Rockcastle Is Proud of Its Schools and Churches

GREAT PROGRESS MADE SINCE DAYS OF 1913

Rockcastle County has long been proud of its churches and schools, some of which have histories as old as the county itself. The county schools have grown up, for the most part, past the one-room school house stage and now boast of beautiful and well-equipped agriculture workshops and home economic rooms in addition to the regular classrooms.

The Mt. Vernon School, for example, has experienced an amazing growth. In 1913, according to one report, there were an even dozen pupils in the high school. Three were in the senior class, two were juniors and two more were sophomores.

The seniors were John Lair, Bob McKenzie and Jamie Thompson. The juniors were L. D. Bryant and Homer Proctor, and the sophomores were Ruth Mullins and Will Thompson.

The Rockcastle Hotel was the only hotel then and its nearness to the railroad depot has been the basis of the standing joke about the traveling man who staggered down the steps after a night of fitful sleep to demand to know what time the hotel would arrive in Louisville.

No one seems to know just when the Christian Church was organized, but documentary evidence shows that it is well over 100 years old and that it was originally part of the Baptist Church. It left the Baptist Church, according to an old report, and joined the "reformers" Alexander and Thomas Campbell and Barton Stone.

Services were once held in the courthouse and later in

what is now the office of the Mt. Vernon Signal. The present building cost about \$20,000 of which \$3000 was contributed by the Willing Workers. The Rev. Lanis Kineman is now minister.

The Baptist Church of Mt. Vernon was organized November 23, 1887 in the courthouse with sixteen charter members. Rev. J. C. Carmichael had preached once a month in the Christian Church Building, now occupied by the Mt. Vernon Signal, about two years before the church was organized. After organization, they continued to hold services in this building until 1897 when a church house was completed.

Thus, oddly enough, the two churches of Rockcastle County with the largest congregations were strongly dependent upon each other for their beginnings in this county.

The Rev. Wendell Belew is now pastor at the Mt. Vernon Baptist Church and is very active in church affairs such as the Baptist Hospital in Lexington.

Excellent work is also being done throughout the county by the various churches. The Reverends William Tucker and Arnold Williams of Brodhead are two of the leading workers in the county in the Christian and Baptist Churches respectively.

Highway 25 Brings Many Tourists and Patronage

John A. Keck And Lt. Gov. Weatherby Take Part In Program

After approximately two years of construction, U.S. 25 was formally opened on December 3, 1949 with ceremonies at Renfro Valley.

The wide, sleek road, stretching north from Mt. Vernon to Roundstone, provides a safer six-mile stretch than can be found on any similar portion of Highway 25.

Commissioner of Highways John A. Keck and Lt. Governor Lawrence Weatherby participated in the colorful ceremonies and each praised the new road highly in speeches that

highlighted the program.

A long, white ribbon stretched across the stage of the Renfro Valley Barn and was cut by Miss Barbara Lair, assisted by Misses Suzanne Denney of Mt. Vernon and Gail Jennings of Berea, thus was the new highway opened which has already proved its worth as a boon to the progressive strides taken by Rockcastle County.

Highway 25 has had a long and interesting history from the days when Daniel Boone and Dr. Thomas Walker first trod what was then a buffalo trail to the time when Ralph Griffin, John Lair, and other youngsters beat a warpath down it in their boyhood hunting games right up to the present day of heavy trucking and tourist trade.

A typical scene of hundreds of cars at a Renfro Valley show

Renfro Show Begins Well---Still Going Big

At six o'clock on the night of November 4, '39 an air of tense expectancy prevailed over much of Rockcastle County, and this tenseness extended to the broadcasting rooms of station WLW, in Cincinnati. At six fifteen, the popular Renfro Valley Barn Dance was due to go on the air for its first broadcast from a big new barn in a peaceful little valley, away down in the hills of old Kentucky. For weeks throngs of workmen had labored constantly, day and night, rushing building construction, stringing telephone wires, installing complicated electrical gadgets. Late in the afternoon of the 4th, experts decided that they thought

everything was ready, but no time remained for an adequate test—there was nothing to do but go on the air and see what happened. Six-fifteen—zero hour—a switch is thrown and thousands of radio listeners scattered over several states are greeted by the merry opening bars of the Renfro Valley theme music, coming in clear as a bell, and they hear the warm, friendly voice of John Lair, with just the suspicion of a quaver in it, saluting with "Howdy, folks, this is the Renfro Valley Barn Dance coming to you from its new home down in Renfro Valley." Then a sigh of relief went up from Rockcastle County which must

have been heard in adjoining states.

The broadcast continued to its conclusion and there wasn't the least hitch in the entire routine. Hundreds of interested persons for miles around had remained at home with their radios to see how the broadcast came in, and when it was over they all jumped in their cars and rushed pell-mell to Renfro Valley for congratulations, and to hear and see the second show at eight-thirty. They got mixed up with a flood of other cars from distant points, all converging toward the local point at the big new barn, and the result was the biggest traffic jam

Colonel John Lair, impresario of Renfro Valley, relaxes in his library of music and folklore.

turning out meals and short-orders with the regularity of clockwork, the tourist cabins are filled by reservations every night, and altogether Renfro Valley has settled down to an existence so placid by comparison that it is almost sleepy.

But the sleepy atmosphere is offset by the progress Renfro has made through the years. Additions include a walnut festery, which was later destroyed by fire, the beautiful museum, filled with relics of Kentucky history.

ever seen in these parts. But everyone was good natured and happy, the jam was straightened out, the show went on, and Renfro Valley Barn Dance is now right in our midst and an assured success.

The Boys and Girls have successfully sent out many more Saturday night broadcasts since then, parking space has been added, efficient traffic officers are functioning, early morning broadcasts are being sent out over the air every day, the restaurant and lunch rooms are

Devoted To The Interests of Our County

Rockcastle July 20 - 21

Homecoming Renfro Valley

Homecoming Plans Are Now Developed

Rockcastle's Homecoming is materializing into a real thing both physically and spiritually at last. The plans made by the Homecoming Committee for the past several weeks are developing on schedule and the big celebration at Renfro Valley should be one of the finest get-togethers ever held in the county.

