

MY FRIEND FLICKA

by MARY OHARA

THE STORY SO FAR: Ten-year-old Ken McLaughlin can ride any horse...

CHAPTER IX

They dined in town, with the Bartlets, and by the time they got back to the ranch...

Then Mrs. Grubb and Mrs. Gillilan said they wanted to ride out and see the broad marsh...

When they found the broad marsh, they stepped some distance and looked out...

"How do you know he will?" asked Mrs. Grubb...

"The ropes stopped and ready to stand, alert, curious and ready to run..."

His head topped them all, and even from a distance, the men and women watching could feel the penetration of his eyes...

Suddenly the big stallion moved towards them, ears pricked, inquiring eyes wide and fearless...

"Flying all his legs!" cried Nell. "Fear and sheer lust from the officers, as the stallion, snorting and breaking his trot, increased his pace and came down the wind to them like a bulle cat..."

Banner halted ten yards off and stood looking the group over. His golden coat gleamed in the sun...

"What an intelligent creature!" exclaimed the Colonel. McLaughlin, still in his gray suit and rakish hat, went forward to the stud, apologizing nervously for not having brought a bucket of oats in the car...

Lying in bed that night, Ken remembered Banner, the Sire of Flicka. Flicka was the same, the same burnished gold, the same beauty, the same legs flying—Oh, mine and my colt... my own... my very own...

He wondered when his father would bring her in again.

He had been wondering that every day when Gus put his round pink eye in the kitchen at the ranch. "What's today, Boss?" But his father had planned other work. Meantime he had taken care to have water be turned out of the ditch...

Next morning, when Gus said, "That's today, Banner," McLaughlin gave the order for the horse's work and then said, "And I think..." and paused.

Ken looked down to hide his excitement as he clenched his fists under the table.

McLaughlin went on, "Tomorrow we'll get the yearlings in again, Gus, and cut out Ken's filly. I want to do that before Ross leaves. We may need his help."

Tomorrow...

When Ken opened his eyes next morning and looked out to see the house was wrapped in fog. There had been no rain at all since the day a week ago when the wind had torn the tattered roof...

Standing at the window, Ken could hardly see the pines on the Hill opposite. He wondered if he could see the yearlings in such a fog as this—he would be able to see them, but at least that McLaughlin said there would be no change in plans. It was just a big cloud that had settled down over the ranch—it would lift and there would be a sun on Saddle Back it would be clear.

They mustered and rode out.

Now there were clouds and they did cloud down. After a severe hot spell there often came a heavy fog, or hail, or even snow.

Standing at the window, Ken could hardly see the pines on the Hill opposite. He wondered if he could see the yearlings in such a fog as this—he would be able to see them, but at least that McLaughlin said there would be no change in plans. It was just a big cloud that had settled down over the ranch—it would lift and there would be a sun on Saddle Back it would be clear.

They mustered and rode out.

mit was in sunshine, then a little farther on, came a smother of cotton wool that smothered the four riders to the skin and hung rows of moonstones on the whiskers of the horses...

It was hard to keep track of each other. Suddenly Ken was lost—the others had vanished. He reined in Shorty and sat listening. "The clouds and mist settled around him as he felt as if he were alone in the world..."

A bluebird, one of the deep blue wild delphinium that dots the plains, became interested in him, and suddenly perched on a bush near by; and as he started shortly forward again, the bluebird followed along, hopping from bush to bush...

The boy rode slowly, not knowing in which direction to go. Then, hearing shouts, he touched heels to Shorty and started, and suddenly came out of the fog and saw his father and Tim and Ross.

"There they are!" said McLaughlin, pointing to the three men on the hill. They rode forward and Ken could see the yearlings standing bunched at the bottom, looking up, wondering who was coming. Then a huge coil of fog swirled over them and they were lost to sight again.

McLaughlin told them to circle around, spread out fan-wise on the far side of the colts, and then gently bear down on them, so they would be sure to see them.

Flicka heard them too. Suddenly she was aware of danger. She leaped out of the clover to the edge of the slope, where she felt another wind coming from the mountains, toward where the yearlings were waiting. But it was too steep and too high. She circled in a low voice, with legs with a twitch of terror, and worked back toward the bank down which she had slid to reach the pool of water where she was waiting uncertainly in the fog, were four black figures—she screamed, and an arrow struck her in the neck...

"Ken heard Ross's rope ring. It snaked out just as Flicka dove into the bank of clover. Stumbling, she went down and for a moment was lost to view.

"Goldara," said Ross, hauling in his rope, while Flicka floundered up and again circled her small prison, hurrying herself at every point, only to realize that there was no way out.

"She stooped over the precipice, poised in despair and frantic longing. There drifted up the sound of the colts running below. Flicka trembled and disappeared, as she brink—a perfect target for Ross, and he whirled his lariat again. It made a vicious whine.

Flicka went around with her legs folded under her, then rolled and bounced the rest of the way. It was so easy to see her, she had climbed over the side of the truck and rolled down the forty-foot bank; and in silence the four watchers sat in their saddles waiting to see what would happen when she hit bottom—Ken already thinking of the Winchester, and the way the crack of it had echoed back from the hills.

Flicka lit, it seemed, on four steel springs that tossed her up and sent her rolling down and around the hill in a perfect of speed and power and action. A hot sweat bathed Ken from head to foot, and he began to cough, half choking, as he called out the pyrexia (high temperature) test should be first tried to find out the cause.

The temperature in children is raised by the same thing, but without apparent cause, and children in whom the rise in temperature is due to some functional or organic condition, not to infection, should be allowed to be on their feet.

The pyrexia test is as follows: The patient is given a series of four 3-5 grain doses of one of the colts products—acetyl salicylic acid, antipyrin, acetanilid or others—at four-hour intervals and the temperature is recorded every two hours. The usual effect is a fall in temperature in two hours after each dose is given by the mouth.

The patient is then given no drug for 24 hours, to allow the drug to get out of system, and is then given a second dose of the same drug. If the temperature is recorded every two hours for the following 24 hours. If the temperature is normal or below normal for 10 to 18 hours it is assumed that the fever is not due to infection and the patient is allowed to resume his usual work or activities.

This is a simple method of finding out whether or not any infection is present by the use of the pyrexia test in bed and does not spread infection. If no infection is present, the child can return to school safely.

QUESTION BOX

Q—What would cause lumps to appear in back of the ear?

A—Little lumps behind ear are enlarged glands due to a scratch on the skin of the neck.

Q—What causes nervous indigestion?

A—Most cases of nervous indigestion are due to nervousness and emotional disturbances. Your physician can arrange for an X-ray examination and learn if any organic condition is present.

Tim shot off toward the County Road and the other three riders galloped down and around the mountain until they were at the back of the band of yearlings. Shouting and yelling and spurring their mounts, they kept the colts running, circling them around toward the ranch until they had them on the County Road.

Way ahead, Ken could see Tim and Howard at the gate, blocking the road. The yearlings were bearing down on them. Now McLaughlin slowed up, and began to call "Whoa, whoa—", and the pace decreased. Often enough the yearlings had swept down the gate through the gate and down to the corral. It was the pathway to oats, and hay, and shelter from winter storms—would they take it now? Flicka was with them—right in the middle—they went, would she go too?

It was all over almost before Ken could draw a breath. The yearlings turned at the gate, swept through, went down to the corral on a dead run, and through the gates that Gus had opened.

