Don't Talk About Troubles; Correct Them Says Mother

When many folks get to feeling badly they just don't know what to do. They fret and stew around, tell their neighbors, their friends and their family how badly they feel—and they usually do feel miserable. But they need not. They can help themselves any by telling other folks how they feel. They feel all the time. It is a most important thing. Folks don't want to be around a fellow who is just a bundle of nerves. They act that way. Now, for example, Mrs. Zina Lee Bowman, Route 6, Cless Ferry, Nashville, Tennessee. When she got to feeling badly, she began taking HADACOL and found by taking HADACOL she gave her system vitamins B1, B6, Nicotinamide and iron in which she was deficient.

Here is Mrs. Bowman's own statement: "I was so weak I could hardly do my housework. I am 30 years old. I am the mother of five children. I was nervous. I hardly wanted the children to speak. I had to rest after I got breakfast and before I cleaned my house. I have taken almost 4 bottles of HADACOL, and I feel fine. The children can make all the noise they wish, and it doesn't bother me. In fact, I join them in their games and other games. We are a happy family," thanks to HADACOL. Your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postage 15¢. Whether you want a 50¢ hospital economy size or \$1.25 retail size. Remember, more than 100,000,000 HADACOL units are 100% satisfied. —Adv. © 1950, The LeBlanc Corporation.

CONSTIPATION GONE—FEELS LIKE OLD SELF

"For the past 3 years I have eaten ALL-BRAN every morning for breakfast. It's no mean trick for a man my age (73) to be regular. Thanks to ALL-BRAN, I am now a regular. I am Wm. H. Tomlin, Sr., 124 Brown St., Winterset, Mo. One of many testimonials from the ALL-BRAN users. If you, too, suffer from constipation due to lack of dietary bulk, get an ounce (about 1/4 cup) of crispy Kellogg's ALL-BRAN daily, and drink plenty of water. CIVIL DEFENSE Regional, State Training Centers Planned in Civil Defense Program

(This is the fourth of a series of articles on civil defense for the Signal. Write to the newspaper editor, 1000 Mt. Vernon Signal, Mount Vernon, Tenn., for a copy of the newspaper.)
By WALTER A. SHEED
WASHINGTON, D. C.—Authority in the line of command for the tremendous civil defense army now being built is being transferred from the President, through Civil Defense Administrator Millard Caldwell, to the 48 state civil defense directors and down the line to the appointed officers in cities, towns and counties throughout the nation.

National defense against atomic, biological and chemical warfare rests upon thorough training to stage in a full scale staff college to be established for top civil defense planners and administrators. The college will serve as a source of all latest information. Regional and technical training centers are also planned where this information will be disseminated in the civil defense training programs in the states and local communities. The technical centers will be staffed by thoroughly trained officers in all phases of the work and will provide means for standardization of the technical and special training of the staff college. A prime factor for successful mutual aid and mobile support which require a force of uniformly trained civil defense workers.

Graduates of the federal technical training centers will train other civil defense workers in the states, who, in turn, will train the local volunteers. Under the program, two kinds of training will be provided—general training and specialized training. The detailed knowledge and skills to carry out

UMPHREY BOGART proudly boasts that some day his two-year-old son, Stephen, will be a multimillionaire. Bogart has made sure of that by setting up a trust fund for Stephen, into which he will give \$2,000 every week. The tough guy of the movies will receive for starting in the Ziv Company's trust. When reminded that Stephen will have to contribute heavily toward the upkeep of Uncle Sam, Bogart retorts that he'll be able to afford it.
Margaret Sheridan, discovered five years ago by Howard Hawks, has been studying hard all this time in preparation for a picture in which she makes her debut as the feminine lead in Hawks' "The Thing," for RKO.
Thelma Ritter's first starring film, "The Matting Season," has a fine cast, good direction, and a familiar story. Miss Ritter is better as a supporting actress. Gene Tierney, John Lund and Miriam Hopkins are excellent.

