All in a Name
A Scotsman went into a telegraph office to send a wire, and was told that he had to pay for his message, but that his name went free. He thought is over for a while, but then said in a broad Scottish accent: "Ye may or may no think it, but I'm an Indian, and my name is 'I won't be home till Saturday.'"

Fire Destroys Home Of Mullins Family

A devastating fire of unknown origin Tuesday afternoon about 3 o'clock completely destroyed the home of Mr. and Mrs. John Mullins, Sr., at Renfro Valley.

Mr. and Mrs. Louis Kelsey also made their home in this residence and their furniture and all personal belongings as well as the contents of the Mullins family were destroyed.

No one was present when the fire broke out, the entire family having gone to Renfro Lodge which they operate here. The fire was first discovered by Jesse (Pappy) Fish who lives across the highway.

Personal property value was estimated at over \$10,000. The property was partly covered by insurance.

County Agents Note

More Dairy Stock - 43 head of dairy heifers from the Mt. Vernon Thursday, March 18. These heifers were purchased by farmers, veta farmers and total amount \$200. This makes a total of near 200 dairy animals shipped, in from Wisconsin, in the past two years.

Our improved pastures, production of more and better feeding hay, better breeding, feeding and management have produced a total of \$375,000 income in 1948.

Within the next 5 to 8 years, if our dairy program continues we will have a cash income of over \$1,000,000. This is a dairy county with great possibilities.

4-H Beef Calf Project - Last Wednesday March 16, a group of Dads and 4-H boys met at the county Agent Office at Mt. Vernon and made plans for the second 4-H beef calf show and sale at Lexington next October.

Mr. Ray Hopper, 4-H beef calf advisor and Mr. Boyd Wheeler, Assistant State 4-H leader, advised the boys on the 4-H boys and Dads on feeding, handling, showing and sale of these fat beef calves next fall. Each boy will be earned how to make a rope halter.

The following boys have enrolled in this special 4-H fat beef calf show and sale: Robert Turner, Little Rock Club; Teddy Brock, Little Rock Club; John Holbrook, Oak Hill Club; Otis Noe, Mt. Vernon Club; Billy Wolfe, Wildie Club; Billy Bullen, Jr., Wildie Club; Donald Gentry, Owens Club; Leroy Brown, Owens Club; Jesse Holbrook, Oak Hill Club; Everett Bullock, Mt. Vernon Club; Herbert Richmond, Owens Club; and James Sower, Oak Hill Club.

WEST MAIN STREET HOLINESS CHURCH

(By G. W. Murphy) Will you who read this, please read Matt. 5: 23, 24 before we finish this?

There is something to do before we kneel down to pray in our closet, or begin our worship in the church, preach, or the Lord's supper. There ought to be a look inward to our own hearts before the look upward at the face of God.

Are we ready to pray? Are we ready to look inward to our own hearts before the look upward at the face of God? Are we ready to pray? Are we ready to look inward to our own hearts before the look upward at the face of God?

He was known far and wide and will be sadly missed by all who knew him.

He and his wife, Alice Jones Mize, would have celebrated their golden wedding this fall. To this union five children were born. Four sons, Reece, of Billows, Emmitt, Cincinnati, and Shelby, of Billows remain with their mother to mourn his passing. He also leaves one sister, Mrs. Haile Busto of Livingston, and one brother, children Mize of London, 7 grandchildren and a host of other relatives and friends.

His daughter, Hilba, preceded him in death 15 years ago.

Funeral services were in charge of Rev. Killis Jones of Bernstadt, Ky., at 10 a.m. Friday. He was laid to rest in the Home Cemetery.

Mr. and Mrs. Thomas B. Scott, Cabana, a son, Carl Gene, Feb. 19, 1949.

WORLD SPECULATES ON PREMIER STALIN'S PLANS

Out of the writer of world speculation on the significance of Russia's naming Andrei V. Vishinskiy as foreign minister-replacing Vyacheslav M. Molotov... The British appeared most confident of their interpretation.

STALIN'S MAN

Information from London was to the effect that the opinion apparently is based on reports which British Ambassador Sir Maurice Peterson had sent from Moscow. They said Peterson was expecting any change in Russian foreign policy as a result of Molotov's resignation.

All these diplomats agreed that Stalin would remain the No. 1 man in Russia even if he should quit the post of prime minister. His supreme position, they speculated, would be maintained by the Communist party secretary general and politburo member.

SECURITY FOR SERVANTS

President Truman's program to extend federal control over the employment of an additional 20 million persons will not slide through the house ways and means committee as they did the bill to extend reciprocal-trade agreements.

