Organic Matter Rids Cropland of Bacteria

Viruses Prevent Plant Diseases From Spreading

By E. C. Thomas
Ohio State College

Few disease-causing bacteria will survive in soil whose organic matter supply has been built up by the use of green manure crops and the return of crop residues and manure. Those that do have are so changed that they can no longer a menace to crops.

Extracts from soil rich in organic matter contain viruses that defend against the entrance upon living bacteria. These viruses are especially numerous in organic matter added

THE 4-WHEEL-DRIVE UNIVERSAL Jeep

Spreads Its Cost Over More Jobs
No idle seasons for the Universal "Jeep"—it works for you the year round. With 4-wheel drive and low speeds from 2 1/2 mph up, the "Jeep" does your tractor work from breaking the ground to harvesting. Shift into 2-wheel drive and you have a vehicle that hauls and tows at highway speeds, with 4-wheel drive to rely on when roads are soft or slippery. The power take-off gives you up to 30 hp on the belt—ample for your power jobs. Let us bring a "Jeep" out to your place and show you how many jobs it will do.

Red Devils To Play Highland Friday Night

In the past week two previously undefeated teams won and Crab Orchard have gone down in defeat at the hands of the hard fighting Red Devils. Last Friday night they defeated Waco 44-33 scoring was equally divided among all playing. The Red Devils tonight they traveled to Crab Orchard and defeated that school 39-24 in a very rough game. Keith Arnold and Robert Comer led the scoring with 18 and 10 points respectively.

This Friday night, Nov. 21st, the local quintet will play the Highland High School at the local gym. Reports from Lincoln County says that Highland will be out to avenge the 1 point overtime loss to the Red Devils in the district tournament last year. Highland has been one of the strongest teams in the district.

One of the best teams in the state will be met when the Red Devils play London High School in London, Ky., on Tuesday night, Nov. 25th. London has a veteran team of tall star is 6 ft. 3 center. A large star is in store for all fans who can see this game. A large crowd of spectators are expected to attend the game and cheer the team on.

LEWIS BRYANT LEARNS FLYING AT UNIVERSITY

The wild blue vander over the Bluegrass has become the time classroom for 42 University of Kentucky students currently taking the new University flight training course offered by the college of Engineering. Among the students enrolled in the course is Emmett L. Bryant grandnephew of Sallie Bryant, Mt. Vernon. A graduate of Mt. Vernon High School, he is a junior in the UK college of engineering.

Winged Wildcatter, the name given to the 42 trainees by their instructors because of their spirit and will to learn. Their first lesson is a training hop with an instructor. During this hop the student is shown operation of the controls and given a chance to "feel them out" for himself. Later training covers the more intricate workings of specific controls and after the trainees have spent an average of eight hours in the air he is ready to solo.

Three local flying schools are under contract with the University to teach enrollees in the institution's newest and most novel course.

Jury Chosen To Try Woman For Murder

Barbourville, Ky.—A jury was completed Monday from a special venire of 100 in Knox County for the trial of David M. Hysinger, son of charged with murder and conspiracy in connection with the slaying of her husband, Millard Broughton.

Last Wednesday a jury in the same court convicted John Mills, indicted jointly with Mrs. Broughton in the case. The jury fixed Mills' sentence at death in the electric chair.

Mills, a former Knox County farm worker, claimed self-defense in the slaying of Broughton last May. He testified he shot Broughton after Broughton had threatened him. The prosecution attempted to link Mrs. Broughton and Mills, who had lived with the Broughtons, to a love affair.

Mills and Mrs. Broughton were arrested last July while working on a farm in Maine. Mrs. Broughton refused to testify at Mills' trial last week.

HISTORY STILL REPEATS ITSELF

The following editorial is reprinted from the Wichita Beacon.

"Lack of understanding on the part of men who are running our government appears to be as much to blame for the chaotic condition of prices and supply as any other factor.

"Remember back in the days of the depression when the government was recommending plowing under crops because they were in too abundant supply? Those same experts today are trying to 'plow under' markets because the demand is too great.

"It doesn't take a student of economics to tell our government that prices are governed almost entirely by supply and demand—regardless of the controls placed on either as an artificial stimulus for increased or decreased prices.

"The plain truth is that our policy is high, but our demand is greater because of the export supplies which this country has followed and is following. Suddenly there has been a drastic curtailment of export allocations of grain and flour in an effort to retard the upward trend of prices.

"Looking back over the years, prices without exception that history repeats itself. Wheat after the Civil war sold for \$2.65; after the Russo-Turkish war it soared to \$2.45; it went to \$1.85 after the Spanish-American war, and to \$3.50 after the first World war.

"Regardless of who is running America, the first truth which must be realized is the old fundamental economic law of supply and demand. It has never failed. It never will, regardless of subsidies, grants, dots, price-pegging or other artificial stimuli. When the supply is good, prices tend to be lower. When supply is short, prices are high (provided there is no price control, in which case the short supply usually finds better customers in the black market—at higher prices).

"We are experiencing high wheat prices because 40 per cent of the crop is going out of the country. We are experiencing high meat prices for the same reason. However, we are witnessing high corn prices because the crop this year was 800,000,000 bushels short because of weather factors.