Payne Completes Naval Training

Floyd Payne, seaman apprentice, USN, son of Mr. and Mrs. Charlie Payne of Brodhead, Ky., recently completed his recruit training at the Naval Training Center, San Diego, Calif.

Payne entered the Naval service April 5, 1950. LEV AND MRS. KINEMAN REVEAL FOR WHITE MILLS

This Is Your Invitation

This Homecoming Issue of the Mt. Vernon Signal is your invitation to come and bring your friends to the Rockcastle Homecoming at Renfro Valley Thursday and Friday, July 20, 21. A gala affair has been planned by the Homecoming Committee to welcome you and yours back home to your hills. Make your plans now to come early and stay late, for all your old friends are anxious to see you again and to help make your visit in Rockcastle County an enjoyable one.

The Homecoming Committee has worked long and hard for this occasion and has a program planned that will give you fun, enjoyment, and thrills that will last far longer than the mere 48 hours of scheduled entertainment.

One of the highlights of the two-day festivities will be the Future Farmers of America's barbecue on Thursday night and Friday's schedule calls for races and contests featuring a mule race between John Lair of Renfro Valley and Harold Fair, program director of Radio Station WHAS.

So come one and all to the big celebration at Renfro Valley. Come and see your friends and relatives and help us celebrate Kentucky's Mid-Century Homecoming in Rockcastle County.

Winners Of Square Dance Contest May Be Given Trip To Washington

Wildie Drops Two To Ravenna Ravens

The Wildie Rockies were defeated in both ends of a doubleheader by the Ravenna Ravens last Sunday. The Ravens took the first game 5 to 0, and Wildie gave them the night cap 7 to 3.

In the first game Calvin Woolsey pitched the first no-hit, no-run game of the season in the Tobacco League. Ravensmen got to Wildie early in the first game by scoring four runs on four hits and a fielders choice in the first inning off Bob Robinson. They picked up their other run in the sixth inning on an error and a single by Walling. Robinson allowed only two more hits after the first inning.

Next Sunday the Wildie crew goes to Berea to take on the Bearwallow Bears in a doubleheader. The Bearwallow team has been reorganized and is now known as Berea. In the future all of their games will be played at Berea on the Berea College diamond.

State's Mental Hospitals Have Made Progress

Kentucky's state mental hospitals have advanced more during the past two years than during any previous four-year administration in the history of the State. Dr. A. M. Lyon, Commissioner of Welfare declared today in a report filed with Gov. Earle C. Clements.

There have been improvements in varying degrees in every phase of the Department of Welfare during the last year—the most outstanding being in the hospital program. Dr. Lyon said. Dr. Lyon declared that benefits from the 1949 supplemental appropriation of \$750,000 for the mental hospitals were still being felt. This appropriation enabled the employment of additional help, placed attendants on an eight-hour day, instead of twelve hours, provided a better diet, and in the opinion of Dr. Lyon, contributed to a decrease in the death rate in the hospitals.

National Square Dance Authority To Be Here

Bascom Lamarr Lunford, national authority on square dancing, will be at Rockcastle Homecoming July 20 and 21. He will present the trophy to the square dance team on Friday night and may bring a square dance team of his own. It is hoped by the Homecoming Committee to send the winning team to Washington for the Kentucky Honor Day on October 20. Several special cars and trains are expected to make the trip.

John Lair of Renfro Valley has been asked by the Honor Day Committee to handle the program in Washington and he plans to take the winning square dance team with him with all expenses paid. Casper Ritchie, national representative agent of the B & K, of Louisville and father of Mrs. Jack Henderson, who is Homecoming Committee chairman, is one of the members of the Honor Day program committee. The largest family at the Rockcastle Homecoming will be the Lamars. The oldest person and the couple married the longest will be honored also.

Homecoming Program

The entire program as announced by the Homecoming Committee will begin with a Barbecue dinner by the Future Farmers at 6 p.m. Thursday, July 20. The barbecue will be followed by a community sing in the grandstand. Friday's program will begin at 10 a.m. with elimination games in marbles, horseshoe pitching, and volleyball. This will be followed by a bring-your-own picnic lunch. The championship marble game will start off the afternoon program at 1 p.m. and will be followed by a wheelbarrow race for children from six to ten years of age, wheelbarrow race for farmers over 25 years old, to be run barefoot, horseshoe pitching, husband calling contest, and a championship game, the duck-rag relay race to be run by...

Allen W. Adams Passes Away July 1

Allen W. Adams, son of the late Dr. Allen and Jane Adams, died July 1 at the age of 80 years. He had been in declining health for two years. Two weeks ago he was placed in St. Joseph Hospital in Louisville where he remained until his death.

He was married to Miss Lucinda Rowe in 1891 and to this union three children were born: T. Adams, Jr., James B. Adams, Quail, and Cordia Mae Adams who died in infancy. His first wife died in 1899.

On March 27, 1904, he was married to Miss Lucy Kirby and to this union were born 4 children, Mrs. George Allen Otisaw, Mrs. Carter Owens Mt. Vernon, Miss Thelma Adams, Elizabethtown, and a Ray Adams, Quail.

Besides his children, he is also survived by his wife, twelve grandchildren, three great-grandchildren, and a number of nieces and nephews and a host of relatives and friends to mourn his passing. He was a member of the Pisgah Baptist Church and in later years he joined the membership of the Ottawa Baptist Church.

Mt. Vernon Student Receives Scholarship

Wayne Wilson, member of the 1959 graduating class of Mt. Vernon High School, has been awarded a scholarship in the field of Agriculture at the University of Kentucky. He was notified of this award by Dean L. J. Horlacher early this week. This scholarship award was made as a result of his high rank in a state wide examination held prior to his graduation at Mt. Vernon High School in May of this year.

Wayne is the second student of his class to receive scholarship awards from the University of Kentucky. Both his parents, and the school feel quite proud of the honor he has brought them in receiving this distinction in the state.

A Homecoming Welcome

Brother Ed Simon, Pastor of the Livingstone Christian Church, reports that Prayer Meeting Services are now being held at the church on each Wednesday evening at 7:30 and large crowds are attending, showing a genuine interest in their Bible Study.

