VOTE FOR JUDGE R. C. TARTAR FOR CIRCUIT JUDGE Primary Saturday, August 2, 1947

Judge Tartar is the most competent and qualified candidate. Few lawyers in the State are better versed in the law.

He has had wide experience both as a public official and lawyer. For ten years he has taught one of the largest Sunday School classes in the City of Somerset.

He believes in law enforcement. He is now County Judge of Pulaski County, and holds sessions of his Criminal Court every Wednesday, and there is no complaint as to his enforcement of the law.

He is intensely human and knows how to sympathize with unfortunate human beings. The poor always find him ready and willing to assist them. His heart beats in sympathy with theirs. He lives with his hand out ready to assist the fallen to rise again.

How may the people of the district know how Judge Tartar stands at home where the people know him best? These facts will tell:

Every lawyer in Pulaski County except the local Candidate, who is a candidate against him, is for him and is heartily supporting him.

Every County officer in Pulaski County is supporting him and making a fight for him.

Every other living ex-Circuit Judge in the district is giving him their hearty support. They are Judges J. S. Sandusky, W. B. Morow, H. C. Kennedy, and B. J. Bethurum. These ex-Circuit Judges know what qualities it takes to make a Circuit Judge.

At least three out of every four white Republicans in the County are supporting him.

Every colored voter in the County is supporting him. He has always been a sympathetic friend of the colored people.

We respectfully urge Republicans throughout the district to join in the effort to give Judge Tartar the largest majority ever given a candidate for Circuit Judge in the district.

And if Judge Tartar is nominated he will show his appreciation by holding your courts regularly, fairly and honestly.

Space for the above article was purchased and paid for by friends of Judge Tartar.

Kentucky on THE MARCH (By Ewing Galloway)
A higher wage level will mean increased purchasing power which goes to promote greater prosperity. Dr. Trimble said, "but in order that organized labor may make the necessary advance in merit and obtain the active and intelligent cooperation of the public, and the sympathetic cooperation of the employers and the state."
Capital and labor must share responsibilities. Dr. Trimble urged, "and that their mutual interests require intelligent and fair collective bargaining... we hope to promote the orderly and constructive development of the resources of our state."
Dr. Trimble's report, prepared for the Committee for Kentucky, is the first such comprehensive study made of Kentucky labor. Trimble stated that, "Broadly speaking any group who works with land for wages, salary or profit is a laborer. This land totals approximately 1,128,531 acres in Kentucky but only 1,013,879 are in the private wage and salary group. Less than one-half of the workers of this latter group are organized in labor unions."
The report indicates that in the past five years the number of employees in most individual industry groups has increased and the total in all groups has increased despite the fact that the population of the state has declined slightly through civilian migration and through loss to the armed forces.
A total of 216,478 Kentuckians served in the Army between November 1, 1940, and July 31, 1946.

FARM BUREAU PICNIC AT RENFRO VALLEY

An old-fashioned all-day get-together was held at Renfro Valley July Fourth sponsored by the Rockcastle Farm Bureau. There was entertainment of various sorts, games and dinner on the ground.
A hillbilly program was presented by D. B. Thompson. This was the Mt. Vernon amateurs. The program was emceed by Juanita Harper and featured Howard Foley, Jack Sowders, Norma Coffey, Lucy Middleton, and the Poff Sisters.
Roy Brown made a report on the Farm Bureau work for the past year.
The afternoon was spent in horse pitching, soft ball, volley ball, sack races, hog calling contests, rope skipping, foot races and neighborly get-togethers.
Mr. Lair turned the entire grounds over to the Farm Bureau for the affair.

Parking-Meters Fight To Go To Appeals Court

Russell, Ky., said D. Bruce an attorney, said Tuesday he would carry to the Court of Appeals a fight to restrain the installation of parking meters at Russell.
Circuit Judge J. R. Sowards in Greenup dissolved a temporary injunction he had granted to C. H. Stevens and others opposing the installation.
Some 30 of the 200 meters already had been mounted on down-town streets before the injunction was granted.
"Opponents of the devices contended that due to the community's narrow streets they have no place for the meters, and that they would drive business to larger, nearby towns.

