Parking Meters Unpopular With Most of Merchants

About thirty of the merchants, business and professional men of Mt. Vernon have this week voiced their opinion to The Signal on how they feel about the installation of parking meters on Main and Church streets.

Almost to a man they are emphatically against such installation of meters. Out of the thirty we found only one or two who thought they might benefit the town in direct revenue but at the same time indirectly become a handicap by discouraging shoppers from the country. A few said that it might encourage a few tourists to stop in Mt. Vernon, but eventually would do more harm than good because there would not be enough meters to handle the traffic.

Mrs. John Lunford is in Indianapolis, Ind., with his daughter, Mrs. Creed Russell and other relatives.

Miss Shirley Carson, Miss P. Hendrickson and Miss Bettie Lou Hodge were here from Eastern College, Richmond, over the week-end.

Red Devils Upset Strong Bush Team

The Mt. Vernon Red Devils, playing their best game of the season surprised the strong Bush team of Laurel County 46 to 48 on the home floor last Friday night.

The Red Devils were setting their block and driving in for lay-ups throughout the game. It was a close and hard fought game from start to finish with Mt. Vernon getting a 5 point lead with a minute to go which "Bush" couldn't overcome. The scoring for Mt. Vernon was evenly divided among the first five.

The inexperienced Red Devils were being improving after each game. The second semester and look to pull a few surprises in the district tournament.

Red Devils Defeat Crab Orchard Tuesday Night

Tuesday night the Red Devils won their third straight game by defeating Crab Orchard by a score of 40 to 23. Lowell Griffin was high point man with 15 points.

Devils Attend Eastern Game

Last Wednesday night Coach Laswell took the boys to Elizabethton to see the Eastern State Teachers College and the University of Dayton basketball game. All the boys enjoyed this very much.

Road Program Is Being Shaped Up

The county rural road program is being set up for the year 1950.

County Judge Carl Williams, Rep. James Lambert and County Atty. S. F. Bowman went to Frankfort Tuesday in the interest of the Rockcastle road budget and are making plans with the Rural Highway Department to begin and complete as many projects this year as possible.

The Hansford-Billows road will be built this summer, according to their report from Frankfort.

Broadhead Tigers Defeat Livingston Blue Devils

The "Blue Devils" of Livingston met the "Tigers" on Broadhead Road Wednesday night of last week in one of the fastest and most exciting games of the season with every effort from every teamman put forth with the scoreboard, as that of a pendulum. In the third quarter the Tigers took the lead. Blue Devils had it cinched but they soon lost control when the Tigers returned to the "floor" at the fourth quarter with a new vim and determination to win their last scheduled game on home floor a victory. Thus, they were blue when they came but light shades bluer when they left.

The score was 38 to 30 for the Tigers.

The second team game was also one of thrills with both teams playing well. The score was 38 to 38 in favor of the Tigers.

Boosters Club Organized; Will Have Give-Away Days

A representative group of Mt. Vernon retailers met in the conference room of the Bank of a Vermont Monday night for the purpose of organizing a non-profit, cooperating club designed to improve business conditions within the area and to bring more people to trade here.

L. D. Bryant was named president of the club. He will be known in the future as Mt. Vernon Boosters, a branch of the Rockcastle Chamber of Commerce, and M. M. Smock was elected secretary-treasurer. D. V. Hilton, Alex Milan and R. W. Griffin are the advisory committee. The club will be authorized to proceed with plans for a drawing of prizes each Saturday, beginning on Saturday, Feb. 11.

About twenty-five merchants present agreed to the plan of giving a ticket with each one dollar purchase made on their account in their plan of business (families of participating retailers barred) by popping of this trading area, the holder of any lucky ticket must be present at the drawing, otherwise that ticket will be voided and another one drawn. Besides the merchants entering the campaign Monday others are expected to join the group which will give tickets.

A promise has been made to shoppers in Mt. Vernon that they will receive prizes of real value and that there will be no "padding" of prizes by the Valley Folks. The High School Band and others.

Watch the Signal for advertising notices. Participating merchants offering special plans for trade days. The Signal will come to you in time for you to read these ads and decide on your Saturday and chase in Mt. Vernon. Be sure to ask for tickets.

The Washington Merry-Go-Round

DREW PEARSON

Something's Cooking

IT LOOKS like an explosion was brewing inside the Republican party.

A senator's, short plus troubled questions are portents of trouble.