BROTHER ED SIMON REPORTS PRAYER SERVICES

Brother Ed Simon, Pastor of the Livingstone Christian Church, reports that Prayer Meeting Services are now being held at the church on each Wednesday evening at 7:30 and large crowds are attending, showing a genuine interest in their Bible Study.

Co-Op Mgr. Announces Prizes For Electric Show

Big prizes and a chance to compete for bigger ones—that is the opportunity which members of the Jackson County R.E.A. electric Co-op will have if they attend their Annual Meeting at McKee on July 27 and 28, and compete with their fellow-members.

The Co-op's Manager, H. L. Spurlock, said four major contests—bunty, cake baking, gospel singing and tractor driving, will be held at this year's meeting.

Helton Is Attending Fort Bragg ROTC Camp

Clinton N. Helton of Mt. Vernon is attending a six weeks Field Artillery ROTC Summer Camp at Fort Bragg, North Carolina. He is part of a group of six hundred cadets from twenty one colleges and universities located in the eastern half of the United States.

Henry Davidson Kills Copperhead On His Farm

Mr. Henry Davidson of Poplar Gap reports the finding and killing of a copperhead snake on his place last week. It measured thirty seven inches in length and is one of the largest ever caught in this county.

This log house near Renfro Valley (now owned by Harry Chastain) is said to be the oldest in the county. However, there are many who claim the McFerron House in Mt. Vernon is older.

Farm Bureau To Hold Annual Picnic

The Annual Rockcastle Farm Bureau Picnic will be held Wednesday, July 19 at the Brodhead Fairgrounds.

This will perhaps be the largest and best picnic the bureau has ever sponsored.

Valuable prizes donated by 86 business and professional men of Mt. Vernon, Brodhead, Willalla and Willalla will be given away.

You are invited to bring a basket lunch and spend an enjoyable day. There will be fun and games for the entire family.

Strawberry Season Completed Last Week

The Kentucky Strawberry Growers completed their 1950 season last week, with the last shipment going from Bedford, Kentucky. The season got underway at Paducah and Bowling Green around May 10, and continued until June 22, from the northern Kentucky points. Quality was generally fair to ordinary caused to a great extent by an overabundance of rain. Also, the size of the berries were smaller than during an average year, because of the unusually heavy set of berries from the bloom. Many growers estimate they harvested only about one-half the fruit which set on the plants as very much rot appeared throughout the picking season, and soft tender berries were the rule instead of the exception.

New Law Is Passed For On-Farm Training

Veterans who started GI Bill institutional on-farm training before May 15 will not be affected by a recent Veterans Administration ruling that their farms must include tilling of the soil as a basic activity, it was announced by VA. A few have been discharged or have resigned however.

No Emergency Recall Army and Air Vets Told

Army and Air Force veterans who were discharged after the last war—and who did not sign up for the reserves then—cannot be recalled to service on the ground that the war emergency has never ended officially. In the Navy, reserve officers' commissions are for an indefinite period. Most Naval reserve officers were placed on inactive duty after the war. They are still in the reserve and subject to being recalled to duty. A few have been discharged or have resigned however. Wartime G. I.'s who were discharged during the war, but not back under the wartime draft law. Former Navy enlisted men, if they did not sign up for following discharge during mobilization, have the same status as

No Tax Assessment To Be Made In 1950

For the first time in the memory of most Rockcastle countyans, there will be no assessment of property for state or county taxes as of July 1.

In fact, there will be no assessment at all made this year. The next assessment will be made on January 1, 1961.

The tax bills you pay this fall will be based on the assessment made on July 1, 1949.

Reason for the change is to bring the date of assessment closer to the date of payment of taxes. This makes it easier for the taxpayer to know how much tax he is paying for what year. From now on, taxes will be paid in the same year they are assessed. Also there will be less confusion over payment of taxes where property is bought or sold.

In many respects, the new assessment date will be more convenient for the taxpayer, since it comes at the usual inventory and bookkeeping date. This is in accord with the trend in other states.

Governor To Visit Wolf Creek Dam Thursday, July 13

The Fourth Governor's Tour of State Parks, sponsored by the Kentucky Chamber of Commerce, will visit Wolf Creek Dam area July 13 and 14. It was announced today by Norman A. Chrisman, president of the State Park Commission. This project will be to South Central Kentucky which Kentucky Lake is to Western Kentucky. Plans are being made to open up a tremendous recreational area for the people of Southern Indiana and Southern Ohio as well as for Kentuckians. Plans are already in progress or developing dock sites, camp sites, hotel and tourist court locations, restaurants, service stations and other tourist service facilities.

Road Repair Begins

County Judge Carl Williams has announced that work has begun on the county roads. Grading of some roads has now started.

County Agent's Notes

By Robert F. Spence

Poultry growers should be on guard during this hot, wet weather against poultry diseases, particularly coccidiosis, which is present in almost all birds. Usually immunity is established to the disease, but under the right conditions an epidemic may develop—causing heavy losses.

Chickens having coccidiosis are listless, droopy, and have ruffled feathers. The first warning is an abrupt drop in feed consumption. Bloody droppings, and sometimes a light brownish diarrhea, are usually the first symptoms noticed.

Treatment should be started as soon as an abrupt drop in feed consumption is noted, or as soon as possible after the first few bloody droppings are seen. It is very important to correctly follow the recommended treating schedule listed above.

Sulfamethazine does not prevent coccidiosis. It merely enables the birds to have the disease in a much milder form. After they recover they are then immune to coccidiosis for life.

Additional information about coccidiosis, and other poultry diseases, may be secured from the County Agents' office immediately.

4-H Camp
4-H Camp will begin next Monday, July 10th. Several 4-H members have written this office and registered to attend camp. Any 4-H member 12 years of age or older who desires to go to camp this year should get in touch with the County Agent's office immediately.

OAK HILL

Miss Frances Holbrook of Louisville spent the week-end with her parents, Mr. and Mrs. Ben Holbrook and family.