DEATHS

OWENS
Mrs. Amanda Owens, born July 9, 1879 departed this life June 18, 1947, at 2 o'clock a.m. at her home in Niles, O. She was the daughter of Mr. and Mrs. Jasper Thompson, Pleasant Grove, Ohio in 1891. She died in death several years ago. She is survived by one sister, Mrs. Gladys, who made her home with Mrs. Owens, three brothers, Mr. G. W. Thompson, Gilman, Iowa, Dr. C. W. Thompson and Mr. Dr. C. W. Thompson, Kings Mountain, a stepson, Mr. Delmus Owens, a grandchild and a host of other friends and relatives who will remember her kindly.
Mrs. Gladys, who is well known to all name a member of the Baptist church at the age of 15 and was baptized by her grandfather, Rev. M. T. Reynolds, a member of a faithful and active worker as long as her health permitted, with a record of teaching the "Young People's class at the Broadhead Baptist Sunday school for 26 years, two of which she was not absent from. She lived here for many years throughout many years to come. Her jolly disposition, willing hands and sympathetic heart will be missed and welcome wherever she went.
Funeral services were conducted at the Broadhead Baptist church here Wednesday afternoon, Rev. S. L. Whately, assisted by Rev. L. E. Harris, pastor of the Grove Cemetery.
Acting pall-bearers were her nephews: Russell Thompson, Maynard J. Thompson, Cincinnati, O., Columbus Dunaway, Somerset, Carter Owens, Mt. Vernon, Leroy Thompson, Mt. Vernon, and Craig Litterell, Clark Orchard.
The high esteem in which she was held was manifested by the large number of friends who pay their last respects and the many beautiful floral tributes.

Mr. Dean Mullins' wounded finger, which was a mistake with a pistol is slowly improving.
Ollie Lela Durham was Saturday night guest of Louise and Bernice Mullins.
Miss Vernetta McGuire left Sunday to spend a few weeks with Mr. and Mrs. Hubert Jennings in Maud, Ohio.
Services will be conducted at the New Holiness Church near Poplar Gap on fourth Sunday of July. Everyone is invited to attend.
Mr. and Mrs. Ben Davidson of Dayton, O., spent a few days with Mr. and Mrs. Harry Davidson last week.
Mr. and Mrs. Earl Reece of Crook Creek visited Mr. and Mrs. M. A. Franz and family Saturday night.
Miss Eva Allen of Ohio spent the week-end at home.

Saylor For Representative

When I am elected as your Representative I will only be one man but one thing I will promise the voters of Rockcastle County. Any bill that comes before the House of Representatives that I think will benefit the citizens and taxpayers of Rockcastle County, I will vote for it.
Here are a few things which I would like to see accomplished at the next session of the Legislature of Kentucky:
1.—The Rural Road fund made \$18,000.00 instead of \$5,000.00 as it now stands. Give the Rockcastle County approximately \$120,000 annually for our rural roads. This would be enough money to improve our roads and maintainance crew on our Rural Highways.
I am very much in favor of a separate highway district for Rockcastle County.
I will vote for any bill that comes before the House of Representatives that will benefit the veterans in any way I shall vote for that bill.
I am in favor of raising our teachers' salaries and raising our school funds, but I am for raising it out of our \$30,000.00 surplus in our General Fund. I am for it rather than taxing our local tax payers.
4.—For the Old Aged Dependent Children and Necessity Blind—I am for raising the maximum for the Aged and Necessity Blind from \$30.00 to \$40.00 per month and providing revenue from this \$30,000.00 surplus in the General Fund of Kentucky to pay same.
5.—Farmers—I make my living farming and I have the interest of the farmers and laborers at heart.
I have contacted a large number of voters in Rockcastle County and they assure me of my election by a large majority.
I was born and reared in Rockcastle County, attended The Broadhead Graded and High School, served Rockcastle 8 years as Treasurer and operated a business in Mt. Vernon for 12 years. I feel as if I am qualified to serve you as your Representative.
I hope to see each and every one of you before the Election Day but if I don't see you, I will be glad to see you at your home for your support on August 2, 1947 in the Republican Primary.

Eisenhower To Head Columbia U.; Soft Coal Miners Stage Walkout; Income Tax Slash Fight Renewed

Released by Western Newspaper Union.