The short came from that merry old soul of Republican conservatism, the delightful and brainy Eugene Milliken of Colorado, at an outraged gathering of minority senators.

Senator Milliken, an important looking man with a huge, bald head, flitted "Wah" and "merry-go-round" to grips hurled at the Republican national committee. Then he snarled: "The trouble with the national committee is that it is living in an antediluvian age."

Coming from millionaire Senator Milliken, this is extremely significant, yet it's typical of the reaction of the moderate Republicans to the high, wide and handsome campaign by the party's right wing against "modernism."

Another troubled question was raised recently by W. Johnston, conscientious man-of-all-work for the GOP congressional campaign committee. He inquired of Republican friends: "What can I tell my son? He wrote from college that he's considering leaving the Republican party because he thinks it does not offer anything for youth."

"Progressives" Advice Unheeded

Two "progressive" Republicans have answers, but so far they haven't been listened to. Scholarly Sen. Irving L. Benson of Michigan advises: "To attract the support essential to our success, we Republicans must stand for things we believe in and utter devastation for the welfare of all the people. The reactionaries are living in a dream world and can only destroy the Republic party at a time when there is a tragic need for an intelligent opposition to the 'Big Deal.'"

Similar advice comes from the young, hard-hitting Massachusetts senator, Henry Cabot Lodge, Jr., who says: "We need a positive program to win elections."

Other Rumbles

Other signs of the coming explosion are:

1. "WILD BILL" Langer, the bull-throated independent from North Dakota is expected to announce a senate restaurant when GOP leader Ken Wherry strolled by. The mere sight of Wherry aroused Langer to an angry outburst.
2. "They're trying to read me out of the party," he said, "and there goes one of the so-and-sos who'd like to do it. If I'll stand here, I've been stomping up and down North Dakota and the people don't want to go back to McKinley."

2. REPUBLICAN regulars in Oregon, backed up by interests and a \$150,000 campaign kitty, are preparing a 90-day "blitzkrieg" against progressive Sen. Wayne Morse in the primary.
3. LAST STRAW for many Republicans in congress was a demand that they buy blocks of tickets for the Lincoln day "supper" at the Uline arena in Washington. Senator Morse sent the tickets back with a note, "I cannot attend to spend this money. I need it in my own campaign, and I am quite sure I will not receive any financial support from the national committee."

Acidly commented Senator Lodge: "This is a new low from the high of Abraham Lincoln. There are too many big-time lobbyists mixed up in this affair. This is not the way to win confidence in the party."

NOTE - What GOP strategists seem to forget is that in order to win elections they have to woo away Democratic votes. It isn't enough merely to get the same number of Republican voters. The man most successful in winning Democratic votes has been Gov. Earl Warren of California, who, when last elected, had both the Democratic and the Republican nominations.

"Honest, Honey"

Vice-President Barkley was introducing his lovely wife around in the office of his good friend, Senate Secretary Les Biffle. The veep came to Biffle's secretary, bowed and said, "This is Mrs. Darling."

With a twinkle and wink at Mrs. Darling, Barkley said merrily, "That's her name, honest, honey."

Di Salle Is Corner

Mike Di Salle, vigorous young mayor of Toledo, is expected to lead the canon with a bang in the Ohio senatorial race. On the same day, announced Di Salle grabbed the recent support of Mayor Tom Burke of Cleveland.

Result will be a rough-and-tumble scrap for the Democratic nomination between Di Salle and the man made labor peace history with his Toledo management council, and "Jumpin' Joe" Ferguson, the state auditor.

WEEKLY NEWS ANALYSIS

Truman Announces U.S. Will Add Hydrogen Bomb to Arms Program; Major Housing Plan Is Envisioned

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Union's Editor and not necessarily of this newspaper.)

H-BOMBS: Time of Decision

One of the most important decisions in world history had been put up to Harry S. Truman. Should he order construction of the hydrogen bomb?

When a respectable period of deliberation, he did make up his mind, the President expressed his decision in the most matter-of-fact manner possible.

The U.S. would continue its development and production of all types of military weapons, including atomic armaments and the so-called hydrogen bomb. That statement, probably intentionally cryptic, may or may not have meant that the U.S. already has begun work on the H-bomb.

Only one thing was sure—it was a verily important decision, not only to Mr. Truman but to every person in the world.

