALYSIS

Italians Feel Power of United Nations As Sicily Topples and Rome Is Bombed; Navy Blasts Japs in Battle Off Munda; U. S. Civilians Get Rationing Forecasts

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper. Released by Western Newspaper Union.

FOOD: Maintain Meat Ration

Maintenance of the present meat ration at "about the present level" was predicted by the War Food Administration following the allocation of estimated supplies among civilians, the services and other users for the next 12 months.

Total allocable meat supplies were put at 224 billion pounds. Civilians will receive 63 out of every 100 pounds produced, the services will be given 17 pounds, the Allies will get 14 pounds, and allotments for reserves, the Red Cross and exports will amount to 6 pounds.

Of the total supply of beef, expected supplies will obtain 66 out of every 100 pounds, and the services 23 pounds. Other claimants will get 2 pounds. Of the pork production, the civilians share will amount to 59 out of every 100 pounds, the services portion will be 12 1/2 pounds, and the Red Cross allotment will approximate 25 pounds.

Total supplies of lamb and mutton are expected to drop sharply from the 830 million pounds of 1942 to 830 million. This compares with the 1935-39 average of 633 million pounds.

Cheese, Butter

Decrease of government purchases through August, September and October will mean that 527 million pounds of butter and 45 million pounds of cheese will be available for civilian consumption.

WFA also announced that plans were made for about 17 million additional cases of canned baby foods, condensed milk, other milk products and certain canned vegetables and fruits by an increase in canneries and tin quotas.

Increased production will allow civilians 388 eggs apiece during the next 12 months, WFA said, 18 more than in 1942.

The Office of Price Administration also stepped into the food picture and announced prices of cabbage and lettuce will be rolled back 25 to 50 per cent.

SICILY: First Resistance

History will record that the first real Axis resistance in Sicily was put up at Catania, a town in the midst of the broad rolling plains which are criss-crossed by several rivers, German armored forces went the full shock of Gen. Bernard Montgomery's British Eighth Army, charging forward after easy capture of the ports of Syracuse and Augusta.

Adapt at tank warfare, the Germans took no chances on exposing their mechanized ranks to the big

SOUTH PACIFIC:

1. Planes blast Jap shipping to Munda. 2. Navy sees six more years of war in Pacific.

Air Force Scores Again. The devastating striking power of land-based aircraft against surface vessels was again amply demonstrated in the Solomons offensive when American Liberator, Mitchell and Avenger bombers attacked a strong Japanese concentration of 11 warships and transports in Vella Gulf, sinking a cruiser and two destroyers and scattering the others.

Sailing in the dead of night, the Japs were making another try at reinforcing their entrenched troops at Munda airfield, on New Georgia island, where U. S. dive bombers also were in action supporting the ground units' creeping attack on the stronghold's jungle defenses.

The attack in Vella Gulf followed others made upon Jap vessels in the

When the Flying Forts swooped over the channel for Europe, Mrs. Mary Smith of Detroit, Mich., sticks close to her radio to learn the results.

LABOR: 'Lamb Cheaper Food' Declaring. "Lamb and speculators are sapping the strength of the nation's army of workers," William Green, president of the American Federation of Labor, said that unless prices of food were brought down to a reasonable level, increased labor would demand wage increases.

At present, wage increases have been restricted to 15 per cent over the January, 1941, scales. Leveling his attack on food, Green said that AFL surveys in principal cities had shown that 50 to 80 per cent since the war started.

Criticizing the Office of Price Administration and the War Food Administration for failing to halt the increase in food prices, Green demanded "intelligent and orderly action to assure workers and their families of a decent place to live in and enough nourishing food to eat within their incomes."

Greenistatement allowed one CIO chief, William Murray, who simultaneously threatened that organized labor would seek wage increases unless food prices were rolled back. The administration is committed to a roll-back program.

HOGS: Ceiling \$14.75. "With a 'floor' or minimum price of \$13.75 per hundred pounds promised for hogs, the government established a 'ceiling' or maximum price of \$14.75. At the same time, the 'floor' was extended to all porkers between 200 and 250 pounds.

Despite the government's promise, however, hogs were selling for less than the 'floor' in some big markets. In the Chicago yards, heavy hogs recently drove the average price down to \$13.35, with tops averaging \$13.85 and others bringing \$13.65.

