Mrs. Nancy Niceley Dies At Her Home

Nancy Helen Niceley, wife of Joseph F. Niceley of Mt. Vernon, died at her home, on High street July 8.

Besides her husband, she leaves one daughter, Mrs. Bernice Blackburn, ten grandchildren, five great-grandchildren, and one sister, Mrs. Minnie Arnold.

Mrs. Niceley, daughter of Mr. and Mrs. Matt McClure, was born December 4, 1873 and was married September 21, 1893.

Funeral services were conducted by Bro. George Murphy at the West Main Street Holiness Church, Monday, July 10. Interment was at the Smith Cemetery near Burr.

Ten Local Students Are Enrolled At UK

Included in the University of Kentucky's current summer session enrollment of 3,392 are 10 students from Rockcastle County, according to an announcement from the U.K. registrar's office. The eight-week term will continue through August 12 with commencement exercises for an estimated 600 to 800 seniors set for Friday August 11.

Students from Rockcastle County now enrolled at U.K. are Ruth Blazier, Norma Crawford, Robert Cummins, William McClure, Eddal Owens, Bernard Purcell, Mt. Vernon; Reynold Large, Orlando; Wayne Stewart, Wildie; Nancy Williams, Boone; and Emmett Taylor, Brodhead.

A coward is a man who lets his fears control him.

Local Group Hears Phone Arguments

No Results Reached As Both Sides Fail To Yield Their Point

A meeting of the Rockcastle County Chamber of Commerce held Tuesday last, to air out the telephone situation, ended without any tangible results being shown. The stalemate which has existed between J. F. Dees of the telephone company and the Mt. Vernon City Council still stands.

Mr. Dees outlined his plans to the group for a county-wide dial telephone system to consist of 48 miles of rural lines. He contended, however, that he could not do any work on his future plans until the City Council granted him permission to erect five telephone poles on Main Street in Mt. Vernon between the Rockcastle Hotel and the Courthouse.

Mr. Jack Laswell, speaking for the City Council, said the council refused Mr. Dees' request for poles on Main Street because they could see no reason why lines could not be strung on the back streets.

When asked by members of the Chamber of Commerce if underground lines could be laid, Mr. Dees replied that "the moles would eat them up." But he later admitted that by placing the lines in conduits this danger could be eliminated. Mr. Dees stated further that he would stand firm on his conviction that no dial system would be installed by him unless a franchise is granted by the council permitting him to erect the poles in question. He called the franchise offered to

him by the City Council unfair and unreasonable. He said that it would be too dangerous to erect lines on streets where electric lines must exist.

Mr. Laswell said the franchise as offered was modeled after those used in Lexington, Kentucky, and that the City Council only wanted Mr. Dees to guarantee that if the poles were erected the dial system would definitely be installed. This, he declared, Mr. Dees refused to do.

In discussing his plans for the county, Mr. Dees stated that the total cost for installing rural phones would be \$14,400. This cost includes lines from Brodhead to Mt. Vernon, \$2100; Renfro Valley to Wildie and Conway, \$3800; Mt. Vernon to Brush Creek, \$3000; Brodhead to Hiatt, \$2100; and Wildie to Climax, \$600. A "harmonic ringing" system would be installed, Mr. Dees said, which could cost \$1240. This system rings the phone of only the person called instead of that of every person on the line.

The reason he cannot guarantee the dial system as asked by the City Council, he said, is the uncertainty of delivery by the factories which are overloaded now with orders. It would take at least six to eight months to get the necessary equipment after the order is placed, he declared.

The meeting was adjourned with the problem unsolved after the group was unable to present any resolution which might be accepted by both the City Council and Mr. Dees.

Hints For Improving Pastures
The purpose of Kentucky's Green Pasture Program is to develop better pastures throughout the state. The final scoring in the 1950 program will be done about the first of October. Between now and that time there are many things that can be done to make Kentucky's pastures greener. Here are some of them:
1. Sow cover crops following after the crops except on overflow land—wheat, rye, barley.

2. Make soil tests. An efficient soil-building program can only be carried out when one knows his soil requirements. Late summer and fall is a good time to make soil tests.

3. Apply lime and fertilizer. Late summer and fall is a good time to apply lime. It is also a good time to use phosphate and potash, and fertilizer of the kind needed is usually more easily available at this time of the year.

4. Renovate old pastures. Many old pastures can be improved by disking or otherwise working the soil, applying needed fertilizer and lime, and reseeding with adapted grasses and legumes. Late summer and early 2nd is the best time.

5. Bring into pasture development at least a part of your waste or idle land unless used for woods.

6. Don't forget to clip the pastures in late summer. Weeds compete for water and plant food.

Strawberry Growing
The strawberry crop, for next spring, depends on what sort of treatment it gets through July and August of this year. If grass and weeds are allowed to take the crop there will be few berries next spring. All old patches and new ones should be cultivated. Any grower who would like to have a Bulletin on Growing Strawberries can get one by calling at the County Agent's office, Mt. Vernon.

Insect Control
This is the month to dust or spray to control insects that thrive on vegetables. The latest information on sprays, dusts and methods of control recommended by the State College of Agriculture can be gotten at the County Agent's office at Mt. Vernon.