Flicka was caught again. (TO BE CONTINUED)

Ken found himself trembling too. "How are you going to catch her?" he asked in a low voice.

"I'll snare her from here," said Ross, and in the same breath McLaughlin answered, "Ross can rope her. He'll spread out a semi-circle above this bank. She can't get up past us, and she can't get down."

They took their positions and Ross lifted his rope off the horn of his saddle.

Ahead of them, far down below the pocket, the yearlings were running. A whinny or two drifted up, and the sound of their hoofs, muffled by the rain, came to them.

PATCH TEST FOR TUBERCULOSIS

Parents do not like the idea of any test that means puncturing the child's skin with a hypodermic needle. Needless to say, the child dislikes the idea even more. However, the modern tests, which are painless, realize that it is important to learn if their youngster is of the type likely to develop tuberculosis, so that methods to prevent this may be immediately used.

For years what is known as the patch test, which means that tuberculosis was placed on the skin and a patch of adhesive tape placed over it. This was considered a reliable test but what is called the Mantoux test, in which a hypodermic needle injects tuberculin under the skin, is now in more general use. In an effort to test the value of the patch test, Dr. Henry Z. Reisman, Jamaica, N. Y., and Maurice Grozin, Flushing, New York, used the patch test, and also the Mantoux test. The results were recorded in the American Journal of Hygiene, 37:220-221, 1931.

The patch test consists of moistening a piece of paper toweling with tuberculin, allowing it to dry. This piece of paper is stuck on a small square of adhesive tape and then applied to the skin. This is allowed to remain for one or two days. If the test is positive, small red spots are likely to develop. Little raised blisters, which may break down, in the Mantoux test the skin will likewise be greatly reddened and the patient may be very uncomfortable. Drs. Reisman and Grozin state that the patch test has the following advantages: 1. It is painless and does not frighten the child. 2. It requires no boring, puncturing, scratching or rubbing of skin. 3. It requires no needles or syringes. 4. There are no instructions of the kind to be given to the patient. 5. There is no danger of infection. 6. There is less risk of damage to the skin. 7. There is no fear of a reaction where patch is applied or any shock to the system. 8. Technique of the method is simple. 9. The test is applicable to a larger than surface of skin covered by adhesive tape.

When the physician tells the rise in temperature is due to some natural or harmless disturbance or to some infection in the body, it is necessary to find out the cause.

The temperature in children is raised by the same thing, but without apparent cause, and children in whom the rise in temperature is due to some functional or organic condition, not to infection, should be allowed to be on their feet.

The pyrexia test is as follows: The patient is given a series of four 3-5 grain doses of one of the colts products—acetyl salicylic acid, antipyrin, acetanilid or others—at four-hour intervals and the temperature is recorded every two hours. The usual effect is a fall in temperature in two hours after each dose is given by the mouth.

The patient is then given no drug for 24 hours, to allow the drug to get out of system, and is then given a second dose of the same drug. If the temperature is recorded every two hours for the following 24 hours. If the temperature is normal or below normal for 10 to 18 hours it is assumed that the fever is not due to infection and the patient is allowed to resume his usual work or activities.

This is a simple method of finding out whether or not any infection is present by the use of the pyrexia test in bed and does not spread infection. If no infection is present, the child can return to school safely.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LENQUIST, D. D. Of the Bible Institute of Chicago (Published by the Law Institute of Chicago)

Lesson for August 22

Lesson subjects and Scripture texts have been approved by International Council of Religious Education; used by permission.

GOD GIVES LAWS FOR HIS PEOPLE

LESSON TEXT—Exodus 23:1-9; Galatians 3:23-25. GOLDEN TEXT—Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself. (Matt. 22:37-39)

Our God is a God of order. To have order we must have law, hence God gave His people not only the fundamental law of humanity's nature, but also the Ten Commandments which are the basis of all codes of law, but also these detailed regulations and statutes for His law-observant people. The law of God was not intended to condemn a sinful people, but to save them, but, as revealed in the New Testament, it was to guide and bring us to Christ, in whom it finds its true fulfillment.

These are matters of fundamental importance and suggest the need of a careful study of our three Scripture portions.

I. The Law Established (Exod. 23:1-9).

At Sinai the Israelites were brought into the presence of God in a dramatic and solemn assembly to receive His law. The law was written on stone tablets and was given to Moses on Mount Sinai. These were later written in the Ten Commandments on the stone tablets.

The Ten Commandments are recognized as the foundation on which all legal codes, ancient and modern, are built. They cover man's relation to God and his relation to his fellow man. They are unsurpassed as a comprehensive and compact statement of the moral law.

The passage in Exodus 23 gives us some of the rules and regulations for daily life which are in accordance with the law. This portion gives us an idea of the type of laws provided by God for His people and reveals "the moral character of the whole divine legislation."

The thing which impresses us as we read of the law requirements of justice toward all, of love for one's enemies, of refraining from false witness, of refusing all bribes—that God's standards are very high.

God's law is good, it is right, of divine quality and perfect purity. It is the law of God, and it is the law of man. We learn that as we hear that God's standards are very high.

II. The Law Described (Gal. 3:23-25).

What was the purpose of the law? It was and is a servant of God to lead the needy sinner to Christ. The law was given to help if it is to refer to one who teaches, but the servant who saw to it that the school boy, possibly a bit reluctant, would obey his destination.

The law convicts of sin and makes it evident to the repentant one that he is a sinner. If it is even to meet its demands, the law really puts a man in prison (kept in ward v. 23), and makes him look to Christ for his redemption.

When one trusts Christ he comes into the place of a son. He enters upon a spiritual maturity which is a new relationship by faith, and is a child of God.

Does this mean that the law has been set aside or abrogated? Not at all. Jesus Himself said, "Think not that I am come to destroy the law or the prophets; I am come to fulfill it." (Matt. 5:17). This is our third point.

III. The Law Fulfilled (Gal. 5:13, 14).

Paul had warned against the folly of legalism. If Christ men are freed from a slavish bondage to the law. But man, desiring to substitute his own righteousness for that of Christ, is using his own excuse for self-justification. He has entered into a new relationship by faith, and is a child of God.

The moral requirements of the law, for the Old Testament law, and in doing so, he is actually fulfilling the law. He thus fulfills the type of the offerings.

The moral requirements of the law were gathered up in Him, and in doing so, he is actually fulfilling the law. He thus fulfills the type of the offerings.

The moral requirements of the law were gathered up in Him, and in doing so, he is actually fulfilling the law. He thus fulfills the type of the offerings.

Colorful Stitchery in Pretty Wall Hanging

7569

Bring color to your home with this sunflower wall hanging. Suitable for any room, it is attractive and quick to do in six-strand cotton, rayon, or wool. Iron broiler and line it; it need not be framed.

Pattern for this wall hanging is of a picture 18 by 18 inches. Each piece of material needs 2000 yds. Due to an unusually large demand and our limited stock, this pattern is now the most popular pattern number.

Send your order to: Sewing Circle Needlecraft Dept., 361 W. Randolph St., Chicago 30, Ill. Enclose 15 cents plus one cent for cover cost of mailing for Pattern No. 7569. Name: Address: Big Blast

Big Blast

One of the biggest man-made explosions on record was set off in Bonaventure quarries at Argyllshire, Scotland, on May 31, 1935, says Collier's. Eighteen months of preparation were required for this blast, which brought down 750,000 tons of granite, enough to provide five years' work.