IKE RESIGNS: Goes Academic

General of the Army Dwight D. Eisenhower has resigned as army chief of staff to accept the presidency of Columbia University in New York, effective early next year.

His decision to step out as top man in the nation's military hierarchy is widely expected to take the academic post as announced in a statement by the president of the university, Floyd L. Parks, chief of the war department's military division. The statement said that Eisenhower would accept the Columbia presidency with the approval of the president and the secretary of war. His resignation will become effective "at such time as his superiors may release him from active duty in the army."

The man who mapped the strategy which brought victory to Allied forces in Europe in World War II will retain his rank as army general for life and continue to receive a "pension" of about \$15,000 a year. Eisenhower accepted the Columbia presidency with the approval of the president and the secretary of war. His resignation will become effective "at such time as his superiors may release him from active duty in the army."

MAD ON: Miners Out

The city of many of the 180,000 soft coal miners in 10 states as they staged a general exodus from the pits just 24 hours after the Taft-Hartley law was passed.

Acting to avert a possible national calamity, the justice department immediately launched an investigation to determine whether an injunction can be brought against John L. Lewis and his United Mine Workers union.

STILL ALIVE: Revive Tax Cut

Chances for an income tax slash, which appeared to have gone glimmering, were revived when President Truman vetoed the Revenue Act of 1946, calling for a four-billion-dollar cut, so again as the Republicans suddenly began a concerted move to repeal the measure.

WHALES: For Japanese

Despite protests from both Great Britain and Australia, Gen. Douglas MacArthur is going ahead with plans for a second Japanese Antarctic whaling expedition. Feeling that they are backed by American public opinion, the command officials in Tokyo took the attitude that it is better to let the whaling go some good for themselves than to make Americans and Japan to get them and pay for it too.

High Farm Production Requires Less Work

Farm production, at today's high level, takes only two-thirds as much human labor as would have been required in 1920 for an equal volume of production. Reporting on advances in farm technology, the department of agriculture has estimated that with 1920 methods, tools, crop varieties and livestock practices, it would have had to put in about 20 billion hours of work for this year's farm production. But because of the tech-

FLOODED OUT: No Bumper Crop

Experts who recently predicted a three billion bushel corn crop this year are being badly revising their estimates in the light of continuing torrential rains and widespread floods which have transformed much of the Midwest into a soggy mass of mud.

Damage has been particularly heavy in Iowa, extending from one end of the state to the other. Flooding of river bottom lands is only part of the loss.

Thousands of acres of crops have been washed out, and the loss is considered irreparable. It is too late to replant with anything except forage crops and possibly buckwheat if seed is available.

On upland farms, ponds and lakes overflowing their boundaries also will cut seriously into corn yields. All in all, a bumper corn crop is considered extremely unlikely, even for a favorable growing season to October.

ATOM TREATY: Hope Dies

Hope of writing an international atomic control treaty before the United Nations general assembly which is scheduled to meet in London has been abandoned by the U.N. atomic energy commission.

Decoding the situation in the western world, the U.S. State Department announced that it is not optimistic on all major issues with regard to an atomic treaty.

Andre Gromyko, Soviet deputy foreign minister, told the commission that Russia never would agree to any atomic control treaty which would give the large powers a veto to veto the punishment of violators.

THE TEST: Three Meet

The meeting in Paris of the European Big Three, Soviet Foreign Minister Molotov, French Foreign Minister Bidault and British Foreign Secretary Bevin, is being heralded as a decisive test of East-West cooperation.

Consensus of opinion was that the talks would either launch Europe on a cooperative self-help program which would be a large step between the Eastern and Western powers.

The conference is a halting, initial step toward a fulfillment of the "Marshall plan" for Europe—a proposal by Secretary of State Marshall which has been hailed as an economic federation of the European states.

Tough on Strikes

Tomatoes already have killed more people in six months of 1947 than in 12 months of any other year. The weather bureau is likely to lose one of its best volunteers in the post-volunteer strike-busting system.

PARADOX: Food From Greece

A ridiculous paradox wherein the people of Greece, to whom the United States is sending money, food and military aid, are shipping packages of food to this country has been revealed by customs officials.

Following a disclosure that 100,000 to 150,000 pounds of meat have reached the United States in small parcels in recent months, Harry M. Durkin, collector of customs for the port of New York, acted to ban so-called "gratitude" shipments of meat to individuals in this country from friends and relatives in Greece.

