IN MEMORY - In loving memory of our dear grandfather, George W. Frederick, who passed away April 4, 1943. Time speeds on six years have passed since death its gloom, its shadows, cast within our home, where all seemed bright and took from us a shining light. We miss that light and love still. Your vacant place there is none to fill. Down here we mourn but not in vain for up in Heaven we'll meet again. Sadly missed by your grandchildren, nieces and nephews.

IN MEMORY - In loving memory of my dearest husband, George W. Frederick, Sr. who passed away April 4, 1943. Why did he go when life seemed fair and no dark clouds were near. At times when life could be sweeter and you could have lived your best more and more each day, I miss you. Friends may think the wound is healed but they little know the sorrow that lies within my heart concealed. I'm sad with a memory. Lonely my heart is today for the one I loved so dearly has forever been called away dear George. I think of you in silence, no eye may see me weep but many silent tears are shed when others are asleep. Lonesome widowed wife, Mrs. Maggie Frederick.

IN MEMORY - In loving memory of our dear father, George W. Frederick, Sr. who passed away April 4, 1943. Six years have passed and gone now, since father dear, you passed beyond. When the evening shades are falling, and we're sitting alone, in our hearts there comes a longing for you only God can come home. Often and often our thoughts do wander to your grave not far away, where we laid you dearest father just six years ago today. Our hearts are heavy, our thoughts are all of you "oh", how we miss you father dear, none but God in Heaven can see. Some say time heals an aching heart, but no, it isn't true for six long years have passed dear dad, and our hearts still aches for you. Sadly missed by your daughters and sons. Mrs. Joe Barber, Mrs. Otho Harper, Mrs. Louis Poff, Mrs. Tom Harville, Mr. William Frederick, Mr. Sam Frederick and Mr. Jim Frederick.

(Continued from page 1) CARTER FOR JUDGE - so as to make them passable the year around. I know we are making progress to this end and if the people help in the future as they have in the past three years we will have year round roads within a few years. Road building as everybody knows is a slow job, and you may not have a road right in front of your door, however I know that you are nearer one now than you were 3 years ago. If I am re-elected, I shall keep working to get passable roads all over the County. So one other thought I want to drop here is and I don't say this boastfully, did you know there never was or hasn't been one single mile of gravel road constructed in the County except when I was your County Judge. Think of this and see if you can name any road. As to my judicial duties, I don't believe any person will say I haven't acted honest, fair or impartial at any time while conducting a trial or in any other judicial matter. I am interested in our churches and schools but believe they should be kept beyond the confines of politics. I believe all school teachers and every citizen be he old age pensioner, blind man, beggar man, rich man or poor man should be permitted to vote his privilege without being dictated to by any man or set of men. Until that is accomplished this is not a free country. I intend to try to see all the voters before the election but if I do not see you please give my candidacy your consideration. Your servant, CHAS. C. CARTER

BILLY RIDDLE WINS SCHOLARSHIP TO EASTERN

Billy Riddle, who graduates from Brodhead in May, 1949, has just completed one of the most impressive records in basketball in the history of that school. Although he enjoyed an unusually successful season in 1947-1948, culminating in his being chosen both all-district and all-regional, he did not reach his peak until this season in which he scored a total of 440 points and try out for a game. However Billy's scoring did not adequately portray his basketball progress, for in addition to his scoring, he is a superb dribbler, an excellent passer, and an all around team general.

The Washington Merry-Go-Round

DREW PEARSON

Ferguson Jittery

G. O. P. Sen. Homer Ferguson must be getting jittery over his election probe back in Michigan at any rate something has thrown Homer's patience off its hinges.

The other day, the Michigan senator, supposed to be a great prosecutor and investigator, let it be known to the press that two years ago he had informed Attorney General Tom Clark about Judith Coplon, the justice department analyst recently caught handling government documents to a Russian diplomat in New York. The implication was that Clark had put his hands for two years while Miss Coplon got away with justice department secrets.