RENT CONTROL

With the continuing upsurge of business in the senate because of a filibuster on a rules procedure, control has been racing against the clock in the matter of rent controls.

OLD AGE BENEFITS

On the other hand increasing social security benefits will definitely be approved. However, congress will throw out the benefit payment (up to 20 weeks) and extend extended disability. Too many people, the congressman think, would get sick on purpose.

BUREAUCRATS DUG SNOW

The army did a great job in feeding snowbound civilians and cattle along western mountain ranges. Civilian agencies did equal pioneering jobs with no credit at all—the superior department's big and larger management and agricultural department's forest service.

MEXICO

Mexico had retained the animosity of the old exploitation days was over, and American interests were to set up again in the oil business "south of the border."

How 'The Bronx' Got That Name

"The Bronx" was formerly a district comprising several townships in Westchester county, New York, and received its name from an early settler of the area.

Joe Bonomo arrived in this country in 1838. It is uncertain whether he was Dutch, Swedish or Danish—but he was a "plow Lutharian." In 1848 he bought about 500 acres in the vicinity which bears his name and which later was the birthplace of Governor Morris of Revolutionary fame.

"The Bronx" became one of the five boroughs of New York City in 1898 and, since 1914, the borough of Bronx and the county of Bronx have been coterminous.

WOMAN'S WORLD Always Give Closest Attention To Details During Home Sewing

By Erta Haley

Classic Suit

"I can cut, baste and fit my clothes," says an amateur seamstress, "but something's wrong with the fit of my sleeve pattern. How can I remedy these things?"

Details of completing a garment frequently offer a problem to those who have just begun to sew.

One of the main difficulties comes in fitting sleeves. There is easy to understand because there are three places for most sleeves to fit: the shoulder where the sleeve joins the garment...

If you are using a pattern, you may be certain that the sleeve will fit the armhole, as this has been pre-constructed.

Fabric combinations, which are one of this season's fashion highlights, are shown in this classic suit with the jacket as sleeve's bird's-eye striped with a plain silk gabardine skirt.

Pattern on the straight fabric grain. Cut the whole pattern, but partition the sleeve when you are at leisure and at ease.

On long sleeves, either the three-quarter or full length, you will note fitting the sleeve requires a certain amount of precision.

On long sleeves, either the three-quarter or full length, you will note fitting the sleeve requires a certain amount of precision.

The large triangles are used for woollens and some of the stiff, heavy silk and rayon materials.

Amateurs frequently feel it is easier to sew the waistline and then follow by joining the side seams.

On some dresses which require a stiff waist, there may be an inner belt to keep the waistline firm.

Let these Tips Guide - When Making Pockets! Pockets are not hard to make, and they frequently add value as well as decoration to the garment.

Improvement of Land Cuts Production Cost Margin Between Return, Expenses Is Narrowing

Higher production costs now biting deeper into farm profits emphasize the need for farmers to get their land in shape to produce more bushels at lower unit costs per acre.

The margin between what a farmer gets for his crops and what it costs him to produce them is narrowing steadily. Commodities used

in farm production have more than doubled in price since 1938. Prices of grain and field crops have declined steadily since early 1948.

The committee declared that "greater crop producing efficiency is the answer to lower farm prices and higher production costs."

Crop production can be increased by "put back" soil management methods and "holding" operations.

"Holding" operations can include contouring, grass waterways and terracing where necessary.

Wire Recorder Check

When a pure-bred white Golden Plover climbs into a nest on the Halsdorf and Nelson breeding farm at Kirkland, Wash., it is in its own way, making poultry history.

Use of the recorder has resulted in huge saving of time and money, and records have never been so accurate, according to Art Halsdorf, who with his wife, Mary, and the Nelson brothers, Bert and Clifford, operate the farm.

It was Art's brainchild to use the recorder in "running traps" which can affect the fertility of which ones are laying and which ones are "lying."

Delicious Cookies

MOUTH WATERING while they bake, mouth-melting when you take them, that's the way we like our cookies! Remember, too, you should always have them on hand if you want to keep the family happy or for on-the-spot entertaining.

With youngsters raiding the cookie jar, it's sometimes hard to get it filled, so bake in large quantity. If you re-use the cookie jar for entertaining, make two or three of your best varieties and pack them in those attractive tin, be-waxed paper, and serve right from the tin. They'll be pretty enough.

Bang's Disease
A fight on Bang's Disease
has all ready started in Roc-
kcastle County. The farmers in
the Brodhead section are to be
congratulated on the work they
are doing in having their cattle
tested and vaccinated.