IT WASN'T the cost of the bomb that was a poser, even though that was a factor, even though that was in the neighborhood of four billion dollars. "It wasn't a doubt as to whether it was worth the cost," he declared. It wasn't a hesitancy about its effect, for if an enemy decided to, "and could, construct the bomb, it would be on the part of the U.S. to make and test it would be justified."

No, it was none of these that weighed on the President's mind. It was the question of life and death, and even more, the question of the responsibility and the solemnity of the decision. Instead, it was the question of life and death, and even more, the question of the responsibility and the solemnity of the decision.

THE PREPONDERANCE OF

permanence was for those advocating the bomb. Sen. Millard Tydings (D., Md.) chairman of the armed services committee gave voice to what the majority of presidential advisers was thinking.

He urged that the U.S. proceed with manufacture of the H-bomb, declaring that failure to do so could invite attack. But President Truman was probably thinking of the lives and utter devastation, the incalculable deaths, the vast destruction which would be hurled upon enemy and innocent alike.

BROTHERHOOD: Renewed Effort

Brotherhood Week, sponsored by the National Conference of Christians and Jews, will be observed from February 19 to 26.

In accepting the honorary chairmanship of Brotherhood Week, President Truman urged "all Americans to ponder well the true meaning of brotherhood."

It is easily apparent that the \$8,000 house, the \$69 monthly payment and cost-of-living items would run the \$2,800-a-year man close to the edge, that he'd hardly have anything left for a pack of butts each week.

BROTHERHOOD WEEK

INSPIRED BY THE NATIONAL CONFERENCE OF CHRISTIANS AND JEWS

ing of brotherhood" adding that "there probably has never been a time in history when true brotherhood was so indispensable to the welfare of our own nation and to the peace and freedom of the entire world."

IN A SIMILAR VENEUE, former Secretary of the Navy John L. Sullivan, in a speech before the annual conference of the national organization, interpreted this year's event. "The big question today is whether the human spirit will remain free or whether it is to be enslaved by totalitarianism," Sullivan declared. "The dignity of man is on trial throughout the world," he continued, "and the fate of our civilization may well depend upon the outcome. It will survive only if the ideal of man's inalienable rights is acknowledged, respected and strengthened."

First established in 1934 by the National Conference of Christians and Jews, Brotherhood Week has been celebrated each year during the week of George Washington's birthday as a special period when the people of all faiths in the United States are invited to consider the United States and the conditions of good will among Protestants, Catholics and Jews.

In 1948, some 300 committees across the United States participated in Brotherhood Week events; in 1949 there were 800 committees.

In 1944 the number spiraled to 2,000. The figure today is impossible to estimate, according to Sullivan, so widespread is the desire of Americans of all faiths to demonstrate their loyalty to the basic ideals of respect for people and human rights which are essential to our way of life.

An object with growing community participation each year, Brotherhood Week dramatizes the practical things which people can do to promote understanding and realization of time-honored American principles.

Steel Defender

Benjamin Fairless, president of U.S. steel, testified before a verily important congressional committee in defense of the recent increases in the price of steel. He called the rise "moderate" and laid the blame largely on union pressures.

HOUSING: \$8,000 Units

Could the American individual afford to stretch a month's budget to pay \$8,000 for 11 Federal housing officials believe that to be a fair figure and Raymond M. Foley, housing administrator, explained to the house banking committee a bill for federal housing aid based on that premise.

Then he advocated he be thrown out of his job, particularly because, he suggested "certain labor-unions are monopolistic."

Words of warning are in evidence: one can become all things to all men, as viewpoint or strategy directs.

DEFENSE: A Contradiction

A "right confusion" seemed to be the chief thing which could be read into the first annual report by Defense Secretary Louis Johnson on the activities and findings of his department.

WITH one breath, Secretary Johnson warned that an attack on this country "could come from the opposite hemisphere without warning and with unpredictable fury."

In the next, he expressed belief that the prospect of war is diminishing despite the Russian attitude of belligerence.

Other than his further identification of America's first potential enemy, the secretary's report held little of excitement or import. It was encouraging to other nations. That conclusion would come as a comforting confirmation of the belief of many millions of Americans that a policy of armed strength at home is the best assurance against threats from abroad.

AFTER REPORTING on expenses of his department, military, diplomatic, activities, and other functions, the defense secretary declared his belief that he did not discount the damage done to unification of the armed services by the interservice controversies, he believes "that the extent of these conflicts has been exaggerated."