Publicity of Punishment Will Halt Delinquency

By Wright A. Patterson
YOUTH DELINQUENCY is growing and spreading rather than abating. In the cities, considerable areas are over run with youth gangs who terrorize the public by committing many depredations, up to and including murder. But youth delinquency and the organization and operation of gangs is no longer only a city problem. It has spread to the towns and villages.
My home town is a rural community. In it, the automobile owners over a considerable period suffered the loss of auto parts, spare tires, hub caps, hood ornaments and other things of value that could be easily detached. These thefts were traced to a gang of 12 high school boys, and the police of the county arrested them. Though some of the names admitted to the crime, they were locked up to await trial. Instead the names and addresses of the boys were taken, and also the names of their parents. They were given instructions to appear at the juvenile court, accompanied by their parents, the following day.
The boys and their parents were present, and the police presented convincing evidence to which no rebuttal was offered. After sentencing each of the boys to one year in prison, the court listened to a plea for clemency made by the parents. The judge suspended the sentences, and sent each boy under the parole of his parents for the one year

THE A DULL FELLOW

By Richard H. Wilkinson

"IT WAS PROBABLY outside," I remarked, "that I was looking around the cabin."
"Why?" Capt. Rhodes asked.
I nodded toward the walls. At least a half dozen photographs of Arthur Kimball hung there.
"Any man," I remarked, "who was so vain as to take all those pictures of himself first at first aid stations and then at the hospital, must have been vain about other things."
"For me," he'd probably suffered financial reverses or something, and was too proud to face the facts, so he got himself fixed up about it," I decided.
The captain looked down at the lifeless body of Arthur Kimball. He had apparently been in the first aid station, where a bullet wound in his temple. An automatic was clutched in the fingers of his right hand.
"The captain looked at the pictures."
"I'm probably right, don't you think, Captain?" I said.
"Captain Rhodes," I said.
"No," he said, "I don't." He turned abruptly and went out.
Well, this only confirmed my ideas about the Captain's stupidity. To me the thing was dead and open.
The first mate, a tall, rugged individual named Brooks, told me to go to my quarters and stay there until it was called.

THE ENTIRE WORLD IS UNDER THE BLIGHT OF SIN
 Text: Romans 3:23 "For all have sinned and fallen short of the glory of God."
 Christ for the World—Everywhere one goes whether among the rushing cities of America, the countless villages of the Orient, or little hamlets nestled in the jungles of Africa, it is the same story of human failure. Sin in all of its myriad ways has gripped the life of man. No area is immune from its blighting influence. Look all around you, upon the conduct of the human society, and you will not doubt the veracity of this statement of Dr. James Cauthean.

We are dealing with only the extremities of man's need until we deal with the battle against sin. Man must have a savior who can break the shackles of this bondage and set him free. "If the Son of man shall set you free, ye shall be free indeed." It is not right, it is not honoring to our Lord that nearly two thousand years after Calvary, hundreds of millions in this world should know nothing about our Saviour. To many of them, his name is utterly unknown. To others, there has been made mention of someone called Jesus. They have heard of a book called the Bible; they have heard of churches, but it means absolutely nothing to them. They continue to go to their temples, burning their incense to powerless gods, and living in dread and superstition. In America when the Church exercises certain Moral

restraints, the world be alcoholic satec and lustily indelicent fly-by-night human beings become indignant when such measures are carried out for their security, and their well being.

Christ alone is the answer to the world's need because He projects amid human suffering a ministry of kindness and mercy. During the Southern Baptist's Simultaneous Revivals at Mt. Vernon, Christ is the Answer. "Look for the billboards and the newspaper advertisements."

Where Christ is not known, the other man's trouble is the other man's trouble. Until Christ comes into the heart, there is no realization that other men's burdens must be lifted. When Christ comes in, however, the individual comes to know he must exhibit his love for Christ in his love for his fellowmen. Out of this principle, there flows a great stream of loving kindness. Shining like lighthouses in the darkness are Christian hospitals, schools, orphanages, homes for the aged, schools for the blind, and many other ministries of Christian compassion.

Today the world is being started by the fanatical zeal of the communist soldier who gives himself with thorough abandon for the sake of his enterprise. "Who follow Jesus, cannot find any easy way out, for bringing the world to Christ. The Saviour said, "If any man would come after me, let him deny himself and take up his cross and follow me." Too many come forward to accept Christ with their lips, and upon discovering that they must deny the things of the world, they will not go with Jesus all the way.