At a meeting of the County
Agricultural Extension Com-

County Agent was asked to
start an educational campaign,
throughout the county, to in-
form the people of what to do
and how to control Bang's
Disease. The County Agent ap-
pointed Wayne Stewart, of

MOTHER'S LITTLE HELPERS!

...to wash the **AUTOMATIC ELECTRIC WAY!**

Yes, even little sister can do the washing with an automatic electric washer.

She simply puts in the soiled clothes and soap, sets the controls and the washer does the rest. All by itself, it cleans the clothes thoroughly, triple rinses them in clean water and spins them damp dry. It even drains itself and shuts itself off when the clothes are ready for the line.

You'll be amazed at how easy it is to wash with an automatic electric washer. And it costs so little to operate that a few cents worth of electricity will do an entire week's washing. Ask for a demonstration today!

RILED ABOUT HARRY'S DIG AT PRESS-

Truman Chided for His 'Newspaper Stand'

ELMER WRITES HIM AN OPEN LETTER

By H. L. PHILLIPS

LETTER FOR SPECIAL DELIVERY

Hon. Harry S. Truman, Washington, D.C. Dear Mr. President:

didn't like it, thick or old, Harry would be complaining...

"There are no full-page ads for our side," you say in taking a dig at the press...

opposition to your policies or acts in a year, if stacked end on end, would be comparable to the thousands of pages which the American newspapers have devoted to you in reporting your speeches and your programs.

paper. No newspaper can misrepresent things long and survive.

The press is one of America's great institutions, Harry. It is mighty important to the American system. It is important to the Democratic party, the Republican party and any other party.

Few friends in history have had a friendlier press. The mole of kindness to be found, even in the criticisms. The newspapers go to great expense to give you every news item.

At work or at play you get a million columns of newspaper space and any honest publicity expert that the advertising industry and that all the dough your opponents could lay a hand on wouldn't be enough to get that much space for their views.

"Selfish interests are on the job year in and year out, seven days a week and 24 hours a day. They work through the editorial boards, the columnists and the commentators they control," you assert.

Well, Harry, may the press of America never be as unfair to you as you are to the press when it makes a crack like that.

Cuff Stuffs

Walter Donnelly, slated as the new undersecretary of state in charge of South American affairs, was the work in the circulation department of the New Haven Register back home.

The youth of any political party cannot be ignored, but the oldsters, because of greater experience, if honest, are the better guides.

The Test. I CANNOT understand why he doesn't get on as coming no our door. So often he's turned me away. But oh, well, he's never the great guy here. And Lazaro died! He knew the great guy here. And then he came and all was well again. And then he will come to us as the case then.

took Bill along. A stage career followed; came the depression, and he helped his mother and brother run a stationery store, perfect preparation for the setting of his radio show.

Jerry Hauner just returned from a three months' tour of Europe; visited almost every country on the continent. His first radio assignment when he returned—playing the part of a dog and a used-car salesman on "The Great Guilds."

Rudd Weatherwax arrived at NBC the other day all white and shaking. "This other car bumped my station wagon and threw Lassie off the seat onto the floor," he explained. "I rushed to look at the dog, of course; didn't pay any attention to damage on the car. It's beginning to dawn on me that I told the other guy it was my fault!" Lassie can easily pay the damages.

William Wyler, producer-director of Paramount's "The Heiress," watched part of World War I from his front yard as a boy; he lived in Mulhouse, France, a battleground. But he got into the last war, in the air force.

The FICTION Corner

HE STOOD outside his uncle's room, and as he listened for a brief moment, the room's history coming from within, his features became distorted by some sinister emotion. For the physical world within the room, his uncle stood between him and his inheritance.

3-Minute Fiction

Alex edged toward the desk in which the gun would be. He opened the drawer, felt the brittle coldness of steel. He swept about to Jason Stoneleigh, and the gun was in his hand. "You miserable wretch," he uttered, "I won't have to wait a day longer."

A MOMENT later, with detached calm, Alex wiped the gun clean of his own fingerprints, and then placed the weapon in the murdered man's hand. He took one last glance about the room assuring himself there was no trace of evidence.

THE LAST CRY By NORMAN FREILICH

his fears, realizing, of course, that this would be the only a genuine investigation. Surely nothing could go wrong. He hastened into his clothes.

The doctor stepped toward Alex, his face stern, almost menacing. "I can only tell them the truth, Alex."

"Surely? You're certain it was suicide?" The question was hurled roughly at him.

Panjo gripped him, and his eyes flashed desperately to Doctor Phelps. "Surely, Doctor Phelps, you can tell them how absurd it is to think otherwise. You can tell them of my uncle's brooding over his ill-health."