Mr. and Mrs. Raymond Lear and son, Dannie, Mr. and Mrs. John Lovings and family, Mr. and Mrs. Junger Sowder, Mr. Owen J. Sowder and Mr. and Mrs. Ed Sowder and family attended the negro singing at Liberty Sunday afternoon.

Paul Dennis Gravelly of Loyal is visiting Mr. and Mrs. Robert Weaver.

HERE AND THERE

By Robert Cox

The Homecoming Edition of the Mt. Vernon Signal is now at hand and we hope you enjoy reading it as much as we enjoyed putting it together. There is always a special kind of joy attached to a job when you know it may be for civic betterment or worthy causes such as this one.

The people who have worked so hard on the homecoming to date certainly deserve a lot of praise for their work. It has meant already a lot of long hours for those persons working with Mrs. Jack Henderson, but none of them have yet been heard to complain and we think they are all doing a wonderful job.

The grim holiday traffic toll of 793 deaths is made grimmer indeed by the realization that at least 95 percent of those deaths were entirely unnecessary and were merely the fault of some fool behind a wheel who thought he was in a big hurry to get someplace. Every one of those drivers who was the cause of an untimely death will tell you sincerely how sorry he is that it happened but if probably won't keep him from going out and driving 70 or 80 miles an hour again on a crowded holiday.

The plaid shirts, straw hats, and bonnets are slowly but surely becoming more evident on the streets and it wouldn't

be surprising if everyone caught the spirit soon and donned the costume of hillbillies and made the hillbilly theme of homecoming a reality. With John Cox and Garnett Taylor pulling their badges on a few unsuspecting citizens in the next few days and hauling them into Kangaroo Court, we wouldn't be surprised if that ole spirit isn't stepped up just a bit.

There was some very good advice in last week's Signal from the State Health Department on how Mt. Vernon may get rid of its mosquito nuisance. If some of this advice is put into practice, we may yet be saved from a slow, tortuous death of being eaten alive.

THREE LINKS

By Mrs. Okie Cox

Bro. J. F. Rose failed to fill his appointment at Sycamore Church Saturday and Sunday. Mr. and Mrs. Derl Owens are in Harlan County to conduct a Vacation Bible School and help in a revival meeting.

Mr. Earl Phillips and family and Howard Phillips are visiting their father, D. L. Phillips, this week-end.

Mr. John Cox of Lexington spent the week-end at Three Links. He plans to move to his new home in Lexington soon.

Miss Fairy Dooley of Cincinnati, O., is visiting her parents, Mr. and Mrs. J. F. Dooley, this week.

The farmers of this community are all up with their cultivating since they had a dry week in which to work.

SERMONETTES

By Local Pastors

THE NEW TESTAMENT

Chaney E. Kinchen, Pastor

Mt. Vernon Christian Church

"I will give unto thee the keys of the kingdom of heaven; and whatsoever thou shalt bind on earth shall be bound in heaven; and whatsoever thou shalt loose on earth shall be loosed in heaven." (Matt. 16:19)

Jesus was giving to Peter the keys, thus, bestowing upon him the honor of being the chief speaker for the entire group which Peter later became. Furthermore, keys open doors and there were some doors that stood between individuals and God. During the latter part of his ministry, Jesus spoke much to the disciples about the forthcoming Kingdom. He would not have spent his valuable time talking about a kingdom which was to be ushered in 2,000 years later nor would he have promised Peter that he would use the keys that would open the door of the kingdom. We can be sure that he was talking about the kingdom which was then at hand. The disciples understood this even though they did not clearly understand the nature of that Kingdom until Jesus' death. When they came together for the last meeting, they thought it was for the purpose of setting up the kingdom. "When they, therefore, were come together, they asked Him, saying, Lord, wilt thou at this time (today) restore again the Kingdom to Israel?" (Acts 1:6)

This question reveals the fact that they did not understand the nature of the Kingdom at that time, but they knew that the Kingdom was at hand. Jesus did not give a definite answer to their question—that is a "yes" or "no," but he did give them something better. He said, "It is not for you to know the times or season which the Father hath put in His own power. But ye shall be witnesses unto me both in Jerusalem, and in Samaria, and unto the uttermost part of the earth." (Acts 1:7-8)

Isaiah said, "All nations shall flow into it." Daniel said, "and it filled the whole earth." Now

Jesus says, "Ye shall be witnesses unto me. . . unto the uttermost part of the earth." Isaiah said, "Out of Zion shall go forth the law and the word of the Lord from Jerusalem." Now Jesus says, "Ye shall be my witnesses first in Jerusalem. . ."

The picture which the prophet pictured in their prophecies begins to take on meaning as the disciples are told to return to Jerusalem and wait there until they are filled with power from on high. Jesus promised them that they would receive the Holy Spirit which would bring to their remembrance all things which he had spoken to them. Remember that Jesus had no manuscript or sacred writings except the Old Testament Prophets from which to preach their message of forgiveness and life. He came from above as the great day of Pentecost was ushered in. The Disciples had remained ten days in a great prayer meeting after Jesus ascended into the heavens. "And when the day of Pentecost was fully come, they were all with one accord in one place. And suddenly there came a sound from heaven as of the rushing of a mighty wind, and it filled all the house where they were sitting. And there appeared unto them cloven tongues, like as of fire, and sat upon each of them. And they were filled with it, and they began to speak with other tongues as the Spirit gave them utterance. And there dwelling at Jerusalem, Jews, devout men of every nation under heaven. Now when this was noised abroad, the multi-confounded, because at every man heard them speak in his own language (tongue)" (Acts 2:1-6)

HOLINESS UNTO THE LORD

By G. W. (Bro.) Murphy

"The Great Fever Doctor"

"He took her by the hand and lifted her up; and immediately the fever left her, and she ministered unto them—Mark 1:31.

