By Mrs. Jennie Robins

The Lions Club held their regular meeting and banquet Thursday evening of last week at the school building. Honorary memberships was conferred on Bro. Bill Tucker, pastor of Christian Church and Bro. Arnold Williams, pastor of the Baptist Church.

**Crawford-Shivel Rites**  
Solemnized in Mississippi  
Mr. and Mrs. Emmett Crawford announce the marriage of their daughter, Miss Margaret Faye Crawford, to Mr. Richard Shivel, son of Mr. and Mrs. Edgar Shivel. The wedding was solemnized October 4, at Inka, Miss., with the Rev. G. N. Gober officiating.

After a short trip through the southern states the couple will return to Brodhead where they will make their home and Mrs. Shivel finish her schooling.

We wish this young couple a long and happy married life.

**Dinner Honors Former Brodhead**  
Mr. and Mrs. F. R. Robins entertained last Tuesday evening at their home on main Street, in honor of Mr. and Mrs. Willie Thompson of Minneapolis, and Mr. and Mrs. Claude Thompson of Brookline, Iowa.

Other guests included school mates and friends of the Thompsons, who were former citizens of Rockcastle. This was their first visit in fifteen years. While many of their friends have passed away, they still find many who welcome them and their visit has been a most pleasant one.

**Miss Levada Cain Weds**  
Mr. Harold Crawford, Miss Levada Cain, daughter of Mr. and Mrs. Robert Cain, and Mr. Harold Lee Crawford, son of Mr. and Mrs. Emmitt Crawford, were married October 14, at Berea, with Rev. Albert W. Swearly officiating.

After a short trip through Ohio, they will make their home in Brodhead, where their many friends wish

them happiness and prosperity.

National Apple Week  
Apples are again one of the most plentiful foods available this year according to the Food Distribution Branch of the United States Department of Agriculture. Wheat prices were somewhat irregular, high protein milling wheat premiums were adjusted downward materially while ordinary protein types were unchanged to slightly lower. Corn markets were barely steady. Plentiful supplies of old crop grain and increased movement of new crop corn to southwestern markets were weakening influences. Oats and barley held about the same unchanged but rye and grain sorghums turned weaker at the leading markets. Flaxseed declined 5 cents per bushel at Minneapolis. Soybeans were indifferently firm and price gains were 5 cents to 10 cents per bushel compared with a week ago.

IN MEMORIAM In loving memory of our sister and wife, Bessie Cross, who passed away Oct. 19, 1949. One year ago today Dear Bessie fell asleep. An angel came and called her home. And left us here to weep. In God's own perfect garden Where flowers forever grow We will find dear Bessie waiting When it comes our time to go. Sadly missed by her husband, brothers and sisters.
CARD OF THANKS I wish to thank the relatives and friends for the cheer they brought me in visiting and flowers while in the hospital last week. Especially Mr. and Mrs. Leonard Langford and Mr. and Mrs. W. R. Gott, who used their time and care for the trips. Mrs. May Nicley
CARD OF THANKS We wish to thank all our many friends for the kindnesses shown during the death of our dear brother, and for the flowers and comforting words. They were all greatly appreciated, and we do especially thank Rev. D. L. Owens for his help and the wonderful message. Our appreciation also goes out to the Cox Funeral Home for their courtesy and service rendered. The brothers and families of Grover Cox.
C. H. Webb Announces For School Board I wish to announce my candidacy for election as a member of the Rockcastle Board of Education in District No. 1, composed of S. Mt. Vernon (outside Mt. Vernon) Independent District, Pine Hill, East Fork, Rocky Bend, East and West Livingston. I have conscientiously endeavored to serve you in the past as a member of the board and if elected will make every effort to do so in the future. Sincerely Yours, Calvin H. Webb

ers of Brodhead School for the extra month and that not one dime of this money that went to pay the Brodhead teachers for the ninth month came from the treasury of the Rockcastle County Board of Education. I have been in the teaching profession for twenty-two years, thirteen years of that time I have been Superintendent of Brodhead Independent School. Furthermore I feel that any Board of Education which would not permit any School District in Rockcastle County to make up the money and pay the teachers for an extra month would not be fair to the children of our county.