Overhauling its present system of slaughter control to provide for record receipts, the government reorganized that packers will be licensed to operate if they pay not less than the 'floor' nor more than the 'ceiling' price for hogs, and if they make appropriate provision of meat supplies among civilian, military and lend-lease groups.

It also revealed that the government intended to extend federal inspection to plants now without the facilities. Under present regulations, the government carries out inspection. The new arrangement promises a more equitable distribution of meat in the country.

RUSSIA: Front Alone. On the offensive for the first summer in three years, the Red army hacked at German lines along much of the vast 1,200 mile front.

The main drive remained directed at the Nazi salient of Orsk, with Russian forces bearing down upon that hub from north and south. A junction of the two spearheads behind Orsk would send thousands of German troops now fighting around the city and also sever the railroad from Bryansk carrying supplies to the embattled base.

While fighting raged around Orsk, the Reds pressed home three other attacks. Preceded by heavy artillery and air bombardment, they assaulted Nazi lines below Leningrad, near Smolensk and around the German Caussean base of Novorossiisk, where they had been found this spring.

MANPOWER: Unfreeze Jobs. Workers frozen into their jobs in war or essential industries by an order of the War Manpower commission April 17, now will be allowed to accept the same positions at higher pay in other plants.

Workers formerly could transfer to other jobs only if laid off for seven days or more, if discharged or if unable to show that their skill would be employed to better advantage elsewhere.

Washington Digest 'Food Will Win the War' - And Maybe an Election

Washington Politicians Awaken to Fact That Voting Public, Like an Army, 'Moves on Its Stomach.'

By BAUKHAGE News Analyst and Commentator.

WNU Service, Union Trust Building Washington, D. C.

Wars and rumors of war, war production man power, post-war plans, race wars, roll-backs, gas rationing, strikes, floods, offensives—you can think of a lot more probably. All right, pour them all into the hopper. Get them up. This is a political dish to set before a voter in 1944. Don't worry, he can take it. But take away his bread-basket, and he is a different animal.

Food will win the war. It doesn't spell defeat.

And food or lack of it, can lose an election, that is what you are hearing in Washington these days.

An electoral "army" moves on its stomach. On an empty stomach, it moves away from the "ins" hollers for the "outs" to bring back the bacon. And when you set a customer with both an empty stomach and a full pocket-book hammering on the table and demanding what you have a hard job to please.

Slowly, the Washington politicians are beginning to awaken to that fact. They are beginning to get the big issue in the next election.

President Saw It First

The President and his keen-eyed, ears-to-the-ground political scouts have seen it first. The President saw it first. The President saw it first. The President saw it first. The President saw it first.

But before roll-backs on grain could be served, congress stuck its foot out and tried to spill the tray. For a while, it looked as if there would be an embarrassment in the political kitchen.

Even if the administration is able to silence the demands and threats about there are a few more olive branches who "want some more" and who will twist out of their straight-lieght voting and start looking for a "roll-back" unless this food question is solved before the tide of November MCMXLIV.

Through the days when congress was first trying to fold its tent and steal away from the banks of the Potomac, one thing was clear—the administration pulled a fast one and secured ratification of the that which could be served up to the electorate with enough back-stabbing left over for the fighting force and the hungry Allies and other prospective clients, the Gallup poll voters which had re-elected the New Deal in advance of the present administration.

The enemies of the administration are building up a barrage to the effect that Mr. Roosevelt has misled labor and has left his old friends, the farmers, in the lurch. They say that because he was afraid to offend the farmers, he has left them to fend for themselves for lower prices and tugged a deaf ear to the farmers' troubles.

This, of course, since it comes from hardly any of the present candidates to be taken with a grain of salt, but whatever the working man says, when he sees the cost of living galloping up, he is not yet "content" if he had them, the record will show that despite John Lewis' polysyllabic attacks on the President, labor has not been treated exactly as a stepchild.

But what has the farmer been getting meanwhile? A couple of assistants, at least, which have benefited him and the war effort at the same time.

FCA Head Reports

Let me report to you what I learned from Governor Black that I learned from the FCA head reports. The situation which has managed to escape the attacks which most of the government agencies have had to make, the Governor Black was in Washington the other day—the headquarters of the Farm Credit Administration were moved to Kansas City a year ago, you know, in the interest of decentralization and with the idea that after all, Kansas is nearer center of American agriculture than the Atlantic seaboard.