Hon. Harry S. Truman The White House Washington, D. C.

Dear Mr. President:

I see by the papers that the Freedom Fair which was scheduled to open in Washington in 1951 has been called off. I respectfully suggest that you press a few buttons...

Well, what's the best way to demonstrate that there's life in the old liberties?

Impact-wise, what would such a shindig actually accomplish? Not much, Sir. It is more just a run-of-the-flushing-meadows type of fair.

ONCE AND FOR ALL, let's put out all the stops and compare our schools, voting, and churches with theirs...

A candidate who just squeaks through knows that you and others like you can repudiate him next time.

MAKE DIDN'T INTEND to be unreasonable about it. He had a reputation for fairness, and he meant to live up to it. There wasn't a person alive who didn't have faults.

3-Minute Fiction: Not that Serena's faults were anything to worry about. If they had been Mike would never have asked her to marry him.

Thus, he would dispel any possible doubt in his mind regarding his purpose. Presently he would begin to get himself ready on time and sit around waiting. Serena couldn't help noticing and take heed.

During the next half-hour Mike noted with some satisfaction that Serena had already begun to feel his stronger personality. She was allowing herself a bit more time to get dressed for parties, and once or twice she suggested to Mike that he hurry up.

By the time the six months was exercise his taste and tonists as he sees fit. Let's even show them up on the list of members of Horner, let the rest of Cardinal Mindszenty, and instead of the old-hat Ungeant side-show, let the populace take a peek at a Siberian slave labor camp.

WITH NO POMP but plenty of documented circumstance, one big lesson is a clinch to emerge from the old-fashioned "let's get on with it democracy" still provides the best of the mostest; that our way of life has got what it takes, and it would be downright silly to let the Commies take what we've got.

Of course, Mr. President, there are a lot of things that are fair on by next year. But if the right words were dropped into the right ears pronto, there's no reason why the grand opening couldn't be set for '52. And according to my astrologist, that would be an auspicious year for '52, seeing it's most suitable for a certain party will be doing its darndest to convince the voters that it has a special talent for making democracy work.

If you think well enough of this notion to get behind it, Sir, I'll be glad to pitch in and help—whether it's making policy or pink lemonade. Of course, I wouldn't do it for free. My fee would have to be the same as I'm getting as advisor to the California World Exposition which will be held in San Diego in '53—a thousand can of good smoking tobacco.

Respectfully, Billy Rose

HERE and THERE
By Robert Cox

The telephone situation in Rockcastle County has remained unchanged for some time now, what changes are noticeable have been for the worse. All attempts at arbitration have

failed and it is evidently time for action. If the telephone company and the city council can't agree, and no one can offer a solution, then the only alternative is for some group of enterprisers to survey the situation and step in.

The telephone company is another public servant and as such should accept the mandate of the people. It is their obligation to offer the best service possible at the most reasonable rates. Well, the rates were recently raised, and to be justified service should be improved. This cannot be done as long as the company continues to wrangle over minor issues. A

little more common sense and a little less stubbornness could clear up the question and give Rockcastle County a good telephone system worthy of the name.

It is encouraging at this time to note the fine financial reports made by the Banks of Mt. Vernon and Broadway. Both banks' reports were very satisfactory and pointed up an ap-

parent increase in local business.

A new industry is always welcome to a community when it can be seen that the community stands to profit materially from that industry. We welcome the Lambert Brothers Company who are locating at the old Pine Hill Quarry and wish them success in their new venture.

HOLINESS UNTO THE LORD

By W. (Bro.) Murphy

FAULT FINDERS

Mark 7 - 3. For the Pharisees and all the Jews, except they wash their hands oft, eat and drink the religion of this bunch of folks we still have them today. It consists not in Love to God and in disposition character and conduct, but in certain ceremonial rites which they observed with great scrupulousness. They washed their hands before meals, yet they too, pains to wash their hearts of evil or uncharitable thoughts and feelings toward each other. They saw that every pot and kettle, every vessel and all household arrangements were cleaned, but not a time did they look into their own hearts to see if it was all clean and ready for the indwelling of God's Holy Spirit. The minister or other person who says something to hurt you because you use tobacco, or raise it, or some sister may use a little makeup, fault finders, yes, they will pass judgment on the person right there and then, however I am of the opinion some of such people could have a secret sin hidden that God and them only know about, which is so much worse than that they see in me or the other person. I believe we all need to watch against making our religion consist in forms of worship. We may pray many times a day and read a regular number of chapters, and go through many laborious devotions and yet not have a particle of TRUE religion. We are truly religious only if we have the kingdom of God set up in us, which is not meat and bread or drink, but righteousness and Peace, and Joy and in the Holy Ghost. Loving God and our fellow-men is the sun of all duty. Not a word should be said against external cleanliness, a clean heart should make the life clean to the tips of the fingers and in all tastes, feelings, habits, words, and actions. But just clean hands and well scrubbed floors and shining dishes can not and does not please God. I close and invite each and every person in this community to come to West Main Street Holiness Church this coming Sunday,

July 16th. Come without a fault, and you will not find a fault with any other there.