The world cannot be won to Christ simply with dollars. It must take the life blood of the

finest of our men and women who are willing to give their lives for Christ. The issue is now being debated: "Shall we Draft our Women?" War calls for greater sacrifices, and little mercy granted. Let's deny ourselves of second rate things, and seek first Christ, and we will see His Spirit lift the Blight of Sin.

The Miracle of Blood
 Two years ago young Michael Reeder, of Washington, D. C., was badly burned over more than 70 per cent of his body—usually a fatal injury. For more than a year he lay in a hospital bed fighting for life. During that time more than 100 pints of blood, supplied through the Red Cross regional center, were used for transfusions of whole blood and fresh plasma. In addition, two other blood derivatives, fibrinogen and thrombin, were used to help "glue" skin grafts on the resurgenter's body. Today Michael runs and plays again—a thrilling example of the triumphs of modern medicine and the miracle of blood.

Doings At MVHS

By Betty Jo Childress

Things have really been happening in the Senior Class this week. We had a class meeting Wednesday to make plans for the Senior trip. The class has decided on a trip to Atlanta, Ga., which will include stops at Chattanooga, Knoxville, Norris Dam, Smokey Mountains and various other points of interest along the way.

The class is hard at work now raising money for the trip. Three representatives from Kern's Bakery were here Wednesday and one of the Friday girls went with them around town asking people to sign a pledge that the next ten loaves of bread they buy will be Kern's. For each pledge, the class received a reward to be added to the fund for the trip.

First Regional Game Tonight At Somersett

The little town of Brodhead is the spotlight today as the Brodhead Tigers prepare to play their first game in the Regional Basketball Tournament tonight at Somersett. The Livingston Blue Devils also made the grade, but lost their chance for regional glory last night when they lost a hand-fought game to Lily. The Lily five beat the Blue Devils by only four points, but Livingston had gone the regional still sweating from the 4-4 defeat handed them by the Brodhead Tigers in the semi-finals of the district tournament at Stanford Saturday night.

Alma Jean Cloud Wins County Spelling Contest

Alma Jean Cloud, seventh grade student at the Pine Hill School, won the county spelling contest held Saturday at the Administration Building and will compete for state honors in April.

Runner-up in the contest was Janice Robbins, fifth grade student in the Sand Springs School. Judges of the contest were members of the teaching faculty of Eastern State College.

Stanford-Mt. Vernon Game

The Stanford-Mt. Vernon game was one of the closest in the tournament. At half-time Brodhead led 20-12 over the Blue Devils, but five minutes after the start of the third quarter, Mt. Vernon had tied the score 22-22. The Stanford boys pushed forward to regain the lead 41-35 by the time the third quarter ended, but Mt. Vernon again started moving up in the fourth quarter.

Livingston Victories

In the Livingston-Liberty tilt, the Liberty team had a five-point lead at the end of the first quarter, but Livingston had tied the score 25-25 at half-time, and the third quarter game at a see-saw in the fourth quarter, with the score tied at 34-34 and again at 36-36. The victory was not assured for Livingston until the final quarter.

County Agent's Notes

By Robert F. Spence

To All Strawberry Growers
Farmers, 4-H members and all others who plan on having strawberries to market through the Strawberry Growers' Association should make arrangements for cups, crates and a rubber stamp (with name and address on it) as soon as possible. These things should be purchased now and be ready when strawberries are ready for market. Any strawberry grower who doesn't know where to get cups, crates and stamps call at the County Agent's Office in Mt. Vernon for information or see Roy Brown. All 4-H club members are requested to contact the County Agent about the marketing of their berries. This should be done right away. The best time to set strawberries is between March 15 and April 15. Before the plants are set the land should be prepared. The land selected for grow plants should be where corn or tobacco was grown last year, if not the plants should be put on land where it's been under cultivation or practically new ground.

Land is prepared just like preparing for a tobacco crop. Use at the rate of 1000 to 1500 pounds of fertilizer per acre. Broadcast fertilizer and disk it in before setting plants. The rows should be placed four feet apart and plants set three feet apart in the row.

The Blakemore, Tennessee Beauty seem to do well in this county. The Blakemore is more susceptible to yellow than the Tennessee Beauty. Most farmers this year, so far, are planning to set Tennessee Beauty because they're freer from yellows and produce as much per acre as the Blakemore. If your plants

home fine.