CHAPTER MEETING

Mr. Vernon Chapter No. 140 Royal Arch Masons will hold a called meeting Monday, October 30 at 7 p.m. for conferring degrees. All members urged to be present.

To Voters of Educational District Number Three

I have served you on the Rockcastle County Board of Education for the past eight years and I have been honest in dealing with all problems that came before me. I have tried to do my very best to do the things that would help to give every child in Rockcastle County the best schools that could be offered to them.

Number 1. He is telling you I raised the taxes. I will ask my opponent if he has raised the taxes were raised during the 1949 Special Session of the Legislature. That Legislature passed a law which required all School Districts in Kentucky to levy a maximum tax rate of one percent to receive one dime of State money.

Now to prove to the voters that Mr. Lear is just trying to fool you, there are six members of the Board of Education and not any one of them has raised the taxes by himself so you see Mr. Lear it would take a majority of four members of the Board of Education to raise the taxes.

No. 2. Mr. Lear tells you that the Rockcastle County Board of Education is in debt. The Rockcastle Board of Education does not owe one cent beyond this current year's revenue. The records are an open book for the tax payers to look at any time you choose.

No. 3. Mr. Lear says that our County Superintendent is receiving \$3000. per year salary. I will ask you, this is too much, since the Superintendent of Mt. Vernon Independent School alone is receiving \$3600. per year and he just has one school under his supervision.

Mrs. Miracle our County Superintendent, has approximately seventy-five schools under her supervision. The one school alone which is larger than Mt. Vernon School, namely Brodhead School. I feel that it is a shame for our County Superintendent to receive a salary of \$600. less than the Superintendent of Mt. Vernon City School, but I am always ready to economize and save the taxpayers money in every way possible.

REA Representative Visits Mt. Vernon

A representative of the telephone division of the R. E. A. was in Mt. Vernon Monday and accepted the application of the Rockcastle County Telephone Co-op for a loan to build a new telephone system in the county.

The R. E. A. representative, G. H. Goetting, came to Mt. Vernon from Washington, D. C. and personally accepted the map prepared by the local co-op.

The next step in the maze of red tape to be untangled before a new phone system can be started in the county is by the Public Service Commission.

According to authoritative sources, it will be the Public Service Commission to determine if Rockcastle County has an adequate phone system or if a new system would parallel existing lines.

Clinton Helton, student at Eastern State College, has been appointed Second Battalion Commander of the school's ROTC Unit.

R. McClure's Play Will Be Given at U. of K.

Two one-act plays by Raymond McClure, Mt. Vernon graduate of the University of Kentucky, will be presented at the last war, and Stitch in Time, a satire on Washington.

Nazarens Celebrate Fourth Anniversary

It was a great day Sunday for the members of the Nazarene Church.

The occasion was a special fourth anniversary birthday celebration and building fund rally. Members of the church had been asked to bring special birthday offerings to the building fund, but no one expected the overwhelming response. Not only did members bring the gifts to bring the quarters and dollars, but from every side. When the services were over the church had \$152.35 in cash and pledges amounting to \$560.

But that was only half the story. In Monday morning's mail there was a check for a hundred dollars, from a friend of the church in New York City, Mrs. Emil Anderson of New York City had heard about the church's building fund and rushed to do her part.

A hundred dollar pledge also was received from Mr. and Mrs. Howard Follins, friends of the church from Fredericktown, Ohio. The Follins attended Sunday's services and were so impressed with the response of the church members that they promised a hundred dollar check within the next month. So with the New York donation and the pledges, the church now has close to three-hundred dollars in the bank and more than five-hundred coming in.

Rockcastle Artist Listed In Who's Who

Disputants' Bert Potts, writer of murals and portraits, now has achieved one of the highest honors of an American.

Mullins has been listed in the latest publication of Who's Who, released by the A. N. Marquis Company of Chicago, Ill. since 1889 of the well known biographical reference book, Who's Who in America. This volume to be issued by the company and includes the Disputants artist with other famous citizens of the south and Southwest.