"Yes, the truth," Alex pleaded. "My uncle suffered a stroke a week ago—and the gun which killed Jason Stoneleigh was found in his right hand—the doctor passed—and that hand and the whole arm were paralyzed."

The Race Question

Lesson for March 27, 1949. JESUS DID NOT Know That there was a race question. That is to say, there was a question for him, though he well knew that his neighbors would find the race problem a hot one.

Two Sides of the Question. "JESUS' time the Jew of Palestine was in the middle. The Romans, having conquered the land, were top-dog in Palestine. With the Romans, the Jews saw the under-side of the race question. But there were other races, much less pure than the Jews, races called 'canaanites' for want of a better name. These people were kicked around by the Jews, just as the Jews in turn were kicked around by the Romans. Looking at the Canaanites, the Jews saw the race question from the top side.

In Palestine the wounds of race quarrels were made worse by the vicissitudes of religious differences. In those days it was taken for granted: Different race, different religion. Jesus' neighbors and relatives in Nazareth, like most Jews, supposed that God would favor only the "chosen people," namely themselves. So the Jew's resentment toward the Romans above him and his contempt of the Canaanites beneath him were made more bitter by his conviction that they would all end in hell except his own race.

What Jesus Did About It. THE TWO STORIES in our lesson (see the Scripture references) show the astonishingly simple way in which Jesus walked through those walls as if they did not exist. He passed no resolutions, denounced nobody; he simply treated all races alike. He helped the Roman army officer and the Canaanite woman precisely as if they had been Jews. (By the way, his remarks to that woman should not be misunderstood as rude. She did not take them that way. He spoke to her, we say well believe, with a smile, and she took him with equal good humor.) Jesus appreciated faith wherever he found it.

He was the last person to fancy that all human beings are alike. But he was the first to give all an equal chance. He took people as human beings, not as "Romans" or "Canaanites."

He never cringed to the Romans nor bullied the Canaanites. He looked at all men and women with equal eyes, seeing not their skins nor their clothes, but their hearts.

What We Can Do. OUR NORTH AMERICA is also criss-crossed by walls of prejudice—racial, political and religious. In Canada (for example) there is the friction between Canadians of French and those of English or Scotch descent; in the United States (not by any means confined to the South) between Negroes and white people, or between Japanese and white people; between the "old stock" and recent immigrants; and so on. Those walls look pretty solid; but a Christian will find that if he follows Jesus' example he can walk right through them. Last winter a national interdenominational organization challenged its 28 million members and through the Christian world, with one of the most sweeping declarations of human rights ever drafted by an American church body.

Billing at every type of discrimination—racial, political, social, economic, religious—the group has challenged and exhorted to work for the creation of a non-segregated society "as proof of their sincerity."

Yet the real breakdown of human prejudices, hatreds and contentions with the injustices growing out of these, does not come at one stroke by resolutions. It comes only by degrees, as Christians and others also make their own bright doorways.

Albino Horses. While cases of albino horses are known, ordinary white horses are not born white. Horses of certain colors, particularly dappled grays, become lighter as they grow older—until they become pure white. Such horses do not give birth to white colts which are so rare that they are virtually unknown. Many Arabian horses are light gray at birth and become pure white at the age of four or five years.

Ben-Gay acts fast where you hurt.

QUICK! RUB IN Ben-Gay. THE TWO STORIES in our lesson (see the Scripture references) show the astonishingly simple way in which Jesus walked through those walls as if they did not exist.

The 9 lives of a cat. SHAKESPEARE MENTIONS THE NINE LIVES OF A CAT IN "ROMEO AND JULIET." TRAIT: "WHAT WOULDST THOU HAVE MEET? MERCUTIO: "GOOD KING OF CATS NOTHING BUT ONE OF YOUR NINE LIVES."

BUT. EVEN TWO THOUSAND YEARS BEFORE SHAKESPEARE, A WRITER OF FABLES IN INDIA SAID ABOUT CATS: "IT WAS BEEN THE PROVIDENCE OF NATURE TO GIVE THIS CREATURE NINE LIVES INSTEAD OF ONE."

EVEREADY. JUST AS AN AGING CAT TAKES A CAT NAP AND BOUNCES BACK WITH NEW PEEL... SO EVEREADY BATTERIES BOUNCE BACK FOR EXTRA LIFE... ALWAYS INSIST ON EVEREADY BATTERIES... FOR GREATER LIGHT AND LONGER LIFE IN YOUR FLASHLIGHT! THE FLASHLIGHT BATTERY WITH "NINE LIVES" recovers power between uses!