The hog population is liable to outrun the food supply. A scientific "detective force" of statisticians and a chemist has tracked down causes of skin diseases, and prevented further outbreaks, among workers in more than 50 government and privately owned arsenals and war plants, U. S. Public Health Service officials announce.

The governor tells me that the FCA has been used heavily since the first of the year to see that farmers are getting the credit they need to achieve all-out production. He admits that the 50 million dollars loaned to farmers and stockmen isn't much compared with the total amount of production financing which the farmers use in a year but it's something even in these days of astronomical lending, leasing and spending.

The loans are made through the Federal Agricultural Credit Corporation.

Here are just a few of the facts Black produced from his briefcase. Take flax—flax is as important in its way as most are in theirs. TO YOUR Good Health

by DR. JAMES W. BARTON
Released by Western Newspaper Union

ARTHRITIS

A middle-aged patient was referred by her family physician to a rheumatism or arthritis specialist. The specialist listened to her story as to when the symptoms appeared, the nature and degree of the pain, the different kinds of treatment she had received, and finally was told by the patient that she knew that if he operated on her knee-joint, she might get better.

Dr. Barton The physician then quietly pointed out that the pain in the knee was just a symptom of a general disease in her body, that fixing up or giving relief in one joint would not cure the disease attacking other joints, tendons and muscles, and that if he were to operate on her knee-joint, it would be necessary for her to follow a certain diet, take certain medicines, and receive heat and electrical treatments.

What is arthritis? How can the patient or the physician recognize arthritis?

In Archives of Physical Therapeutics, Dr. Ralph Pemberton, Philadelphia, whose work on arthritis I have mentioned before, stated that arthritis is not just a disease of the joints, but a disease of the whole body and its results just happen to be located in the joints. In fact, many patients afflicted with the disease do not have much pain or inflammation in the joints but have aches where the ends of the fingers are attached to the tendons which move the bones forming the joint.

There may be a small amount of swelling in parts of the body near joints and both hands may be cold and sweaty. That arthritis is not a joint disease but a general disease is shown by the fact that the symptoms are worse in women at menstruation, pregnancy and at menopause. These patients stand cold poorly. The underlying cause of arthritis, in the opinion of Dr. Pemberton, is that there is an imbalance or lack of adjustment with other parts of the body of the central nervous system and the endocrine glands (thyroid, pituitary, adrenal, sex, and others).

Brain Operation For 'Tension' State

There are bases where the pain is not physical, but mental, and these patients suffer untold agony from grief, anxiety, shame and remorse, ungovernable temper and other mental and emotional disturbances. This pain affects their whole life—life of food, rest, work. If it were not for the sake of their families or loved ones, this mental pain would drive many of them to self destruction.

How can these cases of severe mental pain obtain relief? For years surgeons have been able to give relief in physical pain by cutting the nerves supplying the sensation in the part affected. In the same manner, surgeons are now, in the severe cases of mental pain, removing part of the brain. In the Bulletin, New York Academy of Medicine, New York, Drs. W. Freeman and J. W. Watts, New York, state that the removal of this part of the brain—the frontal lobes—has the experimental stage and definite relief from mental and emotional pain is now possible. These physicians have followed all their 138 patients for a period of six years and give the following conclusions:

1. The operation interrupts the connection between the front lobes of the brain and the thalamus (a part of the brain which feeds and records certain emotional sensations) which reduces the emotional reactions of the patient. This loss of painful self-consciousness causes the patient to look outward instead of inward.
2. Intelligence is unharmed but self-responsibility is decreased so that these patients may become lazy and lack tact. Other patients retain the proper degree of responsibility toward others.
3. Best results are obtained in "tension" states with obsessions, good results in depressions, and fair results in day dreaming states.

QUESTION BOX
Q.—Would you please explain the symptoms of a dropped stomach? If stomach is dropped other organs are likely dropped. Symptoms are tired feeling, irritable, gas.
Q.—What does it mean when walking or going upstairs my legs get heavy and my heart beats very fast?
A.—These symptoms show you need more exercise. Sit down after going upstairs and see if your heart rate is back to normal in three or four minutes.