Mullins was born at Disputants on April 29, 1901, and is the son of Mr. Vernon Mullins of Mt. Vernon. His commitments include the painting of a mural for the Southern Highlanders, Inc., Rockfeller Center, New York City, as well as murals for Renfro Valley and other enterprises in Kentucky. He also is noted for portraits and easel paintings for private collectors.

Baptist Brotherhood Forming Boys' Group

Plans for organizing the boys of the Baptist Church into a Royal Ambassadors group were discussed at the meeting of the Baptist Brotherhood Friday night at the church. The organization will be for boys between the ages of 9 and 16, and carried out by the Boy Scouts. Walter Hagen will serve as group counselor.

The Brotherhood also made final plans for the erecting of signs on all highways leading to Mt. Vernon. The signs will invite visitors to attend services at the Baptist Church.

The Brotherhood meeting was attended by 26 members and four visitors from the Livingston Baptist Church. The names were served by the Ruth Bible class of the Mt. Vernon Church.

Rumor Correction In Interest of Carlo Saylor

It has been rumored that I am not for Carlo Saylor for a Board Member of a falsehood. I am backing him 100 per cent for reelection and am asking all my friends to vote for Carlo Saylor.

To Voters of Educational District Number One

Rumors have been started that the Livingston High School will be moved to Mt. Vernon. Let me say now that this is not true. I am for the Livingston High School where it is 100% correct to see it right under the And go on record to that effect.

Dr. R. G. Webb is already committed by his own writing to support a superintendent, as you can see by his own statement in the Mt. Vernon Signal. I have not committed myself to support anybody for this position and will not do so in an office, if elected, with an open mind and with the interest of the people of the county at heart. If a man goes as Dr. Webb has already done, commits himself before being elected, I'm asking you people if you will not play politics? I will not do it. I will not do it the proper time to elect a superintendent, which will be two more years. Can a man honestly see it is right under a commitment made and to be kept two years from now? We don't know what might happen (Continued on page 4)

#### MIXING COLORING WITH PLASTER

Question: We are going to have our new home plastered, and I would like to know if this integral coloring mixed in with the plaster is a good thing to have done.

Answer: Yes, I consider it a very good way to get color on your walls without having to do a separate painting job afterwards. It's the sure of a uniform color, and only the factory-mixed material. Color mixing of plaster "on the job" is not always satisfactory.

## WEEKLY NEWS ANALYSIS

# Peace Talks Proposed by Stassen; U. N. Forces Cross 38th Parallel; High Prices Weaken Defense Plan

**EDITOR'S NOTE:** The following analyses are prepared in these columns, they are those of MONTAGUE NEWBORN, Editor of the Washington Merry-Go-Round, and are not necessarily the views of this newspaper.

Harold E. Stassen, president of University of Pennsylvania, as he announced contents of a message he sent to Soviet Premier Joseph Stalin proposing that they confer and urging Russia to "step the drift to war." Stassen's message was delivered to the Soviet embassy and a copy to the state department.

### STASSEN: A Just World Peace

Harold E. Stassen, president of the University of Pennsylvania and twice an aspirant for the Republican presidential nomination, stepped in where angels fear to tread.

The former Minnesota governor wrote a letter to Premier Stalin suggesting that they confer on steps that need to be taken to achieve "a just world peace."

Stassen was quick to point out that his letter was written without consultation either with President Truman or the state department; that is, Stassen had written to Stalin in his private capacity and the letter had no official imprimatur.

Stassen declared that, if his bid was successful, he would have "four or five of this country's top citizen leaders" accompany him to Moscow for the conference.

There is a possibility that Stalin might accept Stassen's proposal. In fact, some quarters believe the Russians will jump at the chance. If for nothing else, at least for the opportunity to pound out the old propaganda line that the Soviet is anxious for world peace.

There is little possibility, however, that anything constructive will come of such a meeting. Whatever Stalin and Stassen's delegation might agree upon would have no official standing and in all probability would not coincide with American foreign policy.