Misses Wanda Saylor and Joyce Laws were at home from Louisville over the week-end with their parents, Mr. and Mrs. Oscar Saylor and Mr. and Mrs. Otis Laws.

Mrs. Ruth Cox moved to Covington last week.

Mrs. Lizzie Scroggins of Ottawa was the guest of her niece, Mrs. John R. Bishop, last week.

Donnie Crawford was at home from Berea College over the week-end with his parents, Mr. and Mrs. Henry Crawford.

have not been ordered, order now so as to be delivered in time to set them out between March 15 and April 15.

Farmers and club members who set strawberry plants last year should set another patch of equal size this year if they expect to stay in the strawberry business. It always pays to have a new patch coming on for market.

For a bulletin on "Growing Strawberries in Kentucky," come to the County Agents' office in Mt. Vernon.

Green Pasture Meeting

FARMICALS

Sponsored By KESSLER JEWELERS

Kentucky burley tobacco producers were told at Lexington Tuesday that they could increase their acreage 11.3 percent above their 1950 allotment. The PMA said that farms with allotments last year of 3 acres or more will be increased 1 but no increase would be granted on farms with 1 to 4

acres. The Department of Agriculture is urging the acceleration of community canneries this year. Many canneries have been operating on a reduced scale.

The family garden is as much a part of the total farming program as the commercial crops, says the state director of agricultural education.

Grain prices dropped sharply during the week ended March 1. Wheat showed the greatest decline.

Laurel County Child Is Named Kentucky Easter Seal Girl

Pretty little Yvonne Hodge, of Lily, Laurel County, is learning to walk now, just as an year and a half old youngster should. But she can learn to walk because Easter Seals helped pay for correction of her club feet.

A cute little brown haired girl is the 1951 Kentucky Easter Seal Girl and she is learning to walk as she reaches the twinning age.

Just a year and a half old, Yvonne Hodge of Lily in Laurel County, has spent most of her life in hospitals with both feet in casts for treatment of club feet. She went home to her parents, Mr. and Mrs. Arnold Hodge, at Christmas.

Yvonne was among the first patients to arrive at the Cardinal Hill Convalescent Hospital of the Kentucky Society for Crippled Children at Lexington last August. She was just six weeks old when she first received treatment from the Kentucky Crippled Children Commission.

Brucellosis Is Danger in Work

ALTHOUGH FARMERS are in a constant danger of getting brucellosis from cattle and swine, veterinarians say that packinghouse workers run an even greater risk...

The report, made after a joint survey by the U.S. public health service and the Indiana state board of health, declares that brucellosis can be regarded as an "occupational hazard" of persons whose work brings them into contact with infected animals.

Through use of a blood test, it can be determined if a person has been exposed to brucellosis. Tests showed that as many as 25 per cent of one group of veterinarians either had had the disease or had been exposed to it.

Considerable numbers of packinghouse employees also showed exposure to the disease. Numbers also showed a big incidence of the test and less than two per cent of the women.

Employees of a rendering plant also showed a big incidence of exposure, with some 27 per cent giving positive readings on the blood test.

By What Authority?

Lesson for March 11, 1951. Is it right or wrong? This is a fair question always. But there is another question...

Neither You nor the Crowd. Some Say: Nobody can tell me what to do; I do as I please. There is no authority in me bound from outside...

But whose approval do they want? Under whose jurisdiction, as lawyers would say, do they live? They recognize only that vast and vague authority which is "Everybody."

Well, this is not necessarily so. Fifty million Frenchmen can be proud, or 150 million Americans for that matter...

Calendar, Code, Conscience

NOTHING BEFORE authority, but authority is the end. Some people will not rest a book or see a show or wear a dress or smoke that isn't up to the minute...

There is something true in this, of course. We should by all means obey the laws, and also see that good laws are made and not repealed...

The best laws can never catch up with the morals of the best people. Still other people take as their authority conscience...

God's Last Word

WHAT, THEN, is the highest authority for the Christian? Nothing and no one less than Jesus Christ, who is the living word...

In Jesus' day there were two supreme symbols of God: the Law and the Temple. Jesus not only assumed superiority to the Law but (as our Lesson reminds us) of the Temple itself...