HOUSEHOLD MENUS

by Lynn Chambers

Lynn Chambers' Point-Saving Menu

Broiled Halibut
Creamed Potatoes
Garden-Fresh Beans
Green Salad
Whole Wheat Rolls
Raspberries and Cream Beverage

Filling:
3 cups fresh cherries, pitted
1 1/4 cups sugar
2 tablespoons flour
1/4 teaspoon salt
2 eggs, separated
Combine pitted cherries, 1 cup sugar, flour, salt and egg yolks. Cook in double boiler until mixture is thickened. Pour into crumb pie shell. Beat egg whites until stiff. Gradually beat in remaining 1/4 cup sugar. Spread meringue over pie. Bake in a moderate oven (350 degrees) 12 to 15 minutes until meringue is browned.

Orange Ice Cream
1 pint scalded milk
2 tablespoons flour
1 cup sugar
1/4 teaspoon salt
2 eggs, separated
Grated rind of 1/2 lemon
Grated rind of 1/2 orange
Juice of 4 large oranges
1 quart light cream

Make a custard of the first four ingredients as follows: Mix flour, sugar, salt, and add milk gradually. Cook over fire and pour over well-beaten egg yolks. Add and grate lemon and orange rind. Return to double boiler and cook until mixture coats the spoon. Strain and cool, then add orange juice, cream and beaten white of eggs. Freeze. If desired, serve with candied orange peel.

Sliced Peaches in Orange Juice.
(Serves 6 to 8)
2 1/2 cups fresh orange juice
2 tablespoons powdered sugar
6 to 8 peaches, sliced thin
Sweeten orange juice with powdered sugar and chill well. Fifteen minutes before serving, peel peaches, slice thin, and sweeten. Pour juice over the peaches and serve with cookies.

3-cup silted cake flour
1 1/2 cups sifted granulated sugar
1 1/4 cups egg whites (10 to 12 egg whites)
3/4 teaspoon salt
1/2 teaspoon cream of tartar
1 teaspoon vanilla
3/4 teaspoon almond extract
Sift flour once, measure, add 1/2 cup sugar, and sift together four times. Beat egg whites and salt with rotary beater or flat-wire whisk. When foamy, add cream of tartar and continue beating until eggs are stiff enough to hold in peaks, but not dry. Add remaining sugar, 2 tablespoons at a time, beating after each addition until sugar is blended. Fold in flavoring. Then sift in about 1/4 of the flour and fold gently. Repeat until all is used. Turn into an ungreased 10-cup angel food cake pan. Cut gently through batter with knife to remove bubbles. Bake in moderate oven (325 degrees) one hour or until done. Remove from oven and invert pan 1 hour. Cover with fruit or berry sauce.

The repertoire of cherry desserts is an extensive one for there are such things as cherry cobblers, shortcakes, pancakes, fritters, and pies. If you make the pie with this popular prepared cereal crust, you will save time, requires no special technique for making:
Cherry Meringue Pie.

Crust:
3 cups oven-popped rice cereal
4 tablespoons sugar
1/2 cup butter, melted
Roll cereal in fine sifter; combine with butter and sugar, mixing well. Press mixture evenly and firmly around sides and bottom of pie tin. Bake in moderate oven (350 degrees) for about 8 minutes. Cool before adding filling.

Lynn Says:
Point Wisdom: If you're parting with your money for a month that you should, check up on yourself.
Don't buy meat and neglect other red-stamp foods. Spruce out the stamps just as carefully as you figure out the financial end of things. Study point values and learn to understand how the system works instead of having the busy book-keeper explain it to you every time you buy.
Family likes and dislikes are out of place in a wartime budget. Serve low point meals appetizingly cooked.
Buy meats and fats sensibly as you need them. Buying too much or carelessly storing what you have is sabotage on the home front.

Farm Topics

Cows Should Be Fed On Basis of Milk Given

Feed Cannot Be Spared For Low Producers

Nobody knows yet how the crop yields of corn, wheat, barley, soybeans, cottonseed and linseed will compare with past years, E. J. Perry of Rutgers U. points out and feed dealers cannot get deliveries very far in advance or in so large amounts as formerly. This makes it especially important to waste no concentrates in feeding, but to feed every cow strictly according to her milk yield in order to meet 1943 goals.

If there's no time to mark down daily milk yields, Perry says dairymen to do it every week or 10 days and readjust accordingly.