As could be expected, Stassen's letter has caused the political overtones immediately. One Democratic spokesman pointed out that the initiative of any such project probably belongs with the state department.

### Headliners

President Truman who is becoming famous as a letter writer, wrote to his old friend Colorado State Senator Neal Bishop, "I wouldn't appoint John L. Lewis delegate."

"Remember boys—he's a wily old cuss. He looks like Hill and acts like Hill!"

He's a defender of world renown. Gashing and running from town to town.

"Who is this old man all that raises hell in committee today? Open the door and let him in. Hear him speak straight from the chest."

"The President could ill afford to have more brains in the dog department than in the department of state," replied the UMW boss with his usual bark and bite.

"We want no bases there. We do not want to and will not threaten any other country through the temporary presence of American troops in Korea on a U.N. mission," Warren R. Austin, American delegate to the United Nations told the general assembly.

### RISING COSTS: Cut 750 Jet Fighters

The loss at the housewife that prices have climbed beyond any reasonable or sensible level was taken up by the air force which reported between April and September increases weakened the force's purchasing power by an equivalent of 700 F-86 jet fighter planes.

The under-secretary cited many examples. Among the increases were crude rubber, 128.9 per cent; aluminum, 2.9 per cent; copper, 23.6 per cent; tin, 32.9 per cent; plus signs of accompanying wage rises as another basic factor in cost estimation.

It all boils down to the fact which the housewife has long known: that all appropriate steps be taken to insure conditions of stability throughout Korea.

"That U.N. forces should not remain in any part of Korea other than so far as necessary to achieve some other aims of the plan."

### Defense Line

Defense department officials and civil defense planners, met with heads of more than 53 women's groups at a meeting in the national security resources board headquarters in Washington.

Defense extension service was supplying U.N. flag-pattern kits to 641 and women's farm clubs and urging members to become "modern Betty Bosses" by making such kits at home.

Said an agriculture department spokesman, "The proposal is to display U.N. flags parallel to the American flag, just as it is done by General MacArthur."

### U. N. Flag 'Superseding' Old Glory

To most people it was amusing, but to the department of agriculture it was a matter of national importance.

The U.N. flag, through its national commander, accused the agriculture department of "superseding" the United States flag to take the place of Old Glory over the nation's territory.

The commander said the agricul-

### Fireside Chat Proposed

SECRETARY of State Acheson has been urging President Truman to deliver a fireside chat warning the western world against falling for the Russian peace offensive.

Acheson fears that victory in Korea will lure Americans into forgetting the western Europe is still Russia's No. 1 objective and that to let down now would prove disastrous later. Therefore, he has suggested, the President give a blunt talk to the people, perhaps on Columbus Day, and in this way explode Moscow's peace talk.

Acheson wants the President to point out that Russia still has 73 divisions in eastern Germany—15 of them armored—and is stockpiling huge quantities of food and raw materials—something you do only when you are preparing for war.

### Senate Poof Laureate

Scott Lucas, the hard-boiled senate leader, is one thing; but Scott Lucas, the character, is another.

Most people don't know that when the senator from Illinois gets fed up with long drawn-out committee hearings he scribbles lyrics. Here is one he turned out when the senate was tied up in a table-thumping debate last week.

"Who is this old man all that raises hell in committee today? Open the door and let him in. Hear him speak straight from the chest."

"Remember boys—he's a wily old cuss. He looks like Hill and acts like Hill!"

He's a defender of world renown. Gashing and running from town to town.

### Korean Costs Increase

Most people don't realize that the cost of the Korean war to the taxpayers has been increased by about five billion dollars since the war broke out. A major factor is 1. Unpaid work by manufacturers and raw-material dealers has hiked prices. 2. President Truman's demand for more power by congress, has failed to invoke price controls.

As a result, it now costs the armed services more for their needs, without exception, than they paid before the Korean outbreak. Probably the most shameful of the modern increase is in the price of medical and surgical goods, urgently needed to save lives in Korea.

The average patient in demand for an instrument and medicine cabinet that cost only \$195 before the Korean war. The price of a patient's medicine cabinet is now \$300.