When Attorney General Clark heard of the Ferguson story, he was, to say the least, flabbergasted, and sent word to the senator that he would give him 15 minutes to take back his statement.

Ferguson was quick to reply. He sat down and wrote Clark a humble longhand note taking back what he had said. The senator's excuse was that he had been misquoted. He never had said he gave information about Judith Coplon to Clark, nor did he state that he had demanded a probe of the matter, Ferguson wrote the attorney general.

Next day the attorney general happened to be in the office of Hill calling on the chairman of the senate judiciary committee, Pat McCarran of Nevada. "Here's a letter that might interest you," remarked Senator McCarran, handing him a typewritten letter on the stationery of Senator Ferguson.

In the letter, Ferguson said exactly what the newspapers quoted him as saying the night before, and which he had denied to Clark. Two years ago, wrote the Michigan senator, he had given the information about Judith Coplon to Clark, and now he demanded an investigation. Furthermore, he put all this in black and white.

The attorney general read the letter with amusement. "Well, here's a letter he wrote me," he remarked, pulling out the handwritten note in which Ferguson said he had been misquoted. McCarran read the note, then observed:

"I thought there was something funny about Ferguson's phoning me last night. He wanted to know if I had received this letter. I had said: 'Well, don't give it out. It's confidential!'"

Silver Lobby Loves China

In a secret report to the senate foreign relations committee last week, Secretary of State Acheson bluntly announced that the Communists are complete masters of China and it would be folly to send more U.S. arms to the defeated Nationalists.

Acheson revealed that nine-tenths of the equipment already furnished by the United States has been surrendered to the Communists in the past few months. Today the Communists have the military power to march wherever they please in China—including the great cities where the Nationalists are still holding out, Acheson reported.

Meanwhile, the Nationalists are negotiating frantically for a coalition government with the Communists. The United States will do business with the new government, Acheson said, will depend on the Communists' attitude.

The secretary of state was called before the foreign relations committee to answer a petition, signed by 59 senators, demanding the aid of the Nationalists. Significantly, the petition was sponsored by Sen. Pat McCarran of Nevada, the silver lobbyist whose plan is to bolster the Nationalist economy—with silver.

Lobbying for Peace

Senate G. O. P. leader, Arthur Vandenberg, backed colleague Owen Brewster of Maine, and other liberals fled furiously for cave-dwellers and whippersnads:

"You'd better lay off that ECA fund to the Dutch that you've been raising such a fuss about. I just learned there's a lobbyist mix-up here being fighting ECA aid to the Netherlands on the ground that the money will be used to support armed imperialism in Indonesia."

"Listen, Arthur," grinned Brewster, "have you ever heard of legislation on any subject in congress, of major or minor importance, that doesn't have a lobbyist for or against it?"

Note: Peltus end many others have been talking to senators on the ground that a breakdown of the U.N. regarding the Korean means a serious undermining of the peace machinery of the world.

WEEKLY NEWS ANALYSIS

Price Reductions Clip Inflation: Rent Control Law Gives Authority To State Governors, Legislatures

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

PRICE DROP: Hits Inflation

American consumers were asking themselves "What does it mean?" Why were prices being slashed, the dollar stretching a little further? Was it simply that inflation had been clipped, or "was it true, as some have said, that the country is in the midst of a mild recession?"

THOSE QUESTIONS were well-founded. For, in the latest economic development, prices of automobiles, accessories, radios, refrigerators and ranges had been reduced.

Continued reductions in such basic commodities as lead, zinc, copper and steel meant that there might be further cuts in manufactured goods in the wild.

One automobile manufacturer announced cuts ranging from \$18 to \$33 in the price of his cars. The mid-season catalogue of the nation's biggest mail-order house announced "many price reductions in all lines." The catalogue was down—off three cents a quart in Philadelphia.