Government authorities in Washington have attributed the mysterious food movement to Communist-inspired hoax which has spread the belief in Greece that the United States is suffering from a food shortage.

Trade Secrecy

WASHINGTON.—Just a stone's throw from the U. S. Capitol, in an inconspicuous three-story brick building is stored a fortune in technological war secrets.

They include the great bulk of the technical documents on Nazi war industries, removed from Germany for use by American industry—more than 400,000 microfilms of patent applications, blueprints, formulas and other valuable technical papers.

At the Moscow conference, these secrets were the subject of a deal between Secretary Marshall and Foreign Minister Molotov, who knows all about the contents of the documents.

General Marshall said that these war secrets should be considered "war trophies" and not "loot." He said they should be returned to the U. S., since Russia has full and equal access to all of them.

Which is true. In fact, the Soviet Amtorg corporation has been extremely busy making "microfilm" of the documents. It has already made just a few blocks from the Capitol.

Meanwhile, although Russia can get these secrets, small American businessmen soon won't be able to do so—because of the economy warfare waged on war secrets.

Taber's appropriations committee has cut off all funds for the commerce department's office of technical assistance, which is the original \$3,400,000 appropriation.

Striped out altogether. The commerce department against the commerce department's microfilm service. For these German secrets come from the National Association of Manufacturers, which claims that German technological inventions, patents, etc., can be obtained by translating German trade and technical magazines.

NO WHITE LIES Talking to friends about the new law, Eisenhower remarked: "Dealing with the Russians is like killing a pig. You keep on and it piles up until eventually he finds out. It's going to be a long, hard fight."

Watching for Tomatoes Tomatoes already have killed more people in six months of 1947 than in 12 months of any other year. The weather bureau is likely to lose one of its best volunteers in the post-volunteer strike-busting system.

CHOMP, CHOMP, CHOMP Gum-chewing monkeys are doing the top of a coconut in the field of bubble-gum research. They have been trained by the food and drug administration to learn on different brands of bubble-gum to determine whether it is causing certain cases of mouth infection reported in Louisiana and Colorado.

Rescuing the West The West coast can thank six senators inside the appropriations committee for restoring western reclamation and irrigation programs previously slashed to ribbons by house nickel-nuts.

Washington Digest Impartial Groups Attempt Study of Business Flaws

By BAUKHAGE News Analyst and Commentator.

WASHINGTON.—The favorite game in Washington today is a new version of "button, button, who's got the button."

Only for "button" read: Depression, recession, slush-down, readjustment or what have you—if you have anything.

Sen. Robert Taft, as chairman of congress' joint committee on the economic report, had a questionnaire sent out to a long list of business men. The gist of the report seemed to be that there was to be a business recession, but it was going to be in the other fellow's business.

Frequently it is too much faith in the other fellow's fallings and too little regard for one's own that causes us to get so easily fooled. This is especially true of businessmen. Locating some of these "failures" and revealing them to the public was the job recently undertaken and reported on by the Committee for Economic Development.

Just as this organization was being formed by another somewhat similar group was setting a task for "laissez in the hope of straightening out some of the tangled lines of the business world. This was the National Planning association, which is to do—now—what the CED is doing.

By the greatest nobility in how to place before the highly individualistic, hard-to-get-along business men and foundations; special courses in universities and extension schools, and expansion of the present services offered by the department or commercial organizations. These are graphically illustrated in the diagram.

Meeting Needs Of Business The CED proposes to have a study of the business world. This is the National Planning association, which is to do—now—what the CED is doing.

Fair Policies The Committee for Economic Development is for its chairman Paul Hoffman who, in private life, is president of Studebaker corporation. Directing its research and policy division is Raymond Rubicam, a well-known advertising man.

This organization is highly respected. It has a staff of top-notch people, and its members lean backwards to be non-partisan. In fact, at a news conference called to tell the press of the CED's findings, one reporter became pretty riled because he couldn't get Hoffman to read the report on tax situation, one of the hot-spot political issues.

There are two reasons why CED's latest report (on all business) is significant. One: Like all CED reports, it represents the cooperative efforts of top men in the highly practical field of business and top men in the field of science-political economy; a cooperative effort whose sole purpose is to make America a better place in which to live. There are no axes to grind.