just what Jesus is doing all the time to people sick in body, to those sick in soul, and to those who are down in any way and unable to rise. He does not stand far off when he would help people and call them to come to him, but like he did to this poor feverish woman Mark said Jesus came and took her by the hand, and lifted her up. That is a mighty good way for us to be to each other in helping to make sunshine and gladness—by extending a strong, uplifting hand to those who are down. Remember this: He that is not sick does not need a doctor. Many poor souls are sick, have fallen by the way side, they are perishing, drifting down stream from the shore. Oh, if someone with a heart full of Christ and his mind would come to them, take them by the hand and lift them up in Jesus name, what a good minister they would be. The example of this woman must not be overlooked. Christ had given her back her life, and what should she now do with it but consecrate it to the service of him, who restored it to her. Thank God, this she did, not in mere words of thankfulness, nor in warm and tender emotions of praise only, but in SERVICE, she arose and ministered to her Healer and his friends. I believe this kind of ministering is the most practical and helpful kind. She did not say Lord show me what you would have me do, Lord help me to get close to you, she simply took up the service that came first to her hand, and set about rendering the commonplace attentions of a housewife entertainer. In other words, like the woman at the well, she said, "Is this the Christ?" Every person, who has been saved, from sin, or having their sick body healed should minister to others what Jesus did for them. If your body has been healed, and saved from a death, you know Jesus did it for a purpose, and you would be considered very disloyal to God, if we do not Praise Him for it, I thank the Lord Jesus now for my mind, my body, and my soul, which are all in His hands. So pray for me.

New Weapon Developed

THE NAVY is itching to rip the "top secret" label from the most revolutionary weapon in the atomic bomb—the guided missile.

Reason for the navy's itching fingers is that it thinks guided missiles may make the big bomber as obsolete as the dodo.

Here are some of the facts which can be revealed without giving aid and comfort to the enemy:

1. The guided missile is guided inwardly to the target by radar waves. If, for instance, a missile is fired five miles to one side of the target, it will automatically change its course while in the air and hit the target.

2. The exact distance a homing missile will change its course remains a military secret; but the effect is to guide the missile to the target. It cannot miss.

3. The joint chiefs of staff, including the chief of the General Staff, were so impressed by homing missiles they persuaded Secretary of Defense Louis Johnson to earmark \$100 million for mass experimentation and production.

4. The navy has developed anti-submarine and anti-air missiles which will fire at high speeds and speed toward a fast-moving ship. This may make the transportation of troops in wartime almost impossible.

5. It will also be fairly easy to shoot down invading airplanes. Admiral L. F. Ramage of the navy's missile research reports to the secretary of the navy: "The highest priority goes to those missiles whose targets are enemy aircraft. The pendulum swings one way and then the other. The guided missile shows promise of achieving a major jump in the number of weapons available to a task force against the bomber. Success is inevitable."

The Navy's "Lark"
The only missile which can be described in print is called the Lark. The navy has manufactured and tested approximately 200. Originally developed as a countermeasure to the Jap kamikaze, the Lark has two liquid rocket engines, uses acid and aniline fuel, and can operate outside the dense oxygen layer of the earth's atmosphere.

When the Lark nears the target, a second and independent electronic system automatically picks up the target and guides the missile to a proximity fuse sets off the bomb. The Lark weighs 1,200 pounds and is 15 feet long. It has two pairs of wings at right angles.

It is a healthy fact that the air force, instead of backing a new development which may put big bombers out of business and giving 100 per cent cooperation to the navy. In fact, the air force has so impressed with the Lark. It purchased \$2 million. It also went to bat with Secretary Johnson in demanding that funds be allocated for further developments.

Note—Another weapon in the navy's bag of scientific tricks is a pilotless jet airplane. It is based on a radical principle—the more air it rams into, the faster it goes.

Basing-Point Lobby
A general back-slapping lobbyist named Frank McCarthy is one reason why the practice of the basing-point split wide open over the not Basing-Point bill.

No relation to the Wisconsin senator, McCarthy is a graduate of Ford Neff's old Indiana machine, and is now Washington lobbyist for some of the railroads which will profit by more cross-haul under the Basing-Point bill.

McCarthy's infectious good humor helped line up the Democratic bigwigs at San Francisco, Michigan, Pennsylvania, and spurred on elder statesman Sen. Joe O'Rahoney of Wisconsin.

Note—Lobbying against the bill on the Republican side during the senate debate was done by William Simon, former counsel for the Chamber of Commerce, and by the Republican subcommittee on trade practices, now an \$1,800-a-month lobbyist. At the time Simon was working for Senator Caperton, he also lobbied with the federal trade commission on behalf of alleged violators of the trade practices act. He was supposed to be investigating and reporting to Caperton let him get away with it.

Merry-Go-Round
Ex-Sen. John Sherman Cooper, the state department's Republican adviser, had his eye on the governorship in Kentucky. The popular and liberal Cooper may run in 1951. A win would put him in the spotlight at the 1952 GOP national convention. The Republican party in Tennessee's first district is in a bitter scrap between right and left wings of the party. Congressmen Dayton E. Phillips, a GOP progressive, is opposed by moonshiner ex-Congressman Carroll Reese.

WEEKLY NEWS ANALYSIS

Russia Offers Cold War 'Terms'; Dewey to Retire From Politics; F. B. I. Arrests Two in Spy Case

(EDITOR'S NOTE: While opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

COLD WAR: New Peace Terms

Observers are speculating over so-called cold war peace terms reportedly acceptable to the Russians which include a demand that the United States cease helping to re-arm western Europe. It was an ironic demand because at the same time the Soviet agreed to recognize the Atlantic pact as a legitimate regional defense group under the terms of the United Nations Charter.

It is this pact that pledges the western nations to mutual aid. The Soviet said had three demands on the Far East:

- (1) Elimination from the United Nations of the representatives of Generalsissimo Chiang Kai Shek's government.
- (2) Acceptance by the western powers of the Russian "gold ruble" as the basic currency for China's foreign trade.
- (3) Soviet participation in the conclusion of a peace treaty with Japan which would guarantee the former country which Moscow considers to be "politically freed."

In the European field, the Soviet had four rather vague offers:

- (1) Unification of Germany within the framework of the Potsdam agreement.
- (2) Neutralization of Germany.
- (3) Withdrawal of all occupational forces from Germany.
- (4) Cessation of all armaments and armies, including the abandonment of conscription.