Before the explosion, householders in the nearby towns of Tannullin removed their pictures, mirrors and crockery to a place of safety.

RHEUMATIC PAIN

Don't put off getting C-223 to relieve your rheumatic pain. Buy only an authentic Spaullock-Neal Co. bottle and purchase price back if not satisfied, 60c and \$1.00. Today, buy C-223.

FOR QUICK RELIEF CARBOL ANTSCHIFF SALVE

A soothing salve with satisfactory results for 40 years—its valuable ingredients are Carbolic Acid and Camphor. Spaullock-Neal Co., Nashville, Tenn.

HOW NOT TO CATCH A FLY

The NAPKIN SWIPE METHOD is the original lax pressure of the dirt's way of disposing of a fly. A fly, perched on the edge of a soap plate, becomes the target of a soap suds stream, which will destroy the fly, the dress of your honor, and your own dignity. A better way is to...

Catch 'em with TANGLEFOOT FLYPAPER

The old reliable that never fails. Always ready to use and not matted. For sale at drug and grocery stores.

6 inches wide 25 ft. long. The TANGLEFOOT Co., Grand Rapids, Mich.

## Household Hints

If rain splatters dirt upon the windows from the window flower boxes, cover the top of the box lightly with gravel. This can be pushed aside when you wish to stir up the dirt.

Vinegar eliminates odors. Don't put away a frying pan that smells of onions, fish, or some other strong-flavored food. Put some vinegar in the pan and bring to a boil. Then wash as usual.

To serve plain cake at its best, make only one layer at a baking. Instead of icing the entire top of the cake, put a thick wide band of icing around the edge. Sprinkle the top with chopped nuts.

To save yourself these busy days, cut small mats from old felt hats and use them under vases, ornaments, flowers and book ends. They prevent scratching of polished furniture.

A piece of pipe is good to splice any spade or shovel handle when it cracks or breaks in two. Holes can be bored in the pipe and put rivets or screws in, if necessary.

## CLASSIFIED DEPARTMENT

### FEATHERS WANTED

FEATHERS WANTED or NEW—WANTED, Top Quality, Very Suitable for FELLOW MFG. CO., 2219 Cole Street, St. Louis, Mo.

### Horse-Drawn Vehicle

Also, M. H. NUBERGER, 1000 Ave. C, Chicago, Ill. Buggy, etc.

### Assam Road

The Assam road is China's new lifeline. Since the Burma road has been cut, China has been enabled by building this new road to Chungking. It is a stupendous job which crosses a half-dozen rivers and traverses 25,000-foot mountains.

### BEAT THE HEAT

Soothe and cool away heat rash, and help prevent it. Sprinkle with Mexazone Powder. Get Mexazone.

### Even Temper

Remember when you are right you can afford to keep your temper but when you are wrong you can't afford to lose it.—Lorimer.

### DRY CRACKED LIPS

Surprising how quickly the dryness is relieved and healing begins, after using medicated, soothing, time-tested RESINOL.

### Female Weakness

What MAKES YOU CRANKY, NERVOUS! Lydia E. Pinkham's Vegetable Compound has helped thousands to relieve periodic pain, backache, headache, nervous, crampy, blue feelings—due to functional monthly disturbances. This is due to its soothing effect on one of woman's most delicate organs.

Taken regularly—Pinkham's Compound helps build up resistance against such annoying symptoms. Follow label directions. Worth trying!

### Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidney stones lead to their work. Do not set as Nature intended—fail to remove poisons that, if not removed, may poison the system and upset the whole body machinery.

Symptoms may be aching backache, swollen headache, attacks of nervousness, getting up night, swelling, nausea, indigestion, a feeling of general weakness and loss of pep and strength.

Other signs of kidney or bladder trouble are frequent urinating, especially at night, and a feeling of constant thirst. Treatment is water—that's right. See Dr. Williams' Pink Pills for Pale People.

They have a better record than any other pills for more than forty years. They have a better record than any other pills for more than forty years. They are recommended by grateful people the country over. Ask your neighbor!

## MINK GETS 12 YEARS FOR MASON SLAYING

Frank Mink, a Laurel county farmer who was charged with the murder of William Mason, a Justice of the peace, also of that county, was sentenced in circuit court here today to serve twelve years in the state reformatory. The jury made a decision after deliberating over night and into morning. Mason was killed in the extreme southern tip of this county on November 29th of last year. Mink was represented by Atty. James Lambert, appointed to the defense by the commonwealth.

## ROCKCASTLE MEDICAL SOCIETY MEETS

A meeting of the Rockcastle County Medical Society was held at the home of Dr. H. Lewis Wildie, August 6, with all members and their wives present except one, Dr. Lee Chesnut, Dr. and Mrs. Lewis Wildie, and Dr. and Mrs. W. H. Lewis. Everything served except the bread was raised on their farm and garden. The bread could have come from the farm had the weather not been so hot. No points were used in this meal, which may give an idea to some of our county societies as to how to help out in the war. Dr. C. Baker, a producer of the dinner held at the meeting. Several members were honored guests at the meeting.

## SEVERAL CARS DERAILED

Five cars of an L & N freight train were derailed at a switch near Kentucky Stone Company's quarry near Rockcastle, O., Tuesday. The derailed cars were about four hours until the wreckers arrived to put the cars back on track. No serious damage was done to the cars.

## SEPTEMBER WAR BOND DRIVE

Rockcastle County Quota is set at \$105,400.00. Drive opens September 1st.

## OSCAR HILTON IS NEW POLICE CHIEF

At a meeting of the Mt. Vernon town council last week, the resignation of Cecil Pursell was accepted as policy and Oscar H. Hilton elected to that office. Mr. Hilton is a producer of the Dinner Bell cafe.

## LEVEL GREEN

Mr. and Mrs. Brinkley Lathins of Lockland, O., spent a week with his mother, Mrs. Bea Lathins.

Mrs. Maggie Deloraine returned from Lockland, O., Tuesday where she had been visiting her children.

Miss Lillian Shepard attended 4-H Club camp last week.

Pvt. Roy Burton of Florida, Miss J. Moon, Mr. Boyles Barton of Dayton, O., Mr. and Mrs. Marcum Vanhook and family of Ocala, and Miss Hazel Allen were Sunday guests of Mr. and Mrs. W. H. Lewis.

Misses Opal Mink and Thelma Sam's of Covington, spent last week with the former's parents, Mr. and Mrs. W. H. Lewis.

Miss Zelma and Ossie O'Neal of Dayton, O., are visiting their parents, Mr. and Mrs. Raymond O'Neal.

Misses Margaret O'Neal and Betty Timmy of Dayton, O., spent the week end with Mr. and Mrs. O. H. DeBorde.

Mr. and Mrs. Elmer Mink announce the marriage of their daughter, Irene Mink, to Mr. Banks Pennington of Walnut Grove, on August 12th. They may friends wish them a long life of happiness together.

## GREEN HILL

Mrs. Eva Baker, Jimmie, Byron and Mrs. Hazel Ramsey spent last week in Indiana. They were accompanied home by Mrs. Oakley Hammonds and baby son, and Mrs. Irene Dudley to spend several days.

Mr. and Mrs. Arvol Coffey and family, including a few days with her brother, Beren, spending the week-end with their parents, Mr. and Mrs. W. A. Coffey and sister, Mrs. Lillian Anglin and children.

Misses Vondaline, Tessie Jean, and Marcella Ramsey were the Sunday guests of their grandparents, Mr. and Mrs. W. H. Lewis.