He also reported, parenthetically, that it was the Russian now has the secret of the atom bomb, a fact with which everyone in the U.S. is all too familiar for any degree of comfort.

HOMELESS: Break for DP's

An assessment of the present law which limits entry of displaced persons into the United States to 250,000 in the two-year period ending June 30, 1951, has been approved by the Senate Judiciary committee.

THE GROUP voted to permit 3,000 homeless, foreign-born to enter this country by June 30, 1951. This includes the approximately 124,000 who already have entered.

The committee voted by 10 to 3 to approve a bill which would make other changes, in the present DP law which President Truman shifted.

For example, it would shift the date by which displaced persons must have entered European DP camps to be eligible for entry into this country. The present law fixed the date for December, 1948. The bill which the committee approved would change that to January 1, 1949.

THE ACTION came on the eve of the date which the senate had ordered the committee to report out a DP bill.

The house bill has been approved by the committee over the protests of Chairman McCarran (D., Nev.), who was in Europe at the time. After the house floor the senate will set the measure back to committee.

New Post

Life Expectancy

Perhaps it's indistinctive, perhaps it's a little bit of a stretch, but it's all these added up to a readily apparent conception that U.S. policy is committed to a course which will be that he is "best defended who is best armed."

The question was: Would the complex military service have everything retained? The question was: Would power remained an intangible factor.

LABOR: Cry of 'Foul'

Labor is never so vocal as when it feels its own particular rights and privileges are being stepped on. This was evidenced by the cry of "foul" from the AFL leaders charged that Robert N. Demham, general counsel of the national labor relations board, was campaigning to apply the anti-trust laws to big labor unions.

IT ALWAYS has been puzzling to the average American why labor itself is not subject to some business industry encounter in their operations. The average American's sense of fair play—were no other factors involved—would cause him to puzzle over this.

Demham captivated himself into the AFL's bad graces in a speech before the American Trucking association. In that address, he singled out the AFL teamsters union with the truckers do business. He laid the teamsters' fault on the "unrestrained economic power" to paralyze the country with simultaneous trucking strikes over the nation.

DON ROBIN, president of the teamsters, and William Green, AFL president, contended that Demham's views were unfounded and pointed out that the teamsters have had no "serious strikes for several years" and none now of which they were "aware."

THE AFL council charged Demham with "unrestrained economic power" to paralyze the country with simultaneous trucking strikes over the nation.

Demham's views were unfounded and pointed out that the teamsters have had no "serious strikes for several years" and none now of which they were "aware."

The Slugging Sector

THOSE INTERESTED in the slugging side of baseball should now turn to the West coast. Ted Williams came up from San Diego but they have two youngsters in the habit of halting the Pacific's slope who may pick most of the laurel this new season. One is Ralph Kiner of the Pittsburgh Pirates and the other is Luke Easter with the Grandtland Rice Cleveland Indians.

It so happens that Kiner has passed the 50-home run mark twice. "Reaching the 50 mark is a different story," Ralph tells you. "Hank Greenberg and Jimmy Foxx found that out, and both could hit the ball a long way. Once you get into the 50 zone, I guess you begin to worry as the stats begin to run out. The Babe never bothered. He just kept swinging."

Kiner is still a young ballplayer. He should be able to better his years on ahead. He takes good care of his physical fitness and he has a most needed to strengthen his grip and wrists. His club bid fell apart last year and this didn't help him at all.

Actually no one thinks about beating the Babe's old mark of 60. It may happen some day as 58 has been tied twice in this year's play. It may happen on two occasions. Greenberg, Foxx, Hack Wilson and Kiner have been the four main challengers so far. Now Hank Greenberg enters Luke Easter, the San Diego Giant, as another likely challenger. Easter is around 300 feet four, and weighs some 240 pounds.

"Beyond that," Hank says, "he has what you might call a home run swing. I mean by that a full, free swing—the type that Babe had. I believe Easter can hit the ball as hard as Ruth did and drive it just as far. He may not be able to do it as often, but however, Easter will be a Cleveland rookie and you can't expect too much of him the first year. I believe his power will still win many a game for us and either bring Cleveland in as a pennant winner or at least as a contender for the pennant. You can't afford to crawl too far out on the end of a limb for a rookie, but I'll go quite a distance for Easter."

As Ted Williams and Joe DiMaggio are West coast entries, this gives the Pacific a big edge in long-distance wallpatters. They will have most of the crop. Give DiMaggio 130 games and he may outslug them all.