Observers did not believe the terms would be attractive enough to induce the reduction in differences between the East and the West. Russia, as usual, wants a great deal but is vague about tangible returns.

DEWEY: Plans to Retire

One of the most spectacular careers in modern American politics has come to a halt, at least temporarily.

Governor Thomas E. Dewey of New York has announced he will retire from politics after 20 years in public life and probably return to private law practice when his second term expires next December 31.

Dewey said in a one-sentence statement which he personally distributed to reporters, "I shall not be a candidate for re-election next fall, and I shall not be running for personal White House ambitions last December."

He expected, his announcement raised a number of questions in the New York state political place as well as on the national scene.

Dewey, New York's only Republican governor in the past 30 years, added, however, that he would continue to be important in public affairs. He promised to speak out on "issues affecting the welfare of the state and nation," especially for the farmers.

He rose to political prominence when he pyramided his fame and methodical efficiency as a racket-buster in politics in New York on a radical principle—the more air it rams into, the faster it goes.

HUNGARY: Demands Ransom
The custom of blackmail, ransom and intrigue so often employed by the Nazis in the reign of terror during Europe, has put in a more obvious appearance under the Communists.

Hungary has demanded the named crown of St. Stephen as ransom for Robert A. Vacher, imprisoned American businessman. According to reports from Europe, Hungarian Communists have offered to swap Vacher for the 1,000-year-old crown which is the symbol of Magyar royalty.

The crown was taken from Hungary by the Nazis and later found by the American troops in Germany.

CORPORATIONS: Increased Taxes

When the session closes house and senate began a program of tax cutting after President Truman offered his budget, he warned any legislation must be met with revenue from other sources.

Now, the house ways and means committee, obviously bidding for approval of the bill, has approved the tax cut, had little doubt that they would pass it.

LABOR: Degree of Unity

A degree of future unity between big labor unions appeared on the horizon as the A.F.L. and the C.I.O. worked on plans for their pending cooperation conference.

While he was making that statement, the national labor relations board took a swat at the UMW by ruling it broke the Taft-Hartley law by a campaign of violence to organize employees of a Harlan county 17, Kentucky, department store.

The board ordered the union to cease assaulting, or threatening the store employees. If the union ignores the order it could eventually lead to possible jail sentences or fines for union officials.

But while the UMW struggles with its problems, there were long strides by the other union toward cooperation—if not eventual merger.

Among the developments: 1. Joseph D. Keenan, top A.F.L. political organizer, addressed the C.I.O.'s political action committee. His subject was the union effort by the union to unite to repeal the Taft-Hartley law.

2. A cross section of American labor ranks attended a two-day meeting aimed at raising assistance for the Israeli federation of labor.

3. The Protective Union of Railroad Trainmen accepted C.I.O. proposal for a committee to work together on common problems and eventually aim at consolidation.

INFILTRATION: To Financial Ruin

Former President Herbert Hoover, in a speech before the U.S. Junior Chamber of Commerce convention in Chicago last week, warned that financial disaster is in prospect for the country unless the government curtails its spending policies drastically.

Unless an immediate halt is ordered on spending, Mr. Hoover predicted the undermining of an economy which would provide one million new jobs annually. For 17 years, he maintained, Democratic administrations had continued the spending spree.

"Financial government deficits by borrowing, if continued long enough, has only one end—inflation," the former President said. "We ourselves have already decreased the purchasing power of the dollar about 50 per cent and we are still creeping along the road."

"The five-cent telephone call and the five-cent fare have already gone up, and the five-cent bar has shrunk. A new round of inflation is now appearing in direct or indirect wage and salary increases and rising commodity prices."

"If we keep on this road, we are certain to realize the President's ideal of 80-year-revenue family. But it will not have \$4,000 purchasing power."

"The government of further government borrowing to meet deficits, my answer is that it is the road to disaster for every cottage in the land."

DEFICIT: At 3.8 Billion

The administration has predicted a \$3,400,000 deficit by the end of the fiscal year June 30, but shortly after the deadline it appeared the amount would be well under the estimate.

A \$73,625,000 interest payment on a national debt boosted the deficit to \$1,817,000. The payment was made two weeks before the end of the fiscal year.

To Retire

Governor Thomas E. Dewey (center) is shown being interviewed by newsmen shortly before he announced he would not be a candidate for reelection as governor of New York. His second term expires next December. He may return to private law practice.

BRIDGES MINED: Just in Case

Whether or not the world is face to face with another war has been in the minds of the everyday citizen almost since the final shot was fired in World War II.

Now it comes to light that the key roads and bridges in Western Germany are being prepared for quick destruction in case of a Soviet attack. Similar preparations apparently are being made in other European countries.

Smart Two-Piece Frock Displays Unusual Lines

Corn Borer Serious Threat to Midwest Loss Last Year in Six States Totals Millions

Last year in six states of the corn belt the European corn borer caused a loss of some 300 million dollars. In 23 other states, damage ranged from slight to quite severe.

The corn borer appeared in this country in 1917 along the Atlantic seaboard. It has spread steadily until today it has reached states as far west as Kansas and Nebraska and the Dakotas, and south to the Tennessee-Alabama line.

Not only is the pest covering more ground each year, it is, in many places working more destructively. In Iowa, for example, the corn cost each corn farmer last year an average of \$20 dollars.

There is nothing to indicate that the destruction has reached a peak. In fact, unless adequate controls are adopted, the corn belt may find the worse to come.

Chemical control must from now on be considered part of the regular program of the crop.

Rebound
Niece: "Auntie, why is it Uncle hasn't any hair?"
Auntie: "Why, it's because he is a wise man and things so much. You see, it hasn't time to grow."
Niece: "Then, Auntie, why is it that you have so much hair?"
Auntie: "Now, dear, run along and don't tire Auntie with questions."

Animals Susceptible To 80 Animal Diseases

Animal diseases are a constant threat to the health of human beings, two public health physicians declare in the Journal of the American Veterinary Medical Association.

In one report, Dr. F. S. Leeder of the Michigan department of health, said human beings are susceptible to at least 80 diseases of animals. Many of these diseases are prevalent in the United States, he reported. The danger that foreign maladies may be imported by high speed travel is also very real, he said.