Mr. and Mrs. W. A. Coffey and Mrs. Anglin and children were Sunday guests of Mr. and Mrs. Arvol Coffey of Berea, Indiana.

Mrs. Evelyn Dowell and son Jerry Lee, spent last Tuesday with Mrs. Eva Baker.

Mrs. Bettie Parsons is very sick at this writing.

Mr. and Mrs. Lysnes Baker were in Berea, Indiana, Tuesday. Mr. Baker and wife had their honeymoon.

Monroe Weaver spent Sunday with Billy Joe and Aaron Abney.

Mrs. Ramsey of Berea spent a few days last week with her sister, Mima and Eliza Coffey.

James Baker and Uss Ramsey were in Berea, Indiana, Tuesday.

Mrs. Rachel Burdett has returned home from Middletown, O., after spending a week with Mr. and Mrs. Roy Cummins and family.

## THE MT. VERNON SIGNAL ENLISTS IN U. S. VICTORY PULPWOOD CAMPAIGN

The Mt. Vernon Signal today has joined other weekly and daily newspapers of the station in a campaign to aid the Government to help solve the serious pulpwood shortage situation. It is the second time since Pearl Harbor that the nation's newspapers have been called upon to overcome a serious war material shortage.

Last fall it was the Newspaper Union Scrap Metal Campaign. At that time scores of steel mills faced shutdowns for lack of vital materials. What the newspapers accomplished at that time is history. The situation was saved with more than 6,000,000 tons of scrap metal.

Now it is the pulpwood campaign and it is equally serious because hundreds of thousands of cords of the nation's pulpwood are required for war purposes.

The Victory Pulpwood Campaign was initiated by the War Production Board, with the cooperation of other Federal Departments, war agencies and industry. It is designed to relieve the increasingly serious shortage in pulpwood, the material which makes smokeless powder, rayon, fire parachutes, plastic for airplane parts, shell and bomb casings and shipping containers for our armed forces and our allies.

Cooperating in the plans for Rockcastle county will be District Agent, Earl Meekins, County Agent E. F. Spence, George F. Reynolds, Forest Ranger, E. C. Miller. Complete details, including specifications for cutting pulpwood, prices to be paid, and where deliveries can be made, are available from the district agent.

## To The Republican Voters of Rockcastle County

I wish to express my sincerest thanks for your action at the recent primary election in nominating me your Candidate for Representative for this district.

I wish I could at this time promise you some definite positive action on many many subjects of your legislation. But I cannot. As you know there will be ninety nine other members in the Lower House and ninety eight members of the Senate, all of whom will probably want something and only sixty working days in which to do it. I shall do my best. We will see what I can do.

It was originally intended that our government was created for the benefit of the people. This is now being done. The people exist for the benefit of the Government. Never before have we been so taxed, tormented and harassed by laws, rules, regulations and edicts as now. While our boys are supposed to be fighting for freedom all over the world, our own freedom and theirs is being destroyed with a back burner although equalled only by Modern European and Asiatic Despots. We regard this action, but resentment, is a very small amount. Let us resist it as best we can. Let us resist it enough to register as voters at once and in November start cleaning up this government. It is not too late, if we display the energy and courage of decent Citizens. Let us not let the boys return to find freedom behind them. They found none among their liberated.

Thanks again for the confidence shown in me. I shall assume my duties very humbly, but I believe the confidence has not been misplaced. I am, Very Sincerely,  
E. B. THOMPSON

## CHURCH NOTES

**MISSIONARY BAPTIST ASSOCIATION**  
The Louisville Baptist Orphan's Home is asking our churches to send clothing and canned goods to the children. They will send coats and barrels of fruit jars to any church that will ask for them. Many churches are sending both clothing and canned goods. I trust every church will do its best for the orphans.

**First church service of the United States**  
Sunday meeting should let me know, or let Bro. Younce or any member of the Executive Committee know.

Furnace Jones, Modeler

## CARD FROM DR. WEBB

To the men and women who so loyally supported me in my race for Representative Aug. 7th, I want to thank you from the bottom of my heart and to my opponent, Mr. E. B. Thompson I congratulate you on your decisive victory, somebody has to lose in an election and I have gotten used to it. It does not hurt now like it did. Any way, I give me a check on how my friends are and better enables me to know how to cast my vote in the future. Let us have more elections, so you see I have not lost my mind. We learn most by experience.  
Yours,  
R. G. WEBB

## LUNER

Mrs. Cordia Gussellers and niece, June Lake, are visiting her parents, Mr. and Mrs. T. Kirby.

Misses Buster of Norwood, O., spent Saturday night with his daughter, Mary Alice and his father, W. S. Bustle.

Pvt. Shelby C. Norton of Fort Bragg, N. C., is visiting his wife and son, and granddaughter, Mrs. Lizzie Norton.

School started at the Whitaker school, Monday, with Mr. John M. Graves, as teacher.

Misses Ester O'Neal, Harold Mays, O., spent the week-end of their mother, Mrs. Earl Renner and family.

Misses Ester O'Neal, Harold Mays, O., spent the week-end with their mother, Mrs. Earl Renner and family.

Misses Rosa and Jewell Bustle spent last week with Mr. and Mrs. J. O. Pease.

Ernie Bustle left Thursday for Ohio.

L. K. Lincer attended the Brodhead fair, Thursday.

Mrs. W. L. Kincer and Misses Julia Bustle and Geneva Gibson of Blue Ash, O., spent the week-end with Mr. and Mrs. Neal Cope and family; Mrs. Mabelburg and attended the fair Saturday night.

Misses T. Phelps and Burgess Kirby attended the fair Saturday night.

Edd Nicely of Reading, O., spent the week-end with his mother, Mrs. Henry O'Neal and family.

Mr. and Mrs. Herman Kirby and sons, Orville and Dillard spent the week-end with Mr. and Mrs. James Cromer and daughters.

Mrs. Lewis Renner accompanied Mrs. George Renner to her home in Blue Ash, O., for a few weeks visit.

## FUTURE FARMERS WIN AWARDS

Lucas Henderson and Shirley Phillips, Jr. together with their advisor attended the Future Farmer camp at Hardensburg, last week. Lucas and Shirley were presented with the farm award, the highest honor the State Association can award a boy taking vocational agriculture. In order to get this award a boy must be outstanding in scholarship, leadership and must have a good start in farming.

Anneth Stewart who was entered in the state tobacco contest took second place and won \$15 in money. Shirley Phillips who had won the district contest in tobacco placed second in the state contest.

Anneth Stewart was awarded an F.F.A. plaque for her accomplishments as the "winning chapter of the Cumberland district."

Lewis Miller, proprietor of the Rockcastle hotel, has been appointed County Commissioner for the county of Rockcastle, Mr. Miller states, according to the new tax laws now in effect, all property owners must come to the county commissioner's office in person to declare their taxable property.

## LEWIS MILLER APPOINTED COUNTY TAX COMMISSIONER

Lewis Miller, proprietor of the Rockcastle hotel, has been appointed County Commissioner for the county of Rockcastle, Mr. Miller states, according to the new tax laws now in effect, all property owners must come to the county commissioner's office in person to declare their taxable property.