Radios showed the biggest drop. One nationally-known manufacturer announced price cuts of 20 to 50 per cent on nine home model sets. Auto batteries were lower in cost. A refrigerator in a 14-foot unit was knocked off \$20 from some of its models. Steel was down in scrap metal was the lowest price in almost two years.

WHATEVER ELSE entered into the picture, it was conceded that buyer resistance was one of the main items in the price reductions. The consumer had become more conscious of prices. There had been more hand-to-mouth buying. There was a feeling that prices would come down a bit.

Businessmen and industrialists agreed that the bloom is off the nose of the boom. That a healthy readjustment is underway.

SPEED PILOT: A New Record?

Joe De Bonis, by his own admission was a "scared boy."

And he had every reason to be. He had taken off from Burbank, Calif., in actor Jimmy Stewart's airplane to fix tests on a flight of 5-31 at 2:30:50 one morning, and exactly five hours later he was announced to have set a record for New York's La Guardia Field.

THE PLANE had a cracked cockpit canopy, dangerously low oil pressure, no oxygen, and gasoline for only seven more minutes of flying when De Bonis whistled into the airport at 60 miles per hour.

"I'll never try a record flight again," he said. "This was too nerve wracking."

Fred H. Wilkerson, official timer of the National Aeronautical association, said the NAA would like to decide whether De Bonis set a new cross-country record. He said the plane carried no barograph, a lack of instrument which shows elapsed time, and that the gasoline tanks were not sealed.

THE OFFICIAL coast-to-coast record is held by a Douglas C-47 plane which De Bonis flew six hours, seven minutes and five seconds, set by Paul Mantz on February 29, 1941. His flight averaged 401.078 miles per hour.

DEFENSE CHIEF: Has Big Job

Louis Johnson of West Virginia had taken on one of the biggest jobs in the world, and had added to the magnitude of the task when he accepted the post of chief of the Nationalists. Significantly, the petition was sponsored by Sen. Pat McCarran of Nevada, the silver lobbyist whose plan is to bolster the Nationalist economy—with silver.

WELL, JOHNSON, in taking over several months ago as chief of the army whose job it would be to unify the armed services, but his predecessor, James V. Forrestal, retired, the previous chief of staff, hadn't been able to do it.

The fact was that jealousy between the services made it practically impossible to implement a congressional unifying the army, navy and air corps. However, it was said Johnson would come closer to it than anyone else probably could. It was reported he was ready to adopt a "rough" policy to brass hats in all the services and by using military force, he probably had it about.

FORRESTAL: Medol From Harry

James V. Forrestal, retiring secretary of defense, received a surprise when he called at the White House to say goodbye to President Harry S. Truman. Forrestal said he planned the Distinguished Service Medal on Forrestal's coat.

The citation read that Forrestal had "materially advanced the security of the United States by his service in that it was 'beyond me' how he merited it."

New Senator

One of the nation's foremost educators, Dr. Frank P. Graham has been appointed U.S. senator from North Carolina to succeed the late Sen. J. Melville Broughton. Dr. Graham was president of the University of North Carolina.

Truman associates said that if other means fail, they expect the President to urge Millard Tydings, Maryland, the committee chairman of the committee blacklisting Wall Street, to take the lead in a fight to reelect the committee of consideration of the nomination.

SEN. WARREN G. MAGNUSON (D., Wash.) said he thought there was a possibility that some members of the committee might be persuaded to let the nomination go before the senate, although with an unfavorable report.

TRUMAN: Still Adherent

President Harry Truman was nothing if not stubborn. Rebuffed by the senate armed services committee on his appointment of Mon C. Wallgren to head up the national security resources board, Mr. Truman has served notice the fight is not over.

DESPITE THE FACT that senate policy and tradition seldom has taken such a martar to the floor after committee disapproval, it was understood that Mr. Truman was planning to have the issue taken before the committee and fought out on the floor of the senate. Such procedure has been followed, but only rarely, as senate history shows.