Most animal diseases to which man is susceptible are spread primarily by livestock and wild game with which human beings come in contact. Work of veterinarians in helping to stamp out or control such diseases is thus an important factor in bettering human health.

In another journal article, Dr. W. P. Dearing, deputy surgeon general of the U. S. Public Health Service, points to the value of having veterinarians work closely with health departments to protect the public against such dangerous maladies as rabies.

A New Light

A new light—the electric arc—is appearing in farm shops, barns and garages from coast to coast in California. Farmers by the thousands are now saving themselves time and money by using electric arc welding. The rate of gain per pound of feed decreases with age and size of birds.

Poultry Experts Advise Weeding Out Cockerels

All cockerels, except those to be kept for breeders, should be removed from the poultry flock by the time they are 12 weeks of age, poultry experts report.

If the cockerels are marketed at 12 weeks of age they will command a better price than if they are kept longer. If kept longer their meat becomes coarse and stringy. The rate of gain per pound of feed decreases with age and size of birds.

Brodhead Church Notes

CHRISTIAN CHURCH TO HAVE ICE CREAM SOCIAL

The Ladies' Aid of the Christian Church is going to have an ice cream social on Friday evening at 6 p.m. (C.S.T.) Tickets are on sale by the local "Small" at 25 cents each. These entitle you to a helping of ice cream, cake and a glass of lemonade.

We opened the Goshen Christian Church today with a fine attendance. Preaching services and the Lords Supper will be held each Lords Day after-noon at 2:30 o'clock. This church has been closed for some time but great interest was shown in making plans for services each Lords Day.

We have all heard the old adage that practice makes perfect. Some day everyone will have to give an account of why he is not in the Lords House on the Lords Day keeping the

of Louisville. Mr. Eli Smith who has been in Nichols Veterans Hospital, Louisville was able to return home last week.

Miss Marguerite Hurt of Louisville visited Miss Rosemary Anderson last week-end. Mr. Douglas Roberts of Cincinnati, O., is with relatives and friends here this week.

Mrs. Belyin Hodge was at home from Danville over the week-end. Master Johnny Newland entertained his little friends Friday afternoon at the home of his parents, Mr. and Mrs. J. C. Newland, in honor of his fifth birthday. A lovely time was reported.

Hon. J. S. Sandusky of Somerset visited Mrs. Lou Payne, a few hours Thursday last week.

4-H Leaders Will Meet at Brodhead

The local leaders of all 4-H clubs in Rockcastle County are invited to bring their families and come to the Brodhead Fairgrounds on Tuesday, July 25th for a big recreational meeting. Playground equipment will be furnished for those who wish to play games during the afternoon, and at 6 o'clock a picnic supper will be spread. There will be a brief session of short talks after supper.

All the leaders including general leaders, assistant general leaders, farm and home project leaders and junior leaders are urged to attend. Each family should bring a basket of food and at 6 o'clock there will be a picnic supper.

The meeting will begin at 3 o'clock at which time Mr. Boyd Wheeler, State 4-H Club Worker will assist in leading games. Mr. Wheeler will also be a guest speaker after supper. Other short talks by the extension agents and 4-H leaders are planned.

All leaders should try to attend this picnic meeting on July 25th.

Gray Theatre Is Leased

Mr. D. H. Gray of Brodhead has leased the Gray Theatre of Brodhead to the Roden Theatre Co., Inc. The company will take over operation of the theatre soon.

Mr. Gray has served the city well in the entertainment business, and it is hoped the new company will continue the fine service he has rendered.

WABD

By Mrs. J. D. Miller

Misses Lena and Jewel Payne and Shelby spent a few days last week in Ohio visiting Mr. and Mrs. Neal Payne and family.

WHY NO PEACE? By Witnesses of Most High God Jehovah Rose Jasper and Deva McClure

Why does not peace on earth come? Is there a common invisible power dominating all nations? There is as proved at (Rev. 16:14) and (Rev. 12:9) (Rev. 20: 2, 3). Notice Satan the Devil is called the "god of the world" (2 Cor. 4: 3, 4) (Eph. 6:12) The Devil was once a spirit son of God. After God formed the earth part of His creation He set Lucifer as ruler but seeing that the earth would have creatures on it giving praise to His Creator Jehovah God then Satan fell through covetousness and felt that he must be like the Most High Yet Jehovah declares he shall be brought down to hell (Isa. 14: 12 to 17) (Ezek. 28: 14).

Therefore Satan caused sin to enter into the world and... VERNON THEATRE Mt. Vernon, Ky. Camenisch Infant Claimed by Death Little Richard Henry Camenisch, five-year-old son of Mr. and Mrs. Richard Camenisch of the Turnersville station, passed away at his home Sunday morning about 8 o'clock.

"Dickie" had been the victim of Lukemia, a rare blood disease for over a month prior to his untimely passing. Survivors in addition to the parents include two sisters, Sandra and Luca; one brother, James and several other relatives. Funeral services were held at 2:30 o'clock (CDT) Tuesday afternoon at the home conducted by the Rev. Joe Suddith and the Rev. Julian in Houston. Burial followed at Buffalo Springs Cemetery.

death by sin, so death passed upon them for all had sinned (Rom. 5:12). But Jehovah God so loved the world that He gave His Only Begotten Son that whosoever believeth in His should not perish but have eternal life. (St. Jn. 3:16).

Christ Jesus after bearing witness to His Father's universal sovereignty died an ignominious death by Satan and his agents but by the Will of God Jesus gave His perfect human life and handed the value of it to Jehovah God as a sin offering and purchased Adam's offering thereby. Jehovah gave Jesus a place far above principalities and made Him both Lord and Christ. (Eph. 1: 17 to 23).

The great war in heaven has already been in which Christ Jesus has cast Satan and his demons in the earth. They are confining their works in the earth and that is causing great confusion and turmoil in the earth as it is written in (Rev. 12: 7, 9, 12). "Who was unto the inhabitants of the earth and sea for the Devil has come down unto you having great wrath, because he knoweth he hath but a short time."

