

The FICTION Corner

EXCEPTION

By PAUL TULLEN

DOWN in the well, with no way of getting out and with little hope of rescue...

about like worrying about the crops or planning something-wise, such worry looking pretty inconsequential...

"Where are you?" some one called faintly.

After the stranger had found a ladder and helped him out, Thornton said, "I should have fixed that dog..."

"I suppose that makes good sense," agreed the other, "unless there's an exception to prove the rule."

"Well, if every rule has an exception, this was no exception, any more."

Living together in gods. Turn to me, unto me, saith the Lord...

What makes a people great? Zehariah reminds the people that the downfall of their fathers had been due to their forgetfulness of God...

God has a standard. Read chapter, seven, verses 8-14 and 21:17-17, for some of the standards which God sets up for his people...

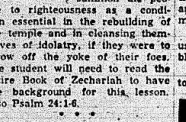

Job injuries increase in Postwar Industry. U. S. economy is expanding under the pressure of postwar necessity...

Through the Ages. Grace Noll Crowell. Through the ages man has ever longed for the everlasting promises of God...

By the Bible. If we abide by the principles taught in the Bible, our country will become a better one...

New Chemical Curbs Many Fruit Pests

Characterized as effective against a wide range of fruit pests and diseases, a new dinitro fungicide and insecticide for orchard use now is available commercially...

Dr. Newton. Living together in gods. Turn to me, unto me, saith the Lord...

What makes a people great? Zehariah reminds the people that the downfall of their fathers had been due to their forgetfulness of God...

God has a standard. Read chapter, seven, verses 8-14 and 21:17-17, for some of the standards which God sets up for his people...

Research workers are conducting extensive tests to find other pests and diseases that may be controlled with the chemical...

Within a short time the consumer will be able to purchase a wide variety of poultry and meat products...

One of the principal means of meeting this challenge is for the poultry raiser to start selling chickens under brand names in an effort to promote his product for the time when consumers again will be "choosy."

To accomplish this, good packaging is essential. Modern transparent Good packaging, as demonstrated by this cellophane-wrapped chicken, is good advertising.

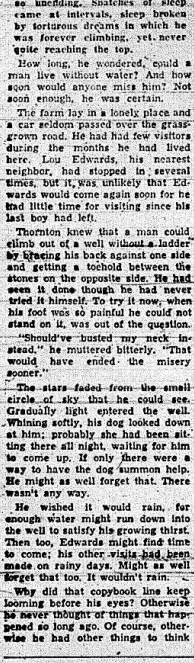

Tests conducted with the same grade of poultry, half being wrapped in cellophane packages, the other without covering, proved that demand for the packaged birds was one to ten as large as for the unwrapped ones.

(Continued from page 1)

Billy Roberts has recovered sufficient to return to his duties in Maggard Sundries.

Mr. and Mrs. Richard Chatman were over from Columbia to visit her parents, Mr. and Mrs. Charles Huggins.

Miss Louise Mullins of Covington was here to attend the funeral of Mr. W. M. Potts.

Augstin. Lafavers, who has just returned from Germany where he served with the U. S. Army visited relatives here this week.

Miss Bettie Jean Evans of London was the guest of Mrs. Charlie Smith over the weekend.

Mr. and Mrs. Foster Mullins, Mr. and Mrs. Lee Mullins and Mrs. Minnie Smith of Livingston were here to attend the funeral of Mr. W. M. Potts.

Mr. Ren Bradley who recently underwent an operation in St. Joseph hospital, Lexington, was able to return home Sunday. We are glad to report him doing nicely.

Mr. and Mrs. Ralph Griffin and Mrs. Kate Griffin were down from Mt. Vernon Sunday guests of Mrs. Jenny Wallin.

Mr. and Mrs. Milt Lafavers were in Turkey Town Sunday with her parents, Mr. and Mrs. Mat Blanton. They report Mr. Blanton very ill.

Mr. and Mrs. Dean Mullins and family of Orlando, Casper Mullins Mrs. Charlie Durham, Miss Berniece Mullins, Mrs. Edna Lewis and son, Lonnie of Hamilton, Ky. were here for the funeral of Mr. W. M. Potts.