The committee, in declining to approve the Wallgren appointment, stated its position was taken only because of its conviction that Mr. Wallgren was not fitted, either by experience or ability, to hold down the vital key post in the national defense.

4-H Clubber Takes Fox-Trapping Crown

New York State Rates Raymond Premur Best

The title of New York's fox-trapping champion for 1948 is held by Raymond Premur, of Gorham in Ontario county.

The youthful 4-H club member led the list of 800 trappers from 23 counties with total catch of 50 during the year. Second honors went to Gene Gage, of RFD 1, Canandaigua, who trapped 42. Tied for third with 34 foxes apiece were Russell Kilian, of Cowlsville, and William Smith, Jr., of Amherst.

Granland Rice is "Cousin"

A Year Ago a bustling second baseman by the name of Eddie Stanky

Stanky did the Brooklyn management for an increased strike or paycheck. Brother Ricker promptly traded him to the Braves and there by helped move the same Braves into first place.

Stanky did more than his share in whipping Al Dark, a fast, intelligent, natural ballplayer into permanent form before Eddie Stanky hurt. The Braves left the Stankyles Dodgers far in the rut.

There is now a chance that Branch Rickey is pulling a repeater. He is on Granland Rice his way to being "Cousin." Some time back, Rickey sold another Dodger star, Pete Reiser, to the same Braves. Reiser is jubilant. So is Southworth.

Reiser told me the other day, "My legs are fine again—and so is my arm. I'm running into no more walls. I'm up to full weight—160 pounds." It might be noted that Reiser was only 30 years of age on St. Patrick's day, sharing this date with Bobby Jones.

Reiser is in his prime. I saw him play third in a recent spring training game and make four baseline throws to first, even rocking the stalwart first baseman, Earl Torgeson. Pete was burning the ball across.

I have big plans for Reiser," Southworth told me. "I can't see him arm is O.K. I'm not worried about his legs or health. He is not only a fine ballplayer, but a great hitter. Other awards totaling about \$2500 in value were presented other trappers and pelt preparation winners.

Some 50 county trapping champions were honored at the banquet which brought the 1948 season to a close. Agricultural and conservation officials and adult professional trappers attended the ceremony and watched the presentation of awards.

Premur, the state champion, received a repeating shotgun as top prize. Other awards totaling about \$2500 in value were presented other trappers and pelt preparation winners.

FIRST AID to the AILING HOUSE

By Roger C. Whitman

QUESTION: My mother's two-family brick house is 36 years old. The tenant on the second floor complained that the front room was filled with smoke. The chimney from the furnace goes through this room. My mother will not have the furnace fixed to clear up the smoke. Later, when a new fire was started, she noticed smoke seeping through the brick on the outside of the building. Do you consider this dangerous?

ANSWER: It may be a serious fire hazard. Your mother should engage the services of a competent mason as soon as possible. Evidently the mortar in the brick-work of the chimney has disintegrated to a point where it is now a fire hazard.

Blue Cross Hospital Plan

Stop and think . . . about Your next hospital bill. One family out of every three will have a hospital bill this year . . . and it may be you. For as little as 3 and one thirds cents per day you, too, can have BLUE CROSS protection.

ONLY BLUE CROSS can give such complete protection.

ONLY BLUE CROSS can give so much for so little.

Quail, Ky.

LOOK THIS WAY, LADY, FOR YOUR BIGGEST BARGAIN!

Yes, I'm talking about myself . . .

Since 1931, my average wage per hour has come down almost one-half. During the same period, my hours of work in the average home have doubled. So the average user of my services is getting about twice as much for his money now as in 1931.

Perhaps you haven't realized that my wages have come down that much. That's because you've been adding more and better lights and more appliances all along. Your monthly bill may have stayed about the same or even gone up some, but you're getting about twice as much for your money now, if yours is the average family.

And that's a real bargain any way you look at it.