And the price of a patient's military hospital, has shot up 114 per cent. Even rubber surgical gloves for operating on wounded soldiers have increased in price from 17 to 22 cents per pair.

The high-cost aviation fuel that keeps our planes flying in Korea costs 30 per cent more than before the war. At the same time, fuel oil has shot up 54 per cent. The air force is also paying as high as 175 per cent more for resistors, actuators and other electronic spares for aircraft, and the navy is paying 10 per cent more for the same items.

### Business As Usual

In addition to paying 62 per cent more for zinc, the army and navy had to get before they could order any more zinc for the urgently needed in Korea. Assistant Secretary of the Army Alexander and Assistant Secretary of the Navy Robert Anderson had to be assured the zinc companies in order to get military orders filled.

Believe it or not, these companies—Amcozinc, Sullivan Mining, American Smelting and Refining, and American Zinc company of Illinois—wanted to take care of their civilian clients first rather than risk losing business. Now the same companies are protesting against supplying zinc for the nation's strategic stockpile.

The basic commodities used in the manufacture of military brass are the first to skyrocket after Korea. Crude rubber shot up 163 per cent, with some British companies charging as high as \$60 per ton for the pre-Korean price. The price of wool, so essential for the freezing Korean winter, increased 100 per cent. For the summer uniforms shot up 50 per cent. Steel scrap, which sold for \$24 a ton before the Korean war, now sells \$28 per ton.

Here are a few other comparisons between the prices the armed forces paid before and after the Korean war broke out: 1. Steel, up from \$250 to \$810 a set; radish training sets, \$84.90 to \$289; shipping boxes, \$2 cents to \$1.24 each; five-gallon gasoline drums, \$1.79 to \$1.98 each; khaki trousers, 74 cents to \$4.26 a pair; adhesive tape, 20 cents to \$1.24 a roll; fire hose, \$114 to \$23.10 per 50 feet; ground interlogarol, \$1,048 to \$2,003 each. These are only a few of the prices the armed services are paying.

**If You Don't Want Tax  
Doubled Vote for Lear**

Mr. Saylor, let's face facts in this past week's issue of the Mt. Vernon Signal you said the schools and Board of Education didn't owe anything beyond the current year's taxation. Doesn't the board owe \$32,000.00? Don't hedge on these questions, answer them so the people can understand. Just answer Yes or No. You say you are solely interested for the school children's benefit. How many sisters and in-laws of yours are teaching in the county schools of which you are a member of the board? Wasn't one of them, your sister, petitioned out by the people where she was going to teach

in the year of 1949? Didn't you push it over for her after 90% of the parents said they didn't want her? Aren't things of this sort the real interest you have in this school election and being a board member? Don't you have out promises now to teachers if you are elected? Isn't that the way you are trying to get votes? Isn't Daniel Boone Saylor your chief sponsor for board members? Hasn't he attended all the board meetings? Haven't some of the members of the board had to threaten him with the law to keep him away from board meetings? Didn't Boone Saylor offer a certain teacher in the county the Principal's job at Livingston after the board had rejected the present one? Didn't he offer him \$2400.00 a year if he would accept this job? Didn't Boone Saylor guarantee coal contracts to certain individuals? Doesn't he spend a good part of his time conferring with the Superintendent? Isn't Daniel Boone Saylor a cousin of yours? Isn't he making a house-to-house campaign in your town? Isn't Daniel Boone Saylor the self-