On pasture, the rate of concentrate feeding will depend upon how good the pasture is. Early grass up to July usually has more digestible protein than the later, so much less grain is then required than in the winter months. Pasture is the most natural feed for cows and with plenty of it they will "shine" at the pail and be in condition to start a good job in the barn this coming fall. It is not uncommon for a cow only medium in size to eat 100 pounds of pasture daily. Neglect of pastures and of cows on pasture is one of the biggest problems facing the dairymen today.

For cows giving 35 to 40 pounds of Milk a day, a feed ratio of one pound of grain a day for every seven pounds available to high yields during the pasture season, Perry offers the following reminders:
Fertilize permanent pastures and provide special summer supplementary pastures according to the recommendations of the county agricultural agent.
Practice rotation grazing from one plot to another.
Avoid too early and too close grazing. For regular pasture, four to six inches is a good height.
Adapt the kind and amount of grain to the kind and amount of pasture. Early pasture is highly digestible protein and the grain mixture used can have 3 or 4 per cent less protein than is usually needed for winter feeding.
For the higher yielding breeds, a good trial starting rate for a cow which gives 30 pounds of milk a day is one pound of grain for five pounds of milk, and for the lower yielding breeds, those giving 20 to 40 pounds a day, a good rate is one pound of grain for four pounds of milk. Perry says. Using and watching the scales carefully will tell how the feed ration depends for the owner and the country.
In hot weather, the herd will be better off in the barn during the latter half of the afternoon, especially if the barn is cool and the flies are partially controlled.

Prevent Farm Fires
Fifty per cent of our farm fires are preventable, states F. W. Niemeyer, general agent of the Farm Credit administration of St. Louis. Every farmer should take extra precautions to see that fires are not caused by defective flues, sparks on the roof, smoking, spontaneous combustion and improper handling of gasoline and kerosene.

For the duration it will be extremely difficult to obtain the lumber, hardware, roofing and labor to rebuild. The WLB has limited construction to that which, regardless of cost, (a) is essential to meet production goals, (b) is consistent with sound agricultural practices, (c) uses a minimum of scarce materials, and (d) does not interfere with labor essential to war industries.

Agricultural Notes
The "back to the farm movement" is gaining force right along.
If oats are grown as a companion crop in the seeding of legumes, variety which matures early and produces a minimum amount of straw should be used. Kanota and Highland are best suited for this purpose in addition to giving excellent grain yields.

MEAT GOES FAR WITH ALL-BRAN "BRANBURGERS"

Here's a new way to serve that old favorite, the hamburger. Make it with ALL-BRAN's ALL-BRAN to stretch the "meat" supply. Give the popular bran-burger new interest, and to get ALL-BRAN's nutritional benefits—valuable proteins, carbohydrates, vitamins and minerals.

Kellogg's All-Bran Branburgers
1 egg 1 tablespoon chopped parsley
2 tablespoons salt 1/4 teaspoon pepper
1/4 teaspoon onion 1/4 cup milk
1/2 cup ALL-BRAN 1 cup Kellogg's All-Bran
1/2 cup onion 1 cup water

Beat egg slightly, add salt, pepper, onion, parsley, milk, catsup and ALL-BRAN. Let stand until mixture is taken up. Add beef and mix thoroughly. Shape into 12 patties. Cook on a hot, oiled skillet. Turn over. Yield: 6 servings (12 2 1/2 inch branburgers).

Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible profit. This year they can sell all they can produce. Things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. Certainly nobody wants a properly built on steel. So it's high time that everybody concerned—and that is everybody—gave some thought to keeping things running after the war. You're busy, we know. So are we. The important thing, right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the productive job to do can contribute a lot to the solution of these problems.

Just as we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farmers and manufacturers, working together, can find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can? General Electric Co., Schenectady, N. Y.

CLAY M. BISHOP

of Manchester, Ky.

—For—

RAILROAD

COMMISSIONER

Third District

On Saturday, August 7, 1943, you will select the Republican nominee for Railroad-Commissioner. You will want to vote for a man who can win in November and one that will make a fight for the Republican ticket.

Clay M. Bishop, of Manchester, Clay County, Kentucky, one of the candidates, is well qualified for the office, having been acquainted with the needs and affairs of the people of this State for a number of years. He is now serving his second term as Clerk of the Clay Circuit Court, and was a teacher in the public schools of Clay County before becoming Clerk.