Big Coast Game

Red Blak's Army team is headed for the West coast next fall to start an "enlargement" with Stanford. They are already rating this one of the big games of the 1950 season. There's a pretty fair reason for this rating.

With Pollard, a Los Angeles product, playing in Army's backfield, the West coast experts figure Army will have one of the star backfielders this season. At least he made a big name in a hurry at Loyola, where he played only a year before heading for the far-away banks of the Hudson.

I've heard nothing but boasts for the ex-Loyola halfback. Add Pollard to the list. He's been in the team and you get one of the best backfielders Army ever sent into a football melee. You can always bank on Red Blak and his staff for a fast-charging, hard-hitting defensive play. So if the expected takes place, Army will again be having one of the strong teams of the country—possibly the strongest with so many veterans leaving Notre Dame.

"But don't figure the 1950 Stanford squad will be easy for anyone," a Stanford grad said when the discussion came up. "Marion Schwartz had a fine sophomore crop this last fall. All they needed was experience. They got plenty of it. Also I could say that Stanford's freshman team this last fall was the best in many years. Palo Alto will be backed with high-class football players. This should be the best Stanford team since Clark Shaughnessy turned out the bunch that beat the Frankie Albert & Co. It will be the best fast and tough. And by the time of the Army game it will be well seasoned."

Life Expectancy

Joe Louis and 1950

Just what plans Joe Louis has for the rest of 1950 is anybody's guess—including Joe's. But you can enter one sure answer—if Joe fights again, it will be a morbid spectacle that only the morbid in heart would care to see.

In recent months Louis has been working beyond exhibition purposes to get back in shape. He's been doing road work of fair proportions and a certain amount of gymnasium boxing.

WOMAN'S WORLD

Dressing Tables Can Be Center Of Interest in Bedroom or Bath

By Erita Haley

FORTUNATE IS THE WOMAN who has a dressing table in her bedroom or bath for here she can crimp to her heart's content in her own domain. As for decorations she can make her table frivolous as her mood, as sophisticated or demure as her personality, or as cheerful and pretty as the glasses.

In bedrooms, most of the decoration is centered on the bed itself, but if a change of scene is desired, the focal point can easily be changed to the dressing table. If you feel that something new is required, there is nothing easier or simpler than a new dressing table motif.

Lovely materials which are colorfast and pleasing are to be found in great abundance. Sewing is easy, and the time it takes to construct a drab and cheerless bedroom to a joy and pleasing one is simplicity itself.

The style of bedroom or bath usually dictates the decorative motif for the dressing table. In this is usually not too limiting since favorable effects are easily achieved without destroying balance or unity in the room.

If you're planning to re-do the dressing table, make construction changes if they're necessary. Instead of having just a table top for jewelry boxes and cosmetics, investigate to see if you can't put a

round the skirt goes just past the sides and ends where the table is fast against the wall. If the skirt is to be gathered or ruffled or pleated, you'll need to multiply the original measurement by two or two and one-half to get the proper fullness.

The second essential measurement is the length of the skirt from top to floor. To this, add the allowance for the hem or casing at the top.

for well-fitted skirts.

Two basic measurements are essential before buying the material. Measure around the table top so you will know the yardage. All skirts are not covered all the way

Be Smart!

Costume jewelry, so glittering and gay, is the current fashion craze. It is taking over so many new ideas. For example, there's the new rigid band, often in gold finish, made of gold and silver in keeping with winter have been turned into a scintillating waterfall on necklets, with the new necklaces coming your way soon.

Versatile Lamp

An inexpensive, portable lamp is now available to use whether you want to start getting your vitamin D or to relieve aching muscles. The lamp, weighing only 2 1/2 pounds travels easily and stores in a small space. Made of pressed steel and aluminum, it has a high intensity ultra-violet tube which can be used for 1,000 hours of service.

Remember, too, that where separate sections of the skirt meet, at the center front opening, the figure or pattern of the fabric, if any, should match.

For plain gathered skirts which are very popular, hem or finish the bottom edge as desired. A simple inch or half inch hem is used in many cases, while others have a tape attached to the skirt. The side edges should be finished with a plain hem that matches the bottom of the skirt. If it should have twilled tape stitched to the wrong side so it can be attached to the table in the easiest possible way.