The second reason the report is important to all of us is that today farmers doing the research and formulating ideologies, the perpetuation of our democracy, our system, depends upon the fostering of small business.

Although small business needs assistance, that assistance is difficult to proffer, because small business is not a thing, it is a man and a half million small business men, all highly individualistic; all independent and hard to influence as a group.

Small business is more vital than any other type of business. It is the backbone of the economy. It is the source of most of our jobs. It is the source of most of our taxes.

AS OLD AS OPPRESSION
It is often seriously argued that some form of communism will eventually prevail throughout the world because it is a young and dynamic movement filled with vitality and promise, which satisfies the high ambitions of people. On the other hand, the argument con-

times, capitalist democracy is old and exhausted, has outlived whatever value it may once have had, and so is doomed to extinction in the long run. This has all been stated persuasively by the totalitarian propagandists who have made a fine art of pamphlet-writing. But it is a complete perversion of historical fact. There is nothing basically new in communism, fascism, or any other totalitarian doctrine except the name. It is as old as cruelty and oppression. It deals with heresies, with the weapons of literature, execution and banishment—precisely as was done in the time of the inquisition centuries ago. Its labor policy is that of serfdom—every man and woman is regarded as a slave of the state, to be used as the official ruling class desires. Its economic philosophy is essentially that of absolute monarchy, when everything was the property of the king, and freedom of opportunity was unknown. Its attitude toward all civil liberties—freedom of press, of speech, of assembly—is likewise as old as recorded history itself. Everyone must think and parrot what they are told, or suffer grave consequences. The masses of the Russian people any better off under the Romanoffs? One ruthless dictatorship succeeded another by the force of arms. The people, in whose name the revolution was effected, are still submerged in an abyss of ignorance, want, fear and apasitic mental and physical regimentation. Capitalist democracy, for all its faults, is the only form of government which has proven itself capable of maintaining the freedoms of the people. It is the only form of government in which the people exert complete authority, and have the eternal safeguards that make dictatorship impossible. It was the great nations striving toward through bloody centuries, and for which millions of men died. The dynamism of the total state are in reality the dynamics of the cruellest form of feudalism.

Everything but the price tag says—
BIG-CAR QUALITY

You'll like that Big-Car styling!
You'll like the long, low lines of the new Chevrolet. You'll like the look of massiveness and sturdiness. That big, beautiful Unisteel body is by Fisher, you know—the only Body by Fisher in the low-price field!

You'll like that Big-Car performance!
You'll find it fun to drive a new Chevrolet. There's power and pep to spare in the only Valve-in-Head Engine that powers a popular-priced car. And Chevrolet's quiet, comfortable, road-hugging way of going is so restful—so relaxing!

THIS—you'll love!
But your greatest thrill will come when you find out that Chevrolet is the lowest-priced line in its field... and the line that costs less for gas, oil and upkeep. Chevrolet's the one car that gives you Big-Car Quality at Lowest Cost!

You'll like our service, too!
—for the way it keeps your car at its best all the year round. Drive in soon—and regularly.

—and the price tag says—
AT LOWEST COST!

War Veteran Clements Pledges Real Help For World War II Veterans

FORMER Buck Private Earle Clements has a firsthand knowledge of the war veteran's problems. In 1917, at the age of 20, he left the College of Agriculture at the University of Kentucky and enlisted in Company M, First Kentucky Infantry. He served 28 months, won the rank of captain and was honorably discharged.

Congressman Clements.

Clements has no sympathy for those who shirked or avoided the service of their country, in whatever capacity it was needed, in any war.

Clements has no patience with the efforts of the present State Administration to extract from veterans state income tax, plus penalties, on their service pay. The last General Assem-

bly passed a bill to exempt such pay from taxation, but it was vetoed.

In his own words, Clements' attitude is: "I imagine there are many who did not worry much about their income taxes while on the beachheads of Iwo Jima and Normandy. As Governor, I shall recommend and sign an act that will waive, rebate or give proper credit, for state income taxes on service pay."

Clements promises to the many young Democrats "qualified for leadership due to experience gained in war service": "They will receive the same preference in State jobs that is now given them in U. S. Civil Service employment."