## THE GARDEN

This is directed toward Kentucky's Victory gardeners, those valiant folk who have persisted in the face of difficulties born of unsuited soil, sometimes of weather sometimes not to the gardeners best liking, and of lack, sometimes, of tools adapted to the job. In the main, however, the Victory gardeners have done nobly, up to now. August is the month to let down to setting the full fruits of their efforts, the word is timely that fresh herbs should be taken, as much remaining to be done.

August is the month to take gardens of Siberian kale greens and Purple Top Globe turnips, of Seven Top Evans Curled mustard and of that winter-hardy green, Georgia collards. More extraordinary vegetables to be started are August 15th are Chinese cabbage, Pe Tasi and Chilli, and Chinese Tiao Tiao. These may have started, but they should be shaved off with a sharp knife, and they should have a suitable seed bed. But these late garden crops will apply the effort they take, and, having been raised, they will produce a next year's garden will be that much the easier.

When there is plenty of root crops, such as rutabagas, beets, and carrots, do not eat all at once, but in 10-day intervals, however, as Victory gardeners are not overly fast with spoils, they should eat theirs in rows, 22 to 24 inches apart, the better to stop the fleas just as soon as ever they can be seen. Take them down the trick.

The others should always be put in rows 2 feet apart, and one packet of seed for each row should be 8 inches or more, 12 inches for Chinese cabbage and 24 inches for collards. Chinese cabbage should be planted in the basement or outside cellars to stay usable beyond New Year's.

Collards are ready to use whenever the leaves reach suitable size and continue usable even after severe freezes. They may be ready greens next year.

Kidney is ready for harvest when the plants fill the row, but 2 weeks before they are to be cut, they should be tied up loosely, to bleach the hearts.

In all of this, it should be remembered that as the soil has already produced one crop, re fertilizing should be done, a light dressing of manure chopped in the garden, or fertilizer at the rate of 1 pound to 40 square feet of garden.

## BRODHEAD FAIR MOST SUCCESSFUL IN ITS HISTORY

The 48th annual exhibition of the Brodhead Fair was brought to a successful Saturday night, when the largest crowd ever to attend the fair was on hand to witness the champion-ship saddle stake, won by Jack Day. George M. Pope was second, Miss Cecil Dulin, of Danville, third, R. H. Hutcherson, also of Danville, with three horses entered, placed fourth, fifth and seventh, Loraine Daniels, of Lancaster, sixth. In the other rings held Saturday night, Grand Champion walking stake, Guy Hundley, of Danville, was the winner, with C. L. Kane, second. Fourth place was awarded to Harry Adams, placed second in the walking stake. The following were awarded an F.F.A. plaque for their accomplishments as the "winning chapter of the Cumberland district."

Lewis Miller, proprietor of the Rockcastle hotel, has been appointed County Commissioner for the county of Rockcastle, Mr. Miller states, according to the new tax laws now in effect, all property owners must come to the county commissioner's office in person to declare their taxable property.

## GAS DOUPONS CUT TO THREE GALLONS

The resolve cut announced Friday by the O. P. N. Board, in cutting the value of all coupons from four gallons to three gallons, went into effect Monday.

## LISTS IN WAVES

The Navy Recruiting Station in Somerset has announced that Mrs. Virginia M. Ponder of this city was enlisted in the WAVES (Women Accepted for Volunteer Emergency Service).

Mrs. Ponder is the wife of Lyman Ponder and the daughter of Mr. and Mrs. W. H. Lewis. She is now at home on inactive duty and is to report for active duty Aug. 26th, at Hunter College, New York City. Her husband is also a member of the armed forces.

## BUMMER

By Virgie McGuire

Mrs. Vester Allen, who has been working in Alaska for nine months returned home, Thursday.

Mrs. Milton Harp of Lexington, is spending the week with his aunt, Mrs. America Drew.

Mr. and Mrs. Dill Stewart attended the Brodhead Fair, Saturday night.

Mrs. Wesley Hunt visited Mr. and Mrs. George Drew, Saturday.

Mr. Ed Klusky is very sick.

Mrs. Helen Abney of Louisville, is spending a few days with her parents, Mr. and Mrs. Eliza Abney.

Mrs. Anna Drew spent Friday with Virginia M. Ponder.

Miss Mary Lou Ballinger and Roger Ballinger of Dayton, O., are spending a few days with her parents, Mr. and Mrs. Dan Hinton.

Miss Anna Ballinger visited her aunt, Mrs. Elmer Jordan over the week-end.

Mrs. and Mrs. Berres Abney and Mrs. Margaret Abney visited relatives on Clear-Creek, Sunday.

Mr. Ed Phillips and family were the Sunday afternoon visitors of Mr. and Mrs. Dill Stewart.

Mrs. Carl Baker of London, spent a few days last week with her mother, Mrs. Val Wright.

Mrs. Paul Metcalf, who has been visiting her sister, Mrs. N. M. Smock, left Monday for her home in Florida.

WEEKLY NEWS ANALYSIS

Southwest Pacific Campaigns Unfold With Decisive Victories Against Japs; Allied Chiefs Confer for Sixth Time; WFB: 'Essential Civilian Goods Only'

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union members and not necessarily of this newspaper. Released by Western Newspaper Union.

From left to right, Maj. Gen. Geoffrey Keyes, Gen. Bernard L. Montgomery and Lieut. Gen. George S. Patton study a large map of Sicily at the royal palace in Palermo, the island's No. 1 metropolis on the shore of the Tyrrhenian sea, which was captured by American doughboys.

The Allies' Solomon and New Guinea campaign unfolded in a victorious pattern: The Japanese were stormed. Allied troops beat their way through the jungles of New Guinea toward Salamaua. The big guns of America pulverized the defenses of the enemy's faltering supply line. Raging U. S. airmen gave heartened ground troops assistance by machine gunning and bombing the Nips in low level attacks.

HOME FRONT

Limited supplies of cotton and alloy steel, copper and aluminum preclude the possibility of an increase in less essential civilian goods, the War Production Board announced. To keep production schedules geared to available supplies, WFB said, it was necessary to reduce requests of the military, civilian, lend-lease and other claimant agencies by 18 percent for the third quarter. The most important items of civilian goods were pared by 8 percent, and all others' requests by 17 percent. Because of manpower shortages, the situation in copper is particularly tight, it was reported.

ALLIED CHIEFS

With world events moving in a swift and momentous current, steeply ascending, the chief military leaders of the Allies met in a conference to discuss the situation in the Pacific where General MacArthur's army was pushing the Japanese from their island strongholds, and in Europe, where the Red Army was capturing territory in Manchuria or Siberia.

DADS' DRAFT

Congress may act on the controversial question of the induction of fathers deemed to be an embarrassment to the nation. Representative J. May said he would introduce a bill prohibiting the drafting of dads when the legislators convene September 14.

HIGHLIGHTS

RUSSIAN OIL: Pay rates of Russian oil field and refinery workers have been raised to stimulate production, says a dispatch from Moscow. Plastic wastes will now be fed on high levels, two new ones for specialists having been added. Communist believe that the Russian industry scale is the first step toward great recognition of experienced, valuable workers.

SOMEODY ELSE PAYS!

This is one time the woman doesn't pay and pay! An unemployed 39-year-old Texan wrote the nation's unemployment office of dependency benefits, asking if he could apply for a family allowance on the basis of his wife's service as a W. A. C. From the looks of things, the room will have to get a job offer all for the army's answer left no room for doubt or argument. It was a very positive "NO!"