Skirts may be attached to the table by tacking through the tape with simple thumb tacks or even carpet tacks. Another way is to use wood snappers.

Another good way to dress the table is to use a plain solid material as an underskirt. This may be hemmed and attached to the table. Over the solid material, use a gathered skirt of organdie, net or other sheer.

Swags or ribbon may be used to decorate the top edge of the table if desired. These should be tacked securely to the top edge with bias hemming stitches.

For other effects, box pleats are popular. Measure material to allow for generous pleats, finish the bottom with a hem and the top with tape as for the gathered skirt, after the pleats have been attached in.

There's no limit to the fabrics which may be used for dressing table skirts, but they should go well with the bedroom or bath feminine, informal bedrooms the flowered or glazed chintzes are popular, but a good advice might be made from one or two of the following: organdie, voile, Ninon, embroidered materials, gay gingham, nets or sheers such as curtain materials.

Fight for Freedom
 Lesson for February 19, 1950.
 THERE ARE TWO KINDS of problems with living things. One is the kind of problem caused by its growing too fast; the other is the problem caused by not growing fast enough. The early church had mostly the first kind of problem. At any rate it was taking in a lot of members whom the church fathers and Christians found strange. At first all Christians had been Jews; no one thought of anything else. But in Antioch, a city in the Mediterranean, the Christian churches were filling up with non-Jewish members, just as they are today.

HONDURAS TIMBER
 Longleaf yellow pine timbers squaring 20 by 20 inches and up to 28 feet long are being imported into Gulf ports from Honduras and Costa Rica. The U. S. forest service reports that Honduran forest products are being sold in bulk on board feet of this timber.

HAIR AMAZING RELIEF FROM CONSTIPATION
 "I suffered with constipation, but had medicines didn't help for long. Lucky for me, I decided to take ALL-BRAN my breakfast cereal. Believe me, I feel like a new man!" Sam Plesky, 10517 Churchhill, Cleveland, Ohio.

What Makes a Man A Christian?
 PAUL KNEW a real Christian when he saw one. So did Barnabas. And the two of them knew, right down in their souls, that they had seen real conversions, genuine changes of persons coming out of pagan darkness into Christian light, without being Jews at all, even for five seconds.

How They Settled It
 THE WAY that problem was settled is a model for all Christian churches with problems on their hands. First of all, the arguments were brought out into the open; it was not a whispering campaign. Second, it was settled after giving both sides plenty of opportunity for full discussion in public. Third, it was settled not informally but by a church council, a group of representatives from the church, by a simple majority vote of all church members indiscriminately. Fourth, it was settled (as the reader of Acts 15 may see) by appeal to fact and to Scripture.

Finally, once the leaders had made up their minds, the church at large accepted their decision promptly, without further hickering. This has been the pattern for the Christian church ever since, though alas! it has not always been followed.

There would have been fewer church splits if the example of the early church had been more seriously taken.

Faith and Obedience
 ESSENTIALLY, that first great church council decided on the side of Paul and Barnabas. But they did not throw the Old Testament away. The moral law was as good as it ever was. But the council showed, once and for all, that the line between a Christian faith and obedience to God is not a way of earning God's good-will. It is a grateful response to God's grace. And that makes all the difference.

There is just one doorway to the Father's love—the narrow way of faith. We do not have to keep the law of Moses, or any part of laws. First, we are saved BY obedience. We are not saved FROM obedience. But we are saved FOR obedience. Christian obedience to God is not a way of earning God's good-will. It is a grateful response to God's grace. And that makes all the difference.

WHAT'S IN A NAME?
 L. E. Kineman, Pastor
 Mt. Vernon Christian Church
 Many people inquire concerning the importance of the name we wear as followers of Christ and the name applied to His Church. There are some who feel that it makes little difference what name we wear or what name is given the Church, but does it make any difference? Names are used to

designate and differentiate between objects and persons. One way of distinguishing me from another person is by my name. One way of distinguishing a follower of Christ from a sinner is by the flame. The Disciples were told, were called Christians first at Antioch (Acts 11:26). The word in the original Greek is chrematizo. Dr. Adam Clarke, in his commentary, affirms that the word "signifies in the New Testament, to appoint, warn, or nominate, by divine direction." Thus, we would conclude that the Disciples were divinely named Christians to distinguish them from all other people. They were a "called out" group who were no longer identified with the world, but