Remember Satan transformed into an angel of light and uses subtle devices to keep the people in ignorance of how peace will come. (2 Cor. 11: 14). For when they shall say, Peace and Safety then sudden destruction shall come upon them. (1 Thes. 5: 3). Peace on Earth can only come under Jehovah's Inevitable Rule "The New Jerusalem" under Our King Jesus (Isa. 1: 30-33). Behold I Make All Things New. (Rev. 21: 1 to 5).

BIRTHS The following births were announced by Mr. C. V. Cox, county registrar: Mr. and Mrs. George Seals, Disputants; a son, Terry, May 31. Rockcastle County Helps Celebrate Kentucky's Homecoming

One evening several months ago, the Rockcastle Chamber of Commerce held a meeting to discuss the possibilities of holding a homecoming festival in Rockcastle County to celebrate Kentucky's Mid-Century Homecoming. Things moved slowly at first as the pros and cons of the proposal were hashed over. Then the ball started rolling.

John Lair was called into the meeting and it was decided that the affair could be held most successfully at Renfro Valley. The preliminary plans made and the various committee heads appointed, the meeting was adjourned.

But the going was not easy. The Chamber of Commerce found that it needed assistance outside of its own capable membership and various

civic clubs were asked to assist in the formation of a central group to plan the affair.

A Homecoming Committee was formed from members of the Chamber of Commerce, the Lions Club, the Willing Workers, and the Future Farmers of America. Ralph Griffin, who as a member of the Chamber of Commerce had been acting as chairman of the group, stepped down to, as he put it, "let the younger heads take over." Mrs. Jack Henderson was elected chairman of the committee and proved to be the driving force that put the homecoming plans over the hump and on the way to unparalleled success.

One of the features of Rockcastle's Homecoming will be the costuming of the local residents. Since the theme of the homecoming is to be built on the hillbilly tradition, it was decided that everyone should dress appropriately—the

women in bonnets and gingham dresses and the men in straw hats and plaid shirts. So if weird looking creatures approach y'all on the streets of any of the Rockcastle County towns looking like they just stepped out of a Li'l Abner or Smuffy Smith comic strip, don't run in fright just stick out your paw, buddy, and say "howdy."

With the completion of the program plans, Rockcastle's homecoming is ready for production.

WELCOME FRIENDS and NATIVES

To The
ROCKCASTLE HOMECOMING

There are few other counties that have gone as far and developed as fast in so short a time as Rockcastle.

Chamber of Commerce

A hearty welcome and a good time awaits you during Rockcastle Homecoming Week. Look our county over; consider our business prospects; view our homes, our schools, our churches and our roads; meet our citizens. You may then decide that Rockcastle county is a fine place to live; a county with excellent future prospects; you may decide that you want to stay here permanently.

At the left of the page is seen the main entrance to the famous Saltpetre Cave as a Sunday crowd gathers to enjoy the trip through the beautiful caverns.

In the center is the Ancient Cathedral with its awe-inspiring 36-foot pipe organ, domes, and spirals. The great sheets of draperies adorning the ceilings have taken not just centuries, but ages to form.

The Egyptian Queen formation shown at the right is one of the top tourist attractions of the Great Saltpetre Cave. Many interesting features such as Frozen Niagara, the Hindu Temple, and gypsum formations are found in this colonnade richly colored and highly attractive to the human eye.

Old Saltpetre Cave Has Long Been An Attraction

Once Used As A Gunpowder Industry In Early Wars, Cave Now Has Peaceful Uses

One of the historic landmarks of Rockcastle County is the famous Great Saltpetre Cave, just off U.S. 25 near Livingston. Gigantic stalagmites and stalactites, frozen cascades, and many freak and odd formations, fashioned by nature and set in a color scheme decorating a seemingly endless chain of stupendous rooms connected by large hallways and galleries have long enchanted the numerous visitors to the cave.

The beautiful formation known as the Ancient Cathedral, with its 36-foot pipe organ, domes and spirals, and great sheets of draperies adorning the ceilings, is matched in brilliance by the Egyptian Queen. Many interesting features such as Frozen Niagara, Hindu Temple, and the Gypsum Formations are found in this colonnade which ranges in color

from jet black to pure crystal white. The geological story of Saltpetre Cave goes back to an age when an ancient ocean covered this area. In this ocean a thick deposit of lime was formed which later hardened into limestone. This limestone during a period of mountain building was transformed under the terrific pressure and heat into marble and was raised above the sea as part of a mountain range.

Stalactite and Stalagmite formations are found where the water dripped slowly from the ceiling of the cavern, for here each drop as it clung to the rock lost some of its water to the air and the lime which it carried was left as a deposit on the rock. This deposit grew downward as would an icicle, forming what is known as a Stalactite. When the drops of water fell to the floor and there evaporated a pillar known as a Stalagmite was built upward by the deposit of lime. In some places the Stalactite and Stalagmite joined, forming a column which extends from the floor to the ceiling. These deposits assume in some cases odd, fantastic or grotesque shapes, and in others beautiful, inspirational forms.

The Cave was discovered around 1792 by a pioneer named Baker, who with his entire family was lost in its depths for several days before finding one of the exits.

Soon after this the Cave became an attraction for the adventurous and portions of it were explored and opened.

Saltpetre was mined from the Cave and made into gunpowder during both the Revolutionary War and Civil War, and many of the huge vats used in the manufacture of gunpowder may be seen in several parts of the Cave.

Many relics of the Pioneer days have been found in the Cave, such as Ox Shoes, Grease Lamps, Picks and Ladles and many others.

INVITATION To Kentuckians Away From Kentucky

Can you hear the robins callin' In the maples 'round the door? Can you see the bluegrass wavin'?

As it waved in days of yore?

Does it always seem to thrill you

When you picture field and lane?

It's the call of old Kentucky, And she wants you home again.

Maybe things have changed a little,

Or perhaps they've changed a lot.

It may be there is nothing left To mark each dear old spot.

That you knew in days of childhood,

And the thought may cause you pain;

Still—it's home in old Kentucky.

And she wants you back again.