NORMANDIE: Right Side Up

With high tide in, the great hull of the former U. S. luxury liner, Normandie, heaved gently and came to rest at a 49 degree angle in the New York harbor. She had capsized 18 months ago after a disastrous fire. Within the huge hull, 50,000 gallons of water still remained. The 10,000 gallons which had been held when 85 pumps first began emptying the stricken vessel. To President Roosevelt's demands, the Guardia of New York gave major credit for the salvage job, declaring that the President as an amateur seaman offered a suggestion for the most efficient concentration of the pumps for drawing the water.

At the time the Normandie, renamed the USS Lafayette, fell over on her side to come to rest at a 79 degree angle, the navy was completing work on her reconstruction. The ship's cost, which had been estimated at \$20,000,000. Salvage operations have exceeded \$1,000,000 and an additional \$700,000 will be required for refitting the ship. When originally built, the Normandie cost \$39,000,000.

MEAT: Sees More Supplies

Beef production will rise 20 percent in the last half of 1943 and pork output will increase 10 percent, Western Hardbergh, president of the American Meat Institute, estimated. As a whole, there should be a 17 per cent boost in meat supply. During the fiscal year which began last July 1, meat consumption should total 14 billion, 700 million pounds, Hardbergh said. Two out of every three pounds will be available to civilians.

During the first seven months of 1943, the department of agriculture announced that 35,224,248 hogs had been slaughtered against 30,812,651 in the same period last year, 8,427,697 hogs had been butchered against 6,880,800 and 279,864 piglets and lambs had been killed against 10,917,738.

AGRICULTURE: Income Soars

Farm income for the first half of 1943 totaled \$8,202,000,000 against \$6,215,000,000 last year, the department of agriculture reported. Marketing of large crops of the recent crops of last year contributed to the big upturn, the department said.

Cash receipts from crops during the first half of 1943 totaled \$4.5 billion, 45 percent, while income from livestock and livestock products showed a 31 per cent increase.

Farmers on Own

Declaring "this country is too broad, too far flung, too varied in its production to have the work done by a few big estates," War Food Administrator Marvin Jones called upon the farmers and stockmen of America for a voluntary effort to reach the nation's food needs. Previously, Jones had announced that the government plans no 1944 crop controls, except on tobacco, no acreage allotments, no marketing quotas and no benefit payments for compliance with control. In the hands of state, county and community organizations which have developed the program, Jones said. "While we may not have as great a choice of foods as we have been accustomed to heretofore," Jones said, "I have no doubt that the civilian population of this country will have a sufficient amount of good, wholesome food."

TAX REPORTS:

In an effort to simplify federal tax reports, the treasury has undertaken a special study of tax laws. Officials said that reports may not be required of some classes of taxpayers if the burden of paper work can be reduced without loss of revenue. No matter what the results of the investigation, however, there will be no immediate change in regulations, officials pointed out. Approximately 10 million income tax returns will have to be filed an estimate of 1943 income for November 15.

Washington Digest Definite Foreign Policy Essential to America

The Issue: Shall Nation Adopt Policy of Participation in World Affairs or Shall We Aim at Nationalistic Goal?

By BAUKHAGE News Analyst and Commentator.

WNU Service, Union Trust Building Washington, D. C. Today America faces its first real problem as world power. The only lies before us, General Eisenhower, as commander-in-chief, says, "The American people must become a statesman. He is a soldier. He can win battles. Now, he is the man ultimately responsible for directing American foreign policy. What is American world policy?"

But who is his Commander-in-Chief? Mr. Spengler has one job to keep the party together, to eschew any favoritism for any policy or any person. Naturally, these persistent people who called upon him were presenting a problem. I believe it was that fact rather than what his critics said that indicated there was a leaning toward the "status quo" attitude, the desire to remain a purveyor of platitudes and follow the safe rather than to facet it.

The men have to face the question of committing the Republican party to a definite foreign policy. And paradoxically, by committing themselves to a definite foreign policy, they may free both political parties of all commitment on foreign policy. For if the Democrats frame resolutions, they can vote America from a vicious split—one which, if it is not avoided, will crush party lines and destroy the two party system, the rock of our democracy.

The issue which America faces is "single issue" politics. We need a policy which will implement our participation in world affairs or shall we retire into ourselves and pursue the nationalistic policy which says in effect: let the rest of the world stew in its own juice. When we took the Philippines, America was faced with the great and vital problems which should have no political tinge, outside partisan politics. We have had our own problems which have remained essentially non-partisan.

The Monroe Doctrine

Walter Lippmann has written a book called "American Foreign Policy" and the point he makes is this: In 1823, politics did stop at the water's edge. We had a foreign policy (or thought we did) which was the Monroe Doctrine. According to Lippmann (and we agree) under a delusion. Namely, that we had under the Monroe Doctrine declared our whole policy—America for Americans (period) which implied, of course, that the rest of the world could do what it pleased so long as it kept off our grass.

Then we mixed in world affairs, and we had to fight our own battles. We had to look over Hawaii, the Philippines. But we did provide the means to hold them. And so, disagreeing on the various steps which we had to take to provide security for our own shores and those other contiguous shores (South America and Canada) we were forced to use an enemy against us. Or we have to take part in prophylactic measures—to stop the danger to our security.

That issue once clarified by the two political parties will leave us free for a good, old-fashioned freewheeling political campaign, and if the result is that both parties are the best man wins, his policies can't affect the international welfare of the nation. Failure of both parties to clearly set forth their views on foreign policy may well create a third party movement which could wreck the two party system and rock on which our Republic is founded.

BRIEFS by Baukhage

Awards amounting to \$1,000,000 will be given to Chinese inventors for the promotion of science and technology for successful research products vital to the national defense. Corn cannot be used for manufacture of aviation spirit and high wines, a recent directive of War Production board says.

ON THE HOME FRONT WITH RUTH WYETH SPEARS. The upper sketch shows a combination living area and bed room brought up to date with every inch of space used. The cushions (low back) are replaced with a double compartment for bedding as this was made of plywood as shown at...

NOTE—Longer and longer grows the list that "money won't buy." But bright ideas across the front end and with cotton being the thing we need most. The couch material, lacked in place through a lat strip. Unpainted book cases were bought to go at the ends, and the woodwork in the living compartment was painted to match the book cases.

SNAPPY FACTS ABOUT RUBBER. Scientists have found that rubber is the only substance that can be stretched tremendously and resume approximately its original form. Too much stretching, such as in underinflated tires, causes "fatigue" and deterioration.

In war or peace B.F. Goodrich FIRST IN RUBBER. If gasoline consumption is a gauge of tire wear, more miles are run in July and August than any other month. Of the gas used in 1943, 95.5% was in the tires. August and July in July, February was the low month, with 6.4% of the year's total.

# HOUSEHOLD MEMOS... by Lynn Chambers

## You Can Stretch Meats and Have Delicious Meals

Leftovers need not recline on the refrigerator shelf when you can make them into delicious meat pies like this, simply and easily. Use leftovers from a roast with a few fresh vegetables and gravy to tuck inside the flaky crust.

Short on red points at the end of the week? There are several answers to the problem, and I'm devoted today.

A good idea is to be smart in your use of leftovers, and this is particularly true if you've indulged at the beginning of the week by purchasing a roast. After using the roast twice, you still have a bit of meat left on the bones, and if you fix it with an eye to entertaining, you can have a savory meal out of it.