Russell and John D. Cromer and friends from Richmond, Ind. were here from Friday until Sunday with their parents, Mr. and Mrs. Sam Cromer.

Mr. and Mrs. Dave Webb had as their dinner guests Sunday, Rev. and Mrs. Brown of Lon-

don, Mrs. Mink of Livingston, and four other friends from Corbin. They were enroute to Hiatt to attend services which were being conducted by Rev. Rector.

You are invited to attend the Tom Thumbo Wedding at the Broadhead High School Auditorium Friday evening.

Mr. and Mrs. D. H. Gray were in Lancaster Friday to attend the funeral of Mr. Bert Whitehead.

Miss Anna Carol Pike of Corbin is visiting Misses Ellen F. and Lena Baker.

These delegates of young folks of the Christian Endeavor here accepted the invitation to meet with Christian High School members from Mt. Vernon, Crab Orchard, Livingston and Middleburg at the Christian church at Middleburg last Sunday afternoon. They report a lovely time and very happy that they had the largest number of Endavor registered. They have extended an invitation to Mt. Vernon, Crab Orchard and Middleburg and Livingston to meet with them in the future.

1 1/4 cup hot milk  
1 cup soft bread crumbs  
2 eggs  
2 tablespoons minced onion  
Cayenne-few grains  
1 teaspoon salt  
1 1/2 tablespoons melted fat  
1 tablespoon parsley

Wash asparagus, removing scales on stalks. Cut in half-inch pieces. Boil rapidly for 10 minutes in salted water. Add the hot milk to the bread crumbs, then beaten egg, folk seasoning and asparagus. Fold in beaten egg whites. Grease individual molds or casserole, fill two-thirds full with asparagus mixture and sprinkle with chopped parsley. Set in pan of hot water and bake in moderate oven for 35 to 45 minutes until an inserted knife comes out clean. Serve at once.

Menu: Fried smoked ham, creamed new potatoes, asparagus timbales, spring salad, biscuits, butter, rhubarb sauce and cookies.

(Continued from page 5)

Now that the asparagus season is here, it is a good time to try out different ways of serving this delicious vegetable. The recipe below is from Miss Florence Inlay, specialist in foods at the College of Agriculture and Home Economics, University of Kentucky.

**Asparagus Timbales**  
cups cut-up asparagus

Both need ample phosphorus to mature, but relatively little nitrogen. Lima beans are in fact most sensitive indicators of imbalance of these plant foods. When there is a shortage of phosphorus, luxuriant vines and leaves result, but the blooms shrivel off and sometimes no pods at all may set. The general fertilizing scheme described here some weeks ago provides the proper food balance for beans.

Both are "warm" crops; limas exceptionally so. Whereas some liberties may be taken to plant Valentine or Tennessee Greenpod bush beans before the ground has got warmed up, the limas must be sown early, all of them. Further, even though the soil's temperature is right for them, excessive moisture may cause the seed to mildew, unless protected by treatment with Sporegon. Even in the manner of their planting are lima beans critical, especially the large-seeded varieties must be planted eye down so that the seedlings do not break their necks as they come up.

Both limas and green-beans are sensitive to drought and extreme heat. Stringless Greenpod and Tendergreen bush beans bear well when moisture and temperature are right, but set pods sparingly in the hot and dry weather that usually prevails in late August and through September.

It is best to use Logan or U.S. Reliance No. 3 for planting on June 15.

**THE GARDEN**

On the whole, beans and lima beans are enough alike to be discussed together.

feet square, or in rows 6 feet apart, the hills spaced 42 inches in the rows.

As the striped cucumber beetle may be expected to take its toll of all the melon crops, these must be planted, and the number of seeds per hill should be 6 to 8, but the final stand should be two plants later, but in good time, specific measures for insect control will be outlined here.

The varieties are:

Watermelon — Kleckley Sweet and Stone Mountain (Commercial growers may produce wilt-resistant strains of these varieties, this disease occurring in some counties.)

Cantaloupe — Halo's Best (an excellent sort but subject to great variation in size; perhaps sometimes objectionable to write to.)