In any instance, the available home supply is not sufficient to meet the demand."

STEP BY STEP

It has been stated that the goal of socialism would eventually be reached through encroachment after encroachment upon the liberties of the people. Intelligent socialists know that there is no chance of bringing about their "dictatorship of the proletariat" at once. They are satisfied to make their gains little by little, secure in the knowledge that once a certain point is reached, the goal will be in sight.

Here is one of the reasons why left-wing elements, including such publications as the Daily Worker, official organ of the Communist party of the United States, are making a determined drive to force Federal compulsory health insurance on the country. Socialized-medicine would obviously be a long step toward the socialistic order—and regimentation of medicine, with the bureaucrats in control, is considered a necessary prelude to socialization. The doctor would become the creature of politics. The people would become dependent upon the government for medical attention. A vast new administrative agency, with a budget of billions of dollars a year, would be established. The thought of all this naturally makes the socialists' mouths water in hungry anticipation.

As a matter of fact, the American people are solving their medical care problems through voluntary systems which are within the means of all, but the lowest income groups. It is also a fact that these groups, containing a small percentage of the population, can be aided and given adequate medical care without imperiling American medicine. But those who are boring from within are not concerned with facts such as these. They are promoting socialization of medicine with every means at hand.

AMERICANS BE PROUD AND THANKFUL

(By Dr. Norman Vincent Peale)

In a sense most typical of all our national holidays, Thanksgiving Day is as American as the aroma of burning leaves in autumn. Since childhood Thanksgiving has been a beloved and unique institution in our lives. Always on school room walls hung that picture of strong Puritan men, guns in hand, and demure women carrying bundles, walking through the snow to the grim New England meeting house.

I have noticed that the minister frequently preaches from the Old Testament on Thanksgiving Day. There's a reason for that. The writers of the Old Testament were very wise men, of profoundly gifted insight. They knew life, they knew man and history, they knew God. On the wide canvases of thought they depicted the rise and fall of nations. Over it all they solemnly pointed to the brooding presence of the Eternal. Never did they do it in words that have never been surpassed.

Often there was read one of the most majestic pieces of writing ever set down in the records of mankind. On Thanksgiving Day I urge you to read to your assembled family the eighth chapter of the Book of Deuteronomy. It will be good for your soul and your mind too. It will help to make great Americans of your children. Here the writer develops the thesis of a rich country. He describes the wealth and achievements of the people, then warns them. When thou hast eaten and art full, then thou shalt bless the Lord thy God for the good land which he hath given thee. Beware that thou forget not the Lord thy God. It is a solemn warning that if we forget we will go down to destruction as has every nation that has so forgotten.

I write as a minister, a descendant of craftsmen of every faith, who from the foundation of this Republic have been voices crying in the Wilderness. And in those times we American people, that this is the truth. There have been times when people did not give heed, times when we have been voices crying in the wilderness. And in those times we have been sowing the seed of our own destruction. Still the ancient words are terribly true, "When thou hast eaten and art full, then thou shalt bless the Lord thy God for the good land which he hath given thee. Beware that thou forget not the Lord thy God."

That's a solemn issue on Thanksgiving Day. That chapter from Deuteronomy reveals that the writer was proud of his nation. He referred to the "good land which he hath given thee." Some people have tried to make us believe that it is not in good style any longer to be proud of this nation. Everything, so they imply, is wrong with this country. To hear them talk only one country nowadays is always right. That particular foreign country is right about economics, right about sociology, right about international affairs, right indeed about everything, while we are usually wrong about everything. They tell us that our economic, social and political system is hopelessly antiquated and old-fashioned. They have tried to convince us to become "enlightened" and adopt the system of a so-called "Utopia" far across the seas. So the old pride in America is gradually erased and we're supposed to feel rather ashamed of our "reactionary" institutions.

Nothing was ever more false. Nothing is more dangerous to freedom. Where does the world come today for its

money, for its machinery, its food, and its skills? Who has become the trustee of free civilization? It is the country of freedom which Abraham Lincoln once described as "The last best hope of earth." It is indeed a "good land" in which we may justly take pride without prejudice to any other country. Noe does this pride in a "good land" preclude our having a spirit of active international cooperation. So be thankful for America. Be proud of your country. Keep her strong and free forever.

QUICK TRICKS THAT WORK LIKE MAGIC TO IMPROVE YOUR LIGHTING.

Keep bulbs, bowls and enclosing globes clean. You'd be surprised how much dust and dirt hold back light from your portable lamps and fixtures. Just by washing bulbs, bowls and enclosing globes you can get up to 30% more useable light. (Disconnect portable lamps before washing and be sure bulbs and bowls are dry before reconnecting.)

Brush or clean lamp shades regularly. If lamp shades are dirty or turning yellow inside, you may be losing as much as 50% of the light you're paying for. Clean or brush lamp shades regularly. If they are too dark or discolored, refine them or replace them with fresh new shades with white or very light linings.

Fill empty sockets and replace blackened bulbs. Bulbs that have turned black with age rob you of light. Replace them with bright new bulbs of the right size and you'll get a lot more light at little or no increase in cost. Fill empty sockets, too. They're eye strain breeders.

Keep an Ample Supply of Spare Bulbs on Hand!