Mr. Bishop has advanced practically all of the Counties in the district and has met with the approval of the people with whom he has had the opportunity of personally meeting. He is conscientious, believing in a whole hearted devotion of any office holder to his or her job, and has acquitted himself with esteem and honor in his public life.

Take your friends and go to the polls and cast your vote for Clay M. Bishop. He is your neighbor and friend; worthy of your support and will appreciate your efforts in his behalf.—Pol. Adv.

OTTAWA

By Mrs. Albert Hayes.

Mrs. Amanda Tyree has returned home from Berea hospital. While in the hospital she had as her guests; Mrs. Wayne Fryab, Ohio; Mrs. Tom Decker, Ind., and Mr. and Mrs. Arthur of Line Creek.

NERVOUS, RESTLESS HIGH-STRUNG, BLUE FEELINGS

On "Certain Days" Of The Month?

Do functional periodic disturbances make you feel nervous, irritable, cranky, dizzy, tired and "dragged out"—at such times?

Then start at once—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is made especially for women. Taken regularly—it helps build up resistance against such distress. Thousands upon thousands of women have reported relief.

A grand thing about Pinkham's Follow label directions. Worth trying.

Compound is that it contains no harmful opiates. It is made from nature's own roots and herbs (plus Vitamin B). It's a product that helps nature and there's the kind to help you feel comfortable. Follow label directions. Worth trying.

Address: D. B. Palmeter, Personnel Examination Supervisor, Frankfort, Ky.

SOPT. OF CITY PARKS PRAISES RETONGA

He Dreaded to Eat Because of Distress From Indigestion, States Mr. Henning, Took Laxatives Regularly and Feels Fine Now.

Ministers, workers, public officials, and businessmen are among the thousands gratefully praising Retonga. Mr. D. P. Henning, Superintendent of the City Park of Bridgeport, Ill., is among the latest to give Retonga his strong and grateful public endorsement.

"Judging from the results in my own case, Retonga does everything claimed for it," declares Mr. Henning. "I suffered so much distress from indigestion, constipation, and a badly rundown feeling that I was beginning to feel worried about myself. I got so

I dreaded to eat even a light meal. When I went to bed at night I did not know whether I would go to sleep or toss about miserably for hours. For years I had to use laxatives regularly and even then I often felt constipation.

"Retonga brought the relief I long hoped to find. I now sleep fine, I am hungry every meal, and I don't have to take harsh laxatives. I am on the job every day and I feel fine. I hope the same wonderful relief through Retonga."

Retonga is a purely herbal gastric tonic combined with liberal quantities of Vitamin B-1 and is intended to relieve distress due to insufficient flow of gastric juices in the stomach, constipation, Vitamin B-1 deficiency, and loss of appetite. Accept no substitute. Retonga may be obtained at Maccard Retail Drug Store, Mt. Vernon, Ind.

JOHNETTA

Mrs. Demmie Hale has returned home after a visit with her parents, Mr. and Mrs. Thomas Owens.

Mr. and Mrs. Arvil Wilson and Mr. and Mrs. Eddie Owens of Richmond, Ind., spent the week-end with their parents.

One Step Closer to VICTORY

Tom and I figure that every War Bond we buy is another step toward Victory—and that all-electric kitchen we're wanted for so long. Of course, our main purpose in buying bonds is to lick the Axis. That comes ahead of everything else. But just the same it's nice to know that when the war's over we'll have a nest egg built up with which to carry out our plans for post-war better living. We're buying bonds to guarantee freedom from oppression today—and freedom from household drudgery tomorrow!

TO THOSE DURABLE PATRIOTS
... Our Passengers

WE of the Greyhound family hold a firm admiration for our passengers. For when it comes to bearing up, when war travel emergencies and problems are bearing down, they're 100 proof... 100 per cent! In fact, as a group they are the most cooperative, most cheerfully indulgent folks it's been our good fortune to know. Fewer conveniences have made no rift in our long and pleasant travel relationship. They accept wartime conditions as they are... relinquish their good American prerogative to travel how, when and where they please, all in the cause of Victory. Greyhound passengers are flying their true colors every day that rolls around... and they can depend upon Greyhound to do its level best by them, to prove worthy of their continued good will and loyalty.