Best way of extending meat when there's little enough of that is by using vegetables generously. Cut off what pieces of meat you can find on the bone and combine these with some lovely, fresh-cooked vegetables such as carrots, peas, onions, potatoes, and perhaps a few strips of green pepper for flavor. Combine all together with some of your favorite seasonings and tuck the whole mixture into these individual meat pies. In this way, your leftover won't languish in the refrigerator.

**Making Meat Pies.** Sift together 2 cups all-purpose flour and 3/4 teaspoon salt. Cut into this 3/4 cup lard with spatula and work until the particles are the size of a small pea. Sprinkle 4 tablespoons water over the mixture, working it lightly with a fork until all the particles are moistened and in small lumps. Press dough into a ball, handling as little as possible. Flour board lightly. Divide pastry in half, roll lightly to an eighth-inch thickness. Using a 3 1/2-inch pie plate, cut circles from pastry. Cut 1/2-inch wedge from circle to insure better fit into muffin tins.

Lightly to fit into remaining dough, cut in circles to fit over top of each muffin tin. Press edges of crust together. Bake in a hot oven (400 degrees) 35 minutes. Remove from tin and serve hot.

Here's a salad that's rich in proteins and can be used to pitch in for the main dish when points are on the slim side:

- Green Lima and Bacon Salad. (Serves 5 to 6)
- 2 cups cooked green lima beans
- 1/2 hard-cooked eggs
- 1/4 cup salted-peanuts, chopped
- 2 teaspoons onion juice
- 4 strips crisp bacon
- 1 cup diced celery
- 1/4 cup chopped pickle
- 1/2 teaspoon salt, if desired
- Mayonnaise

### Lynn Says:

**Tips on Keeping Cool.** Acting cool and thinking cool actually works a magic in making you cool. It's important to plan your day ahead so that it runs smoothly and so there will be a minimum of confusion—for that always makes weather hot.

Dress cool, eat cool. Dress sensibly, keeping plenty of clean summer clothes on hand—things that can be done up with soap and water in a hurry and need little ironing. Crispy salads—even in the imagination—cool you off, and outdoor, frosty showers help. Do your hot kitchen work in the cool morning hours. Make whatever preparations you can on the food front and store in the refrigerator ready to pull out for dinner with a minimum of rush and hurry. Keep things simple, and you'll keep cool.

### Lynn Chambers' Point-Saving Menu

- \*Broiled Liver Sausage and Tomatoes
- Potato Chips Green Salad
- Rye Bread Iced Coffee
- Chilled Cantaloupe
- \*Recipe Given

Combine ingredients, add salt and mayonnaise. Serve on crisp lettuce with bits of bacon. Have your vegetables cold sausage and meat loaves are low in point-value and that they go farther than the same quantity of fresh meat! And, if you really like a hot dish for a meal, the cold meats are equally delicious when served with you'll like these suggestions:

- Bologna Sausage. (Serves 4)
- 1/2 pound bologna
- 1/2 cup onion, sliced
- 1 tablespoon bacon drippings
- 1 teaspoon salt
- 1/2 teaspoon allspice
- 1/2 teaspoon cloves
- 1/2 teaspoon pepper
- 1/4 cup tomato juice
- 2 cups cooked spaghetti

Dice 2 slices of bologna in skillet and brown with onion and bacon drippings. Add to this seasoning and tomato juice and simmer until done.

and heat thoroughly. Serve with several slices of pan-fried bologna.

- \*Broiled Liver Sausage and Tomatoes (Serves 4).
- 1/2 pound liver sausage, sliced
- 4 large tomatoes, cut in half
- 2 slices of onion

Cut liver sausage into slices about 1/4 inch thick. Remove casing. Place the slice of liver sausage on the broiling pan with 1/2 inch of onion to a tomatoe that have been cut in half and brushed with butter, seasoned with salt and pepper. Broil for about 10 minutes. Liver sausage need not be turned. As soon as tomatoes have broiled for about 4 minutes, top them with onion slices, if desired.

### Frankfurters With Potato Salad. (Serves 4 to 6)

- 1/4 cup bacon drippings
- 1/4 cup vinegar
- 1 beaten egg
- 1 teaspoon salt
- 3/4 teaspoon pepper
- 1 teaspoon sugar
- 4 cups cubed, cooked potatoes
- 1/2 cup chopped green pepper
- 1/2 cup chopped onion
- 1/2 pound frankfurters

Heat bacon drippings and add vinegar, egg, salt, pepper, sugar, potatoes, green pepper and onion. Stir until thick. Cover frankfurters with boiling water and allow to stand 7 to 8 minutes. Arrange frankfurters on top of potato salad for serving.

Here's a lovely, luscious dessert that will go with any of the above main dish suggestions. It's easy to make and very nutritious:

- Apricot Whip. (Serves 6 to 8)
- 1 No. 2 1/2 can apricots
- 2 cups milk
- 2 eggs
- 1/4 cup sugar
- 3/4 teaspoon salt
- 1 teaspoon vanilla

Drain apricots. Mash with spoon. Chill. Scald milk. Beat eggs slightly, then add sugar and salt. Add milk slowly, mixing well. Cook in double-boiler stirring constantly until mixture comes to a boil. Take from fire, add vanilla and chill. When ready to serve, fold in chilled, mashed apricots.

Here are the golden brown, rich, luscious pies taken from the muffin tins all ready to serve. If you have a fresh fruit salad with the meat pie and a beverage, your whole meal's complete.

Apply the sheets vertically. Begin the nailing in one corner. Then straighten out the roofing sheet, stretch it horizontally and allow it to hang smooth. Nail from the top down on both sides, stretching the roofing as you go along. Nails should be alternated, one side and then the other, and the roofing should be allowed to hang free with no attempt to distort or shape it.

Care of the new sidewalls is a simple matter. If they are properly applied they will provide good weather protection for years to come. No painting is necessary when the roofing sheets are first put on, but to prolong their life indefinitely it is well to apply a coat of asphalt roof coating every few years.

**Rubber From Wheat**  
Every American grain-producer's farm is a potential "rubber plantation," says S. L. Fisher, a grain buyer for Schenley Distillers corporation. Butadiene, the principal ingredient in the synthetic rubber process, can be obtained as a by-product in the distillation of industrial alcohol from grain. Its test-sheet from one harvest has been converted into rubber tires which were used on tractors working on the following harvest.

# Farm Topics

## Old Buildings Can Be Weatherproofed

### Asphalt Roofing Paper Will Seal Up Chinks

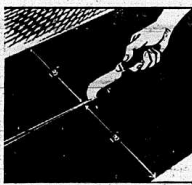

Protection against the weather is vital to the health and productivity of livestock. Poultry houses, hog pens and barns should be proof against infiltrations of rain or chilly drafts. As lumber is critically material the farmer must try to make present structures do for the duration. One way to do this is to lay asphalt roll roofing right over the old walls of weather-damaged buildings. This material is non-critical and easily applied if a few basic rules are followed. To get real service from the new wall covering, however, it must be properly applied.

The course of nails is very important. Only rust-free nails should be used and these should always be driven in straight to prevent their tearing the roofing material. Special care should be taken to drive them into cracks or knot-holes when working over old sheathing, or they will work loose. Large head roofing nails are best for nailing laps.

Proper application of lap cement is another essential. It works best when lukewarm and should never be heated over a fire. If it dries out from standing, it can be thinned with naphtha. Tight cementing of all laps is necessary to the success of the finished job. Never spread the cement too thin or skip any spots between laps.