For a CHECK INCREASE IN YIELD PLUS A STEADY SOIL IMPROVEMENT OVER THE YEARS!

**FOUR LEAF POWDERED ROCK PHOSPHATE**

Check the advantages of phosphorus in the powdered rock phosphate form. No burning or other crop damage.

1. Won't leach out of the soil. 2. Save phosphorus per quart. 3. Permanent soil benefits. 4. Less leaching of grain. 5. Improved root development. 6. Bigger profit per dollar invested. 7. No burning or other crop damage. 8. Spread Four Leaf now on alfalfa or clover or on fields you'll seed to alfalfa or clover.

Much the same is true of limas: the fancy sort, Fordhook completely suspends when dry weather comes, but the special dry-season variety, Fordhook's 242, goes on bearing. There are, of course, the old reliables — Henderson Bush Lima and Carolina Sissy — and Jubber Pole Lima, but they are small-seeded, tedious to shell.

The "242" and the special bush sorts just named may not be obtainable everywhere, especially, but at least two Kentucky seedsmen do handle them, whose addresses will be given on request.

The melon crops are cucumbers, cantaloupes, watermelons and the squashes, all "warm" crops, whose starting must be delayed until the ground has got a definite early warmth; the "official" date lies between May 1 and May 10, depending on latitude.

In a garden fertilized as outlined here several weeks ago, they should do well; but the hills should be made over a small amount of stable manure with which several table-spoons of superphosphate has been mixed, or a like amount of high grade fertilizer, where manure cannot be had, this for a quick start.

The melon crops differ in the spacing of the hills, depending on the size of the vines. Watermelons should have 8 feet by 8 feet, cantaloupes, 42 inches by 42 inches, up to 5 feet square bush squash, 36 inches by 36 inches; "running" squash, up to 5 feet square; cucumbers, 4

Window Treatments in Home Pay Big Dividends in Cheer

By Erta Haley

WHAT else that costs so little and still means so much can you do for a room than redecorate your windows?

You can achieve an absolutely new room with window treatments of various kinds, and if you have a lot of remnants plus imagination, you actually can redecorate with just windows alone.

If you can't embark on redecorating in a big way, why not try drapery or ruffle will do. Or, re-dye some of your sheers for the kitchen or bedroom.

Take a critical look at the windows in your home and ask yourself these questions:

- 1. Do the curtains or draperies flatter the window and room? 2. Do they darken the light room or lighten the dark room? 3. Is the color flattering to the room and its contents? 4. Is the style in keeping with the general effect?

Draperies Will Provide Cheery Effect to Room

Draperies may be used in kitchen, bedroom, living room, sun porch or an informal sitting room.

Place curtains over bed... The window—add a narrow ruffle to the top of the window either in the same material and color as the curtains or in a contrasting solid or print of cotton, rayon or silk.

Make Pretty Windows With Feed Sacks Feed sacks, if dyed and pressed carefully, may be used for playrooms, children's rooms, bathroom or kitchen.

One way to do this is to dye them and stitch together for the necessary length, placing a ruffle at each end.

Another way is to dye them in several colors for a rainbow effect and seam together. Kill rats with STEARNS' RAT RODENTICIDE PASTE.

Here's a good idea for the living or dining room. If you have venetian blinds, dye the tapes a light color.

A dramatic effect can be achieved by dyeing the tapes in two colors. To do this, run basting stitches across the width of the curtain, dividing into four sections.

Two new ideas are described in the outfit here. High color contrast and a revival of the long dress coat are very new.

Next it was Stalin's turn to flash a diamond-studded cigarette case and a diamond-studded cigarette.

At Winston Churchill's case and offered the conferring statesman a cigarette.

Casual Gloves

While in always right for spring gloves and this year, white gloves are being shown as the style for casual and street wear.

Wearing a pair bowler and white "flick," this young lady completes her costume with white, fingerless pigskin gloves.

For the third fourth of the dye, keep the two top sections of the dye. Add the remaining dye for just the bottom section.

For some time our chief worry in production of atomic energy was the fact that the uranium ore found outside the United States.

Further details regarding this operation must remain a military secret—the exact nature of the work revealed. So far, the Navajos have received one penny for the uranium taken from their land.