called Biggest Politician in Rockcastle County? Please answer the above questions straight from the shoulder. The people of our district are entitled to know the answers. Now let's get to the real issues. I repeat that the present board has gone in debt \$32,000.00 and that when the tax levy was raised from \$1.25 to \$1.50 there was a surplus of \$20,000.00 (according to the report made to the Fiscal Court that year). The board now has spent \$52,000.00 in the past two years, over and above the revenue taken in. I am reliably informed and request for the increase from \$1.25 to \$1.50 was made by the board to the Fiscal Court because there was a surplus of \$20,000.00 and there was no provision made to increase teacher's salaries. The board now gets \$49,000.00 equalization money from the State. Have you teachers been granted any increase in your salary accordingly? It is now being rumored that in order to take care of the indebtedness that if the present board remain in control of the schools next year they intend to ask the State to re-assess the property in the county. If that happens a person now paying \$50.00 would be increased approximately 2 1/2 times that amount, as the assessment for this county is just above the 40% level of the true value according to State Reports. Do you voters want a thing like that to happen? Don't we pay enough and too many taxes the way things are now? If you re-elect my opponent and this happens, don't say I didn't warn you. The board has a perfect right to ask for a re-assessment under the law. I want to go on record now as being against that and if elected, I will do all in my power as a board member to see that it is not done. Mr. Saylor may try to deny this until after the election, but be assured it is rumored and with good foundation. Mr. Saylor is already committed by his own writing to support a superintendent to certain individuals as you can see by P. S. under his statement in the Mt. Vernon Signal. I have not committed

myself to support anybody for superintendent. I am an office, if elected, with an open mind and with the interest of the people of the county at heart. I am not running as Mr. Saylor has already done, committed himself before being elected. I am asking you people if you are still playing politics. So help me I'll not commit myself until the proper time to elect a superintendent, which will be done in the next two years. Can a man honestly do what is right under a commitment made to be kept two years from now? We don't know, but I might happen within two years, but Mr. Saylor is bound by his word to hire a superintendent that far ahead that will try to get the hands of children and the taxpayers for two years to come. That is not our form of government, that is not what we believe in. My mind is open and will be at all times and I will always work for the best interest of all the people. Mr. Saylor and his cohorts are telling the voters that I, and some politicians at Mt. Vernon, want to move the Brodhead school to Mt. Vernon. Let me say now that it is not true. I am for the Brodhead School to stay where it is 100%, and go on record to that effect. So far as politicians in Mt. Vernon being for me, I would like to see you, Mr. Saylor, to tell the people who they are for. Isn't one of the so-called politicians in Mt. Vernon saying a word in this election, except the well-called Big Politician, Daniel Boone Saylor, who is for you? In conclusion, I wish to say that I was born and raised in this county, my parents before me, and all my forefathers, and that we have always been law-abiding citizens. I solicit your support and will make an officer worthy of your choosing.

**To The Voters of School District Number One**

The greatest improvement in the County School history was made in 1949 when our Independent School Board voted to go in the County system. I was selected by the County Board to serve with them, and after becoming a member, I worked hard with the rest of the Board and Superintendent to get Brodhead in the same system with us, which they did after three meetings. Then with the Board, I helped to get the construction of six new classrooms for Livingston School, and also additional buildings for Brodhead School, as well as consolidations and improvements for rural schools.

I have served on school boards at various times all of my life in Livingston, and I want to tell the people of Livingston and District No. 1 that my friend, Mr. Burgess Robbins, has done more for Livingston and District Number One than has been done during any other administration in the history of our County.

My opponent's papers and filed them so he could run as a member of the School Board. I suppose my opponent is for Mr. Robbins for Superintendent. Mr. Robbins is telling the people that Calvin is his man and I suppose he is. I elected to this office. I promise you that Livingston, District Number One, Brodhead and the County schools will have what little strength, knowledge and experience, I have gained over all of the years, for the betterment of all the schools of this County. It is a hard, unthankful job with plenty of work but my life has been spent to help others, and I want my remaining years to be spent in the same way.

Your vote and influence will be appreciated.

Your friend,  
Dr. R. G. Webb.

LETTER FROM C. SAYLOR (Continued from page 1)

I have done everything in my power to improve the schools in my District. I have worked in harmony with our present Superintendent and the rest of the Board of Education to have two County High Schools brought to an "A" accredited standing. Brodhead and Livingston.

I felt like my district would be honored to have one of these "A" accredited High Schools for our boys and girls.

If you people will re-elect me I will do my best to help every school in my District every way that I can.

You people who live in the various school district in my Educational District try to let me know your needs and I will do what I can to help you as soon as possible.