Advance planning will go far to simplify the job. Cut the roofing sheets in two lengthwise, making each sheet 18 inches wide. Lay the sheets flat in piles to allow for proper stretch. No cutting should be done, however, until you have measured the wall areas carefully and figured out just how much roofing paper you will need to cover them allowing for lapping and trimming.

Apply the sheets vertically. Begin the nailing in one corner. Then straighten out the roofing sheet, stretch it horizontally and allow it to hang smooth. Nail from the top down on both sides, stretching the roofing as you go along. Nails should be alternated, one side and then the other, and the roofing should be allowed to hang free with no attempt to distort or shape it.

Care of the new sidewalls is a simple matter. If they are properly applied they will provide good weather protection for years to come. No painting is necessary when the roofing sheets are first put on, but to prolong their life indefinitely it is well to apply a coat of asphalt roof coating every few years.

# PATTERNS SEWING CIRCLE

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

SEWING CIRCLE PATTERN DEPT. 239 South Wabash St. Chicago, Ill. Enclose 20 cents in coins for each pattern desired. Pattern no. .... Address .....

**DOUBLE** featured pattern — a neat, well-liked frock plus a wrap-around slip. The perforations in the pattern do the trick.

**Pattern No. 8462** is in sizes 14, 16, 18, 20, 40, 42 and 44. Size 14 dress takes 4 1/2 yards of 36-inch material, slip 3 1/2 yards. No. 8462 is in sizes 2, 3, 4, 6 and 7 years. Size 3 requires 1 1/4 yards 36-inch material.

## ASK ME ANOTHER? A General Quiz

1. In what country did Achilles fight in the Trojan war?
2. In the navy what is a four-leaf clover?
3. What is the Land of the Midnight Sun?
4. What army branch has a castle for its emblem?
5. When a face is said to be florid what color is it?
6. How long is a fathom?
7. In what country do the Hotentots live?
8. A crane that lowers a lifeboat is called what?
9. What is meant by a cartel ship?

- The Answers**
1. Greece.
  2. A captain.
  3. Norway.
  4. The engineers.
  5. Red.
  6. Six feet.
  7. South Africa.
  8. Davit.
  9. A vessel commissioned in time of war to exchange prisoners of hostile powers, or to carry proposals from one to the other. With the exception of a single gun for making signals no arms or materials of war are carried aboard.

## WOMAN IN THE WAR

IRENE DAILEY, machinist at the Arma Corp., helps make instruments for gun-fire control.

—WHERE CIGARETTES ARE JUDGED—  
The "A-ZONE"—Taste and Throat—is the proving ground for cigarettes. Only your taste and throat can decide which cigarette tastes best to you... and how it affects your throat. Based on the experience of millions of smokers, we believe Camels will suit your "A-ZONE" to a "T". Prove it for yourself!

# JUST

Blackout, Maybe  
Father—Helen, did that young man smoke in the parlor last night? I found burned matches there.  
Helen—Oh no, father; he just lit one or two to see what time it was.

Meow!  
"Isn't this blackout awful," complained the unpopular Mrs. Jones to her neighbor.  
"I shouldn't bother, dearie," replied Mrs. Smith. "After a time, you'll be able to see. Cats can, you know."

And Who Just?  
Lazy Boy—I'm always tired on the first of April.  
Friend—Why?  
Lazy Boy—Who wouldn't be after a March of 31 days?

A deaf woman entered a church with an ear trumpet. Some ladies had seated herself, an usher tiptoed over and whispered, "One foot, and out you go."

Diagnosis  
"I saw a patient today," said the recruit to the army doctor.  
"Young man," replied the medical officer, "have abdomen, serpens have stomachs, you have bellyache."

Don't We All!  
The story goes that Hitler was inspecting troops when he asked a soldier, "What would be your last wish if a Russian bomb fell near you?"  
The soldier replied, "I would wish that my beloved Fuehrer could be at my side."

## NO ASPIRIN

Can do more for you, than any pain reliever. World's largest seller at 10¢-36 tablets, 20¢, 100 for only 35¢. Get St. Joseph Aspirin.

Jur Anger  
If anger proceeds from a great cause, it turns to fury; if from a small cause, it is peevishness; and so it is always either terrible or ridiculous.—Jeremy Taylor.

## TABASCO

The spiciest seasoning known, and the most delicious! A dash of this pleasant sauce will make any food delicious. TABASCO—the seasoning secret of master chefs for more than 75 years!

Round the clock!  
Kellogg's Corn Flakes are an excellent wartime meal... any time of day. Quick to fix... extra good... nutritious... they save time, work, fuel, other foods.

CAMELS SUIT ME TO A 'T'— I ALWAYS ENJOY THEIR FULL FLAVOR AND THEY'RE SO EASY ON MY THROAT

## EVERY MISSION URGENT

ALMOST overnight the familiar tank-truck became a vital part of the nation's war machine—essential to the very life of the nation.

Every railroad tank-car is needed to haul petroleum products to the eastern seaboard. Therefore, the oil industry's own transportation system—the tank-truck—has taken over the short trips which were formerly made by many railroad tank-cars.

When you see the Standard Oil Company tank-truck on the road today, you will know that it is running against time to get needed stocks of petroleum products to military camps and fields, to war industries, to other trucks engaged in the transportation of a thousand war necessities, to farmers for their tractors used in your production, and to countless other places where petroleum is indispensable.

Round the clock faithful drivers operate these hard-pressed tank-trucks. Without the tank-truck war effort would lag—or stop! Every mission is urgent—many are vital.

## Home Food Waste

... took more of the U.S. food supply last year than the armed services and Lend-Lease combined.

### SAVING FOOD IS YOUR NO. 1 JOB TODAY

LAST YEAR, according to the Department of Agriculture, food waste in the U. S. took 15% of the nation's food supply, compared to 7% for our armed forces and 7% for Lend-Lease.

Before the war, this tremendous loss hurt only the pocketbooks of consumers. Today, it threatens to seriously undermine the war effort. It has become the patriotic duty of every homemaker to save every scrap of food possible.

Ready to help you do your part is your ever-dependable electric refrigerator. Pop perishables into its safe, cold interior as quickly as possible after purchase. Use it to save even the smallest dabs of leftovers. And take care of it, so it will continue to operate efficiently for the duration. Help the war effort and help your pocketbook by saving Food for Victory!

- SAVE bacon and meat drippings for seasoning vegetables, fryin' making gravies. Save surplus fat for salvage.

## KENTUCKY is a Fighting State

### -AND GREYHOUND BUSES ARE PART OF ITS FIGHTING POWER

Kentucky is America in cross-section—fighting mad and fighting hard, doing its level best to back up our troops across the seas with the home-front cooperation they must have.

All of us in Kentucky are putting the drive that counts behind the particular jobs that are ours to do—whether it's sending our men to the colors—building their guns and ships and planes—buying bonds—or moving manpower.

Kentucky men and women, loyal Greyhound employees, are busy keeping our buses rolling to help keep our war effort in high gear. They're driving the buses—keeping them mechanically fit—

conserving vital materials—giving wartime travel information—handling baggage.

As our share in this state's joint war program, Greyhound is taking our local boys to induction centers—and bringing them back home from training camps on well-earned leaves. We are transporting our Kentucky neighbors to their vital jobs in war plants and on farms. We are keeping essential travel on the move—linking up this state with every other area where the Nation's war activities are centered.

Kentucky is in this fight to win—we didn't start the fight but we're going to finish it!