followers of the Christ and bearing His name. Read also Acts 26:28, 29 and I Peter 4:15, 16 for further information on the accepted usage of the name. When we wear simply the name "Christian" we are honoring Christ and showing forth to the world that we are not ashamed of Him. The name we give to the Church is also important. Christ is the founder of His Church (Matt. 16:18); he is the head of the Church (Ephesians 1:22); and the Lord adds to the Church those that are being saved (Acts 2:47). The Church, being the Bride of Christ, should also wear the name He has appointed for her. The Scriptural names for the church are: "The Church of Christ," (Romans 16:16; Eph. 5:23), "Body of Christ," (Col. 1:24; Acts 4:12) and "The Church of God," (Acts 20:28; I Cor. 1:2; I Tim. 3:5), and Church of the Living God." (I Tim. 3:15).

HOLINESS UNTO THE LORD
 By G. W. Murphy
 How Thirsty Are You?
 The Apostle John said this in 7:37: "Jesus stood and cried, saying, if any man thirst, let come unto me and drink Jesus well knew that thirst is essential, and unless we get thirsty we do not drink. So many people, I believe people of faith, good honest old fashion folks, never receive the Good Baptism in the Holy Spirit, because there is little intensity and depth of desire; just not thirsty, have no fixed determination to have that which Jesus is so desirous of giving. "Let Him Come Unto Me." Let him come away from empty ritual, from formality in worship, from cold, heartless, more or less mechanical religious

motions. "Let Him Come Unto Me" When we desire (get thirsty) to be baptized in the Holy Ghost (Spirit) we ought, though everything else, to realize that we seek Him, that we put ourselves completely into the hands of the Baptizer. He will do the rest. Jesus did not say come and look at the water; come and analyze the water; come and admire the water; come and talk about "soaking" or come and critic the water. He said "Come And Drink." When a man gets desperately thirsty, he does not come to a drinking fountain and tarry around it or beg or plead for a drink; he simply drinks! And it is exactly this that my Lord tells all of us who do not want to be filled with the Holy Spirit. Jesus said in the very next verse (38) He that believeth in me, as the scripture has said, out of his belly shall flow rivers of living water. (39) (But this spake He of the Spirit which they that believe on him should receive; for the Holy Ghost was not yet given; because that Jesus was not yet glorified. I thank God for John who gave us this wonderful explanation about the Holy Ghost. On the day of Pentecost 120 believers were baptized; of Him received it, Acts 2:4 said they were filled, because they began to speak with other tongues as the Spirit gave them utterance. These were all Jews. Then in Acts 10:45—Because that on the Gentiles also were poured out the gift of the Holy Ghost. (How did they know?) (46) For they heard them speak with tongues, and magnify God. Now take you to where some Baptist disciples did some drinking. Acts 19: they 12 of them, in number received the Baptism. (How do you know?) The Holy Ghost came on them, they spake with tongues, and prophesied. Amen.

By Mrs. Okla Cox

J. F. Rose of Egon filled his appointment at 3 p.m. or a Christian Church Sunday. As usual not very many were present. We had one addition to the church, Mr. James Johnson. We are very glad to have him in our church.

We have had several cases of flu and tonsillitis in this community, largely among the children and the mumps are also slowly getting around.

Eugene Cox who has been very ill is much better at this writing.

Brutus Martin and Joe Martin, Jr., are just recovering from mumps.

Mr. and Mrs. Thomas-Ward of Berea visited homefolks of Three Links over the week-end.

Martin Cox has purchased a 47 Jeep to use on his father's farm this year.

Mr. and Mrs. J. H. Hayes of McKee were visiting in Three Links Saturday.

Mornie Owens and Joe Allen of Whitesburg attended church at Sycamore Sunday.

Eula Mae Dutton spent Sun-

day afternoon with Miss Kathleen Cox.

Mrs. Okla Cox visited her daughter Mrs. Dorothy Ward of Berea last Sunday afternoon.

CARD OF THANKS

We wish to express our sincere thanks and appreciation to all the friends and neighbors who were so kind and good during the sad hours of death of our beloved daughter and sister, Mrs. Mattie (Large) Hickey, who passed away Feb. 7, 1930. Also thank everyone for the beautiful flowers and especially Rev. W. A. Stokes, Rev. C. H. Philbeck and Rev. Garland for their comforting words of comfort. Again we say thank you each and every one who assisted in any way. Your kindness will never be forgotten.

Mother, Sisters and Brothers.