Now I wish to say especially to the people of Brodhead that it is my firm conviction if you elect Givens Lear and he suc-

ceeds in making Burgess Robins, superintendent that you people of Brodhead will lose your High School. I hope as possible before election day and I earnestly beg of you your support.

## Good Dairy Barn Lighting Essential

### Speeds Up Work, Aids Sanitation Problems

Good lighting in the dairy barn is not only convenient, but necessary. For it speeds up work and helps the dairymen with their sanitation problems.

Farmers, therefore, are cautioned by agricultural engineers to wire their barns so that they have plenty of illumination on the job, around the job and going to and from the job. For these purposes, it is recommended that lighting outlets be located every 12 feet on the center line of the litter alley and every 20 feet on the center line of the feed alley.

The above picture illustrates lighting outlets at 12-foot intervals along the center line of the litter alley and every 20 feet on the center line of the feed alley.

If more illumination is desired than can be obtained from the above plan, a second line of lights can be placed in the litter alley over the hind quarters of each row of cows. Flood lights on the outside corner of the barn, or conveniently placed yard lights, will help prevent accidents by illuminating the farmer's path from the barn to the house. If a milk house loading platform is used, it also should be well lighted.

**Individual Lifetime Meat Quota Set at 55 Animals**

Your lifetime quota of meat in terms of live animals represent 33 hogs, 10 lambs, 8 steers and 4 veal calves, a livestock publication reports.

That's provided you live to be 63.3 years of age—the life expectancy of a man born in the United States today.

The data was based upon actual consumption of the amount of meat eaten by the average person over a 25 year period. Since the turn of the century, average per capita meat consumption has been 67 pounds of pork, 61 pounds of beef, 7.5 pounds of veal and 6 pounds of lamb.

**Eye-Gate**

"THE STRANGE thing is that Christians can be seen taking the greatest of pains picking out the right food for their dogs and cats, and yet never exercising the least choice in what comes into their minds for eye or eye. But when it comes to picking out something good for their minds, really going to the trouble of selection, and paying out folding money for it, how many, even Christian people, will do it!"

There have been no outbreaks of the disease since December, 1949.

**Fresh Market Vegetable Tonnage Tops Last Year**

The total tonnage of vegetables for fresh market during the 1959 summer season was approximately 4 per cent more than last year, the United States department of agriculture reports.

Substantially larger quantities of onions, watermelons, and cabbage, and more lettuce than last year, were noted in the report. Tonnages of celery, tomatoes, and peas were down somewhat.

## What's Your Intake?

Lesson for October 29, 1959

Few PEOPLE would care for a diet of sawdust, mixed with old bacon rinds and with carbolic acid for dressing. Yet some people are very careful of what goes into their stomachs as astonishingly as they are careless about the intake of their minds.

What goes into your mind is dangerous for more, and lasts longer, than what goes into your mouth. What you eat can kill your body, that is, Dr. Foreman but what you think, what you read, what you hear, can kill your mind. It can even kill your soul. You can afford to be particular. Down at the Cracked Cup Cafe they give you no choice. If you don't like the 50c dinner you can walk out; and if you are at all particular you will walk out. But at the best restaurants you are offered a wide choice, and the experienced diner-wit will read the menu carefully before ordering.

Are you a Christian? Then don't feed your mind at the mental equivalent of the Cracked Cup Cafe. Go for a better spot. The beauty of food for the mind is that the best costs no more. The best foods for the table are rather expensive, but a few of them—foods, soul-foods, are not.

**Ear-Grate**

"WHAT you listen to, good for your mind; what you hear, bad for ear! A woman who had roomed in another woman's house for some time was looking for a new place. Her old room was inexpensive, sunny, convenient, clean; there was nothing wrong with the room. But she had to listen to the landlady every day, and from her she never heard good of any one.

"If I stay there any longer I shall be crazy," the roomer confided to a friend. "She'll get me to thinking the way she does, and she thinks everybody's a crack."

In Tennyson's "Idylls of the King" is the tale of the Round Table: "To speak no slander—no, nor listen to it..." Listening to slander, trash, mean and malicious gossip, day after day, is bound to have a serious effect on any one's mind.