For one thing, uranium does not exist in its pure form on the reservation but must be extracted as a by-product from vanadium.

Washington Merry-Go-Round

Britain Will Fight Reds: ONE ALL-IMPORTANT QUESTION debated by war chiefs during recent defense discussions was whether Great Britain would throw its weight with the U. S. in case of a Red army sweep across Europe.

It is no secret that there has been long-standing agreement between Britain and the United States for fitting out the next war. Five years of buzz-bombs and living in air-raid shelters have made a lot of Britblers feel that neutrality may be the best policy.

Incidentally this opinion is also widely held by many Frenchmen, Belgians, Dutch and other continentalers.

The answer to this question was all-important to U. S. defense planners. They had to figure out in advance whether the United States would be able to have air bases near the European continent.

However, definite word has now been given the United States by the British government that, if British bases will be available to American bombers.

Verstille homemakers keep supplies on hand to prepare tasty refreshments for unexpected friends who may drop in for a visit or after a game of bowling or golf.

It's well to keep the coffee jar stocked for just such occasions. Another idea is to keep packaged ice cream in the freezer compartment of the refrigerator or the home freezer and your problem of what to serve is solved.

A large bowl of milk punch with fresh fruit is a good idea. It's tempting and satisfying drink to serve for a large crowd.

What about those easy to bake cookies at the last minute? Yes, refrigerator cookies are wonderful made just before serving because they take less than a quarter of an hour to bake.

Butler Scotch Refrigerator Cookies (Makes 12 dozen) 1 quart chocolate ice cream, chilled 1/2 cup butter, softened 1/2 cup whipping cream 1/2 teaspoon vanilla extract 1/2 cup brown sugar 1 egg, well beaten 1 teaspoon vanilla extract 1/2 cup sifted flour 1/2 teaspoon salt 1/2 cup shortening or butter 1/2 cup sifted flour 1/2 cup brown sugar 1 egg, well beaten 1 teaspoon vanilla extract 1/2 cup sifted flour 1/2 teaspoon salt

# POWER 3 WAYS with the UNIVERSAL 'Jeep'

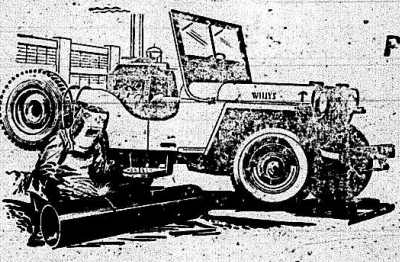

### PULLING POWER

The 4-wheel-drive Universal "Jeep" operates on or off the road as tractor or tow truck—pulls braked loads of 5,500 lbs., with reserve for steep grades and heavy going. Choice of six forward speeds gives correct gear ratio for every load and road condition.

### HAULING POWER

The 4-wheel-drive Universal "Jeep" is unsurpassed for rugged, off-the-road service and tough hauling jobs that require maximum traction and maneuverability. It needs no road, but gets men and tools through to hard-to-reach places where conventional vehicles cannot go.

### PORTABLE POWER

The Universal "Jeep" takes power wherever you need it, with optional power take-off that delivers up to 30 hp for on-the-job operation of all kinds of equipment, including welders, air compressors, generators, pumps, buzz saws and paint sprayers.

### RECIPES OF THE WEEK

A thrifty way to make use of bits of leftover baked ham is in a soufflé, a simple dish to make when a thick white sauce is used as the base, said Miss Florence Inlay, foods specialist of the College of Agriculture and Home Economics University of Kentucky.

**Ham Soufflé:**

- 2 cups ground cooked ham
- 2 tablespoons butter or margarine
- 4 tablespoons flour
- 1 cup milk
- 1 teaspoon pepper
- 3 eggs
- 1/2 cup parsley

Make a thick white sauce by melting fat, adding flour and pouring in milk stirring in milk slowly. Cook until thick. This is the base. Add the ham and parsley ground ham and melted fat in a separate dish and beat until stiff. Bake in 7x9 inch loaf pan. This soufflé bakes in 45 minutes.

Much ham could be salvaged and used in this soufflé and other dishes.
